Para. 139 "In consequence of the numerous applications which have been preferred to us by our servants, on leave of absence in this Country, for advances of money on loans, we think it proper to recal your attention to our Orders in the Military Department of the 26th February 1808 upon this subject. Those Orders declared our determination not to make any pecuniary advances to Officers at home beyond what they are allowed by the existing Regulations of the Service, and you were required to publish them in General Orders to the Army; but as a Resolution of this description, in order to be generally known to a body which is continually receiving an accession of new members, should be occasionally re-published, and being fully persuaded, that a strict observance of this Resolution will prevent much trouble and inconvenience besides loss to the Company, we direct that our Orders above adverted to, be in future circulated for the information of the Army, in the month of January in every year, and we shall take the necessary steps for reminding Officers, who may arrive in England upon furlough, of our determination upon the subject in question."

The General Orders by Government quoted in these Regulations are noted in the margin.

REMOUNT.

1. All horses before being received into the service are to be examined by a Committee which will be assembled, upon the application of the Commissary General, under the orders of the Commander in Chief.

2. Remount Committees will be composed of three or five Officers, as circumstances may allow, selected for the duty, with a Veterinary Surgeon in attendance.

3. They will be guided in their examination of the horses submitted to their inspection by the following regulations.

1. No horse is to be passed for the service under four or above seven years of age, except in cases where from any sufficient cause the Remount Officer has been prevented from producing a horse purchased within that age, before any previous Committee—when if found in every other respect fit for the service, the animal is to be passed upon a statement of age to be furnished by the Remount Officer.

2. No horse is to be passed under the height of fourteen hands, which is the lowest standard at which horses will be received into the ranks.

3. In addition to the above particulars of age and height, the Committee are required to satisfy themselves by careful examination that the horses are in all other respects of a good description and perfectly qualified for the service.

4. The Veterinary Surgeon in attendance is required to report on the soundness or unsoundness of each horse, and to point out any defect or blemish—and generally to give his opinion upon any professional point referred to him by the Committee. It will rest with the Committee, after hearing the Veterinary Surgeon's opinion, to decide upon the fitness or otherwise of each horse, and they are held responsible that none are passed having any defect likely at an early period to render the animals unfit for the service—but in all cases in which the opinion of the Veterinary Surgeon may be overruled by the Committee, it is to be recorded in the column of Remarks, with such observations as the Committee may think fit to offer.

5. It will be the duty of the Committee to see each horse passed by them as fit for the service, branded in their presence with the Company's stamp and the year of admission.

6. After completing their inspection the Committee will proceed to distribute the horses approved and passed, in conformity with the list furnished by the Adjutant General, according to the following rules.

7. Horses for Officers permitted to select from the remount, are first to be chosen from the whole lot, and afterwards assigned to the individuals for whom they are intended, the selection being made in the order in which Officers names appear in the list forwarded by the Adjutant General.

8. No second selection is to be made for any Officer until each has had his first. G. O. G. 19th Sept. 1837.

9. The selection may be made by the Officers themselves, or they may authorise any Officer to make the selection for them—otherwise it will be made by the Committee.

10. Horses selected for Officers are invariably to be branded and entered in the Descriptive Register for the Regiment, before they are delivered over. G. O. G. 19th Sept. 1837.

11. Horses are next to be selected by the Committee for the Horse Artillery, into which no horse should be admitted that is not well calculated for draught.

12. The Dragoons will have the next selection and will take no horse under the height of 14-1.

13. The Body Guard are to have the next choice.

14. In their distribution to the Light Cavalry the Committee will allot the horses in equal proportions from the lots purchased at Bombay, Oossoor, and those bred in the Provinces—taking, without picking or choosing, in rotation as they stand in the Register.

15. It is to be observed that all selections—except for Officers, who may select in person, or by their friends—are to be made by the Committee, and not by any individual member thereof.

16. On the completion of the distribution ordered by the Commander in Chief, Registers prepared according to Form No. 2 will be transmitted to the several Corps to which horses have been allotted.

17. The Proceedings of the Committee are to be prepared in duplicate, the original to be transmitted to the Adjutant General, and the duplicate to be immediately delivered to the Officer of the Commissariat on the spot, who will lose no time in forwarding the same to the Commissary General at Fort St. George, with every explanation which it may be in his power to give respecting such horses as may not have been passed.

18. When horses for two or more Regiments are proceeding together to join their respective Regiments the Remount Officer will mark the number of the Regiment and the number of the horses, with a hot iron, on different hoofs, using his discretion as to the selection of the hoofs and reporting the same to the Commanding Officers of Regiments.

19. The horses will be sent to join Corps under such arrangements as may be ordered at the time by the Commander in Chief.

20. Horse-keepers and Grass cutters will be provided by the Commissariat.

21. The Officer proceeding in charge is required to give his particular attention to the Commissariat Followers sent with the horses to supply them with gram, forage, head and heel ropes &c. during the march, but not to give them any orders affecting the instructions they may have received from the Commissariat Officer.

OFFICERS' REMOUNT CHARGERS.

G. O. G. 19th Sept. 1837.

1. Every European Regimental Officer of the Horse Artillery or Cavalry *on first joining* his Corps, or on returning from Europe, or Staff employ, shall be permitted to select two horses for chargers from the remount,—and Medical Officers, Veterinary Surgeons, Riding Masters, and Troop Quarter Masters, when permanently attached, each one,—on the terms hereinafter specified.

2. No Officer is entitled to select a third charger in consequence of his promotion to a troop, the total number being limited to two.

G. O. G. 19th Sept. 1837.

3. When the remount charger of an Officer shall die, be killed in action, captured, stolen, lost, shot at the recommendation of a Committee, or be reported by a Committee unfit for further service, from age, vice, disease, or permanent unsoundness, his owner will be permitted to replace him by a selection from the next general remount, and in cases where the charger has been reported unfit for further service, without being infectiously diseased, the owner may dispose of him at his discretion.

G. O. G. 19th Sept. 1837.

4. An Officer who finds on trial that he has made an unsuitable selection, may return the horse into the ranks and select another from the remount allotted to the Regiment for the same season, or, he will be allowed another selection from the next general remount, provided his desire to do so be made known to the Commanding Officer of the Corps within one month from the date of the animal joining the Regiment, and provided the horse to be returned be reported by a Regimental Committee as sound and fit for the service as when selected.

G. O. G. 19th Sept. 1837.

5. At any time within twelve months from the date of joining the Regiment, a remount charger may, with the permission of the Commanding Officer of the Corps, be returned for the purpose of being placed in the ranks, if reported by a Regimental Committee to be perfectly fit for the service—but except under the provisions of the preceding paragraph, the Officer will not be permitted to choose another horse in his room, and will merely be entitled to receive back from the Paymaster the full price, or such portion of the price as may have been deducted from his pay and allowances.

G. O. G. 19th Sept. 1837.

6. With the sanction of the Commanding Officer remount chargers may be exchanged between Officers of the same Corps, or, when the full price has been recovered by the Paymaster, may be sold to any Officer of the same Corps entitled to a choice, at a rate not exceeding the original remount price, the sale in that case to stand in the place of such choice, and the seller to be allowed to select another charger.

G. O. G. 19th Sept. 1837.

7. When Officers are removed from one Regiment of Cavalry to another, they may take their remount chargers with them, and the horses so transferred are to be struck off the Register of the one Corps and entered in that of the other.

G. O. G. 19th Sept. 1837.

8. The remount chargers of Officers who may retire from the service, proceed on furlough to Europe, be nominated to the General Staff or any other detached permanent employ, or be removed from a mounted Corps, are not to be sold or taken out of the Regiment to which their owners belonged, unless purchasers cannot be found in the Corps and the horses be pronounced by a Regimental Committee unfit for admission to the ranks, in which cases they may be disposed of at the discretion of their owners.

9. An Officer absent from his Regiment and desirous of returning a remount charger to the ranks of any Corps other than his own, must make application to the Adjutant General through the Brigade and Division for the assembly of a Station Committee. This permission will only be granted when a transfer to the Corps to which the Officer belongs would be attended with manifest inconvenience or expense, and notification of such permission having been obtained together with the date of transfer must be made by the Officer to his Corps, in order that the same may be entered in the Monthly Return and Regimental Register.

10. When the establishment of horses of a Regiment is complete, the transfer of an Officer's remount charger to the ranks is not to take place, without a reference to Army Head Quarters—but in ordinary cases the authority of the Officer Commanding the Regiment is sufficient for the transfer, a duplicate of the Proceedings of the Committee being invariably transmitted to the Adjutant General.

11. No remount charger shall be returned to the ranks without a certificate from the Commissary General of the season of his having been provided from the remount. G. O. G. 29th May 1827.

12. No remount charger shall be disposed of in any way except as provided for in paras. 4 and 5 until the amount of his price shall have been realised to Government.

13. When Officers die, their remount chargers may be disposed of under the above restrictions by order of the Committee of adjustment assembled on occasions of the death of such Officers. G. O. G. 19th Septr. 1837.

14. Horses whose age exceeds 12 years are not to be admitted to the ranks, but may be disposed of at the discretion of the owners or their representatives. G. O. G. 19th Septr. 1837.

15. In all cases where an Officer wishes to select a charger, or to sell, exchange, or place in the ranks, a remount charger, he is to make a written application to the Commanding Officer of his Corps, who, when necessary, will assemble a Regimental Committee, composed of a President not under the rank of Captain, and two Subalterns as Members, the Proceedings of which are required to be countersigned by the Commanding Officer. G. O. G. 19th Septr. 1837.

16. The authority under which Officers chargers are returned into the ranks, exchanged, sold, or struck off the Register, is invariably to be recorded in Regimental Orders and in the Monthly Returns.

17. All applications for authority to select horses from the remount are required to specify distinctly the grounds upon which they are preferred. When to replace remount chargers copies of their Registers are to be attached, shewing the date on which received and the date and manner of casualty.

18. All such applications are required to reach the Adjutant General's Office on or before the 1st December in each year.—Officers who may neglect this rule, though otherwise entitled to selection from the remount of the season, will forfeit their claim, and will not be allowed to select from a subsequent remount.

19. Officers are required to make their own arrangements for the charge of horses selected for them and for their march to join.

20. No remount charger shall under any pretence whatever be used out of the Riding School until properly broken in and reported by the Riding Master to the Commanding Officer fit to join the ranks.

21. Whenever Commanding Officers consider it necessary for the good of the service they are empowered to order remount chargers to be picketted with the horses of the troops to which Officers may respectively belong.

22. The price to be paid by Officers for a horse selected from the remount is fixed at 600 Rupees, and the horse or horses will be at the Officer's risk from the date of selection. G. O. G. 19th Septr. 1837.

23. The above price is fixed without reference to age—and if transferred to the ranks within 12 months from date of selection, the full price paid for the animal will be refunded—after 12 months the provisions of para. 30 come into operation and deductions are to be regulated accordingly.

24. The amount is to be realised from Officers' pay and allowances by Paymasters, in four equal monthly deductions from Field Officers, Captains and Surgeons—and in eight similar deductions from Subalterns, Assistant Surgeons, Veterinary Surgeons, Troop Quarter Masters and Riding Masters. When an Officer has occasion to select two horses, double time will be allowed for payment, and in all cases the deductions are to commence from the first issue of pay after being put in possession. G. O. G. 19th Sept. 1837.

25. Should an Officer die before the full price of his remount charger has been recovered, the horse, if reported by a Committee fit in all respects for the service, is to be received into the ranks, and the amount deducted will be refunded by the Paymasters to the legal representative of the deceased,—but if reported unfit for the service, the horse is to be sold under the orders of the Commanding Officer of the Regiment, who from the proceeds of the sale, will remit to the Paymaster the sum remaining due to Government, and pay the balance, if any, to the person entitled to receive it,—when the sale may not realise a sufficient sum, the balance due to Government will of course be claimable from the estate. G. O. G. 19th Sept. 1837.

26. When an Officer has selected and been put in possession of a charger, he will immediately transmit, in duplicate, a *Descriptive Roll of, and receipt for the horse selected, to the Commanding Officer of the Regiment, who having countersigned them, and caused them to be entered in the Register of Officers' horses, will transmit one copy to the Paymaster within whose range of payment the Corps may be, and the other to the Military Auditor General, G. O. G. 19th Sept. 1837.

27. The Commanding Officer of the Regiment will then direct the Officer in whose abstract the pay and allowances of the individual who has selected the charger are drawn, to insert at the foot of each abstract, until the necessary deductions shall be completed, a notification to the following effect: G. O. G. 19th Sept. 1837.

* Form—*as ordered for Register of Officers' horses.*

Deduct from ——— A. B.'s pay and allowances —— Rupees, being the first (or as the case may be 2d, 3d, 4th &c. &c.) monthly deduction on account of a charger selected by him from the remount of the season —— which joined the —— Regiment on the —— day of ——.

G. O. G. 19th Septr. 1837.

28. At the close of each year the Military Auditor General will compare the certificates with the amount received on account of remount chargers, and will take immediate steps for recovering any sums due on their account which may not have been previously realised.

G. O. G. 19th Septr. 1837.

29. The terms on which remount chargers are in the first instance to be offered for sale to such Officers of the Corps as require chargers, and in default of purchasers to be tendered for admission to the ranks, are as follows:

30. If 6 years old, full price, and if above 6 but not exceeding 12 years, a deduction is to be made at the rate of 10 per cent per annum for the period elapsed since the horse attained the age of 6 years.

Riding Master and.....} 1.
Troop Quarter Master.....}

2. Commanding Officers of Regiments are held responsible that the horses provided by their Officers are in every respect fit for the service, and in no case under the prescribed height—should any appear exceptionable, a Committee of Officers must be ordered for their examination.

3. The first and second chargers of all Field Officers and first chargers of all others, are to be appropriated solely to regimental duties, and Officers are strictly prohibited from employing them for any other purpose.

4. No horse once mustered as an Officer's charger is to be sold or exchanged out of the Regiment without the previous permission of the Commanding Officer of the Regiment recorded in Regimental Orders, which is not to be granted until another horse equally efficient and fit for Cavalry duties shall have been submitted to and approved of by him.

5. An Officer's charger is never to be docked.

6. The names of absent Officers whose chargers are present with the Regiment will be entered in a N. B. at the foot of the Monthly Return.

7. A copy of the Register of Officers horses is to be forwarded to the Adjutant General on the Ist January in each year.

CASTING OF HORSES.

1. Horses unfit for further service will be cast annually by a Committee of Officers assembled for that purpose under authority from Army Head Quarters.

2. Casting Committees are in the first instance to be assembled Regimentally, and are to be composed of the senior or best qualified Officers available, not including the Commanding Officer unless the Committee cannot be efficiently constituted without him.

3. General Committees will subsequently be assembled, by order of Officers Commanding Divisions and Forces, for the final examination of horses, passed by the Regimental Committees, at all stations where more than one mounted Corps may be serving.

4. General Committees are to be composed of three or five Officers, as circumstances may allow, selected, as the senior or best qualified for the duty, from all mounted Corps at the station.

5. At single stations the examination of the Regimental Committee will be final.

6. To all casting Committees, a Veterinary Surgeon is to be appointed in attendance, whose opinion, whenever it may differ from and be overruled by that of the Committee, is to be recorded in the Proceedings.

7. The Proceedings are to be prepared according to Form No. 3 separately for each Corps, and transmitted through Divisions to the Adjutant General.

8. When horses are recommended to be cast for incurable and dangerous vice the Committee must specify the same in the column of Remarks, in order that the Commander in Chief's instructions for their being destroyed may be communicated.

9. It is to be understood that no horse is to be cast as incurably vicious, until trial has been made of castration, unless otherwise unfit.

10. Horses directed to be destroyed as above are to be shot, upon receipt of the order, in the presence of the Quarter Master, or other Officer, whose certificate of the same is to be attached to the Quarterly Return of horses to the Military Board.

11. Horses declared unfit for the service will, on the Proceedings being approved by the Commander in Chief, be delivered over to the Commissariat by their progressive numbers, for the purpose of being disposed of at public auction on account of Government.

12. Prior to such delivery to the Commissariat for sale, cast horses shall be fired on the right shoulder with an iron, edged as a firing iron and bearing the letter C., so deep as not to be likely to grow out.

13. Cast horses will be struck off the strength of Corps from the date on which they are actually sold.

14. When from accident or otherwise a horse may be seriously injured, Officers Commanding Stations or Detachments are authorised to order the assembly of a Committee for the examination of the animal, transmitting in every case the Proceedings (Form No. 4) to Army Head Quarters for the confirmation of the Commander in Chief, together with all necessary explanation regarding the accident.

15. When any horse is discovered to be infected with a contagious disease, he is to be immediately separated from the sound horses, and a report is to be made to the Officer Commanding the Station or Detachment, who will forthwith order a Committee to assemble for the examination of the diseased horse. The Committee to be composed of such Officers as may be deemed best qualified for the purpose.

16. If upon examination it shall appear to the satisfaction of the Committee that such horse is infected with farcy, glanders, or other contagious or epidemic disease, its opinion to that effect is to be recorded in the Proceedings, and should the Commanding Officer concur in that opinion he will confirm it by his countersignature, and order the horse to be immediately destroyed in presence of a Commissioned Officer.—The Proceedings of the Committee are to be made out as in Form No. 5 and forwarded duly countersigned to Army Head Quarters.

17. No horse considered incurably diseased shall be summarily destroyed without reference to Army Head Quarters, unless when labouring under infectious disease which might endanger other horses, or when suffering from accident, such as the fracture of a limb.

18. In addition to the usual signatures Proceedings are in all cases to bear the countersignature of the Officer by whose immediate authority the Committee was assembled.

19. The Veterinary Surgeon is to attend all Committees for the examination of horses, whether Officers or Regimental.

REGIMENTAL HORSES.

1. Every remount horse on joining is to be marked with the number of the Regiment, letter of the troop and the number the horse bears in it, on the off haunch, in the following manner:

6
F. 25.

2. The tails of troop horses are never to be squared—they are to be allowed to grow to a switch, but not to reach beyond the upper turn of the hock.

3. Reports of Alterations and Casualties, prepared according to Form No. 2, are to be transmitted quarterly to the Military Board, and to the Commissary General. G. O. G. 29th May 1827.

HORSEKEEPERS AND GRASS CUTTERS.

1. Horsekeepers and Grass cutters are to be attached to troops—but to be entertained by Commanding Officers, and to be considered as always subject to his orders—they are liable to be removed by his authority from troop to troop, and to be employed upon such *public work* as he may consider necessary.

2. They are not to be employed in the provision of firewood or other articles chargeable to the Petty Contract Fund, nor in any other work properly pertaining to the Saddle or Petty Contract.

Confirmed to the extent of six calendar months' suspension from rank, pay, and allowances.

I am induced to remit the remaining portion of the Sentence not on account of any favorable circumstances in the case of Subadar Omur Sing, whose offences fully merit the full extent of the punishment awarded, but from the consideration that suspension cannot be carried into effect with advantage to the service for so long a period.

GENERAL ORDERS

By His Excellency the Commander in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, 13*th January* 1841.

With the sanction of Government, the Commander in Chief directs the publication of the following "Extract Regulations" for the guidance of the Army.

COMMAND AND RANK OF OFFICERS.

1. All Commands fall to the Senior Officers, whether of Cavalry, Artillery, Engineers, Infantry, or Marines.—In case two Commissions of the same date interfere, retrospect is to be had to former Commissions.

2. When Regiments or Detachments are united, whether in Field or Garrison, the Senior Officer, whether by Brevet or otherwise, is to command the whole.

3. It is to be understood however, that Brevet rank only takes effect when Officers of different Regiments act in conjunction, but never in any case where the Officers may all belong to the same Regiment, on whatever duty employed.

4. Officers having Brevet rank shall do duty according to that rank in the Line and be allowed an overslough for all general duties in their regimental rank, but they shall perform all regimental duties according to their regimental rank, agreeably to the established rules of the service.

5. Officers with the rank of Colonel are not to be included in the roster of Field Officers—a distinct duty will be assigned to them as Colonels.

6. Officers employed as Assistants or Deputy Assistants Adjutant General, or as Town or Fort Majors, or Majors of Brigade, if under the rank of Captain, take rank and precedence as the junior Captains in the Brigade or Garrison in which they are serving.

7. Officers doing duty with a Regiment to which they are not permanently posted, unless otherwise ordered by the Commander in Chief, are to be considered as the juniors of their rank in that Regiment, whatever their Army rank may be,—but they are, in this their regimental place, eligible to hold the temporary Command of the Regiment, or of a Troop or Company, in the same manner as if they belonged to such Corps. They are not however, to draw the allowance for the charge of a Troop or Company until every Officer of the Regiment present and qualified for such charge, is provided for. On all occasions of general duty every Officer will, of course take precedence agreeably to his date of rank in the Army.

8. No General Officer is eligible to the exercise of Regimental Command. G. O. G. 7th Decr. 1838.

9. The Commandant of Artillery, whatever may be his Regimental rank, being in *general Command*, is not eligible to exercise Command of any Battalion. G. O. G. 5th Aug. 1825.

10. The Senior Officer actually present and doing Regimental duty with any part of his Corps is entitled to the Command—but should such Officer not join the Regimental Head Quarters, the Staff are still to remain there and all Periodical Returns are to be forwarded as usual, signed by the "Senior Officer at Regimental Head Quarters." G. O. G. 7th April 1826.

11. The foregoing regulation is not applicable to Officers returning from Foreign Service or from Camp, on sick certificate, and being in temporary charge of sick details. G. O. G. 10th Decr 1830.

12. Officers employed in the Civil Departments of the Army, as hereafter specified, are ineligible to claim or exercise the right of Command by virtue of their Commissions as Senior Officers, without first resigning their civil situation. G O G 234 Aug. 1831.

CIVIL BRANCH OF THE ARMY.

13. Officers employed permanently as Residents or Political Agents, or Assistants to Residents or Political Agents. G. O. G. 7th Oct. 1831.

Officers employed in Civil charge of Districts.

Commissariat Department.
Ordnance Commissariat.
Judge Advocate General's Department.
Stipendiary Members, and Secretariat, Military Board.
Paymasters.
Secretary to the Clothing Board.
Superintendent of the Gun Carriage Manufactory.
Superintendent of the Gun Powder Manufactory.
Superintendent of Family Payments and Pensions.
Surveyor General's Department.
Barrack Master at the Presidency.

14. This rule is not however, to apply to Officers placed with Departments or otherwise, in temporary charge of Districts, by Military Authority, pending operations, although performing Civil duties in consequence of such appointment. G. O. G. 234 Augt. 1831.

G. O. G. 12th Octr. 1824.

15. Officers of Veteran Battalions when serving in conjunction with Troops of the Line take rank according to their Commissions, in virtue of which, if Senior, they are entitled to assume Command of the Station—but they are not in such case to exercise any immediate interference with the Troops of the Line, further than by issuing the orders for such general duties as may fall to be performed.

RELATIVE RANK OF OFFICERS OF THE CIVIL DEPARTMENTS OF THE ARMY.

16. The Staff Officers of Regiments and Officers of Civil Departments attached to the Army, are in regard to *choice of quarters* to be classed with the several ranks hereafter specified—but it is to be understood that this indulgence is not to give such Officers any claim whatever to Military Command, or precedence upon Military duties.

5. The future rate of Dry Batta (or compensation in lieu of rations without spirits) payable, where necessary, by the Commissariat, will be Company's Annas (2 10) two and Pice ten, this amount being a close approximation to the actual and general average cost of the new scale of rations, less the compensation for liquor, included in the future Consolidated Regimental Pay of European Soldiers.

Whenever it may happen that any of the articles prescribed for the Soldier's future rations, shall not be attainable, compensation in lieu is to be paid by the Commissariat at such rates, as will accord with the cost to Government of the same articles, at the nearest European Station—the Commissariat Officer of which will grant a monthly certificate of such cost for the information and guidance of the parties concerned.

7. Stoppages at the undermentioned rates will be made from the Pay of all men in Hospital, with the exception of those under treatment for wounds received in action, or on service,—or for any fracture, dislocation of bone, dangerous contusion of the head, severe bite or kick from a horse, or any other severe personal injury received whilst at exercise, or in the performance of stable duties, or whilst actually engaged in any other act of public duty.—No stoppage shall be made for the day on which men enter Hospital, but it shall be made for that on which they may be discharged from it.

Hospital stoppages under the circumstances described in the preceding paragraph, the same will be notified in the certificates for admission into the Hospital by the additional words "exempted from stoppages" or the letters "E. S.", but these words are only to be considered as a notice to the Medical Officer, that the injury has been received under some of the circumstances mentioned, and that it is left to the Surgeon or Assistant Surgeon to decide whether the injury be of the description required to bring it within the rule of exemption.

9. Whenever men may be discharged from any Hospital, each individual is in like manner to be furnished with a certificate by the Medical Officer in charge, specifying name, rank, troop or company, and Corps, with date of discharge, and in case of exemption from stoppages, as above, the letters "E. S." are to be written on the back of every such discharge.

10. The date of admission and discharge from the Hospital and the letters "E. S." opposite the name of each person exempted from Hospital stoppages are to be duly noted in the monthly Muster Rolls of troops and companies and with reference thereto the amount of stoppages arising from the sick of each troop or company or detail is to be specified on the back of the Abstract, from the total of which the amount will be deducted in the usual manner.

11. The consolidated rates of Pay will be drawn for men in Hospital who will continue to be dieted by the Commissariat as at present, in conformity with the Medical Regulations.

12. In all Hospitals, whether Regimental, Detachment, Garrison or General Field Hospitals, regular Register Rolls are to be kept, specifying names, rank, company or troop, and Corps, with dates of admission, discharge and casualties of all patients who may be in Hospital during each month, together with columns shewing the amount of Batta and Hospital stoppages accruing monthly on account of the sick in Hospital, from which correct rolls in the following Form will be prepared and forwarded by the Medical Officers in charge of sick of Corps or Hospitals respectively on the 1st of each month to the Superintending Surgeons of their Divisions, for the purpose of being transmitted without delay to the Military Auditor General.

19. Suitable accommodations will be set apart in every European Hospital for the European and Country born women belonging to Corps of Her Majesty's or the Hon'ble Company's Service, who shall be received into Hospital under sickness, and be put on the same footing as to medical treatment and diet as the men of the Regiment. A stoppage of one anna per diem will be made from their allowance and appropriated in the same manner as directed for the stoppages of the men.

20. An allowance of Rupees 5 per mensem is authorized to be drawn for the wives of effective, non-effective and pensioned (vide para 26) European Non-commissioned and inferior grades of the Hon'ble Company's Service, such women being born of European parents.

21. An allowance of Rupees 3½ per mensem is authorized to East Indian (vide para. 34) wives of effective, non-effective, and pensioned European Non-commissioned and inferior grades of the Hon'ble Company's Service, such women being daughters of European Soldiers and who have been educated at Regimental or other established Military Schools, and also to East Indian women, wives of Drummers, Buglers, &c. the offspring of European fathers married to women of the same description.

N. B.—This boon is extended to all East Indian women, who were wives of European Soldiers, &c. as above, on the 1st November 1840, without reference to parentage or place of education. It will be extended as an indulgence, to claimants married subsequently to that date, who can produce a certificate from a Clergyman or other Public Functionary stating that such instruction as the daughter of a Christian Soldier should receive has been bestowed on her; but each case must be submitted for the consideration and orders of Government.

22. An allowance of Rupees 2½ per mensem for each legitimate child of an effective, non-effective or pensioned European, Non-commissioned Officer or Soldier of the Hon'ble Company's Service is authorized to be drawn for those under *fourteen* years of age, on attainment of which, or earlier should they be provided for, the allowance will cease.

23. Widows of deceased Soldiers as described in paragraphs 20 and 21 will be entitled to draw the allowance of Rupees 5 and 3½ respectively for 6 months after the decease of their husbands, provided they remain so long in India, or until their admission on Lord Clive's Fund, provided it take place within 6 months; beyond which period this allowance will in no instance be payable without the sanction of Government.

N. B.—Widows of Soldiers, at present in receipt of Rupees 8 per mensem, will continue to draw that allowance as formerly.

24. Widows and children being Europeans, of deceased European Soldiers, are, on embarkation for England, allowed a donation of 50 Rupees for the widow, and 25 Rupees for each child, respectively.

25. The benefit of the preceding five paragraphs is extended to wives, widows and children of European *Effective* Soldiers of Her Majesty's Service.

26. The allowances to women and children provided for in paras. 20, 21 and 22 will be drawn in arrear; they are not claimable by wives of Pensioners married subsequent to the husbands becoming Pensioners, nor by the offspring of marriages so contracted; nor are they claimable by wives or children of Pensioned Serjeants who receive Rupees 30 per mensem, these having no other claim on the State for themselves, their wives or children.

27. To entitle wives and children of European Soldiers to the allowances specified in paras 20, 21 and 22, they must be regularly mustered as present with their husbands and fathers, their names inserted in the same Muster Roll, and the allowances drawn in the same abstract as the pay of the husband and father, except in the event of temporary absence of the latter, when it may be drawn at Head Quarters with the sanction of the Commanding Officer; as also when the husbands or fathers are absent on actual service, the wives, altho' in private employ, are entitled to the allowance for themselves and children on a certificate from the parties whom they respectively serve that they were so employed during the month drawn for; such Muster Rolls shall exhibit the date of birth of each child entered therein, and shall have certified in the usual place that "The women mustered as Europeans were born of European parents,—those mustered as East Indians are daughters of European Fathers, and were married prior to 1st November 1840, or have been educated at Regimental or other established Military Shools, or have received such instruction as the daughters of Christian Soldiers should receive;—and all children whose names are exhibited in this Roll are legitimate offspring."

N. B.—Many points connected with the allowance to children are under reference to the Government of India; and, if necessary, subsidiary orders will be issued hereafter.

28. The allowance to women will commence from date of marriage if at the time in India, otherwise from date of arrival—returning from Europe after absence on furlough they are entitled to the allowance from date of rejoining their husbands.

29. During absence of women in India on leave (not having for its object private service) or on medical certificate, their allowances shall remain undrawn, but on return will be drawn in arrears for the period of such absence.

30. Women absent from the Station of their husbands in private service are not entitled to the allowance.

31. Wives quitting their husbands with the view of returning to England, under due sanction, and not in private service, will receive the allowance until date of embarkation, provided it extend not beyond six months, after which period the allowance will not be payable without the sanction of Government.

32. Commanding Officers may direct the allowance of women to be stopped (i. e. not drawn) for drunkenness, riotous and disorderly, or immoral conduct.

33. Whatever their class or country, wives of European Soldiers are permitted to accompany their husbands, when proceeding to Europe, or to another Presidency or Settlement.

34. To entitle Soldiers and their wives to the benefits of the foregoing provisions, according as they may be Europeans or East Indians; It is to be understood, that the offspring male and female of a Native mother and European father are to be ranked as East Indians or Indo Britons—those of European fathers and East Indian or Indo British mothers, as Europeans.

35. The rules under which the Hon'ble Company's Troops are mustered are made applicable to Her Majesty's Regiments. The Muster Rolls of troops, companies and establishments are to be prepared according to the Forms prescribed by the Regulations of the Army of this Presidency, and the muster (in months for general muster) will be taken by the Officer Commanding the Station or Staff Officer whom he may appoint; on other months it will be taken under the orders of the Officer Commanding the Regiment.

36. The following Forms of Muster Roll and Abstracts will serve as a guide for Her Majesty's and the Hon'ble Company's Troops.

FORT ST. GEORGE, 19TH JANUARY 1841.

No. 10 of 1841.—The following General Order by the Right Honorable the Governor General of India in Council, is published for the information of the Army of this Presidency.

GENERAL ORDERS by the Right Hon'ble the Governor General of India in Council.
Fort William, 6th January 1841.

No. 2 of 1841.—The following Extract of a Military letter, No. 10, dated 4th November 1840, from the Hon'ble the Court of Directors to the Governor General of India in Council, is published for general information:

"*Reply to letter dated 13th August* 1840, *No.* 87.
Transmit a G. O. 29th July 1840, modifying, in obedience to Court's Orders, that of 20th January 1840, relative to the position of local Major Generals of Her Majesty's Service in India, also the Minutes which have been recorded on the subject, to which the Court's attention is earnestly solicited.

The principle of the Regulations and Arrangements for the employment of Her Majesty's local Major Generals in fixed Divisional and Brigade Commands, as specified in para. 2 of our Despatch of the 2d June last, and which provides effectually against any inconvenient interference of the Regimental Officers of the Queen's Army with appointments on the Divisional or Brigade Staff, is understood by the General Commanding in Chief, and by ourselves, to be equally applicable to the employment of those Officers with Field Forces. You will accordingly take care that this principle is applied in all cases when Officers are appointed to Commands as Major, or Brigadier Generals, and Brigadiers.

In conformity with the principle above referred to, the Local Major Generals absent from their Regiments are not entitled to resume Regimental Command or Employ, unless such resumption shall be permitted as compatible with your arrangements for the Brigade or Divisional Commands of the Force to which the Regiment is attached.

GENERAL ORDERS

By His Excellency the Commander in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, 19*th January* 1841.

The Commander in Chief directs the publication of the following "Extract Regulations," for the guidance of the Army.

EMBARKATIONS AND DISEMBARKATIONS.

1. All embarkations of Troops, of whatever description, those of European Pensioners and discharged men of the Company's Army excepted, are to be made under the superintendence of the Quarter Master General and according to the Regulations for his Department.

2. The embarkations and disembarkations of Brigades and Divisions of the Army must take place under the *immediate* superintendence of the Brigadiers and General Officers who are attached to them, on whom it is incumbent, by personally visiting the vessels, to ascertain that all due preparation is made for the comfort of the Troops ,which are to embark or disembark at such time and under such instructions as may be given by the Commander in Chief through the Quarter Master General of the Army.

3. When a Regiment is ordered for embarkation for Foreign Service, in case the clothing, arms, accoutrements, and other articles of equipment are not all in a complete and serviceable state, it is the duty of the Commanding Officer to make an immediate and special report of the same to the Adjutant General *direct*, particularly specifying the number and description of the deficiencies, explaining their cause, and stating what measures have previously been taken to obtain a supply of the articles required. A copy of the report to be sent at the same time to the Officer Commanding the Brigade or Division in which the Regiment may be serving.

TONNAGE AND MESSING.

4. The following is the allotment of tonnage for each Commissioned Rank embarked for Foreign Service.

	Baggage.	Camp Equipage.	Total
Field Officers	2½	2	4½
Captains, Paymasters and Surgeons	1½	1½	3
Subalterns, and Assistant Surgeons not in charge of Corps	1	1	2
Native Officers	½		

An Officer Commanding a Corps to have half a ton additional.

5. A space 6 feet long by 15 inches broad will be allowed to the berth of each European Non-commissioned, Rank and file, and woman, and 6 feet by 1 for each Native Non-commissioned, Rank and file. Every Native Officer to have a space of 6 feet by 3 allotted to him. The baggage of each man is to be confined to the contents of his knapsack and that of an European woman to a bundle of the same size.

6. When separate tonnage may be required for the mess or other public purpose, as for records, &c, application is to be made by the Commanding Officer to the Quarter Master General, accompanied by a specific list of the articles and quantities for which the tonnage is required.

7. During the preparation of transports for sea, the baggage warehouse will be open for the reception and examination of baggage from nine in the morning till five in the afternoon, and no baggage will be received at a later period than the day preceding the embarkation—except under the special authority of the Quarter Master General.

8. With the exception of General Officers, the Officer Commanding an Expedition, and the Second in Command, whose cases will be specially considered, all other mounted Officers embarking for Foreign Service are entitled to take only one horse each. The Adjutant and Quarter Master General, however, are each permitted to embark two chargers.

9. When Officers are embarked on Foreign Service, their private followers will receive rations during the period they may be on board, for which the regulated amount of stoppages will be made.

10. The Officer of the Quarter Master General's Department, or if none be present, the Officer Commanding at the station from which embarkations take place, will transmit to the Quarter Master General of the Army, a Roll specifying the name, rank, corps or department of the Officers, the number of private servants by which each is accompanied and the date of embarkation—similar Rolls are invariably to be prepared and forwarded by the same ships on which Officers return to the coast from Foreign Service.

11. The seals which have been placed by the Committee of Survey on provisions and stores intended for the use of Troops on ship board, are never to be removed, except in the presence of the Officer Commanding the Troops or of some Officer deputed by him for the purpose.

12. If such seals have been broken or removed, except under this supervision, and that the circumstance does not clearly appear to have been the result of accident, the Officer Commanding the Troops will report the fact to the Quarter Master General of the Army, and at the same time forward any explanation which the Commander of the transport may have to offer on the subject.

13. Officers during the period they are embarked on service are entitled to an allowance for accommodation and messing, &c. exclusive of wine, as under;

Major General .....25 Rupees per diem.
Field Officer, Captain, and Surgeon ..... 5 " "
Lieutenant, Ensign, and Assistant Surgeon .... 4 "
Conductors of Ordnance and Warrant Officers.. 3 "

14. It will be at the option of an Officer proceeding alone, or of the majority of a number of Officers proceeding on service, to make over the above allowance with such addition as may be agreed upon, to the Commander of the transport to provide them with a suitable mess while on board, or to make their own private arrangements for this purpose.

15. A clear understanding should exist previous to embarkation between Officers embarking for service and the Commander of the transport, as to the description of fare to be provided for their messing—and if the terms offered be not in accordance with their wishes, they are at liberty to make their own arrangements for a mess and to draw the regulated allowance as above for that purpose.

16. In the event of a transport anchoring at any intermediate port, being a military station, a Return of the Troops on board is to be furnished to the Commanding Officer, if Senior, otherwise a notification of arrival only is to be forwarded.

SURVEYS.

1. At the Presidency it is the duty of the Quarter Master General to cause such Medical and other Surveys to be made of all the transports on which Troops are to embark, as may fully ascertain that they are in every respect fitted for the accommodation of the Troops and provided with proper stores for their use.

2. On Troops being ordered to embark from an outport on transports or other vessels, the General or Officer Commanding at the port from which the embarkation is to take place, will order a Committee consisting of a Medical Officer of experience, an Officer of the Quarter Master General's Department, and in communication with the Collector, the Master Attendant or other Naval Officer whose attendance can be procured, to repair on board each vessel and make a most minute and particular inspection previous to the embarkation. The state and condition of each ship is to be reported upon according to Form No. 5.

EMBARKATIONS.——OUT PORTS.

1. All embarkations at out ports are to take place under the immediate direction of the General or other Senior Officer present at the station, and altho' he may not embark himself, the Troops remain under his orders until the ships clear the port, and go to sea—should the ships not sail immediately after the Troops are on board, it will be incumbent on the Officer under whose orders they were embarked, to visit them personally—or send a Staff Officer on whose report he can rely—to ascertain the state of the men and vessels.

2. He will also call for such reports from the Officers Commanding on board the different ships, as will afford him the most satisfactory information as to the state of the Detachments under their orders.

EMBARKATION RETURNS.——PRESIDENCY.

1. When a Regiment or Detachment receives orders for embarkation, the Officer Commanding it will without delay transmit to the Quarter Master General an Effective State made out agreeably to Form No. 1.

2. When a Regiment or Detachment has completed its embarkation, whether for Foreign Service or otherwise, the Commanding Officer shall immediately transmit to the Adjutant General and Quarter Master General an Embarkation Return accounting for all ranks belonging to it and shewing the period and place of embarkation, Form No. 2.

3. When the Regiment or Detachment forms part of a Brigade or Division, the Embarkation Returns above ordered are to be transmitted through the Officer Commanding the Brigade.

EMBARKATION RETURNS.——OUT PORTS.

1. The Officer Commanding the Regiment or Detachment shall transmit to the Officer of the Quarter Master General's Department of the Division an Effective State Form No. 1, and on embarkation, forward direct to the Adjutant General, the Quarter Master General, and to the Officers of their Departments in the Division in which the port of embarkation is situated, an Embarkation Return Form No. 2. Should there be no Divisional Staff present at the port of embarkation, a Return Form No. 2 is also to be forwarded to the Station Staff Officer.

2. When the Regiment or Detachment forms part of a Brigade or Division, the Embarkation Returns above ordered are to be transmitted through the Officer Commanding the Brigade.

DISEMBARKATION.——PRESIDENCY.

1. No disembarkation of Troops can take place at the Presidency without the previous sanction of the Governor—the Senior Officer in charge will therefore immediately on arrival in the roadstead transmit to the Town Major of Fort Saint George a Return Form No. 3. No other Reports or Returns are required.

2. As soon as practicable after disembarkation the Commanding Officer will transmit to the Quarter Master General a Disembarkation Return (Form No. 4) shewing the place and period both of embarkation and disembarkation, the number of all ranks effective at the period of disembarkation, names and rank of the Officers, and all casualties which have occurred since the date of embarkation. A similar Return is to be transmitted to the Adjutant General.

DISEMBARKATION.——OUT PORTS.

1. On the arrival of Troops in any port for disembarkation, the General or other Officer Commanding will order the vessels to be immediately visited, and the men inspected by a Staff Officer attended by a competent Medical Officer, from whose report he will ascertain the actual condition of the men and ship—what casualties have occurred on the passage—and whether the ship has been properly found, and the men supplied with accommodation and provisions according to Regulation.

2. Disembarkation Returns Form No. 4 are to be forwarded to the Adjutant General and Quarter Master General direct, and to the Officers of their Departments in the Division, and to the Staff Officer at the port of disembarkation.

EMBARKATION OF HORSES.

Preliminary measures and arrangements.

1. After receiving warning orders to embark, the feed of horses of mounted corps should be immediately but gradually assimilated both in nature and quantity to that which they will receive on ship board. The change from green to dry forage in particular should not be made too suddenly.

2. An aperient ball should be given to all horses about to be embarked four days prior to their embarkation—and they should get mashes instead of gram for the intervening period before embarkation.

3. It is of the utmost importance to the future health of horses that they should not be heated at the time of embarkation.

4. With this view they should be accommodated the night before embarkation as near as possible to the place from whence they are to embark.

5. In cases where this salutary precaution cannot be observed, at least two hours should intervene between the arrival of the horses at the place of embarkation and their being put on board—and they should be well cleaned and perfectly cool before the embarkation commences.

Embarkation.

1. Horses must be blindfolded prior to embarkation, to prevent as much as possible their sustaining or inflicting injury, from the restiveness of alarm or the efforts of vice.

2. To prevent the delay arising from the hoisting in tackle of one ship being unemployed, while several boats are waiting with horses round another for their turn to be unloaded, arrangement should be made to despatch a boat for each ship in succession, instead of several at once for one particular transport.

3. The men and horsekeepers to whom the horses are accustomed should invariably embark with them.

4. On reaching the ship's side these men will assist the sailors in fixing the slings—and one will remain at the horse's head, soothing him, and not quitting his hold until the animal is fairly off his legs and supported by the sling.

5. In slinging a horse the following system is to be observed :

Four men are placed two on either side of the animal—Nos. 1 and 2 stand on the near or left side, Nos. 3 and 4 on the off or right side of the horse—Nos 1 and 3 are placed nearest to the head. The sling is passed under the horse's belly, but not so as to touch it—Nos. 1 and 4 will raise the sling with their left hands and cross the loops with their right, No 1 supporting the sling while No. 4 hooks on the tackle.—Nos. 2 and 3 in the mean time seize the bands attached to the sling with their right hand, and quickly passing it through the eye or cringle of the sling on their own side, secure it with a running knot. All will then stand clear, and the word is given to "hoist away"—previous to which the sling should not be permitted to touch the horse's belly.

6. When lowered into the hold, care must be taken that the horse is directly below the hatchway before his feet are permitted to touch the deck, and that all four may reach it simultaneously —If these points be not attended to, the animal is liable to injury by struggling to free himself, and attempting to spring upwards, which a horse frequently does on finding partial support for either fore or hind feet.

7. When the horse has been placed on the deck, the sling should be removed as quickly as possible, and the animal led forward or aft to the furthest unoccupied stall :—those near the hatch being invariably reserved for the horses last embarked. Spare stalls must be reserved for sick horses, on that part of the deck which may be deemed most suitable by the Veterinary Surgeon.

8. Each horse must have the saddlery and appointments of every description which belong to him embarked at the same time and in the same boat.

On Board.

1. When the horses have been secured in their stalls, the saddlery must be disposed of as follows.

2. Strong cotton or coir ropes of sufficient thickness to prevent all chance of chafing the panelling of saddles, are to be stretched across from midships to the sides in some part of the between decks which may be appropriated to the purpose. The ropes are to be divided by stout pegs inserted into the strand or otherwise secured so as to stand perpendicularly to the rope and prevent the saddle when placed on it from slipping—the space between each peg to be sufficient to contain one saddle with its appurtenances—after the saddle has been placed on the rope, the girths are to be folded round the flaps as on shore—and the bridle, breast band, and boots are to be suspended in front of the saddle bow by dividing them on opposite sides

of the rope. The heel ropes and picket pegs may be made available to suspend the saddles upon if necessary, by placing four together and binding them together at the requisite distances by ligatures sufficiently firm to maintain the pegs in an upright position. The pegs will prevent the saddles from slipping when the ship rolls and the swinging motion of the rope have a like effect when she pitches.

3. Sufficient space must be left between the lines of saddles to permit perfect freedom of access to each—several lines may be placed perpendicularly over each other from within two feet of the deck upwards.

4. The greatest attention must be paid to maintaining the condition of the horses in the highest possible efficiency for active service by minute regard to grooming and diet.

5. On the first night of their being on board, the horses should have a mash with some nitre, and during their passage care must be taken that they are not heated by being overfed.

6. If a horse appears to be heated, or refuse his food, an early bleeding will in general restore him, but the object which of all others requires the greatest attention is, that the horse lines be well ventilated by means of windsails, the ends of which ought to be occasionally shifted to different parts of the deck.

7. In cases where, from bad weather or other causes, the hatches have been kept on, and the lines are more than usually close, great advantage will be found in washing or sponging the nostrils of the horses with vinegar and water.

8. The stable duties are to be performed with the same regularity as when on shore, and as far as practicable in the mode prescribed in the Standing Orders for Cavalry.

9. The fetlocks, hoofs and anus of the horses should be washed at each stable hour, and their face, eyes and nostrils sponged.

10. The horse stalls are generally divided by moveable bars—which as well as those in front, should be furnished with well stuffed fenders, to prevent injury to the horses from the motion of the vessel.

11. One stall on each side of the transport should remain vacant, to permit the horses to be shifted in succession, in order that each stall may be thoroughly cleansed and dry rubbed every day. Thus the stall furthest forward being vacant, and quite clean and dry—the horse next to that stall is moved into it by displacing the side bars, and when the stall he occupied has been cleaned, the next horse will be removed into it—and so on in succession.

12. When it is found necessary to remove a horse from his stall to another, not immediately adjacent, those in the intervening stalls must invariably be blindfolded, and a man placed at the head of each.

13. The horsekeepers are to be regularly detailed for the several duties they have to perform.

14. The dung is to be removed from the stall as soon as voided, and thrown overboard. Baskets are provided for this purpose and it will be the duty of the sentinels in the horse lines to see that in rotation one of the party of horsekeepers detailed for the duty, proceeds every quarter of an hour up one line of stalls and down the other with a basket to remove the dung—which when no port is specially provided for the purpose, is to be carried on deck immediately the round has been completed, and thrown overboard.

15. Scupper holes are made for the escape of the urine, and these are always to be kept clear and frequently cleansed by having water thrown through them. It is positively prohibited to pass dung, the sweepings of the deck, or other filth through these scuppers. Such dirt is invariably to be thrown overboard through the port, or carried on deck according to circumstances.

16. A horsekeeper will likewise be detailed from the party on duty in the lines, to swab up such of the urine as may not run through the scupper, as soon as voided.

17. When coir mats are supplied for bedding, they are to be removed, prior to morning stables, brought on deck, and so disposed as that they may be well aired. After evening stables has been completed and the nose bags removed—the mats are to be brought down and spread in the stalls.

18. In very rough weather the mats should not be removed, as they tend to afford a firmer footing to the horses, and prevent injury from falls.

19. The feeding or nose bags, are to be brought on deck—once in each day—turned inside out, and aired.

20. The forage is to be drawn and issued as prescribed for other rations.

21. When chenna is issued, it is invariably to be partially ground and mixed with the bran and then freely sprinkled with water after it has been placed in the nose bags.

22. When paddy is issued for the forage of horses, it must be parboiled or bruised and a portion of salt and black pepper mixed with it ere it is given to the animals.

23. If the ship on which horses are embarked touch at a port where she is likely to be detained for any period beyond ten days, the horses should be immediately landed in order that they may have the benefit of exercise, fresh air and a portion of green forage—but care must be taken not to give the latter in large quantities—but merely sufficient to act as an alterative.

24. When not expedient to land the horses, fresh forage if procurable should be obtained and given to them in moderate quantities.

Disembarkation.

1. When horses are to be disembarked, each in succession, commencing with those nearest to the spot, will be brought directly under the hatchway, and the sling fixed in the mode prescribed for embarkation.

2. Soldiers and horsekeepers will be disembarked in the same boats with the horses to which

they are usually attached. The saddlery and harness belonging to each horse will also be placed in the same boat with it.

3. If it can be avoided horses should not be made to swim from the ships to the shore, as the sudden transition from the heat of the ship is liable to injure their health.

4. When circumstances render this mode of disembarkation necessary, the horses are, if time admit, to be thoroughly dried and groomed instantly on reaching the shore.

5. The change from dry to green forage must be gradually made, and the greatest care taken to prevent rank grass being given to the horses at all, unless under urgent circumstances—and then as sparingly as possible. In these cases small quantities of black pepper and salt, should be given to correct the bad qualities of such fodder.

6. After disembarkation a cooling regimen and gentle exercise are the best means of restoring horses to their wonted vigour.

BY ORDER OF THE OFFICER COMMANDING THE ARMY IN CHIEF.

Adjutant General of the Army.

GENERAL ORDERS

By Major General James Allan, C. B. Commanding the Army in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, 30*th January* 1841.

The following Extracts from the confirmed Proceedings of a European General Court Martial, holden at Bangalore, on Wednesday the thirteenth day of January, in the year of our Lord one thousand eight hundred and forty-one, by virtue of a warrant from His Excellency Lieutenant General Sir Samuel Ford Whittingham, K. C. B. and K. C. H. Commander in Chief, are published to the Army.

Ensign James Gordon of the Fourth Regiment of Native Infantry, placed in arrest by my order, on the following Charge.

Charge.—For scandalous and infamous behaviour, such as is unbecoming the character of an Officer and a Gentleman, in the following Instances:

First Instance.—In having at Bellary on, or about, the night of the twelfth of September one thousand eight hundred and forty, clandestinely taken to the house of Lieutenant Frederick Studdy of the Fifth Regiment of Light Cavalry and left alone with that Officer, Miss Mary Dobson, a person whom he, Ensign Gordon, was engaged to marry; he, the said Ensign Gordon, knowing that an undue intimacy subsisted between the said Lieutenant Studdy and the said Miss Dobson, thereby making himself subservient to such intimacy.

Second Instance.—In having at the same place, some time between the eighth and thirteenth of the same month, knowing that an undue intimacy subsisted between the said Miss Dobson and the said Lieutenant Studdy and after having received a promise from Lieutenant Studdy that he would have no improper connexion with her after her marriage with Ensign Gordon, written a letter without date of a disgraceful nature to the said Miss Dobson, wherein he declares to the effect that the promise so made by Lieutenant Studdy is, in his opinion, null and void, and to be considered as if never made, and further declares to the effect, that happen what may, he, Ensign Gordon, will never refer to the said promise, or reproach him, (meaning the said Lieutenant Studdy) or her, (meaning the said Miss Dobson) regarding it, thereby anticipating the infraction of the promise so made by Lieutenant Studdy, as aforesaid, and proffering connivance thereat.

Third Instance.—In having at the same place, on the twenty-third of the same month, written a letter without date, of a disgraceful nature, to the said Miss Dobson, in which, with reference to her connexion with the aforesaid Lieutenant Studdy, he declares, to the effect, that he will, beyond the period of one of the two days after marriage, make every allowance and not press her very hard, and further declares, to the effect, that he would not willingly discover any thing to cause them, (meaning himself Ensign Gordon, and the said Miss Dobson) to quarrel, thereby insinuating, that he would connive at the existence of an improper connexion between the said Lieutenant Studdy and the said Miss Dobson, after her marriage with him Ensign Gordon.

The above being in breach of the Articles of War.

BELLARY,
The ninth day of November, one thousand eight hundred and forty.

Comg. 4th Regt. N. I.

By order.
(Signed) R. ALEXANDER, Lieut. Col.
Adjutant General of the Army.

The Court having most maturely weighed and considered the whole of the evidence brought forward in support of the prosecution on the Charge, as well as what the Prisoner, Ensign James Gordon of the Fourth Regiment of Native Infantry, has urged in his defence, and the evidence in support thereof, is of opinion:

Finding on the First Instance of the Charge.—That the Prisoner is guilty of this Instance of the Charge, with the exception of the words scandalous and infamous.

Finding on the Second Instance of the Charge.—That the Prisoner is guilty of this Instance of the Charge.

Finding on the Third Instance of the Charge.—That the Prisoner is not guilty of this Instance of the Charge.

Sentence.—The Court having found the Prisoner guilty to the extent above stated, doth sentence him, the said Ensign James Gordon of the Fourth Regiment of Native Infantry, to be discharged from the Service.

D. J. A. Genl.

(Signed) G. CONRAN, Lt. Col.
President.

Confirmed.
(Signed) J. ALLAN, Major General,
Commg. the Army in Chief.

Recommendation of the Court.—Taking into consideration all the circumstances of the case, and referring to the youth and inexperience of the Prisoner, the Court earnestly recommend him to the favorable consideration of His Excellency the Commander in Chief.

D. J. A. Genl.

(Signed) G. CONRAN, Lt. Col.
President.

The Proceedings of this Court Martial betray on the part of Ensign Gordon so great a want of that sense of propriety and gentlemanly feeling, which should exist in the character of a British Officer that, with a conviction of the nature of the present against him, I am unable to attend to the recommendation of the Court in his favor.

MADRAS, 30*th January* 1841. } (Signed) J. ALLAN, Major General,
Comg. the Army in Chief.

Mr. James Gordon is to be struck off the strength of the Army from the date of the publication of this Order at Bangalore, which is to be reported to the Adjutant General.

FORT ST. GEORGE, 9TH FEBRUARY 1841.

No. 27 of 1841.—The following Extract from a Letter from the Honorable the Court of Directors in the Military Department is, in obedience to the orders of the Honorable Court, published for the information of the Army.

Letter dated 2d September 1840, No. 58.

2. Forward proceedings of a Court of Enquiry assembled for the purpose of investigating complaints preferred by certain Grain Merchants of Condapilly against Ensign Case 22d N. I. and state that the Merchants have subsequently withdrawn their complaints.

16. It appears from these proceedings that Ensign Case on the 26th of January 1839, caused two Banyahs to be flogged by the Drummers of his Detachment at Condapilly, and that on the 29th of that month he caused a similar punishment to be inflicted upon six more of the same class of dealers in the Bazar of the Station under his Command. His alleged motive was to protect the Sepoys of his Detachment from being cheated, the Banyahs having been detected in supplying bad Articles and giving false measure. We fully agree in the observation that in Ensign Case's extraordinary ignorance of the Regulations of the Service and of the extent of his lawful power no excuse

can be found for his having so far exceeded the just and proper exercise of Police authority, with which it appears he erroneously considered himself to be invested. We should have been disposed to visit his offence with some more serious mark of our displeasure;—But, in consideration of your decision, founded on the recommendation of the Commander in Chief, by whom he has been reprimanded, and of his having, under your orders, made a compensation to the injured parties with which they have declared themselves quite satisfied, we shall abstain from inflicting any further punishment.

17. We think it necessary however to desire that Ensign Case may be distinctly apprized of the extreme disapprobation with which we have viewed his conduct, and that these our sentiments may be made known to the Army by publication in General Orders.

(Signed) S. W. STEEL, Lieut. Colonel,
Secretary to Government.

FORT ST. GEORGE, 9TH FEBRUARY 1841.

FORT ST. GEORGE, 23D FEBRUARY 1841.

No. 37 of 1841.—The Right Honorable the Governor in Council is pleased to direct that the following Extract of a Military Despatch to Fort St. George from the Honorable the Court of Directors, together with the documents therein mentioned, be published in General Orders for the information of the Army.

Letter dated 25th November 1840, No. 82.

Para. 54. We forward a Number in the Packet Copy of our Resolution dated the 22d of November 1837, under which the Cadets who were then in course of instruction at the Military Seminary and who might thenceforward be appointed to that Institution, are entitled to count the time passed by them at the Seminary after they attain the age of sixteen as so much time passed in India in calculating their period of Service for retiring Pensions on full Pay.

Para. 55 We also forward a List of the Officers now on your Establishment who are entitled to benefit by this Resolution, specifying the period of time claimable by each.

At a Court of Directors, the 22d November 1837.

Resolved by the Ballot that having had under consideration the nature and extent of the advantages accorded to the Cadets who receive their education at the Military Seminary by the Court's resolution of the 4th December 1833 under which such Cadets, on passing their public examination take rank above all Cadets sworn in on direct appointments within the three months preceding the dates of such examination and by the Orders contained in the Court's Military Circular Dispatch of the 17th April 1816, under which Cadets who pass for Engineers are permitted to reckon the commencement of their service in India from the date at which they would have arrived in that Country had they proceeded to their destination, instead of remaining to carry on their professional studies at Chatham, the Court are of opinion that the Cadets studying at the Seminary should be still further protected from the loss which they may be considered to sustain as compared with those who proceed upon direct appointments.

That on adverting to the Regulations framed at the time when Cadets were educated for the Company's Service at the Royal Colleges of Marlow and Woolwich, the Court observe that such Cadets were placed on the same footing as the Cadets who, not having received their education at those Institutions proceeded at once to India, and that as "direct" Cadets could then so proceed at the age of fifteen, the period at which the College Cadets should take rank was fixed at fifteen years and a half, thus allowing six months for their arrival in India.

That the Court are of opinion that upon the same principle, Cadets who may continue at the Military Seminary after they have attained the age at which "direct" Cadets may now proceed to India, namely, sixteen years, should not lose the advantage in respect to Retiring Pension on full Pay which they would derive if they immediately proceeded to their destination.

That accordingly all the time during which Cadets actually continue at the Military Seminary after attaining the age of 16 and before they pass their public examination (provided they pass within the fixed period of four terms) shall count as a portion of the period which may eventually entitle them to retire upon full Pay under the Regulations as now established.

LIST *of the* OFFICERS *entitled to benefit by the Court's Regulation of the 22d November* 1837 *as to time passed at the Seminary after attaining the age of* 16, *commencing with those who were Students at the Institution when that Regulation passed.*

	Date of joining Military Seminary.	Date of attaining the age of 16 years.	Date of passing Public Examination.	Time entitled to reckon with a view to retirement on full pay.

GENERAL ORDERS

By Major General Sir Robert H. Dick, K. C. B. & K. C. H. Commanding the Army in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, 23*d February* 1841.

The following Extracts from the confirmed Proceedings of a Native General Court Martial, holden at Kamptee, on Tuesday, the ninth day of February, in the year of our Lord one thousand eight hundred and forty-one, by order of Brigadier John Turner Trewman, Commanding the Nagpore Subsidiary Force, by virtue of a warrant of authority vested in him by Major General James Allan, C. B. Commanding in Chief, are published to the Army.

Jemadar Meer Mahomed Ghouse, of the Sixth Regiment Light Cavalry, placed in arrest by order of Captain William Edmund Litchfield, Commanding the same Regiment, on the following Charge.

Charge.—For conduct unbecoming an Officer and to the prejudice of good order and military discipline, in having at Kamptee, on the twenty-ninth of January, one thousand eight hundred and forty-one, struck Private Booden Cawn, of the Sixth Regiment Light Cavalry, several blows with a stick in the presence of some men of the same Regiment, and in front of the standard guard.

The above being in breach of the Articles of War.

The Court having most maturely weighed and considered the whole of the evidence in support of the prosecution on the Charge, as well as what the Prisoner, Jemadar Meer Mahomed Ghouse, has urged in his defence, is of opinion:

Finding on the Charge.—That the Prisoner is guilty of the Charge.

Sentence.—The Court having found the Prisoner guilty as above stated, doth sentence him, the said Jemadar Meer Mahomed Ghouse, of the Sixth Regiment of Light Cavalry, to be suspended from rank, pay, and allowances for the period of six weeks, to commence from such time as the Major General Commanding the Army in Chief may see fit to direct.

(Signed) J. WHISTLER, Captain,
Interpreter to the Court.

The Court having awarded punishment to the Prisoner, beg most respectfully to recommend him to the favorable consideration of the Major General Commanding the Army in Chief, in consequence of the insulting language applied to the Jemadar which caused him in an unguarded moment, and from the sudden impulse of irritation, to strike Private Booden Cawn.

D. J. A. Genl.

Subadar Major LOOKMAN, Sirdar Bahadoor,

Approved and confirmed.

The Court in having passed so lenient a sentence, appears to have given Jemadar Meer Mahomed Ghouse the advantage of every circumstance that appears favorable in his case, I cannot therefore give effect to its recommendation by remitting any portion of the punishment awarded. The protection afforded an Officer by the Law under which he serves can alone preserve inviolate the dignity of his office;—the principles of discipline would be strangely affected if provocation were admitted to excuse or extenuate so glaring an impropriety as his punishing a disrespect offered to himself by a Soldier, by inflicting personal chastisement on the offender with his own hand.

Comg. the Army in Chief.

MADRAS,
23*d Feby.* 1841.

The period of suspension to be reckoned from the date of sentence.

24*th February* 1841.

Booden Cawn, Private, General Number three hundred and ninety-five in the A. Troop of the Sixth Regiment Light Cavalry, confined by order of Captain William Edmund Litchfield, Commanding the same Regiment, on the following Charge.

Charge — For conduct to the prejudice of good order and military discipline, in having at Kamptee, on the twenty-ninth of January, one thousand eight hundred and forty-one, while in conversation in front of the standard guard of the 6th Regiment Light Cavalry, made use of insubordinate and insolent language towards his superior Officer, Jemadar Meer Mahomed Ghouse of the same Regiment, in threatening to beat him with his slipper.

The above being in breach of the Articles of War.

(Signed) W. E. LITCHFIELD, Captain,

Kamptee, the first day of February, one thousand eight hundred and forty one.

The Court having most maturely weighed and considered the whole of the evidence in support of the prosecution on the Charge, as well as what the Prisoner Private Booden Cawn, has urged in his defence, is of opinion:

Finding on the Charge —That the Prisoner is guilty of the Charge.

Sentence.—The Court having found the Prisoner guilty as above stated, doth sentence him, the said Booden Cawn, Private, Number three hundred and ninety five in the A. Troop of the Sixth Regiment Light Cavalry, to suffer imprisonment with hard labor for the period of (5) five lunar months, at such place as the Major General Commanding the Army in Chief may direct.

(Signed) J. WHISTLER, Captain,
Interpreter to the Court.

Signed in the Nagree character
Subadar Major LOOKMAN, Sirdar Bahadoor,
49th Regiment,—President.

Approved and confirmed.

As the language made use of by the Prisoner regarding Jemadar Meer Mahomed Ghouse was not personally addressed to, or intended to be heard by him, and as the Prisoner does not appear to have aggravated his offence by any subsequent misconduct when his Officer so far forgot himself as to inflict personal chastisement on him, I remit so much of the Sentence as awards "hard labor,"—trusting that his having rendered himself obnoxious to so ignominious a punishment will impress upon his mind, that the crime of disrespect shown by a Soldier towards his superior Officer is in no degree diminished by the casual circumstance of family connection between the parties, upon which he would appear to have rashly presumed.

MADRAS,
24th February 1841.

FORT ST. GEORGE, 2D MARCH 1841.

No. 42 of 1841.— The following Extract of a Letter from the Honorable the Court of Directors to the Government of Bombay, is published for the information of the Army of this Presidency.

Extract Para. 7th of a Letter from the Hon'ble the Court of Directors, No. 79, dated 2d December 1840.

Reporting that several instances have occurred of Officers of the Bengal and Madras Presidencies arriving at Bombay, by the Steamers having, owing to defective arrangements on their part, been detained in Bombay until the arrival of the Baggage from England, and suggesting the adoption of certain regulations to guard against similar inconvenience.

Para. 7th.—When we permitted Officers returning to Bengal and Madras, viâ Bombay, to draw pay and allowances, from the date of their arrival at Bombay, provided the Regiment to which they belonged was stationed within certain limits, it was our intention that they should have no greater advantage with respect to leave of absence after their arrival than would be granted to them if arriving direct from England at the Capitals of their respective Presidencies. That advantage is limited to one month on private affairs, and we desire that in no case may pay and allowances be granted for a longer period under these circumstances at your Presidency.

Secretary to Government.

GENERAL ORDERS

By Major General Sir Robert H. Dick, K. C. B. and K. C. H. Commanding the Army in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, *4th March* 1841.

With the sanction of Government, the Officer Commanding the Army in Chief directs the publication of the following "Extract Regulations," for the guidance of the Army.

EXCHANGES AND TRANSFERS.

OFFICERS.

1. No exchanges are permitted between Officers of different branches of the service, nor between Officers of any branch above the rank of Cornet or Ensign.

2. Officers permitted to exchange into other Corps enter as the juniors of their rank.

3. An Officer on being first posted, is allowed to apply for removal to any other Corps in which there may be a vacancy, provided his application be made within the period of one month from the time of his being posted, and that the grounds on which the application is made, and which are required to be distinctly stated, are considered by the Commander in Chief sufficient to warrant its being complied with—after the first month removals will not be allowed, except as provided for in any of the following paragraphs.

4. Exchanges between Officers who have joined their own Corps can be permitted only on the ground of relationship on either side, or other sufficiently strong cause, and the applications which must be signed by the Officers themselves, must be accompanied by a declaration signed by them, and certified by their respective Commanding Officers, stating that the exchange applied for does not originate in any Regimental proceeding of any kind, nor in any cause affecting the honor or character of the Officer, and that there are no grounds of personal objection which have induced the application.

5. Should cases arise in which there may fall two or more vacancies in any one Regiment, whilst other Regiments are complete, the senior Cornet or Ensign who would gain one step by removal may if he desire it be granted the advantage.

6. But in order to prevent delay, and inconvenience to the junior unposted Officers who would otherwise succeed to the vacancy, every Cornet or Ensign who may wish to be removed to any Corps, by removal to which he would gain one or more steps, shall notify his wish to that effect to the Adjutant General within one month from the date of his being first posted. Should he afterwards desire to alter this determination he must immediately report the same to the Adjutant General.

7. In the event of there being at any time supernumeraries in the commissioned ranks, removals will be allowed under the following rules.

8. The senior Cornet or Ensign who by removal would obtain two steps in the scale of promotion will be entitled to the benefit thereof. Where this advantage does not offer itself, the senior supernumerary Cornet or Ensign will succeed to the vacancy.

9. No Cadet will be permanently posted to a Regiment until all the supernumerary Cornets or Ensigns belonging to their respective branches of the service are brought upon the effective strength of the Army.

10. With the exceptions above provided for, vacancies in the rank of Cornet or Ensign will invariably be filled by the senior unposted Cadets.

11. An Officer removed from one Regiment to another will not be eligible to a staff or civil appointment though otherwise qualified, until he shall have served two years in his new Regiment.

12. Officers removed from one Corps, Station, or Department to another, unless other orders may be issued at the time, are allowed a period not exceeding one month for preparation, and a further period for travelling to join, calculated at the rate of ten miles a day, with a halt for every Sunday.

NON-COMMISSIONED OFFICERS AND SOLDIERS.

1. No removal or exchange from one Corps or Department to another can take place without the previous sanction of the Commander in Chief.

2. Removals of Non-Commissioned Officers and Corporals or Naigues from one Regiment to another, except by exchange, can be authorised only on special grounds which must be distinctly stated for the consideration of the Commander in Chief.

3. Exchanges from one Regiment to another, will be allowed only upon grounds of relationship on either side, within the degree of full brother, and after not less than five years service, or for public purposes, and in all cases the Commanding Officer with whom the application originates is required to communicate with the Commanding Officer of the other Corps, and to ascertain his consent to the arrangement before submitting it to Head Quarters.

4. It is desirable that applications for removal or exchange should be discouraged as much as possible—but as there may be cases in which a refusal would bear hardly upon the individuals concerned, Commanding Officers whenever they may deem it expedient to refuse their consent, are required in replying to references on this subject, distinctly to state the particular grounds of their objection.

5. Exchanges of Non-Commissioned Staff from one Station or Department to another will not be liable to the restriction of paragraph 3,—but the application is required to

have the sanction of both Commanding Officers, and must be supported by certificates of good conduct for both parties.

6. On the transfer or exchange of men from one Corps or Department to another, the following documents are to be transmitted to their new Corps.

For Non-Commissioned Officers and others removed to other Regiments or transferred to the Veterans.

1. Register.
2. Register of Heirs (Natives.)
3. Extract from Defaulters Book.
4. Nominal Roll.

For Non-Commissioned Staff.

1. Register.
2. Nominal Roll, omitting "necessaries in possession."

7. Commanding Officers are held responsible that all unadjusted claims, of whatever nature, are accurately entered in the Nominal Roll—and should any just claim be subsequently preferred which may not have been so entered and the non-adjustment of which may be found to be owing to the neglect of the Commanding or other Officer, he will be held personally responsible for the amount.

8 They are also responsible that Non-Commissioned Officers and others are sent to join without unnecessary delay. Should any cause require them to be detained, the circumstance must be reported to Head Quarters.

The Court having most maturely weighed and considered the whole of the evidence brought forward in support of the prosecution, as well as what the Prisoner, Jemadar Mahomed Esoph, has urged in his defence, and the evidence in support thereof, is of opinion:

Finding on the Charge.—That the Prisoner is guilty of the Charge.

Sentence.—The Court having found the Prisoner guilty as above stated, doth sentence him, the said Jemadar Mahomed Esoph of the Thirty-fifth Regiment of Native Infantry, to be suspended from Rank, Pay, and Allowances, for the period of (6) six months.

Confirmed.—I am however of opinion that the offences have been by far too leniently dealt with by the Court, and I should have returned the Proceedings for reconsideration, were it not for the very favorable character given of Jemadar Mahomed Esoph by a Captain and the Subadar Major of his Regiment, who speak from their personal knowledge of him for upwards of twenty years.

MADRAS, 2d *March* 1841.

(Signed) R. H. DICK, Major Genl.
Comg. the Army in Chief.

The crime which forms the subject of the first charge against the Prisoner consists in his having indirectly threatened the lives of four Officers of his Regiment, including the one named in the Charge. It is therefore with considerable surprise and regret that I observe three of these Officers holding respectively the situation of President, Member, and Interpreter of the Court assembled for the trial of the Prisoner, a circumstance, in a general point of view so utterly incompatible with the principles of a fair trial.

In consequence of this formation of the Court, notwithstanding the mutinous disposition evinced by the Prisoner, points him out as a fit object for exemplary punishment, I am compelled to withhold my confirmation from these Proceedings, as I consider the escape of one culprit can never be attended with so much injury as my sanctioning the infraction of the obvious principle of justice that a Judge shall not punish an injury committed against himself.

Comg. the Army in Chief.

The Prisoner is to be released from confinement and will return to his duty.

GENERAL ORDERS.

HEAD QUARTERS: CHOULTRY PLAIN,

13TH MARCH 1841.

The Right Honorable the Governor in Council having addressed the subjoined Orders to The Officer Commanding the Army in Chief, to be published to the Army, they are accordingly published in Military Orders.

General Orders by the Right Honorable the Governor in Council.

FORT ST. GEORGE, 12TH MARCH 1841.

No. 48 of 1841.—The Right Honorable the Governor in Council having had under consideration the many honorable Services of the 1st Madras European Regiment, whose career is to be traced through the most eventful periods of the Military History of British India, has been pleased to order that in commemoration of its victories under Laurence, Clive, Sir Eyre Coote, Lord Cornwallis and other distinguished Generals, it shall bear emblazoned upon its Colors the motto "Spectamur Agendo," and the names of the following battles and expeditions in which it has borne part:

ARCOT; which it successfully defended under Lord Clive in 1751.

PLASSEY; to which place it accompanied Lord Clive in 1756 and assisted in the victory gained on the 23d June 1757.

CONDORE; where it greatly distinguished itself under Colonel Forde in December 1758.

WANDEWASH; for the victory on the 20th January 1760.

SHOLINGUR; where it fought with success on the 27th September 1781.

NUNDY DROOG; which it assisted to capture in 1791, and for which His Lordship in Council is pleased to permit it also to bear a Royal Tiger on the Colors and Appointments.

AMBOYNA, TERNATE, BANDA; to which Islands the Regiment proceeded with the expeditions in 1796 and 1809-10.

PONDICHERRY; the Corps having been employed at the sieges and reduction in 1761, 1778, and 1793.

In reviewing the Services of this gallant Regiment, the Right Honorable the Governor in Council has had before him various records of its employment in the early wars of the Carnatic and in Southern India, of which the present brief notice gives but a general indication, and for which it is but necessary to refer to the Military operations at different times near Trichinopoly from the year 1746 to 1761—to its share in the resistance against the French under Lally, Conflans, Bussy, Law, and other enterprising Commanders, its various engagements in the Northern Circars and Cuttack, and its Service in Ceylon in 1795-96.

The 1st European Regiment was actively employed throughout the campaigns against Hyder Ally and Tippoo; during the latter it assisted in the storming of Bangalore, and in the engagement near the walls of Seringapatam under the command of Lord Cornwallis; and already does it bear on its Colors testimonials of the last Mahratta war, in which it was present at the sieges of Talneir, Malligaum, and Asseerghur, and of the bravery and devotedness which were so conspicuous in Birmah.

The Right Honorable the Governor in Council feels that in conferring these distinctions upon the 1st Madras European Regiment, he does but accord a tribute of well merited honor to the Army of Fort St. George, and His Lordship is assured that the decorated banners of its oldest Corps, while exhibiting a proud memorial of past achievements, will never cease to wave over Soldiers whose good conduct in garrison and bravery in the Field, will well maintain what has been so nobly won by their predecessors in Arms.

(Signed) S. W. STEEL, Lieut. Colonel,
Secretary to Government.

Comg. the Army in Chief.

I have not put the public service to inconvenience by returning these Proceedings for revision because the Court has satisfied justice by its award—I am nevertheless of opinion, that the Court has acquitted the Prisoner of the First Charge, in the face of the most conclusive evidence of his guilt which could well be imagined.

(Signed) R. H. DICK, Major General,
Commanding the Army in Chief.

The Prisoner to be made over to the nearest Civil authority competent to carry the Sentence into effect.

The General Court Martial of which Subadar Major Vencatasawmy, Sirdar Bahadoor, is President, is dissolved.

GENERAL ORDERS

By Major General Sir Robert H. Dick, K. C. B. and K. C. H. Commanding the Army in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, 19*th March* 1841.

Major General Sir R. H. Dick in promulgating to the Army the following Notification made by the Government of Bombay, avails himself of the opportunity to express his high approbation of the judicious arrangements made by Major Vivian 18th Regiment N I for the reduction of the Fort of Nepanee, and of the zeal and gallantry with which they were carried into effect by the Officers and Men of the Detachment under his command.

Fort St. George, March 16, 1841.

The following Notification of the Bombay Government, is republished for general information.

NOTIFICATION.

POLITICAL DEPARTMENT, *Bombay Castle, 8th March* 1841.

In publishing for general information the following Extract of a letter to the address of Lieutenant Warburton, Deputy Assistant Adjutant General of the Southern Division of the Army, from Major Vivian, Commanding a Detachment lately sent to regain possession of the Fort of Nepanee, from a body of Insurgent Arabs, the Hon'ble the Governor in Council begs to offer his best thanks to Major Vivian, and the Officers and Men under his command, for their zealous and gallant conduct on this occasion, which terminated in the unconditional surrender of the Garrison.

By order of the Hon'ble the Governor in Council.

(Sd.) J. P. WILLOUGHBY, *Secy. to Govt.*

To Lieutenant P. E. WARBURTON,
Depy. Asst. Adjt. Genl. Southern Division of the Bombay Army.

SIR,

I yesterday did myself the honor to apprize you, for the information of the Major General Commanding the Division, that the Insurgents in the Fort of Nepanee had surrendered themselves unconditionally. I beg now to forward for submission to the Major General, a report of our operations against the Fort.

2. On the morning of the 19th instant, the Detachment under my command, arrived before the Fort of Nepanee, and took up its encamping ground at about 1000 yards from the Fort, to the Westward, having the ruins of the unfinished Fort between the Camp and the Fort.

3. On the same evening a reconnoitre was made round the Fort when I discovered that the Pettah, which is to the Eastward, ran close up to the only Gateway of the Fort, outside of which, the Enemy had taken up a position, in a Battery of 3 Guns, on the crest of the Glacis.

1 Nine pounder.
Captain Burgoyne.
Light Company
H. M 's 4th "King's Own."
Captain Faunce.
26th Regt. Co. Rifles.
Captain Bayly
18th Regt. N. I.
Light Company.
Lieut. Stevens.
Staff Officer.
Captain Hall.

4. As my object was to obtain the entire capture of the Garrison, I resolved on making an attack on the Enemy on the Pettah side, to draw the Insurgents in, and to keep possession of the buildings of the Pettah, which commanded the entrance to the Fort. For this purpose, a Party as per margin, under my command, marched from the Camp on the morning of the 20th, reached the Enemy's position by day-break, when it was immediately carried, as reported in my Letter of the 20th Instant; the Enemy as contemplated, taking refuge within the Fort, the Houses in the immediate vicinity of the Gate and a small Choky to the left of the entrance to the Fort that had been in possession of a Party of Arabs, were occupied by the Detachment, the Gun placed in position and a fire kept up during the day, which destroyed the Parapets, and silenced the Enemy's fire, which had early in the day been kept up briskly on our position.— I left this Detachment under Captain Faunce, of H. M.'s 4th, "King's Own," and nothing could have been more satisfactory, than the manner in which that Officer, and all under him, held their position.

5. Having returned to Camp, I found it advisable to remove the projected position of the Mortar Battery, to a natural good position to the North East of the Fort, distant about 700 yards, and having succeeded in closing the entrance to the Fort, I shifted my Camp, a few hundred yards to the rear of its former position, to afford more complete shelter to the Followers.

6. The Mortar Battery commenced playing at 9 A. M. upon the Fort, and continued doing so till the evening, when it was discontinued in consequence of the Insurgents expressing a wish to capitulate, but the terms not being granted, the Battery re-opened on the ensuing day, and the fire was kept up till past 11 o'clock A. M. when the Enemy surrendered unconditionally.

7. The whole of the Artillery practice has been most efficient, and I am greatly indebted to that Arm, and to Captains Hall and Burgoyne for the cheerful and zealous manner in which all their duties have been conducted.

6. The Ordnance captured amounts to 56 pieces, and the total casualties on our side are four killed and seventeen wounded. I have been unable to ascertain the number of killed and wounded of the Enemy, but I believe about 30 have been wounded and twenty killed.—The number of Prisoners amounts to about 350.

I have, &c.

3. In the absence of General Officers eligible for employment, Colonels may be appointed to the Staff with the rank of Brigadier General—but, if subsequently relieved, such Officers will not be eligible to return to the exercise of Regimental Command, and the time during which a Colonel shall have served on the Staff will be reckoned as part of the five years tour. 4. General Officers of the Company's Service, of whatever branch of the Army, are ineligible to exercise Regimental Command. G. O. G. 16th Novr. 1806.

5. The period of service of General Officers on the Staff is limited to five years, except in particular cases it may be considered by the Government indispensable to the public interests to continue an Officer in Command until further orders from the Court of Directors. G. O. G. 10th Decr. 1830. 1st Aug. 1837.

6. A General Officer on the Staff can in no case exercise Command over the Troops in his Division when absent beyond its limits. G. O. G. 28th Aug. 1838.

7. Officers on the Staff, who may by promotion to the rank of Major General become liable to vacate their appointments, will not be required to do so, should there at the time be supernumerary Major Generals of the Company's Service in India—in which case they will be allowed to retain their appointments until it may actually come to their turn to accept or decline Divisional Command, when if they prefer the retention of their Offices, the Divisional Command will not afterwards be open to them, except in special cases to be determined by Government and sanctioned by the Court of Directors. G. O. G. 30th October 1838. G. O. G. 16th June 1835.

8. Local Major Generals of Her Majesty's Service are eligible, under the appointment of Government, for employment as Brigadiers where Queen's Troops are stationed, provided that such appointment shall not interfere with the Commands on the General Staff, either of Divisions, Field Forces, or Brigades, allotted to Company's Officers. 11. Local Major Generals not holding Brigade Command, may at their option continue with their Regiments provided there shall be no interference with the Commands allotted to Company's Officers, or they may, if they prefer it, remain unemployed, in expectation of succeeding by seniority to Brigade Command, selecting their residence within the Presidency in which their Regiments are serving. G. O. G. 11th Feby. 1840. G. O. G. 21st Aug. 1840.

12. G. O. G. 3d Decr. 1824.

18. Previous to the appointment of any Officer to the Quarter Master General's Department, he is required to produce a Certificate, either from the Surveyor General of India, the Chief or Acting Chief Engineer, or the Superintending Engineer of the Division in which he is stationed, of his possessing a competent knowledge of the theory and practice of surveying. But when two Captains may be so absent, and a Subaltern of the same Corps holding also a detached Staff situation may be promoted to the rank of Regimental Captain, the Officer so promoted will not be required to vacate his appointment, if tenable in his advanced rank, unless the Commander in Chief should consider it necessary for the efficiency of the Corps and make application to Government for his services.

G. O. G. 12th June 1835.

26. Whenever under the operation of the preceding rule, the number of Captains shall have been increased beyond two, no other Captain shall be taken from the Regiment for the Staff or other detached employ till the number of its absentees in that grade be reduced to one.

GENERAL ORDERS.

At a General Court Martial holden at Fort Saint George, on Wednesday the 10th day of February 1841, Ensign John Maguire of Her Majesty's 55th Regiment of Foot, placed in arrest by order of the Major General Commanding in Chief, on the complaint of Captain John Gordon of the 31st Regiment of Native Light Infantry, was arraigned upon the following Charges.

First Charge.—"For conduct unbecoming an Officer and a Gentleman, and to the prejudice of good order and military discipline, in the following instances:"

First Instance.—"In having on board the Ship "*Lady Flora*," during her outward bound passage to Madras, on the evening of the twenty-sixth of November, one thousand eight hundred and forty, entered the cuddy of the said Ship, in which were assembled most of the Gentlemen Passengers, and after questioning one or two of them regarding a Cap belonging to Lieutenant Augustus Henry Chaproniere of Her Majesty's Fifty-fifth Regiment of Foot, which was missing, stated that the said Lieutenant Chaproniere had given out that he would horsewhip and shoot the man who had made away with his Cap, and his instigators, he, Ensign Maguire, concluding in a loud and insulting tone of voice with the following grossly abusive epithets, namely: "blackguardly, rascally cowards! and many among us ought to be kicked out of society," or words to the same effect: thereby offering a premeditated, unprovoked, and wanton insult to the Gentlemen Passengers of the said Ship, for which he subsequently refused to make any apology.

Second Instance.—In having on board the Ship "*Lady Flora*," as aforesaid, on the same evening when in his own cabin, repeated the aforesaid or similar expressions, in a boisterous and insulting tone of voice, in the presence of Captain John Gordon of the Thirty-first Regiment Native Light Infantry, and in the hearing of the greater number of the Passengers and others; thereby again wantonly and grossly insulting the Gentlemen Passengers of the said Ship."

Second Charge.—"For having on board the Ship "*Lady Flora*" as aforesaid, when to the eastward of the Cape of Good Hope, on the twenty-eighth of December of the same year, sent a written challenge to the aforesaid Captain Gordon, his superior Officer, to fight a duel, he, Captain Gordon, having had no communication whatever with him Ensign Maguire, for nearly a month previous to his sending the said challenge, it having been determined by Captain Gordon in conjunction with nearly the whole of the Passengers, that the particulars of his, Ensign Maguire's, conduct towards them should be laid before the authorities at Madras, with which determination he, Ensign Maguire, had been made acquainted."

Third Charge.—"For having at the time and place last specified, refused to obey Brevet Captain Thomas Goldie Silver of the Twentieth Regiment of Native Infantry, when ordered into arrest by that Officer for sending the challenge aforesaid.

Fourth Charge.—"For having at the time and place last specified, after having been ordered into arrest as aforesaid, proceeded to the Poop of the Ship and with provoking gestures made use of the following insulting language in allusion to the aforesaid Captain Gordon and in his presence and hearing, namely: "Who the devil is that fellow"? or words to the same effect."

"The above being in breach of the Articles of War"

Fort St. George, the First of February one thousand eight hundred and forty-one.
(Signed) R. B. FEARON,
D. A. G. H. M. Forces.

Upon which Charges the Court came to the following decision:

"The Court having most maturely weighed and considered the whole of the evidence brought forward in support of the prosecution, as well as what the Prisoner, Ensign John Maguire, of Her Majesty's Fifty-fifth Regiment of Foot, has urged in his defence, and the evidence in support thereof, is of opinion:"

Finding on the First Instance of the First Charge.—"That the Prisoner is "guilty" of the

First Instance of the First Charge, with the exception of the words " for which he subsequently refused to make any apology."

Finding on the Second Instance of the First Charge.—" That the Prisoner is " guilty" of the Second Instance of the First Charge."

Finding on the Second Charge.—" That the Prisoner is " guilty" of the Second Charge."

Finding on the Third Charge.—" That the Prisoner is " guilty" of the Third Charge."

Finding on the Fourth Charge.—" That the Prisoner is " not guilty" of the Fourth Charge."

Sentence.—"The Court having found the Prisoner " guilty" to the extent above stated, doth sentence him, the said John Maguire, Ensign of Her Majesty's Fifty-fifth Regiment of Foot, to lose one step in his Regiment, by being placed immediately below Ensign Arthur Lord, who at present stands next to him, and further, that he be severely reprimanded in such manner as the Major General Commanding the Army in Chief may be pleased to direct."

Remarks by the Court.—" The Court cannot conclude its Proceedings without expressing its conviction that had the Officer in the immediate command of the Troops by friendly advice pointed out to the Prisoner, the consequences of his unwarrantable conduct, or exercised the authority vested in him, the whole of the present Proceedings might have been avoided: at the same time the Court deem it their duty to observe, that the assumption of authority by Brevet Captain Silver in placing the Prisoner under close arrest, and at his peril to leave his cabin, was both premature and uncalled for, and that the Prisoner's immediate Commanding Officer should first have been consulted before he took a step so liable to create irritation and jealousy amongst all parties."

" The Court is further of opinion, that Captain Gordon might have pursued a better course towards a very young and inexperienced Officer, than to have placed his name on so offensive and irregular a paper as that submitted to the Court."

Approved and confirmed.—The reprimand will be given to Ensign Maguire by the Deputy Adjutant General of Her Majesty's Forces.

MADRAS
17th March 1841.

(Signed) R. H. DICK, Major General.
Commg. the Army in Chief.

Ensign Maguire having been severely reprimanded as directed, and in accordance with the Sentence of the Court, he is to be released from arrest and to return to his duty.

At a General Court Martial holden at Fort St. George, on Wednesday the 17th day of February 1841, Lieutenant Augustus Henry Chaproniere of Her Majesty's 55th Regiment of Foot, and lately Commanding a Detachment of Troops on board the Ship "*Lady Flora*" from England to Madras, placed in arrest by order of the Major General Commanding in Chief, on the complaint of Brevet Captain Thomas Goldie Silver of the 20th Regiment of Native Infantry, was arraigned upon the following Charge.

Charge.—" For conduct unbecoming the character of an Officer and a Gentleman, and to the prejudice of good order and military discipline, in the following instances :"

First Instance.—" In having at Sea on board the Ship "*Lady Flora*" during her outward bound passage to Madras, when to the eastward of the Cape of Good Hope, on the twenty-eighth of December one thousand eight hundred and forty, conducted himself in a violent and insubordinate manner to me his superior Officer, on my officially reporting to him in his own cabin, my having placed Ensign John Maguire of Her Majesty's Fifty-fifth Regiment of Foot, an Officer under his orders, in close arrest, for sending a challenge to Captain John Gordon of Thirty-first Regiment of Native Light Infantry, to fight a duel, by addressing me in an insulting and outrageous tone of voice as follows, namely, " How " am I to know you are an Officer, you are on leave at present; and I do not consider you " have any authority to do so," or words to the same effect."

Second Instance.—" In having on board the Ship "*Lady Flora*," as aforesaid, on the same day, on the Poop of the said Ship, in presence of many of the Passengers and Officers of the said Ship, when in the act of pointing out Articles two, and four, of Section seven, of the Articles of War for the Company's European Troops, as my authority for having placed the said Ensign John Maguire in arrest, insubordinately and most insultingly addressed me as follows, namely: " I do not know who the devil you are, you may be a dismissed Officer for all I know, and I do not care a damn for you," or words to the same effect, he, Lieutenant Chaproniere, not having received any provocation whatever in word, look or gesture from me."

" The above being in breach of the Articles of War."

Madras, the twelfth of February one thousand eight hundred and forty-one.

(Signed) R. B. FEARON,
D. A. G. H. M. Forces.

Upon which Charge the Court came to the following decision:

" The Court having most maturely weighed and considered the whole of the evidence brought forward in support of the prosecution, as well as what the Prisoner, Lieutenant Augustus Henry Chaproniere of Her Majesty's Fifty-fifth Regiment of Foot, has urged in his defence, and the evidence in support thereof, is of opinion :"

Finding on the First Instance of the Charge.—" That the Prisoner is " guilty" of the First Instance, with the exception of the words " and outrageous."

Finding on the Second Instance of the Charge.—" That the Prisoner is " guilty" of the Second Instance."

Sentence.—" The Court having found the Prisoner " guilty" to the extent above stated, doth sentence him, the said Augustus Henry Chaproniere, Lieutenant of Her Majesty's Fifty-fifth Regiment of Foot, to lose three (3) steps in his Regiment, by being placed immediately below the three Lieutenants who at present stand next to him."

Recommendation of the Court.—" The Court having performed its painful duty in awarding a Sentence adequate to the offence, begs to recommend the case of the Prisoner, an Officer of upwards of fourteen years service, to the favorable consideration of the Commander in Chief, grounding its recommendation on the indelicate exercise of authority by Captain Silver in placing an Officer under the Prisoner's immediate command in close arrest without a previous reference to him, which in this case might easily have been made."

Approved and confirmed:—but in consideration of the recommendation of the Court, I remit the punishment awarded.

MADRAS, 17*th March* 1841. } (Signed) R. H. DICK, Major General, Commanding the Army in Chief.

The Prisoner is to be released from arrest and to return to his duty.

FORT ST. GEORGE, 13TH APRIL 1841.

No. 65 of 1841.—The Right Honorable the Governor in Council is pleased to establish the following rules which, as far as circumstances permit, are in accordance with the practice in Bengal, to govern the issue of subsistence money to the Children of Soldiers (Queen's and Company's) under this Presidency.

1st. The Children of Soldiers (Queen's and Company's) are to be under the immediate control of the Commanding Officers of Corps—Children of Non-Commissioned Officers, Privates, &c. attached to Garrisons are in like manner to be under the control of the Officer Commanding the Garrison or Station. They are to be regularly mustered as present with the Father, and their pay is to be drawn in the same abstract as the pay of the Father—when the Father is, from any cause, absent, Pay for the Child is to be drawn as directed in G. O. G. 12th January 1841, para. 27.

Note.—No exception to this rule is to be allowed without the special sanction of Government.

2d. Children of Company's Soldiers upwards of 4 years of age, are required to attend the Regimental School when there happens to be one at the Station to which the Parents are attached. The Children of Company's Soldiers of the Roman Catholic persuasion are not, however, to be compelled to attend in opposition to the wishes of the Parents. This rule does not apply to the Children of Soldiers belonging to Her Majesty's Regiments who are to be governed, as regards attendance at School by the Regulations in force in Her Majesty's Service.

3d. The allowance will not be drawn for the Children of Soldiers admitted on the foundation of any Charitable Institution. The Military Male and Female Orphan Asylums are exceptions to this rule.

4th. When doubts exist of the legitimacy of a Child, it will be the duty of the Officer Commanding the Corps or Station to which the Parents or Guardians belong to institute such enquiries as may be necessary to establish the fact, and should the information thus acquired, be sufficient for that purpose, an affidavit may then be required from the Parents and Guardians of the Child.

5th. The Children of men of the undermentioned ranks, the *Fathers being of the lineage or extraction described in the margin, are entitled to subsistence money, as are also the offspring of intermarriages in this class.

* Lineage or Extraction.

A man whose Father was an European and his Mother a [redacted] a half caste woman (the daughter of an European Father and Native Mother) is recognized as an European, and is allowed all the privileges of an European Soldier.

Non-Commissioned Officers and Privates attached to Garrisons.

Staff Serjeants—Native Regiments.

Medical Subordinates under the rank of Warrant Officers.

6th. The allowance is not to be drawn for the Children of Out-Pensioners of Chelsea Hospital; nor in any case, for a boy who is employed in the Public Service, and receives Pay from the State.

Orphans. 7th. Orphans under 14 years of age, being the legitimate Children of Queen's or Company's Soldiers who die in India, are entitled to subsistence money—without reference to the remarriage of the Mother whether in or out of the service, or to her remaining a widow. The Orphans will receive the allowance from the 1st of November 1840, or from the date of the Father's demise, if he died subsequently to the 1st of November 1840. The allowance will be drawn for the Orphans by the Station Staff Officer, and will be paid by him, under the orders, and at the discretion, of an Orphan Station Committee, which will be hereafter described, to the Mother, or Guardian, or other proper person, for the benefit of the Orphan. GENERAL ORDERS by the Right Honorable the Governor General of India in Council.

Fort William, 31st March 1841.

No. 84 of 1841.—With reference to Government General Orders, No. 71, of 27th March, 1829, the following Extract of a Military Letter from the Hon'ble the Court of Directors to the Governor of Bengal, is published for general information :

Extract Court's Letter, No. 12, dated 3d February, 1841.

Letter dated 15th June, 1840, (No. 67.)
Submit for Court's Orders a reference from Bombay as to whether a Member of the Medical Board is entitled to resume his former situation in the Board on his return from sick leave to Europe, and what allowance he is to draw in the event of his having to wait for a vacancy.

23. When framing the Regulation contained in our Letter of 27th August 1828, para. 13, that Superintending Surgeons who come to England, on sick certificate, shall resume their rank and station on their return to their duty, it was not in our contemplation that any Member of the Medical Board who might come to England on sick certificate would desire to return to India for the purpose of completing the residue of his tour of service in the Board, or we should then have provided for such an occurrence. We can now have no difficulty in authorizing the readmission of the Medical Officer so circumstanced, to the Medical Board, in his proper rank from the date of his arrival at the Capital of his Presidency. The period of service of the Junior Member who will in consequence revert to his former position of Superintending Surgeon, will count as so much passed out of the term of five years to which service in the Medical Board is limited.

1. No Soldier shall be struck off the strength of any Corps as a Deserter until he has been absent without leave for a period of twenty-one days. G.O.C.C. 7th Octr. 1835.

2. In the case of a Soldier on furlough overstaying his period of leave, the Commanding Officer will exercise his discretion as to returning him *absent without leave* or continuing him as *on furlough* for a period not exceeding three months, at the expiration of which, if nothing be known to the contrary, the absentee is to be considered as a Deserter and struck off accordingly.

3. Any Soldier however is liable to be tried for the crime of desertion, if necessary, without reference to the number of days he may have been absent.

4. Officers Commanding Divisions and Forces are empowered to direct the readmission on the strength of Corps of Deserters, or of men returned absent without leave, without reference to Army Head Quarters, except in cases where such Deserters are in excess of the established complement, when application must be made for the sanction of the Commander in Chief. G.O.C.C. 20th Augt. 1827. G. O. G. 6th April 1824.

7. Deserters are to be subsisted as provided for in the Pay Regulations, from the date of apprehension until the date on which they rejoin their Corps and are readmitted on the strength.

8. The act of desertion cancels every claim that a Soldier may at the time have upon the Service—and no arrears of pay, clothing, prize money, nor any allowance whatever can be drawn on account of a Deserter, or paid to him. G. O. G. 9th August 1805

9. Unless otherwise specially ordered by the Commander in Chief, the service of every Soldier, European or Native, convicted of "desertion" shall be calculated only from the date of his readmission on the strength of his Corps.

BY ORDER OF THE OFFICER COMMANDING THE ARMY IN CHIEF.

Adjutant General of the Army.

GENERAL ORDERS

By Major General Sir Robert H. Dick, K. C. B. & K. C. H. Commanding the Army in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, 10*th May* 1841.

The Officer Commanding the Army in Chief directs the publication of the following Section of General Regulations, for the guidance of the Army.

DUTIES IN CAMP.

1. When Regiments may be marching singly, the signals and other arrangements are to be as directed in their respective Standing Orders.

2. When a Regiment forms part of a Force the whole of which is ordered to march, the signals will be as the General or other Officer Commanding may direct at the time.

3. When a Regiment being part of a Force may be ordered to march singly, no other than the usual Parade Calls are to be used, and those only when the Regiment may march *after Reveillee*. No *general signal* is to be used until out of hearing of the main body.

4. All sounds preparatory to turning out and marching will commence at the tent or quarters of the Adjutant General, and be immediately repeated from the tents or quarters of Commanding Officers of Corps and Detachments.

5. Immediately after the first sound all the Trumpeters Buglers or Drummers are to assemble at the head of each Regiment and Detachment, whence all the other sounds will be repeated.

6. When not in the vicinity of an Enemy each Brigade will detach a Quarter Master, with the Camp Color Men and Quarter Master Serjeants of Corps, who will move off in advance one hour before the time appointed for the march of the Troops.

7. These parties will be under the command of the Senior Officer, who will march them in perfect order and as expeditiously as possible to the next Station.

8. The Quarter Master General attended by the Staff of his Department and the remaining Quarter Masters of Corps will precede the Force for the purpose of selecting the ground or quarters to be occupied at the next Station. After he has done this and marked the right and left of the Line, the space for each Division is to be traced out by his Assistants and made over to the Quarter Masters of Corps.

9. The Quarter Master General proceeds in the meantime to reconnoitre the roads leading to the Camp and the country in its vicinity—determining upon the proper stations for the Guards and Out Posts, and, when necessary, in what direction parties are to be sent for forage.

10. All Camp guards and in lying picquets will join their Troops or Companies on the sounding of the first signal.

11. Out lying Picquets will receive orders according to circumstances.

12. The Standing Orders of Corps under the head of "Duties when marching" are to be strictly observed, unless when circumstances may lead the Officer Commanding the Force to issue any other orders at the time.

13. All Staff Officers, and Officers of Engineers not employed with the Sappers, will march at the head of their respective Divisions or Brigades.

14. Whenever the bugles sound the halt, the head of each Battalion is to stand fast, even although it should not be closed up to the preceding one—but the following divisions of each Battalion must close up to wheeling or other distance as may be ordered.

15. When it is intended that the whole Division or Brigade should close up, the head will be halted without sound of bugle, and the word of command, Quarter, Half, or Wheeling distance, will be passed from front to rear—and when the rear is closed up, the bugle of the rear Battalion will sound the halt as a notice.

16. When a Brigade is marching independently of any other, the Officer Commanding the leading Regiment will sound the halt, half an hour after it marches off, and afterwards once an hour—each halt to last at least five minutes after the men have piled arms—if a longer halt is thought necessary, the Commanding Officer of the Brigade will direct it.

17. No Battalion, Company, or Section is at any time to defile, or diminish its front, or attempt in any way to avoid any bad spot in the road, unless the preceding Battalion or Company has done so.

18. Whenever defiling is necessary it must be executed with order and precision, as in manœuvring at a field day, by the proper words of command preceded by the word Attention.

19. When a Battalion or Company comes to a defile, stream, or bad place of the road, where it might be more convenient for the men to defile individually, the Officers must be on the alert, and call out to the men to keep their ranks or sections.

20. Whenever a stream, ditch, bank or other obstacle is to be crossed, it will be generally found that instead of defiling or diminishing the front, the very contrary should be done—not only by causing the files of each Section to extend gradually before they arrive at the ditch, or obstacle, but even by forming subdivisions or companies.

21. It is of the greatest importance that the men should not on any account be hurried on the march—they are to be instructed that they are never to step out beyond the regular step, still less to run, unless by word of command.

22. When the proper distances of Companies or Sections cannot be preserved without an alteration in the step, it must always be effected by making the head of each Battalion or Company step short, instead of allowing the others to step out.

23. After passing an obstacle, or ascending a hill, the leading Company of each Battalion will step short until the last Company of the Battalion has passed and closed up, although a large interval should be thereby occasioned between it and the preceding Battalion.

24. The leading Section of each Company will also step short until the last Section has passed and closed up, even although a large interval should take place between that and the preceding Company.

25. When the head of a Company, suppose No. 4, cannot keep up without overstepping or leaving its own Sections at too great a distance, the Officer Commanding must call out "No. 4 cannot keep up," which must be repeated aloud by the Serjeants on the flanks of the leading Sections of the Companies in front of No. 4, until it comes up to the Commanding Officer, who will of course shorten the step at the head of the column, unless he perceives that some obstacle, ascent, or difficult ground in front, will give time to No. 4 to close up—in the mean time No. 4, if no answer is returned to the notice of its having increased distance, will continue at the regular step.

26. In like manner if the head of a Battalion cannot keep up with the preceding Battalion, the Commanding Officer will forward the notice to the head of the Brigade, detaching files at the same time to preserve the communication with the preceding Battalion.

27. When obstacles which delay the march are frequent, it may be desirable or necessary, in order to avoid loss of time, that each Company, after passing, should march on at the usual rate, without shortening its step, as the following Company may overtake it at the next obstacle or ascent—but it can never be necessary, and must never be suffered, that the leading Section of a Company should march on until the rear Section has completely passed and closed up—the intervals between Companies may be occasionally increased with advantage and without disorder, but unless each Company in itself be kept compact, disorder and disorganisation will ensue.

28. On approaching the new encampment the Column will be halted. The rear divisions of each Brigade will close up, and all Officers take post. Each Brigade will then be conducted by one of the Quarter Masters who had been sent on in advance, by the most direct road to its place in the Line, and formed upon the ground allotted for its parade.

29. As each Regiment is formed, it will be broken into open column—Officers will open ranks and inspect their Troops or Companies. Reports will then be collected by Adjutants—Officers Commanding will tell off their men for duty and send them to the centre of the parade—after which arms are to be piled, and the men may be allowed to sit down or walk about in rear of the line of formation—but not to quit the ground until the guards and picquets are posted.

30. When not in the neighbourhood of any Enemy, or in bad weather, the men, with the exception of those for duty, may be dismissed as soon as the reports are collected.

31. Cavalry will file off and picket their horses as soon as reports have been collected, with the exception only of those for mounted duty, who are to be sent to the centre of the Parade.

32. Regimental guards will be formed on the regimental parade and sent thence to their posts—General guards are to be formed in front of the centre of each Brigade.

33. The guards are to be sent to their posts after inspection, without further ceremony—except in a standing Camp, when the regular forms of guard mounting will be observed.

34. Guards and Sentinels within the limits of the Camp are to follow the rules laid down for "Duties in Garrison."

35. Quarter Masters of Corps under the direction of the Quarter Master General will mark out proper places for picketing Officers horses and other cattle. They are never to be allowed to remain within the lines of tents.

36. On arriving in a Camp which is intersected by hedges, ditches, unequal or boggy ground, Regiments will immediately make openings of communication of sufficient width.

37. The ground in front of the encampment is to be cleared, and every obstacle to the movement of the Artillery and the Troops is to be removed.

38. Commanding Officers of Brigades must take care that their communications with the main road are open, and free from impediment.

39. The places for cooking in Camp must be pointed out to the Orderly Serjeants of Companies, by the Captain of the day, and must be particularly chosen with a view to avoid danger of the grass taking fire, and for the greater facility of superintendence all the Companies must cook as near together as possible.

40. Whenever European Regiments remain more than one night in a Camp, regular kitchens are to be constructed.

41. Necessaries are to be made in the most convenient situations. The utmost attention is required, in this and every other particular, to the cleanliness of the Camp.

42. It must be explained to the men, as a standing order, that when no regular necessaries are made, nor any particular spot pointed out for easing themselves, they are to go to the rear,

at least 200 yards beyond the sentries of the rear guard—all men disobeying this order must be punished.

43. In towns, necessaries must be dug in the yards of the houses, or in the most convenient situations adjoining any large building occupied by the Troops. They must be covered over daily, and fresh ones made as often as expedient.

44. No huts or pals are to be allowed in front of, or between the intervals of the Battalions. Their proper situation is in the rear of the lines of bazars.

45. The Field Officer of the inlying picquets is charged with the superintendence of the police and cleanliness of the camp or quarters of his Division—and he will issue such orders on the subject as may be necessary to the Captains of the day who, with the Quarter Masters under their Commanding Officers, are specially responsible for the cleanliness and regularity of the encampment of each Regiment.

46. In towns or villages, before the men are dismissed the alarm post will be fixed, the dispositions made for the defence of that portion of the circumference falling within the district of the Regiment, and all other necessary directions given by the Officers Commanding Battalions, as also the distribution of billets by those commanding Companies.

47. When the troops are encamped, the Officers' tents must of course be pitched in their proper places—and when hutted, or lying out without cover, the Officers will choose convenient spots, as near as possible to the station where the tents would be pitched in a regular encampment.

48. When the troops are in towns or villages, the Officers must always occupy a part of one or more of the houses allotted to their men.

49. After every march, or change of position or quarters, the house, tent, or station, of all the Officers of each Troop or Company is to be pointed out to all the Non-Commissioned Officers present, before, or as soon as they are dismissed.

50. When quartered in any town, Commanding Officers of Regiments, with the assistance of their Field Officers and Staff, will ascertain the state of all the houses occupied by their Regiment once a week—and if they discover any damage done to them, which has not been reported by Officers Commanding Companies, they will report it to the Commanding Officer of the Brigade, and also, through the Assistant Quarter Master General, to the General Commanding the Division.

51. Officers Commanding Troops and Companies will also take care, that at least one Non-Commissioned Officer and two orderly Privates may immediately find out the quarters of the Commanding Officer of the Regiment, and of the Major of their Wing. When in towns, the Adjutant and Quarter Master, and the Commanding Officer's orderlies, are to have a quarter allotted to them, either in the same house with the Commanding Officer, or in that immediately adjoining.

52. If the Field Officers are not in the same house with the Commanding Officer, their quarters should be in as central a situation as may be, in the district of their respective Wings, and must be made known to at least two or three of the Commanding Officer's orderlies as soon as the Regiment is dismissed.

53. Each Brigadier's orderlies must be sent to his quarters immediately after the arrival of the Brigade, having first made themselves acquainted with the quarters of their Commanding Officer. The Commanding Officers of Regiments must also send some of their orderlies to make themselves acquainted with the Brigadier's quarters.

54. Discharging of fire arms in a Camp or in its vicinity, without express permission notified in Orders, is positively prohibited.

55. Commanding Officers of Regiments wishing to have field days, or to fire ball, will make application, specifying the particular time, to the Commandants of their Brigades, by whom the requisite permission will be obtained from Head Quarters.

56. The greatest attention is required in regard to the arrangement of the men's arms, which must always be kept in the most perfect order. The arms of Infantry are always to be piled in column in front of the tents, unless in foul or uncertain weather when they must be lodged within the tents.

57. The ammunition in the men's pouches and the flinting of the arms are to be carefully inspected daily.

58. A Regimental Inspection is to be made in every Corps weekly—at which the arms and appointments, ammunition, and necessaries, particularly shoes, sandals, haversacks and carpets or blankets, are to be minutely examined.

59. The Cavalry must always have their saddles bridles and accoutrements arranged in readiness to be put on their horses at the shortest notice.

60. The troops must at all times be kept in the most perfect readiness to turn out, and it is expected that in half an hour from the time they receive the order to march, either in the night or day, the Army shall stand formed at the head of its encampment, prepared to move off. This indeed, is equally necessary in Cantonments as in Camp. Troops must always be accustomed to march without any previous notice.

61. No Officer is on any account to sleep out of Camp without leave.

62. The most strict order must be given for the prevention of fire—and the custom not unusual of setting fire to huts or straw on leaving a Camp, must be strictly forbidden and guarded against.

63. The number of Officers required to be on duty in Camp must depend upon circumstances at the time. Ordinarily, however, there will be one Field Officer and one Brigade

Major for each Division—and one Captain for each Regiment, exclusive of the Regimental Orderly Officer of the day.

64. When circumstances require more than one outlying picquet there will be two Field Officers of the day for each Division, one for the outlying picquets, and another for the inlying picquets and internal duties of the Camp or Cantonments of the Brigade.

65. When there may not be a sufficient number of Field Officers to do this duty without material inconvenience, the Senior Captain of one or more Regiments of the Division will take the duty of Field Officer of the inlying picquet.

66. The Field Officer of the day is charged with the general superintendence of the Camp of his division, and of the picquets belonging to it, which he is to visit as often and at such times as he thinks proper.

67. He is to issue all necessary instructions to the Officers commanding picquets and will order such patroles to be sent out as he may consider necessary.

68. He is to make immediate report to the Officer Commanding the Division of any thing requiring his notice.

69. The Field Officers of the day will take care that the Officers commanding picquets may always know where to find them without a moment's delay—and all Officers on duty or in waiting are to leave word at the regimental quarter guard, as well as at their own tent or quarters, where they are to be found.

70. When there are two Field Officers on duty, the Field Officer of the outlying picquets will have his tent or quarter with the reserve picquet.

71. The Captain of the day in each Regiment is charged with the general superintendence of the encampment of his Corps and of all regimental guards. He has also the command of the inlying picquet.

72. The Quarter Master of each Regiment is responsible that the encampment of his Corps is formed in accordance with the orders of the Quarter Master General, and that cleanliness is every where preserved.

73. Unless specially ordered inlying picquets will not be required for duty during the day. They will mount at sun set and must remain accoutred and in constant readiness to turn out during the night—Cavalry picquets to have their horses saddled.

74. If the troops are under arms before day-light, which will generally be the case in situations which require picquets, the inlying picquets will parade with their Regiments—but it will be observed as a constant rule that all picquets are to be under arms before day-light, even if the rest of the troops are not, and in that case, the inlying picquets of each Regiment will place themselves close in front of the centre of their respective Regiments.

75. Each Regiment stations a quarter guard in front of its centre. The design of these guards is rather to preserve order in the encampment, and to furnish sentries, than to provide for the security of the Camp—nevertheless this is not to be neglected by them—they will keep a watchful eye to the front, particularly at night, lest any of the Enemy's parties contriving to pass the out-posts and picquets, should fall upon them unawares.

76. It is the duty of quarter guards to repress all disturbances arising within the limits of Regiments.

77. Each regimental guard will send frequent patroles during the night for the prevention of robbery or disorder of any kind, as well as to take up all men found out of quarters.

78. The patroles of each regimental guard will confine themselves to their respective Regiments—and if they take up any stragglers of other Regiments they will be sent to the quarter guard of that Corps next morning.

79. Each Regiment will place sentries from its own regimental guard on all liquor dookans within its own limits, which must be frequently visited by the Captain and Subaltern of the day.

80. Exclusive of picquets and quarter and rear guards, there must always, in Camp, be a troop or company's guard or watch, of one Non-commissioned Officer and four Privates, furnishing one sentry. This watch, except the sentry, may be allowed as much ease in point of dress, as if not on duty—in the day-time they must remain within the lines, and at night, they must remain together in the centre of their troop or company. The sentry may mount with side arms, unless when near the Enemy.

81. An Officer on guard or picquet, is to write down all orders which he receives whether those orders come to him verbally or in writing, and deliver them over in writing to the Officer who relieves him.

82. In order to simplify the duties of the sentries, each individual is to retain the same post during the whole of the guard, or picquet—that is to say, that each time a man goes on duty as a sentry, he must have the same post that he had the first time—the most intelligent, trusty, and experienced Soldiers being chosen for the most difficult and important posts.

83. The Officers will most particularly examine each sentry upon his post, respecting the orders that he has received, immediately after he is placed there the first time—and before he is marched off to take the same post a second time, the Officer will question him for the purpose of ascertaining whether he recollects his orders.

84. It is the duty of the Officers to ascertain that every individual is instructed in what he has to do, and it is to them, therefore, that the responsibility attaches, if any accident or irregularity shall occur in consequence of orders not being accurately given.

85. The Captain of the day of each Regiment will report verbally to the Field Officer of the day as soon as relieved.

BAGGAGE.

1. The Baggage of the Army will move under such arrangements as may be ordered at the time by the Quarter Master General, and with such Escort as circumstances may render necessary.

2. No Baggage is to be packed before the sounding of the first signal for movement.

3. The Officer or Non-Commissioned Officer who marches in charge of the Baggage of each Regiment will assemble it at the appointed time and conduct it to the place assigned for the Baggage of the Brigade.

4. The Baggage of each Brigade and of each Corps composing it, must be kept collected and distinct.

PROVISIONS.

1. Quarter Masters of Corps are charged with the receipt and distribution of Provisions in communication with the Commissariat Department.

2. Fatigue parties will be detailed daily from each Corps as may be necessary, for the purpose of bringing its rations from the Commissariat.

3. All fatigue parties are to be marched regularly to and from the place where the provisions are to be received, or the duty to be performed.

4. The men are not to be suffered to carry bread or rice in their great coats—each man must take a sufficient number of haversacks with him.

5. The meat must be carried by two men upon sticks, in order that the clothing may not be soiled and made filthy, as is the case when the men carry the meat on their backs.

6. In order that the fatigue parties may not be kept waiting any longer than is absolutely necessary, the bread or rice and meat will be weighed and counted out for each Regiment and Company before the parties go for it—for which purpose a Non-commissioned Officer of each Regiment and one man per troop or company will attend at each place of issue—and when the Provisions are divided out, the parties will be sent for and marched regularly to the places of issue.

7. Followers may be used for the above duties when available, but they must be regularly detailed and accompanied by an orderly from each company, under the command of a Non-commissioned Officer.

8. When there is not a sufficiency of any article of Provisions to afford a full ration to the whole, care must be taken that each Regiment has its due proportion allotted to it, before the subdivision for the companies of any one Regiment commences.

9. The Captain of the day of each Regiment will be responsible for the regular performance of all that is directed respecting the reception of provisions. The Subaltern of the day will report to him the time and place of issue, and will also inform him when the provisions were received. If there is any irregularity or delay, he will immediately send a report to the Commanding Officer of his Regiment, and to the Field Officer of the day.

10. After a march, the Commanding Officer of each Regiment will send a report to the Brigade Major as soon as the men have received their rations, in order that the Commanding Officer of the Brigade may be aware of any unusual delay.

ORDERS.

1. All Orders are to be issued by Brigade Majors to Adjutants in person—or when sent in writing, they are to be returned with a receipt.

2. Officers receiving Orders or Letters upon service are always to give a receipt to the bearer, stating the time of delivery.

3. The precise time of despatching Letters upon service is always to be marked on the outside of them, and also, when sent beyond the limits of the Camp, the rate at which they are to be conveyed.

4. No persons are to be allowed to stay in or near an Orderly Tent during the time Orders are being given out, except the Staff Officers immediately concerned.

POLICE.

1. The Provost Martial is charged with the general police of the Camp, and with the custody of all Prisoners confined for offences of a general nature—in accordance with the powers vested in him by the 91st Article of War for the Company's Troops.

2. He must use every possible means to prevent the commission of crime, by frequently visiting those places at which breaches of order are likely to be committed. He is to take cognisance of the conduct of all Soldiers of the Army, as well as of all followers and retainers of the Camp.

3. He is frequently to make the tour of the Camp and its environs, in order to prevent and detect persons committing depredations or acts of disorder.

4. The Provost Martial is entrusted with authority to inflict summary punishment on any follower or retainer of the Camp, whether servants or others, whom he, or any of his Assistants, may detect in the actual commission of any offence against order and discipline—but a recourse to the exercise of this part of his authority must be limited by the necessity which may exist for immediate example, when called for by the prevalent and continual commission of any particular

offence. The power of the Provost Martial in this particular will be defined by the Commander in Chief at the time.

5. When he may detect Soldiers in the commission of such offences, he will immediately apprehend and confine them.

6. The Provost Martial is to make a report, daily, at orderly hour, to the Adjutant General, of the number and description of Prisoners in his custody —particularising their crimes, and noting all the occurrences of the preceding four and twenty hours.

7. Plundering and marauding are at all times highly disgraceful to an Army and must ever be punished with the greatest rigour. It must be well explained to all followers and retainers of the Camp that, in whatever capacity employed, they are all as entirely subject to Military Law as are the Soldiers themselves.

8. General Officers Commanding Divisions and Brigades, and the Staff Officers attached to them, are to give their particular attention to the conduct of the Provost Martial and of his Assistants, and to take care that every requisite aid be given to enable them to discharge their duties with proper effect, at the same time observing that no abuse or improper application be made of the authority entrusted to them.

9. Officers in the command of guards or detachments are also enjoined to give assistance to the Provost Martial in the execution of his duty, and any Officer, Soldier, or other person impeding him in the same or offering him any insult in its execution, will be punished.

10. All applications from the Provost Martial for patroles from any guard are to be immediately complied with.

11. These orders are to be carefully and clearly read and explained by beat of drum or tom tom in the several Bazars and Lines, at such times as may be ordered, that none may be ignorant of them.

WORKING PARTIES.

1. Whenever the service may require it, Soldiers are at all times liable to be ordered on working parties as a duty.

2. When the Troops are employed at a siege in making or repairing works, they shall receive working pay agreeably to the rates specified in the Pay code.

3. Working parties employed on service in the field in situations of danger from an enemy are to receive the same allowances as authorised in paragraph 2.

4. In the case of such service being attended by any extraordinary danger, the Commanding Officer on duty or the Chief Engineer will state his opinion to the Commanding General touching the reward that may be deemed adequate for its performance.

5. Except in special cases of which the Commanding Officer will be the judge, these allowances are not to be extended to Sappers or Lascars.

6. When Officers Commanding Corps or Departments either in the field, or marching from one station to another, may find it necessary, in order to facilitate their march to employ the Troops—Sappers and Lascars excepted, whose especial duty includes such employment,—in repairing roads, or removing guns, ammunition or stores, through defiles or passes, or in crossing rivers, to an extent beyond that customary assistance which in all situations it is the duty of the Troops to afford to their Ordnance and other equipments on the march, the circumstances of such necessity shall be stated to the Quarter Master General, for the decision of the Commander in Chief, in time of peace,—or through the Officer of that Department to the Commander of the Field Force in time of war—that the propriety of rewarding the extra labour and fatigue to which the Troops were subjected while so employed, may be determined by those authorities respectively. The amount of remuneration, if in money, to be drawn as directed in the Code of Pay Regulations.

7. It is to be thoroughly and clearly understood, that except for the performance of certain duties at sieges, or in cases that may appear to the General or other Officer Commanding to be deserving of particular consideration, no gratuity or working pay is to be extended to, or claimed by working parties in camp or on service, when work becomes the most important of duties—when the bodily exertion of every individual of every rank must be commanded to facilitate the operations, strengthen the positions, and ensure the general safety of the Army—and when the use of the spade, pickaxe and barrow, is as essential for the defensive, as that of the musket and bayonet is for the offensive, operations of the Army.

8. The levelling of ground in the vicinity of the camp or barracks, opening communications, constructing or repairing butts for target practice when other means may not be available, and generally any work required for the general benefit in the lines of corps, are common duties of fatigue, to be performed without any additional pay.

OUTLYING PICQUETS.

1. There are no duties in the field more important than those of the outpost, or which should call forth, in a higher degree, the individual judgment and exertion of all employed on them—neither is there any situation within the range of military service, where the misconduct of a single man could be productive of such serious consequences as might attend any want of vigilance in the advanced sentries of a picquet.

2. The principal duties of an outlying picquet are to secure the safety and repose of the

camp, to prevent reconnoisances being made by the enemy, and to gain intelligence of his movements, and even of his intentions, by patrolling, by careful watching, by examining the peasantry of the country, and by all those indications with which every Officer ought to be familiar—such as the strengthening of the enemy's posts, unusual bustle or movement in his lines, the sound of troops or artillery on the march at night, the diminution or the increase of fires, &c. &c.

3. Picquets in the field are usually taken by Brigades, the different Regiments furnishing one or more companies as may be required—a Field Officer of the day being placed in charge of the whole. The reserve picquet, of such strength as may be necessary, remains under the Field Officer of the day, at least four hundred yards in rear of the centre of the line of advanced picquets which is taken up by companies in direct communication with each other. The chain of sentries is thrown out in front, sufficiently in advance to give timely notice of the enemy's approach, and so placed as to insure uninterrupted communication from one flank to the other. The Field Officer will use his discretion in detaching parties in advance of the picquets, to furnish the sentries and support the chain—but, on all occasions, such parties should be stationed before the flanks of the general line of picquets.

4. All advanced picquets must have three reliefs.

5. The men on advanced picquets are to carry their provisions with them, and when circumstances will permit, ready cooked—no man can be allowed to quit his post for the purpose of taking his meals, nor can he be permitted to take off his accoutrements.

6. The Cavalry must carry sufficient forage for the time they are to be out.

7. Advanced picquets are invariably to have with them a few entrenching tools, such as momaties, pick-axes, hatchets and bill hooks. Two of each will generally be sufficient, and can easily be carried by the men.

8. All out-picquets march off from their parades without trumpets sounding or drums beating—they pay no compliments of any kind, neither do their sentries take any complimentary notice of Officers passing near their posts, whatever their rank.

9. An Officer ordered upon picquet must take a close and careful survey of the country he passes over, in marching from the camp or the cantonment to his post, in order that he may defend it properly if attacked and driven back. The strongest points in his line of retreat ought to be selected, and noted down if necessary—and the Officer's mind should be previously made up, as far as possible, upon the best mode of disputing the ground he must retire over.

10. The Officer intrusted with the posting of a picquet must select its station near the principal road to be guarded, and, if practicable, behind all cross roads leading into it, taking especial care to leave no road unguarded on its flank, by which it might be surprised in its rear. The picquet should as much as possible be concealed from observation, and where the ground naturally affords neither cover nor protection, the defect must be remedied by artificial means, and the employment of such materials as may be procurable near the spot.

11. As soon as the picquet arrives on the ground it is to occupy, sentries will be thrown out in elevated situations upon its flanks and front for immediate security, and the Officer Commanding having reconnoitred the neighbourhood of his post, with a strong patrole, in person, will proceed to form a chain, covering his front and flanks, and communicating with the picquets on his right and left.

12. He should repair to the highest spot in the vicinity and make himself thoroughly acquainted with the ground to his front and flanks, and particularly to his rear. He should carefully examine not only the space he actually occupies, but the heights within musket shot—the roads and paths leading to, or near, the post, ascertaining their breadth and practicability for Cavalry and guns. He should examine the hollow ways which might cover the approach of an Enemy, and consider all the points from which it is likely he may be attacked.

13. If the picquet be of Cavalry he should choose some narrow road or lane to charge the head of the Enemy's column—if Infantry, he should look for some yard or enclosure in which he can defend himself. He should see that no roads cut in behind him, which are not covered—and he must break open gaps in the walls and hedges for his flank patroles to communicate with the picquets on his right and left in the night. Should he be posted on the flank of a line of picquets, with one of his posts uncovered, and find or gain information of any road at a distance beyond his limits, turning his post and leading on head quarters, he must send in and report the circumstance.

14. Previous to making abbatis or barricades across any road, he should ask the orders of the Field Officer—as it may possibly be intended to move on that road in the course of the night.

15. Trees felled with judgment, brushwood cut to a certain distance, pointed stakes about breast high, placed on the points most assailable by the Enemy, may be attended with the greatest advantage, all which can be effected with the common hatchets or bill hooks used for the purpose of cutting firewood.

16. Local circumstances will point out to any intelligent Officer numerous methods by which to check the advance of an Enemy and add to the security of his post. It must, however, be borne in mind that all such obstacles should be within point blank musket shot—and no impediment which an Officer defending a post can throw in the Enemy's way at that distance, should be deemed unworthy his attention. In all barricades a small passage should be left for the patroles—having something at hand to fill up the gap when necessary.

17. When the post is so secured as to prevent the Enemy dashing in suddenly, a few of the men may be dismounted in order to fire with greater precision—but the certainty of their having time to remount must be ascertained—dismounting Cavalry, however, is not generally to be recommended.

18. If a picquet should be posted in a village, the main body must be placed so as to be behind the junction of all the roads that lead to the Enemy's position, the entrances from which must be blocked up, or dug across, with the exception of a small retiring path for the sentries placed in observation in front. Small parties will be placed behind each barricade for its defence.

19. A picquet ought not to shut itself up in a house or an enclosure with the intention of defending itself to the last extremity, unless particularly ordered to do so, or that circumstances may render it necessary at the moment, for the preservation of the party, in the expectation of support.

20. An Officer should never place the horses of his picquet in yards or out-houses with narrow gates or doors, where there may be any difficulty in withdrawing them in a hurry.

21. Any obstacle or difficulty in the road should be placed between the picquet and the Enemy, rather than between the former and Head Quarters, but the videttes must be so placed as to have an extensive view in the day time, and if possible to be hid from sight—the stump of a tree or a bush will serve for this purpose.

22. This, however, must give way to the great object, communication. Every vidette and sentry throughout the chain should be able to observe distinctly the motions of the videttes or sentries on each of his flanks. The sentinel who is stationed over the arms or horses of the picquet should be able to see one of the videttes or sentinels to the front who is in communication with the chain. When any obstacle may prevent his seeing the advanced vidette, intermediate ones must be posted to give notice of any signal from the front.

23. In selecting the line for the chain of sentries, care must be taken not to extend it too much,—to post the men in the most advantageous situations for observing the roads and country in front, and to keep them as much concealed from the view of the Enemy as the nature of their duty will admit. It is very desirable that every elevated spot which overlooks the communications in the rear should be taken within the chain of sentries—but if this cannot be effected without extending the sentries too much, a party must be sent to occupy the height during the day, and care must be taken to support and ensure the retreat of this party if attacked. Sentries must be so placed, moreover, as to secure one another from being cut off, and at such distances as to prevent any Enemy from passing unperceived between them during the night. Sentries should never be posted near any copse or cover from which a sudden rush might be made upon them—but all woods, ravines, &c., in the neighbourhood of the post must be watched, and occasionally visited by patroles, to prevent the Enemy from assembling, unobserved, a body of troops in the vicinity. No sentry should be placed at such a distance from the picquet, that the report of his musket may not be distinctly heard from it—and he should always have the sentry on his right and left in view, as well as the intermediate ground between them, to prevent the Enemy from passing through the chain unnoticed.

24. All advanced sentries, and sentries on the flanks of picquets are to be posted double—other sentries either double or single as may be ordered, according to circumstances.

25. At night one of the sentries will patrole to the right till he approaches the adjoining file, while the other is looking out vigilantly to the front—one will also occasionally move to the front to a distance of twenty or thirty yards, and lie down with his ear to the ground for the purpose of listening. The tread of men or horses on the march, the noise of artillery in motion, the neighing of horses, &c. may be heard at a great distance in the stillness of the night, and not unfrequently a picquet may in this way become aware of the Enemy's movements.

26. In thick or foggy weather the same practice will be observed in the day time.

27. If the chain of sentries should be so far extended as to make it inconvenient to relieve them all from the advanced picquet, small parties may be detached to convenient situations for the purpose of furnishing the sentries and forming intermediate supports to the chain.

28. Videttes and sentries must be instructed to be particularly alert upon their posts—and they should have that most necessary caution, which should also be given to patroles, that the first shot may alarm the whole Army, causing it great unnecessary trouble, and that consequently, they ought not to fire without good reason. They should recollect that the first shot is not for the destruction of an Enemy, but as a signal.

29. The moment a sentry sees or hears any person he is to challenge "halt—who comes there?"—at the same time stepping forward two or three paces and making "ready." He must not allow the person to approach him nearer than eight or ten paces. He is not to be satisfied with the parole only, but must examine him so as to be convinced that he is not an enemy, before allowing him to pass. The Officer Commanding the picquet should fix upon a few short questions to be put by the sentries, the answers to which it would be impossible for strangers to give.

In double sentries one of the two will be selected when posted to give the challenge. The other will stand prepared for his support, uncovering to the right and cocking his piece.

30. They must be wary in allowing even an individual to approach—and before they permit any one to pass them, must well examine him, judging by the answers given if he belongs to the Camp. They must be made to understand that a want of caution on their part with respect to

this point, may lead to the most fatal consequences. They should be told that their own safety is as much implicated in it, as that of the picquet—many posts having been surprised by a vidette being cajoled into allowing a single man to approach, who has then stabbed him—when a supporting body of the Enemy, expecting the event, has instantly rushed in upon the unprepared picquet behind.

31. Still less are sentries to suffer any number of men exceeding two or three, whether soldiers or others, who come from the front, to approach too near their post. In the day time one sentry will advance, halt them, and ascertain who and what they are—if a detachment of soldiers, he will conduct the Commander of it,—or if a number of peasants, he will take one of them, to the Officer Commanding the picquet, who will either suffer them to pass, or go himself with a party from his post to examine them more closely, as circumstances may require.

32. At night this precaution is still more necessary—if then, a body of men, though announcing themselves as a detachment of the Army, and even in possession of the parole, should arrive at the advanced sentries, they must be ordered to halt—and one sentry will report their arrival to the picquet, the Officer of which will send a Non-commissioned Officer with a party to examine them. On such occasions an Officer is not to trust to the uniform or even to the word being right—but is to inform himself of the cause of their arrival at his post and of every circumstance that may tend satisfactorily to identify them. He must further demand the pass or written order—if this is found to be correct, and the Officer is satisfied in every respect that there is no risk, the detachment may be suffered to pass his picquet which, on the first arrival of the party at his post, will have been ordered under arms.

33. Such precautions should never be omitted, as there are numberless instances of posts having been surprised by parties in disguise. Sentries should not allow carts or waggons to pass them without previous examination, particularly if loaded high.

34. They must be doubly careful during rain or wind—never turning their own or their horses heads on account of the weather, from the point ordered. They should never unnecessarily expose their arms, particularly when the sun shines, as their glittering may be seen at a great distance. To this end, arms may be carried in the manner of sportsmen—or in any other way calculated to keep them from view. The men must never be permitted to wear caps or hoods which cover the ears, as they must necessarily prevent them from hearing with due readiness.

35. If more than one individual approach the post, the sentry will, on all occasions, command them to halt, and one man only to advance. If there is the slightest hesitation, *or more than one* attempt to move, the sentry will instantly fire.

36. Sentries must be very distrustful of people who answer the challenge by saying "Deserters"—they must be immediately ordered to lay down their arms in the rear, and must not be suffered to approach until a party arrives from the support to receive them, and then singly—should they hesitate, the sentry must instantly fire.

37. Persons bearing flags of truce from the Enemy are to be treated with attention and civility—but as communications of that nature are frequently designed for the purpose of gaining intelligence and of reconnoitring the Army and its outposts, the most strict and efficacious means must be adopted to frustrate such intentions.

38. One sentry will advance and halt them at such distance as will prevent any of the party from overlooking the picquet posts. The other sentry will acquaint the Officer commanding the picquet of the circumstance, who will, according to his instructions, either detain the flag of truce at the outpost until he has reported to the Officer of the day, or forward the party blindfolded to the camp, under an escort. If the flag of truce is merely the bearer of a letter or parcel, the picquet Officer must receive it and instantly forward it to Head Quarters. After having given a receipt, the flag of truce will be required forthwith to depart and none of the picquet must be suffered to hold any conversation with the party.

39. When any thing particular is observed in front during the day, such as any change in the Enemy's sentries or picquets, the disappearance of any sentry of our own, any unusual bustle or accession of force in front, troops in motion, or the appearance of a cloud of dust indicating that troops are on the march, or when firing is heard by any sentry, one of the sentries will instantly run in and report to the Officer what he has noticed, taking care to mention the circumstance at any post he may happen to pass on his way.

40. Signals may be established for sentries during the day. For instance—one man holding up his cap on the muzzle of his firelock, signifies that the Enemy's patrole is advancing, and both men holding up their caps in the same manner, signifies that the Enemy is advancing in force. Signals, however, should be few and simple, being liable to misconstruction.

41. On being attacked, should the advanced videttes or sentries find their arms miss fire from wet or any other cause, they should make their way with all possible speed to the picquet with loud cries.

42. At night the situations of sentries ought to be changed and drawn back from their elevated situations, so as to have the highest ground before them—as an object is more easily discerned at night from a low situation, than when looking from a hill.

43. To prevent sentries from looking in a wrong direction during the night, two forked sticks will be placed in the ground and a horizontal stick be laid across them, so as to point out by looking along it, the situation of the Enemy's posts. This precaution is also particularly useful to the sentries of reserve and inlying picquets, directing their attention to the proper quarter.

44. Any necessary alteration of videttes and sentinels must be made so that fresh communications may be arranged before it grows dusk.

45. The sentries ought to be relieved every hour during the night.

46. It is the duty of the Officer to inspect all reliefs of sentries, both when they go on and come off their post—to call the rolls frequently—and by every means in his power to keep the men in the most perfect state of vigilance and preparation. He must visit his sentinels after every relief and ascertain that all have received their proper instructions.

47. An Officer should make himself well acquainted with the situations of the videttes or sentries of the picquets on his flanks—see that those of his own picquet communicate with them and that the fire arms of his advanced men are in the most perfect order. He should recollect that he can never be considered secure, unless he is satisfied that his flanks are ensured from being turned.

48. In the day time should a report or any pre-arranged signal be made by the advanced vidette or sentry, the Officer should himself immediately repair to investigate its cause and he should be as much on the look out as any of his videttes, for many movements may take place, discoverable by his telescope, which a vidette may overlook.

49. The movement of troops is often betrayed by a cloud of dust or by the shining of arms—and these should be instantly reported in *writing* to Head Quarters, noticing the direction of the march.

50. In the night time any noise or moving of guns, or rattling of arms, should be reported. Patroles should also be sent out in the direction of the sound.

51. If an Officer hear a shot from one of his videttes, he must immediately send a Non-commissioned Officer and two steady men to ascertain as quickly as possible the reason of his firing. If the vidette make a mistake, the Officer should reprimand him—but by no means punish him, nor be passionate with him, for it is always better that a vidette should give a false alarm, than that he should announce the approach of the Enemy too late.

52. Should any affray take place in front of a picquet between foragers and the enemy, the Officer should order his men to mount, or stand to their arms, and must instantly report it—but he is on no account whatever to interfere unless his post may become endangered by the near approach of the Enemy.

53. When a deserter comes in from the Enemy, he is immediately to be sent under a proper escort to the Officer Commanding the outposts who, after ascertaining whether he brings any intelligence particularly concerning them, will forward him to Head Quarters.

54. All persons bringing supplies into Camp through the advanced posts should be well treated and encouraged, as far as consistent with the necessary precaution. Especial care should be had that the soldiers take nothing from them under the plea of allowing them to pass to the market. Should the Officer have received orders to deny them ingress, he should do so with mildness—civility may incline them to answer his questions, and he may frequently find himself rewarded by interesting intelligence.

55 Officers, soldiers, and followers of the Camp are not on any account to be suffered to pass the advanced posts, unless they are on duty, or present a regular pass from Head Quarters.

56. During the day time a half of the picquet may be permitted to repose themselves—but it must depend upon the position of the Enemy and the strength of the picquet, whether any and what portion of the men can be allowed to do so at night. They must *at all times* be in a collected state, the arms of each man being placed by his side.

57. In the event of an attack the Commander of a picquet must ever bear in mind, that the great object of his efforts is to gain sufficient time to enable the main body in his rear to get under arms and prepare for action. The points he is to dispute in falling back having been previously selected, few cases can occur in which it will be impossible to attain that end without endangering the safety of his picquet—but even in an extreme case, he must remember that it is his duty to sacrifice himself, rather than be driven in upon the main body before it has had time to form.

58. When picquets are attacked, the same rule will be observed as in all other skirmishing and the detached Officer's parties will not run in on the main body, but support the skirmishers—and when compelled to retire they will, if possible, retreat on the flank of the main body, and thereby afford mutual support to each other. When a sentry is satisfied that the Enemy is moving on to the attack, he should not hesitate to fire at once, although the Enemy may be far beyond the range of his musket.

59. A picquet may with safety defend its front as long as its flanks are not attacked, but as soon as the Enemy attempts to surround the post, the picquet must begin to retire. The advanced party in falling back upon the flank should fire as fast as it can load, in the direction of the Enemy, to spread the alarm. The Officer should, if pressed, make a stand on the spot he has chosen for himself in the morning, and hold it if possible till joined by the reserve or inlying picquet. The flank videttes, sentries, or patroles must shift for themselves and join the picquet as soon as possible. Should a neighbouring picquet be attacked, all the Officer has to do is, to mount his men, or make them stand to their arms—videttes or sentries are not to come in, unless in danger, or the other picquets are driven in. He must in this case be alive to the possibility of being cut off, but is not to leave his post till his flanks and rear are endangered and then to move very slowly. At night, after the vidette or sentry of a neighbouring picquet has given the alarm, a Non-commissioned Officer and four or six men should be sent in the direction of the post to secure the flanks of the picquet. Should the picquet, whose vidette has given the alarm, open a fire, which is continued, and recede, rendering the other picquet's retreat necessary, the videttes should be cautioned to follow at sufficient distance according to the nature of the ground—and the whole, with flankers, should fall back gradually in unison with the picquet attacked. Should the Enemy retire, or the firing cease, the Officer should, with flankers and

skirmishers, feel his way again to his post, and keep his men mounted till his communication is re-established to both his flanks, and then patrole to his front.

60. The ground in front of the picquet should be patroled day and night. The patroles need not consist of more than a Non-commissioned Officer and four men—of these, one man moves on fifty paces in front, the Non-commissioned Officer and two men following, examining, as they go along, the ground on each side of the road—the fourth man keeps at a little distance in the rear, that he may be able to give timely notice to his comrades in case the Enemy should have passed unperceived, and be lying any where in ambush.

61. In hazy weather, they must keep closer to each other. Where the ground is much intersected, they should not advance above two hundred paces in front of the sentries—but where it is open, the distance may be increased. In the course of the day, the Officer of the picquet will be able to point out, with sufficient accuracy, the ground that is to be patroled at night, and that the space between picquets may be constantly visited, the patroles should proceed so far to the right and left as to reach the first sentry of the neighbouring picquet.

62. Vigilance, silence, and circumspection must be strictly enjoined upon all patroles—no noise must on any account be made, and when any thing is to be communicated, it should be done in a whisper.

63. It is not pretended to lay down exact rules for conducting patroles in every case that may occur on service, but one or two of the most usual modes of carrying on this important duty may be briefly adverted to.

64. The patrole, on leaving the picquet should, when practicable, communicate in the first instance with the next post upon the right (or left) and patrole cautiously along the whole front of the line of sentries, just near enough to see them, and communicating with the next post upon the left (or right) return again to the picquet by the rear of the chain. The sentries must not be thrown off their guard by the frequent appearance of these patroles, but be taught to expect an Enemy in all who may approach them—some preconcerted signal or interchange of parole in a low tone, should be used, and which should be changed at every relief. Should the patrole, in returning along the rear of the sentries, fall in with the Enemy, who must in this case have passed through the chain, a continued fire should be kept up to alarm the picquet and prevent surprise.

65. Patroles must also be sent along the roads in the direction of the Enemy's posts, to such distance as may be deemed expedient. These patroles must be preceded by *feelers*, quick intelligent men, selected for that duty, whom no sound will escape, and whose experienced ears will detect the approach of danger long before it reaches them. A patrole must above all things avoid unnecessary firing, or, in other words, *false alarms*—on hearing the approach of footsteps the *feelers* should instantly fall back to the patrole—and should the sounds indicate the advance of a larger body than a patrole, one or two men should be sent back with all haste to inform the Officer of the picquet, who will make immediate preparations for defence. The patrole retires steadily and unobserved, if possible, upon the picquet—but if perceived and overtaken by the Enemy, an incessant fire must be maintained, in order to apprise the camp that the Enemy is coming on in force, altho' it may safely be inferred, that if the picquets know their duty and are judiciously drawn up for the defence of the roads, it will be extremely difficult for an Enemy however strong, *having failed in his plan for taking the advanced posts by surprise*, to make head, under all the disadvantages of a night attack, when resolutely opposed by men who know the ground, and whose plans have been previously concerted for disputing those points in their line of retreat, where the disparity of numbers must, in the dark, be in a great measure neutralised.

66. Patroles which are to visit sentries should consist of a Non-commissioned Officer and two or four men. The men follow the Non-commissioned Officer at a distance of twenty or thirty paces in readiness to support him in case of necessity.

67. If two patroles meet, that which first challenges, orders the other to stand. If a patrole falls in with the Enemy, it must be borne in mind that its first duty is to give the alarm to the picquet.

68. In falling in with an Enemy's patrole in advance of the chain of sentries, it will always be most prudent to retire at once without exchanging shots, which could only tend to harass and disturb the troops.

69. A strong patrole will always be sent some distance on towards the Enemy's posts, just before daylight, and this patrole, above all others, must proceed with redoubled caution, for fear of falling in with the Enemy's columns waiting for daylight to attack.

70. A written report should be made every evening to the Officer commanding the outposts.

71. Though an Officer should make himself certain before he sends in reports to Head Quarters, he should not be too sparing of them—as two reports of similar tendency from different quarters, though of no apparent importance in themselves, when coupled with other circumstances may be conclusive.

72. All reports must be in *writing*. An Officer on picquet without pencil, paper or card, and glass, is inefficient. He should be careful to express himself with precision. Thus, when reporting the Enemy's movements and their direction, he should invariably say "*our right*" or "*their left*," and not "*the right*" or "*the left*," for a doubt might then remain whether it is ours or theirs. He should be equally on his guard in mentioning a river, how he uses the expression, "to the right" or "to the left" of it. He should bear in mind that the right bank of a river is that which is to his right hand when his back is turned to its source.

73. An Officer of a picquet should not hesitate to ask whatever questions he may think fit of the Officer who posts him, for it is only from enquiry and experience that he can ever become a good outpost Officer.

74. He must visit his posts and sentinels frequently during the night—charged with a heavy responsibility, little repose can be taken by him—nor should he require it. He should reflect that not only his own life may depend upon his duty being done with ability and attention, but that the safety of the whole Army is implicated. A picquet should be all eyes and ears, and its Officer should always recollect that it is his duty to set his men an example in his own person—not to be lying down or resting himself when the men are under arms, nor to go under cover while they are without shelter—but to offer himself unhesitatingly to every danger and every fatigue—soldiers will submit cheerfully to the hardships inseparable from outpost duties when shared in common with their commandant.

75. There are no "Rounds" for outposts—The Officer Commanding must at all times be ready to accompany the General or other Officer of the day when visited by him—and he should feel himself equal to answer, without hesitation, any question concerning the ground, communications, &c.—but the picquet is not to turn out nor to pay any compliment.

76. Picquets will get under arms in the morning an hour before daylight and if every thing appears quiet in front, the Officer will, as soon as he can discern objects distinctly, proceed to occupy the same posts that he held the day before—but he must previously send forward patroles to feel his way and should any change be remarked in the Enemy's posts or position, he will report it immediately to the Officer of the day.

77. Reliefs for outlying picquets are to be paraded in sufficient time to reach the advance half an hour before daylight, for as attacks are commonly made about that time, a desirable accession of force will thus be obtained. When necessary, Non-commissioned Officers should be sent from the old picquets to the place of rendezvous to act as guides.

78. The relieving Officers should be warned, before they are marched off, to receive the orders from the Officers of the old picquets.

79. Instances have occurred in which an active and enterprising Enemy has succeeded in carrying off an advanced picquet during the night, and a relieving picquet on its march from camp should, therefore, move with every precaution to prevent surprise. It should halt at four or five hundred paces from the post, and push forward the advanced party, by which it should always be preceded, to reconnoitre as far as the first sentinel.

80. On the arrival of the relief at the ground of the old picquet, the Officer should form his men in line a short distance in its rear, to act as its support if attacked, or to move up on either flank as may be necessary.

81. He ought at least till daylight, to take the advice of the Officer he is to relieve, although inferior in rank, as he must be more master of the ground than himself.

82. The men of both picquets should remain mounted, or standing to their arms, till broad daylight, or till the morning front patrole has returned.

83. The Officer of the old picquet will point out the situation and strength of all the Enemy's posts, and afford every information in his power to the relieving Officer, whom he must accompany to all the videttes and sentries, and himself hear the orders for each, that he may be satisfied the relieving Officer knows on what particular road or points he may expect the Enemy—and if it be intended that the picquet should fall back at night, he must learn its proposed night position.

84. The Officer going off duty cannot be too explicit, particularly to young Officers at the beginning of a campaign.

85. In making the relief the new picquet draws up on the left of the old one. Both picquets with *shouldered arms*, and *closed ranks*. No drums to beat, nor trumpets to sound.

86. When the sentries are relieved, and the weather is sufficiently clear to ascertain that there is no indication of an attack, the Officer who has been relieved will forward a written report to the Field Officer of the day, fall back upon the reserve picquet, and march to camp in the same order as when he advanced—*but if the advanced picquets should be attacked before he arrives in camp*, he will consider it his duty to face instantly about and march to their support.

87. The relieving Officer on being visited by the General should suggest any alteration of videttes or sentries he may think necessary, but he must on no account change their situation himself without previous reference to him, as the communications with the other picquets would be destroyed.

88. An Officer must not imagine that he will have guarded against every contingency by the execution of a part, or even of the whole, of the preceding instructions. It is from the nature of the ground itself, from the examination of surrounding circumstances, combined with the presence and position of the Enemy, that, guided by his own judgment, he will be enabled to decide more particularly upon the manner in which he should conduct himself on all occasions.

It is not possible to provide in detail for all the ever varying occurrences of war—nor to anticipate the peculiarities of every possible situation.

Written instructions can be considered but as alphabets used for the formation of words—it is in the field, exposed to every inclemency of season—and in presence of an active and wary opponent, that an Officer must learn to mature the ideas acquired by previous study.

The regulations contained in this Section are intended for Troops actually in the Field. They are however to be followed, as far as applicable, by Corps in ordinary movements from Station to Station—and Commanding Officers are required to avail themselves of the opportunities then afforded of practically instructing all ranks in the various duties of a Camp.

Read Extract from Judicial Department, No. 14, dated 29th ultimo.

Resolution.—With a view to uniformity of practice at all the Presidencies, the following Constructions of Rules of the Absentee Regulations, dated the 29th January 1840, are ordered to be published for general information and guidance.

SECTION III.

SECTION III.

No leave of absence shall have any retrospective effect, except in cases of severe illness to be attested by Medical Certificate, conforming in every respect to the directions contained in Section V.

1st.—The leave with retrospective effect referred to in this Section is leave extending to absence antecedent to the permission of the Government—that is, to absence in anticipation of original leave without the excuse of sickness.

SECTION VI. AND VIII.

SECTION VI.

Civil Servants absent from their Stations under Medical Certificate will be entitled to the Salaries of their respective offices subject to the following deductions. If the Salary exceed Rupees 2,000 per mensem, one-sixth for the first year and for the second year one-fourth. If the Salary do not exceed Rupees 2,000 per mensem, one-eighth for the first year and one-sixth for the second. But if the Salary of office be not more than Rupees 500 per mensem, no deduction shall be made for the first year, and if it be only so much more that the prescribed deduction of one-eighth would reduce the allowance below Rupees 500 per mensem only the excess beyond Rupees 500 shall be deducted. For the second year the absentee shall become liable to the deduction of one-eighth. An absent Servant shall in no case retain any office or employment nor be permitted to draw any portion of Official Salary for a longer period than two years; but a Civil Servant, who may, on account of sickness, duly certified, obtain an extension of leave beyond two years will, if below the rank of a Senior Merchant, be allowed to draw the Subsistence Allowance of a Junior Merchant, and if a Senior Merchant the Subsistence Allowance of his rank, but if he continue absent in disobedience of an order to return, or without sufficient cause shewn, that Allowance also will be forfeited. The period of absence shall be computed from the date at which the Absentee shall quit the limits of the Territories, subject to the Presidency to which he may belong, to the date of his return within such limits, or if he shall proceed beyond Sea from the date of his embarking at any place or port in India, which is not more distant from his station than the Ports of his own Presidency; but if the place to which he shall proceed shall be within the Territories subject to such Presidency his period of absence shall be computed from the date of his quitting his Station to the date of his return thereto.

2d.—A Servant is not allowed to be absent, retaining "Office or Employment" or "portion of Official Salary," for a period exceeding two years; but extension of leave may be obtained on account of sickness duly certified, and during such extension the Absentee is authorized to draw the Subsistence Allowance of his rank. If the absence be beyond the Territories of the Presidency to which the Servant belongs, it is to be computed from the date of his quitting the limits of his Presidency to the date of his return within those limits; if beyond Sea, from the date of his embarkation from the port of his Presidency or from any Port not more distant than the Port of his Presidency to the date of his return within the limits of his Presidency. If the place to which he shall proceed be within the Territories subject to his Presi-

dency, his period of absence shall be computed from the date of his quitting his Station to the date of his return thereto.

SECTION VIII.

No second leave will be granted to any Civil or Military Servant holding a Civil appointment, who has been absent under the above rules for two years until three years at the least shall have passed after the date of such Servant's return, but if such Servant is compelled by sickness again to absent himself from his Station within three years after having been absent under the above rule for less than two years, he will be allowed to complete that period, subject to the limitations and conditions heretofore prescribed, drawing the proportion of Salary allowed for the remaining time as if the leave had been continuous.

NOTE.—This Rule applies to all descriptions of leave on account of health, excepting those granted under Section XII.

Thus a second leave within the Presidency no less than a second leave to Sea will be computed as forming part of the period of two years, if taken before three years have elapsed since return from the first leave and the deductions will be made upon computation of the accumulated period of absence under all such leaves taken without the intervention of three years of consecutive service.

A second leave of this kind cannot be granted until three years at the least shall have passed after the date of such Servant's return, but any time short of two years in a previous absence may be subsequently allowed in completion of two years. The Note attached to Section VIII. specifies that this Rule applies to all descriptions of leave on account of health excepting those granted under Section XII.

After two years of absence, continuous or accumulated, under these Rules, if a Servant obtain leave of absence on Sick Certificate before an interval has passed of three years, he cannot retain office or employment, or any portion of Official Salary, but he is entitled to the Subsistence Allowance of his rank. The Rule* in Section VI., if literally interpreted, would require the Servant returning from beyond Sea, whose full period of two years had expired between the date of his embarkation, and the date of his return within the limits of his Presidency, to be re-appointed to his Office. For the time spent in joining his Station in excess of two years, he is entitled to draw only the Subsistence Allowance of his rank.

* "An absent Servant shall in no case retain any office or employment, nor be permitted to draw any portion of Official Salary, for a longer period than two years."

It is not provided that in cases in which the full period of two years absence is composed of accumulated leaves, the intervals of time passed in the performance of duty shall be reckoned in part of the three years which must expire before a Servant is eligible to a new series of leave.

But if this were not allowed the operation of the Rule might be unintentionally severe on a Servant whose health should compel him to obtain leave of absence for a portion of the two years, say for only a month, at the extremity of the three years after the date of his return, the same Servant having been already absent for 23 months either all at once, or his absences at different times having accumulated to 23 months: it would not have been intended by the Rule that after 35 months of duty, being entitled to one month on account of the old score, a new series of leave or a single instance of leave on Sick Certificate should not be obtainable for three years from the expiration of that one or 36th month.

The Rules do not prescribe any different rate of deduction from allowances during absence on Sick Certificate within the Territories of the East India Company and during similar absence at the Cape of Good Hope, or within the limits out of the Territories of the East India Company declared in Section IV. But they fix the computation of the Servant's absence beyond the Presidencies to be from the date of leaving to the date of returning to the Port of his Presidency.

The Rules provide sufficiently for the Audit of his Allowances after two years absence beyond Sea, until the Servant rejoins his Station, but they do not specify what rate of deduction is to be made from the Absentee's Allowance for the time elapsing after departure from Station and before embarkation. This therefore has required to be provided for by a new Regulation, or by some exposition of the existing rules.

The Rule that admits of an absence of two years enables a Sick Servant to reside sufficiently long in another climate under ordinary circumstances to re-establish his health; for which object that protracted absence is permitted, when certified to be necessary. Forfeiture of Appointment, therefore, does not take place till a full two years have transpired between embarkation and return to Port. If the latter part of the Section VI. be taken to apply only to computation of absence as respects appointment the course of the Audit will be easy: For two years, reckoning from departure, from Station to return to Station, the deductions will be as laid down at the commencement of the Section, and for any excess whether occasioned by the time elapsing before embarkation or after return to Port until return to Station, the Servant will be entitled to Subsistence Allowance without losing his Appointment.

SECTION XI.

The Government of each Presidency may grant to Civil or Military Servants holding Civil Appointments, leave of absence for one month in each year, without deduction from the Salaries and Emoluments drawn by such Servants. Such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officer seeking it. No second leave can be granted under this rule until the completion of eleven months, from the expiration of the last leave, but the Servants not availing themselves of the indulgence in any one year may obtain under the like conditions leave of absence for two successive months, to commence at or after the expiration of 22 months, from the termination of their former leave, and if two years elapse without enjoyment of the privilege, leave for three months may in like manner be granted at the expiration of 35 months from the termination of the last preceding leave. But no leave shall be granted under this rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this rule, he shall if absent on private affairs be subjected to the deduction of one-third of his Salary and Allowances for the entire term of absence, and if he shall continue absent for more than one month beyond the term granted, his office shall become vacant. If his protracted absence be occasioned by sickness, the case must be determined under the Provisions of Chapter II.

3d. The design of this Rule is to grant one leave of absence without loss of Salary to the Servant who is present at his duty for the periods specified.

By Authority of the Right Hon'ble the Governor General of India in Council.

GENERAL ORDERS

By Major General Sir Robert H. Dick, K. C. B. and K. C. H. Commanding the Army in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, 14*th May* 1841.

With the sanction of Government, the Officer Commanding the Army in Chief directs the publication of the Section of Regulations.

PROMOTION OF OFFICERS.

1. All Officers shall be promoted by seniority in their respective Regiments up to the rank of Major, and afterwards by seniority in their respective branches of the Service. G. O. G. 5th Novr 1799.

2. All promotions are to bear date from the day on which the vacancies occur. G. O. G. 17th Jany. 1834.

3. Promotions or removals on augmentations are to be made on the principle of removing to new Corps the senior Officers of each rank who may by such removal be promoted to a superior rank, or be advanced to a higher grade in the same rank—Lieutenant Colonels and Majors being taken according to seniority in the Line, and others from the successive grades in each Regimental rank, according to seniority in the Army—not adverting however to rank conferred by the operation of Her Majesty's Brevet which gives no claim.

4. Promotions to the rank of Regimental Colonel are made under the following rules: G. O. G. 2d Decr. 1836.

The senior Lieutenant Colonel of the Infantry on the Bengal Establishment shall, immediately on the occurrence of a vacancy as Colonel of a Regiment in that arm of the Service in Bengal, be promoted to the rank of Colonel, and *all* Lieutenant Colonels of the Armies of the three Presidencies, who are senior to him as such, shall be promoted in consequence to be Brevet Colonels.

A Lieutenant Colonel of the Infantry on the Madras or Bombay Establishments, or of the Cavalry, Artillery, or Engineers, at any one of the three Presidencies, for whom there may be a Regimental vacancy as Colonel, shall succeed immediately to that rank, provided he is the senior Lieutenant Colonel of the three Establishments, but not otherwise.

Lieutenant Colonels of Infantry of the Madras and Bombay Armies, and Lieutenant Colonels of Cavalry, Artillery and Engineers of the three Presidencies, not being seniors as Lieutenant Colonels in India, who may succeed by seniority to Regiments, are to be denominated Lieutenant Colonels Commandant, their promotion to the rank of Colonel being suspended until their seniors of the Bengal Infantry shall have been promoted to the rank of Colonel.

Such Officers will nevertheless succeed to all other advantages and emoluments to which they would have been entitled if promoted to the rank of Colonel.

5. Regimental Lieutenant Colonels who may be promoted by H. M.'s Brevet to the rank of Major General are to be returned as Supernumeraries in their respective Corps, and effective Lieutenant Colonels will be promoted in their room. G. O. G. 7th Decr. 1838.

6. Officers of the Company's Service are eligible to Brevet Promotion for distinguished services in action in the same manner as H. M.'s Officers. G. O. G 19th May 1829.

7. The rank of Brevet Captain will be granted to all Lieutenants on the completion of fifteen years service, calculated from *the date of their first Commissions* as Second Lieutenant, Cornet, or Ensign. G. O. G. 8th June 1816. G. O. G 31 Septr. 1824.

8. In all Regimental Returns, Officers holding Brevet Rank are to be styled by their Regimental Rank, their names being entered in the Regimental Order of Succession.

9. Officers on the Invalid Establishment are not considered to be within the operation of the Brevet.

10. Officers promoted to the rank of Major on the same day by the regular operation of the Line step, take rank in the List of Majors for Line promotion in the Line order of their respective Corps, without reference to their relative seniority individually—but if promoted by *Regimental* steps, or by an augmentation, then their position in the List of Majors will be regulated by their respective dates of commission as Captains.

11. As every Officer must be supposed in the course of one year from the time of his rank being fixed, to have attained a thorough knowledge of his proper situation in the Service, and to have had full opportunity of making known his claims and of procuring every testimony necessary to their support, no application for adjustment of any alleged error in this regard which may not be preferred within that period, will be received. G. O. G. 7th Novr. 1788.

Second Instance.—In having at the same place, during the same period, made, or caused to be made certain erasures in the Pay Roll of the B. Third Instance.—In having at the same place, during the same period, made or caused to be made false entries in the Pay Book of the said Troop in the amount transferred from the month of February to the month of March, of Pay due to men of the B. Kamptee, Thirteenth of April, one thousand eight hundred and forty-one.

By order.
(Signed) CHAS. HEWETSON, Captain,
Ag. A. A. Genl. N. S. Force.

The Court having most maturely weighed and considered the whole of the evidence adduced in support of the prosecution on the Charges, as well as what the Prisoner, Serjeant Robert Tobin, has urged in his defence, and the evidence in support thereof, is of opinion:

Finding on the First Charge.—That the Prisoner is not guilty of the First Charge.

Finding on First Instance of Second Charge.—That the Prisoner is guilty of the First Instance of the Second Charge.

Finding on Second Instance of Second Charge.—That the Prisoner is guilty of the Second Instance of the Second Charge.

Finding on First Instance of Third Charge.—That the Prisoner is guilty of the First Instance of the Third Charge.

Finding on Second Instance of Third Charge.—That the Prisoner is guilty of the Second Instance of the Third Charge.

Finding on Third Instance of Third Charge.—That the Prisoner is guilty of the Third Instance of the Third Charge.

Finding on Fourth Instance of Third Charge.—That the Prisoner is guilty of the Fourth Instance of the Third Charge.

Finding on Fifth Instance of Third Charge.—That the Prisoner is guilty of the Fifth Instance of the Third Charge.

Sentence.—The Court having found the Prisoner guilty to the extent above stated, doth sentence him, the said Robert Tobin, Serjeant, General Number two thousand eight hundred and fifty-six in the B. Troop Horse Artillery, to be reduced to the rank and pay of a Gunner and further to suffer imprisonment for the period of (6) six lunar months, the second, fourth, and sixth of which to be solitary confinement, at such place as the Major General Commanding the Army in Chief may appoint.

(Signed) WILLIAM HILL,
D. J. A. Genl.

(Signed) DON. URQUHART, Lt. Col.
H. M. 39th Regt.—President.

Recommendation of the Court.—The Court beg most earnestly to recommend the Prisoner to the favorable consideration of the Major General Commanding the Army in Chief, from the remarkably good characters he has received from his Troop Officers of his conduct since he has been in the Service (four years and a half) up to the time of his committing the offence now charged against him.

(Signed) DON. URQUHART, Lt. Col.
H. M. 39th Regt.—President.

I confirm the sentence of the Court.

MADRAS, 19*th May* 1841.

(Signed) R. H. DICK, Major General,
Comg. the Army in Chief.

Remarks.—Although I have not considered it necessary to return these Proceedings for revision, I must not be understood to agree with the Court in opinion that the Prisoner has been punished for the offences set forth in the first and second Charges; of which I see no sufficient evidence.

Considering that the Prisoner with every inducement to good behaviour, in having obtained the confidence of his Officers and unusually rapid promotion, has taken the first opportunity of abusing any extraordinary trust reposed in him, I do not feel justified in attending to the recommendation of the Court in his favor.

MADRAS, 19*th May* 1841.

(Signed) R. H. DICK, Major Genl.
Comg. the Army in Chief.

The imprisonment to be carried into effect under the orders of the Officer Commanding the Artillery Nagpore Subsidiary Force.

In pursuance of the provisions of the above cited Sections of the Mutiny Act, and Articles of War for the better Government of Officers and Soldiers in the service of the East India Company, the Governor in Council is pleased to lay down the following rules of procedure to be observed on the decease of Officers and Soldiers. The General Orders mentioned in the margin, are hereby cancelled.

No. 51, 15th February 1833
No. 83, 23d March "
No. 264, 7th July 1835

1. Immediately upon the decease of an Officer present with his Regiment, the Major of the Regiment, or the Officer who may be second in Command at the time with the Regiment, having secured the Effects or Equipage of the deceased, a Committee of Adjustment shall be assembled without delay.

2. Should there not be Officers present with the Regiment of the description specified in Art: 110, Section V of the Articles of War, then the Committee may be composed of such as may be available, the Seniors being selected.

3. The Committee are to take a correct Inventory of the whole of the Effects and Account of the Credits of the deceased, mentioning especially and in all cases whether any and what amount of Cash was found in the deceased's possession, and whether any and what amount of Pay and allowances was due to the deceased, also an account of his Regimental Debts, and the same are to be entered in a Book to be kept for that purpose to be entitled "Register of Estates;" which Book shall form a Regimental Record, and a copy of such Inventory and Account shall be forthwith forwarded to the Secretary to Government in the Military Department, such copy to be attested "a true copy from the entry in the Register."

4. It will be the duty of the Committee in preparing such account of Credits and Debts, carefully to investigate the latter and to record their opinion as to the correctness of each claim.

5. In all cases where a Will is not found; or when a Will is found and the Estate is not solvent; or when no Executor is appointed; or when the Executor named in the Will is at too great a distance to be communicated with within one month; it will be the duty of the Committee to cause the live stock and other property of the Estate to be sold by public auction without delay: but in the event of the Executor being on the spot or within the distance above indicated, the Estate appearing to be solvent, the Committee will communicate with him and reserve or dispose of the live stock and other property of the Estate as he may desire; the proceeds of sale and the property reserved being subject, however, to the orders of the Military Secretary to Government, without whose authority no Effects or proceeds or surplus of Effects, are to be made over to the Executor.

6. Whenever the parties named as Executors to the Estates of deceased Officers shall be beyond the limits of this Presidency, or shall decline to act as Executors, the Original Wills, together with the copy of the Inventory and account of Credits and Debts mentioned in para. 3 shall be transmitted to the Office of the Secretary to Government in the Military Department, and duly certified copies of Wills retained with the Regimental Records.

7. The Committee will in all cases draw the arrears of Pay, &c. which may be due to the deceased, and accounts of Estates are not to be closed until such Pay, &c. shall have been received. To relieve the Committee, however, from the charge and responsibility of keeping proceeds of Estates in their hands, pending the close of accounts, remittances on account are to be made by Sub Treasurer's receipts to the Military Secretary to Government.

8. To avoid delay in adjusting the arrears of Pay due to Officers deceased, it will be the duty of the Military Auditor General, immediately on receiving notice from the Military Secretary to Government, or other certain information, of the decease of an Officer, to cause all Bills in his Office connected with the deceased in any way to be examined and checked, in order to their early settlement.

9. The Committee will record and sign their Proceedings, entering with all other necessary particulars the date, places, and object of their assembly, as well as the names of the convening Officer and of the President and Members.

10. All Proceedings and Papers connected with Estates transmitted to the Military Secretary to Government, and all references for instructions made to him, are to be forwarded through the convening Officer, who is considered responsible for the regularity of the procedure of the Committee. All correspondence with the Registrar of the Supreme Court relative to his taking out Administration to Estates, is restricted to the Military Department; and Committees of Adjustment will not communicate their proceedings direct to the Registrar, but only through the Military Secretary to Government.

11. In the case of the demise of an Officer possessed of Instruments, Field Books or Maps, or other Articles, the property of Government, it will be the duty of the Committee of Adjustment to report especially upon such public property to the convening Officer; who will be held responsible that the same be not sold with the private Effects of the deceased, and that proper measures be taken for its safe custody. A copy of such special report will be inserted in the proceedings of the Committee.

12. With reference to Section XLIX of the Mutiny Act, it is hereby notified that all sums due to the Military Fund, the Medical Fund, are of the nature of Regimental debts; but claims or demands of the undermentioned descriptions are not Regimental debts, and therefore will not be settled by Committees of Adjustment.

Bills of Tradesmen of every Class without exception.

Private Accounts of Agents, Merchants, Shopkeepers, Money-lenders, and Dealers.

Claims for Money borrowed, for the purpose of building or purchasing Quarters, to distinguish it from money due for the hire of Quarters, or for their purchase from the former proprietor, which is a Regimental Debt.

Mess Bills for any period in arrears beyond the Month in which an Officer dies and the immediately preceding Month.

Bills for Liquors supplied from the Mess Stores to unmarried Officers, separate from their charges at Mess.

Bills on account of Subscription to Regimental Bands, Book Clubs, and similar private institutions.

13. When an Officer separated from his Regiment by employment on the General Staff, or by having obtained leave of absence, or by any other circumstance, or an Officer of the Invalid Establishment, shall die at any station, it will be the duty of the Officer Commanding at such station to order a Committee of Adjustment to assemble without delay, consisting of a President being either an Officer not under the rank of Major or the next Senior Officer available at the station, and of two Members who shall in all practicable cases be Officers of eight years standing in the service; and such Committee shall proceed in every particular in the mode laid down in the foregoing Rules for the guidance of Regimental Committees of Adjustment. An Officer dying on route between two stations, his effects to be conveyed to the nearest Military station, when the Officer Commanding will proceed as above directed. In the case, however, of an Officer temporarily detached from his Regiment, dying at a station other than that to which he properly belongs, it will likewise be the duty of the Officer Commanding the Regiment, on receiving intimation of his decease, to convene a Regimental Committee in the usual manner; and in such a case, the Regimental Committee, and not that assembled where the individual died, will draw the arrears of pay; and the proceedings of the latter Committee will be forwarded to the Officer Commanding the Regiment to which the deceased belonged, in order to their communication to the Regimental Committee of Adjustment, and to their transmission simultaneously with the proceedings of the Regimental Committee to the Military Secretary to Government.

14. Officers Commanding at stations where detached Officers die, will consider all the foregoing rules relating to the duties and responsibilities of Regimental Commanding Officers, to be equally applicable to themselves.

15. On the decease of Warrant Officers, and of Non-Commissioned Officers and Soldiers in detached employ, Committees of Adjustment composed of three Commissioned Officers will be assembled by order of the Officer Commanding at the station, and will proceed in the mode hereinbefore prescribed.

16. It is the duty of the Town Major to convene Committees of Adjustment on the Effects of Officers dying at the Presidency; such Committees to consist of any three Officers who may be available, the President being not under the rank of Major, and the Members of at least eight years standing in the service. The proceedings of such Committees will be forwarded direct to the Military Secretary to Government; to whom application is to be made when necessary for instructions.

17. In cases of an intestacy, it is ordered that within one fortnight after the taking of the Inventory, a sale of the effects shall take place by public auction to the highest bidder, due notice thereof having been given, and within one fortnight after such sale, the Account Sale shall with the names of the bonafide purchasers of the different articles be entered in the "Register of Estates," and a copy of such Account Sale shall be forthwith forwarded to the Secretary to Government in the Military Department, such copy to be attested as directed in para. 3.

18. The Officer Commanding will be accountable for the recovery of the amount of all purchases, and for the correctness of all payments from the proceeds of Estates. It being his province to nominate the Auctioneer, and when he may see fit to prohibit the delivery of goods until their value has been received; credit may be given to Military persons, but not beyond the second issue of Pay, after the sale.

19. It is ordered that within one fortnight after such second issue of Pay the Officer Commanding shall cause to be entered in the said Register an account in the form annexed, debiting himself with all the credits of the Estate and crediting himself with all payments of Regimental debts, and shewing that the balance has been lodged in the Pay Office and a transfer receipt obtained, and a copy of the same, attested as in para. 3, together with all vouchers for all payments and the Sub Treasurer's receipt for the balance is to be forwarded to the Secretary to the Government in the Military Department as soon as the Sub Treasurer's receipt for the balance shall have been received.

20. The Auctioneer shall in no case receive a greater per centage or remuneration than 5 per cent, which shall be paid by the Commanding Officer on the day on which the accounts of the Estate are finally closed, if his accounts are correct and the amount of purchases recovered, but not otherwise.

21. If there be any house or article of great value which may seem to the Officer Commanding to justify the postponement of the sale or the extension of credit beyond the time by this Order limited, he may, if he sees fit, postpone the sale, or, on his own responsibility, make a special agreement for the payment of the price of such house or article of great value, such postponement of the sale and such special agreement being immediately brought to the notice of the Secretary to the Government in the Military Department, together with the special circumstances which have seemed to such Officer Commanding to justify a departure from the course prescribed in the 17th para. of this Order.

22. When any Military person indebted to an Estate shall, before the full payment of the account of his purchase, apply for leave of absence on sick certificate or otherwise, it will be the duty of the Officer in charge of the Estate from which such purchases have been made to recover the payment of the debt prior to the departure of the individual from his station, or to report the default to the Accountant General and to the Secretary to Government in the Military Department.

23. An Officer Commanding, quitting or being relieved from the charge of a Regiment, shall render to the Officer succeeding to such charge, the account of every Estate, whether of an Intestate or otherwise, the accounts and balance of which shall not have been then already rendered to the Secretary to Government in the Military Department, or Executor, as the case may be; and such succeeding Officer will be responsible for the correctness of the account, unless, at the time of receiving charge of the Regiment, he objects to the account and brings such objection to the notice of the Secretary to Government in the Military Department.

24. In case of any Officer Commanding dying, or being by sickness incapacitated from rendering any account, the next Senior Officer shall direct the assembly of a Committee consisting of three of the Senior Officers of the Station or Regiment, for the purpose of taking an account of all Estates, whether of Intestates or otherwise, the accounts and balances of which shall not have been then already rendered to the Military Secretary or Executor, as the case may be; and the Committee so assembled

shall render the accounts taken to the Officer succeeding to the Command, in case of such death or sickness.

25. Officers Commanding will be held responsible for the strict fulfilment of the several provisions of this Order, and any loss which may arise by a deviation therefrom, will be recovered from their pay and allowances under the authority of Government.

26. They will likewise on making over an Estate to the Secretary to Government in the Military Department, to the Executor, or to the Registrar of the Supreme Court as the case may be, submit a Notification of their having done so for publication in the Fort St. George Gazette. No charge for Advertisements inserted in other Papers will be hereafter admitted against the Estate of any deceased Officer or Soldier.

27. Such parts of the foregoing Rules as are applicable to the cases of Soldiers dying in the Service and are in conformity with the Mutiny Act and Articles of War relating thereto, are hereby extended to such cases.

MARCHES, DETACHMENTS, AND ESCORTS.

Rounds.	Flints.	
Horse Artillery and Cavalry ..	4 1	per man exclusive of 2 in the arms.
Foot Artillery ..	5 1	
Infantry	12 2	

1. Unless other orders may be issued at the time, Officers Commanding Regiments ordered to march from one Station to another will return into the nearest Arsenal all ammunition in excess of the quantities noted in the margin, which are to be carried in the pouches, as also all stores of every description which may not be required for the march. Receipts are to be taken as vouchers for reissues upon indent, if required at the Station to which the Corps is proceeding.

2. Barrack appurtenances, including drill apparatus, are to be made over with the Public Buildings to which they are attached, to the Officer or other in charge of the Barracks.

3. The necessary communications to the Civil Authorities of the Districts through which Troops are ordered to march will be made on all occasions by the Quarter Master General's Department.

4. Quarter Master Staff of Divisions are directed under the authority of Officers Commanding to ascertain from Officers Commanding Corps or Detachments about to be put in movement, as soon as the day of march is fixed, whether any further pay will be required before arrival at their ultimate destination, and, if required, they will communicate with the Paymaster in whose range such pay will have to be drawn. Should the Paymaster, however, belong to another Division, the communication will be made to the Officer of the Quarter Master General's Department of that Division, who will be instructed by the Officer Commanding to make the necessary notification to the Paymaster.

5. All Escorts, those in charge of treasure excepted, are to be relieved at the first Station in their route which may be the Head Quarters of a Regiment. It is therefore ordered that the Commandant of such Escort on quitting his Corps, be made acquainted with the name of the Station at which he is to be relieved.

6. On all occasions of Escorts or Detachments being sent from the Head Quarters of European or Native Corps, the Commanding Officer will determine the proportion of ball ammunition and flints they are to carry with them, according to the nature of the service—observing as a general rule for ordinary duties, that twelve rounds only are to be stowed in the pouch—carriage being provided for the remainder. G. O. C. 7th January 1823.

7. No Detachment or Guard is ever to be sent on *any* service beyond frontier, without its full complement of ammunition.

8. Commanding Officers are held responsible that all Detachments and Escorts have their pay settled and any necessary advance issued to them before they march.

9. All Detachments and Escorts are to be furnished with pay certificates unless their pay is still to be drawn at their Head Quarters.

10. Officers and Non-commissioned Officers Commanding Detachments or Escorts are invariably to be furnished with an official letter or memorandum of instructions distinctly detailing the duty to be performed, and in the case of Officers, noting the various orders to which their attention is required.

11. Officers or Non-commissioned Officers marching in charge of Details of Europeans are invariably to be furnished with nominal rolls in the prescribed form, and distinct written instructions in regard to the messing, &c. during the march.

12. It will be the duty of Adjutants to report upon every occasion that they have inspected the parties and that they are complete in every respect.

13. Whenever the Officer Commanding a Division shall deem it expedient to authorise the issue of equipments to parties of Recruits, he will direct the Officer of the Quarter Master General's Department under his orders at the same time to furnish such parties with routes and orders of march, and to give the requisite information regarding their progress to the Civil Authorities on their road.

14. Whenever one or more Troops or Companies are required to be detached from the Head Quarters of a Regiment, such Detachments shall be composed of one or more complete Troops or Companies, and not of details from different Troops or Companies. The Privates of minor Detachments shall in like manner be taken from *one* Troop or Company, and not from several—but the Non-commissioned Officers and Corporals or Nuigues will be taken according to the roster, except when it may be necessary to select for the duty.

15. This order is not, however, intended to operate on particular occasions of *actual service*.

16. When a Detachment is ordered to consist of one or more Troops or Companies, such Troops or Companies are to go as they may then stand—if below the established strength, it is not necessary to complete them. When a specific number may be ordered, the men required to complete are to be taken as a distinct detail from the next Company on the roster—but Troops or Companies are not to be completed by drafts, unless when in particular cases the Officer by whose order the Detachment marches, may think it necessary.

17. All Detachments of Native Troops from Regiments of the line, above the strength of 15 and not exceeding 30 rank and file, shall be commanded by a Jemadar—those above 30 and not exceeding 50 by a Subadar—and all others above that strength by an European Officer. This order is not however to apply to Escorts to Residents or Political Authorities.

18. The above commands may of course, be given when necessary to Officers of superior, but never of inferior grades to those now ordered.

19. When practicable European Officers are to be detached with their own Troops or Companies.

20. Flank and Rifle Companies of Infantry are not to be broken up for escort service, nor are they to be detached with treasure or on any other routine duty, unless there may be no others available. It is not, however, intended to prevent Commanding Officers employing complete Flank Companies on *fixed* Detachments.

G. O. G. 6th Febry. 1828.

21. When the Escort of a Resident at a Foreign Court or Political Agent, is furnished from Troops of the line, or fixed establishment, a distinct Officer is not to be appointed to its permanent command.

G. O. G. 25th May 1841.

22. When however such Escort is relieved from the regular Troops cantoned in the immediate vicinity of the Residency, the Officer Commanding the Division or the Troops from which the Escort is furnished, may attach to it any Regimental Officer *having served four years with his Corps*, who may be applied for by the Resident or Political Agent, allowing him to remain on that duty as long as his Regiment may continue in the Division or at the Station giving the Escort.

23. Escorts furnished for Missions or occasional Embassies to Foreign Courts beyond the limits of India proper, are exempted from the operation of the preceding order.

24. Officers Commanding are required to observe that the instructions for route marching contained in the Standing Orders of their respective Corps, as well as the regulations for Duties in Camp, as far as applicable, are strictly acted up to, in every particular.

25. The time of marching in ordinary movements is left to the judgment of Commanding Officers, subject to any orders which may be issued to them for the occasion.

26. Particular attention must at all times be given to the selection of encamping ground—for which whenever practicable, elevated and dry situations should be chosen, sufficiently removed from the village or town, and from the influence of swamps or pools of stagnant water.

27. Officers whose camps may be attacked by cholera are strictly enjoined to avoid encamping near towns or villages, and to allow no further communication with the inhabitants than may be absolutely necessary for the supply of provisions—and this under such restrictions as may confine it to the healthiest part of the camp.

28. The same rules are to be followed when passing through a district, or through a town or village, in which the disease may exist.

29. In cases where the violence of the disease may render the measure necessary Officers will halt altogether, on any eligible spot within reach, or merely move their Camp for change of air and clean encamping ground, until it may appear advisable to move on. Whenever practicable the Corps or Detachment should be broken up into as many divisions as can be properly provided with medical aid, and separate encampments formed one or two miles apart, measures being taken to prevent communication.

G. O. G. 27th Novr. 1838.

30. Whenever European Troops may be marching in wet weather, or when they are encamped on damp or marshy ground, straw, in moderate quantities, shall be provided by the Commissariat Department, on a requisition from the Officer Commanding, for the floors of the tents, for their use.

31. If there is no Commissariat Officer or Servant present, the straw will be procured by the Officer Commanding and charged for on a contingent bill.

32. Commanding Officers will be guided by the following rules, which have been established by Government for furnishing supplies to Troops when marching within the territories of the Madras Presidency.

1. On the receipt of intimation from the Quarter Master General's Department of the route of Troops about to march through a district, the Collector and Magistrate should immediately give notice to the Tahsildars of the talooks through which they will pass, informing them of the expected number of Troops, of European Officers and of Camp Followers, of the stages at which they will halt in each talook, and the probable date of arrival.

2. The Tahsildars should be directed to send immediately to the huzoor treasury for money for the purpose of purchasing such specific quantity of supplies as may be directed. It is believed that the following will generally be found sufficient for an Infantry Regiment; when smaller Detachments move, of course less in proportion will be required.

Paddy Straw	Rs	5	0

Grass ...	,,	5	0
Firewood ...	,,	10	0

1st sort Fowls 20, at 2 Annas each	,,	2	8
2d do do 30, at 1 Anna each ...	,,	1	14
	Rupees	49	14

3. Tahsildars should be directed to depute their Peshkar or the Karkoon of the Division assisted by two intelligent Peons, to purchase and have ready by a certain date at each stage the supplies required.

4. The supplies should be directed to be purchased as far as possible at the neighbouring weekly shandies or markets to which produce of every description is generally brought for sale, but when it may not be possible to procure the whole that may be required in this way, the rest should be purchased from the people voluntarily and on no account collected by contribution.

5. In every instance, whether the supplies are bought at the weekly markets or from the villages, payment must be immediately made and a receipt taken, and which receipts should be forwarded as vouchers to the huzoor along with the detailed account of purchases and sales.

6. Payment for supplies should on no account be made to the Head Inhabitant or Curnum of the village for distribution to the individuals furnishing them, but should always be made direct to the owners.

7. When a Regiment or large body of Troops is passing through a district, the Tahsildars should be directed if possible to accompany them through their respective talooks, or if in any instance unavoidably prevented, the Peshkar or Talook Sheristadar should be deputed to this duty. They should be ready to obtain more supplies, if what had been already collected should be insufficient, and to afford any assistance that may be required.

8. On the arrival of Troops at each stage, the Tahsildar should cause the Peshkar, Karkoon, or other respectable Revenue Officer, assisted by two intelligent Peons, to issue the supplies to them as they may be required, carefully receiving payment for every thing. Any articles that may remain undisposed of should be immediately afterwards sold by outcry, and an account particulars of the purchases, the sales to the Troops, and what is realised for the remaining articles, should be transmitted to the huzoor within five days after the Troops shall have passed through the talook.

9. Tahsildars should be distinctly informed that neither coolies, pots, firesticks, tent pegs, nor any articles whatever (although hitherto customary), are in future to be given without payment.

10. Tahsildars should be directed to comply with any requisition for coolies, receiving however in the first instance the hire of the men, at the rate of 3 Annas per 10 miles for each.

11. In the event of Troops halting at any stage where there may be no bazar, or but a small one, the Tahsildars should be directed to cause some of the Bazarmen from the neighbouring villages within 4 or 5 miles to attend with rice, grain, ghee, oil and other articles which their shops supply for sale.

12. Tahsildars should also be directed to give timely intimation to all the villages in the vicinity of each stage, of the day on which the Troops will be at that stage, and to invite and encourage the inhabitants to bring in their supplies of every description for sale, the same as at the weekly market, assuring them that nothing will be taken from them and no oppression be permitted to be practised towards them.

33. All Officers Commanding Corps or Detachments, as also all Officers not Commanding, nor proceeding with a Corps or Detachment of Troops, who may be provided by any Servant of the Government with bearers, coolies, boatmen, carts or bullocks or any necessary supplies of provisions or other articles, shall in the first instance pay the prices demanded for the hire of such bearers, coolies, &c. or for the value of the articles so furnished, notwithstanding any cause for complaint against the Public Servant, which, whether for overcharge or neglect of duty, or on whatever ground, they are to prefer immediately to the Zillah Magistrate, and if after his decision thereupon, further reference of the case should be necessary, their representation will be submitted for the information of Government, through the usual and regular channel. G. O. G. 24th Dec. 1813.

34. No demand for coolies, carts or cattle is to be made at any intermediate village, except in the event of unforeseen accidents on the road, either by the death or desertion of coolies, or G. O. G. 19th Oct. 1815.

casualties amongst the cattle, when a representation is to be made to the Commanding Officer, who being satisfied as to the propriety of the application, will make the requisite demands for fresh supplies to the head man of the place in communication with the Revenue Servant, who by the existing Regulations is ordered by the Collectors to accompany Troops on the march, and it will be the duty of Commanding Officers upon such occasions to pay a proper consideration to the means and resources of the village, as well as to enforce in the strictest manner an adequate remuneration to the people so employed on their requisition.

35. The Commanding Officer of a Corps or Detachment is the only person entitled to correspond or communicate with the Civil Authorities on the points above stated.

36. Whenever any demands are made on the Commissariat for sick carriage on emergent occasions when Troops are marching, the Officer making the demand, if beyond the frontiers, shall immediately transmit direct to the office of the Quarter Master General of the Army a duplicate of that demand with a full explanation of the circumstances which led to it. If the duplicate demand, under the explanation submitted should be sanctioned by the countersignature of the Quarter Master General, it will be immediately returned to the Officer who transmitted it, and he will be held responsible to forward it to the Officer of the Commissariat who may have complied with the original demand, or whose servants may have complied with it on account of the latter. The duplicate will of course be forwarded through the Quarter Master of Brigade if the carriage be required at any place within the Divisions of the Army.

G. O. C. 10th March 1825. 37. In cases of extraordinary sickness Officers Commanding Corps and Detachments are authorised to indent upon Collectors for such number of country cots as may be absolutely necessary.

G. O. C. 30th Novr. 1827. 38. Charges for expenses connected with the march and encampment of Troops within the provinces, such as charges for boats, coolies, &c. &c. will be adjusted under the following rules.

39. In cases of the above nature, the Officers Commanding are to address their applications for the requisite supplies or assistance to the Collectors of the Districts through which they pass, whose servants will be instructed to comply therewith—the Officers granting certificates of the number of boats, coolies, &c. employed, specifying the periods, numbers, and all requisite particulars; which documents are to accompany the Collectors bills for adjustment, in the transfer accounts of the Accountant General's Office.

40. When claims for remuneration for injury to crops or other charges arise out of the encampment, &c. of Troops, the extent or particulars of which may not be within the knowledge of Commanding Officers, their certificates are to be dispensed with, and the Collectors bills passed on their own signature.

41. With respect to charges incidental to the march of Troops to which the above provisions may not be found applicable, the bills of Commanding Officers verified in the manner prescribed for contingent charges, are to be transmitted to the Quarter Master General of the Army, with the necessary explanations, (particularly regarding their not having obtained the required assistance from Collectors); on receipt of which, if found unexceptionable, the Quarter Master General is to affix his signature (to the bills) with the word "Approved", which is to authorise their discharge.

42. Should it be necessary for a Detachment to march through any Foreign Settlement, the Officer Commanding it will make a previous official communication to the local authority, stating the route by which he wishes to proceed.

43. No Detachment shall encamp within the boundaries of a Foreign Settlement unless under special order from Head Quarters, and whenever practicable a detour is to be made in preference to passing through its limits.

44. When it may be necessary to leave any man behind sick in any station hospital, a nominal roll and pay certificate must be given to the Station Staff Officer, and in the case of a Detachment, a report must be made to Regimental Head Quarters.

45. Should more than one man be left behind or quit the Detachment a separate pay certificate must be given for each.

46. Whenever practicable the arms, &c. of men left behind sick are to be retained with the Regiment or Detachment.

47. When arms are left behind with men, a list of them must be attached to the nominal roll. The arms in this case are to be made over to the charge of the Station Staff Officer or deposited in store—they will not be received into any hospital.

48. Officers Commanding Detachments of Corps at Outposts, or moving within the limits of the Division in which the Regiment may be stationed, are to consider themselves immediately subject to the authority of their Regimental Commanding Officers in *all Regimental matters*, and will refer to him all applications for exchange or removal, for furlough, or for courts martial.

49. Officers Commanding parties detached to a distance from their Regiment are still to consider themselves subject to the preceding rule as far as may be practicable.

50. Commanding Officers of Corps from which Detachments are serving under a *separate authority*, will notify to such authority whenever it may be necessary to remove or exchange any individual of the Detachment.

51. Officers Commanding Detachments whether at Outposts or in movement are prohibited from ever quitting them without previously obtaining leave of absence through the regular channels.

52. They are not to grant leave of absence to Officers under their Command without reference to superior authority, for a longer period than one day.

53. Officers disembarking at the Presidency or other place in command of Detachments, are on no account to quit their Detachments until they have received especial permission so to do from the Adjutant General or other competent authority.

54. Officers proceeding in charge of treasure are never to *commence their march before day light*. They are in consequence permitted to move at the average rate of 8 miles per day, with the usual halt on the fourth day, when the state of the weather or condition of the cattle may render it necessary.

55. Officers Commanding Treasure Escorts are not responsible for the *contents* of such packages of treasure as may be delivered over to them. The Collector making the remittance is answerable for the contents of the packages, and the Officer receiving charge will only be required to pass his receipt for a certain number of packages, contents unknown, and to see that the same are delivered unbroken and unopened.

56. They are consequently exonerated from the duty of seeing the treasure either packed or unpacked, and escorts are not to be required until the treasure has been packed up, and they are to be dispensed with as soon as the packages have been duly delivered and before their contents are counted out.

57. Officers Commanding Treasure Escorts have under the preceding regulations, simply to take charge of and convey to the named station a certain number of packages. They are not therefore to be considered as under the orders of Collectors any further than as regards the mere *receipt* and *delivery* of such packages.

58. The Officer Commanding a Treasure Escort being responsible for the safe custody of the packages both as regards their number and condition, the measures to be adopted for that purpose rest exclusively with him. The Shroff and others who accompany the remittance on the part of the Collector being responsible for the contents of the packages, may be permitted as a measure of precaution to examine the seals morning and evening, under such arrangements as the Officer may direct, to satisfy themselves that all is right and to report to the Officer whatever they may observe requiring notice.

59. The following are extracted from the Quarter Master General's Regulations for general information.

1. All General Officers, Officers Commanding Regiments or Detachments, shall in addition to whatever other Regulation may be in force, without loss of time report every movement whatsoever in the fullest manner to the Quarter Master General.

2 The actual march of any Corps or Detachment will be reported by the Officer Commanding the Station from whence such movement shall take place, and the report will be despatched on the same day that the movement shall have commenced. In like manner the completion of the march will be reported by the Commanding Officer of the Station at which the Corps or Detachment shall arrive, and the report will be despatched on the same day that the movement shall have terminated.

3. Quarter Master Staff of Divisions shall report to the Quarter Master General of the Army the actual date that equipments are supplied to troops, as well as the period of their discharge, by whom a corresponding communication shall be made to the Military Auditor and Commissary General.

4. Officers Commanding small Detachments on march will report progress from each alternate halting stage; but Officers Commanding Corps or any larger body of troops will report progress every fourth day after the commencement of movement, and the last report will state the day on which the Commanding Officer expects his Corps or Detachment will arrive at its destination. In cases where from the route of march being different from the tappall road, it may be impracticable to comply with this part of the Regulation in its full extent, the report of progress will be delivered to the headman of the village from whence it may be dated, with injunctions to have it conveyed without delay, to the Collector of the District, who will forward it agreeably to its address.

5. Officers Commanding Corps or Detachments when transmitting reports of progress will state any extraordinary circumstance that may occur during the march, particularly as regards the health or comfort of the men under their command. With the progress report is to be forwarded a Memorandum agreeably to the subjoined Form.

6. The column of remarks on encamping grounds, should notice the several encamping grounds upon the route, stating their advantages and disadvantages as regards salubrity, supplies of water and forage, together with such observations connected with the health and convenience of the troops, as may be relevant to the desired object.

7. The column of remarks relating to the appearance of fever, cholera, or any other epidemical disease among the troops or followers, should state all the circumstances as to the time and place of such disease breaking out and remarks upon the localities or other causes which may be supposed to have occasioned it.

Reports in every respect similar to the foregoing, omitting the Memorandum, will be transmitted for the information of the Officer Commanding the Division in which the commencement, progress, or termination of a movement may occur, to the Senior Officer of the Quarter Master General's Department in such Divisions.

9. It will be clearly understood, that the foregoing Regulations establishing the several sources from which reports of movement shall issue, are not intended to prevent Commandants of Divisions, or other Officers aforementioned, from reporting in the fullest manner for the Commander in Chief's information any circumstances necessary to be made known, which may be connected with the subject of the report.

60. Officers Commanding Corps or Detachments in movement will invariably notify to the Officer Commanding any Military Station in their route the time at which they expect to arrive there, such notification being always made at least one day previous. They are also required to notify their arrival at and intended departure from the Station. No further reports are required, but at Stations being regular Cantonments or Garrisons it will be the duty of the Officer Commanding the Corps or Detachment to wait upon the Officer Commanding the Station, except where the latter may be junior to him in rank.

61. Officers are also required to notify their approach and report their arrival at and departure from all Stations occupied by the Nizam's Troops under the Command of European Officers.

62. The reports of Officers Commanding Detachments proceeding to the Presidency, particularly Treasure Escorts, must invariably be forwarded so as to reach the Town Major on or before the morning of the day previous to the arrival of the Detachment.

63. Officers Commanding Corps or Detachments will on entering a Division report to the Divisional Adjutant, and Quarter Master General, attaching to the report a present state of the Corps. They will also report to the same Officers on quitting the Division, and forward progress reports to the latter while marching within its limits.

64. Officers Commanding Divisions or Forces will report to the Adjutant General the arrival of all Corps or Detachments to join their Division or Force, and they will make similar reports of all Corps and Detachments quitting their command.

65. All Detachments arriving at the Presidency are to be reported by their respective Commandants at the Offices of the Adjutant and Quarter Master General, and when under European Officers, present states are to be furnished to both.

66. Officers of the Line marching in Command of Detachments of Artillery are to report progress every tenth day to Artillery Head Quarters, and to furnish present states to the Commanding Officer of Artillery (being senior to themselves) at all Stations in their route.

15th 1836. 67. On the completion of a march Officers Commanding Corps or Detachments are required to obtain from the Commissary of Ordnance or other in charge, a receipt in duplicate for the whole of the marching equipments delivered into store, for transmission to the Quarter Master General.

68. In the case of parties commanded by Native Officers the receipt will be transmitted by the Regimental or Station Staff.

69. Where there may be no depot or arsenal, a report from the Commanding Officer that the equipments have been received, will be forwarded instead of the receipt above specified.

27*th May* 1841.

The following Extracts from the confirmed Proceedings of a European General Court Martial, holden at Secunderabad, on Tuesday the fourth day of May, in the year of our Lord one thousand eight hundred and forty-one, by virtue of a warrant from Major General Sir Robert Henry Dick, K. C. B. and K. C. H. Commanding in Chief, are published to the Army.

Lieutenant Colonel John Smith of the Second Regiment of Light Cavalry, placed in arrest by order of the Major General Commanding the Army in Chief, upon the complaint of Captain George Henry Harper of the Fortieth Regiment of Native Infantry, Paymaster to the Hyderabad Subsidiary Force, upon the following Charge.

Charge.—For conduct unbecoming the character of an Officer and a Gentleman, in the following Instances:

First Instance.—In having at Jaulnah, on the third of March, one thousand eight hundred and forty-one, in an official letter bearing that date addressed by him to the Accountant General, Military Department, Fort Saint George, in the nature of a complaint against the Paymaster of the Hyderabad Subsidiary Force, relative to the distribution of Government Lottery Tickets by the said Paymaster, maliciously made unwarrantable assertions and insinuations derogatory to the character of Captain George Henry Harper of the Fortieth Regiment of Native Infantry, then holding the situation of Paymaster to the aforesaid Hyderabad Subsidiary Force, and tending to impute to the said Captain Harper, and have it believed, that he had made a partial and

unfair distribution of the said Lottery Tickets, and that he trafficked with the same for his own illicit gain, which said letter is as follows, namely ;

"To
The Accountant General,
Military Department,
Fort Saint George."

"Sir,

"I beg to bring to your notice what appears to me objectionable in the mode in which Lottery "Tickets are distributed in the Hyderabad Subsidiary Force."

"In the last Lottery I made a very early application for 20 Lottery Tickets on my own account, "the answer from the Paymaster was, that twenty was a larger number than could be granted with "due consideration to other applicants ; not willing to appear selfish, I tacitly acceded to this ar- "rangement—after all, only five Tickets were sent to me."

"In the present Lottery I made on account of the Officers of the Regiment an application for 20 "Tickets, of which 10 were intended and so stated for myself, this application was forwarded to the "Paymaster within a day or two of the arrival of the published scheme—the answer was, that I was "too late in my application ; all the Tickets having been previously taken, for the Paymaster did "not think proper to exert that discretion in behalf of me and others which on the former occasion "he had taken upon himself to exert against us—the Paymaster, however, added that he had made "application for more Tickets, and that if they arrived, those which I had written for on account of "my brother Officers and myself should be sent to us—eventually only fifteen instead of twenty were "sent, five being marked down for *Lieutenant Colonel* Smith and *four* for *Cornet* Macdonald."

"From the great difference between the regulated and market exchange of Hyderabad Rupees, "and further from the premium which Madras Lottery Tickets of late years always bear beyond "their real price, it is evident that if the sale of Lottery Tickets depend upon the pleasure or discre- "tion of the Paymaster, that a door is evidently opened to him for illicit gain, and that he must be "exposed to unusual temptation."

"May I be permitted to suggest as a remedy for the evil I complain of, that the Paymaster be "directed to allot to each Regiment in the Hyderabad Subsidiary Force, whether situated at Secun- "derabad or Jaulnah, its fair share of the Tickets sent to Secunderabad for distribution. I presume "that Lottery Tickets are only intended for issue at the regulated exchange to those who receive "their pay at a similar rate."

"*Camp Jaulnah*,"
"3*d March* 1841."

"I have the honor to be,
"Sir,
"Your most obedient servant,
(Signed) "J. SMITH, Lt. Col.
Comg. 2d Regt. L. C."

Second Instance.—In having at the same place, on the fifth of the same month, in the same year, in an official letter bearing that date, addressed to the Assistant Adjutant General Hydera- bad Subsidiary Force, Secunderabad, in the nature of a complaint to Brigadier James Wahab, Commanding the Hyderabad Subsidiary Force, against the Paymaster of the said Force, Captain George Henry Harper of the Fortieth Regiment of Native Infantry, for having on two occasions furnished him, Lieutenant Colonel Smith, with a less number of Government Lottery Tickets than he had applied for, maliciously made unwarrantable insinuations derogatory to the character of, and highly insulting to the said Captain Harper, and tending to impute to him that he had abstracted, and otherwise appropriated five out of twenty Lottery Tickets expressly intended for him, Lieutenant Colonel Smith, and the Officers of the Second Regiment of Light Cavalry, in the following words of the said letter; namely ;

"IV. "As in all probability the Paymaster's requisition to the Superintendent of the Lottery "for the 20 Tickets was wholly and not partially complied with, I take the liberty of requesting "the support of the Brigadier in justice to the rights of myself and others."

"1st. "In ascertaining from the Paymaster whether he received the 20 Lottery Tickets "applied for, on account of the Officers of the 2d Light Cavalry."

"2d. "If he did receive them, upon what grounds he abstracted and otherwise appropriated "five of the twenty."

The above being in breach of the Articles of War.

Head Quarters, Fort St. George, the fifth of April one thousand eight hundred and forty-one.

By order.
(Signed) R. ALEXANDER, Lt. Col.
Adjutant General of the Army.

The Court having most maturely weighed and considered the whole of the evidence brought for- ward in support of the prosecution, as well as what the Prisoner, Lieutenant Colonel John Smith, has urged in his defence, is of opinion :

Finding on the First Instance of the Charge.—That the Prisoner is not guilty of the First Instance of the Charge.

Finding on the Second Instance of the Charge.—That the Prisoner is not guilty of the Second Instance of the Charge.

The Court honorably acquits the Prisoner of the Charge.

(Signed) T. McGOUN,
D. J. A. Genl.

(Signed) J. WOULFE, Major General,
President.

Remark by the Court.—The Court desires to record its opinion that from what has come before them, Captain Harper appears to have acted with the strictest impartiality in the performance of the duty to which the subject matter of the Charge refers.

President.

Confirmed.

4. No authority inferior to that of the Officer Commanding the Station is competent to grant leave for Festivals.

REVIEWS AND INSPECTIONS.

1. Every Regiment is to be inspected by the General or other Officer Commanding the Division or Force once annually.

2. Every mounted Corps, as also every European Corps and Detachment, at the Head Quarters of Divisions or Forces, is also to undergo a second or "Half Yearly" Inspection.

3. The Annual Inspection may be made at any period between the 1st November and 31st March.

4. The Half Yearly Inspection is to be made in the month of June.

5. Every outpost, whether occupied by Troops of the Line or by Veterans, is also to be inspected by the General of Division or by one of his Staff, once in the course of each year. The Inspecting Officer must enquire closely into the state of discipline and interior economy of the Detachment, in order to satisfy himself that duty is properly carried on, and that the men are duly instructed, as well as that their arms and equipments are all in good order;—in inspecting Detachments of Veterans he must also ascertain that no individual is retained in the ranks who is not perfectly fit for garrison duty.

6. Printed Reports containing the various points required to be reported upon in each Corps, will be supplied to Commanding Officers for delivery to the Inspecting General when required.

7. The answers to the different queries in these Reports are to be made by the Inspecting General himself.—They are not to be furnished by Commanding Officers of Corps, excepting only such as are dependent entirely upon official Returns and do not involve the expression of any opinion.

8. As far as practicable the Inspecting General's replies must be the result of his own observation and enquiry, and not confined to what may come before him only at the Inspection. It is the duty of every General of Division to make himself thoroughly acquainted with the actual state of interior economy and discipline of every Corps under his command, as well as with the character and qualifications of every Officer—so as to be prepared at any time to furnish from his own personal knowledge any information which may be required regarding them.

9. The several heads entered in the Reports are to be separately reported upon, and not blended together in one general remark. Each Report is required to be complete in itself, and observations which may have been made in any former Report are therefore to be repeated if necessary, but not referred to for information.

10. In the event of any Officer appearing to the Inspecting General to be disqualified to perform his duty with efficiency, a special report upon the cause and extent of his incapacity must be made—and when any Officer has been absent from his duty for an unusual period, the circumstance must be noted and the cause fully explained.

11. If any Recruits shall appear from personal observation, or from the result of inquiry made of the Commanding Officer and Medical Officer, to be objectionable, from constitutional defect, or malformation of any description, such as to render them not likely to become useful and efficient Soldiers, the Inspecting Officer is to transmit special Reports of the same, with the particulars of their enlistment and approval, and the name of the Officer and Surgeon by whom inspected and passed.

12. In cases where claims may be advanced by Soldiers, they are to be fully and distinctly stated, with such explanations annexed as may be necessary to their being duly investigated and adjusted,—they must also be accompanied by a Report from the Officer Commanding the Regiment, stating the means he may have adopted to obtain for the parties concerned whatever may

appear to be due. Commanding Officers must, however, be aware that the Inspection Report is not the channel through which claims are expected to be adjusted—it is incumbent on them to take due care that all claims which may exist in their respective Corps, receive prompt attention, and it is only after all other measures have failed that they can be allowed to appeal through the Inspecting General to the Commander in Chief.

13. Commanding Officers of Corps being responsible that the clothing, arms, and accoutrements and every article of equipments are kept complete and in a constant state of fitness for service, the Inspecting General on perceiving any deficiency in these articles, will require an explanation of the cause and of the measures which have been taken to obtain a supply of the articles deficient. The Inspecting General will then himself give such further orders as may be requisite.

14. It is the duty of the Inspecting General fully and faithfully to report without reserve, and to make such observations and animadversions as he may consider necessary on the several heads to which his attention is directed, not failing to bestow on the Officers, and particularly on the Field Officers and Captains, on whom the discipline most materially depends, the due proportion of commendation or censure which the conduct of each in his respective Station shall appear to deserve. If he perceive that the Officers or men, or both, are careless, inaccurate, or ill-instructed in their field exercises, he is not only to state the particulars in his report, but also to order such a course of drill, in reference both to Officers and men, conformably with the Regulations, as he may judge best calculated to remedy what he may have occasion to censure.

15. In all instances wherein the Inspecting General may have occasion to point out any defects, he is to mention in his Report what directions he has given in consequence. He will direct that his orders on such occasions, shall be inserted in the Order Book of the Regiment, and he will transmit a copy of them with his Report to the Adjutant General. The General next inspecting the Regiment will, in his Report, state in what manner and with what effect the orders issued at the previous inspection appear to have been obeyed.

16. The Annual Inspection Report is to be accompanied by the following Returns.

1. Inspection Return.
2. Nominal Roll of European Officers, Form No. I.
3. Report upon the acquirements of the Officers in the Native languages, Form No. II.
4. Nominal Roll of Native Officers, Form No. III.
5. Return of men for discharge, Form No. IV.
6. Return of target practice during preceding year, Form No. V.
7. Return of target practice before the Inspecting Officer, Form No. VI.

17. Blank Printed Returns as above will be supplied to Corps from the Adjutant General's Office.

18. When the Inspecting General may find it necessary to report specially upon the Recruits, an additional Return Form No. VII. is to be forwarded.

19. No other Returns are required to accompany the Inspection Reports.

20. The Half Yearly Inspection is not required to extend beyond the condition of the horses and saddlery, arms, equipments, clothing, books and accounts, and the general state of the Corps. The Report is to be made in the form of a letter.

21. In order that the Annual Inspection and Review of a Corps may embrace every branch of its external Drill and Discipline, it is invariably to include the detailed and separate practice of each of the following points, observing that the Reviewing Officer is not limited to the order of succession as herein given.

CAVALRY.

1. Inspection in Full Marching Order—Departments, Recruits, and Boys to be examined.

Cav. Regulations Part III, Sec. XVII, XVIII.

2. The Regiment to move out in Full Marching Order with the usual forms. Advanced and Rear Guards, Flanking, Skirmishing and Reconnoitring Parties to be formed by such Troops as shall be named *at the time* by the Inspecting Officer. A few movements to be performed adapted to the nature of the country. *After the March* the Reviewing Officer will inspect each Troop.

3. Three Troops in Riding School.

4. The remaining Troops the same.

5. *Cantonment Duties.*—Three Troops to parade, dismounted, for Cantonment Duty—the usual forms of Guard mounting to be observed, Commanding Officer acting as Field Officer of the Day, Sentries to be posted, double, single, near and detached, Officer of the Day to go the Day Rounds, Sentries to be relieved—Night Rounds and Patrols.

6. The same Troops to resume their Stations as Guards. The remaining Troops under the Second in Command to relieve, and to go through the same course of practice as the former.

Cavalry Regulations, Part III, Sec. XIX.

7. *Field Duties.*—Mounted, Three Troops to parade for picquets, &c., Commanding Officer acting as Field Officer of the Day, to post the Picquets covering any convenient quarter of the Cantonment. (Signed) R. H. DICK, Major General,
Comg the Army in Chief.

Remarks.—The crimes of which the Prisoners, Privates Holland and Keane, have been convicted, are of such peculiar enormity, in a Military point of view, as to point out these individuals as fit objects upon whom to inflict the awful sentence of the Law which has been pronounced against them, and the Major General Commanding the Army in Chief feels that he incurs a great responsibility by his present clemency, lest it should induce a fancied security to the ill-disposed and insubordinate, which may render it necessary at some future period to carry the utmost severity of the Law into effect upon others, who may incur the penalty, but who may be less criminal than the present culprits. But it must be apparent to those under his command, that in exercising in the present instances the power of mercy with which he is intrusted, he diminishes the chance of escape to future offenders, for if he find that the ignominious banishment of the Prisoners and the narrow escape they have had of expiating their offences by an untimely end fail in deterring others from the commission of crimes of a like description, it is obvious that he must resort to extreme severity, and that no case of similar criminality will receive mercy at his hands.

The Major General has to deplore, that several cases of violence to superiors of an aggravated character have of late been before him. He trusts that the result of the present trials will induce reflection on the part of the Soldier of mutinous and reckless disposition, which shall make him pause ere he jeopardize his life by committing the flagitious act of raising his hand against a superior Officer whose only act of offence towards him is, that he exercises the authority given him by his Country and Sovereign for the due support of discipline and the security of the Government he serves.

The Major General Commanding the Army in Chief, from a perusal of the Proceedings upon the trial of Private Holland, deems it necessary to caution Officers, of whatever rank, against taking any part in the confinement of offenders further than giving such orders as the case may appear to demand.—Although unnecessary interference on the part of a superior cannot, in the slightest degree extenuate any insult offered to his person by a Soldier, yet it behoves an Officer to prevent the possibility of crime, as much as lies in his power, and not give the opportunity to a drunken or mutinous Soldier of committing an act for which the Law awards a capital punishment.

(Signed) R. H. DICK, Major Genl.
Comg. the Army in Chief.

This General Order is to be read to the Prisoners in front of all the Troops at Bangalore, which are to be paraded for the purpose.

The Prisoners to be struck off the strength of the Army from the date of the promulgation of this Order at Bangalore, and forwarded to the Presidency under an Escort,—their arrival to be reported at the Adjutant General's Office.

GENERAL ORDERS.

HEAD QUARTERS:
FORT ST. GEORGE, 27*th May* 1841.

At a General Court Martial holden at Fort St. George, on Monday the 10th day of May 1841, Assistant Surgeon George Robert Fraser, M. D. of Her Majesty's 57th Regiment of Foot, was arraigned upon the following Charges.

First Charge.—" For conduct to the prejudice of good order and military discipline, in the following Instances :"

First Instance.—" In having at Madras, on the twelfth of April, one thousand eight hundred and forty-one, neglected his duty by failing to notify to me, the Surgeon of the Regiment, his having furnished a certificate stating that Lieutenant Edward Alexander Thomas Lynch of Her Majesty's Fifty-seventh Regiment, was incapable from sickness of the performance of his duty, by which means, the name of the said Lieutenant Lynch, was incorrectly omitted in the Regimental sick report, such conduct on the part of Assistant Surgeon Fraser, being in neglect of repeated orders given to him by me, on the subject of such certificate."

Second Instance.—" In having at the same place, on the fourteenth of the same month, of the same year, neglected his duty by failing to notify to me, the Surgeon of his Regiment, his having furnished a certificate reporting the aforesaid Lieutenant Lynch, as fit for duty, in neglect of my repeated orders to him, Assistant Surgeon Fraser, on the subject of such certificate."

Third Instance.—" In having at the same place, on the day last mentioned, neglected his duty, by failing to notify to me his having furnished a certificate reporting Captain Mars Morphett of Her Majesty's Fifty-seventh Regiment, who had previously been on the sick report, as fit for duty, in neglect of my repeated orders to him, Assistant Surgeon Fraser, on the subject of such certificates."

Fourth Instance.—" In having at the same place, on the evening of the eighteenth of the same month, in the same year, grossly neglected his duty, and shown great indifference to the welfare of the sick under his charge, by abruptly quitting the General Hospital immediately, after writing a letter to me, in which he requested to know my wishes with regard to two of his patients, Soldiers of Her Majesty's Fifty-seventh Regiment, dangerously ill, without waiting for my reply to the said letter, although he was aware that I resided in the compound of the said General Hospital, and that it was necessary he should know my opinion regarding the Soldiers in question, with the least possible delay."

Fifth Instance.—" In having at the same time and place, after having been recalled to the Hospital by my order, and remonstrated with by me, for leaving the Hospital as afore-

said, made use of the following insubordinate and disrespectful language to me, his superior Officer, while in the execution of my office; namely: "I did not consider it necessary to "wait all night for you, as I wanted my evening drive as well as yourself,—and I did not "know if you were at home or not," or words to the same effect."

Second Charge.—"For conduct unbecoming an Officer and a Gentleman, and to the prejudice of good order and military discipline, in the following Instances:"

First Instance.—"In having at the same place, on the same evening, on leaving the General Hospital, addressed to me, his superior Officer, the following grossly insulting and insubordinate language, namely: "One word more, I was foolish enough to think of ex- "changing out of the Regiment, but I will not do so now, but either you or I shall fall— "you have required of me a statement of the case of Mister Langford (meaning Quarter "Master James Edward Langford, of Her Majesty's Fifty-seventh Regiment) that would "just cause Lord Hill to strike his name out of the Army at once, just at once; but no "power you possess shall make me give such a statement. Several Officers of the Regi- "ment recommended me to bring you before a tribunal and I am determined now to do "so," or words to the same effect; he, Assistant Surgeon Fraser, thereby falsely attributing to me, that I had required of him a statement of the case of the said Quarter Master Langford of a nature, that he could not conscientiously give: whereas I had simply required of him a statement of the case of the said Quarter Master Langford, in the course of my duty, without in any manner dictating to him, the nature of the statement to be made, and which statement so called for by me, he, Assistant Surgeon Fraser, had furnished to me three days before."

Second Instance.—"In having at the same time and place, on my leaving him, in consequence of the language made use of by him, as stated in the first Instance of this Charge, addressed to me the following grossly insulting and insubordinate expressions; namely; "I wish I had my will of you," or words to the same effect; thereby expressing his wish to offer me, his superior Officer, personal violence."

"The above being in breach of the Articles of War."

Madras, the twenty-third of April, one thousand eight hundred and forty-one.

(Signed) A. B. MORGAN, Surgeon,
Her Majesty's Fifty-seventh
Regiment of Foot.

Upon which Charges the Court came to the following decision:

"The Court having most maturely weighed and reconsidered the whole of the evidence brought forward in support of the prosecution, as well as what the Prisoner, Assistant Surgeon George Robert Fraser of Her Majesty's Fifty-seventh Regiment of Foot, has urged in his defence, and the evidence in support thereof, is of opinion:"

Revised Finding on the First Instance of the First Charge.—"That the Prisoner is "not guilty" of this Instance of the Charge."

Revised Finding on the Second Instance of the First Charge.—"That the Prisoner is "not guilty" of this Instance of the Charge."

Revised Finding on the Third Instance of the First Charge.—"That the Prisoner is "guilty" of this Instance of the Charge."

Revised Finding on the Fourth Instance of the First Charge.—"That the Prisoner is "not guilty" of this Instance of the Charge."

Revised Finding on the Fifth Instance of the First Charge.—That the Prisoner is "guilty" of this Instance of the Charge.

Revised Finding on the First Instance of the Second Charge.—"That the Prisoner is "guilty" of this Instance of the Charge, with the exception of the words grossly and falsely and conduct unbecoming a Gentleman."

Revised Finding on the Second Instance of the Second Charge.—"That the Prisoner is "guilty" in having at the same time and place on my leaving him in consequence of the language made use of by him as stated in the First Instance of this Charge, addressed to me the following insubordinate expressions, namely, "I wish I had my will of you," which the Court finds to be conduct unbecoming an Officer and to the prejudice of good order and military discipline, but acquits him of every other part of this Instance of the Charge."

Revised Sentence.—"The Court having found the Prisoner "guilty" to the extent above stated, doth sentence him, the said Assistant Surgeon George Robert Fraser, Doctor of Medicine, of Her Majesty's Fifty-seventh Regiment of Foot, to be severely reprimanded, in such manner as the Major General Commanding the Army in Chief may be pleased to direct."

Confirmed.

MADRAS, 26*th May* 1841.

(Signed) R. H. DICK, Major General,
Commanding the Army in Chief.

Remarks.—I consider that a reprimand to which the Court has thought proper to restrict its award utterly inadequate as a punishment for the extreme insubordination evinced by Assistant Surgeon Fraser towards his superior Officer, and ill calculated to convey to the mind of that Officer a proper sense of the glaring impropriety of his conduct.

The unbecoming spirit which has so conspicuously displayed itself throughout the Prisoner's defence betray a singular unconsciousness of the necessary deference due to authority required

of him by the conditions of the Commission he holds, and has in my opinion tended greatly to aggravate the offences for which he was under trial.

Assistant Surgeon Fraser will be released from arrest and return to his duty.

(Signed) R. H. DICK, Major General,
Commanding the Army in Chief.

This Order is to be entered in the General Order Book and read at the head of every Regiment in Her Majesty's Service on the Establishment of Fort St. George.

2. No Boys are to be enlisted as *Recruit Boys*, or transferred to that class, but such as are intended and will be eligible for eventual transfer to the ranks as *Effective Privates*, or Gun Lascars, if belonging to the Lascar Establishment.—Boys intended to be employed as Trumpeters, Drummers, or Musicians, are never to be admitted into this class. G.O.C.C. 15th Decr. 1829.

3. Recruit Boys are not to be enlisted under 12 years of age, nor unless they are certified by the Medical Officer to be healthy, well limbed, and of size equal to their age. Orphans are invariably to have the preference. G. O. G. 23d Feby. 1813.

4. Recruit Boys not under 16 years of age, may be transferred to the ranks one inch below the regulated standard,—provided they are certified by the Medical Officer to be in other respects fit and likely to grow. They are not, however, to be drilled with arms until of a sufficiently matured strength for their use, nor are they to join the ranks until perfectly capable of supporting the fatigues of duty.

5. All lads transferred as above are to be specially examined by the Regimental Recruit Committee at the expiration of one year from the time of their transfer, when if they have not fully attained the standard height, or are in any other respect unfit for the ranks, they are to be reported to Head Quarters for discharge.

6. Any Recruit Boy who at the age of 18 may not have attained the full standard height for Private or who may be in any other respect unfit for the ranks, is to be reported to Head Quarters for discharge. G. O. G. 23d Feby. 1813.

8. Pensioned Boys may be admitted on the Establishment at any age under 14 years and without restriction to eligibility for the ranks as Privates. None but Orphans, however, are to be taken for this class.—When however there may be no Orphans for enlistment, the Sons of old and deserving Soldiers having large families may be admitted under special sanction previously obtained from Army Head Quarters. G. O. G. 23d Feby. 1813.

9. Pensioned Boys having attained the age of 12 years, and being of good character and conduct and in other respects eligible, if declared fit by the Medical Officer, are to be transferred, as vacancies occur, to the class of Recruit Boys—but any lads who from unhealthiness, unfitness for eventual employment as Sepoys, or other cause, may not be eligible for transfer, are to be reported for discharge on attaining the age of fourteen years. G. O. G. 23d Feby. 1813.

10. Pensioned Boys are not to be transferred to Recruit Boys except strictly under the provisions of the preceding paragraph, and in the event of no Pensioned Boy being eligible for transfer on the occurrence of a vacancy, it is to be filled up by enlistment.

11. All Boys whether Recruit or Pensioned are invariably to be vaccinated if requisite, immediately after enlistment.

12. The whole of the Boys are to be borne upon the Rolls of the Adjutant's Establishment and to be formed into a regular Troop, or Company, under the Adjutant's immediate management.

13. They are always to remain at the Head Quarters of their Corps, unless, on special occasions, the Commanding Officer may see fit to grant any of them the indulgence of accompanying their relatives or friends when detached on permanent duty for any length of time.

14. None of the Boys are ever to be attached to Officers as Servants—they are to be considered as designed eventually for the ranks, and they are to be regularly trained and habituated to military discipline. G. O. G. 29th Novr. 1836.

15. They are all to be made to attend regularly at the Regimental Schools.

16. Their dress and other arrangements are to be as prescribed in the Standing Orders of Corps.

The Court having most maturely weighed and considered the whole of the evidence brought forward in support of the prosecution on the Charge, as well as what the Prisoners, Privates Michael Gaynor, Peter Daly and Patrick Connor, have severally urged in their defence, is of opinion :

Finding on the Charge —That the Prisoners are guilty of the Charge.

Sentence.—The Court having found the Prisoners guilty as above stated, doth sentence them, the said Michael Gaynor, Regimental Number seventy-nine, Private in the A., or Captain John Shep-

herd's Company, and the said Peter Daly, Regimental Number five hundred and thirty-six and the said Patrick Connor, Regimental Number seven hundred and fifteen, Privates in the B. or Captain James Forbes' Company of the Second European Light Infantry, to be hanged by the neck till they be dead, at such time, and at such place, as the Officer Commanding the Army in Chief may appoint.

(Signed) P. THOMSON, Major, 2d E. L. Infantry.—President.

Recommendation by the Court.—The Court beg most earnestly to recommend the Prisoners, Privates Peter Daly and Patrick Connor, to the mercy of the Officer Commanding the Army in Chief, in consequence of its having been satisfactorily proved that the fatal shot was fired by Private Michael Gaynor, and in the case of Private Daly on account of the handsome testimonials he has received to character.

(Signed) P. THOMSON, Major 2d Lt. Infy.,—President.

I approve and confirm the Sentence of Death awarded against Michael Gaynor, Regimental Number seventy-nine, Private in the A. or Captain John Shepherd's Company of the Second European Light Infantry.

I approve—but commute the Sentence of Death awarded against Peter Daly, Regimental Number five hundred and thirty-six, and against Patrick Connor, Regimental Number seven hundred and fifteen, Privates in the B. or Captain James Forbes' Company of the Second European Light Infantry, into Transportation as Felons for their natural lives.

(Signed) R. H. DICK, Major General, *Comg. the Army in Chief.*

I concur.

(Signed) ELPHINSTONE,
„ C. M. LUSHINGTON,
„ JOHN BIRD.

Remarks.—The Major General Commanding the Army in Chief has not directed the Sentence of Death to be carried into execution in the instance of Privates Daly and Connor, in the face of the earnest recommendation of the Court in their favor,—but he most conscientiously declares, that were it not for that recommendation, the grounds of which are altogether insufficient, there are few cases in which he would have felt less hesitation in directing the Law to take its course,—and it has been with considerable difficulty that he has brought his mind to concur in opinion with the Court that justice may be satisfied and mercy at the same time shown to the two Criminals in question.

In order to convey to the Army an adequate idea of the wanton atrocity attending the commission of the crime of which the Prisoners have been convicted, the Major General only considers it requisite to mention, that these men, armed with muskets, were observed to fire several shots in the direction of a crowd of Natives who were following them at the distance of about fifty yards, and that subsequently on approaching the Artillery Barracks, the Prisoner Gaynor turned round and deliberately fired the shot among the crowd which proved fatal to the unfortunate and unoffending individual named in the Charge.

The lives of the Prisoners Daly and Connor are spared at the intercession of the Court, but in the infamous end of their partner in guilt, they will see the fate, themselves have so richly merited, and to which they have reduced their wretched comrade by the countenance and support they afforded him by their presence and behaviour.

(Signed) R. H. DICK, Major Genl. *Comg. the Army in Chief.*

The Sentence of Death awarded Private Michael Gaynor, No. 79 in the A. Company of the 2d European Light Infantry, will be carried into execution in front of the whole of the Troops at Bangalore, to be paraded for the purpose agreeably to detailed instructions which will be issued through the Adjutant General of the Army.

Privates Peter Daly and Patrick Connor of the 2d European Light Infantry are to be struck off the strength of the Army from the date of the promulgation of this Order at Bangalore and forwarded to the Presidency under an Escort,—their arrival to be reported at the Adjutant General's Office.

GENERAL ORDERS.

HEAD QUARTERS: CHOULTRY PLAIN,

3D JULY 1841.

The Right Honorable the Governor in Council having addressed the subjoined Orders to The Officer Commanding the Army in Chief, to be published to the Army, they are accordingly published in Military Orders.

General Orders by the Right Honorable the Governor in Council.

FORT ST. GEORGE, 2D JULY 1841.

No. 114 of 1841.—The following Extracts from a Letter from the Honorable the Court of Directors in the Military Department, under date the 13th April 1841, No. 24, are published for the information of the Army.

1. "We have at different times communicated to our Governments in India the arrangements made by us for obtaining for the Corps of Engineers the services of Officers of superior talents; and for securing to them before they leave England a high degree of professional knowledge.

2. "We have now to apprize you that in addition to the opportunities furnished to our Engineer Officers at the Military Seminary and at the Royal Engineer Establishment at Chatham under Colonel Pasley, C. B. it is our intention to give to such as may be recommended for the purpose by Colonel Pasley the opportunity of studying some additional branch or branches of Civil Engineering after they are reported qualified for Commissions. With this view we shall grant to those so recommended permission to remain in this Country six months instead of three months as at present authorized, upon the condition however that their rank and standing in the Corps to which they may be posted shall only be secured to them on their producing satisfactory evidence that they have devoted three months of the time to scientific studies connected with their profession. Upon the fulfilment of this condition the Engineer Cadets so employed will receive pay at the rate of five shillings per diem for those three months.

3 "We have further to apprize you of our wish and desire to give to Officers of Engineers who may come to this Country on leave every encouragement to gain an intimate professional knowledge of such branch or branches of Civil Engineering as they may deem calculated to be of use in their future service in India. With this view we shall exert all the influence we possess with the different Engineers employed by us from time to time in the provision of Steam and other Machinery to give ample facilities to such Officers of Engineers as may desire to gain an accurate knowledge of all the details of their respective Establishments. We need scarcely add that the Buildings, Works and Steam Factories in the Royal Dock Yards and the other Establishments of Her Majesty's Government, will, in like manner, at our request be open to the inspection of our Officers. The bona-fide travelling expenses together with a moderate pecuniary allowance, as a compensation for extra expenses during the time certified to us to have been actually employed in such pursuits by our Engineer Officers when on furlough will be defrayed by us on our being satisfied that the objects in view have been attained and that the Officers who have profited by the opportunities thus given are returning to our service in India.

4. "Copies of the Certificates which may be laid before us shewing the attention given by our Engineer Officers to any particular branch or branches of Civil Engineering will be transmitted to the Government of the Presidency to which they may belong, in order that when information or assistance is required it may be sought after from the Officer who is most likely to possess the requisite knowledge.

5. "You will be pleased to cause a notification of the views and intentions now expressed to be made to every Engineer Officer who may obtain your permission to return to this Country on leave. We shall make a similar notification to those who are at present here or who may have quitted India before the receipt of this despatch."

Secretary to Government.

The Officer Commanding the Army in Chief is pleased to direct the publication of the following MEMORANDA applicable to European Courts Martial.

Adjutant General's Office: Fort St. George, 28th June 1841.

With reference to that part of the 29th Clause of the 3d and 4th of Victoria Cap. 37 and the 80th Article of War which admits of previous convictions being adduced in evidence against a Prisoner, it is to be understood that these convictions are restricted to convictions by a Court Martial, or a Court of ordinary criminal Jurisdiction.

When a Court Martial is ordered, care is to be taken that no Officer is appointed a Member of it who has been previously Member of a Court of Inquiry to investigate the subject about to be tried.

After a Prisoner has been once committed to confinement in pursuance of the Sentence of a Court Martial duly confirmed and promulgated, no alteration in the prison or other place of custody can be made.

In preparing a charge of habitual drunkenness against a Prisoner, the dates of the previous instances of drunkenness which it becomes necessary to bring forward are to be inserted in the charge as well as that of the recent offence.

It is hereby intimated for general information of Courts Martial with reference to Sentences of Imprisonment with hard labour, that the infliction of hard labour cannot under present regulations be acted on.

Officers holding Warrants empowering them to confirm District or Garrison Courts Martial are to affix the date of confirmation to the Proceedings.

The Proceedings of all District Courts Martial whether confirmed or otherwise, are after promulgation to be sent to the Head Quarters of the Regiment or Battalion to which the Prisoner belongs for the purpose of being entered in the Court Martial Book of the Corps, after which, they are to be forwarded for deposit to the Judge Advocate General of the Army.

The previous convictions alluded to in the 80th Article of War are on no account to form any part of the charges preferred against a Prisoner, but at the back of the copy of the charges *furnished to a Prisoner* a detail of the former convictions intended to be brought against him are to be inserted.

When a Soldier has been found guilty of the charge or charges preferred against him, the Court, at that stage of the Proceedings, is bound to inquire into and record the Prisoner's former convictions, if any, for its own guidance in awarding punishment as well as for that of the confirming authority in sanctioning its being carried into effect; for though in all cases the maximum of punishment must not exceed what is considered due to the specific crime under trial, yet previous good conduct and irreproachable character may give the Prisoner a fair claim to lenient consideration, as far as the ends of discipline and the established rules of the service will permit.

The form for the Proceedings of a District Court Martial upon a Soldier of Her Majesty's Service is to be considered the form for the same description of Court held upon a Soldier of the East India Company's Service, until fresh forms are issued, or until further orders.

Adjutant General of the Army.

First Charge.—For having at Secunderabad, on the twelfth of February one thousand eight hundred and forty-one, deserted the service.

Second Charge.—For conduct to the prejudice of good order and military discipline, in having at Madras, on the third of March one thousand eight hundred and forty one, presented a petition to the address of the Adjutant General of the Army, containing unfounded complaints and false accusations against his immediate superior Officers, namely, Captain George Middlecoat, Bullock Serjeant Arthur Morrison, and Darogah Shaik Ibrahim Saib —all of the said Battalion of Artillery.

The Court having most maturely weighed and considered the whole of the evidence brought forward in support of the prosecution, as well as that the Prisoner, Rungiah, Driver, has urged nothing in his defence, is of opinion:

Finding on the First Charge.—That the Prisoner is guilty of the First Charge.

Finding on the Second Charge.—That the Prisoner is guilty of the Second Charge.

Sentence.—The Court having found the Prisoner guilty as above stated, doth sentence him, the said Rungiah, General Number eight hundred and twenty-six, Driver of Number eight Karkhana, attached to the B. C. B. and K. C. H. Commanding in Chief, are published to the Army.

Jemadar Ramasawmy, of the Twenty-eighth Regiment of Native Infantry, placed in arrest by my order, on the following charge.

Charge.—For disgraceful conduct, unbecoming the character of an Officer, and to the prejudice of good order and military discipline, in the following Instances:

First Instance.—In having at Mercara, on the twenty-ninth of April, one thousand eight hundred and forty-one, clandestinely gone to the house of Private Venketsamy of the C. Company of the same Regiment at ten o'clock at night, knowing at the time that the said Venketsamy was absent from his home on duty.

Second Instance.—In having at the same time and place, grossly abused and struck Naigue Tandroyah of the D. Company of the same Regiment, several blows on the chest.

Third Instance.—In having at the same place, on the following morning, made use of most gross and highly abusive language towards Private Venketsamy of the C. Company of the same Regiment.

The Court having most maturely weighed and considered the whole of the evidence on the prosecution, with the remarks of the Major General Commanding the Army in Chief, as well as what the Prisoner has urged in his defence, is of opinion:

Revised Finding on the Second Instance of Charge.—That the Prisoner is guilty of this Instance of the Charge.

Revised Finding on the Third Instance of Charge.—That the Prisoner is guilty of this Instance of the Charge.

Revised Finding on the Fourth Instance of Charge.—That the Prisoner is guilty of this Instance of the Charge.

Revised Sentence.—The Court having found the Prisoner guilty as above stated, doth sentence him, the said Ramasawmy Jemadar, Twenty-eighth Regiment Native Infantry, to be discharged the Service.

Offg. D. J. A. Genl.

(Signed) W. C. BELL, Lieut.
Interpreter.

Signed in the Persian character
Subadar KADIR SAHIB,
President.

Disapproved.

I cannot affix my confirmation to these Proceedings in consequence of the Court having most irregularly examined witnesses and recorded fresh evidence upon being directed to revise its Opinion and Sentence:—a proceeding directly opposed to military usage.

The Commanding Officer of the 28th Regiment of Native Infantry will express to Jemadar Ramasawmy my extreme displeasure at his highly reprehensible and unofficerlike conduct which, but for the irregularity above noticed, would have occasioned the loss of his Commission, and all advantages resulting from his previous service of thirty-eight years.

MADRAS, 2d *July* 1841.

(Signed) R. H. DICK, Major General,
Commanding the Army in Chief.

Jemadar Ramasawmy is to be released from arrest and will return to his duty.

GENERAL ORDERS

By Major General Sir Robert H. Dick, K. C. B. and K. C. H. Commanding the Army in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, *8th July* 1841.

With the sanction of Government, the Officer Commanding the Army in Chief directs the publication of the following Section of General Regulations, for the guidance of the Army.

AID TO THE CIVIL POWER.

1. No Civil Officer shall call out Troops until he is convinced by mature consideration of all the circumstances, that such a measure is necessary. G. O. G. 25th March 1825.

2. When the Civil Officer is satisfied of the necessity of the measure, he should, before carrying it into execution, receive the sanction of Government, unless the delay requisite for that purpose is likely to prove detrimental to the public interests. In that case also, he should fully report the circumstances to Government.

3. When the Civil Officer may not deem it safe to wait for the orders of Government, he should address his requisition for Troops, not to any subordinate Military Officer, but to the Officer Commanding the District or Division, to whom he should communicate his object in making it, and all the information he may possess regarding the strength and designs of those by whom the public peace is menaced or disturbed. His duty is confined to these points. He has no authority in directing military operations.

4. The Officer Commanding the Troops has alone authority to determine the number and nature of those to be employed :—the time and manner of making the attack—and every operation for the reduction of the enemy.

5. Whenever the Officer Commanding the Division may think the Troops at his disposal inadequate to the enterprise, he is authorised to call upon the Officer Commanding the neighbouring Division for aid, reporting the same to Government and the Commander in Chief.

6. No Assistant or subordinate Magistrate is authorized to call out Troops.—When any such Officer thinks military aid necessary, he must refer to his superior, the principal Magistrate of the District.

7. The foregoing rules are to be observed whenever it can be done without danger to the public safety.—Should any extraordinary case occur which admits of no delay, Civil and Military Officers must then act according to the emergency, and to the best of their judgment—such cases however, can rarely occur, unless when an enemy becomes the assailant, and, therefore, occasion can seldom arise for departing from the regular course of calling out Troops only by the requisition of the principal Civil Magistrate to the Officer Commanding the Division.

8. Whenever military aid is absolutely and immediately necessary for the maintenance or restoration of the public peace, the Magistrate or other authorised Civil Officer is at liberty to call upon any Officer Commanding a Military Force adequate to comply with his requisition, the responsibility of making it resting with the Civil Officer. Upon such occasions the Magistrate will make his report of the circumstances to Government—and the Military Officer will report to the Officer Commanding the Division or Force. G. O. G. 16th Septr. 1828.

9. These orders do not, of course, refer to ordinary riots or disturbances—on which occasions it is competent to the nearest Magistrate, or other authorised Peace Officer, to call upon the Military for aid in their suppression.

10. It may be rendered necessary by the suddenness of a riot or disturbance, at places distant from the abode of any Magistrate, for the Military Officer to interpose his authority—and, under such circumstances, he is authorised to adopt such measures as the exigency may require, informing the Civil Authorities of his having done so.

11. Nevertheless it is by all means advisable to procure the attendance of a Magistrate or other Civil Officer,—and for the Military to act under his orders, when such attendance and the sanction of such orders can be obtained—as it not only prevents any disposition to unnecessary violence on the part of those who act in repelling the tumult,—but it induces also, from the known authority of such Magistrates, a more ready submission on the part of the rioters to the measures used for that purpose.

12. It has been found by experience, that when Troops have been called upon to act in aid of the Civil Power for the maintenance of the public peace, or in the enforcement of the Law, and have, with a view to intimidation, fired over the heads of persons riotously assembled, the effect has been, that lives have been lost, or wounds received, by persons taking no part in resistance to the Law, and also that parties engaged in such resistance have been encouraged to acts of greater daring and violence.

13 In order to guard against the recurrence of such an evil, Officers Commanding Troops or Detachments, are required on every occasion in which they may be employed in the suppression of riots, or in the enforcement of the Law, to take the most effectual means, in conjunction with the Magistrates under whose orders they may be placed, for notifying beforehand, and explaining to the people opposed to them, that in the event of the Troops being ordered to fire, their fire will be effective.

FORT ST. GEORGE, 20TH JULY 1841.

No. 127 of 1841.—The following General Orders by the Right Honorable the Governor General of India in Council, is published for the information of the Army of this Presidency, in reference to G. O. G. 2d May 1837, No. 85.

GENERAL ORDERS by the Right Hon'ble the Governor General of India in Council.

Fort William, 30th June, 1841.

No. 162 of 1841.—In obedience to the instructions of the Hon'ble the Court of Directors, and in continuation of General Orders, No. 84, dated the 17th of April 1837, the Right Hon'ble the Governor General of India in Council is pleased to direct, that the Allowance of Extra Batta to the Madras Native Troops in the Cantonments of Hyderabad, Jaulna, and Nagpore, be discontinued on and after the relief of the Corps now occupying those Stations.

2. On the discontinuance of Extra Batta, compensation in lieu of Grain will be granted agreeably to the Madras Regulations applicable to the case of Troops on Garrison Allowances; and the farther advantage of receiving their pay at a rate of exchange more favorable than the present one, will be secured to the Native Troops, by the following arrangement, which His Lordship in Council takes this opportunity of announcing for general information.

3. From calculations made by order of the Supreme Government, it appears that the Madras Troops of every description, serving in the Deccan, sustain a serious loss from being paid in the local currency, at the existing rates of exchange, viz., in Hyderabad Rupees at the rate of (111) One Hundred and Eleven for (100) One Hundred Madras Rupees, and in Nagpore Rupees at (107) One Hundred and Seven for (100) One Hundred Sonaut or Company's Rupees; the average intrinsic par of the Coin at present issued to them, being, as compared with Company's Rupees, (121) One Hundred and Twenty-one of the former, and (117) One Hundred and Seventeen of the latter, to the hundred.

4. In such a case the obvious mode, as well as measure of relief, is, an equitable adjustment of the rate of Exchange at which the local currency shall be issued to the Troops; and, as the loss sustained by each of the Deccan Subsidiary Forces appears to be the same, viz. 10 per Cent., the Right Hon'ble the Governor General of India in Council is pleased to authorize an addition to that extent, in both cases, to the present rate of exchange, subject, however, to such future modification as any change of the local currency, or in the intrinsic value of the currency now used for issue, may render necessary.

5. The whole of the European Officers and Soldiers serving with the Hyderabad and Nagpore Subsidiary Forces, the Commissioned and Non-Commissioned Officers attached to Native Corps included, are to be admitted from the 1st of August next, to the benefits of this arrangement which will be extended to the Native Troops on the discontinuance of Extra Batta, that is to say, to each of the Regiments, on its arrival, that may relieve one of those now serving at Hyderabad, Jaulna, or Nagpore.

GENERAL ORDERS

By Major General Sir Robert H. Dick, K. C. B. and K. C. H. Commanding the Army in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, 24*th July* 1841.

A Detachment consisting of part of H. M. 4th (King's Own) Regiment and of Madras Troops serving in the Dooab having been called into active service, it affords the Officer Commanding the Army in Chief much pleasure to communicate to the Army the result of their operations and the approbation expressed by the Government of Bombay.

Major General Sir R. H. Dick is happy at the opportunity of noticing the skilful measures adopted by Major Johnson 26th Regiment Madras N. I. for the capture of Badamee and fully concurs as to the well deserved praise awarded to the Officers and men of each arm of the Troops by whose gallantry and good conduct the surrender of the Fort was accomplished: the efficiency of Captain Burgoyne's Company of Artillery has been conspicuous on this occasion as it was at Nepanee, and the several Detachments have well maintained the characters of the Regiments to which they belong.

Fort St. George, July 20, 1841.

The following Notification of the Bombay Government is republished for general information.

NOTIFICATION.

POLITICAL DEPARTMENT, *Bombay Castle, 9th July* 1841.

In giving publicity to the following Extracts of a letter to the address of Lieutenant Warburton, Deputy Assistant Adjutant General of the Southern Division of the Army, from Major N. Johnson, of the 26th Regiment Madras Native Infantry, Commanding a Detachment lately sent to regain possession of the Fort of Badamee, in the Belgaum Zillah, from a body of Insurgent Arabs, the Honorable the Governor in Council begs to offer his best thanks to Major Johnson, and the Officers and men under his command, for their gallant and soldierlike conduct, in conducting these operations, which terminated in the unconditional surrender of the garrison, on the 10th ultimo.

By order of the Hon'ble the Governor in Council.

(Sd.) J. P. WILLOUGHBY, *Secy. to Govt.*

To LIEUTENANT P. E. WARBURTON,
Depy. Asst. Adjt. Genl. Southern Division of the Bombay Army.

SIR,

I do myself the honor to report to you, for the information of the Major General Commanding the Southern Division of the Army, that on arriving before Badamee, on the morning of the 8th Instant, I assumed command of the whole Force, and having obtained from Captain Woodfall, all due information regarding the measures he had previous to my arrival taken, to prevent the escape of the garrison, I found no cause to direct any alteration in them. In the afternoon I proceeded with Captain Burgoyne, commanding the Artillery, who at my request officiated as Engineer, to make a reconnoisance of the south wall of the Pettah, and to examine the part that had been breached by Sir T. Munro in 1818. The old breach was found to have been built up, but not so strongly, but that in Captain Burgoyne's opinion it might be reopened by 9 pounders. The ditch was also discovered to have been partially filled up with rubbish. The enemy appeared on the walls and opened a fire during the reconnoissance, but without effect.

During the morning, the Light Company of the 7th Regiment N. I. under Captain Penny, aided by some Irregulars, attacked, and in the most gallant manner drove in an Arab Picquet which occupied the Hill on the extreme northern point of which the Fort of Runnamundal is built, thereby rendering the making the reconnoissance to which I have alluded more easy, as well as facilitating the throwing up a battery of 9 pounders to breach the wall, the place selected for which would otherwise have been completely commanded from the Hill.

On the morning of the 9th a Battery was thrown up about 600 yards to the South, and opposite to the old breach, the two 9 pounders and one 12 pound howitzer, were placed in position, the two former to effect the breach, and the latter to enfilade the west face of the Pettah Wall; at the same time two 8 inch Mortars were placed in an enclosure about 800 yards to the West of the Pettah, to shell occasionally the side on which the breach was being made. The Batteries opened about 11 A. M. and continued playing until past 2 P. M. when the breach was considered practicable; the probability of this having some time previously been reported to me, I ordered a Storming Party, consisting of 50 Europeans of Her Majesty's 4th Regiment and 100 Men of the 26th Regiment N. I. the whole under the command of Captain Otter, to which such Men of the Artillery as could be spared, were, by Captain Burgoyne, in his eager desire to share in every danger, and at the earnest request of his Soldiers, together with the Battery Guard, consisting of 40 Men of the 47th Regiment N. I. under the command of Lieutenant Pollard, subsequently added. The whole advanced between 2 and 3 P. M.

and mounted the breach: on arriving at the crest of it, they became exposed to a heavy fire from both the Hill Forts.

Having reason to believe that the Enemy finding that the breach was becoming practicable and despairing in consequence of holding the Pettah had retired to the Forts leaving the inhabitants to throw open the Gate; regarding which nothing like certain intelligence had reached me, until after arrangements had been made for the assault, for even subsequently to my being informed that I might enter them unopposed, and Horses had been brought out, a Gun was fired from the Wall near the Main Gate, in the direction of my Camp; the Grenadier Company of the 7th Regiment N. I., under the Command of Captain Scotland, was ordered by me to be placed under cover opposite the Gate, and on the advance of the Storming Party, to move on with caution towards it, and should he find it open, occupy it with a portion of his Company, detaching another portion to co-operate with the Storming Party at the breach. Captain Scotland having however ascertained that the Gates were open, advanced, and entered the Pettah before the Storming Party moved on. A severe fire was kept up on both the attacking Parties, immediately they entered the Pettah. The position of the Enemy in the Upper Fort was so strong and commanding, that the Troops could hardly, without suffering severely, shew themselves.

Simultaneous with the advance of the Storming Party, a sub-division from the Picquet on the Hill, on which the smaller Fort is situated, was ordered by me to make a demonstration against it, with a view of attracting a portion of its fire, which had the desired effect; but I regret to say, that in the advance, Captain Penny, of the 7th Regiment N. I. was severely wounded, and a Private of the same Corps killed—Captain Taylor, of the 47th Regiment N. I., was in Command of the Party, which consisted of Details of the Light Companies of the 7th and 47th Regiments.

The Pettah having been occupied, I directed, as the Enemy had secured themselves in the Upper Forts, that operations should for that day cease.

The next day the Enemy being divided, and confined to the two Upper Forts, it was resolved to open the Mortar Battery, on the smaller Fort to the South, which is the more commanding of the two; at the same time the Howitzer was carried up a steep Ghaut to the South, to act upon the Fort also.

The Mortar Battery was accordingly removed 400 yards nearer the Fort, and opened its fire about 11 A. M. the practice from it was so excellent, that the Garrison, about 2 o'clock called for terms, and about 5 P. M. together with that of the larger Fort surrendered themselves unconditionally. Darkness having come on before the whole were in our hands, and it being impossible to collect them during the night, the remainder were left in the Forts, which were strictly guarded. The next morning I in company with Mr. Bettington, the Magistrate, proceeded to secure them, when all as was then supposed (8 having been subsequently found who had secreted themselves) but four gave up their arms on their being demanded, but these a part of the Garrison of the smaller Fort positively for some time refused to do so, and it was only after long discussion, and so far yielding to them, as to allow them to carry them as far as the Camp, that they were induced to give them up, and even this was not effected, until Mr. Bettington, at their request, had ascended the Fort to re-assure them:—These Men are, I believe, Bedoins, and the only Men of that Tribe in the Garrison.

To the excellent practice from the Mortar Battery, 20 Shells out of 28 having fallen into a Fort of not more than 100 yards diameter, I attribute the early submission of the Garrisons of both; for although from their statements it would appear that one Man only out of 30 was wounded, yet they were so much harassed by the Shells, that they despaired of holding out.—To Captain Burgoyne I consider myself under great obligations, both for his exertions in his own department, and as an Engineer, the duties of whom he at my request most cheerfully undertook. I beg also to bring to the Major General's notice the conduct of Captains Scotland and Otter, who commanded the Parties which assailed the Pettah on the 9th instant; of Captain Penny of the 7th Regiment Native Infantry, who with the Light Company of his Regiment, drove in the Arab Picquet, on the morning of the 8th, and of Captain Taylor of the 47th Regiment Native Infantry, who commanded the Party, which, at the time of the assault of the breach, advanced on the smaller Fort from the Picquet on the Hill. The exertions of Captain Bayley, officiating as Staff Officer, and Surgeon Pollock, the Senior Medical Officer of the Force, have been unremitting, and are deserving of my best thanks. Enclosed is a copy of the order issued by me on the surrender of the Forts, which I request may be submitted to the Major General.

From Mr. Bettington, both since my arrival here, and also on the march, I have received every aid that it was in his power to give:—He and Mr. Davidson, accompanied as Volunteers the Party which assaulted the breach.

A portion of the money, taken by the Arabs from the Cutcherry, has been recovered.

A return of Casualties during the operation against the place is herewith forwarded.

The number of Prisoners taken amounts to 105.

I have, &c.

(Signed) N. JOHNSON, Major, 26th Regt. N. I.
Commanding Field Detachment.

Camp Badamee, 14th June 1841.

Extract from Orders issued by Major Johnson, Commanding Field Force, against Badamee, Camp Badamee, Friday, 11th June 1841.

1st.—The Commanding Officer congratulates the Troops under his Command, on the successful termination of their labours by the unconditional surrender, yesterday evening, of the Garrisons of both the Forts, and begs that all employed will accept his best thanks for the cheerfulness with which they have borne hard duty, and considerable privation, and for the gallantry they have on all occasions shewn when engaged with the Enemy. Major Johnson, particularly noticed the gallant manner in which the Light Company of the 7th Regiment N. I., under the Command of Captain Penny, drove in on the 8th instant the Enemy's Picquet on the Hill to the South of the Fort of Jugmundal. To Captains Scotland and Otter, who commanded the Parties which took possession of the Pettah on

the 9th instant, his best thanks are rendered for the manner in which they conducted their different attacks, and for the discipline afterwards preserved. To Captain Burgoyne, Commanding the Detachment of Artillery, he considers himself under great obligations both for the able manner in which he conducted the duties of his own department, and for his assistance as an Engineer. To the excellent practice from the Mortar Battery is mainly to be attributed the early submission of the enemy. The activity with which the party under Lieutenant Purvis carried the Howitzer up a steep Ghaut, and the quickness with which a fire was opened from it, did not pass unobserved. The party composed of Details of the Light Companies of the 7th and 47th Regiments Native Infantry, under the command of Captain Taylor of the latter Corps, performed well their part in advancing across the Hill on the Southern Fort during the assault of the breach, thereby distracting the Enemy's attention, and drawing off from the assaulting Party a portion of the fire.

FORT ST. GEORGE, 27TH JULY 1841.

No. 131 of 1841.—Doubts having arisen as to the intention of Government, in throwing open to Natives the new class of Medical Subordinates to be called Second Class Apprentices, the Right Honorable the Governor in Council is pleased to direct that the following explanation be announced in General Orders.

Hitherto the subordinate branch of the Medical Department has been divided into two distinct classes. The higher of which, consisting of Apothecaries and Assistant Apothecaries, has been open only to Europeans and East Indians. The lower class again, has been exclusively reserved for Natives, who are divided into 1st and 2d Dressers.

The candidates for the 1st class have been called Volunteers, and those for the 2d Native Medical Pupils.

The system having been found defective, a new class of Candidates for the superior appointments has been formed with the sanction of the Supreme Government. These are termed Second class Apprentices, and a pecuniary allowance has been assigned to them as an inducement to prosecute their studies in this grade, and thus to qualify themselves for the situation of Assistant Apothecary.

To this new rank of Second class Apprentices, Government, acting in the spirit of the Act of Parliament which declares that no Native of these territories "shall, by reason only of his religion, place of birth, descent, color, or any of them, be disabled from holding any place, office or employment under the said Company," have declared that Natives as well as East Indians and Europeans are eligible.

The Native community having thus been admitted to the initiatory grade of Apprentice, they will be eligible, after due probation and examination, to the superior ones of Assistant Apothecary and Apothecary.

The higher grades having thus been thrown open to Natives, the inferior appointments will be equally so to East Indians, and even to Europeans, if they should desire to avail themselves of such situations.

The Right Honorable the Governor in Council confidently hopes that the result of such a change will be to infuse new vigour into an important branch of the public service—to awaken emulation—to afford a timely stimulus to Native improvement generally, and to the introduction of Medical education among the better ranks of the Native community. The desire of the Government is to evince to *all* classes, that they must look to their own exertions, to the improvement of their minds, and the superiority of their talents, for the attainment of those advantages which arise from promotion in the service.

(Signed) S. W. STEEL, Lieut. Colonel,
Secretary to Government.

FORT ST. GEORGE, 27TH JULY 1841.

ACT No. XI. OF 1841.

An Act for consolidating and amending the Regulations concerning Military Courts of Requests for Native Officers and Soldiers in the Service of the East India Company.

I. It is hereby enacted, that all Regulations and parts of Regulations concerning Military Courts of Requests are repealed; provided always that nothing in this Act contained shall be held to alter or affect the jurisdiction of a single Officer duly authorized and appointed under the Rules in force in the Madras and Bombay Presidencies for the trial of small suits in Military Bazars at Cantonments and Stations occupied by the Troops of those Presidencies respectively, or the trial by Punchayet of suits against Military persons according to the Rules in force under the Madras Presidency.

II. And it is hereby enacted, subject to the aforesaid proviso, that within the territories of the East India Company actions of debt and other personal actions against Native Officers, Soldiers and other persons amenable to the Articles of War for the Native Forces in the Military Service of the East India Company, or residing within any Station or Cantonment, and carrying on any trade or business in a Military Bazar, shall be cognizable before a Military Court and not elsewhere, provided the value in question shall not exceed (200) two hundred Rupees, and the defendant was a person of the description abovementioned, when the cause of action arose, and when the suit was instituted. Provided that no suit shall be brought before any Military Court under this Act to determine any dispute of caste or concerning any right to real property.

III. And it is hereby enacted, that the Commanding Officer of any Station or Cantonment, or Officer Commanding any portion of Troops in the field, is authorized to convene such Military Courts. And such Courts shall be composed, according to the orders of the Commander in Chief for the time being of the Presidency within which the Station or Cantonment is situate, or, in the absence of such orders, according to the discretion of the Convening Officers, either of not less than three European Commissioned Officers, or of not less than three Native Commissioned Officers, and in the latter case, with an European Officer of not less than five years' standing, to superintend and record the proceedings. Provided that if there be not a sufficient number of Officers to constitute a Court at the Station or Cantonment where any cause of action may arise, or where the defendant may be residing, the suit shall be determined at the nearest Station or Cantonment where a Military Court can be duly constituted as aforesaid.

IV. And it is hereby enacted, that such Military Courts shall be convened monthly, and shall be holden on some convenient day before the issue of the pay for each month.

V. And it is hereby enacted, that the forms of proceeding in every such Court shall be conformable to the usages observed on trials before Courts Martial held for the Native Troops in the service of the East India Company as far as the same are applicable. And any such Court shall have the like power of summoning witnesses as is possessed by Courts Martial. Provided always, that every such Court shall have the power of examining the parties to any suit and of requiring or dispensing with their attendance at its discretion. And every such Court shall have the like power of taking the examination of absent parties and witnesses as is possessed by the Civil Courts of the East India Company, under Act No. VII. of 1841, provided that the depositions taken under a Commission issued by any Military Court of Requests shall be receivable in evidence before any such Court subsequently held; Provided also that Commissions may be issued by Military Courts of Requests under this Act pursuant to the provisions of No. VII. of 1841, notwithstanding the Courts to which the Commissions may be directed are not situate beyond the jurisdiction of such Military Courts.

And such record shall contain the substance of the evidence given and the nature of such evidence as may have been rejected on the ground of its not being legally admissible, or relevant, or on other grounds, and the same shall be signed by the Members of the said Court. And such record or a copy thereof shall, with as little delay as is practicable, after the conclusion of the proceedings, be transmitted by the European President, or Superintending Officer of every such Court to the Officer Commanding the Station or Cantonment.

IX. And it is hereby enacted, that where a demand shall exceed the amount of (200) two hundred Rupees, or where several separate demands shall exceed such amount, no more shall be recoverable from any one defendant by the same plaintiff or plaintiffs than the sum of (200) two hundred Rupees only—and the judgment in respect of any demand in a Court of Requests shall be a bar to the recovery of the same demand, or of any other or further demand for the same cause of action in any other Court whatever, provided that the liability accrued before the time of instituting the suit in the Military Court—and it shall be competent for every such Military Court to investigate any counterclaim alleged by any defendant. And it shall be competent for every such Military Court to allow the interest for money agreed on between the parties, provided the same does not exceed the usage of the country in ordinary money transactions. And every contract made after the passing of this Act upon which a demand for debt exceeding (20) twenty Rupees is founded, not being money due for goods bought and delivered, shall be in writing and expressed in the language of the defendant and signed by him, or on his behalf by some other person than the plaintiff Provided that it shall not be competent to any Court of Requests to admit any suit for a debt which has accrued upwards of six years, unless a direct promise to pay made within six years of the commencement of the suit be proved.

X. And it is hereby enacted, that on failure of either of the parties to a suit to attend either personally or by representative, or to produce his witnesses according as he shall be required by any Military Court of Requests, such Court on being satisfied that the party has been duly apprized of what is required of him, may proceed to the termination of the suit in his absence. And if the decree in any such case shall be against the plaintiff, it shall not be competent for him to commence a new suit for the same cause of action.

XI. And it is hereby enacted, that it shall be lawful for the Commanding Officer to whom the proceedings have been transmitted as aforesaid to return the same for revision either by the same or another Military Court of Requests. And in every such case the second decree shall be final, unless for error in points of law, when the same shall be transmitted to the Commander in Chief, who shall have power to annul the proceedings without prejudice to any future suit. Provided always that in the case of any new trial the Court may receive evidence which was not adduced at the first trial.

XII. And it is hereby enacted, that every plaintiff shall prefer his claim in writing and shall deliver the same to the Station Staff-Officer. The claims shall be entered in a Schedule by the Station Staff Officer, which Schedule is to be sent to Adjutants of Corps or Heads of Departments two days at least before the assembly of the Court, and the Adjutants or Heads of Departments shall be responsible that the defendants belonging to their respective Corps or Establishments have been duly summoned.

XIII. And it is hereby enacted, that every decree of any Military Court of Requests shall be published in the Station Orders before the same is executed.

XIV. And it is hereby enacted, that the execution of decrees of Military Courts of Requests may be either general or special, according to the sentence of the Court. Provided always that the Commanding Officer may, notwithstanding the direction of the Court, order that the execution shall be general or special at his discretion.

XV. And it is hereby enacted, that in cases in which the execution is to be general, the debt if not paid forthwith, shall, under the authority of the Commanding Officer in writing to be signed by him, be levied by seizure and public sale of such of the Debtor's Goods (under which term are included houses or other erections within the limits of Stations and Cantonments) as may be found within the limits of the Station or Cantonment, or elsewhere; and if sufficient Goods are not to be found, the debtor, if not a Soldier, shall be arrested and imprisoned in any Civil Gaol near to the Station or Cantonment, (for which purpose the provisions of Act No. II of 1840 shall be applicable) or in any other convenient place of confinement situate within the limits of the Station or Cantonment, for the space of two months, unless the debt be sooner paid, and his Goods, if found within the limits of the Station or Cantonments or elsewhere at any subsequent time, shall be liable to be seized and sold in satisfaction of the debt. And if the debtor be a Soldier and the debt be not liquidated by sale of his Effects, Accoutrements and Necessaries excepted, an order may be issued for payment of the residue by monthly deduction from the pay issued to the debtor under the Rules which follow.

XVI. And it is hereby enacted, that where the execution is to be special, the debt shall be satisfied out of the pay and allowances of the debtor and not otherwise. And a certificate of the decree and direction or order thereon certified under the hand of the Commanding Officer and signed by him, shall be a sufficient authority for making such stoppages. Provided always that no more than one half of the pay and allowances of any Commissioned Officer, or than one fourth of the pay and allowances of any Non-Commissioned Officer or Soldier shall be stopped in any one month.

XVII. And it is hereby enacted, that in places beyond the Frontier of the Territories of the East India Company, actions of debt and other personal actions may be brought before such Military

Courts as aforesaid against persons so amenable as aforesaid for any amount of demand: Provided that such Military Courts beyond the Frontier shall be composed of European Officers—and provided, that if the amount of claim shall exceed (200) two hundred Rupees, an appeal shall lie to the Court of Sudder Adawlut of the nearest Presidency according to the rules in force with regard to appeals from subordinate Civil Courts.

XVIII. And it is hereby enacted, that this Act shall not affect the proceedings upon any suit heretofore commenced or which shall be commenced before the tenth day of August next.

GENERAL ORDERS

By Major General Sir Robert H. Dick, K. C. B. & K. C. H. Commanding the Army in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, 23*d August* 1841.

The following General Order issued by His Excellency the Commander in Chief at Bombay, is published for the general information of this Army.

GENERAL ORDERS. HEAD QUARTERS:
BY THE COMMANDER IN CHIEF. POONA, 9*th July* 1841.

At a General Court Martial assembled at Asseerghur, on Monday the 14th day of June 1841, and of which Major H. Cracklow of the 22d Regiment Native Infantry, is President, Lieutenant Henry John Brockman, Quarter-master and Interpreter of the 20th Regiment Madras Native Infantry, was tried on the following Charges, viz:

I Charge Henry John Brockman, Lieutenant and Quarter-master of the 20th Regiment Madras Native Infantry, with conduct to the prejudice of good order and military discipline, on the following Charges.

1*st Charge*.—1st Instance. Having at Asseerghur, on the 22d of April 1841, in consequence of having received a message through John Pigott, Quarter Master Serjeant 20th Regiment Native Infantry, from me, his Commanding Officer, directed the said Quarter Master Serjeant never again to convey any message to him from Major Plowden, thereby manifesting personal disrespect to me, contempt of my authority, and a spirit of gross insubordination

2*d Instance*.—Having at the same time and upon the same occasion, with a view to intimidate the said Serjeant from the execution of his duty, threatened that in case of his attempting to deliver any such message, he would do so at his own peril, and should be brought to account and punishment.

3*d Instance*.—Telling the aforesaid Serjeant, on the same occasion, and also in a conversation which took place at Lieutenant Brockman's Quarters on the 26th instant, that he was to obey his, Lieutenant Brockman's orders, and no other persons, evidently with allusion to my orders, as Commandant.

4*th Instance*.—Using highly indecorous and disrespectful language on the same occasion before the said Serjeant, viz. That the Commanding Officer of the 7th Regiment had never ventured to send him any message through a Serjeant, or had he done so, he would have made him smart for it, or words to that effect, thereby insinuating that as Quarter Master, he possessed a controlling authority over his Commandant.

2*d Charge*.—For disobedience in the above instances, of the Regimental Order dated 23d June 1840, of which the following is an extract. "The Commanding Officer regrets being compelled to "notice the attempts lately made to introduce a system into the Regiment, not merely of thwarting "his orders, but even of curtailing his authority, by subjecting it to the confirmation of Officers Com- "manding Companies, a system replete with mischief, and calculated altogether to sap the foundation "of military discipline. The Commanding Officer now publicly warns every Officer in the Regiment, "that if he detects any one of them lending himself to such practices, or inculcating on the minds of "their junior European Officers, or of the Natives, any such insubordinate principles, he will forth- "with place him in arrest, and leave him to make his explanation before a Court Martial."

3*d Charge*.—For galloping about the Parade at Asseerghur, on the morning of the 5th of April 1841, while the Regiment was at exercise, in a non-military or fancy dress, although he was at the time on duty as Officer of the day, in defiance of paragraph seven, Section 16 of the standing orders, thereby setting an example of irregularity both to men and officers.

4*th Charge*.—For conduct unbecoming a Regimental Quarter Master, in having wantonly, negligently, or ignorantly, and contrary to my repeated injunctions, and paragraph 118, of Section 12 of the standing orders, cut, or allowed to be cut, and otherwise damaged, 133 new Bayonet Belts, which by the paragraph referred to, are never to be cut.

5*th Charge*.—For having frequently between the 8th and 28th of February, 14th and 24th of March, 1st and 26th of April 1841, applied the time and labor of the regimental artificers at Asseerghur, to his private purposes, to the delay and hindrance of the public work.

The above being in breach of the articles of war.

(Signed) F. PLOWDEN, Major,
Commanding 20th Regiment M. N. I.

Asseerghur, 30*th day of April* 1841.

Adjutant General's Office, Head Quarters, Mahableshwar, 12*th May* 1841.

By order of His Excellency the Commander in Chief,
(Signed) STRATFORD POWELL, Lieut. Col.
Adjutant General of the Army.

Upon which charges the Court came to the following decision:

Finding.—The Court having maturely weighed and considered all that has been adduced in support of the prosecution, as well as what has been brought forward on the defence, are of opinion, that the prisoner Lieutenant and Quarter Master Henry John Brockman of the 20th Regiment Madras Native Infantry,

Is not guilty of the First Instance of the First Charge.
Is not guilty of the Second Instance of the First Charge.
Is not guilty of the Third Instance of the First Charge.
Is not guilty of the Fourth Instance of the First Charge.

Is not guilty of the Second Charge.

Is not guilty of the Third Charge—but that he did appear on the road in the neighbourhood of the parade, when the Regiment was at exercise on the morning of the 29th March, (and not on the 5th of April, as stated in the charge) in a non-military dress when on duty, but the Court are of opinion that as the prisoner was spoken to at the time, by the Commanding Officer's order, and afterwards by the Adjutant, that it ought to be, and was considered disposed of.

Is not guilty of the Fourth Charge.

Is not guilty of the Fifth Charge.

Sentence.—Under the foregoing finding, the Court does most fully and honorably acquit the prisoner Lieutenant and Quarter Master Henry John Brockman, of all and every portion of the charges exhibited against him.

Officiating Judge Advocate.

(Signed) H. CRACKLOW, Major,
22d Regiment N. I. and President.

Confirmed.

(Signed) THOS. McMAHON, Lieut. Genl.
and Commander in Chief.

Remarks by the Commander in Chief.

In giving my general approval and confirmation to the finding of the Court on this trial, I consider it necessary to offer some remarks on what appears on the first instance of the first charge.

On the point therein set forth, I feel it my duty to observe, that although Major Plowden acted unusually, and injudiciously, in sending a verbal message of reprehension to the Quarter Master of the Regiment, through the Serjeant who was immediately subordinate to that Officer, it was notwithstanding, decidedly improper and disrespectful in Lieutenant Brockman to return to his Commanding Officer through the same unfit channel, even the qualified answer which he admits, "that he would "not receive any message reflecting on his conduct."

Lieutenant Brockman, an Officer of thirteen years Service, could not, and ought not, to have been ignorant of the regular and becoming mode of acting, if he considered himself aggrieved.

Much irrelevant matter has been admitted on the proceedings, but this perhaps from the nature of the charges could not have been wholly avoided.—The Court however, ought not to have permitted the prosecutor to advert in a criminatory manner, to persons and circumstances wholly unconnected with the subject under investigation.

The Court has clearly disbelieved the testimony of Quarter Master Serjeant Pigott, and the conduct of that Non-commissioned officer appears in so unfavorable a light, as to render it incumbent that it should be made the subject of judicial investigation, and the Officer Commanding the Fortress of Asseerghur, will adopt measures to bring him to trial on charges to be preferred by Lieutenant Brockman.

(Signed) THOS. McMAHON, Lieut. General,
and Commander in Chief.

Lieutenant H. J. Brockman, of the 20th Regiment Madras Native Infantry, is to be released from arrest and ordered to return to his duty.

The General Court Martial assembled at Asseerghur on the 14th day of June 1841, and of which Major H. Cracklow of the 22d Regiment Native Infantry is President, is dissolved.

By order of His Excellency the Commander in Chief,

STRATFORD POWELL, Lieut. Colonel,

GENERAL ORDERS.

HEAD QUARTERS: CHOULTRY PLAIN,

25TH AUGUST 1841.

The following General Orders by the Right Honorable the Governor in Council having been addressed to the Officer Commanding the Army in Chief, Major General Sir R. Dick has much gratification in publishing to the Army the sentiments expressed by the highest authorities in India upon a series of brilliant operations in which the Artillery, Sappers and Miners, and 37th Regiment N. I. of this Presidency have contributed to success which is so honorable to the united services engaged.

Upon Captain Duff 37th Regiment N. I., Captain Anstruther of the Artillery, and Lieutenant and Brevet Captain Cotton of the Engineers has devolved the honor of Commanding in their respective Corps those Officers and Men who have so creditably upheld the established reputation of the Army to which they belong.

The Major General notices with much pleasure the praise that has been bestowed upon the steady bravery of the C. Company 37th Regiment N. I. under command of Lieutenant Hadfield, who with Lieutenant Devereux, Ensign Berkely, Subadar Shaik Homed and a band of 66 brave Non-commissioned and Sepoys repulsed the repeated attacks of superior numbers of Chinese.

General Orders by the Right Honorable the Governor in Council.

FORT ST. GEORGE, 20TH AUGUST 1841.

No. 148 of 1841.—The Right Honorable the Governor in Council, in promulgating to the Army of this Presidency the following Notification in the Secret Department by the Right Honorable the Governor General of India in Council, has much gratification in publishing at the same time a despatch to the address of His Lordship from Major General Sir Hugh Gough, K. C. B. Commanding the Forces in China. The high testimony, borne by so distinguished an Officer to the Soldierly qualities of the detachments of Madras Troops which have the good fortune to be employed on Service in China, will be as gratifying to the Army at large, as it is honorable to those upon whom the well-merited praise has been bestowed.

The Right Hon'ble LORD ELPHINSTONE, G. C. H. *&c. &c. &c.*
Madras.

Head Quarters, Ship Marion, Off the Bocca Tigris, June 6, 1841.

MY LORD,

My public despatch to the Governor General will communicate the operations of this Force before Canton from the 24th May to the 1st of June, but I cannot permit that despatch to go forward without conveying to your Lordship, as head of the Government of Madras, the high sense I entertain of the gallantry and exemplary conduct of that portion of the Madras Army, which forms a part of this Force.

The practice of the two Companies of the Madras Artillery was most creditable, and their indefatigable exertions in getting the Guns and Ammunition to the heights called for my best thanks. I feel it a duty to assure your Lordship that Captain Anstruther and every Officer, Non-Commissioned Officer and Lascar most creditably did their duty.

To Captain Cotton, Senior Engineer Officer, my best thanks are due, and it has afforded me no small gratification to record these sentiments in my public despatch, as also the expression of my thanks to every Officer of Engineers present, from whom I received the most ready assistance. The two Companies of Sappers merited and received my warmest approval.

I feel peculiar pleasure in bringing to your Lordship's notice the spirited and steady conduct of the three Companies of the 37th M. N. I. under Captain Duff. It fell to the lot of one Company under Lieutenant Hadfield to display these qualities in the most praiseworthy manner. Having become disengaged and unable to rejoin his Corps during a violent thunder-storm, he was surrounded by some thousand Chinese Militia, and maintained his ground, although from the heavy fall of rain the men's arms would not go off, until reinforced by two Companies of the Royal Marines with the percussion locks.

Lieut. Hadfield speaks very highly of the cheerful assistance he received from Lieut. Devereux and Ensign Berkeley, the latter of whom I regret to say was severely wounded. This Company had 2 Sepoys killed, 1 Officer, 1 Havildar, 9 Sepoys and 1 Bhistie wounded.

I have, &c.

(Sd.) H. GOUGH, Major General,
Comg. Expedy. Force.

NOTIFICATION.

FORT WILLIAM, SECRET DEPARTMENT, *the 7th August* 1841.

The Right Honorable the Governor General of India in Council having this-day received intelligence of the happy result of the joint operations of Her Majesty's and the Honorable Company's Naval and Military Forces in an attack upon the Chinese Forces in front of the City of Canton on the 25th and 30th of May last, is pleased to direct the publication for general information of the following Despatch from Major General Sir Hugh Gough, K. C. B., Commanding the land forces, and extracts from a Despatch addressed by Captain Sir Henry Le Fleming Senhouse, K. C. H., the Senior Naval Officer of the Fleet at Canton, to His Excellency the Naval Commander in Chief in India, which has been communicated to the Supreme Government.

These accounts of the brilliant successes of the British Arms have been received with the highest gratification by the Governor General in Council, who, in expressing his admiration of the gallant conduct of every portion of the forces employed in this Service, has deeply to lament the loss which has been sustained by the death of Captain Sir H. Le Fleming Senhouse, who is reported to have subsequently sunk under the fatigue and exhaustion caused by his exertions in the actions with the Chinese.

The Governor General in Council is pleased to direct that in honor of this Victory of the British Arms a Royal Salute be fired from the ramparts of Fort William, and at the principal Military Stations of the Army of India.

By order of the Right Honorable the Governor General of India in Council.

(Sd.) T. H. MADDOCK,
Secy. to Govt. of India.

The Right Honorable the EARL OF AUCKLAND, *G. C. B.*,
Governor General, &c. &c. &c.

Head Quarters, Ship Marion, Canton River, proceeding to Hongkong, June 3, 1841.

MY LORD,—My letter of the 18th from Hongkong will have made your Lordship aware of the temporary abandonment of the movement on Amoy, in order to resume active operations against Canton, consequent upon the constant arrival and concentration of a large force from the several provinces, and other demonstrations indicative of an interruption to our friendly intercourse with the Provincial Government.

2. From the judicious and unwearied exertions of Sir Le Fleming Senhouse, the Senior Naval Officer, the Fleet of Men-of-War and Transports was prepared to sail on the 18th, but in consequence of light and variable winds, the whole did not get under weigh until the 19th. H. M. S. *Blenheim* took up her position within six miles of Canton in the Macao passage on the 21st ultimo, but the whole of the force was not assembled until the morning of the 23d, when I proceeded with Sir Le Fleming Senhouse to the vicinity of the suburbs of the City, for the double object of meeting H. M. Plenipotentiary and ascertaining, as far as possible, the extent of the enemy's preparations.

3. It being the anxious wish both of Sir Le Fleming Senhouse and myself to commence active operations on so auspicious an epoch, as the anniversary of the birth of our Sovereign, every exertion was made and the Troops were placed by 2 P. M. on that day in various craft, procured during the previous day and night by the great exertions of the Royal Navy.

4. From all the sources, from which I had been enabled to collect information, or rather from the conjectures of persons who have long resided in China, (for no European had been permitted to see the country above the factories, and the Chinese would give no information) I was induced to decide on making my principal point of debarkation to the North West of the City, while another column was to take possession of the factories, drawing the attention of the enemy to that quarter, and at the same time to co-operate with the Naval force which was to attack the river defences, in order to silence numerous new works recently erected by the Chinese along the whole southern face of the City. A most spirited and judicious reconnoissance made by Captain Belcher, of H. M. S. Sulphur, the previous evening, established the practicability of effecting a landing at the point I had selected.

5. Every arrangement having been completed by two o'clock, and the boats and other craft placed in tow of the Steamers, the force moved to the point of attack as follows:—

Right column, to attack and hold the Factories, in tow of the *Atalanta*, consisting of Her Majesty's

Officers.	*Other ranks.*	
15	294.	26th Regiment, as per margin, an Officer and 20 rank and file of the Madras Artillery, with one 6-pounder and one 5½-inch mortar, and 30 Sappers, with an Officer of Engineers, under Major Pratt, of H. M. 26th.

Left column—towed by the *Nemesis*, in four Brigades, to move left in front.

		Officers.	Other ranks.
4th (Left) Brigade under Lieut.-Colonel Morris, 49th Regiment.	H. M. 49th, commanded by Major Stephens,	28	273
	37th M. N. I. Capt Duff,	11	219
	One Company Bengal Volunteers, Capt. Mee,	1	114
3d (Artillery) Brigade under Capt. Knowles, R. A.	Royal Artillery, Lt. Spencer,	2	33
	Madras Artillery, including Gun Lascars, Captain Anstruther, Sappers and Miners, Captain Cotton,	10	231
		4	137

Ordnance: 4 12 pounder Howitzers—4 9 pounder Field Guns—2 6 pounder ditto—3 5½ inch Mortars—1 32 pounder Rockets.

2d Naval Brigade under Capt. Bourchier, H. M. S. Blonde.	1st Naval Battalion, Capt. Maitland, H. M. S. Wellesley,	11	172
	2d Naval Battalion, Commander Barlow, H. M. S. Nimrod,	16	231
1st (Right) Brigade, (Reserve) Under Major Genl. Burrell.	Royal Marines, Capt. Ellis,	9	372
	18th Royal Irish, Lt. Col. Adams,	25	494

6. The right column reached its point of attack before 5. P. M. and took possession of the factories, when Major Pratt made the necessary arrangements for strengthening his post, holding his men ready for offensive or defensive operations.

7. The left column, towed by the *Nemesis*, from the difficulties of the passage, with such a fleet of craft as she had in tow, did not reach the Sulphur until dusk, which vessel Captain Belcher had judiciously anchored close to the village of Tsing-hae, the point of debarkation about five miles by the river line above the factories. I could therefore only land the 49th Regiment, with which corps I made a reconnoissance to some distance, meeting a few straggling parties of the enemy. After placing the picquets, the Corps fell back on the village of Tsing-hae to protect and cover the landing of the guns, which was effected during the night by the zealous efforts of the Artillery. The following morning, the remainder of the column landed, and the whole proceeded soon after daylight.

8. The heights to the North of Canton, crowned by four strong forts, and the City walls, which run over the southern extremity of these heights, including one elevated point, appeared to be about three miles and a half distant: the intermediate ground, undulating much, and intersected by hollows under wet paddy cultivation, enabled me to take up successive positions, until we approached within range of the forts on the heights and the Northern face of the City walls. I had to wait here some time, placing the men under cover, to bring up the Rocket Battery and Artillery.

9. I have already informed your Lordship that I was totally unacquainted with the country which I had to pass over, the amount of the Enemy's force, or the difficulties that might present themselves at every step; but I had the proud consciousness of feeling that your Lordship had placed under me a band, whom no disparity of numbers could dishearten, and no difficulty could check. They nobly realized, by their steadiness under fire, their disciplined advance and their animated rush, my warmest anticipations.

10. Having at 8 o'clock got up the Rocket Battery, with two 5½ inch mortars, two 12 pounder howitzers and two 9 pounder guns, a well directed fire was kept up on the two Western forts, which had much annoyed us by a heavy fire. I now made the disposition for attack in Echellon of columns from the left, and directed the 49th Regiment to carry a hill on the left of the nearest Eastern fort, supported by the 37th Madras Native Infantry and Bengal Volunteers, under Lieutenant Colonel Morris of the 49th Regiment. The 18th Royal Irish, supported by the Royal Marines, under Major General Burrell, I directed to carry a hill to their front, which was strongly occupied and flanked the approach to the fort just mentioned. This movement was to cut off the communication between the two Eastern forts, and cover the advance of the 49th in their attack and storm of the nearest. Major General Burrell had directions to push on and take the principal square fort, when the 49th made their rush. Simultaneous with these attacks, the Brigade of Seamen was to carry the two Western forts, covered by a concentrated fire from the whole of the guns and rockets.

11. During the whole of the advance, my right had been threatened by a large body of the enemy, which debouched from the Western suburbs, and just as I was about to commence the attack, a report was made that heavy columns were advancing on the right. I was therefore compelled to detach the Marines under Captain Ellis, to support the Brigade of Seamen, and to cover my right and rear.

12. At about ½ past 9 o'clock, the advance was sounded, and it has seldom fallen to my lot to witness a more soldier-like and steady advance or a more animated attack. Every individual, Native as well as European, steadily and gallantly did his duty. The 18th and 49th were emulous which should first reach their appointed goals; but, under the impulse of this feeling, they did not lose sight of that discipline which could alone insure success. The advance of the 37th M. N. I. and Bengal Volunteers, in support, was equally praiseworthy.

13. The result of this combined movement was that the two Forts were captured with comparatively small loss, and that, in little more than half an hour after the order to advance was given, the British Troops looked down on Canton within 100 paces of its walls.

14. The well-directed fire of the Artillery in the centre was highly creditable, and did great execution.

15. In co-operation with these attacks, I witnessed with no ordinary gratification, the noble rush of the Brigade of Seamen under their gallant leader, Captain Bourchier, exposed to a heavy fire from the whole of the north-western rampart. This right attack was equally successful, and here also the British Standard proudly waved on the two western Forts, while the British Tars looked down upon the north-western face of the city and its suburb.

16. During the greater part of the day, a very spirited fire from heavy pieces of Ordnance, Ginjals and Matchlocks, was kept up on the different columns, occupying the heights and forts.

17. A strongly entrenched camp of considerable extent, occupied apparently by about four thousand men, lay to the N. East of the city upon rising ground, separated by a tract of paddy land from the base of the heights. Frequent attacks were made upon my left by bodies sent from this encampment, but were as frequently repulsed by the 49th. This, however, exposed the men to a heavy fire from the walls of the city.

18. About 2 o'clock, perceiving that Mandarins of consequence were joining this force from the city, and had occupied a village in rear of my left, I directed the 49th to dislodge them. This was instantly effected in the same spirited manner that had marked every movement of this gallant corps. About 3 o'clock, it was evident that some Mandarin of high rank had reached the encampment, (I have since understood that it was Yang, the Tartar General) and that preparations were making for a fresh attack. I ordered down the 18th, therefore, with one Company of the Royal Marines to reinforce the 49th, and directed Major General Burrell to assume the command, to repel the projected attack and instantly to follow up the enemy across a narrow causeway, the only approach, and take and destroy the encampment. This duty was well and gallantly performed, but I regret to say with rather severe loss from the difficulty of approach, exposed to a heavy fire from the guns and ginjals on the N. E. face of the City wall. The enemy were driven at all points and fled across the country;

the encampment was burnt, the Magazines, of which there were several, blown up, and the permanent buildings of considerable extent set on fire. I had as much pleasure in witnessing, as I have in recording, my approval of the spirited conduct of Captain Grattan, who commanded the two leading Companies of the 18th, across the causeway. These Companies were closely followed by the 49th, the remainder of the 18th and Company of Royal Marines, who passed along a bank of the paddy fields to their left. The enemy not appearing inclined to move out of the Town to support this point, I directed the force to return to the heights.

19. Having reconnoitred the walls and gates, I decided on taking the City by assault, or rather upon taking a strong fortified height of considerable extent within the City wall, before the panic ceased, but the hill in our rear being peculiarly rugged, and its base difficult of approach on account of the narrowness of the path between wet paddy fields, I had only been enabled to get up a very few of the lightest pieces of Ordnance, and a small proportion of ammunition. I therefore deemed it right to await the arrival of this necessary arm to make the assault.

20. The following morning, the 26th, at 10 o'clock, a Flag of Truce was hoisted on the walls, when I deputed Mr. Thom (whom Captain Elliot had sent to me as Interpreter,) to ascertain the cause. A Mandarin stated that they wished for peace. I had it explained that, as General Commanding the British, I would treat with none but the General Commanding the Chinese troops—that we came before Canton much against the wishes of the British nation, but that repeated insults and breaches of faith had compelled us to make the present movement, and that I would cease from hostilities for two hours to enable their General to meet me and Sir Le Fleming Senhouse, who kindly accompanied me throughout the whole operation, and to whose judicious arrangements and unceasing exertions for the furtherance of the united services (and I am proud to say they are united in hand and heart,) I cannot too strongly express my sense of obligation. I further explained that Captain Elliot, Her Majesty's Plenipotentiary, was with the advanced squadron to the south of the City, and that if I did not receive a communication from him, or had not a satisfactory interview with the General, I should, at the termination of the two hours, order the white flag to be struck.

21. As the General did not make his appearance, although numerous messages were received between this time (about noon) and 4 p. m., I hauled down the white flag. The enemy however did not, which was rather convenient, as it enabled me to get up my guns and ammunition, without exposing my men to fire.

22. During the night of the 26th every thing was prepared on our side, with the exception of one 12 pounder howitzer, the carriage of which had been disabled, the guns, by the indefatigable exertion of the Officers and men of the Royal Artillery and Madras Artillery and Sappers, were placed in position. All was ready, and the necessary orders were given for opening the batteries at 7 o'clock on the morning of the 27th, and for the assault at 8, in 4 columns.

23. The right column, composed of the Royal Marines under Captain Ellis, had directions to pass through a deserted village to the right of the north gate, to blow the gate open with powder bags if possible, and if not, to escalade a circular work thrown up as a second defence to that gate.

24. The second column on the right, consisting of the Brigade of Seamen, under Captain Bourchier, was directed to make the assault by escalade on the opposite side of the circular defence, where the wall appeared comparatively low, covered by a heavy fire of musketry from the hill within pistol shot of the walls. This column would have been exposed only to the fire of a few flanking guns, which I calculated would have been kept under by the fire of the covering party.

25. The 18th Royal Irish, under Lieutenant Colonel Adams, were ordered to advance from the rear of a hill close to the five storied Pagoda, and to escalade the walls behind this Pagoda, (which was not flanked except by one gun) although they were very high, from 28 to 30 feet, but I hoped by the concentrated fire of the guns to have reduced an exceedingly high and apparently slight parapet. The escalade of this Corps was to be covered by the Bengal Volunteers and a Company of the 37th M. N. I.

26. The left assault was to be made by the 49th, under Lieut. Colonel Morris. This Corps was directed to escalade by a bastion directly in front of and commanded by the principal fort in our possession, called by the Chinese Yung-Kang-Tai, the fire of musketry from which would have prevented the enemy from making use of their guns. To strengthen this attack, two Companies of the 37th M. N. I. were to occupy the heights and keep up a rapid fire upon the wall.

27. The ground was peculiarly favorable for these several attacks, and for the effective fire of the covering parties without a chance of injuring the assailants. The heights which we occupied are from 90 to 250 paces from the city wall, with a precipitous glen intervening. On making a lodgement on the walls, each column was to communicate with and support that on its inner flank, and when united, to make a rush for the fortified hill within the walls, on which the Artillery was directed to play from the moment the advance was sounded. I directed Captain Ruewles to ascertain, as far as practicable, by the fire of heavy rockets and shells, whether it was mined, which alone I apprehended—the Chinese usually forming their mines so as to make them liable to explosion by such means.

28. The flags of truce still appeared upon the walls at day-light on the 27th, and at quarter past six o'clock I was on the point of sending the Interpreter to explain that I could not respect such a display, after my flag had been taken down, and should at once resume hostilities. At this moment, an Officer of the Royal Navy, who had been travelling all night, having missed his way, handed me the accompanying letter from H. M.'s Plenipotentiary. Whatever might be my sentiments, my duty was to acquiesce—the attack, which was to have commenced in 45 minutes, was countermanded, and the feelings of the Chinese were spared. Of the policy of the measure, I do not consider myself a competent judge; but I say feelings, as I would have been responsible that Canton should be equally spared, with exception of its defences, and that not a soldier should have entered the Town further than the fortified heights within its walls.

29. At 10 o'clock, Yang, the Tartar General, requested a conference, when Sir Le Fleming Senhouse accompanied me, and a long and uninteresting parley ensued, in which I explained that H. M. Plenipotentiary having resumed negotiations with the local authorities, I should await a

further communication from him. At 12, Capt. Elliot arrived in camp, and all further active operations ceased.

30. The following day at 12, in a conference with the Kwang-chow-foo, under the walls, every arrangement was made for the evacuation of the city by as large a portion of the Tartar troops as could be got ready, and I permitted a Mandarin of rank to pass through my lines to procure quarters for them. I was now given to understand that the force amounted to 45,000 men from other Provinces, exclusive of the Troops belonging to the Quang-tung Province. At the request of Capt. Elliot, I acquiesced in the former passing out of the N. E. gate to the left of my position, and permitted them to carry away their arms and baggage, on condition that no banner should be displayed or music sounded.

31. About 12, the following day, I perceived numbers of men, apparently irregulars, and armed for the most part with long spears, shields and swords, collecting upon the heights, 3 or 4 miles to my rear. As they continued rapidly to increase, detaching bodies to their front, I directed General Burrell to take charge of our position, and hold every man ready in case a sortie or other act of treachery under cover of a flag of truce should be intended; and I advanced with a wing of the 26th, (which Corps I had withdrawn two days previously from the factories,) 3 Companies of the 49th, the 37th Madras N. I., and the Company of Bengal Volunteers, supported by the Royal Marines. The two latter Corps I kept in reserve, ready to return, and act on the flank, should an attack be made on our position from the Town. When I descended the heights, about 4,000 men appeared in my front. I directed the wing of the 26th, under Major Pratt, supported by the 37th M. N. I. to advance and drive them from rather a strong position they had taken up behind an embankment along the bed of a stream. This duty the 26th and 37th performed most creditably, and as the Chinese made a rally at what appeared to be a Military post in my front, I directed that it should be destroyed, which was instantly effected by the 26th, and a magazine, unexpectedly found in the village, blown up. These duties having been performed without the loss of a man, the Chinese throwing away their spears, and flying the moment a fire was opened upon them, I directed the 49th, Royal Marines and Bengal Volunteers to fall back on our position, and remain with the wing of the 26th and 37th M. N. I., (about 280 men) to watch the movements of the Chinese, who had retreated to a range of heights in my front, having no banners, and apparently but few matchlocks amongst them. Within two hours however, from 7 to 8,000 men had collected and displayed numerous banners. When I first moved, I had ordered Captain Knowles, of the Royal Artillery, to bring out a few rockets, but our advance was so rapid that he did not get them up, until after the repulse of the first body.

32. At this moment, the heat of the sun was hardly supportable, and both Officers and men were greatly exhausted. I must here state, and with sincere sorrow, that Major Becher, Deputy Quarter Master General, a most estimable and willing Officer, whose services throughout the previous operations were as creditable to him, as they were satisfactory to me, fell by my side from over-exertion, and expired within a few minutes. My Aid-de Camp, Captain Gough, was also alarmingly unwell from the same cause, and I ordered him back to camp, when the enemy were repulsed, but hearing that the Chinese were again assembling, he returned, and meeting the Bengal Volunteers, very judiciously brought them back.

33. The Chinese having advanced in great force, some rockets were fired at them, but although thrown with great precision, appeared to have little effect, and as the approach of a thunder storm was evident, I became anxious, before it broke, to disperse this assemblage, whose approach bespoke more determination than I had previously witnessed. I ordered Major Pratt to attack a large body who were advancing through the paddy fields on his left, and to clear the hills to his front. Captain Duff, with the 37th M. N. I., supported by the Bengal Volunteers under Capt. Mee, I ordered to advance direct to his front, and dislodge a body, which had re-occupied the post, that we had previously burned, and then push forward and clear the hills to his front. I witnessed with much satisfaction the spirited manner in which these Officers executed my orders, and the enemy were driven in at all points. The right of the 37th being threatened by a military post at the foot of the hills to our right, the Bengal Volunteers dispersed the occupants. This however separated them from the 37th M. N. I., and perceiving that this latter corps was advancing further than I intended, I requested Captain Ommaney, of the 3d Madras Light Cavalry, (who with Lieutenant Mackenzie of H. M. 90th Regiment accompanied me as amateurs,—and both were most zealous and useful in conveying my orders) to direct the Bengal Volunteers to move up to its support. Captain Duff meanwhile, to open his communication with the 26th on his left, had detached a Company, under Lieutenant Hadfield for that purpose.

34. The thunder storm was now most awful, and finding that as our men advanced, the Chinese retired, I considered that it would be injudicious to follow them further, and directed the whole to fall back. The rain continued to fall in torrents, and most of the firelocks had got wet; at one time the 26th had been unable to fire a single musket, this emboldened the Chinese who, in many instances, attacked our men hand to hand, and the 26th had frequently to charge bodies that advanced close to them.

35. As the Chinese, even in this mode of warfare, could make no impression, they retreated, and the 26th and 37th M. N. I. and Bengal Volunteers fell back. Understanding from Captain Duff that his detached company was with the 26th, I directed the whole, after a short halt, to return to our position, and was exceedingly annoyed, on the force concentrating, to find that the detached company, under Lieutenant Hadfield, had never joined the 26th. I immediately ordered two Companies of Marines with the percussion locks to return with Captain Duff to the scene of this day's contest. It gives me no ordinary gratification to say that a little after dusk, they found Lieutenant Hadfield with his gallant company in square surrounded by some thousand Chinese, who, as the 37th firelocks would not go off, had approached close to them. The Sepoys, I am proud to say, in this critical situation, nobly upheld the high character of the Native Army,

by unshrinking discipline and cheerful obedience, and I feel that the expression of my best thanks is due to Lieutenant Hadfield and to Lieutenant Devereux, and Ensign Berkeley, who zealously supported him during this trying scene. The last named Officer, I regret to say, was severely wounded. The Marines with Captain Duff, fired a couple of vollies into this crowd, which instantly dispersed them with great loss.

36. At daylight the next morning I felt myself called upon to send into the city and inform the Kwang-chow-Foo, that if, under existing circumstances, a similar insult was offered, or any demonstration made, indicative of hostile interruption to the negotiations pending under a flag of truce for the evacuation of the City by the Chinese Troops and a ransom for its deliverance, I would at once haul down the white flag and resume hostilities. At 12, Captain Elliot joined me, and a communication was received that the Kwang-chow-Foo would meet us under the walls. Previous to his arrival, vast numbers of Chinese appeared on the hills from which we had driven them the night before, and which during the early part of the morning had been clear. Guns and Gingalls were fired in all directions, various banners displayed, and large parties thrown out in advance. About 7,500 Tartar Troops had marched out of the City that morning and were still moving with their arms, but, as stipulated, without music or banners. I felt some doubt whether treachery was not contemplated, and I therefore made such a disposition of our Troops, as to ensure its defeat. By 2 o'clock from 12 to 15,000 men, evidently the same description of force, that we had met the preceding day, had assembled on the same heights.

37. The Kwang-chow-Foo now arrived, and it became evident, as he was perfectly in my power, that no combination existed between the Troops in the Town or those marching out, and the assemblage in my rear. I therefore ordered the wing of the 26th, the other wing had been left at (—sing-hae) to keep up the communication with the rear, and a wing of the 49th with the 37th M. N. I. and the Royal Marines to be prepared to disperse the assailants. On joining the Kwang-chow Foo, and explaining my determination to put my threat in force if the enemy advanced, he assured me that this hostile movement was without the knowledge, and against the wishes, of the Chinese authorities; that there were no Mandarins with this militia in our rear, that it had assembled to protect the villages in the plain, and that he would instantly send off a Mandarin of rank (his own Assistant) with orders for its immediate dispersion, if I would depute an Officer to accompany him.

38. Captain Moore, of the 34th Bengal N. I. Deputy Judge Advocate General, volunteered this hazardous duty. This Officer had accompanied me as one of my personal Staff throughout all the operations, and he and Major Wilson, Pay Master to the Expedition, who kindly volunteered to act in the same capacity, had by their zealous service been most useful to me in a country, where all my orders were to be conveyed by Officers on foot through an intricate line of communication. Captain Moore was quite successful, as the whole body instantly retreated and entirely dispersed, as soon as he and the Mandarin had made known to the leaders the object of their coming.

39. Finding that five millions of Dollars had been paid, and that H. M. Plenipotentiary was perfectly satisfied with the security for payment of the remaining million for the ransom of Canton, that upwards of 14,500 Tartar troops had marched out of the Town under the terms of the Treaty without colors or banners flying, or music beating, that 3,000 had gone by water, and that the remainder were prepared to follow, when carriage was provided, I acceded to the wish of H. M. Plenipotentiary to embark the Troops, the Chinese furnishing me with 800 coolies to convey my guns and ammunition. These coolies being furnished soon after day light on the 1st instant, I sent all the guns and stores to the rear covered by the 26th Royal Marines, 37th M. N. I., and Bengal Volunteers, and at 12 o'clock the British flag was lowered in the four Forts, and the troops and Brigade of Seamen marched out and returned to Tsinghae.

40. By the excellent arrangements and under the active superintendence of Captain Bourchier of H. M. S. Blonde, and Captain Maitland of H. M. S. Wellesley, the whole were re-embarked by 3 o'clock without leaving a man of the Army or Navy or a Camp-follower behind, and, under tow of the *Nemesis*, reached their respective Transports that night.

41. I have now, my Lord, detailed I fear at too great length, the occurrences of eight days before Canton. I might have been very brief, perfect success attending every operation—but by a mere statement of the leading facts, I should not have done justice to the discipline of the small but gallant band, whom it was my good fortune to command, and whose devotedness was worthy of a better foe.

42. I have not touched upon the brilliant conduct of the Royal Navy in their attacks and various operations to the south of the city, as these will be detailed by their own Chief, to whom, as I have said, I cannot too strongly express my obligations.

43. In a body, where all have done their duty nobly and zealously, it would be invidious to particularize: I will however entreat your Lordship's favorable notice of the Commanding Officers of Brigades and Corps, from whom I have received the most able assistance, and to whom my best thanks are due. To Major General Burrell, commanding the Right Brigade, who was zealously supported by Lieut. Col. Adams, commanding 18th Royal Irish, and Capt. Ellis, commanding the Marine Battalion, to Captain Bourchier of H. M. S. Blonde, commanding the Brigade of Seamen, supported most ably by Captain Maitland of H. M. S. Wellesley, and Captain Barlow, H. M. S. Nimrod, to Lt. Colonel Morris, commanding the Left Brigade, whose good fortune it was first to carry the heights and place the colors of the 49th in the first Fort taken, gallantly seconded by Major Stephens, who commanded the 49th in the first operation, and Major Blyth, who commanded that Corps during the latter part of the day—to Captain Duff, commanding 37th M. N. I. and Captain Mee, commanding the Bengal Volunteers.

To Major Pratt, commanding H. M. 26th Regiment. This Corps, though not at first much engaged from the nature of its position at the factories, proved on the 30th, by its spirited and steady conduct, which nothing could exceed, how valuable its services would have been throughout.

To Captain Knowles of the Royal Artillery, Senior Officer of that arm, my best thanks are due for his valuable services. Lieut. the Hon'ble R. C. Spencer, with the detachment of Royal Artillery, well supported the high character of that distinguished Corps. The zeal of Captain Anstruther, commanding the Madras Artillery, was indefatigable, as were the efforts of every individual of that valuable body in bringing up the guns and ammunition.

To Captain Cotton, Field Engineer, I feel under the greatest obligations, and I experienced the most ready support from every Officer under him. Of one of them, Lieut. Rundall, I regret to say, that I shall probably lose the services for some time, in consequence of a severe wound. The useful labours of the Sappers called for my best thanks, they were cheerfully prepared to place the ladders for the escalade.

I feel greatly obliged to all the General Staff—all accompanied me on shore, and to their indefatigable attention in conveying orders on foot, at times to a considerable distance, I was much indebted. To Lieutenant Colonel Mountain, Deputy Adjutant General, my best thanks are due for his unwearied exertions and valuable services not only upon the present, but upon every occasion. The exertions of Major Hawkins, Deputy Commissary General, were unceasing, and by his judicious arrangements, [and those of his Assistant,] the troops were amply supplied. The excellent arrangements made by Dr. Grant, the Officiating Superintending Surgeon, and Medical Staff of Corps call also for my acknowledgment. I beg to bring to your Lordship's particular notice my Aid-de-Camp, Captain Gough, of the 3d Light Dragoons, from whom I have upon this, as upon every occasion, received the most active and unremitting assistance.

44. Having now conveyed my approval of the conduct of the Commanding Officers of Brigades and Corps, and the Heads of Departments, permit me to draw your Lordship's special attention to the praiseworthy conduct of the Sailors and Soldiers under my command, which in my mind does them the highest credit. During the eight days this force was on shore, (and many of the Corps were unavoidably placed in situations where Sham-shu was abundant,) but two instances of drunkenness occurred; and I deem it but justice here to mention a strong fact. The Soldiers of the 49th finding a quantity of Sham-shu in the village they had so gallantly taken, without order or previous knowledge of their Officers, brought the jars containing this pernicious liquor, and broke them in front of their Corps, without the occurrence of a single case of intoxication.

45. This dispatch will be presented by Captain Grattan, whose conduct I have already mentioned to your Lordship, and whom I have selected for this duty alone on account of that conduct. He is a most intelligent Officer, and will be able to give your Lordship any further information.

I have the honor to be, &c.
(Signed) H. GOUGH, Maj. Genl.
Commanding Expeditionary Force.

P. S. It is with deep regret that I have to mention the loss of Lieutenant Fox, of H. M. S. *Nimrod*, a most promising young Officer attached to Captain Barlow's Battalion of Seamen, who fell at the storm of the western Forts. Mr. Walter Kendall, Mate of the same ship, a very deserving Officer, lost his leg, I am sorry to add, at the same time.

I have the honor to forward a Return of the Killed and Wounded, and a list of Ordnance captured. Of the killed and wounded on the enemy's side, it is difficult to form a correct estimate; but the Kwang-chow-Foo acknowledged to me, that of the Tartar troops, 500 had been killed, and 1,500 wounded on the 25th May—and I conceive that the killed and wounded on the Chinese side, upon the 30th, and in the different attacks made upon my flanks and line of communication, must have been double those numbers.

To His Excellency Major General Sir HUGH GOUGH, K. C. B. and Captain Sir H. LE FLEMING SENHOUSE, K. C. H. &c. &c. &c.

H. M. S. Hyacinth, off Canton, 26th May 1841, 10 *p. m.*

Extracts from a Despatch from Captain Sir H. Le Fleming Senhouse, K. C. H. &c. to Commodore Sir J. J. Gordon Bremer, C. B and K. C. H. Commander in Chief, &c. &c.
Dated Heights above Canton, May 29th, 1841, continued on board H. M. Ship Blenheim, French River, June 2d, 1841.

I closed my former letter with the details of our proceedings up to the moment the expedition was about to leave Hong Kong for Canton. I have now the gratification to enter upon the details of a succession of operations, highly honorable I trust to Her Majesty's Arms, and by which the large and populous City of Canton has been laid in complete submission at the feet of the Queen's Forces.

No overt act of hostility had taken place up to the 21st May, except remounting the guns in the Shamien battery, but the Chinese appear to have been perfectly ready for attack. All remained quiet in the river until about 11 o'clock P. M. when an attempt was made with fire rafts to burn the advanced vessels. This attack not only totally failed but was followed up by a gallant attack on the Shamien battery, and the silencing of it by the vessels of the squadron, under the immediate superintendence of Captain Herbert of the "*Calliope*" and the destruction of a large flotilla of fire vessels, which the Chinese had been preparing and had brought out of the branch of the river which leads north of the town. About the same time, though later in the night, the "*Alligator*" was attacked off Howqua's Fort; and to show how necessary it was to have been always on our guard, the fire junks came up with the flood tide in a direction with the Merchant vessels at Whampoa, where all seemed to sleep in security. Captain
No. 1. Kuper's account of his prompt and decisive conduct in repelling the attack, I have also the honor to forward.

Opinions were uncertain as to the feasibility of entering the northward branch of the river, and of floating at low water. To determine this I availed myself once more of the zeal and great ability of Commander Belcher, who most handsomely volunteered to explore it with his own boats, assisted with 3 others from the "Pylades," and "Modeste," and "Algerine," all placed under the command of that gallant and judicious Officer Lieutenant Goldsmith of the "Druid," who was attached to the "Blenheim," in that Ship's launch, and who had orders to protect Commander Belcher in his surveying operations.

The Major General and myself went to Canton to make a reconnoisance and a personal inspection on the same day, the 23d. In our progress we observed a firing and explosions in the direction of Captain Belcher's party; and Commander Belcher's letter, a copy of which
No. 2. I enclose, gives the detail of a gallant and spirited affair which took place in the creek.

At 11 at night, Commander Belcher returned with the gratifying intelligence that he had discovered an excellent landing place on a pier, with water enough for the "Sulphur," close to it at low water. The ground directly around it rose in low hills, and a line of hills appeared to continue to the height near the city, although there might be swampy ground in the small vallies dividing them.

Wellesley,—At Wantong in the Bocca Tigris, sent up her Marines and 160 Seamen.

Our united force consisted of the Ships and Vessels named in the margin, comprising in their Crews, Officers, Seamen and Marines inclusive about 3200 men, out of which about 1000 Officers, Seamen and Marines were landed to serve with the Army. The Military force under that gallant, distinguished, and experienced Officer Major General Sir Hugh Gough, comprised Her Majesty's 49th Regiment, 311 in number,—37th Madras Native Infantry 240, Bengal Volunteers 79, Royal Artillery 38, Madras Artillery 232, Sappers and Miners 171, Her Majesty's 18th Royal Irish 535, and Her Majesty's 26th Cameronians 317, making about 2223.

Captain Herbert was stationed at Whampoa with the Calliope, Conway, Herald, and Alligator, and was directed on the 24th to take the Command of the force, afforded by the four vessels under his orders, and pushing up with the flood-tide with such vessels as could proceed, or with the boats of the ships endeavour to take possession of and secure the Arsenal. I informed him that the ships near the factory would drop down and secure the Dutch Fort, and to keep up an enfilading fire on the face of the works thrown up in front of the City where I understood many guns were mounted. I left it to his own judgment to act according to circumstances, in endeavouring to drive the enemy from the French Fort and to endeavour to open the communication with the Ships of War to the Westward and with the Commanding Officer of the left column stationed at
No. 3. the factories. I beg to enclose a letter I have received from Captain Herbert, detailing the part he took in the affair that followed, where the usual gallantry and zeal were displayed by Her Majesty's Seamen and Royal Marines. Commander Warren, with his Gig's crew, placing his colours first on the walls of the French Fort. Commander Warren was also ordered, with the Ships under his command, to take up his anchorage in line along the town from the Western Fort as far as the factory, and to cannonade the exterior to prevent the enemy from firing on the right column as it passed. After the enemy's fire had been silenced he was to leave the *Nimrod* and another vessel to keep the enemy in check at that quarter, and to detach the rest of his force to secure the Dutch Fort, and to place them with the *Atalanta* so as to enfilade the line of batteries in front of the City, but he was not to expose his ships to the front fire of the heavy guns said to be placed there until the enemy were shaken in their position.

The landing of the left column was placed under his particular charge, and it was not to land until he had made the signal.

So effectually and vigorously did Commander Warren execute these instructions, that when the right column passed his station every thing had been completed and all was still,
No. 4. the detail of this gallant affair is annexed in a copy of his letter, where I regret to observe the loss of men was more than had been ordinary.

A return of the killed and wounded is here added, and although it may appear
No. 5. strange to see the wounded of the Army in the Naval report, yet the two Corps had been so entirely mingled together, their services so blended, and such intimate harmony

has existed, that it would be difficult to make any separation between the acts of either or the circumstances that concerned them. The two Officers who had fallen, Major Becher of the Indian Army, Deputy Quarter Master General, a very old Officer who had served ably in the Burmese War, and Lieutenent Fox, first of the Nimrod, have united the regret of all by their characters and services. The same shot took off the legs of Lieutenant Fox and of Mr. Kendal his shipmate, the Gunnery Mate of the Nimrod, the former fell a victim to his wound, the latter has survived amputation. I thought it would gratify Mr. Kendal to give him an acting Commission as Lieut. of the Nimrod in Lt. Fox's vacancy, on the field of battle until your pleasure is known—though his wound will disable him from doing his duty perhaps for some time, and may oblige him to go home.

I have the honor to enclose lists of the Officers who have been personally engaged in the operations on shore and afloat in boats, but it must be remembered that the duties and the fatigues of Commander Pritchard of the Blenheim, and of those who remained on board their respective ships, were increased in the same ratio as their numbers were diminished, and that the ultimate success is the attainment of the whole body, each working in his particular sphere. The names of many will be seen who have already distinguished themselves at Chuenpee, Anunghoy, Wantong, and the many affairs in the Canton River, and no doubt have already, like their brother Officers at Acre, been so fortunate as to secure their country's notice. Never was there a finer set of zealous able Commanders. Commanders Belcher and Warren have only continued in that path of able and judicious service on which they have so long travelled—their own services will always attract attention,—of the Lieutenants, Lt. Joseph Pearce, Lt. Goldsmith, Lt. Watson, Sir Frederick Nicholson, Lt. Morshead, first of their respective vessels, may, perhaps, be named without injury to all others who well played their parts—to Lt. Kellett, of the "Starling," I am much obliged; and Lt. Mason, of the "Algerine," has won his promotion by a long series of gallant and brave services. I beg to acknowledge the zeal and the assistance I have had from every Captain and Officer of the Squadron whom I have had the happiness to command.

No. 1.

To Captain T. HERBERT, *Commanding the advanced Squadron.*

Her Majesty's Ship Alligator, off Howqua's Folly, May 22d, 1841.

SIR,—I have the honor to acquaint you that last night, shortly after 12 o'clock, an attack was made by the Chinese upon Her Majesty's Ship *Alligator*, under my command, by five rafts.

They were chained in pairs, and brought down in a direct line for the Ships on a flood tide; owing to the confined position I was in, and the sunken junks and line of stakes astern, I could not slip but by steering the ship, and the activity of Lieutenant Stewart, first of this Ship, and Messrs. Woolcombe and Baker, Mates in command of the boats, they were towed clear, although they passed within ten yards of the bows; as I had reason to believe that a considerable force was assembled in the vicinity, to take advantage of any accident that might occur, I fired several shot on both sides to clear the banks. No damage has been sustained.

I have the honor to be, &c.

(Signed) AUGUSTUS L. KUPER, *Captain, (Actg.)*

No. 2.

Captain Sir H. LE FLEMING SENHOUSE, KT. K. C. H. *Senior Officer, &c. &c. &c.*

Her Majesty's Ship Sulphur, off Canton, May 23d, 1841.

SIR,—In pursuance of your directions I proceeded up the Creek on the western side of Canton in order to examine the nature of the country, our force consisting of the Druid's Launch, Lieutenant Goldsmith (1st Lieutenant of that ship) Sulphur's Pinnace, and two Cutters, Modeste, Pylades and Algerine's Cutters, Starling's Cutter, and my Gig, the two first-named boats carrying guns.

On approaching Neishang, where the boats of the Squadron were yesterday engaged, I observed the "fast boats" of the enemy collected in great numbers, part retreated by a creek to the left, but shortly after returned and manifested a disposition to impede our progress, by firing guns and drawing up across the creek. Our advance, and notice of our determination by a round from each of the boats, carrying guns, put them to flight, and in a very short period 13 fast boats, 5 War Junks and small craft collected, amounting to 28 in all, were in flames. Fire rafts were in readiness, on the banks of the creek, but too well secured by chains, and therefore beyond our ability to destroy during our short stay.

The whole force behaved with their usual gallantry, and the Commander of the Division under my direction (Lieutenant Goldsmith) afforded me that steady determined support, which so particularly distinguishes him, and which caused me to ask you for his co-operation.

The enemy being posted in force on a hill above us, prevented me, in obedience to your orders, from exposing my small party by an attempt to dislodge them. But I fully succeeded in effecting my reconnoitre by being hoisted to the mast head of the largest junk from whence I was able to survey the whole surrounding country.

From that examination I am happy to acquaint you that landing on solid ground is perfectly practicable. That the advance to the batteries situated on the hills North of Canton is apparently easy, and I have every reason to believe that our Artillery will not meet with an extraordinary difficulty.

On my return I landed at the Mandarin temple at Tsingpoo, where I found sand bags and 5 small guns which were spiked and thrown into the sea. This temple, with other large commodious buildings, will afford ample quarters for the troops which may first be landed.

No casualties whatever occurred. I brought out with me one large fast boat of 60 oars, the boat

from which the Mandarin escaped; and in pursuance of your separate orders collected vessels for the conveyance of 2000 soldiers.

I have the honor to enclose a list of boats and officers engaged, and am, Sir,

Your most obedient Servant,

(Signed) ED. BELCHER, *Commander.*

No. 3.

To Captain Sir H. Le Fleming Senhouse, Kt. K. C. H. &c. &c. &c. Canton River.

Her Majesty's Sloop Modeste, off Canton, 26th May, 1841.

Sir,—I received your orders of the 24th instant, a little before noon on that day, and immediately proceeded with the Boats and Marines of Calliope and Conway to the Alligator off Howqua's Fort, making the signal to Herald to close and send her boats.

I ordered Captain Kuper to move the Alligator up the right bank of the river past Napier's fort, where he anchored her in her own draught, and the boats were pushed up as far as possible without exposing them to the enemy's fire. A little before sunset I observed the Algerine moving down past the Dutch fort, and she shortly anchored and engaged a battery on the Canton side which she silenced. Anxious to co-operate with her I went ahead with Captain Bethune to reconnoitre, but was stopped by a shot through my boat from the French fort.

I remained under cover of the Point until dark, when I sent Captain Bethune with a division of boats to support her, and a concerted signal having been made, I joined her with the whole force at 2 A. M.

The arsenal being secured, I reconnoitred the line of defence, and perceived that it could not be attacked with advantage without having heavier guns in position than those of the Algerine. I therefore lost no time in ordering the other sloops down, and at the same time put myself in communication with Major Pratt, commanding H. M. 26th in the Factory.

Finding that Modeste was the only vessel likely to be got across the bar, and there appearing even some doubt of her accomplishing the passage, I fitted shell guns in three of the captured War Junks.

Captain Eyres having succeeded by great exertion in getting his vessel over the bar, I this morning moved her, Algerine, and the Gun Junks on the French fort, the enemy deserted the upper defences, and about 9 A. M. opened their fire from the fort, which was speedily silenced; I then cleared the Beach by a few well directed broadsides, and made the signal to advance. Captain Bethune immediately landed on shore with the storming party and the fort was carried in the most gallant style; the whole line of defence extended about 2 miles from the Factory, which, with the exception of the French fort, had been lately constructed in the strongest manner, has been destroyed, and communication is opened with the ships at Napier's fort. The guns destroyed are 64 in number, including four 10½ inch calibre—the Dutch fort was not armed.

To that excellent and able Officer Captain Bethune, I feel particularly indebted, and my best thanks are also due to Commanders Warren and Gifford, who assisted in the attack. This is the 6th time I have had occasion to mention the gallant conduct of Commander Eyres; Lieutenant Mason, commanding the Algerine, acquitted himself entirely to my satisfaction, and both Captain Eyres and himself speak in the highest terms of the assistance they received from Lieutenant Shute, and Mr. Dolling, Mate, their seconds in command, and all the other officers and men.

Lieutenants Haskell and Hay, Senior of Cruizer and Pylades, directed the guns in the Junks with great ability—Captain Bethune speaks in the highest terms of Lieutenants Watson, Beadon, Coryton, Colinson, Morshead, Hayes, Hamilton, and Mr. Brown, Master, as also Lieutenant Hayes of the Bombay Marine, and of all the other Officers and men employed more immediately under his orders, a list of whom is annexed. The party of Marines was commanded by Lieutenant Urquhart, assisted by Lieut. Marriott, Lieutenant Somerville, Agent of Transports, aided with some boats of the Transports, Lieutenant Gabbett of the Madras Artillery, threw shells with great effect from one of the Junks, and Major Pratt offered in the handsomest manner to co-operate in the attack if required.

I enclose a list of vessels captured, afloat, and building.

I have the honor, &c.

Captain of H. M. S. Calliope, and Senior Officer present.

No. 4.

To Captain Sir Humphrey Le Fleming Senhouse, kt. k. c. h., &c. &c. &c. *Senior Officer in the China Seas.*

Her Majesty's Sloop Hyacinth, off Canton, May 26th, 1841.

Sir,—I have the honor to acquaint you that immediately on the receipt of your letter of the 24th instant, I weighed with the advanced squadron and ordered Her Majesty's sloop "*Nimrod*" to attack the Samien fort on the West end of the suburbs, supported by Her Majesty's sloop "*Pylades*". Her Majesty's sloop under my command being placed abreast of the English factory to silence and dislodge any troops that might be there, and also with a view of covering the landing of Her Majesty's 26th Regiment. Her Majesty's sloops "*Modeste*," "*Cruizer*" and "*Columbine*" taking up a position to attack the Dutch Folly fort and to enfilade the line of batteries lately thrown up in front of the City to the Eastward of that fort. On the ships taking up their position three fire vessels were sent adrift, and although the tide was running very strong by timely despatch of boats they were enabled to clear the ships and tow three on shore and set fire to the suburbs.

In the performance of this service they opened their fire on the boats and shipping. In half an hour the enemy were completely silenced to the Eastward of the Dutch Folly fort. After reconnoitring the factory and finding it quite deserted, I immediately ordered the preconcerted signal for Her Majesty's Brig "*Algerine*," and "*Atalanta*" Steamer to approach with Her Majesty's 26th Regiment, when they landed and took possession of the factory without the slightest

casualty. This service being completed, I ordered Lieutenant Mason, commanding Her Majesty's Brig *Algerine*, to proceed to attack a fort to the Eastward which I feel much pleasure in reporting to you was done in a particularly spirited and gallant style by that Officer, but perceiving the firing to be so heavy from the forts, I ordered the boats of Her Majesty's Ships to her support.—Her Majesty's Sloop "*Hyacinth's*," under Lieutenant Stewart, and Mr. Peter Barclay Mate; "Modeste's," Mr. Fitgerald, Mate; "Cruizer's," Lieutenant Haskoll, and Mr. Thomas J. Drake, Mate; "Pylades'," Lieutenant Hay, and "Columbine's," Lieutenants Hamilton, Helpman, and Mr. Miller, Mate. It is gratifying to me to inform you, by half past seven the fort of eleven guns were silenced and the guns spiked, under a heavy fire of Gingalls and Musketry from the houses, at the same time I regret to add, it was not done without considerable loss. It would be impossible to particularize upon an occasion where every officer and man engaged against an enemy defending themselves with much vigour at all points, but in addition to my best thanks and acknowledgments to Commanders Barlow, Eyres, Giffard, Anson and Clarke, and Lieutenant Mason, I hope you will give me leave to recommend to your particular notice my own 1st Lieutenant W. H. Morshead, who was wounded in the hand in a personal engagement with a Mandarin. Lieutenant Mason of the "*Algerine*" speaks in the highest terms of the conduct of Mr. Dolling, Mate, and Mr. Higgs, Second Master of that vessel. I cannot conclude without expressions of my approbation of the steadiness of Commander Rogers of the Indian Navy, in conducting the *Atalanta* to her station.

I beg leave to attach a statement of the killed and wounded, and damage sustained by the ships engaged.

I have the honor to be, &c.,
(Signed) WM. WARREN, *Commander.*

HEAD QUARTERS : CHOULTRY PLAIN, 21*st August* 1841.

C. B. and K. C. H. Commanding in Chief, are published to the Army.

Charge.—For conduct to the prejudice of good order and military discipline, in the following Instances :

Recommendation.—The Court begs respectfully to recommend the case of the Prisoner, to the merciful consideration of the Major General Commanding the Army in Chief, in consequence of his request to be tried by a General Court Martial not having been attended to on a former occasion, as proved in evidence.

D. J. A. Genl.

(Signed) E. A. McCURDY, Major,
27th Regt. N. I.—President.

(Signed) H. STEWART, Lt. Bt. Capt.

Approved and confirmed.

It appears from the Proceedings on this trial that the Prisoner, when a Naigue of the Regiment, was reduced to the ranks by the Sentence of a Regimental Court Martial, for contumacious conduct in persisting to claim redress for the alleged grievance of having been passed over in promotion after the decision of the Officer Commanding the Army in Chief on the subject of his complaint had been made known to him.

On being warned for trial before the said Regimental Court, it is in evidence that he claimed to be tried by a European General Court Martial, under the provisions of the first additional Article of War, and that the Havildar Major of the Regiment to whom the request was made, in gross neglect of his duty, made no report of the same. As the Prisoner had an unquestionable right to be tried by such Court, the irregularity of his arraignment before the Regimental Court is manifest; and his reduction to the ranks under the circumstances may be looked upon as extrajudicial.

I therefore feel compelled to give the Prisoner the advantage of the irregularity which has occurred, and to direct that he be restored to his rank of Naigue in the Regiment. And as much of the subsequent contumacious conduct of the Prisoner appears to have originated in his sense of the hardship he experienced by his rightful claim having been disregarded, I am disposed to concur in the favorable and lenient view of his case taken by the Court as evinced by its recommendation, and I accordingly remit the sentence of imprisonment awarded.

The Prisoner must be clearly informed that he owes his escape from punishment solely to the irregularity which has been noticed, as he fully merited punishment for having made a groundless and vexatious complaint against his Commanding Officer in the first instance, with whom solely rests the selection of individuals of his Regiment for the Non-commissioned ranks.

MADRAS,
15*th September* 1841.

(Signed) R. H. DICK, Major Genl.
Comg. the Army in Chief.

The Prisoner to be released and will return to his duty as a Naigue.

The General Court Martial of which Major E. A. McCurdy of the 27th Regiment is President, is dissolved.

Adjutant General of the Army.

FORT ST. GEORGE, 29TH SEPTEMBER 1841.

No. 169 of 1841.—The length of time which had elapsed since any certain intelligence had been received of the Transport "*Golconda*," precluding all hope that the slightest chance existed of her safety, inquiries have been instituted with the view of ascertaining the fate of the vessel. The Right Honorable the Governor in Council laments to have to announce that, from the accounts given by the Commander of the Transport "*Thetis*," who last saw the "*Golconda*" on the 10th September 1840 steering out of the Straits towards the entrance of the China Seas, on which course he followed on the 13th, there appears to be no doubt that the "*Golconda*" foundered in the China Seas, between the 22d and 24th of that month, in a Typhoon which was on the latter day at the extreme height of it's violence—and that all on board have perished!

The date to be assigned to the casualties arising out of this melancholy occurrence is the 24th of September 1840; from which day the Officers and men of the 37th Regiment Native Infantry, and other details, who were embarked on board the Transport "*Golconda*," will be struck off the strength of the Madras Army.

(Signed) S. W. STEEL, Lieut. Colonel,
Secretary to Government.

FORT ST. GEORGE, 1ST OCTOBER 1841.

No. 170 of 1841.—1. The Right Honorable the Governor in Council is pleased to publish the following Extract of a Letter from the Hon'ble the Court of Directors, dated the 4th August, No. 8 of 1841, sanctioning a donation of two months full batta to the Troops and authorized Public Followers composing the late Kurnool Field Force under the command of Major General Wilson, C. B.

"Having taken into our consideration the good conduct of the Troops composing the Kurnool Field Force under the command of Major General Wilson, C. B. we have resolved to present to that Force a donation of two months full batta of their Regimental rank, to be defrayed out of the value of the Stores and other property found at Kurnool and Zorapore. You will pay this amount accordingly, deducting from those who have shared in the Zorapore distribution the amount of their respective shares. Should it happen that in any rank the Zorapore distribution exceeds the amount of two months full batta, it is not our intention to require the refund of the difference. The batta of the Major General in command of the Force will be adjusted upon the principle acted upon in paying the donation to Major Generals employed in the War in Ava."

2. The rates of batta to the different ranks, Europeans and Natives, will be governed by those in force at the period of the field operations in 1839, and will be paid upon Abstracts to be drawn by Officers in command of Troops or Companies and Heads of Departments under the countersignature of those in superior command. Abstracts will be submitted thro' Paymasters of Stations to Fort St. George for audit prior to payment.

3. *Temporary* Establishments or Followers *hired* for the Service are declared not entitled to the donation.

(Signed) S. W. STEEL, Lieut. Colonel,
Secretary to Government.

FORT ST. GEORGE, 12TH OCTOBER 1841.

No. 178 of 1841.—1. The Right Honorable the Governor in Council is pleased, in abrogation of paras. 8, 9 and 10, pages 79 and 80 of Regulations for the Quarter Master General's Department, and of G. O. G. 14th August 1829, to establish the following Rules with reference to G. O. G. No. 196 of 1839, regulating the grant of Passage at the public expense and of Table money to Commissioned and Warrant Officers *and to Staff Non-Commissioned of the Commissariat, Medical and Ordnance Departments* when proceeding on duty from Port to Port.

2. Troops and individuals proceeding on duty from Port to Port shall, in all practicable cases, be provided with Passage by Government; by arrangement thro' the Marine Board when embarking from the Presidency,—or through the principal local authorities when from Out-stations or the Eastern settlements. But in cases where circumstances render this inexpedient, and that parties are permitted to make their own private arrangements, they will be entitled to the following daily rates of Table money for the period they may be on board ship, in addition to their Pay and Full Regimental allowances.

General Officers on the Staff	Rs. 25
Field Officers and Captains	,, 5
Subaltern Officers and Warrant Officers of the rank of Commissaries, Deputy Commissaries, Assistant and Deputy Assistant Commissaries	,, 4
Warrant Officers of inferior grade	,, 3
Staff Non-Commissioned Officers of the Commissariat, Medical and Ordnance Departments	,, 2

When parties of the above description proceed on board of hired Transports or Government Vessels, their Commanders will be remunerated by Government for Table expenses at the above rates, but in such cases Officers (with the exception of General Officers on the Staff) must provide their own wines or make private arrangements with the Commanders for their supply. When with the concurrence of Commanders of Vessels Officers make arrangements to supply their own Table, they will be entitled to the allowance on a Certificate from the Commander that the arrangement was acceded to by him.

3. The Marine Board is authorized to sanction Bills for advances of Table allowance according to the season of the year and probable duration of the passage, which will be passed by the Military Auditor General without the intervention of Government.—Bills in final adjustment of such allowance, if for parties debarking at the Presidency, will be countersigned by the Quarter Master General of the Army in verification of the charges and passed for payment by the Military Auditor General; and at Out-stations they will be discharged by Paymasters on a Certificate at the foot of the Bill by the Officer Commanding the Troops or other Senior Officer on board, that the periods charged for are correct. An Officer having made his own private arrangement for Passage will append to the Bill for Table allowance a Certificate of the period he was on board from the Commander of the Vessel.

4. When Officers are ordered to proceed by sea on duty, either by public or private arrangement, at the expense of Government, intimation thereof will be immediately communicated by the Quarter Master General of the Army to the Military Auditor General.

Secretary to Government.

BY ORDER OF THE OFFICER COMMANDING THE ARMY IN CHIEF.

Adjutant General of the Army.

GENERAL ORDERS

By Major-General Sir Robert H. Dick, K. C. B. & K. C. H. Commanding the Army in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, *9th October* 1841.

The following Extracts from the confirmed Proceedings of a Native General Court Martial, holden at Bellary, on Wednesday the eighth day of September, in the year of our Lord one thousand eight hundred and forty-one, by virtue of a warrant from Major General Sir Robert Henry Dick, K. C. B. and K. C. H. Commanding in Chief, are published to the Army.

Jemadar Cawder Khan of the Fifth Regiment of Light Cavalry, placed in arrest by my order, on the following Charge.

Charge.—For conduct unbecoming the character of an Officer and to the prejudice of good order and military discipline, in having at Bellary, on the morning of the seventh of August one thousand eight hundred and forty-one, appeared on Parade in a disgraceful state of intoxication.

The above being in breach of the Articles of War.

Bellary, the seventh day of August one thousand eight hundred and forty-one.

(Signed) D. A. FENNING, Major,
Comg. 5th Regiment L. C.

By order.
(Signed) R. ALEXANDER, Lieut. Col.
Adjutant General of the Army.

The Court having most maturely weighed and considered the whole of the evidence brought forward in support of the prosecution, as well as what the Prisoner Jemadar Cawder Khan, has urged in his defence and the evidence in support thereof, is of opinion:

Finding on the Charge.—That the Prisoner is guilty of the Charge.

Sentence.—The Court having found the Prisoner guilty as above stated, doth sentence him, the said Jemadar Cawder Khan of the Fifth Regiment of Light Cavalry, to be dismissed the Service.

Signed in the Persian character,
Subadar Major AHMED KHAN,
President.

(Signed) A. HARRISON, Capt.
D. J. A. Genl.
(Signed) J. E. PALMER, Lieut.
Interpreter.

Recommendation of the Court.—The Court having performed a painful duty in awarding a punishment adequate to the crime of which the Prisoner has been convicted, most earnestly begs to recommend him to the mercy of the Major General Commanding the Army in Chief, in consideration of the very high character given to Jemadar Cawder Khan by the Officers of his Regiment, and from an impression in the minds of the Court, that the state of intoxication in which he appeared on Parade might have been caused by his having imprudently taken some stimulant under the idea that it would keep off fits to which he is unfortunately subject, as is clearly proved by evidence recorded on these Proceedings.

Signed in the Persian character,
Subadar Major AHMED KHAN,
President.

(Signed) A. HARRISON, Capt.
D. J. A. Genl.
(Signed) J. E. PALMER, Lieut.
Interpreter.

Approved and confirmed.

It is with extreme regret that I am compelled to confirm the sentence of the Court upon an Officer who, from the character given of him, appears to possess many valuable qualities as a Soldier, but the crime of which he has been guilty is of a nature too prejudicial to the discipline of the Army to admit of lenient consideration, and the palliation proposed by the Court is not only entirely conjectural, but of a very weak description.

(Signed) R. H. DICK, Major Genl.
Comg. the Army in Chief.

MADRAS,
9th October 1841.

Jemadar Cawder Khan is to be struck off the strength of the Army from the date of publication of this order at Bellary, which is to be reported to the Adjutant General of the Army.

The General Court Martial of which Subadar Major Ahmed Khan of the 5th Light Cavalry is President, is dissolved.

The following Extracts from the confirmed Proceedings of a Native General Court Martial, holden at Kamptee, on Monday the second day of August, one thousand eight hundred and forty one, and continued by adjournment, by order of Brigadier John Turner Trewman, Commanding the Nagpore Subsidiary Force, by virtue of a warrant of authority vested in him by Major General Sir Robert Henry Dick, K. C. B. & K. C. H. Commanding in Chief, are published to the Army.

Shaik Soultan, Private, Regimental Number five hundred and one, in the D. or Captain James Whistler's Troop of the Sixth Regiment of Light Cavalry, placed in confinement by order of Captain William Edmund Litchfield, Commanding the same Regiment, on the following Charges.

First Charge.—For conduct to the prejudice of good order and military discipline, in having at Kamptee, on the sixteenth September one thousand eight hundred and forty-one, appeared at the inspection parade of the D. Troop Sixth Regiment Light Cavalry, with his sword dirty.

Second Charge.—For mutinous conduct, to the prejudice of good order and military discipline, in having at the same time and place, on being ordered a punishment by Captain James Whistler of the Sixth Regiment Light Cavalry, Commanding the D. Troop, for the offence set forth in the First Charge, vociferated in a loud and insubordinate tone of voice in presence of the Regiment then under arms, "this is oppression, this is tyranny, confine me, cut my throat," or words to that effect.

Third Charge.—For having at the same time and place, disobeyed the lawful command of his superior Officer, Captain James Whistler of the Sixth Regiment Light Cavalry, by persisting to make use of the words "there is oppression and tyranny in this Troop" meaning the D. Troop, though repeatedly ordered by Captain Whistler to keep silence.

The above being in breach of the Articles of War.

(Signed) W. E. LITCHFIELD, Captain,
Comg. 6th Regt. L. C.

Kamptee, the seventeenth day of September, one thousand eight hundred and forty-one.

By order.
(Signed) J. GRIMES, Captain,
A. A. Genl. N. S. Force.

The Court having most maturely weighed and considered the whole of the evidence adduced in support of the prosecution on the Charges, as well as what the Prisoner Private Shaik Soultan, has urged in his defence, is of opinion:

Finding on the First Charge.—That the Prisoner is guilty of the First Charge.

Finding on the Second Charge.—That the Prisoner is guilty of the Second Charge.

Finding on the Third Charge.—That the Prisoner is guilty of the Third Charge.

Sentence.—The Court having found the Prisoner guilty as above stated, doth sentence him, the said Shaik Soultan, Trooper, Regimental Number Five hundred and one of the D. or Captain James Whistler's Troop of the Sixth Regiment Light Cavalry, to suffer imprisonment with hard labour for the period of six lunar months.

D. J. A. Genl.
(Signed) IVIE CAMPBELL, Ensign,
Interpreter.

Signed in the Persian character,
Subadar Major CAWDER BEG,
6th Regt. L. C.

Recommendation of the Court.—The Court recommends the Prisoner to mercy in consequence of his youth and inexperience in the service.

GENERAL ORDERS by the Right Honorable the Governor General of India in Council.

FORT WILLIAM, 27*th October*, 1841.

No. 246 of 1841.—The Right Hon'ble the Governor General of India in Council is pleased to direct the publication to the Army of the following Orders from the Hon'ble the Court of Directors, authorizing payment to the Military and Naval Forces, employed on the occasion, of a further portion of the Booty captured during the late Hostilities against Ava, and which has been granted by Her Most Gracious Majesty, as Prize:

Extract of a Military Letter No 59, *from the Hon'ble the Court of Directors, dated* 2d *September*, 1840.

1. Referring to the correspondence* which has passed on the claim preferred on behalf of the Forces employed in the Burmese War, to compensation for the value of Boats, and other property captured during the War, and destroyed to prevent their again falling into the enemy's power; we have now to acquaint you that the Queen has been pleased, on our application, to issue a Royal Warrant, of which a copy is enclosed, granting the sum of Three Lacs of Company's Rupees in full satisfaction of the said claim, both as to principal and interest. This Warrant although bearing date the 17th October 1838, only reached us on the 14th August 1840, having been detained by the Lords of the Treasury, pending the consideration of a Memorial on the subject, presented by Lieutenant General Sir Archibald Campbell.

* Military Letter to Bengal, dated 20th December 1831, No. 99, paragraphs 4 and 5.
Ditto ditto ditto 16th August 1837, No. 66, paragraph 28.

2. Observing in your Military Consultations of the 30th June 1826, a Schedule or Statement as transcribed in the margin* of certain proceeds of Burmese Booty, which did not appear to have formed part of the sums granted by His late Majesty in the Warrant, dated on the 17th September 1831, and being desirous, that any sums belonging to the Captors and remaining undistributed should be included in the Grant, for which application had been made; We requested the Lords Commissioners of Her Majesty's Treasury to advise Her Majesty to grant as Booty, the several sums specified in the said Schedule, with interest due upon them, provided such principal, and interest, shall not have been already included in the Royal Grant of 17th September 1831, and provided the sum shall be recovered by us, or, on our behalf. The Grant has been in conformity with this application, and We now call your special and immediate attention to this part of it, in order, that the exact state of the Prize Fund may be ascertained and all sums due to it, realized for distribution.

3. You will observe that Her Majesty has been graciously pleased to grant one moiety of the sums due or to be realized under the Royal Warrant, to the East India Company, for their own proper use, and the remaining moiety to us, in trust to

(Signed) VICTORIA R.

Victoria, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith. To all to whom these presents shall come Greeting. Whereas by Warrant under the Royal Sign Manual of His late Majesty King William the Fourth, our late Royal Uncle of glorious and happy memory, bearing date the Seventeenth day of September, one thousand eight hundred and thirty-one, in the second year of His said late Majesty's Reign, reciting, amongst other things, that at the commencement of the year one thousand eight hundred and twenty-four numerous unprovoked aggressions committed by the Burmese upon the South East Frontier of the Possessions of the United Company of Merchants of England trading to the East Indies had induced the Supreme Government in India to decide upon attacking the Burmese in their own Country, and that an Expedition was accordingly formed, consisting of His Majesty's Land Forces and the Land Forces raised and paid by the said United Company, and of His Majesty's Ships and Vessels of War and the Ships and Vessels of War of the said United Company, under the Command of Major General Sir Archibald Campbell, G. C. B., and Commodore Grant of His Majesty's Ship Liffey, then Commanding His Majesty's Naval Force in India—and that during the Hostilities or Warfare carried on by the said Expedition under the Command of the said Major General Campbell and Commodore Grant, and during certain periods afterwards of his Successor or Successors in such Command, a quantity of Booty and Plunder, consisting of Ordnance, Arms, Artillery Stores, and Ammunition, Grain, and a number of Bells and other Effects were taken, of which the following Schedule or account had been rendered, that is to say;

	"Sicca Rupees."

exclusive of Boats and other Property destroyed in order to prevent their falling again into the Enemy's hands, of which no authentic account had then been furnished, which said Booty and Plunder did of right belong to His Majesty in right of His Royal Prerogative, His Majesty was graciously pleased to give and grant and did thereby give and grant the said captured Booty and Plunder, or the produce or value thereof as set forth in the Schedule or account before stated, unto the said United Company of Merchants of England trading to the East Indies, or to such person or persons as they should appoint to receive the same, upon the Trusts and on the conditions following, that is to say, upon Trust to retain and apply one moiety thereof to the proper use of the said Company, and as to the remaining or other moiety thereof, in trust to distribute the same amongst His Majesty's Land and Naval Forces and the Land and Naval Forces of the United Company of Merchants of England trading to the East Indies employed in the said Expedition, according to the following Scheme or Schedule, videlicet.

The whole of such Moiety being divided into eight equal parts—

To the Commander in Chief and Flag and General Officers to be distributed amongst them, so that each Commander in Chief shall take double that share which each General and Flag Officer (not being a Commander in Chief) shall take, but if the number of Flag and General Officers, exclusive of the two Commanders in Chief, shall exceed four, in that case a Moiety of the said one eighth shall be divided between the two Commanders in Chief, and the other Moiety between the other Flag and General Officers	One Eighth.
To the Colonels, Lieutenant Colonels, and Majors, serving in the said Land Forces, and the Post Captains and Masters and Commanders in the said Naval Forces to be distributed amongst them according to the usage prevailing in India with respect to such Land and Naval Forces.	Two Eighths.
To the Captains of Marines and Land Forces and the Lieutenants serving in the said Naval Forces and other descriptions of persons entitled by His Majesty's Proclamation for the distribution of Prizes in force at the termination of the last War, or according to the usage prevailing in India with respect to such Land and Naval Forces to share with them.	One Eighth.
To the Lieutenants and Quarter Masters of Marines and Lieutenants, Ensigns, and Quarter Masters of Land Forces, and the Boatswains, Gunners and Pursers serving in the said Naval Forces, and other descriptions of persons entitled by the said Proclamation or according to the usage prevailing in India with respect to such Land and Naval Forces to share with them.	One Eighth.

To the Midshipmen, Captain's Clerks, Sergeants of Marines and Land Forces and other descriptions of persons serving in the said Land and Naval Forces entitled by the said Proclamation, or according to the usage prevailing in India with respect to such Land and Naval Forces to share with them. } One Eighth.

To the Trumpeters, Quarter Gunners, Seamen, Marines and Soldiers, and other descriptions of persons, serving in the said Land and Naval Forces entitled by the said Proclamation, or according to the usage prevailing in India with respect to such Land and Naval Forces to share with them. } Two Eighths.

And His said Majesty was in and by the said Warrant graciously pleased to direct that the portion of the said Booty and Plunder so belonging to the said Land Forces employed in the said Expedition should be distributed between the Commander in Chief, Officers and Privates composing the same, according to the rule theretofore used and observed by the Army in India under the aforesaid Scheme or Schedule. And that the portion of the said Booty and Plunder so as aforesaid belonging to the Naval Forces employed in the said Expedition be distributed amongst the Commander in Chief, Flag and other Officers and Men belonging to the said Naval Forces employed in the said Expedition agreeably to His Majesty's Proclamation aforesaid, and to the practice of His Majesty's Navy respecting the Ships or Vessels in the Service of the said United Company of Merchants of England trading to the East Indies sharing with them. And His Majesty was thereby graciously pleased further to order and direct that in case any doubt should arise respecting the claims to share in the distribution of the Moiety thereby granted to the Captors, or respecting any demand upon the said Captured Booty the same should be determined by the said United Company of Merchants of England trading to the East Indies, or by such person or persons to whom they should refer the same, which determination thereupon made should with all convenient speed be notified in writing to the Commissioners of His Majesty's Treasury, and the same should be final and conclusive to all intents and purposes, unless within three months after the receipt thereof at the Office of the Commissioners of His Majesty's Treasury His Majesty should be pleased otherwise to order. And whereas the Commissioners of our Treasury have represented unto us that a Memorial had been addressed to them by the Directors of the East India Company, setting forth, amongst other things, that they had taken every means in their power to gain authentic intelligence of the value of the Boats and other Property which might have been destroyed as asserted in order to prevent their falling again into the Enemy's hands of which no authentic account has been furnished, and that the claim which had been made on behalf of the Captors to the value of such Boats and other Property was unsupported by the requisite proof to shew, first, that the several alleged Captures were in fact made. Secondly, that such property was subsequently destroyed to prevent its again falling into the Enemy's hands—and thirdly, that if not destroyed, it would have been of the value assigned to it by the Claimants. That they the Directors had nevertheless obtained sufficient evidence to satisfy them that a number of War and other Boats were captured and destroyed in the said War, and that quantities of Ammunition and other Stores were also from time to time destroyed that though possessing no data upon which to fix the sum to be recommended as the computed value of such Property they were disposed to believe that a sum of three Lacs of Company's Rupees would be a liberal equivalent for all the Booty which the Forces engaged in the said War had taken and were obliged to relinquish for the good of the Service. That the Directors had further represented that from the Schedule or Statement hereinafter set forth of which a Copy was laid before the Government of Bengal by the Prize Agents on the first of June, one thousand eight hundred and twenty-six, it appeared that large sums which had been realized by the Prize Agents had been invested in the Company's Loans by private Agents and which the Directors had reason to believe were not included in the sums specified in His late Majesty's Grant of the Seventeenth of September, one thousand eight hundred and thirty-one, and that the sum of Rupees Sixty-nine thousand, three hundred and eighty-four, fourteen Annas, which appeared in the said Schedule as having been deposited in the Company's Treasury could not be traced in the Company's books, but that if recoverable it would be considered as Booty should We be pleased so to order and direct.

Schedule or Statement referred to.

That the Directors therefore prayed that we would be graciously pleased to grant to the said Company the aforesaid sum of Three Lacs of Rupees in full satisfaction of the claim as to Principal and Interest on account of the value of the Boats and other Property captured from the Enemy during the said operations, and subsequently destroyed to prevent their falling again into the Enemy's hands, and also the sums specified in the aforesaid Schedule or Statement, with Interest due upon them, provided such Principal and Interest shall not have been already included in the Royal Grant of the Seventeenth of September, one thousand eight hundred and thirty-one as Booty, and provided the same shall be recovered by or on behalf of the Company such Grant as to one half part of all the aforementioned Sums for the proper use of the said Company, and as to the other half part thereof for the use of the Commanders, Officers and Men belonging to the Army, Navy and Marines employed in the said War, and that we would also be pleased to give such directions as to the appropriation and distribution of the said Plunder and Booty amongst such Forces as we should see fit. And whereas our said Commissioners have recommended unto us under the circumstances set forth in the said

Memorial and in the Report which has been made to them by our Procurator General, with the concurrence and advice of our Advocate General thereon, to grant the said sum of Three Lacs of Rupees, together with the said several sums specified in the said Schedule or Statement, amounting to Sicca Rupees Two Lacs, Forty-two Thousand, Three Hundred and Sixty-six, Four Annas, and Four Pies, in the manner and under the provisions contained in the said Memorial as hereinbefore mentioned to be appropriated and distributed as directed in and by the said former Royal Warrant. Now know ye that We taking the Premises into our Royal consideration do with the Advice and at the recommendation of our said Commissioners by this Our Royal Warrant under Our Royal Sign Manual give and grant unto the East India Company, or to such person or persons as they shall appoint to receive the same, the said sum of Three Lacs of Rupees in full satisfaction of the claim as to Principal and Interest on account of the value of Boats and other Property captured from the Enemy during the aforesaid operations, and subsequently destroyed to prevent their falling again into the Enemy's hands, and also the several sums specified in such last mentioned Schedule or Statement with Interest due upon them, provided such Principal and Interest shall not have been already included in the said Royal Grant of the Seventeenth of September, one thousand eight hundred and thirty-one as Booty, and provided the same shall be recovered by or on behalf of the said Company. Second Charge.—For conduct to the prejudice of good order and military discipline, in the following Instances:

First Instance.—In having at the same place, on the same day, offered intentional insult to the aforesaid Subadar Shaik Ebram, his superior Officer, by spitting on the ground in a contemptuous manner when passing him.

Second Instance.—In having at the same time and place, produced before the said Court of Inquiry Privates Arnachellum and Soobooraj00 of the fifth Company of the First Native Veteran Battalion, to prove his absence from the Lines of his Battalion as aforesaid; he, the Prisoner, having previously suborned the said Privates Arnachellum and Soobooraj00 to make false statements in his favor, before the said Court of Inquiry.

Recommendation of the Court.—The Court having passed sentence adequate to the offences committed by the Prisoner Jemadar Abdul Cawder, begs most respectfully in consideration of his length of service (nearly thirty years) and previous good conduct, as recorded in evidence, to recommend him to such consideration, as the Officer Commanding the Army in Chief may deem compatible with the well being of the service.

MADRAS, 23*d November* 1841.

I deeply regret the necessity I am under of confirming a Sentence which dismisses from the Service an Officer, who for a period of thirty years, has borne an irreproachable character, and who appears to have done the State good service; but the nature of the offences included in the third Charge, renders it impossible for me to remit the penalty.

Jemadar Abdul Cawder is to be struck off the strength of the Army from the date of publication of this Order in Fort St. George.

GENERAL ORDERS by the Right Honorable the Governor General of India in Council.

Fort William, 27th October 1841.

No. 249 of 1841.—The following Extract of a Military Letter, from the Honorable the Court of Directors, to the Governor of Bengal, No. 79, dated 1st September 1841, is published for general information:

"Report the particulars of the case of Brevet Captain David Ogilvy, 15th Regiment Native Infantry, who has been permitted to retire from the service, on the half pay of his rank, and to settle in Van Diemen's Land, with observations on the general question of allowing Officers to retire in India on half pay.

Para. 30. We shall not object to your decision on Captain Ogilvy's application, but we desire that no similar permission be granted hereafter.

31. It is absolutely necessary, according to our views and intentions, that Officers who may be compelled to quit India, on sick certificate, and who may not be entitled to retire on full pay, shall try the effects of a temperate climate for the usual term of a furlough, before they can be allowed to establish their claim to retire from the service upon half pay. If Officers so circumstanced, proceed to New South Wales, or some other Colony, and apply thence, at a proper time, for permission to retire, it is our practice to require satisfactory evidence from the Medical Staff Officers, or other undoubted medical testimony on the spot, to prove that the applicant is incapable, from ill health, to return to the performance of military duty in India, on the production of which the half pay is granted under the regulations, without requiring personal appearance in this country."

By Major General Sir Robert H. Dick, K. C. B. & K. C. H. Commander of the Forces.

HEAD QUARTERS: CHOULTRY PLAIN, 24*th December* 1841.

The Commander of the Forces directs that the following Orders by the Right Honorable the Governor in Council shall be translated into Hindoostanee and read at a Full Dress Parade to every Native Regiment in the Army—translations are also to be made into Tamil and Teloogoo and a copy of each given to be explained in every Company and Detachment throughout the Service.

FORT ST. GEORGE, 21ST DECEMBER 1841.

No. 220 of 1841.—The Right Honorable the Governor in Council has high satisfaction in publishing to the Army, the following Despatch from the Honorable the Court of Directors.

Letter dated 27th October 1841, *No.* 77.

1. "We have much gratification in announcing to you that Her Majesty has been graciously pleased to promote the undermentioned Officers of our Service by special Brevet in the East Indies, for their services during the late operations near Canton, their Commissions bearing date the 26th May 1841, viz.

To be Lieutenant Colonels.

Major Roger Williamson Wilson of the 65th Regiment of Bengal Native Infantry.
Major Francis Spencer Hawkins of the 38th Regiment of Bengal Native Infantry.

To be Majors.

Captain Daniel Duff of the 37th Regiment of Madras Native Infantry.
Captain George Augustus Mee of the 58th Regiment of Bengal Native Infantry.
Captain Philip Anstruther of the Madras Artillery.
Captain Henry Moore of the 34th Regiment of Bengal Native Infantry.

2. "The conduct of Lieut. & Brevet Captain Fredk. Conyers Cotton of the Madras Engineers and of Lieut. Hadfield of the 37th Regiment Madras N. I. is considered to have entitled them to a similar distinction, but the Regulations of Her Majesty's Army do not admit of the grant of Brevet Rank to Subaltern Officers for services in the Field. The General Commanding in Chief has however, announced his intention of recommending the grant of the Brevet Rank of Major to these two Officers on their attaining the Regimental Rank of Captain.

3. "We have to express our entire approbation of the conduct of the whole of our Troops engaged on the above occasion.

4. "In order to mark our sense of the gallantry and steadiness displayed by the 37th Regiment Madras N. I. under most trying circumstances, we have resolved on constituting that Corps a Grenadier Regiment.

5. "We further direct, that the name of each European and Native Commissioned Officer, and Non-Commissioned Officer and Sepoy who composed the Company of that Regiment detached under Lieutenant Hadfield and who by their steady courage and discipline, successfully defeated the repeated attacks of a large body of the Enemy and thus nobly sustained the credit of the Native Army, be entered in the Regimental Order Book of that Corps with a record of the transaction to which it refers. We also desire that the Native Officers, Non-commissioned Officers and Sepoys of that Company be granted an addition to their Pay and Pension on Retirement either by admitting them to the advantages of the "Order of Merit" or in any other manner which you may consider desirable.

6. "You will publish in General Orders our sentiments as expressed in this Despatch."

The Right Honorable the Governor in Council is pleased to direct that the 37th Regiment Native Infantry, be constituted a Grenadier Regiment from this date. The Commander of the Forces is requested to cause the required reports to be made, to enable the Government to carry into effect the orders of the Honorable Court contained in the 5th Para. of the above Despatch.
