GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER IN CHIEF,

Head Quarters, Camp, Barah, 11th January 1854.

BY THE HONORABLE THE PRESIDENT OF THE COUNCIL OF INDIA IN COUNCIL.

FORT WILLIAM, 30TH DECEMBER 1853.

No. 1112 of 1853.——The following extract, paragraphs 1 and 2 of a military letter from the Honorable the Court of Directors to the Governor of the Presidency of Fort William in Bengal, No. 134, dated 26th October 1853, and annexment, are published for general information:

1. "Referring to paragraph 34 of our military despatch, dated this day, No. 132, we now forward a No. in the packet, a letter from Colonel Airey, dated at the Horse Guards the 4th October 1853, conveying the opinion of the General Commanding in Chief on the arrangements proper to be made on the occasion of discharged soldiers of Her Majesty's or the East India Company's service being embarked for the Australian Colonies, instead of returning to the United Kingdom.

2. The arrangements specified by Viscount Hardinge, you will in all future cases carry into effect."

Horse Guards, 4th October 1853.

SIR,

Having submitted to the General Commanding in Chief your letter of the 15th ultimo, forwarding a collection of papers received from the Government of India, expressing a desire that some regulations should be framed for their guidance in making arrangements for soldiers of Her Majesty's and the East India Company's service, who receive free discharges in India for the purpose of proceeding to Australia, instead of returning to the United Kingdom, I am directed to request that you will submit the following observations to the Court of Directors.

Viscount Hardinge is of opinion that in most cases it will be expedient that an officer, who in general must belong to the Company's service, not specially appointed for the purpose, but who may be proceeding to the Australia Colonies for the benefit of his health or on his private affairs, should be placed in charge of a detachment, when its numbers justify the appropriation of a commissioned officer, and that he have instructions to report himself to the military officer commanding at the port of debarkation.

The applications for discharge from regiments in Her Majesty's service alone, in India, between 1st January 1852 and 1st May 1853, were 272, and in the case of Her Majesty's 86th regiment at Bombay, no less than 44 embarked in one ship; 75 more had, by the report of the Commander in Chief at that Presidency, taken free discharges at one time, and 40 more had applied for discharge, exclusive of the Company's service.

It is therefore desirable for the purpose of maintaining order on board the ships containing more than 30 or 40 soldiers so recently emancipated from the restraints of military discipline, that the same course should be adopted, whenever it may be practicable, as is now taken when under similar circumstances they return to England; the necessity for that regulation having arisen some years ago out of the outrageous conduct of soldiers returning home when finally discharged abroad.

The discharge documents of soldiers proceeding in this manner should, in His Lordship's opinion, be made up to the last day of the month, two months in advance of that in which the party embarked,—a period it is believed about the time occupied by the voyage. Thus, should the detachment embark in September, the discharge documents ought to be completed to 30th November, and the parchment certificates confirmed to the same date, and with their pay (deducting the stoppage for subsistence on board, in the same manner as for men proceeding to England) be given to the officer proceeding in charge, with orders, after reporting his arrival, to pay the balance to the discharged soldiers, and hand them their parchment certificates; and having thus disposed of them, transmit their discharge documents through the senior military officer to the Adjutant General of the forces,—forwarding at the same time nominal lists with dates of discharge, and reports of casualties, to the officer commanding the depôt of each corps to which the men belong.

It must, however, be explained to soldiers accepting their discharge, that provided as they are with passage to Australia, and receiving pay for two months in advance of that in which they embark, even if they continue longer on the passage, no further claim for pay can be entertained.

It will be seen by this arrangement, that if individuals misconduct themselves, or commit any offence carrying with it forfeiture of good conduct badge, which would alter their terms of discharge, the officer in command will have it in his power to withhold the discharge documents, and the soldier's release from the service, subject to the decision of the senior military officer on arrival.

Viscount Hardinge in thus modifying the views taken on this subject, as explained in the Adjutant General's letter to General Sir William Gomm, under date 12th July last, does so in deference to the opinions entertained in the correspondence which the Court of Directors have requested you to submit for his consideration, and to the suggestions of the General Commanding in Chief in India.

When no officer can be spared, and when the number of soldiers about to embark may be so small as not to render the presence of an officer so necessary, the Commander in Chief in India may allow them to proceed under existing arrangements.

I have, &c.,
(Signed) RICHARD AIREY.

BY THE COMMANDER IN CHIEF.

An erroneous impression being found to exist, that permission to proceed to Europe on furlough on private affairs can be accorded by the authorities at Bombay to officers of this Presidency who obtain leave to visit that port preparatory to applying for such furlough, it is notified for the future guidance of officers, that the sanction of the Government in Calcutta to their embarking for Europe is indispensable, and should be applied for in the same manner as though the embarkation were to take place from Calcutta, viz. through the Assistant Adjutant General of the Army there; but as this arrangement may possibly be productive of delay and inconvenience, the simplest and most advisable course is to include in the application for leave to visit Bombay, a further request to be allowed to proceed from thence on furlough to Europe, in order that if granted, the sanction of Government to the two solicitations may be announced in one and the same order, and when no further steps in the matter will be necessary.

2. It is further notified for general guidance, that solicitations for leave to proceed to places beyond the limits of this Presidency, and to visit stations within the Presidency, should not be preferred in the same application:—in the one case the sanction of Government is necessary, in the other it can be accorded by the Commander in Chief, and the indulgences should therefore be applied for in distinct and separate applications.

The following orders issued by Lieutenant Colonel J. Nash, C. B., commanding at Ferozepore, are, with the sanction of Government, confirmed:

At a General Court Martial assembled at Umballah on Monday the 14th day of November 1853, Quarter Master John Gillespie, of Her Majesty's 98th regiment of foot, was arraigned on the following charge:

For conduct to the prejudice of good order and military discipline at Dugshaie, during the months from April 1852 to November 1852, both inclusive, he being at the time Sergeant Major of the regiment, in the following instances:

1st. In having directed and sanctioned the unauthorized sale of spirituous liquors and wine at the Sergeants' mess, to the non-commissioned officers and soldiers of the regiment.

2d. In having demanded and received from the Native agent of Kudarnauth and company who supplied the Sergeants' mess, a per-centage upon the cost of all spirituous liquors and wine, expended by the said mess.

In having systematically sanctioned the omission of all entry in the Sergeants' mess accounts, that were presented for the examination of the Commanding officer of the regiment, of issues of spirituous liquors and wine made from the said mess to the non-commissioned officers and men, with the intention thereby of preventing the Commanding officer from becoming acquainted with the irregular practice stated in the first instance of the charge.

Finding.—The Court, upon the evidence before them, are of opinion that the prisoner, Quarter Master John Gillespie, of Her Majesty's 98th regiment of foot, is not guilty of the charge preferred against him, and do therefore acquit him of the same.

Revised Finding.—The Court having attentively weighed and re-considered the whole of the evidence both on the part of the prosecution and of the defence, as well as the observations of His Excellency the Commander in Chief, conveyed in the above mentioned letter, are still of opinion that he, the prisoner, Quarter Master John Gillespie, of Her Majesty's 98th regiment, is not guilty of the charge exhibited against him, and do therefore most respectfully adhere to their former finding.

BY THE COMMANDER IN CHIEF.

Numerous representations having been made to the Commander in Chief of the injurious effects on the health of the troops resulting from holes and other irregular excavations being dug in cantonments both for public and private purposes, His Excellency desires to intimate, for the guidance of officers commanding divisions and stations, that this practice is to be strictly prohibited. No holes are to be allowed to be dug within the limits of any military cantonment for building or other public requirements, without the sanction of Government previously obtained through the Commander in Chief in the Quarter Master General's department; and whenever it may be deemed necessary to apply for such permission, the local military authorities are to certify that the site selected for the purpose is not likely to interfere with the health or comfort of the troops, or the appearance or cleanliness of the station generally; and the measurements of the superficial space so required are to be stated in the application, and a statement also of the probable depth to be excavated.

2. Officers commanding stations are to issue strict orders prohibiting this irregular and most pernicious practice in all private compounds, without a written engagement being furnished by the parties, who, under the exigency of building at new stations, may not otherwise be able to procure materials, that all holes dug by them shall be again filled up with *fresh earth* within a stated period (to be fixed by the local military authorities); and the Commander in Chief, with the sanction of Government, further directs that measures be at once adopted at every station in this Presidency for filling up or otherwise remedying all such existing holes or noxious excavations on public sites, and in private compounds, as in the opinion of the station medical authorities are, or likely to be become, prejudicial to the sanatory condition of the station. And in future no transfer by sale of a house or estate in cantonments is to be authorized until the owner has certified in writing that all holes have been filled up or rendered unobjectionable, or that the intending purchaser has agreed to do so at his own expense and without delay.

The following orders are confirmed:

The Sind Sagur district order dated the 28th of November last, directing Assistant Apothecary R. D. Logg to remain at the Murree depôt during the cold season, for the purpose of assisting Assistant Surgeon W. H. Jephson, M. D., in making certain observations there.

By Lieutenant Colonel H. F. Caley, commanding the 64th regiment of native infantry, dated the 28th ultimo, appointing Lieutenant R. M. Nott to act as Adjutant, in room of Lieutenant H. E. Young, promoted.

The Dinapore division order dated the 31st ultimo, directing Surgeon R. B. Kinsey, of the 44th, to receive medical charge of the 13th regiment of native infantry, as a temporary arrangement, from Surgeon J. Inglis, M. D., about to retire from the service.

2. Mr. O'Brien's order of rank will be transmitted in due course."

No. 28 of 1854.——The Honorable the President in Council is pleased to direct that the following letter from the Honorable the Court of Directors to the Governor of Bengal, No. 138, dated 9th November 1853, and the War office circulars Nos. 1140 and 1142, therein referred to, be published in General Orders :

Military Department, No. 138 *of* 1853.

OUR GOVERNOR OF THE PRESIDENCY OF FORT WILLIAM IN BENGAL.

Referring to the 57th clause of the Mutiny Act, and to War office circulars Nos. 1140 and 1142, dated 10th April and 14th June 1853 (herewith transmitted), under which any man who enlists into our service, whilst enrolled and engaged to serve in the militia, is to sustain a stoppage of 1*d.* a day from his pay for 18 calendar months, we desire that the stoppage for such portion of the period as cannot be made in this country may be effected in India.

The Commandant of the depôt for recruits will, from time to time, name the men and specify the period for which the stoppage is to be made. The amount so stopped is to be remitted to this country for payment to Sir John Kirkland, as General Agent for the recruiting service.

CIRCULAR No. 1140.

WAR OFFICE, 10TH APRIL 1853.

123395 / 1 I am directed to call your attention to the alteration which has been made in the 57th clause of the Mutiny Act of the present session of Parliament, which declares that any man having been enrolled as a volunteer under the Act 15 and 16, Victoria Cap. 50, to serve in the militia at the time of offering to enlist, who shall deny that he is a militia man then actually enrolled and engaged to serve, or shall deny to the Justice before whom he shall be attested, that he belongs to the militia, shall, in lieu and instead of the penalties now imposed by law for such offence, on conviction thereof before any one Justice in the United Kingdom, or upon the offence being proved before a regimental Court of Inquiry, be subjected to a stoppage of one penny a day from his pay for 18 calendar months, to be applied as the Secretary at War shall direct.

By this clause the militia volunteer enlisting into the line will be punished by stoppage in lieu of imprisonment, but in other respects the law remains the same, and his liability to serve in the line in the United Kingdom, except when the militia regiment to which he belongs shall be called out for training or for embodied service, still continues ; and when his militia engagement shall have expired he will belong absolutely to the regiment of Her Majesty's service into which he has enlisted.

I am to add that militia men enlisting into Her Majesty's regular forces, cannot be allowed to count their service in the army until the expiration of their militia engagement, except by the special sanction of the Secretary at War.

I have the honor to be,

Your most obedient servant,

B. HAWES.

CIRCULAR No. 1142.

WAR OFFICE, 14TH JUNE 1853.

SIR,

123395 / 2 With reference to circular No. 1140, dated 10th April, pointing out that, by the 57th clause of the Mutiny Act, any man who shall enlist into any corps of Her Majesty's regular forces, or into the forces of the East India Company, whilst enrolled and engaged to serve in the militia, will be subjected to a stoppage of 1*d.* a day from his pay for 18 calendar months, I am directed to request that should any such men be enlisted in the regiment under your command, a correct list of the same may be transmitted to this department on the accompanying form.

The stoppages above referred to for all men who may have subjected themselves to the same, or who may hereafter enlist whilst enrolled in the militia, should commence from the date of their being otherwise entitled to receive full pay in the corps into which they have enlisted, whether released from future attendance with the militia or not, and credit should be given for the same in form 10 of the pay list, under the heads enumerated in the form of return transmitted herewith, and the total carried as a distinct item, as a militia credit, to the general state of the pay list, immediately below class A 4.

I am, however, to acquaint you that men who may have been imprisoned under the previous Mutiny Act, for the offence of enlisting into the line whilst belonging to the militia, will not be liable to the forfeiture in question.

I am further to acquaint you that whenever soldiers of the regiment under your command are detached to regiments of militia, for the purpose of affording drill instruction, their full pay and beer money and their marching allowances, under Articles 345 to 352 of the Explanatory directions of 1st July 1848, to and from the regiments of militia, are to be charged in the accounts of the regiment to which they belong; but the allowance granted to them as drill instructors will be paid to them by, and charged in the accounts of, the militia regiments.

I am to add that Sergeants, Corporals, and Drummers who are transferred from the line &c. to serve on the permanent staff of the militia, under the arrangements promulgated in the Horse Guards' circulars of 18th September and 13th October 1852, and 5th March 1853, are to receive full pay as in the line for the limited periods therein prescribed, unless sooner placed on the pension list, subject to a deduction from their pay not exceeding 9*d.* a day for a Sergeant, and 6*d.* a day for a Corporal, to be distributed at the discretion of the Commanding officer to the lance Sergeants and lance Corporals who may be employed to perform their duty during their absence, and the places of such non-commissioned officers so transferred, should not, therefore, be filled up until they have ceased to receive line pay.

The line pay of such men, and their marching and family allowances on proceeding to join the militia regiments, are to be charged in the accounts of the line regiment from which they are transferred.

Sergeants, Corporals, and Drummers actually discharged at the regiment, for the purpose of proceeding immediately to join a militia regiment for appointment to the permanent staff, are not to receive the 20 days' pay granted by Article 44 of the Warrant, and Regulations of the 1st July 1848, but are to receive full pay to the date preceding that on which they are actually placed on the pension, but their places may be filled up from the date of their discharge from the regiment, which full pay, and not the 20 days' pay, will be chargeable in the accounts of the regiment from which they are discharged.

I have the honor to be,

No. 150 *of* 1853, *Military Department.*

OUR GOVERNOR OF THE PRESIDENCY OF FORT WILLIAM IN BENGAL.

We have to apprise you that His Grace the Duke of Newcastle has instructed the Governor of Western Australia, that he sees no objection to officers who have retired from the Company's service being permitted to settle in Western Australia, and to enjoy in that colony the same facilities in acquiring land which are always allowed to military and naval officers generally, under the existing regulations, a copy of which is enclosed.

We are &c.,

(Signed) RUSSELL ELLICE, and
Thirteen other Directors.

London,
7th December 1853.

Information for the use of Military and Naval officers proposing to settle in certain of the British Colonies.

1. Privileges in the acquisition of land are at present allowed to military and naval officers in the colonies of New South Wales, Victoria, Van Diemen's Land, South Australia, Western Australia, New Zealand, Ceylon, and the Cape of Good Hope. As, however, the control of the waste lands of the Crown in New Zealand is vested in the legislature of that colony, it must be distinctly understood that Her Majesty's Government cannot guarantee the continuance of the following regulations, but that they will be liable to be altered or discontinued by the local legislature; and the same caution will be applicable to any other of the colonies named, in which the same control may hereafter be transferred to the local legislature.

The same privileges are extended to officers of the East India Company's service in Van Diemen's Land.

2. In the above named colonies, land is disposed of by sale only; but officers purchasing land are allowed a remission of the purchase money, according to the undermentioned scale:

Field officers of 25 years' service and upwards, in the whole,	£600
Field officers of 20 years' service and upwards, in the whole,	500
Field officers of 15 or less years' service, in the whole,	400
Captains of 20 years' service and upwards, in the whole,	400
Captains of 15 years' service or less, in the whole,	300
Subalterns of 20 years' service and upwards, in the whole,	300
Subalterns of 7 years' service and upwards, in the whole,	200

Subalterns under 7 years' standing are not entitled to any remission in the purchase of land.

Regimental staff officers, and medical officers of the army and navy, are allowed the benefit of this rule;—But military chaplains, commissariat officers, and officers of any of the civil departments of the army; pursers, chaplains, midshipmen, warrant officers of every description, and officers of any of the civil departments of the navy, are not allowed any privileges in respect of land. Although members of these classes may have been admitted formerly, and under different circumstances, they are now excluded. Mates in the Royal navy rank with Ensigns in the army, and Mates of three years' standing, with Lieutenants in the army, and are entitled, respectively, to corresponding privileges in the acquisition of lands.

3. In order to take advantage of this privilege, officers of the army and navy on full or half pay should provide themselves with a certificate from the office of the General Commanding in Chief, or of the Lords Commissioners of the Admiralty, or of the Master General of the Ordnance, shewing that their settlement in a British colony has been sanctioned, and stating their rank and length of service. No document from the office of the Secretary of State is necessary.

4. This certificate will not on any account be issued more than once to the same officer, or to any officer on half pay who shall for two years immediately preceding the date of this notice have resided in the colony in which he seeks to make it available.

5. Gentlemen who have ceased to belong to Her Majesty's service will not be allowed advantages in the acquisition of land. This rule, however, is not to affect officers who, having obtained permission to settle in a British colony, have quitted the service for the purpose of doing so. But in such cases, it will be necessary that their certificate of service and permission should bear the date of their retirement from the service, and that within one year from that date, but not otherwise; it should be presented to the Governor of one of the above-named colonies, which will be sufficient warrant for allowing the bearer the advantages to which his rank and length of service may entitle him, according to the above scale.

6. The object of the regulations being to encourage the permanent settlement in the above named colonies of military and naval officers, and it being necessary to prevent those who have no intention of settling there from taking advantage of the privilege, officers will not, for the space of two years from the making out of their certificates, receive a Crown grant for any land purchased by such certificates, but will, in the mean time, receive a "Location Ticket." At the expiration of two years the officer, on showing to the satisfaction of the Governor that he is *bonâ fide* a resident settler in the colony, and has so resided continuously since receiving his "Location Ticket," will be entitled to a Crown grant in exchange for it. If, however, application should not be made for the exchange of the "Location Ticket" within 12 months from the expiration of the two years for which it is granted, it will be considered to have lapsed; and the land will be open to sale or grant. In case of the officer's dying while holding a "Location Ticket," the land to which it refers will be transferred to his legal representative.

In case of such death occurring before the "Location Ticket" is obtained, the Governor of the colony is authorized to make the certificate available in favor of the child, or other nearest representative of the deceased officer, as he may find advisable.

7. For the convenience of officers, the following heads are subjoined of the Rules for the sale of land in the Australian settlements:—

All lands are disposed of by sale alone, and must have been once at least exposed to public auction.

The lowest upset price is not less than £1 per acre; but the Government has power to raise the same by proclamation, though not again to reduce it.

The lands are distinguished into three different classes; viz. town lots, suburban lots, and country lots.

Upon town and suburban lots, as well as upon a proportion not exceeding one-tenth of the whole of the country lots offered for sale at any auction, the Governor has the power of naming a higher than the general or lowest upset price: these last to be designated "special country lots."

Town and suburban lots are in no case disposed of except by public auction; but country lots, which have already been put up to public auction and not sold, may be disposed of afterwards by private contract at the upset price.

No lands are sold by private contract, except for ready money. When sold by public auction, one-tenth at least of the whole purchase-money must be put down, and the remainder within one calendar month, or the deposit is forfeited.

Lands are put up for sale in lots not exceeding one square mile in extent.

8. In Ceylon, land is sold by auction at an upset price, which is to be fixed by the Governor, but which is not to be less than £ 1 per acre. Before the lands are exposed for sale, they will be surveyed by the Government and duly advertised.

9. At the Cape of Good Hope, the upset price is 2*s.* per acre in the old colony, and 4*s.* per acre in the district of Natal.

10. The several prices above-mentioned are of course subject to a revision at any time by the proper authorities; and the pecuniary amount of the remission made to officers cannot be increased on account of an increased value set upon the lands.—*July* 1853.

No. 68 of 1854.——The Governor General of India in Council directs that the following paragraph of a military letter from the Honorable the Court of Directors to the Governor of Bengal, No. 149, dated 7th December 1853, be published in General Orders:

Letter, dated 1st August 1853, *No.* 185.

BY THE COMMANDER IN CHIEF.

Under instructions from Government, His Excellency the Commander in Chief is pleased to direct the publication in General Orders of the following notification, relative to the examination of candidates, in April next, in the College of Fort William, for the purpose of filling existing vacancies in the military class of the medical college:

NOTIFICATION.

An examination will be held early in April 1854, in the medical college, for the purpose of filling up existing vacancies in the military class of the medical college.

All candidates will be expected to possess a knowledge of the Hindoostance language adequate to enable them to read and write it in the Persian or Devanagree character.

2. All Interpreters of regiments and battalions will be requested, through the military department, not to grant certificates of qualification to any candidate under the age of fifteen and above that of twenty years: and likewise to reject all who may not pass the prescribed ordeal without a sufficient degree of fluency and facility. Much disappointment, expense, and inconvenience have already been experienced by lads from distant stations being furnished with certificates, who are found, on examination, quite unqualified for admission, and it is with a view to prevent the recurrence of this, that the above measure has been adopted.

3. Candidates for admission will be requested to present themselves before the Secretary to the medical college, at least three days prior to the day of examination, in order that a proper descriptive roll may be prepared for transmission to the Examiners of the college of Fort William.

4. The preference in selection, attainments being equal, will be given to those who have already been attached to, or served in civil or regimental hospital.

5. No candidate will be allowed to present himself for examination who cannot produce a written testimonial of his conduct and character, or afford satisfactory evidence as to who and what he is. A few individuals of decidedly bad character have, upon recent occasions, managed to obtain admittance, it is supposed, by producing false papers. The strictest care and scrutiny will therefore be exercised in examining the credentials of all future candidates, who will, in addition, require to be furnished with regular muster rolls, in order that they may be identified.

6. All pupils must, as a condition of their appointment, reside within the college premises at all times, and never be absent from morning and evening muster without special leave.

7. All students in the military class are amenable to the Articles of War, and regularly enlisted as soldiers.

8. No candidate will be admitted to the school who is physically unfit for the duties of a soldier.

By order,

Fort William,
16th January 1854.

(Signed) FRED. J. MOUAT,
Secretary, Council of Education.

BY THE COMMANDER IN CHIEF.

His Excellency the Commander in Chief is pleased to direct that the following General Order, which was issued to Her Majesty's regiments in India on the 19th instant, be published to the Army:

GENERAL ORDER.

Head Quarters, Camp, Cawnpore, 19th January 1854.

Under instructions from the Horse Guards, the Commander in Chief in India directs the publication of the following General Order, for the information of Her Majesty's forces in India:

HORSE GUARDS, *25th November* 1853.

GENERAL ORDER.

The General Commanding in Chief has had his attention drawn to a General Order issued by Major General Godwin, commanding the army of Burmah, dated Prome, 17th Feby. 1853.

In that order the Major General directs that the officer of the army in command of troops, shall "signify to the officer commanding the marines and sailors on shore, that both services "are under his orders, and that if a naval officer objects to obey, the military officer will "withdraw the troops."

"If the naval officer should assume an independent command with his own men, or advance "without consulting the officer in command of the troops, the latter will, after remonstrating "with the naval officer, refuse to co-operate with him, and return to his quarters."

General Viscount Hardinge is of opinion that this peremptory order, compelling a military officer to demand, under all circumstances, the command of marines and sailors on shore,—and, if the naval officer should object, leaving the former no choice but to return with his men to their quarters,—is one calculated to produce mischievous consequences.

His Lordship considers the instructions laid down in Her Majesty's regulations and orders for the army, to be sufficient for the guidance of the army on these occasions of conjoint expeditions.

The General Commanding in Chief directs, therefore, that the General Order dated Prome, 17th February 1853, be rescinded.

His Excellency the Commander in Chief of Her Majesty's forces in the East Indies will publish this General Order for the information of the army.

An adherence to the orders for the army, as laid down for it in Her Majesty's regulations, when acting with the navy, has, during the last century, carried both services through a successful career of public duty with uninterrupted harmony and good-will; and the General Commanding in Chief has the fullest confidence that the officers of the two services will, as heretofore, heartily co-operate for the maintenance of the Honor of the British Flag, and the promotion of the public interest.

By command,

Adjutant General.

BY THE COMMANDER IN CHIEF.

The following is published in modification of paragraph 2 of the General Order of the 17th ultimo, for the prevention of holes and excavations in military cantonments.

2. Officers commanding stations are to issue strict orders prohibiting this irregular and most pernicious practice in all private compounds, without a written engagement being furnished by the parties, who, under the exigency of building at new stations, may not otherwise be able to procure materials, that all holes dug by them shall be again filled up with *fresh earth* within a stated period (to be fixed by the local military authorities); and the Commander in Chief, with the sanction of Government, further directs that measures be at once adopted at every station in this Presidency for filling up or otherwise remedying all such existing holes or noxious excavations on public sites, and in private compounds, as in the opinion of the station medical authorities are, or are likely to become, prejudicial to the sanatory condition of the station. It is to be understood that the cost of remedying the evils referred to in private compounds, is to be defrayed by the proprietors of the estates. And in future no transfer by sale of a house or estate in cantonments is to be authorized until the owner has certified in writing that all holes have been filled up or rendered unobjectionable, or that the intending purchaser has agreed to do so at his own expense and without delay.

Order books are to be corrected accordingly.

The following orders are, with the sanction of Government, confirmed:

BY THE COMMANDER IN CHIEF.

The Army will learn with a grief corresponding to that with which the Commander in Chief announces to it, the death of the distinguished Adjutant General of Her Majesty's forces in India, Colonel A. S. H. Mountain, C. B.

The melancholy event took place in the cantonment this morning.

Her Majesty's service has sustained a great loss.

Doubtless, the important duties of the department over which Colonel Mountain has presided through a course of five years have been discharged with equal punctuality by various predecessors, and with equal regard for the discipline and honor of the Army; but rarely, if ever, exhibiting that intimate blending of urbanity of demeanour and considerate feeling, with unflinching steadiness of purpose and impartiality unswerving in the performance of those not unfrequently onerous and painful duties;—never with a warmer zeal for the welfare of both officer and soldier, and for upholding the fair name of Her Majesty's service at large.

The Commander in Chief has no need to record for information in India, or of Her Majesty's Army generally, that the able official adviser and friend, whose loss he is deploring, served as head of the same department throughout the China war of 1840–2, and held command of a brigade throughout that of the Punjaub in 1848–9; was with the force under Sir Walter Gilbert, in command of a division; and uniformly acquitted himself, in each of those important trusts, with the sound judgment and soldier-like ardour which never failed to animate him wherever the opportunity offered.

In all the social relations of life, Colonel Mountian made himself extensively beloved, and universally respected and esteemed; and Sir William Gomm feels well assured that his departure will be sincerely and deeply regretted by numbers of all classes and orders of society in India as well as at home.

(Signed) W. M. GOMM, *General,*
Commander in Chief, East Indies.

GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER IN CHIEF,

Head Quarters, Camp, Futtehgurh, 9th February 1854.

At a general Court Martial assembled at Moulmein on Wednesday the 4th day of January 1854, first Lieutenant Charles Richard Blair, of the 2d European Bengal fusiliers, was arraigned on the following charge: viz.

For conduct highly unbecoming the character of an Officer and a Gentleman, in having, at Moulmein, on the eighth of August one thousand eight hundred and fifty-three, in company with first Lieutenant John Tovey and second Lieutenant Frederick Moffat, of the same regiment, proceeded to the house of Mister Judah Ezekiel, Merchant, and there wantonly caused and joined in a serious disturbance, in the course of which Mister Ezekiel was maltreated and his property destroyed, and which eventually resulted in an affray in the public street, and his, the prisioner's, being subjected to the indignity of being conveyed to the police station under restraint.

Finding.—The Court having maturely weighed and considered the evidence before it, and what has been stated on the defence, is of opinion that the prisoner, first Lieutenant Charles Richard Blair, of the second European Bengal fusiliers, is

Not guilty of "conduct highly unbecoming the character of an Officer and a Gentleman," nor of the words "wantonly caused" and "serious," but guilty of the remainder of the charge, which the Court considers conduct to the prejudice of good order and military discipline.

Sentence.—The Court having found the prisoner "guilty" to the extent above specified, do sentence him, the said first Lieutenant Charles Richard Blair, of the second European Bengal fusiliers, to be reprimanded in such manner as His Excellency the Commander in Chief may see fit to direct.

Approved and confirmed,

(Signed) W. M. GOMM, *General,*
Commander in Chief, East Indies.

Head Quarters, Camp, Khodagunge, 1st *February* 1854.

REMARKS BY HIS EXCELLENCY THE COMMANDER IN CHIEF.

The Commander in Chief considering that the police at Moulmein acted with unnecessary precipitation in seizing Lieutenant Blair and his companions, precipitation which seems to have led to the affray in the public street, is of opinion that an exception of the concluding averment of the charge should have been made in the Finding in this case, as was done in the verdicts in the cases of Lieutenants Tovey and Moffat.

His Excellency hopes that this trial will be a warning to Lieutenant Blair, to be more circumspect in his future conduct.

Lieutenant Blair is to be released from arrest and directed to return to his duty.

Before the same Court Martial, on Tuesday the 10th day of January 1854, first Lieutenant John Tovey, of the second European Bengal fusiliers, was arraigned on the following charge: viz.

For conduct highly unbecoming the character of an Officer and a Gentleman, in having, at Moulmein, on the eighth of August one thousand eight hundred and fifty-three, in company with first Lieutenant Charles Richard Blair and second Lieutenant Frederick Moffat, of the same regiment, proceeded to the house of Mister Judah Ezekiel, Merchant, and there wantonly caused and joined in a serious disturbance, in the course of which Mister Ezekiel was maltreated and his property destroyed, and which eventually resulted in an affray in the public street, and his, the prisoner's, being subjected to the indignity of being conveyed to the police station under restraint.

Finding.—The Court having maturely weighed and considered the evidence before it, and what has been stated on the defence and the evidence in proof thereof, is of opinion that the prisoner, first Lieutenant John Tovey, of the second European Bengal fusiliers, is

Not guilty of "conduct highly unbecoming the character of an Officer and a Gentleman," nor of the word "serious." Guilty of the remainder of the charge; but the Court attach no criminality to the fact described in the last part of the charge, namely, "and his, the prisoner's, being subjected to the indignity of being conveyed to the police station under restraint"; and the Court are further of opinion that the conduct of which the prisoner, first Lieutenant John Tovey, is found guilty, is to the prejudice of good order and military discipline.

Sentence.—The Court having found the prisoner guilty to the extent above specified, doth sentence him, the said first Lieutenant John Tovey, of the second European Bengal fusiliers, to be suspended from rank and pay and allowances for a period of two calendar months.

Approved and confirmed,

(Signed) W. M. GOMM, *General*,
Commander in Chief, East Indies.

Head Quarters, Camp, Khodagunge,
1st February 1854.

REMARKS BY HIS EXCELLENCY THE COMMANDER IN CHIEF.

As observed on the case of Lieutenant Blair, the Commander in Chief is of opinion that the police officers acted with great precipitation, and that had proper caution on their part been displayed, the affray in the public street would not have taken place.

In the hope that this trial will be a sufficient warning to the prisoner, and on the consideration of the length of time that he has been in arrest, the Commander in Chief is pleased to remit the punishment awarded.

Lieutenant Tovey is to be released from arrest and directed to return to his duty.

Before the same Court Martial, on Thursday the 12th day of January 1854, second Lieutenant Frederick Moffat, of the second European Bengal fusiliers, was arraigned upon the following charge: viz.

For conduct highly unbecoming the character of an Officer and a Gentleman, in having, at Moulmein, on the eighth of August one thousand eight hundred and fifty-three, in company with first Lieutenants Charles Richard Blair and John Tovey, of the same regiment, proceeded to the house of Mister Judah Ezekiel, Merchant, and there wantonly caused and joined in a serious disturbance, in the course of which Mister Ezekiel was maltreated and his property destroyed, and which eventually resulted in an affray in the public street, and his, the prisoner's, being subjected to the indignity of being conveyed to the police station under restraint.

Finding.—The Court having maturely weighed and considered the evidence before it, and what has been stated on the defence and the evidence in proof thereof, is of opinion that the prisoner, second Lieutenant Frederick Moffat, of the second European Bengal fusiliers, is

Not guilty of "conduct highly unbecoming the character of an Officer and a Gentleman," nor of the words "wantonly" and "serious." Guilty of the remainder of the charge; but the Court attach no criminality to the fact described in the last part of the charge, namely, "and his, the prisoner's, being subjected to the indignity of being conveyed to the police station under restraint"; and the Court are further of opinion that the conduct of which the prisoner, second Lieutenant Frederick Moffat, is found guilty, is to the prejudice of good order and military discipline.

Sentence.—The Court having found the prisoner guilty to the extent above specified, doth sentence him, the said second Lieutenant Frederick Moffat, of the second European Bengal fusiliers, to be suspended from rank and pay and allowances for a period of one calendar month.

In the hope that this trial will be a sufficient warning to the prisoner, and on the consideration of the length of time that he has been in arrest, the Commander in Chief is pleased to remit the punishment awarded.

Lieutenant Moffat is to be released from arrest and directed to return to his duty.

	Date of arrival at Fort William.
1st Lieutenant Edmund James Goodridge, of artillery, ———	30th January 1854.

No. 110 of 1854.——The following communication from the Honorable the Court of Directors to the Governor General of India in Council, is published for general information:

MILITARY DEPARTMENT.

Copy paragraphs which will form a No. in the next List of Packet to the Governor General of India in Council.

1. The law as affecting the absence of our servants from India having been revised by a recent Act of the Legislature, we have had under our consideration the regulations for furloughs to Europe, and for leave of absence at the Cape of Good Hope, New South Wales, and elsewhere out of India.

2. Our officers avail themselves of these regulations to a very large extent, as will appear from the following statement of absentees (excluding regimental Colonels), prepared from the latest official Army lists received by us, dated in July 1853:—

Numbers of military and medical officers on furlough to Europe, on private affairs,—	157
On furlough to Europe, on sick certificate, ———	641
On leave to Sea, the Cape, New South Wales, &c., ———	125

besides large numbers absent on sick certificate and on private affairs in India.

3. With the view of adapting the regulations to the present increased facilities of communication, and to correct as far as possible any tendency in them to deter officers from resorting to the places which may be most conducive to the restoration of their health, when a change of climate is required for that purpose, we have resolved to adopt the following rules, to have effect from the date of their promulgation in General Orders, in substitution for the existing rules; viz.

4. Furloughs or leaves of absence on sick certificate to be granted for a term not exceeding eighteen months, whether they be to any place in Europe or elsewhere out of India. The regimental allowances of his rank, for a term not exceeding six months, to be granted to the officer receiving such leave from the date of his departure from his Presidency; regimental pay to be drawn during the period of his absence.

5. Extended leave may be granted as at present, on production of medical certificates, for further periods not exceeding eighteen months in the whole. During this further time regimental pay to be continued, but under no circumstances for a longer period than three years altogether, from the commencement of the absence.

6. Furloughs on private affairs to be allowed for a period of two years at the expiration of ten years' service, and for a second period of two years after twenty years' service in India. Officers who have taken the benefit of the regulation for the grant of furloughs on sick certificate to Europe or elsewhere beyond Sea, to be ineligible to a furlough on private affairs until they have served six years from the date of their last return to duty.

7. Pay of regimental rank to be drawn whilst on furlough, but not beyond the period of two years in each furlough.

8. All grants of furlough on private affairs to be subject to the exigencies of the public service, and to the regulations framed for the preservation of the efficiency of each regiment by limiting the number of absentees.

9. Officers holding staff appointments may have leave of absence on sick certificate or furlough, for a period not exceeding six months, without losing their appointment, and, if on sick certificate, receiving for that time half staff allowances; but on any absence beyond that period, the staff appointment and allowances cannot be retained, except on special grounds, to be sanctioned by the Government of the Presidency. Any such special grant of leave to be reported to us directly, with the reasons for it, and to be subject to our approbation.'

10. Having made these arrangements for furloughs on private affairs and sick certificate, we think it right to modify the privileges conceded by the present regulations to absentees in India, at the Cape of Good Hope, and elsewhere within Indian limits, of counting their time of absence on sick certificate and on private affairs for their retiring pensions, whilst absentees on furlough or on sick certificate in Europe have hitherto had no such advantage.

11. We have in consequence resolved that no furlough or leave of absence, as announced in General Orders, exceeding two years in twenty years of aggregate service, three years in twenty-five years' service, and four years in 30 years' service, shall be allowed to count as service for the retiring pension,* and that no difference shall be made in this respect between leave of absence taken in Europe or elsewhere, or whether the leave be on sick certificate or on private affairs.

* For full pay of regimental rank (under regulations of 1796) after 22 years' service in India.
For full pay of Captain after 20 years' service in India.
For full pay of Major after 24 ditto ditto.
For full pay of Lieut. Col. after 28 ditto do.
For full pay of Colonel after 32 ditto do.

12. If regimental officers now in the service prefer retaining what may be considered the advantage of the present regulations, they may do so, provided they signify their wish to that effect through the proper department when they next apply for furlough or leave of absence.

BY THE COMMANDER IN CHIEF.

His Excellency considers it to be due from him to the Army of the Honorable Company serving throughout India, more particularly so to its body of Regimental Officers, to promulgate generally and draw especial notice to an order recently issued to the troops of the Bombay Presidency, dated Bombay, 11th February 1854.

His Excellency feels the greater satisfaction in giving all the effect in his power to the matter of the General Order in question, since his own sentiments, grounded also upon a sufficiently extensive experience, are entirely in accordance with those so heartily given expression to by Lord F. FitzClarence; both with regard to the professional merits and gentlemanly bearing of the Officers of the Honorable Company's service generally, and their entire freedom from the reproach so unwarrantably cast upon them in a publication appearing under the signature of an Officer who had rendered valuable service in his station on the Bombay establishment; but reflecting gravely and in a most objectionable mode upon the character and institutions of the whole Native Army: a course of proceeding with so much reason animadverted upon in the General Order in question.

(Signed) W. M. GOMM, *General,*
Commander in Chief, East Indies.

GENERAL ORDER

BY HIS EXCELLENCY THE COMMANDER IN CHIEF IN BOMBAY,

Head Quarters, Bombay, 11th February 1854.

The attention of the Commander in Chief having been drawn to a paper headed "remarks on the Native troops of the Indian Army," under the signature of "John Jacob," which appeared in the *Bombay Times* newspaper of the 30th ultimo and the 1st instant, and contains observations and statements of a most objectionable nature, relative to the organization, discipline, and order of the Native Army, His Excellency feels himself called upon to express his marked disapprobation of the way in which Major Jacob has chosen to make his opinions known to the public. All officers have a perfect right to form opinions on the organization and order of the Army they may have the honour to serve in; but they are not to publish their opinions in their official capacity. Major Jacob had full permission to make any suggestions he might have conceived would have been for the benefit of the Army, to the Commander in Chief, and indeed he was called upon to do so by the General Order No. 1, dated 1st June last. He had no right therefore to reflect upon, and censure nearly every rule, regulation, and order framed by his superiors for the administration of justice and discipline, and for the well-being of the Bombay Army—conduct, to say the least of it, most unmilitary, and tending to sow discontent in the Native ranks, and thereby greatly wound the discipline of the Native corps. Grieved as His Excellency is to have been obliged to make the foregoing remarks, His Lordship is still more so in having to censure Major Jacob for pointedly using the words "the refuse," as applicable to the Regimental Officers, an expression as unfounded in justice as it is insulting to that most excellent, hard-working portion of the Army, composed as it is of officers full of zeal and assiduity, and whose thoughts and wishes are to do their duty. To these Soldier-like sentiments and feelings of the officers doing duty with their corps, the Commander in Chief can fully testify, His Lordship having had the honour to have made the personal acquaintance of a large proportion of them within the last year, and a more gentlemanlike, zealous, hard-working set of officers does not exist. The Commander in Chief deeply laments being forced to observe that the conduct now so strongly condemned emanated from one who has received (most justly) honours from his Sovereign, and the approbation of the Government he has the honour and good fortune to serve.

(Signed) H. HANCOCK, *Lieut. Colonel,*
Adjutant Genl. of the Army in Bombay.

FORT WILLIAM, 3D MARCH 1854.

No. 212 of 1854.——The Honorable the Court of Directors having approved of a proposal for assimilating the scale of working pay of the Europeans attached to the corps of sappers and miners, to that authorized in the Royal sappers, and for establishing a scale on the same principle for the Native ranks, the Most Noble the Governor General of India in Council is pleased to publish the following rules, applicable to the three Presidencies, to have effect from the 1st January 1854:

EUROPEANS.

The Europeans attached to the corps of sappers and miners will be divided into three classes; viz.

CLASS 1ST.

I. The first class to be composed of men possessing superior acquirements as artisans or artificers and surveyors, and who must also have passed the examination prescribed by the regulations for Assistant Overseers.

II. This examination must be of a nature proving that the individual possesses a sufficient knowledge of English writing and accounts, to enable him to keep and to prepare the various books and returns required by the existing regulations; and such a knowledge of plan drawing as to enable him to frame an estimate, and to lay down a building from a plan; and also such a knowledge of the native language as may qualify him to converse in it with fluency. When practicable, the examination will be conducted by the officer commanding the sappers and miners; but in cases where this may be manifestly inconvenient or impossible, it will be made by the immediate commanding officer of the candidate, subject to the approval and confirmation of the officer commanding the regiment.

III. The 1st class will be open to all qualified men, irrespective of regimental rank; and each individual of it will receive eight annas per diem working pay when actually employed in surveying, levelling, marking out roads, plan drawing, estimating, working as an artisan, or superintending work shops, or as a teacher in schools, or as an instructor of others in field duties or in any trades.

CLASS 2D.

The second class to consist of artificers and artisans of inferior skill, and of first-class labourers; while actually employed and working as such, men of this class will receive working pay at six annas per diem.

CLASS 3D.

The third class to be formed of third-rate artisans and of second-class labourers. The working pay of this class to be four annas per diem when under instruction in surveying, levelling, plan drawing, or estimating, or whilst actually working, or while superintending native working parties employed either on field works or in making roads, or in other civil works.

Rule 2d.

Men of the first and second classes, when employed on any of the duties of the third class, to receive only the working pay of the last named class.

NATIVES.

The Native portion of the corps to be divided into three classes, to be composed indiscriminately of all grades below the rank of Jemadar, as their abilities and acquirements shall render them qualified for each.

CLASS 1ST.

The first class to be composed of superior artificers, and to receive three annas per diem working pay when employed as artificers at their respective trades, or in making mining frames, or on the superstructure of military bridges, or as native surveyors, or in marking out roads, or in giving instructions in trades, or in surveying, or in more advanced field works, or in schools.

CLASS 2D.

The second class to consist of artificers of inferior skill and first-class labourers. The working pay to be two annas and three pie per diem when employed at their respective trades, and when giving instructions in ordinary field works, or employed in the more advanced duties of sappers and miners, executing the regular sap, tracing batteries, levelling and boring, driving galleries and sinking shafts in mining, or in pontooning.

CLASS 3D.

The third class to be formed of third-rate artificers and second-class labourers. The working pay to be one anna and six pie per diem whilst under instruction as artisans or surveyors, and attending school for the purpose of learning practical geometry, plan drawing, arithmetic and mensuration, and when employed in acquiring a knowledge of the more advanced works, or in constructing ordinary field works, viz. trenches, batteries, boring rocks and blasting, and in the construction of roads and other works.

II. Men of the first class, when employed on the duties appertaining to the second and third classes, to receive the rates of working pay of these latter classes only; and in like manner men of the second class, when employed on the duties of the third class, to receive only the working pay of this last class.

If he shall desire an extension of this punishment beyond the above period, the case must be reported for the orders of the Commander in Chief.

2. Officers commanding companies are authorized to fine men under their command, to the extent of one-third of the day's rate of working pay, for repeated idleness or inattention; but such forfeiture is to be subject to the confirmation of the officer commanding the corps.

3. The removal of a man from a higher to a lower class, and the consequent lower rate of working pay, is invariably to be announced in regimental orders, as also his restoration to his original class.

BY THE COMMANDER IN CHIEF.

With the sanction of the Most Noble the Governor General in Council, the Commander in Chief is pleased to grant to the Native Army the indulgence of furlough from the 1st proximo, in the proportions and for the periods herein after specified. Should circumstances in any case prevent the indulgence being granted to the full extent now authorized, a report to that effect is to be made to the Adjutant General of the Army, for the information of His Excellency:

1. To corps in the Presidency division, and at Segowlie, leave is granted to the extent of five Native officers and thirty Non-commissioned officers per regiment, and to fifteen Privates per troop or company, for a period of seven and a half months, with exception to the troops serving in Arracan, to whom leave will not be granted. To the regiment of Ferozepore the extended period of nine months sanctioned in General Orders of 15th April last, is to be again granted, in consideration of the great distance of the men's homes from the station at which the corps is now serving.

2. To the corps in the Sirhind, Lahore, and Peshawur divisions, (excepting those employed West of the Indus, to whom the leave is not sanctioned), the indulgence is granted to the same number, for a period of seven months; but to those stationed at Mooltan and Rawul Pindee leave is extended to a period of nine months.

3. To the corps stationed in the Dinapore, Cawnpore, and Meerut divisions, including the corps at Deyrah and in Kemaoon, leave is granted to five Native officers and twenty Non-commissioned officers per regiment, and ten Privates per troop or company, for a period of six and a half months.

4. To the troops in Pegu leave will not be granted on this occasion, and the Commander in Chief desires that it may be clearly explained to them as well as to the troops serving in Arracan and Trans-Indus, that, in consideration of the indulgence being withheld from them, the Most Noble the Governor General in Council has authorized extra leave being sanctioned to them when they shall have been relieved from their present position.

5. Commanding officers will be careful that leave is granted with strict regard to priority of claims, and will limit the time granted to individuals, with reference to the distance of their homes, and the nature of their business, so as to allow as full a participation as possible in the indulgence.

6. Officers and men going on furlough are to be reminded of the penalties attached to the overstaying of their leave, as well as the necessity of giving notice to their regiments if sickness should detain them at their homes.

7. The General Orders of the 28th April 1810, and 21st September 1841, containing precautionary directions to Native troops when travelling to or from their regiments, are to be particularly explained to the officers and men of every regiment, previous to their departure on leave.

8. The attention of Commanding officers is directed to General Orders of the 19th of February 1834, regulating the mode of granting the leave now authorized, as regards non-commissioned officers.

The undermentioned subordinate medical servants have passed the examination prescribed by Government General Order No. 200 of the 25th June 1847, and General Order by the Commander in Chief of the 23d July 1849, and have been pronounced qualified for promotion as specified below:

To

SIR JAMES C. MELVILL, K. C. B.,

SIR, *East India House.*

I am directed to acknowledge the receipt of your letter of the 1st instant, with its enclosures, herewith returned, and to acquaint you that Article 27 of the Royal Warrant of the 1st July 1848 regulates the cases of soldiers re-enlisting; and under Clause 2 of that Act (page 232) Private Joseph O'Neil would be entitled to reckon his former service, and would be allowed to resume the good conduct rewards in his possession at the time of his discharge. Under the same Warrant, Clause 2, page 211, a free discharge may be granted *as an indulgence* upon certain conditions, but the soldier cannot demand his discharge until the expiration of his engagement as a matter of right.

This indulgence having been granted to Private O'Neil, he would, under Act 15 and 17 of the same Warrant, receive a free discharge in consideration of 12 years' service combined with two distinguishing marks; and this would have been the course if the man has received his discharge on the British establishment.

The man would not have been subjected to any stoppage on account of bounty paid to him on re-enlistment, there being no regulation of this office imposing such a stoppage, but he would have been entitled, under the regulations, to marching money to carry him to the place of enlistment.

I have the honor to be, &c.,

War Office,
14th December 1853.

GENERAL ORDER.

Head Quarters, Camp, Deyrah, 17th March 1854.

At a general Court Martial assembled at Rawul Pindee on the 23d day of February 1854, Lieutenant William Cumming, of Her Majesty's 32d regiment of foot, was arraigned on the following charges: viz.

1st. For gross disrespect to his superior officer, Captain Moore, of Her Majesty's 32d foot, in having, at Rawul Pindee, on the 26th of December 1853, proceeded to the quarters of Lieutenant J. Hallowes, of Her Majesty's 87th regiment, and insisted on re-opening a dispute with that officer which had been amicably settled two days previously in the presence and with the sanction of Captain Moore, to whom he, Lieutenant Cumming, also apologized for rejecting his mediation at the early stage of the difference, and he, Lieutenant Cumming, at the settlement of the said dispute, having been released from the arrest in which he had been placed by Captain Moore, on the express understanding that the dispute was to be considered as finally settled.

2d. For having, at Rawul Pindee, on the 26th of December 1853, given a challenge to Lieutenant Hallowes, 87th foot, to fight a duel with him, Lieutenant Cumming.

Major James Abbott, of artillery, to be Agent for the manufacture of gun-powder at Ishapore, in succession to Major W. Anderson, C. B., promoted.

FORT WILLIAM, 17TH MARCH 1854.

No. 277 of 1854.——The Most Noble the Governor General in Council is pleased to promulgate the following rules, for the guidance of pension Pay Masters in the investigation and disposal of cases of fraud on the part of native family pensioners, in their respective circles of payment:

1. Whenever a pension Pay Master may find reason to suspect that any individual has obtained admission into the family pension establishment through fraudulent means, he will immediately institute an inquiry into the matter in his own office, receiving for this purpose the evidence of any other individuals who, from a personal knowledge of the circumstances of the suspected party, may be in a condition to vouch for the validity or otherwise of his claim to the pension. The pension Pay Master will also, if he thinks fit, address the officer commanding the regiment to which the deceased Native Soldier belonged, on whose account the pension may have been granted, for extracts from the regimental kindred rolls, copies of the proceedings of the regimental committee which admitted the claim to pension, or any other information that may be necessary for the full elucidation of the case.

2. If, upon the evidence thus obtained, the pension Pay Master shall be satisfied in his own mind that the charge of fraud has been substantiated against the suspected individual, he will transfer the case, with a brief summary of the evidence collated by himself, to the Magistrate of the district or cantonment in which he may be located, who will adopt the necessary measures for apprehending and bringing the accused to trial.

3. If the proceedings in the Magistrate's Court result in the conviction of the accused, such result, with a narrative of the particulars of the case, will be reported by the pension Pay Master through the Military Accountant, for the information of Government, with a view to the name of the impostor being struck off the lists of the family pension establishment.

4. In the event of the pension Pay Master failing, from want of sufficient evidence or from any technical difficulties, in obtaining a conviction in the Magistrate's Court against a pensioner whom he may, nevertheless, consider liable to a strong suspicion of guilt, he will report the case with his opinion to the Military Accountant, for the eventual orders of Government.

5. Whenever the pension Pay Master may consider it doubtful, after taking all evidence within his reach, whether or not the party upon whom suspicion rests is really guilty of fraud, he will report the case to the Military Accountant for consideration and orders as to its being made over for trial.

6. When mere suspicion of guilt exists, unsupported by any credible evidence, no report nor any measures for a criminal prosecution will be necessary.

7. The cases of the sureties of individuals convicted of having fraudulently obtained admission into the family pension establishment, will be disposed of in general accordance with the rules above laid down in respect of the principal offenders; but it must always be borne in mind that there is not the same degree of *primâ facie* evidence of guilt in their case as there is in the cases of the principals, and that greater caution is therefore necessary both in making them over for trial to the Criminal Courts, and in recommending to Government that their names be struck off the pension list.

8. It has happened, occasionally, in cases in which sureties have been called upon to vouch for the identity of a family pensioner appearing for the first time to claim his stipend, that they through ignorance or carelessness, but without fraudulent connivance, have asserted the identity

of claimants who have subsequently proved to be impostors. The cases of such sureties will not be made over to the Criminal Courts for trial, but will be specially reported to Government through the Military Accountant, to be dealt with either by temporary or permanent deprivation of pension, or such other punishment as the circumstances of each case may seem to require. The more aggravated cases, in which the sureties shall be distinctly proved to have wilfully aided in, and participated in the gain arising from any fraud or attempted fraud upon the State, will be prosecuted in the Criminal Courts, in like manner as the cases of the principal offenders.

9. In the cases of the sureties on whose evidence before the regimental committees claimants have been admitted into the family pension establishment, there is more reason to suppose that they were acquainted with the real state of things.

This class of sureties is usually composed of men belonging to the same regiment as the deceased Native officer or soldier on whose account the pension is granted, and it may be presumed, therefore, that they are generally well acquainted with the circumstances of the deceased, and of the individual claiming family pension on his behalf. Caution should, however, be exercised in every case in making over the sureties for trial in the Criminal Courts; and it must be remembered, in instances in which they are still with their corps, that it will be necessary to submit their names through the Military Accountant to Government, with a view to such notice being taken of their conduct as His Excellency the Commander in Chief may deem to be fit, instead of making them over to the Civil authorities.

10. In the event of any individual pensioner accused of fraud, whether principal or surety, absconding or placing himself or herself beyond reach of a prosecution, the Rule at Section XXI. Art. 155, of the Pay and Audit Regulations of 1849, will be enforced by the Pension Pay Master.

11. Each case will be kept distinct, and reported separately to the Military Accountant.

(Signed) J. STUART, *Colonel*,

BY THE COMMANDER IN CHIEF.

His Excellency the Commander in Chief is pleased to express his disapproval of a practice that has been found to obtain in some regiments of the Native Army, of offering men accused of misconduct the option of taking their discharge or of standing a Court Martial. Instances have frequently occurred where the former alternative having been adopted the discharged soldiers have appealed to the Governor General or the Commander in Chief, stating that their discharge had been forced upon them, and these appeals have caused much embarrassment, and involved a troublesome correspondence that might have been avoided had the accused been brought before a Court Martial when the imputed offence was first made the subject of enquiry.

2. It is to be considered a standing order in future, that if a Native soldier is thought unfit to remain in the service by reason of any offence with which he is charged, he cannot be allowed the option of taking his discharge, but must be brought to trial and his case disposed of by a Court Martial, unless under very peculiar circumstances, when application for the Commander in Chief's orders may be made, *full* particulars of the case being sent up for His Excellency's consideration.

The following orders are, with the sanction of Government, confirmed:

OUR GOVERNOR GENERAL OF INDIA IN COUNCIL.

1. Letter dated 4th November, No. 80 *of* 1853. Submitting for Court's sanction a proposal for the foundation of a Scholarship or Prize at the Roorkee College, in memory of the late Mr. Thomason.

2. We approve the proposal you have submitted to us, and authorize you to carry it out in such a way as may seem to you most suitable. At the same time, we are of opinion that the opportunity should be taken of marking our sense of Mr. Thomason's public services and of connecting his memory with the Roorkee College in a still more emphatic manner. It appears to us very fitting that an institution of such peculiar importance to India, and of a character so entirely novel in that country, should bear the name of its founder, and it is accordingly our desire that the College be henceforth designated the "Thomason College of Civil Engineering at Roorkee."

3. We direct that this change of name, and the reasons of it, be publicly notified in such form as you may deem most suitable.

GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER IN CHIEF,

Head Quarters, Simla, 22d April 1854.

At a general Court Martial assembled at Lucknow on Wednesday the 5th day of April 1854, Seetull Doobey, Naick, No. 70, of the 19th regiment of native infantry, was arraigned on the following charge: viz.

For having, at Lucknow, in the territories of the King of Oude, on the 10th of February 1854, dangerously wounded Buldee Misser, Sepoy, of the same regiment, with intent then and there and thereby, of his malice aforethought, to murder the said Buldee Misser.

Finding.—The Court, from the evidence before them, are of opinion that he, the prisoner, Seetull Doobey, Naick, No. 70, 19th regiment native infantry, is Guilty of the charge preferred against him.

Sentence.—The Court having found the prisoner, Seetull Doobey, Naick, No. 70, of the 19th regiment native infantry, guilty of the charge preferred against him, do sentence him, Seetull Doobey, to be reduced to the ranks, and, further, to imprisonment, with hard labor, for a period of five (5) years.

(Signed) ROOSTUM KHAN, *Subadar*,
President.

Lucknow, *5th April* 1854.

Approved and Confirmed.

(Signed) W. M. GOMM, *General*,
Commander in Chief, East Indies.

Head Quarters, Simla, *15th April* 1854.

RECOMMENDATION.

The Court most respectfully beg leave to recommend the prisoner to the merciful consideration of His Excellency the Commander in Chief, in consideration of the great provocation received by him.

REMARKS BY HIS EXCELLENCY THE COMMANDER IN CHIEF.

The Commander in Chief is unable to comply with the recommendation of the Court; for according to the prisoner's own account of the injuiry which he represents himself to have received from Buldee Misser, it had been committed at the least fifteen days before he so savagely attacked Buldee Misser, and thus there was no excuse of sudden passion to palliate the crime.

The wife of the prisoner was improperly admitted as a witness for the defence; at this trial she was not a competent witness either for or against her husband.

The provisions of Article 109, which restricts inquiry into previous convictions and general character to trials for "*military*" offences, has been entirely lost sight of. The present trial was held under Section VI. of the Articles of War for the Native troops, and by that Section the inquiry is not authorized.

The prisoner is to be struck off the strength of the 19th regiment of native infantry, from the date of the publication of this order at Lucknow, and made over to the Civil authorities at Cawnpore for the purpose of undergoing the sentence awarded.

By order of His Excellency the Commander in Chief,
H. T. TUCKER, *Lieut. Colonel*,
Adjutant General of the Army.

GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER IN CHIEF,

Head Quarters, Simla, 22d April 1854.

His Excellency the Commander in Chief is pleased to direct that the following General Order, which was issued to Her Majesty's regiments in India on the 18th instant, be published to the Army:

GENERAL ORDER

Head Quarters, Simla, 18th April 1854.

At a general Court Martial assembled at Dinapore on Thursday the 23d day of March 1854, Private James Hunt, No. 2739, of Her Majesty's 96th regiment of foot, was arraigned on the following charge: viz.

That he, James Hunt, on the 28th day of December 1853, near Alleepore, he being then and there a Soldier serving in the territories of the East India Company at a distance of upwards of one hundred and twenty miles from the Presidency of Fort William, did feloniously, wilfully, and of his malice aforethought, kill and murder one Luchmun, Cowherd.

Finding.—The Court having maturely weighed and considered the evidence adduced, is of opinion that the prisoner, Private James Hunt, No. 2739, of Her Majesty's 96th regiment of foot, is Not Guilty of the charge preferred against him, and do acquit him thereof.

Confirmed.

(Signed) W. M. GOMM, *General,*
Commander in Chief, East Indies.

Head Quarters, Simla,
12th April 1854.

REMARKS BY HIS EXCELLENCY THE COMMANDER IN CHIEF IN INDIA.

The prisoner has been acquitted, and correctly so, for want of his personal identification; but it would have been more satisfactory to the Commander in Chief had he been able to record his approval of a verdict of acquittal based on the entire merits of the case, a result of which there seems to have been every likelihood, had the whole of the available evidence been adduced.

The Commander in Chief has to request that the defence of a prisoner may be recorded exactly as he delivers it, and that it shall not be altered (as is evident in the present case) by changing the pronouns of the first person into those of the third.

Private Hunt is to be released and directed to return to his duty.

By order of His Excellency the Commander in Chief,
(Signed) EDWARD LUGARD, *Lieut. Colonel,*
Adjutant General H. M. forces in India.

By order of His Excellency the Commander in Chief,
H. T. TUCKER, *Lieut. Colonel,*
Adjutant General of the Army.

BY THE COMMANDER IN CHIEF.

A fire having recently occurred in the European infantry quarters at Umballah, owing to the too great proximity to the buildings of a line of tents pitched for affording temporary accommodation while the barracks were undergoing repair, and a Committee, assembled to enquire into the origin of the fire whereby the roof of an entire barrack bungalow was consumed, having offered it as their opinion that the General Order 1st January 1851, prohibiting the establishment of any inflammable materials within a prescribed distance from such buildings, is not applicable to tents pitched for the temporary accommodation of the troops occupying the adjoining quarters, the Commander in Chief desires it may be distinctly understood that tents are to be regarded as subject to the same regulation as other inflammable materials; and that whenever it is found necessary to have resort to them for the purpose here described, or for any other, care should be taken that they be pitched not in the direction of the prevailing wind passing through their line to the barracks, but as much as possible to leeward of the buildings.

Lieutenant Colonel I. H. Handscomb, proceeding on furlough, is transferred from the 40th to the 72d regiment of native infantry, and Lieutenant Colonel St. G. D. Showers from the latter to the former corps, with effect from the 15th proximo.

But, in accordance with existing rules, no larger sum than rupees (10,000) ten thousand can be expended on any work by order of the local Government, without the sanction of the Government of India.

5. The local Governments will annually require their Chief Engineers to submit a statement (in the Form annexed, marked A,) of the new works, such as roads, bridges, works of irrigation, buildings, and other works of a miscellaneous character, which are most urgently required, and the execution of which they are prepared to undertake within the ensuing year; showing also the entire expenditure proposed to be incurred. On receipt of this statement, the local Governments will decide, after a careful consideration of the circumstances of the territories subordinate to them at the time, whether the works proposed have been properly selected, in preference to others, for immediate execution; and having come to a conclusion on this point, the whole scheme will have to be submitted to the Government of India, for final approval and sanction.

Estimates involving expenditure which the local Governments are competent to sanction, should, nevertheless, be exhibited in the annual statement, in order to enable the Government of India to obtain at once a comprehensive view of the whole of the works contemplated, and of the expenditure to be incurred.

6. Under each Chief Engineer will be appointed Superintending and Executive Engineers, in numbers proportioned, severally, to the requirements of the provinicial divisions.

7. All appointments of Chief Engineers, and of Superintending and Executive Engineers, will be made by the Government of India. The position and duties of these officers, the organization of the offices of account, and the method of procedure in dealing with the ordinary and extraordinary repairs of public buildings, are detailed below:

Chief Engineers.

8. The Chief Engineers of the three provincial divisions will correspond with the Secretaries of the several local Governments. Their duties will be generally to control the engineering operations of their divisions; to receive all reports and communications from the Superintending and Executive Engineers, and to exact from them a strict performance of the duties assigned to each; to check and examine progress reports, bills, and estimates; to suggest projects and designs suitable for effecting the objects proposed to them by Government, or brought by themselves under the consideration of Government; to dispose of such matters as may be left to their discretion, under the rules of the service; and to being clearly and faithfully before Government, accompanied by their own remarks, all subjects reserved for the opinion of Government.

9. Every official communication received by the Chief Engineers, and their proceedings thereon, shall be submitted to the local Governments, in the same form as the abstracts of the proceedings of the local Governments are now reported to the Government of India. Questions requiring the orders of Government will be brought forward (with the reports of the Superintending and Executive Engineers, and the opinion of the Chief Engineer), as soon as they can be got ready. Matters, which, under the discretion given to Chief Engineers, they have themselves disposed of, will be reported for information in schedules, showing briefly the subject,

the manner of disposal, and the grounds thereof. These schedules will be submitted weekly, or at such interval as the local Governments may determine.

10. Chief Engineers will prepare such periodical reports and statistical returns in the department of public works, as are required for the information of the Honorable the Court of Directors; and they will submit to the local Governments, for submission to the Government of India, an annual confidential report of the commissioned, warrant and non-commissioned officers and others, under their respective control.

11. Chief Engineers will communicate with the Heads of departments, Revenue, Judicial, Marine, &c., regarding the buildings and other public works connected with each; and they are empowered to call upon them for information.

12. Chief Engineers will exercise the general powers heretofore exercised by the Military Board. They will propose the postings and transfers of Executive Engineers to 1st and 2d class Executive divisions, which will be carried into effect by the local Governments, subject to the confirmation of the Government of India, with whom alone will rest the distribution of Executive Engineers to Executive divisions, and their transfer from one of the great provincial divisions to another. They will also propose to the local Governments the postings and transfers of warrant and non-commissioned officers in the department of public works, and the appointment of qualified persons to that department. It will be in the power of the local Governments to authorize such postings and transfers; but the appointment of all persons to the department of public works must be subject to the sanction of the Government of India.

13. Chief Engineers will audit all bills, the amounts of which do not exceed by more than (5) five per cent. those of the sanctioned estimates. They may sanction estimates for ordinary repairs within the total amount granted annually by Government for that purpose. They may pass contingent bills not exceeding rupees (500) five hundred. When detached from the head quarters of Government, they may sanction emergent works to the extent of rupees (2,000) two thousand, reporting the same to Government for confirmation.

14. Chief Engineers may grant leave of absence to Superintending and Executive Engineers for periods not exceeding one month in each year.

15. They may authorize the discharge and replacement of sanctioned subordinate establishments, with exception of Head Accountants and of those generally whose appointments have been notified in General Orders. They will have no authority to sanction any increase of establishments or alteration of salaries. All cases of subordinates discharged as a punishment must be reported, with the reasons for such proceeding, to the local Governments.

16. Chief Engineers will communicate to the Accountant Military department the amounts of bills passed to the credit of officers; following in that respect the course heretofore pursued by the Military Board.

17. Communications from the Chief Engineers, intended for Executive Officers, will generally be forwarded through the medium of the Superintending Engineers, but not necessarily so where, from the relative positions and movements of the parties, such a course would entail much delay. When, however, instructions may be issued by Chief Engineers direct to Executive Officers, the substance of these instructions should be communicated by the former to the Superintending Engineers.

18. Attached to the office of each Chief Engineer will be a Central office of account, the constitution and purposes of which are hereinafter detailed.

19. The staff salary of a Chief Engineer is fixed at Company's rupees (2,250) two thousand, two hundred, and fifty per mensem, with the pay proper of his regimental rank. When travelling on the public service, his *bonâ fide* expenditure may be charged for in a contingent bill.

20. Each Chief Engineer will be allowed the aid of a Commissioned Officer as an Assistant, on a staff salary of rupees (400) four hundred per mensem, in addition to the regimental pay and allowances of his rank.

21. Each Chief Engineer will be allowed to entertain a Head Clerk and Assistants, to the extent of rupees (1,000) one thousand per mensem in the first instance, and by transfers from the office of the Military Board, or otherwise, as may be practicable. The final arrangement of offices to the extent for which necessity can be shown to the satisfaction of Government, will be subsequently considered.

Superintending Engineers.

22. The precise limits of the circles to be assigned to Superintending Engineers may be varied at the discretion of the local Governments. The distribution to be made in the first instance is as follows:

23. The provinces under the Government of Bengal will be divided into two circles for Superintending Engineers.

The 1st circle will comprise Calcutta, the twenty-four Pergunnahs, Hooghly, and Burdwan; the Bengal districts south and west of the Grand Trunk road; the charge of the 1st division of the Grand Trunk road itself, and of the Raipore Mail road.

The 2d circle will comprise the 2d division of the Grand Trunk road, as far as the Kurrumnassa; the Bengal districts north of the Trunk road and bordering the Ganges and Burrampooter, including Assam, Sylhet, and Dacca.

24. The province of Pegu, with Chittagong, the Coast district of Arracan and Tenasserim, will comprise a 3d circle for a Superintending Engineer; and, till further arrangements shall be eventually made, the Superintending Engineer in Pegu will communicate with the Government of India, through the Commissioner.

25. The north western provinces will for the present have two circles for Superintending Engineers.

The 1st circle will comprise the present circle of the Superintending Engineer north western provinces, with exception of the Cis-Sutlej States.

The 2d circle will be that of the present Superintending Engineer central provinces.

Each of these circles will include the portion of the Grand Trunk road which traverses it.

26. The canal department will remain under a separate Director, in communication with the Government of the north western provinces.

27. In the provinces under the Chief Commissioner for the affairs of the Punjaub, there will be two circles for Superintending Engineers.

The 1st circle will embrace the territories extending from the Jumna to the Ravee, including the Cis and Trans-Sutlej States, the Lahore division and a portion of that of Mooltan.

The 2d circle will comprise the districts west of the Ravee, being the Rechna, Chuj, and Sind Sagur Dooabs, the Peshawur division, and the Derajat.

28. The canal department in the territories under the Chief Commissioner will have its separate Director, in communication with the Chief Commissioner.

29. A Superintending Engineer will be appointed to each of the several circles in Bengal, the north western provinces, the Punjaub, and Pegu, above specified; and all the former will draw a staff salary of Company's rupees (800) eight hundred, with regimental pay and allowances, and with travelling allowance at (8) eight annas per mile as at present.

30. The salaries and allowances of the Superintending Engineer in Pegu, and of the two Directors of canals, will be fixed separately; the circumstances of their appointments being exceptional.

31. Superintending Engineers will make frequent and close inspections of the works in their circles, and will in general be the medium of communication between the Chief Engineers and the Executive Officers. They will occasionally furnish the latter with designs for works, and will carefully examine those prepared by Executive Officers.

32. They will examine and report upon the rates of estimates, with reference to the circumstances and localities of the proposed works; and they will report to the Chief Engineers on the state of works in progress.

33. Superintending Engineers, when not itinerating, will have their head quarters at the seat of the local Government, and each will have apartments for business in the offices of the Chief Engineers.

34. Superintending Engineers will keep no office records, except copies of their own reports and letters, and a memorandum, in the tabular form, of the correspondence passing through their hands. For all other records they will refer to the offices of the Chief Engineers.

35. They will superintend, when at head quarters, the section of the Central office of accounts pertaining to their own districts. They will forward and report specially upon the abstracts of monthly expenditure and progress in each Executive district; and on receiving a completion report of any work or building, they will cause to be prepared (from their accounts) an abstract of its cost and rates.

36. They will forward to the Executive Officers, with as little delay as possible, and with suitable remarks, a copy of the monthly abstract of their expenditure, showing the rates and the proportion of work done, and the money spent under each estimate.

Executive Engineers.

37. To each of the Executive Officers will be assigned either a line of road, or a district, within which he will be employed in the construction and conservancy of the civil and military works and buildings.

38. They will prepare designs and estimates, on the requisition of competent authority.

39. They will draw the funds necessary for executing the works from the public treasuries, on assignments granted by the Chief Engineer, and will be accountable for the same.

40. They will transmit monthly to the Superintending Engineer the original accounts of departmental expenditure throughout their districts, with measurements of the work done, according to prescribed forms. Of the works personally superintended by themselves, the accounts will be those which they have themselves kept. The accounts of detached works will be those of the Assistant or Overseer in charge. A duplicate of all these accounts in English will be kept for record and reference in the Executive Engineer's office.

41. The accounts will be kept in such detail as will admit of the expenditure being accurately classified in the Central office of accounts, under such heads as may have been prescribed when the work was ordered. They will be accompanied by a statement showing the last month's balance, the present month's expenditure and receipts, and the coming month's probable requirements. On this statement, when properly checked, an assignment will be issued for general purposes. (*N. B.*—Separate assignments will not be granted, as at present, for each work.)

42. The monthly abstract of expenditure will be submitted to the local Government with the Chief Engineer's report, and if sanctioned, the Accountant General will be instructed to pass the amount to the credit of Executive Officers.

43. The Executive Officers in the north western provinces and the Punjaub will prepare and submit to the Accountant north western provinces, and to the Accountant Military department in in the lower provinces, the usual periodical Accounts current, showing the amounts received, those passed to their credit, and the balances, efficient and inefficient. Copies of these Accounts current will be forwarded regularly for the information of the Chief Engineer.

44. The completion reports will be accompanied by accurate measurements of the finished work, and by a corrected plan whenever there has been any deviation from the sanctioned design. They will be countersigned by the Superintending Engineer, and attested in the case of regimental buildings by the Commanding Officer and Quarter Master of the corps; in other cases by the Head of the department with which the building is connected.

Central Offices of Account.

45. For the examination and audit of all expenditure in the department of public works, there will be a Central office of account attached to each province of a Chief Engineer, with a separate department for each circle of superintendence. Each department will be controlled immediately by a responsible Accountant, acting under the general direction of the Superintending Engineer; but, during his absence, the Accountant will be at liberty to apply for orders to the Chief Engineer, and for explanations to the Executive Officers.

46. Executive Officers, when receiving instructions for the execution of a work, will also at the same time be furnished with a list of headings under which they are to arrange the expenditure. In keeping the accounts of the work, these divisions, and these only, will be observed.

47. The accounts of daily expenditure will be kept in forms to be hereafter prescribed, and after careful examination by the Executive Engineer will be forwarded in original to the office of account, accompanied by measurements of the work done, an abstract of the expenditure, a statement of advances to contractors, and a store account, prepared in forms to be hereafter prescribed; and until such forms shall have been ordered, those now in use for the daily expenditure, measurement, and store account, may be employed.

48. From these materials, or data, (after checking the calculations and entering each item of expenditure under its proper ledger head) the Accountant will prepare—

1st.—An abstract of rates at which the work has been executed, which, with such remarks or queries as the Chief or Superintending Engineer may think needful, will be transmitted as promptly as possible to the Executive Engineer.

2d.—A monthly progress report of all works in each district, showing the work done previously and during the month, with its cost, and the proportion of work remaining to be done, and of money unexpended. This document will be prepared primarily for the information of the local Government, but a copy will also be forwarded to the Executive Engineer.

3d.—On the certified completion of any work, the Accountant will prepare a statement of quantities, cost and rates, and a comparison of the same with the estimates, for the information of the local Government. The amount of cost will then be entered in the general Valuation Return.

49. The Accountant will carefully check the stock returns, and will price the materials issued from store to works as nearly as possible at their real cost. He will keep a debtor and creditor account of the value of stores purchased or manufactured, and of those issued to works and remaining on hand.

50. The Accountant, under the direction of the Chief Engineer, will prepare such financial returns connected with the department of public works, as may be required by Government or by the Honorable the Court of Directors.

51. The salaries of Accountants will be graduated according to their qualifications. To the senior or Chief Accountant in each Central office may be assigned a salary not exceeding rupees (500) five hundred per mensem. The salary of an Assistant or departmental Accountant will not exceed rupees (300) three hundred per mensem.

Ordinary and Extraordinary Repairs to Public Buildings.

52. Repairs in the department of public works may be divided into the three following classes:

I. Periodical repairs, such as white-washing, renewal of thatched roofs and jhamps, repainting, wood-work, &c.

II. Ordinary petty repairs, *viz.* of leaky roofs, broken locks and hinges, broken plaster &c., also repairs to hospital and barrack furniture, &c.

III. Extraordinary repairs, *viz.* of damage caused by fire, storm, flood, earthquake, or other unforeseen accident.

53. Repairs of the 1st class should be accurately estimated at the beginning of each year, and must not be commenced until the estimate has been duly sanctioned. Any difference between the quantities estimated and those executed must be satisfactorily explained.

54. For repairs of the 2d class, an estimate will be prepared annually on the average of former years, and will be submitted for the sanction of the local Government; but pending, as well as after, the receipt of sanction, a repair of this description will be executed and charged in the monthly bills, when its necessity is represented by the Commanding officer or Head of the department occupying the building, is admitted by the Executive Engineer, and corroborated by the countersignature of the Officer commanding the station. The written requisition of the regimental or departmental officer, with his subsequently added attestation that the work has been satisfactorily executed, the whole being countersigned by the station Commandant, will be appended as a voucher to the Engineer's monthly accounts.

55. When repairs of the 3d class may be emergently and suddenly required, the Executive Engineer, on the order of the officer commanding the station, (and in case of detached works, on his own responsibility,) will first adopt the measures which he may deem most suitable, and then will report the occurrence, and what he has done upon it, to the Superintending or Chief Engineer, and will solicit further instruction.

56. When any work which cannot be considered in the light of repairs to an existing building, or to be needed for its preservation, may appear to be emergently required, the Officer commanding the station may order its immediate execution, provided the expense be not likely to exceed (50) fifty rupees; but in this case, as in that of repairs, the necessity for the work must previously have been certified by the regimental Commandant or Head of department, and admitted by the Executive Engineer. Should the work be estimated to exceed (50) fifty rupees, the requisition for it, countersigned by the officer commanding the station, will be forwarded, with a report by the Executive Engineer, to the Superintending or Chief Engineer, and with a request that the subject may have the immediate attention of the proper authorities.

57. The above rules will apply also to the repairs of civil buildings, the requisition being signed by the Head of the department.

Forms of Procedure and Account.

58. A committee of officers has been convened at the Presidency, for the purpose of completing Lieutenant Colonel J. T. Boileau's Code of Regulations, and of adapting it to the new system. The committee will prepare a complete set of Forms both for the Central offices of account, and for all the Executive departments. The proposed Forms when drawn out will be circulated for comment to the local Governments; and when finally approved of by the Government of India, and issued with the sanction of that authority, will be adopted throughout this Presidency.

59. New Rules or Forms, which any Chief Engineer or local Government may hereafter wish to introduce, will be previously circulated for the consideration of the local Governments; and shall not be adopted unless confirmed by the Government of India.

GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER IN CHIEF,

Head Quarters, Simla, 10th May 1854.

BY THE MOST NOBLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

FORT WILLIAM, 28TH APRIL 1854.

No. 459 of 1854.——The Honorable the Court of Directors having, in their military letter to the Governor General of India in Council, No. 2, dated 8th of February 1854, called the attention of the Supreme Government to a letter addressed to the Editor of "The Times," Bombay newspaper, signed "John Jacob, Scinde horse," in which the writer denounces, as having ruined the efficiency of the Native army, the Regimental system established in the year 1796, the Articles of War framed under the authority of the Legislature, and the general system of discipline established by the orders of Government; and having intimated that, in their opinion, it is of great importance that an order should be issued to the Army of the three Presidencies, forbidding in the strongest terms all publications of the description now referred to, whether anonymous or otherwise: the Governor General of India in Council is pleased to promulgate, for general information, the observations of the Honorable Court upon this subject.

"Any officer in the service is at liberty, and indeed in many cases is bound in duty, to communicate confidentially to the Commander in Chief of the Army to which he belongs, the opinions he may entertain on points affecting the discipline or efficiency of the troops; but he is not at liberty to denounce publicly the system established by the Legislature and by the Government he serves. Such conduct is entirely subversive of discipline, is calculated to excite discontent and insubordination in the Army, and we cannot express in too strong terms our disapprobation of the course which appears to have been taken on the present occasion."

In pursuance of the instructions of the Honorable Court, the Governor General in Council hereby positively prohibits, under the penalty of the most marked displeasure of Government, the practice of officers publishing their individual opinions on professional grievances, or censures, whether anonymously or with their names attached thereto, on the organization and efficiency of the Army; on its regulations or discipline; or on the conduct of individuals composing it.

This order is applicable alike to the three Presidencies.

His Excellency the Commander in Chief is pleased to direct that the following General Order, which was issued to Her Majesty's regiments in India on the 15th instant, be published to the Army:

GENERAL ORDER

Head Quarters, Simla, 15th May 1854.

At a general Court Martial assembled at Umballah on Friday the 24th of February 1854, Quarter Master John Gillespie, of Her Majesty's 98th regiment of foot, was tried on the following charge:

That he, John Gillespie, on the 6th day of January 1854, at Umballah, he being then and there an officer serving in the territories of the East India Company at a distance of upwards of one hundred and twenty miles from the Presidency of Fort William, did feloniously, wilfully, and of his malice aforethought, kill and murder one Goolzar Ram, Choomar.

Finding.—The Court find that the prisoner, Quarter Master John Gillespie, of Her Majesty's 98th regiment of foot, is guilty of having feloniously killed and slain the deceased, Goolzar Ram, but that he is Not Guilty of having wilfully, and of his malice aforethought, murdered the said Goolzar Ram; and of so much of the charge the Court acquits the prisoner.

Sentence.—The Court sentence the prisoner, Quarter Master John Gillespie, of Her Majesty's 98th regiment of foot, to imprisonment in the fortress of Agra for the term of four (4) years.

(Signed) J. H. GRANT, *Lieut. Colonel,*
9th Royal lancers, President.

Umballah,
8th March 1854.

Revised finding.—The Court find the prisoner, Quarter Master John Gillespie, of Her Majesty's 98th regiment of foot, "Guilty" of the charge preferred against him.

Revised sentence.—The Court do now sentence the prisoner, Quarter Master John Gillespie, of Her Majesty's 98th regiment of foot, to be transported as a Felon for the term of fourteen (14) years.

Approved and confirmed.

(Signed) W. M. GOMM, *General,*
Commander in Chief, East Indies.

Head Quarters, Simla,
April 5th, 1854.

The Most Noble the Governor General of India in Council concurs in the confirmation by His Excellency the Commander in Chief of the sentence of transportation as a Felon, for fourteen years, passed on Quarter Master John Gillespie, of Her Majesty's 98th regiment of foot, and in the said sentence being carried into execution.

Council Chamber,
Fort William, 2d May 1854.

REMARKS BY HIS EXCELLENCY THE COMMANDER IN CHIEF IN INDIA.

The Commander in Chief would willingly take advantage of any extenuating circumstances to save the prisoner from the ignominous doom to which he has been consigned, but in His Excellency's opinion, the Court have already made full allowance in their merciful sentence for every thing that has appeared in evidence of a nature favorable to the prisoner, and it amounts to little more than this, that it was not his intention to murder his unfortunate victim. The man was sent for by the prisoner to his house, and there cruelly and deliberately beaten in revenge for an assumed wrong—an unproved charge of theft—and almost immediate death was the result. The Court have arrived at a just verdict, and have passed what may be considered far from a severe sentence upon the prisoner.

The name of Quarter Master John Gillespie is to be struck off from the rolls of Her Majesty's 98th regiment, from the 5th of April 1854, the date of the confirmation of the sentence; from which date he ceased to belong to Her Majesty's service. Under instructions already given, the removal of the prisoner to the Presidency is being effected, with the view to the sentence of transportation passed upon him being carried into execution. The term of transportation is to be reckoned from the 8th of March 1854, the day on which the original sentence was signed by the President.

By order of His Excellency the Commander in Chief,

Adjutant General H .M. forces in India

By order of His Excellency the Commander in Chief,

BY THE COMMANDER IN CHIEF.

The practice of sending all orders to the Adjutant General of the Army in duplicate which require confirmation, is to be discontinued: orders appointing Acting Quarter Masters, which are usually confirmed on half margin, and those also which require the previous sanction of Government, are to be forwarded in duplicate as heretofore; but one copy of those which are subject to the confirmation of the Commander in Chief only, is all that is necessary.

2. In preparing extracts of orders for confirmation, care must be taken that those requiring the sanction of Government are separate and distinct from those to be confirmed by His Excellency; and strict attention is enjoined to the orders in force for their prompt transmission to Head Quarters.

The following orders are, with the sanction of Government, confirmed:

Form No. 3.

Casualty Roll of the ——— regiment native infantry, for the month of August 1851.

Number.	*Regtl. No.*	*Name.*	*Age.*	*Date of enlistment.*	*District.*	*Village and Pergunnah.*	*Date and circumstances of casualty.*

No. 529 of 1854.——The following notification from the Home department is published in General Orders:

No. 487, *dated* 11*th May* 1854.—Lieutenant Colonel P. T. Cautley, Director of the Ganges Canal, has, in General Orders dated this day,* been permitted to retire from the service of the East India Company.

*Vide Military department G. G. O. No. 511, of 1854.

In the practice of the Government of India, rules and precedents forbid that any special regard should be paid to officers retiring from the scene of their public service.

But rules may rightly be broken through, and precedents must stand aside, when they prevent a fitting expression of the gratitude and approbation which are due from the Government he serves to an officer of rare distinction, whose labors for the public good have brought lasting honor to the British name.

Resigning the direction of the Ganges Canal, Lieutenant Colonel Cautley retires from the service of the Honorable East India Company in the full triumph of his accomplished work.

Constructed over more than five hundred miles, within a period of eight years broken by wars and encumbered with difficulties, the Ganges Canal already stands unequalled among works of its class and character throughout the world.

It is to Lieutenant Colonel Cautley that the British Government mainly owes the accomplishment of this gigantic enterprize. His genius conceived the design, and his skill and energy and perseverance have chiefly contributed to its rapid and successful execution.

For this great and memorable service, the Governor General in Council desires to offer to Lieutenant Colonel Cautley the assurance of his highest and most grateful approbation.

That Lieutenant Colonel Cautley may quit the shores of India with every mark of public distinction, the Governor General in Council requests that he will embark on board the Governor General's yacht from Chandpal ghat on Monday the 15th instant, at 6 A. M.: and directs that, on his way to the Packet, he shall receive, as he passes, a special salute of thirteen guns from the ramparts of Fort William.

The Governor General in Council is very sensible that these are but poor honors to render for such deeds. But while His Lordship in Council regrets that the Government of India has neither honors nor decorations in its gift, he feels assured that Lieutenant Colonel Cautley will ever find the richest reward of his public service in the consciousness he needs must enjoy that his name will be famous through future years in the land which his skill will have fertilised and enriched.

GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER IN CHIEF,

Head Quarters, Simla, 27th May 1854.

BY THE MOST NOBLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

FORT WILLIAM, 16TH MAY 1854.

No. 530 of 1854.——The following notification from the Financial department is published in General Orders:

No. 19, *dated* 12*th May* 1854.—Assistant Surgeon W. Graham to officiate as Deputy Assay Master of the Calcutta Mint until further orders.

FORT WILLIAM, 18TH MAY 1854.

No. 531 of 1854.——The Most Noble the Governor General of India in Council is pleased to direct that the following paragraph of a military letter from the Honorable the Court of Directors to the Governor of the Presidency of Fort William in Bengal, No. 27, dated 15th March 1854, be published in General Orders:

Letter dated 25*th November* 1853, *No.* 391.

Application from Assistant Commissary of Ordnance G. Forrest, soliciting that warrant officers may be placed, as regards furlough, on the same footing as commissioned officers. Government think that the occasional and not large expense which the grant of furlough would cause, would be more than counterbalanced by the advantages of the measure, which they strongly recommend for adoption.

Para. 13. "Upon the grounds stated by your Government and the Commander in Chief, we sanction the grant of furloughs to warrant officers upon the same terms as those already sanctioned for unattached officers and officers granted commissions on the veteran establishment, viz. after six years' service as warrant officers and fifteen years' service in India."

No. 532 of 1854.——The Most Noble the Governor General of India in Council is pleased to direct that the following paragraphs of military letters from the Honorable the Court of Directors to the Governor of the Presidency of Fort William in Bengal, No. 114, dated 21st September 1853, and No. 27, dated 15th March 1854, be published in General Orders:

LETTER No. 114, DATED 21ST SEPTEMBER 1853.

Letter dated 19*th May* 1853, *No.* 110.

Memorial from Bombardier J. Crowley, of the European veteran company, praying that his wife may, in the event of her surviving him, be considered entitled to the benefit of Lord Clive's fund; and question arising therefrom submitted for decision.

9. "This application is opposed to the regulation of which a copy is inserted in the margin, * and we are under the necessity of declining to make any exception to it.

---

* "Widows of soldiers who may have married subsequent to the transfer of their husbands to the non-effective list, are not entitled to the benefits of Lord Clive's fund."

10. As it appears from your present communication that the same regulation does not obtain at Madras and Bombay, we are desirous that you should call on those Governments to adopt it prospectively.

11. It is very desirable that there should be perfect uniformity at the three Presidencies in the rates of pension received by the widows of soldiers from Lord Clive's fund, but as the deed of that fund directs that the widows shall receive "one quarter or fourth part of the ordinary stated pay their respective husbands were entitled to," no alteration can be made in the present authorized rates so far as they are founded on that clause of the deed. If there are any rates in excess they should be corrected in future grants."

LETTER No. 27, DATED 15TH MARCH 1854.

Letter dated 25*th November* 1853, *No.* 302.

With reference to paragraph 10 of Court's despatch No. 114 of 1853, request instructions whether soldiers in the European invalid companies or European veterans at Madras and Bombay, who continue in the performance of regimental and garrison duties, are to be considered on the non-effective list.

14. "We have to state, in reply to this enquiry, that soldiers on the invalid establishment who are in the performance of garrison duty, are not considered as on the non-effective list. We have accordingly in all cases granted to men of the "European invalid companies" at your Presidency

on their discharge, and to the widows of those who die whilst serving, the same benefits in regard to pension as are granted by the regulations to men on the effective strength of the army. Men on the "European invalid pension establishment" at your Presidency, on the other hand, being merely pensioners, have always been considered as on the non-effective list.

15. You will be guided by this practice in carrying out the order contained in our military letter No. 114 of 1853. The "European veterans" at Madras, we observe are circumstanced like the "European invalid companies" at your Presidency. At Bombay there is no such establishment."

No. 533 of 1854.——Lieutenant Charles Armstrong, Adjutant 14th regiment native infantry, is allowed leave of absence from the 26th April to the 30th June 1854, to visit Bombay, preparatory to applying for furlough to Europe on medical certificate.

No. 534 of 1854.——The pay, batta, and other allowances for May 1854 of the troops at the Presidency and at the other stations of the Army, will be issued on or after Friday the 9th proximo.

BY THE COMMANDER IN CHIEF.

His Excellency the Commander in Chief desires to call the attention of Officers commanding stations to the General Order of the 17th of January last, (modified in General Order 6th February) relating to holes and excavations in cantonments. The sanction of Government having been previously obtained to the measures therein authorized, no further reference on the subject (under ordinary circumstances) need be made by Commanding officers to Army Head Quarters.

2. The Executive Engineer, or Officer in charge of public works at the station, should be at once instructed to take the necessary steps in his own department for filling up or otherwise remedying such holes on public sites as are deemed by the standing medical committees prejudicial to the health of the troops; and the Commander in Chief leaves it to the discretion of Officers commanding stations to decide upon the means to be adopted, according to circumstances, for requiring officers or others resident in stations to fill up such holes in their private compounds as are reported by the medical authorities to be objectionable in a sanatory point of view; but as it is of the greatest importance that these remedial measures should be carried out as far as practicable before the setting in of the rainy season, His Excellency desires that reports may be furnished for his information, through the Quarter Master General of the Army, on the 1st of July next, showing what orders have been given and progress made in furtherance of these improvements in all stations under this Presidency: and a similar report is to be made half-yearly, from that date, until further orders.

With advertence to the General Order cited in the margin, the Commander in Chief is pleased to notify that Government, on a reference, has decided that Courts of Inquiry assembled to investigate claims to the Order of Merit, are required to record on their proceedings an opinion as to whether or not the particular gallantry of the Soldier recommended for the distinction, appears to have been conspicuous and undoubted, and the claim established accordingly.

GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER IN CHIEF,

Head Quarters, Simla, 12th June 1854.

At a general Court Martial assembled at Meerut on Monday the 29th day of May 1854, Hospital Sergeant Charles Smith, No. 129 of the 1st brigade of horse artillery, was tried on the following charge:

That he, Charles Smith, on the 28th day of April 1854, at Meerut, he being then and there a Soldier serving in the territories of the East India Company at a distance of upwards of one hundred and twenty miles from the Presidency of Fort William, did feloniously, wilfully, and of his malice aforethought, kill and murder one Kassie, Sweeper.

Finding.—The Court, on the evidence before them, are of opinion that the prisoner, No. 129 Hospital Sergeant Charles Smith, of the 1st brigade of horse artillery, is Guilty of the charge preferred against him, with exception to the words, "wilfully and of his malice aforethought" "and murder," of which they do acquit him.

Sentence.—The Court sentence the prisoner, No. 129 Hospital Sergeant Charles Smith, of the 1st brigade of horse artillery, to imprisonment in the fortress at Agra for a period of (12) twelve calendar months.

Meerut,
29th May 1854.

(Signed) T. H. SHULDHAM, *Lieut. Colonel,*
52d Regiment Native Infantry,
President.

Confirmed.

(Signed) W. M. GOMM, *General,*
Commander in Chief, East Indies.

Head Quarters, Simla,
7th June 1854.

Recommendation.—The Court having awarded a punishment which they deem commensurate with the offence of which the prisoner has been found guilty, do now, on account of his excellent character and long service, unanimously recommend him to mercy.

REMARKS BY HIS EXCELLENCY THE COMMANDER IN CHIEF.

The Commander in Chief has simply confirmed the proceedings in this case, being of opinion that the conviction of manslaughter only is irregular and improper; the recorded evidence having, His Excellency considers, left the Court no correct medium between finding the prisoner guilty of the entire charge or acquitting him altogether.

There is ample proof that the deceased Kassie died from the effects of rupture of the spleen, and the witnesses for the prosecution depose to the prisoner having kicked him repeatedly on the stomach without provocation. The prisoner emphatically denies having used violence of any kind; the evidence he brings forward, in a measure, supports his statement; and there is nothing whatever to show that any altercation took place between him and the deceased.

There is also a doubt, arising from the evidence of the medical officers examined at the trial, whether the rupture of the spleen, over the region of which there was no external mark, was caused by any violence the deceased may have received from Sergeant Smith, or was the effect of a fall independent of any such violence. The Commander in Chief is of opinion that the Court might have given the prisoner the benefit of the doubts arising out of the above circumstances, and acquitted him of the charge. And under this consideration His Excellency is pleased to remit the sentence, in preference to re-assembling the Court to enable them to revise their verdict.

Hospital Sergeant C. Smith is to be released and directed to return to his duty.

By order of His Excellency the Commander in Chief,
H. T. TUCKER, *Lieut. Colonel,*
Adjutant General of the Army.

(Signed) W. M. GOMM, *General,*
Commander in Chief, East Indies.

Head Quarters, Simla,
June 10th, 1854.

REMARKS BY HIS EXCELLENCY THE COMMANDER IN CHIEF.

The Commander in Chief has confirmed the sentence passed by the Court, but it is one which His Excelleney cannot approve, considering it to be altogether inadequate to the serious offences of which Lieutenant Harris has been justly convicted.

In awarding this sentence, the Court have declared to the Army their deliberate opinion, that it is a comparatively venial offence in one of their body to draw bills of exchange upon a Bank in which he has no funds, and to allow these bills to remain unpaid. His Excellency entirely differs from the Court; and in publishing these proceedings, wishes to remind the Army, that the honor of the service to which they belong is mainly in their own keeping. Such discreditable proceedings as those in which Lieutenant Harris is proved to have been engaged, are happily of rare occurrence amongst officers; but when charges of this complexion are proved to the satisfaction of a Court Martial, the interests of the Army would be best consulted, in His Excellency's opinion, by visiting on the offender a more marked and decided punishment than has been awarded in the present case.

These remarks are to be read to Lieutenant Harris by the Officer Commanding at Delhi, in the presence of all the officers at the station, assembled for the purpose. Lieutenant Harris is then to be released from arrest and directed to return to his duty: his name is to be transposed in the list of Lieutenants of the 17th regiment of native infantry, and it will stand in future next below that of Lieutenant Horace Brimfield.

By order of His Excellency the Commander in Chief,
H. T. TUCKER, *Lieut. Colonel,*
Adjutant General of the Army.

On all occasions when detached, whether to another station, or marching or moving by water separately—

1 Acting Adjutant (who shall act as Quarter Master, and in Her Majesty's regiments as Pay Master also, when a separate officer is not allowed for those duties).

1 Acting Sergeant Major (who shall also act as Provost Sergeant).

1 Acting Quarter Master Sergeant (who will also act as Pay Master's clerk in Her Majesty's regiments).

1 Acting Hospital Sergeant. And, (as a temporary arrangement, pending the revision of the school establishments),

1 Acting Assistant School Master, when an Assistant cannot be spared from the regimental school.

2. When the detached wing is quartered in a separate division of the army, and the period of its absence from its head quarters is likely to exceed 3 months, or when in the same division its absence is likely to be prolonged beyond 6 months, His Excellency the Commander in Chief may authorize

1 Acting Quarter Master, who in Her Majesty's regiments will also perform the duties of Pay Master; and

1 Acting Armourer Sergeant, when the detached wing is in a separate division and its absence is likely to exceed 6 months.

3. The above scale of non-commissioned staff, with the exception of the Armourer Sergeant, is likewise authorized for large divisions of artillery consisting of not less than four European troops or companies, whether the head quarters of a brigade or battalion be present or not.

4. It is not considered necessary to allow any separate non-commissioned staff for detached wings of brigades or battalions of European artillery; and provision is already made for the staff of divisions of artillery in cases when the head quarters of a brigade or battalion are not present.

2. The annuity is receivable in any position a Sergeant may obtain while serving in the army or after his discharge from the army, with the sole exception of his being raised to the rank of a commissioned officer.

3. A warrant officer is entitled to wear the medal and to receive the annuity which may have been granted to him as a Sergeant.

4. A warrant officer, or a non-commissioned officer or soldier on staff employ, whether in any department or public office, retains his medal granted to him while serving with his regiment, and becomes entitled to his gratuity on receiving his final discharge.

5. A man does not forfeit his annuity, whether discharged or not, and preserves his right to the gratuity whenever discharged, although he may have accepted or have been appointed to staff employ before the recommendation is approved by Government and before his discharge.

6. The medal "for long service and good conduct" with the gratuity, and that "for meritorious conduct" with an annuity, cannot be held by the same individual. In cases, therefore, when the latter may have been awarded to a non-commissioned officer already in possession of the former, he will be required to relinquish that which carries with it the smaller pecuniary reward; and in no case can the annuity and gratuity be continued to the same individual.

7. The only forfeiture either of the medal and annuity, or of the medal and gratuity, is misconduct proved before a Court Martial, or conviction of felony by a Court Martial or a Court of Civil Judicature, but the annuity and the gratuity lapse by the man's obtaining the higher reward of a commission either unattached or on the veteran establishment.

3. This order is not applicable to the Canal department north western provinces.

No. 633 of 1854.——The Most Noble the Governor General of India in Council is pleased to rescind those parts of Government General Order No. 127, dated 29th April 1825, which direct the disbursement of subsistence of out-wards of the Lower Orphan School by Secretaries to the district committees of the Military Orphan Society; prescribed the mode of supplying the funds for such disbursements; and enjoin the inclusion of the payments in the annual account current of the General Management with Government.

2. The pecuniary benefits which the Society has heretofore derived from its management of the accounts of out-wards of the Lower School, will however continue on their present footing until further orders.

3. From the 1st of July next, that is, commencing with payments for June, the following arrangements will take effect, with respect only to out-wards of the Lower School:

4. Children of Soldiers in the Honorable Company's service will be included in the same muster rolls, and their subsistence to the extent authorized by rule will be drawn in the same pay abstracts with their fathers or guardians by the officers under whom the latter may be serving. The muster rolls should, in appropriate columns, invariably state the date of the children's birth, the fact of their legitimacy, and whether their mothers received the usual subsistence. An additional column in the roll should show the name, rank, and corps of their fathers, be the latter dead or alive.

5. Subsistence for orphans who are not under the guardianship of warrant or non-commissioned officers and soldiers, nor in the Lawrence Asylum or other orphanages, as also the special pensions to blind or disabled children who have passed the age of 14 years, will be drawn, for the present, by the Secretaries to the district committees of the Military Orphan Society, from the Deputy Pay Masters of stations, on a general abstract for the whole, supported by receipted bills from the guardians, prepared in the form heretofore in use.

6. The subsistence for wards, if any, of the Lower School, who are being educated in the Lawrence Asylum, or the Roman Catholic Orphanage at Calcutta or Agra, will be drawn monthly by the Superintendents of those institutions, respectively, on bills which will be prepared according to the forms now in use, with a certificate at foot declaring the presence of the several children as pupils in the said institutions during the month drawn for. That by the Superintendent of the Lawrence Asylum, will be forwarded to the Secretary to the Military Orphan Society, who, on countersigning it, will receive from the Presidency Pay Master a draft for the amount for which it may be audited, for transmission to the drawer of the bill. The abstracts framed by the Superintendents of the Calcutta and Agra Roman Catholic Orphanages, will, before transmission to the Pay department, be countersigned and duly endorsed to the drawers by the Town Major of Fort William and the Brigade Major of Agra, respectively.

7. To facilitate the arrangement ordered in the 4th paragraph, Secretaries to the district committees of the Military Orphan Society will furnish to the appropriate regimental or depart-

mental staff officers last pay certificates of the out-wards, in which should be correctly attested the date of birth, and all other particulars respecting the children which that paragraph enjoins should be inserted in muster rolls.

8. This order relates merely to the accounts of, and is not to affect the Military Orphan Society's control over, the out-wards of the Lower School. The arrangements for sending down Soldiers' children will continue as heretofore, the expense incurred on the occasion, to the extent sanctioned by rule, being drawn in contingent bills by the Secretaries to district committees from the local Deputy Pay Masters, and before passing audit being countersigned by the Secretary to the Military Orphan Society.

9. To facilitate the compilation of certain statements for the Honorable the Court of Directors, the abstract return on the back of each muster roll must show the number of out-wards borne on the roll, distinguishing by entries in separate columns those who are receiving 3 (three), from children who are allowed 2–8, two rupees and eight annas, a month.

HIS EXCELLENCY THE COMMANDER IN CHIEF,

Head Quarters, Simla, 1st July 1854.

BY THE MOST NOBLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

FORT WILLIAM, 19TH JUNE 1854.

No. 653 of 1854.——I. The Most Noble the Governor General in Council, under instructions from the Honorable the Court of Directors, is pleased to revise the proportion of cattle to be hereafter maintained by the commissariat department, for public purposes, at the several stations of the army, and to direct that carriage shall in future be maintained on the following scale :

1. In the Presidency, Dinapore (including Benares), Cawnpore, and Meerut divisions, carriage will be kept up for the camp equipage only of half the troops in each station.

2. On the south east frontier, carriage will be kept up, as heretofore, for the camp equipage of all the troops.

3. In the Sirhind and Lahore divisions, carriage will be kept up for the camp equipage, stores, and 60 rounds of ammunition per man, of half the troops in each station, except in those stations where a movable column is maintained, and there full carriage will be kept up for such moveable column, but for it only ; the carriage provided for the moveable column being in all cases sufficient for its camp equipage, stores of all sorts, 200 rounds of ammunition per man, and private carriage for officers and men, to enable the column to move at an hour's notice.

4. In the stations composing the Peshawur division, carriage will be maintained in the following proportion : viz.—at Jhelum and Rawul Pindee, for the moveable columns only at those stations to the extent above specified. At Peshawur, carriage in like manner for the moveable column, and carriage also for the camp equipage, stores, and 200 rounds of ammunition per man, for the rest of the troops. At Murree, Attock, and Suhawah, carriage for camp equipage, stores of all sorts, and 200 rounds of ammunition per man, for all the troops.

5. It is to be distinctly understood that, while the cattle kept up for ordinary purposes may be lent to other departments as has been usual, the carriage kept up for moveable columns should on no account be used for any persons or for any purposes which can interfere with their being instantly available, in a thoroughly effective condition, for the movement at an hour's notice of the force to which they are attached.

II. The Most Noble the Governor General in Council is further pleased to authorize the general substitution of hired camels and carriage bullocks for animals the property of the State. For the present His Lordship in Council directs that, at all stations from Jullundur downwards, the Government establishments of camels and carriage bullocks shall be altogether broken up, and hired animals substituted ; and that at stations west of the rivers Beeas and Sutledge, the establishment of camels maintained by the commissariat, according to the scale above prescribed, shall consist, one half of animals the property of the State, and the other half of hired cattle.

III. His Excellency the Commander in Chief will be pleased to issue instructions to officers commanding divisions and stations, to facilitate the introduction of the arrangements now ordered by the commissariat department, as much as may be in their power.

BY THE COMMANDER IN CHIEF.

Misconception appearing to exist as to the mode of reckoning the period of imprisonment by sentence of a Court Martial, His Excellency the Commander in Chief considers it expedient to publish the following explanatory rules in orders, for future guidance:

1. The days both of the signing of the sentence and the release of the prisoner must be counted as parts of the sentence.

2. Thus, if a Soldier be sentenced on the 1st day of the month to one calendar month's imprisonment, the sentence will terminate on the last day of that month. If the sentence be signed on the 2d, 3d, 4th, or any subsequent day of the month, the sentence will terminate on that day of the following month, as the 1st, 2d, 3d, or as the case may be, which next precedes the day of the previous month on which the sentence was signed.

3. If a Soldier is sentenced on the 1st day of the month to 28 days imprisonment, the sentence will terminate on the 28th day of that month.

4. A prisoner sentenced to mixed imprisonment is to be committed to the cells, to undergo the portions of solitary confinement, at sunrise of the day on which each portion of solitary confinement commences; and is to be returned to ordinary imprisonment at sunset of the day on which each portion of solitary confinement terminates.

5. Every prisoner is to be released after the regular dinner hour and before sunset on the day on which his sentence expires, except when that happens on a Sunday, Christmas day, or Good Friday, in which case he may be released at the regulated hour of the previous day.

6. The Commander in Chief desires that commanding officers, in awarding imprisonment under the 50th Article of War, will fix the period by the *hour*, and adopt such measures as may be requisite to ensure the prisoner's release at or a little before the exact hour that the imprisonment expires.

Lieutenant R. T. H. Barber, of the 63d regiment of native infantry, is appointed to act as Adjutant to that corps, until further orders, in room of Lieutenant H. L. Pester, promoted.

BY THE COMMANDER IN CHIEF.

For the information and guidance of all concerned, the Commander in Chief is pleased to notify that Government have decided that, as a general rule, orders directing arrangements creative of expenditure, authorized under any existing regulation, need not be forwarded to Head Quarters in view to their being confirmed; and that, hereafter, the regulations shall be considered sufficient authority for the issuing of such orders.

2. With reference to the above decision, His Excellency, under instructions from Government, directs that in the body of all orders creative of expense, which may be authorized by regulation, such authority shall invariably be quoted;—it will then only remain for the departments of Audit to check the expenditure, by referring to the regulation cited as sanctioning it.

3. In cases in which the arrangement ordered is not provided for by any existing authority, or which involve a doubtful construction of some regulation, or an expenditure beyond what is authorized, the order must be sent to Army Head Quarters, as heretofore, for confirmation.

The following orders are confirmed:

GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER IN CHIEF,

Head Quarters, Simla, 11th July 1854.

At a general Court Martial assembled at Umballah on Thursday the 29th day of June 1854, Sub-Conductor William Murray, of the ordnance commissariat department, was tried on the following charge: viz.

For having, at Umballah, on or about the 27th day of January 1854, fraudulently misapplied the following military stores belonging to the East India Company, which had been entrusted to his care for the use of the artillery at Umballah in the course of the annual practice, that is to say,

Gunpowder, about five and a half maunds.
Brimstone, about two and a half maunds.
Saltpetre, about four maunds.

Finding.—The Court are of opinion that the prisoner, Sub-Conductor W. Murray, of the ordnance commissariat department, is "Guilty" of the charge, with the exception of "brimstone, about two and a half maunds," of which part of the charge they acquit him.

Sentence.—The Court sentence the prisoner, Sub-Conductor W. Murray, of the ordnance commissariat department, to be reduced to the rank and pay of a Private Soldier.

Not confirmed.

(Signed) W. M. GOMM, *General,*
Commander in Chief, East Indies.

Head Quarters, Simla,
8th July 1854.

REMARKS BY HIS EXCELLENCY THE COMMANDER IN CHIEF.

The Court should have passed a sentence in accordance with the provisions of the 22d Section of the Mutiny Act, which provides for the offence of which Sub-Conductor Murray has been convicted; and in accordance also with the provisions of that Section, the Court should have ascertained by evidence, and declared, the value, as damaged articles, of the gunpowder and saltpetre referred to in the charge, in order that that amount might be recovered in the mode prescribed by the said Section.

But, under all the circumstances of the case, and referring particularly to the loose custom that seems to exist with regard to the disposal of ammunition damaged in the course of the artillery practice and become unfit for the public service, and in the hope that this trial will prove a sufficient warning to all Warrant Officers and others of the ordnance commissariat department, that they are not entitled to such damaged stores as their own perquisites, the Commander in Chief has abstained from ordering a revision of the sentence. But Sub-Conductor Murray must pay back the sum of rupees 50, which it appears by the first deposition of Zuhoor Mahomed, taken by the Cantonment Magistrate at Umballah, was the sum paid to Sub-Conductor Murray for the damaged stores.

Sub-Conductor W. Murray is to be released from arrest, and directed to return to his duty.

By order of His Excellency the Commander in Chief,
H. T. TUCKER, *Lieut. Colonel,*
Adjutant General of the Army.

BY THE COMMANDER IN CHIEF.

The attention of the Commander in Chief having been drawn to recent instances wherein the *Para. 7 Cap. XV, Medical code.* regulations* of the service in regard to the supply of subordinate medical establishments to detachments of European corps, have been neglected or infringed, now directs that in all practicable cases they be carefully adhered to.

2. His Excellency further announces for general information and guidance, that the Most Noble the Governor General in Council has decided that European infantry corps having their full complement of subordinate medical servants must provide their detachments with a proportion of their own medical establishment; unless in cases where the detachments from the same corps may exceed two in number, when this course might be impracticable; but His Lordship sees no sufficient ground for sanctioning the practice of nominating medical subordinates with such detachments to act in higher grades than their own, and desires it may be discontinued.

3. Under this decision medical officers will employ their subordinates as may seem most conducive to the public good; and in cases where more than two parties are detached from the same regiment, they may apply through the Superintending Surgeon to the divisional authorities for such extra establishment as may seem absolutely necessary, explaining fully the ground on which their application is made. When officers commanding divisions are satisfied of the necessity for complying with such requisitions, they will forward the orders they may issue for confirmation in the usual manner.

Lieutenant Archibald Cumine, of the 4th regiment of native infantry, in charge 12th company sappers and miners, has passed the examination in field engineering prescribed by General Order of the 30th September 1847, para. 7.

Assistant Surgeon H. S. Locock, attached to the 2d European Bengal fusiliers, is posted to the 47th regiment of native infantry, at Prome.
