General Orders by the Right Honorable the Governor in Council.

FORT ST. GEORGE, 9TH JANUARY 1855.

No. 6 of 1855.—The Right Honorable the Governor in Council is pleased to direct that the special sanction of Government be not in future considered necessary for the payment in India of the Pensions of Retired Officers.

FORT ST. GEORGE, 9TH JANUARY 1855.

No. 7 of 1855.—With reference to the General Orders by the Most Noble the Governor General of India in Council dated Fort William 27th October 1854, the G. O. G. dated as per margin are cancelled, and the following Orders relative to the supply of Malt Liquor to Canteens of European Regiments through the Commissariat Department, are published in supercession thereof—to take effect from the 1st January 1855.

No. 33 of 15th February 1853.
„ 207 of 11th October „

1. Ale and Porter will be imported from England and kept under charge of the Commissariat Department, at the risk of the State, for issue to Canteens of European Corps in the Madras Presidency.

2. Commanding Officers of Regiments will furnish Commissariat Officers of Divisions, annually on the 1st of May, commencing on 1st May 1855, with statements of the probable number of hogsheads of Ale and Porter that will be required for their Canteens during the following official year. Copies of these statements are to be sent by the Commissiariat Officers of Divisions to the Commissary General, without delay, for transmission to the Home Authorities.

3. On the arrival of Malt Liquor at Madras, it will be surveyed by a Committee composed of the Deputy Commissary General as President, and the Officers of the Canteen Committee of the Regiment in Fort St. George and a Medical Officer from the Garrison as Members. The Ale and Porter landed at other stations will be carefully surveyed by competent Committees assembled by order of the Officers Commanding.

4. Commanding Officers will indent on the Executive Commissariat Officer monthly for the number of hogsheads of Ale and Porter that will be required for the following month's expenditure. The quantity so required is to be examined on the 1st of the month, and the casks are to be filled up in the Commissariat stores in presence of, and after approval by competent persons, to be deputed by the Commanding Officer for that purpose; after which the liquor is to be removed and is to be at the risk of the Regiment taking it.

5. The Ale and Porter will be issued to Canteens &c. from the 1st January 1855 at one uniform price viz. (Rs. 47-4-0) Rupees forty-seven and Annas four per hogshead, so as to be retailed to the Troops at Annas (3) three per quart, or one and half (1½) Anna per pint, whether in garrison or marching, the contents of each hogshead being calculated at gallons (63) sixty-three. The quantity of Malt Liquor so issued in retail is not to exceed one quart per diem for each man, whether he draws his Government allowance of spirits or not, calculated at the strength of Corps and Detachments respectively, and it will be the duty of Commanding Officers, under instructions from His Excellency the Commander-in-Chief, to frame their annual indents accordingly.

6. Where there may be no Canteens, the Commissariat Department will, as heretofore, arrange for issuing the Malt Liquor at the fixed retail price of (3) three Annas per quart, or (1½) one and half Anna per pint, and also, at the same rates and in the same quantities, to Non-Commissioned Officers and others who cannot receive the Liquor from Canteens where they exist.

7. On occasion of any Regiment or Detachment quitting Cantonments, the Commissariat will receive back into store, casks which have not been opened or broached.

8. Commanding Officers of Regiments and Detachments under orders to march, are to give previous intimation to the Commissariat Department of the quantity of Ale and Porter that will be required on the road, or Commanding Officers may procure it at the several stations through which they pass.

9. Bottled Porter will likewise be supplied in garrison, and also in limited quantity on the line of march, at Annas (3) three per quart bottle, empty bottles being returned to the Commissariat Department.

10. All communications regarding the supply of Ale and Porter to the Troops, are to be made direct to the Commissariat Department of the Division or Station, and all applications requiring a reference to Government, will be submitted through the Commissariat Officer of the Division and Commissary General.

11. It is to be understood that this order makes no change in the price which is to be paid for Rum or Arrack, supplied by the Commissariat to Canteens, which will continue as heretofore at Rupees (2) two per gallon old wine measure, and at one Anna per dram to the Soldier.

12. When Detachments may be without Canteens, and whenever it may be necessary for the Commissariat to issue Rum or Arrack, the rate of payment shall be Anna one per dram or Rupees 2-8 per gallon.

MILITARY DEPARTMENT.

OUR GOVERNOR GENERAL OF INDIA IN COUNCIL.

1. As clearly expressed in our letter of the 8th February 1854, No. 3, our intention is that the average of the Off-reckoning Shares actually paid in the last 21 years of which the accounts have been made up, after deducting from the same the amount of Interest on unadjusted balances, shall be the amount to be paid hereafter to Colonels of Regiments in lieu of Off-reckonings.

Reply to Letter dated 10th July 1854, No. 170.

Government submit a report from the Military Auditor General relating to the amount of "Colonel's allowance" to be granted under the Court's orders of 8th February 1854, in lieu of Off-reckonings and request instructions on the subject.

2. We annex to this letter a Statement of these Shares, and of the sums included in them on account of Interest, (as published in General Orders,) from which you will find that the average amounts to Rs. (5475-14-0) five thousand, four hundred and seventy-five, and Annas fourteen per annum, for Colonels of Regiments serving in India, and £668-12-5 for those on Furlough in England. Letter dated 26th July 1854, *No* 66.

Para 1. We transmit herewith 3 copies of a War Office Circular dated 12th June 1854, No. 1163, with its accompanying copies of a revised edition of the Military School Regulations, which you will duly carry into effect.

Schools / 14

2. We also transmit copy of a letter from the Deputy Secretary at War dated 1st July 1854, from which you will observe that the Secretary at War, in accordance with these Regulations, has conferred on Mr. George Carterfield of H. M. 84th Regiment, the rank of Schoolmaster of the 3d Class.

Circular No. 1163. *War Office, 12th June* 1854.

SIR,

Schools / Genl. No. / 91

1. In transmitting herewith for your information and guidance, copies of New Army School Regulations, I am directed to draw your particular attention to the chief alterations to be effected thereby.

2. Schoolmasters, instead of as before, being classed as Garrison, Regimental, and Assistant, will be divided into four classes, the fourth class being Assistant Schoolmasters.

3. Each of these classes will have a different rate of pay assigned to it; and promotion to the higher classes will be made by the Secretary at War, for good conduct and ability only.

4. The pay of each class will be as follows:—

	s.	d.	
First-class Schoolmasters	7	0	a day
Second-class do.	5	6	„
Third-class do.	4	0	„
Fourth-class (Assistant Schoolmasters)..	2	0	„

5. The first class Schoolmasters will receive Warrants from the Secretary at War, which will entitle them to be classed as Warrant Officers, and to rank next to a Commissioned Officer; and will bring them specially under certain clauses of the Articles of War.

6. Instead of being clothed in the uniform of their respective Regiments, all Schoolmasters will, when they are entitled to their next issue of clothing, receive a plain uniform of one general character.

7. The fees paid by Soldiers who attend school, three-fourths of which fees have hitherto been paid to the Schoolmaster, will henceforward be wholly credited to the Public.

8. The allowance to the Schoolmaster for instructing, or superintending the instruction of the Female Children, will be discontinued; but he will not be relieved from the performance of this duty.

9. Beer money is not in future, to be issued to any class of trained Schoolmasters.

10. Notwithstanding the above mentioned deductions from the former emoluments of the Schoolmaster, the increase of pay and pension now awarded, will be an increase over his previous average receipts; while the prospect of promotion (depending upon his own conduct and exertions), and the fixed nature of his income, will greatly improve his situation.

11. You will observe that the payment hitherto required from voluntary attendants at the School, for the cost of Copy-books, will no longer be demanded; it being considered desirable to afford every proper encouragement to voluntary attendance.

12. The allowance to the Schoolmistress will remain the same as before; but she will not be required to provide out of it, materials and implements of work, which will be paid for by the public.

13. The new Regulations will take effect from the 1st July 1854.

14. In conclusion I am to observe, that the Secretary at War feels that the success of the present system of Army Education by means of trained Masters, depends in a great degree upon the interest taken in its operation, by the Commanding Officers of Regiments or Garrisons; and I am accordingly to express Mr. Sidney Herbert's earnest hope that you will co-operate with him in endeavouring to promote this important object, the attainment of which he has had chiefly in view in the alterations pointed out in this letter, in the position, rank, and pay of the trained Schoolmaster.

I have the honor to be, Sir,
Your obedient servant,
B. HAWES.

This Circular previous to its publication was submitted by the Secretary at War for our consideration, and having then expressed our approval of it, we desire that the necessary instructions may be issued by your Government for its application to the Queen's Regiments serving under your Presidency.

Circular No. 1166.

War Office, 4*th November* 1854.

SIR,

Her Majesty having been pleased by Her Warrant of 13th April 1854, to amend the Warrant of 1st July 1848, granting Medals and Gratuities to Soldiers in the Army for "Good Conduct and long Service," and having been further pleased to direct that Gratuities so awarded shall be placed under certain restrictions in the Savings Bank of the Regiment, to which such Soldier may belong, I am directed to acquaint you, in furtherance thereof, and with reference to the Circular Letter from this Department of the 22d May last, No. 1159, that the following instructions should be observed in investing the Gratuities alluded to.

115083 1485

The Gratuity is to be placed to the credit of the Soldier in the Savings Bank Ledger, separate and distinct from his ordinary Savings Bank transactions, as also, from any Deposits he may have in any Friendly Society Fund invested in the Regimental Savings Bank.

The following Heading is to be written over the Gratuity Account in the Ledger.

"*Gratuity not to be paid until discharged from the Service.*"

In the event of a Soldier being transferred from the Regiment in which he is serving, to another Regiment, a separate Transfer Statement, to be called Form C, is to be transmitted to the Regiment to which the man is transferred, having the heading above stated, and specifying the amount of Gratuity awarded, with the amount of Interest added to Principal; and separately stating the amount of Interest, if any, to be afterwards added for any broken period, previous to transfer.

When a Regiment is transferred to the Indian Establishment, these Gratuities will be transferred to the India Company in the same way as the ordinary Savings Bank, and Friendly Society Deposits have hitherto been transferred, but continuing to be separately, and distinctly stated from ordinary Deposits.

To simplify, as much as possible, the transfer of Gratuities to Soldiers serving with their Regiments in India, a notification of the award will in future be made by the Secretary at War to the Directors of the East India Company, as well as to the Officer Commanding the Regiment, with directions to the Paymaster that the amount awarded is to be deducted from the Quarterly Remittance Return of Effects, with a reference to the number and date of the War Office Letter.

When men are discharged in India for the purpose of settling there, at the Cape of Good Hope, or any Colony eastward thereof, then the Principal and Interest of their Gratuities are to be withdrawn, and paid to them like their ordinary Savings Bank Deposits.

In these cases, where men are sent home to be discharged, the East India Company will transfer to the British Government the Gratuity Deposits of such men in the same mode as that in which their Savings Bank balances are now transmitted ; care being taken to distinguish such Gratuities from ordinary Savings Bank Deposits.

Should a man, entitled to a Gratuity, die before he is discharged from the Service, the Principal and Interest are to be added to his Effects in the mode pointed out in the 7th Section of the Savings Bank Warrant of 11th October 1843.

As these Gratuities are only subject to forfeiture on conviction by a General, Garrison, or District Court Martial, Commanding Officers will take care to report such cases specially to the Secretary at War, and give the requisite directions to the Paymaster to remit to this Country the Principal and Interest so forfeited, with the other remittances, to be placed to the credit of the public.

As regards Regiments on the British Establishment, all forfeited Gratuities are to be withdrawn from the Savings Bank like any other Deposits, and specifically credited to the Public in the general state of the Quarterly Pay List, with a reference to the date of the Commanding Officer's Letter reporting the forfeiture of the Gratuity to the Secretary at War.

In regard to those Regiments on the British Establishment, which have not opened Savings Banks, and to the Soldiers of which Gratuities for "Good Conduct and Long Service" may be awarded, it will be requisite that the Officer Commanding should open Savings Banks for the purpose of investing such Gratuities at Interest, under the authority of the Warrant of 13th April, and the Circular from this Office dated 22d May 1854.

I have the honor to be, Sir.
Your obedient Servant,

R. HAWES.

GENERAL ORDERS BY THE MOST NOBLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

Fort William, 13th January 1855.

No. 67 of 1855.—The following Notification from the Home Department (Electric Telegraph) is published in General Orders :

RULES FOR THE TRANSMISSION OF MESSAGES BY THE ELECTRIC TELEGRAPH.

Passed by the Governor General of India in Council, on the 5th January 1855.

I. MESSAGES on the Public Service shall take precedence of all others.

II. Service Messages shall be charged for at the same rate as private Messages, but the former shall be paid for by a transfer in account, covered by a *pro formâ* receipt, without cash payments.

III. A Return shall be made every quarter to the Government of India and to the local Governments, showing the number and cost of Messages transmitted by each Department during the preceding quarter.

IV. No Government Officer shall employ the Telegraph except on urgent and important occasions, and no Message shall be sent on Service by the Electric Telegraph unless the saving of time effected by the Telegraph is of real importance.

V. At the seats of the local Governments authority to despatch Messages is vested in the head of the Government and in his private Secretary. All other Service Messages, Civil and Military, shall be sent under the authority only of the Chief Secretary to Government, and of the chief Military Officer respectively.

VI. At Calcutta, Messages will be sent under the signature of the Governor General, of his private Secretary, and of the Secretaries to Government. The power of communication along the river is also vested in the Superintendent of Marine and the Master Attendant.

VII. At Telegraph Stations not being seats of Government, no Service Message shall be sent unless it be signed by the Chief Civil or Military Officer of the station, each for his own Department.

VIII. The Officer who signs the Message will be responsible for the necessity of sending it by the Telegraph, and if on the periodical inspection of the Station-books it shall be discovered that Messages of a trifling nature have been despatched, the Officer who authorized them will be made to pay for them.

IX. Officers, whose signatures will authorize Messages to be sent free, are bound in honor not to send private communications under cover of that authority.

X. All Service Messages must be conveyed in as few and as short words as possible.

XI. Messages will be received for transmission by Electric Telegraph on and after the 1st of February 1855, at the under-mentioned rates of charge and subject to the following rules :—

A single rate is one Rupee for 16 words and under, and for that sum the Message may be transmitted 400 miles.

A single rate, or distance of 400 miles from Calcutta, will include Benares, and all Telegraph Stations between those cities.

A double rate from Calcutta will include Agra and the intermediate Stations at Allahabad and Cawnpore.

A treble rate from Calcutta will include Meerut, Delhi, Loodianah, Lahore, Gwalior, Seepree and Indore.

A quadruple rate from Calcutta will include Peshawur and Bombay.

Peon hire, at the rate of 4 annas per mile, will be charged for extra, if the Message be sent to any place at a distance from a Telegraph Station.

The rates for the Madras line will be established on the same principle, and will be announced when the Offices under that Presidency are opened.

XII. No Message, however brief, will be charged for at less than a single rate, and the reply will in every case be charged for separately.

XIII. Mercantile or other Messages involving important results, will only be received on condition of being repeated back from each Receiving Station, and at double price, according to the practice in Europe.

XIV. The sender of a Message may pre-pay the charge for a reply, which must be limited to the number of words so pre-paid for.

XV. All Messages must be in the English language, and must be pre-paid in cash, including Peon hire, excepting Messages sent from River Stations below Calcutta.

XVI. No unpaid Message, with the above exception, shall on any account be transmitted. A violation of this rule will subject the Signaller, or Assistant in charge of the Station whence the message may be sent, to dismissal from Office.

XVII. Messages in cypher will be charged for at triple rates under special rules which may be learned at the different Telegraph Offices.

XVIII. All communications in cypher must also be repeated back to obtain accuracy, and the repetition will be charged for in addition at single rate.

XIX. Should a Message in cypher be tendered for transmission simultaneously with a Message in ordinary language, the latter will take precedence of the former.

XX. Subscriptions for daily Messages of 48 words or more will be received at an abatement of one-fourth of the above-named rates.

XXI. Violation of secrecy on the part of any Officer, Assistant, Clerk, or Signaller, in the Telegraph Department, will be punished by dismissal from Office, forfeiture of arrears of pay, and a declaration in the official *Gazette* of the incapability of the delinquent to serve the Government in any public capacity.

XXII. Officers in charge of Telegraph Stations may refuse to transmit a Message which may be of a decidedly objectionable character. Should the character of the Message be disputed, the matter may be referred to a Secretary to Government if the dispute occur at the seat of a Government, or to the Chief Civil Officer if it occur at a Mofussil Station.

XXIII. Private Messages shall be transmitted in the order of their receipt in the Telegraph Office. Should two or more Messages be tendered for transmission at the same time, the shortest shall have the precedence without reference to its relative importance.

XXIV. No Message or Messages, beyond 200 words in all, can be sent at one time by one individual or firm; and no second Message can be sent by the individual or firm till after the lapse of three hours unless the line be free and not required by any one else.

XXV. Private Messages will, until otherwise notified, only be received between sunrise and sunset.

XXVI. During the receipt of Messages signalled as "Confidential," visitors shall be excluded from the Signalling Room. A violation of this rule shall subject the Assistant in charge to dismissal from Office.

XXVII. News and Messages shall be conveyed in the following order:—

1*st*.—Intelligence of the English Mails.

2*nd*.—Messages for the Press.

3*rd*.—Messages for Subscribers.

4*th*.—Messages for non-Subscribers.

XXVIII. Overland intelligence, or other public news of great importance, shall be given to the Press free of charge, at the seats of the different Governments, and at all other places on the line where Newspapers are published, and where there are regular Repeating Stations. GENERAL ORDERS.

HEAD QUARTERS : CHOULTRY PLAIN.

14TH FEBRUARY 1855.

The Right Honorable the Governor in Council having addressed the subjoined Orders to His Excellency the Commander in Chief, to be published to the Army, they are accordingly published in Military Orders.

General Orders by the Right Honorable the Governor in Council.

FORT ST. GEORGE, 12TH FEBRUARY 1855.

No. 45 of 1855.—Surgeon Simon Alexander George Young is permitted to retire from the Service, from the 13th February 1855, on the pension of £ 300 per annum.

FORT ST. GEORGE, 13TH FEBRUARY 1855.

No. 46 of 1855.—The following General Orders by the Most Noble the Governor General of India in Council, are republished for the information of the Army.

GENERAL ORDERS BY THE MOST NOBLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

Fort William, 30th January 1855.

No. 154 of 1855.—In order to prevent in future the inconvenience and detriment to which young Officers are subjected from the delay which at times takes place under the present system of posting them to Regiments, the Most Noble the Governor General of India in Council is pleased, with the sanction of the Honorable the Court of Directors, to lay down the following Rules to be observed hereafter at the three Presidencies in posting Cavalry and Infantry Cadets to Regiments :—

1. It is intended that Regimental rise shall, in every case, be brought into full operation at the earliest practicable period after the arrival of the Cadet at the Presidency for which he is appointed.

2. The lists of Rank of Cadets prepared at the India House will be published in Government General Orders in the Military Department immediately after their receipt.

3. From these will be compiled in the office of the Adjutant General of the Army at Calcutta, Madras and Bombay, a List showing the date of rank of each Cadet and a General Order will be issued by Government assigning the rank of Cornet or Ensign, as the case may be, to the several Cadets.

4. Immediately after the publication of the General Order assigning rank, the Senior Cornet or Ensign on the list is to be posted by order of Government to the first vacancy, but when there may be a number of vacancies in Regiments, the Senior on the list is to be posted to the most advantageous vacancy in the branch to which he belongs known at the Adjutant General's office at the Presidency and so on in succession; the Army Lists being closed at the Presidency on the date of the General Order, and only those casualties in Regiments known on the evening of that date being taken into account in posting the Seniors on the list for whom there may be vacancies in Regiments.

5. Should any Cadet, posted to a Regiment according to his standing in the list received from the India House, fail to take up his appointment, the vacancy is to be considered as an ordinary casualty.

6. Should the rank originally assigned to a Cadet be afterwards altered under any circumstances, it is in no way to affect his position in the Regiment to which he may have been posted, unless such alteration of rank puts him below any Officer who may have been posted under him in the same Regiment. In this case the Officer who may have lost rank in the List of Cadets must be placed in his Regiment below those Officers in it who rank above him as a Cadet.

7. Any alteration of rank as a Cadet will, of course, affect the standing of an Officer in the Gradation List of the Army, in which he must at once be placed in his proper position.

8. Any Cornet or Ensign who may wish to be removed from the Regiment to which he has been posted to another, must intimate his wish to that effect to the Officer in charge of the Adjutant General's Office at the Presidency. Should there be a vacancy in the Corps he selects on his application reaching the Military Department from the Adjutant General's Office, he will be removed to it at once, or if he express a wish to that effect, he may be removed on the occurrence of the next vacancy in the Corps which he selects.

9. No Cornet or Ensign is permitted to exchange more than once from one Corps to another, and those who have been more than one month with a Corps will be permitted to exchange only when the reasons for desiring it are valid and proper, and when it is shewn that the Officer has not involved himself in difficulties whether of a pecuniary or any other nature.

10. Gentlemen appointed abroad and who are required to pass their examination in India, will be entitled to retain their position on the Lists of rank of Cadets received from the India House, provided they appear at the first meeting of the Board of Examiners after the Notification of their appointments in General Orders and pass the prescribed examination.

11. The names of those who do not appear or who fail to pass their examination at such first meeting of the Board are to be withdrawn from these lists and to be placed, in any subsequent list, according to the dates of their passing.

12. The position of a Cadet in such subsequent list will be made to correspond with that of those who left England at such time as would have allowed of the despatch by the same opportunity of the letter of appointment. Thus a Cadet so circumstanced will rank below those who left England in the Steamer which conveyed the Overland Mail last received on the date of his passing his examination, or should no Cadet have come out by that opportunity. then as junior to all who sailed from England on any date prior to the departure from Southampton of such steamer.

13. Gentlemen appointed abroad who may not be found qualified on the first examination, will be allowed a second trial within the next ensuing six months; and, should they fail to pass the examination at the second trial, they will be precluded from taking up their appointment.

No. 158 of 1855.—The services of Major W. H. Budd of the 31st Regiment Madras Native (Light) Infantry, at present employed as Deputy Commissary General in Pegu, are placed at the disposal of the Government of Fort St. George for other employ.

(Signed) R. J. H. BIRCH, Colonel,
Secy. to the Govt. of India, in the Mily. Dept.

FORT ST. GEORGE, 13TH FEBRUARY 1855.

GENERAL ORDER BY THE MOST NOBLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

Fort William, 30th January 1855.

No. 152 of 1855.—In continuation of General Order No. 737 of the 14th July last,* the following paragraphs of a Military letter, from the Honorable the Court of Directors to the Government of India, No. 56, dated 22d November 1854, are published for general information:—

Letter dated 1st August 1854, No. 189.

In continuation of No. 312 of 1853, request certain information regarding Books for Regimental Schools.

18. You require to be informed whether the number of sets of Books, shown in the List published in General Order as the authorized complement for a Regimental School, is to be observed as the maximum, even when the number of Scholars in a Regimental School shall be nearer 200 than 100, and whether McLeod's Spelling Book may not be included in future Indents.

19. The question as to the sets of Books for Regimental Schools was submitted by the Military Auditor General, in his letter dated 28th November 1853, but he then added—"If the same Books are to "be used successively at different hours of the day by adults and children, the maximum at present sup- "plied may suffice." Concluding that such a course was adopted, we did not consider it necessary to reply to the question proposed.

20. In your General Order now published, you have properly directed, that in "Garrison and Artil- "lery Division Schools, the number of each article is to be regulated by the strength of the Troops for "which the School is specially allowed." This Rule is quite proper and in conformity with it, we shall approve of the present authorized complement of Books for a Regimental School being exceeded whenever you are satisfied that it is insufficient for the number of Scholars attending the School. McLeod's Spelling Book may be included in future Indents.

GENERAL ORDERS

By His Excellency the Commander in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, *5th March* 1855.

No. 13.—The following revised Section to be substituted for Section XV, General Regulations.

SECTION XV.

POSTINGS, EXCHANGES AND TRANSFERS.

Officers.

1. It is intended that Regimental rise shall, in every case, be brought into full operation at the earliest practicable period after the arrival of the Cadet at the Presidency for which he is appointed.

2. The lists of rank of Cadets prepared at the India House, will be published in Government General Orders in the Military Department immediately after their receipt.

3. From these will be compiled in the offices of the Adjutant General of the Army at Calcutta, Madras and Bombay, a list shewing the date of rank of each Cadet and a General Order will be issued by Government assigning the rank of Cornet or Ensign, as the case may be, to the several Cadets.

4. Immediately after the publication of the General Order assigning rank, the Senior Cornet or Ensign on the list, is to be posted by order of Government to the first vacancy, but when there may be a number of vacancies in Regiments, the Senior on the list, is to be posted to the most advantageous vacancy in the branch to which he belongs known at the Adjutant General's office at the Presidency and so on in succession; the Army lists being closed at the Presidency on the date of the General Order and only those casualties in Regiments known on the evening of that date being taken into account in posting the Seniors on the list for whom there may be vacancies in Regiments.

5. Should any Cadet, posted to a Regiment according to his standing in the list received from the India House, fail to take up his appointment, the vacancy is to be considered as an ordinary casualty.

6. Should the rank originally assigned to a Cadet be afterwards altered under any circumstances, it is in no way to affect his position in the Regiment to which he may have been posted, unless such alteration of rank puts him below any Officer who may have been posted under him in the same Regiment. In this case the Officer who may have lost rank in the list of Cadets must be placed in his Regiment below those Officers in it who rank above him as a Cadet.

7. Any alteration of rank as a Cadet will, of course affect the standing of an Officer in the Gradation list of the Army, in which he must at once be placed in his proper position.

8. Any Cornet or Ensign who may wish to be removed from the Regiment to which he has been posted to another, must intimate his wish to that effect to the Officer in charge of the Adjutant General's office at the Presidency. Should there be a vacancy in the Corps he selects, on his application reaching the Military Department from the Adjutant General's office, he will be removed to it at once, or if he express a wish to that effect, he may be removed on the occurrence of the next vacancy in the Corps which he selects.

9. No Cornet or Ensign is permitted to exchange more than once from one Corps to another, and those who have been more than one month with a Corps will be permitted to exchange only when the reasons for desiring it are valid and proper, and when it is shewn that the Officer has not involved himself in difficulties whether of a pecuniary or any other nature.

10. Gentlemen appointed abroad and who are required to pass their examination in India, will be entitled to retain their position on the lists of rank of Cadets received from the India House, provided they appear at the first meeting of the Board of Examiners after the notification of their appointments in General Orders and pass the prescribed examination.

11. The names of those who do not appear or who fail to pass their examination at such first meeting of the Board are to be withdrawn from these lists and to be placed in any subsequent list, according to the dates of their passing.

12. The position of a Cadet in such subsequent list will be made to correspond with that of those who left England at such time as would have allowed of the despatch by the same opportunity of the letter of appointment. Thus a Cadet so circumstanced, will rank below those who left England in the Steamer which conveyed the Overland Mail last received on the date of his passing his examination, or should no Cadet have come out by that opportunity, then as junior to all who sailed from England on any date prior to the departure from Southampton of such Steamer.

13. Gentlemen appointed abroad who may not be found qualified on the first examination, will be allowed a second trial within the next ensuing six months; and, should they fail to pass the examination at the second trial, they will be precluded from taking up their appointment.

14. No exchanges are permitted between Officers of different branches of the Service, nor between Officers of the same branch above the rank of Cornet, 2d Lieutenant or Ensign.

15. Officers exchanged or removed into other Corps enter as the juniors of their rank.

Non-Commissioned Officers and Soldiers.

1. No removal or exchange from one Corps or Department to another can take place without the previous sanction of the Commander in Chief.

2. Removals of Non-Commissioned Officers from one Regiment to another, except by Exchange, can be authorized only on special grounds which must be distinctly stated for the consideration of the Commander in Chief.

3. Removal or Exchange of Privates from one Regiment to another, will be allowed only upon grounds of relationship on either side, within the degree of full brother and after not less than five years Service or for public purposes, and in all cases the Commanding Officer with whom the application origi-

nates is required to communicate with the Commanding Officer of the other Corps and to ascertain his consent to the arrangement. As a general rule Privates should apply to their own Commanding Officers for the indulgence of being removed.

4. A roll of all Men *recommended* for exchange or transfer, made out agreeably to the subjoined form No. 1, is to be transmitted to the Adjutant General with the monthly returns of Corps on the 1st of January, April, July and October and except in special cases calling for deviation from the above rule applications are not to be forwarded at intermediate periods.

Should no exchanges or transfers be recommended the roll is dispensed with, it not being necessary to forward a blank roll.

5. Applications for removal or exchange are not to be encouraged, but as there may be cases in which a refusal would bear hardly upon the individuals concerned, Commanding Officers whenever they may deem it expedient to refuse their consent, are required in replying to references on this subject distinctly to state the particular grounds of their objection. The case may then be referred to Head Quarters by the Officer with whom the application originated.

6. Exchanges of Non-Commissioned Staff from one Station or Department to another, will be authorized without reference to relationship or period of Service, but the application is required to have the sanction of both Commanding Officers and must be supported by Certificates of good conduct for both parties.

7. On the transfer or exchange of Men from one Corps or Department to another, the following documents are to be transmitted to their new Corps.

For Non-Commissioned Officers and others removed to other Regiments or transferred to the Veterans.

1. Register.
2. Register of Heirs, (Natives.)
3. Sheets from Court Martial Book.
4. Nominal roll, (form No. 2.)
5. Certificate of departure, (form No. 3,) for Men transferred to the Veterans.

For Non Commissioned Staff.

1. Register.
2. Nominal roll, omitting "Necessaries in possession."

8. Commanding Officers are held responsible that all unadjusted claims of whatever nature, are accurately entered in the Nominal roll and should any just claim be subsequently preferred which may not have been so entered and the non-adjustment of which may be found to be owing to the neglect of the Commanding or other Officer, he will be held personally responsible for the amount.

9. They are also responsible that Non-Commissioned Officers and others are sent to join without unnecessary delay. Should any cause require them to be detained, the circumstance must be reported to Head Quarters.

GENERAL ORDERS BY THE HONORABLE THE PRESIDENT OF THE COUNCIL OF INDIA IN COUNCIL.

Fort William, 26th February 1855.

No. 278 *of* 1855.—The Hon'ble the President of the Council of India in Council, with the concurrence of the Most Noble the Governor General of India, is pleased to lay down the following revised Rules for regulating claims to indemnification for losses, to have effect at the three Presidencies from the 1st proximo. G. G. O. No. 428, of the 16th November 1849,* and all subsequent rules on the subject are hereby cancelled :—

1. Indemnification is not intended to make good the full amount of loss sustained ; but is granted only to such extent as shall enable the claimant to re-equip himself for service according to the scale laid down.

* Madras G. O. G. 4th December 1849, No. 225.

2. In estimating the amount of indemnification to be granted, regard shall be had to the extent of equipment required by the regulations of the service, the orders of the Commander-in-Chief, or to such restriction as may have been imposed by his authority, according to the nature of the service on which the claimant was employed when the loss occurred.

3. Indemnification shall invariably be confined to losses which have been altogether unavoidable, and may be granted in the following cases, *viz :*

Losses in action with the enemy ;

By capture ;

By shipwreck, or by inevitable casualties on board-ship, occasioned by storms or stress of weather ; or by corresponding accidents in river navigation, when proceeding on duty by water ;

By accidental fire ;

By the destruction of a public store-house ; or

By the destruction of articles, or of horses or baggage-cattle, to prevent them falling into the hands of the enemy, or to prevent the spreading of an infectious or contagious disorder.

Provided that in all these cases the articles or animals were placed in the situation in which the loss occurred, under the sanction of proper authority ; that every exertion was used to prevent the loss ; and that any orders for the destruction of articles or of animals were issued by competent authority, and carried into effect with all possible promptitude.

4. No claim can be admitted in the following cases, *viz :*

Losses from desertion ;

From articles having been improperly packed, placed, or left in improper situations ;

From the death of horses or baggage-cattle by fatigue in the ordinary course of service ;

From the breaking down of carriages being private property ;

From the loss of clothing, or necessaries in hospital ; or

From any circumstances whatever which may have been prevented by proper care on the part of the regiment or of the claimant or person in charge.

5. No claim can be admitted from the representatives of officers or men slain in action, or dying in consequence of wounds, or otherwise dying before their claims can be investigated and paid.

6. No indemnification shall be granted for losses sustained by officers when proceeding on or returning from leave of absence, except in case of sick leave, or under special circumstances, nor by those in receipt of boat allowance.

7. If an officer or a soldier shall have neglected to bring forward his claim for a period exceeding one month from the date of his loss, this delay shall be considered a sufficient reason for rejecting the claim, however valid it may be in other respects, unless the claimant can prove that he was unavoidably prevented from making an earlier claim.

8. Whenever baggage or articles of equipment are sent by a vessel in which the officer to whom they belong is not himself a passenger, it is incumbent upon such officer to protect himself against loss by effecting an insurance thereupon ; and if he has an opportunity of doing so, and neglect to avail himself of it, no compensation will be given by the State for any loss that may happen.

9. Whenever losses occur under circumstances which give an officer or soldier a claim to indemnification, whether on service in the field or otherwise, the General, or other Officer Commanding the Division, Station or Detachment, shall assemble, with all convenient despatch, Committees composed of officers from different corps, when practicable, for the investigation of claims arising out of these losses, which Committees shall be guided by the principles laid down in this regulation, and shall require the several proofs to be laid before them in the forms hereinafter prescribed, and the whole of their proceedings or certified copies thereof shall be transmitted to the Commander-in-Chief for his observations and opinion, and by him forwarded to Government for final decision.

Personal Losses of Officers.

20. Indemnification for horses of officers destroyed on account of having farcy or glanders will only be admitted when it is shown that the destruction of the animal was necessary to prevent infection to other horses in the same stable or in close proximity thereto, whose loss would be liable to be defrayed by the public. *Vide* Form C.

21. The allowance to the native ranks of the Irregular Cavalry for the loss of horses killed or lost in action, dying of fatigue, destroyed or disabled on extraordinary duties, or on field service, is granted according to the actual cost of each horse not exceeding Rupees (125) one hundred and twenty-five. *Vide* Form D.

26. Every claim for indemnification for such losses shall be accompanied by a statement of the prices paid by the men for their necessaries, according to the Regimental Orders then in force, and the Committee by which, under the provision of Article 9 of this Regulation, the claim may be examined, shall submit a recommendation as to the amount of indemnification to be granted, for the final decision of Government.

27. Those articles of Clothing and Equipment only, which the Soldier is required to provide and to keep up at his own expense, are to be considered Regimental necessaries.

28. When articles of Clothing in wear, provided by Government for the use of Soldiers, are lost, they will be replaced under the provision of the Clothing Regulation; but articles which have served the full period will, on no account, be replaced, neither can indemnification be allowed for them.

29. GENERAL ORDERS

By His Excellency the Commander in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, *7th March* 1855.

At an European General Court Martial held at Bellary, on Friday the 2d day of February 1855, Edward Smith, Assistant Apothecary attached to the Superintending Surgeon's Department Bellary, was arraigned on the following Charge, viz.

Charge.—For disgraceful conduct in the following Instances:—

First Instance.—In having at Ramandroog Ceded Districts, with intent to defraud and injure Mister Francis Abraham, resident of Bellary, written to him as follows—in view to extort certain sums of money from him the said Mister Francis Abraham, namely, " 12th November 1854. If you " wish my silence and assistance, *purchase it you must* and unless you do so, I shall consider our " treaty at an end, you think you are safe, allow me to tell you such is not the case, I am too old a " bird to let the grip I had of you to escape so easy as you thought, consider ere you lose me, I mean " my services."

" After all you ought to be glad to pay me 3,000 it is cheaper than paying Vakeels and Lawyers " whom I can undo." " Droog, 25th June 1854. I would advise you to have *Bank notes ready*, " or if they are not procurable, hard cash must do, I tell you distinctly that I will not take Orders or " Hoondies they must cause delay till they are cashed, business must be settled on Monday next, the " day of my arrival in Bellary," the above having reference to a law suit pending at Bellary between Messieurs Francis Abraham and Charles Abraham.

Second Instance.—In having at Ramandroog, between the month of October 1853 and June 1854, fraudulently abstracted from a tin box, entrusted to his care by Mister Francis Abraham, inhabitant of Bellary, and which box was locked and the key retained by Mister Francis Abraham, certain manuscript papers relating to a suit, which was about to commence between the said Messieurs Francis Abraham and Charles Abraham of Bellary.

Third Instance.—In having at Bellary, in the month of June 1854, extorted from Mister Francis Abraham, the sum of five thousand rupees to the injury of the said Mister Francis Abraham, under a threat that if he, Mister Francis Abraham did not pay him that sum, he, Assistant Apothecary Edward Smith would sell the papers to his, Mister Francis Abraham's opponents, meaning the opposing parties in the suit, Messieurs Francis Abraham versus Charles Abraham.

Finding.—The Court having maturely weighed and considered the evidence before it and what has been stated in defence is of opinion, that the Prisoner Edward Smith, Assistant Apothecary attached to the Superintending Surgeon's Department Ceded Districts, is

Guilty of the Preamble of the Charge.
Guilty of the First Instance of the Charge.
Guilty of the Second Instance of the Charge.
Guilty of the Third Instance of the Charge.

Sentence.—The Court having found the Prisoner guilty as above stated doth sentence him the said Edward Smith, Assistant Apothecary attached to the Superintending Surgeon's Department Ceded Districts, to be dismissed the Service.

BELLARY, *the 13th day of February* 1855.

Not confirmed.—I am prevented from confirming these proceedings as the Court refused to allow the papers, referred to in the Charge to be produced before it—and consequently there is no proof that they were Mr. Abraham's—or referred to the law suit or were ever given to the Prisoner.

I am however, satisfied from what appears on the record, that Assistant Apothecary Edward Smith, has been engaged in transactions, that render him quite unworthy to remain in the Service.

MADRAS, *5th March* 1855.

(Signed) GEORGE ANSON, Lieutenant General, *and Commander in Chief.*

The Prisoner will not return to duty until further orders.

13th March 1855.

At a Native General Court Martial held at Waltair, on Tuesday the 27th day of February 1855, Mahomed Hoossain, Subadar in the 7th Regiment of Native Infantry, was arraigned on the following Charge, viz.

Charge.—For conduct unbecoming the character of an Officer and to the prejudice of good order and Military discipline in the following Instances:—

First Instance.—In having at Vizianagrum, on the 1st of January 1855, at a General Muster, brought before Lieutenant John Richard Gason Magrath of the 1st Regiment Native Infantry, Station Staff Officer, Pension boy Shaik Hoossain of the 7th Regiment Native Infantry, and then and there knowingly, falsely stated to that Officer, that the said Pension boy Shaik Hoossain, was Pension boy Shaik Homed of the same Regiment, then absent without leave.

Second Instance.—In having at Vizianagrum, on the 8th of January 1855, when at the Quarters of Lieutenant John Richard Gason Magrath, 1st Regiment Native Infantry, Station Staff Officer, in company with Pension boy Shaik Hoossain of the 7th Regiment Native Infantry, knowingly, falsely stated to the said Lieutenant Magrath, " this (meaning Shaik Hoossain) is the boy you sent for, his name is Shaik Homed and I have brought him according to your order," or words to that effect.

Finding.—The Court on the evidence before it is of opinion that the Prisoner Mahomed Hoossain, Subadar in the 7th Regiment of Native Infantry, is

Guilty of the First Instance of the Charge with the exception that the name of the boy, whom the Prisoner brought before the Station Staff Officer as Pension boy Shaik Homed has not been proved to be Shaik Hoossain.

Guilty of the Second Instance of the Charge, but the Court find that the date given, should have been entered as " on or about the 8th of January."

Sentence.—The Court sentences the said Mahomed Hoossain, Subadar in the 7th Regiment of Native Infantry, to be dismissed the Service.

VIZAGAPATAM, 1*st day of March* 1855.

Recommendation of the Court.—The Court having performed a painful duty in awarding the above sentence, beg most respectfully to recommend the Prisoner to the merciful consideration of His Excellency the Honorable the Commander in Chief on account of his length of Service—his having been three times on active Service and his being precluded owing to the absence of his Regiment in Burmah from calling on others who might have been better able to speak to his character which the Court are disposed to believe must have stood high in his Regiment from the fact of his having been left behind in charge of the Families.

VIZAGAPATAM, 1*st day of March* 1855.

Approved and confirmed.

MADRAS, 12*th March* 1855. } (Signed) GEORGE ANSON, Lieutenant General, *and Commander in Chief.*

Remarks.—I regret that I cannot accede to the recommendation of the Court. The offence of which Subadar Mahomed Hoossain has been found guilty, was of a fraudulent and dishonorable character and greatly aggravated by having tutored Pension boy Shaik Hoossein to give a false name and number to the Station Staff Officer.

It is a most painful duty to me to confirm this sentence of dismissal upon an Officer who has served so many years and with a good character, but this long experience in the Service and his age should have been additional guarantees for reliance upon his honor and integrity.

(Signed) GEORGE ANSON, Lieutenant General, *and Commander in Chief.*

Subadar Mahomed Hoossain is to be struck off the strength of the Army, from the date of the publication of the Order at Waltair, which is to be reported to the Adjutant General of the Army.

The foregoing Extracts to be read to all Native Corps in the Madras Army.

Fort William, 7th March 1855.

No. 308 *of* 1855.—With the view of affording an improved system of instruction in Regimental and other Schools attached to the European portion of the East India Company's Troops at the three Presidencies, and to assimilate as far as practicable the School Regulations of the East India Company's Army with those of Her Majesty's Service, the Hon'ble the President of the Council of India in Council, with the concurrence of the Most Noble the Governor General, is pleased to direct that the following Rules shall have effect at the three Presidencies from the 30th April next :—

Army School Regulations.

1. There shall be a Superintendent of Army Schools at each Presidency to be appointed by the local Government.

2. There will be established at each Presidency, attached to some College or School, a Normal School for the purpose of training Soldiers and others as School-masters for the Army.

3. Applications for the admission of Soldiers into the Normal School for the purpose of being trained as School-masters for the Army are to be transmitted by Commanding Officers direct to the head of the Establishment, who, after examining the several certificates, will apply to the Adjutant General of the Army for such of the candidates as he may think most likely to qualify themselves as School-masters. Applicants must be unmarried, as a general rule between the ages of 18 and 25, and must have passed a preliminary examination before the Superintendent of Schools, or in his absence, before the Chaplain of the Station or such Officers as may be named from time to time. The exact age, services, character, &c., of candidates must be stated by the Commanding Officer in the applications.

4. Soldiers, while under instruction in the Normal School, will be allowed their full pay as if present with their Regiments, and will continue to be borne on the strength of their corps.

5. The sons of Soldiers will also, on passing the preliminary examination, be admitted to the Normal School to be trained as School-masters. They must be of pure European parentage and not under 16 years of age. They are to be enlisted and attested as Soldiers, and will be entitled to the pay of Privates of Infantry from date of admission, and will be borne on the Returns of one of the Infantry Regiments.

6. The number of students at the Normal School will be fixed from time to time according to circumstances.

7. The names of men who obtain certificates of qualification as School-masters or Assistant School-masters, are to be sent to the Adjutant General of the Army for publication in G. O. by the Commander-in-Chief, who will nominate them, as vacancies occur, to Regimental and other Schools.

8. A portion of trained School-masters, when qualified persons are procurable, will be sent out from England, and these are to be first posted to Regiments and Schools. School-masters trained at the Normal School, will, in the first instance, if no vacancies exist in the grade of School-masters, be appointed as Assistant School-masters in Schools, and their subsequent appointment to the charge of a School will be generally regulated by the date of their obtaining their certificates of qualification as School-masters.

9. All Assistant School-masters (Fourth Class) will be liable to be removed from one Regiment or Station to another according as their services may be most required.

10. Army School-masters will be divided into four Classes and designated :

First Class School-master.
Second Class ditto.
Third Class ditto.
Fourth Class (Assistant School-masters.)

11. The First Class School-masters will be Warrant Officers and will rank after the Commissioned Officers ; the Second and Third Class School-masters will rank next to the Sergeant Major ; and the Assistant School-master as Sergeant.

12. Neither the School-master nor his assistant is to be under the authority of any Non-Commisioned Officer as regards the duty of his Office.

13. The Assistant School-masters will be under the immediate superintendence and control of the School-master of the Regiment or Station to which they may be attached, and will be liable to obey all directions they may receive from such School-master in regard to their duties in the School and in preparing Returns, &c. connected therewith, subject of course to such orders as may be issued by the Commanding Officers, and such School-master will consider it his duty to advise his assistants as to their general conduct, and will include in his Monthly Report a report of their conduct, and the manner in which generally they have performed their duties during the previous month. The School-master is at all times to set a proper example to the assistants under his care, and to train them as far as he can for the future, as well as the present duties they have to discharge, and to afford every assistance in his power to advance them in their studies.

14. School-masters on obtaining a certificate of qualification will enter the Third Class, and their advancement to the higher classes will be made by Government upon the recommendation of the Superintendent of Schools for merit only ; and a School-master may be reduced by Government from a higher to a lower class, or from School-master to Assistant School-master for misconduct.

15. An Assistant School-master before he can be promoted to School-master, must pass a further examination ; and generally he will be required to undergo a further course of instruction at the Normal School, and this will only be dispensed with when the Superintendent of Schools certifies to the entire fitness of the Assistant for the duties of School-master.

16. All School-masters and Assistant School-masters are enlisted under the provisions of the Mutiny Act, and are amenable to trial for all offences against its provisions. But considering the education and position of the School-master, the Commander-in-Chief is requested to direct that no School-master shall be brought to trial for any misconduct until a report of the facts and circumstances connected with the case has been made to His Excellency for such directions as he shall think fit to give.

GENERAL ORDERS

By His Excellency the Commander in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, *12th March* 1855.

No. 16.—With reference to G. O. G. No. 59, dated 23d Ultimo, increasing the practice allotment of Ball Ammunition for certain branches of the Army, the Commander in Chief deems it necessary to draw the particular attention of all Commanding Officers to the Target practice of their Men.

His Excellency observes that in several instances the authorized annual allowance of Ammunition has not been expended, consequent on the detached state of Corps.

There are however few Stations at which Detachments are serving where arrangements cannot be made for carrying on Ball practice equally as well as at the Head Quarters of Regiments; and His Excellency desires that all Commanding Officers will communicate with the Quarter Master General's Department with a view to Butts being erected wherever there are fixed Detachments

The revised allotment of Ammunition is to be expended in every Corps in the Service. Should it be found impracticable to erect Butts at any out-posts, the Ammunition of the Detachments there stationed is to be expended in accustoming the Men to steady firing at Targets against Hills or the best substitutes for Butts, that can be locally pointed out for practice; especial care being taken that the Men fire low.

With the additional Ammunition now sanctioned and by a proper supervision on the part of Commanding Officers, Lieutenant General Anson expects an early and marked improvement in this essential particular of a Soldier's efficiency.

GENERAL ORDERS.

Adjutant General's Office : Fort St. George.

The Right Honorable the Governor in Council having addressed the subjoined Orders to His Excellency the Commander in Chief, to be published to the Army, they are accordingly published in Military Orders.

General Orders by the Right Honorable the Governor in Council.

FORT ST. GEORGE, 4th April 1855.

No. 99 of 1855.—The following General Orders by the Honorable the President of the Council of India in Council, are republished for the information of the Army.

General Orders by the Honorable the President of the Council of India in Council.

Fort William, 23d March 1855.

No. 366 *of* 1855.—The following Military letter, No. 25, from the Hon'ble the Court of Directors to the Government of India, dated 7th February 1855, is published for general information :—

Military Department, No. 25 *of* 1855.

Our Governor General of India in Council.

1. Consequent upon the changes which have been made in the system of promotion in Her Majesty's Army by the Royal Warrant, dated on the 6th October 1854, and by the Order, dated Horse Guards, the 23rd November 1854, the following changes, in the system of promotion in the Armies of the East India Company, have been approved and authorized by Her Majesty's Government. General periodical Brevets are abolished. A fixed establishment of General Officers of all Arms of the Service arranged in one list for the three Presidencies is authorized.

The Establishment to consist of :—

25 Generals.
50 Lieutenant-Generals.
145 Major-Generals.

Vacancies in the grades of General Officers respectively are to be filled by the promotion of the Senior Officers standing next in succession in the Gradation List of General Officers and Colonels at the three Presidencies.

Major Generals hereafter promoted for distinguished service, will, after the number of General Officers on the fixed Establishment has been completed, be placed in the Permanent General Officers' List, in the proportion of one Major-General for two vacancies ; the second vacancy being filled by seniority from the Colonels' List.

Officers of Artillery, Engineers, Cavalry, and Infantry, after serving three years from the date they attain the rank of Lieutenant-Colonel, whether with their Regiment, or on the Staff, or on detached Military employment, in situations which, by the Regulations in force at the time, can be held by Lieutenant-Colonels, will be promoted to the rank of Colonel.

Field Officers, commissioned as such, before the 20th June 1854, will be allowed to rise by Brevet as under the Regulations then in force ; but no Officer promoted to the rank of Field Officer, on or after that date is to rise from the rank of Lieutenant-Colonel to that of Colonel, otherwise than by three years' service in the former rank, as above described, or as a reward for distinguished service, or by appointment to be Queen's Aid-de-Camp.

The Governor General of India may, if in his opinion the good of the Service requires it, appoint any Colonel selected for Field Service or a Divisional Command, to the temporary rank of Major General without regard to seniority ; and may, in like manner in the same circumstances, appoint a Major-General selected for a Command to the rank of Lieutenant General.

In cases where Colonels shall be so appointed without regard to seniority, to Command as Major Generals, their temporary rank, if they should have conducted themselves to the satisfaction of the Government of the Presidency to which they belong, may, after having held such Command for five years in peace, or after any shorter period in war upon the recommendation of the Commander-in-Chief, under whom they have served, transmitted with his own approbation by the Governor General of India, and further recommended by the Commander-in-Chief of Her Majesty's Forces, be made permanent at the pleasure of the Queen, if Her Majesty shall so determine. In like manner the temporary rank of Lieutenant-General, as conferred by the Governor General of India, may be confirmed and made permanent at Her Majesty's pleasure.

In addition to the Colonels promoted by seniority to be Major-Generals, Colonels will be eligible for promotion by Her Majesty to the rank of Major-General, and Lieutenant-Generals to the rank of General, for distinguished service in the field. In the case of Officers promoted to the rank of General Officers as a reward for distinguished service in war, the recommendation, in which the service of the Officer shall be detailed, shall be published in the General Orders of the Army and in the *Gazette*, with a view to ensure the responsibility attaching to an appointment thus made out of the regular course of Army Promotion.

Every vacancy on the fixed Establishment of General Officers is to be filled by the promotion when there is no supernumerary of the Senior Colonel qualified to succeed to the rank of Major-General and to be placed on the fixed establishment under the regulations now in force; and vacancies in the ranks of General and Lieutenant-General, will be filled in the same manner. If there be more than one supernumerary who has been promoted for distinguished service, the promotion of the Senior Colonel to take place on every second vacancy only, until the supernumeraries be reduced by the appointment, alternately, of a supernumerary and the promotion of a Colonel.

Promotion shall be made in the ranks of Field Officers below the rank of Colonel, from time to time, or as vacancies occur in the Major-Generals' fixed Establishment.

Any Captain, Major, or Lieutenant-Colonel, may be rewarded by promotion to Brevet rank for distinguished service in the Field, on the recommendation, as at present, of the General Commanding-in-Chief.

The names of Officers above the rank of Captain who have already retired, or may hereafter retire from the Service on full pay, are to be retained in the Army List in italics; and Officers now on the retired Full Pay List, or hereafter retiring upon full pay are to receive a step of Brevet rank, but such Officers cannot be further promoted.

2. One of the provisions of the Royal Warrant is, that "the Commands of General Officers and other situations on the Staff, both at home, and abroad, shall not be held for more than five years unless by re-appointment." This rule already obtains in the Service as regards General Officers on the Staff; and we have now resolved that it shall be extended, as in Her Majesty's Service, to all other situations on the Staff and on detached employment.

3. Immediate effect will be given to portions of the above arangement by the promotion by Her Majesty of Officers to complete the establishment of General Officers for the three Presidencies, and of the Officers now retired on full pay who are to receive a step of Brevet rank.

4. Your Government will forthwith promote to be Colonels the Lieutenant-Colonels entitled to that advantage.

5. In making these promotions, time of absence beyond sea, on furlough, or sick certificate on leave granted, will not be allowed to reckon as a part of the three years' service, except absence on account of wounds received in action, or from ill-health contracted by service with an Army in the Field, which must be duly certified by the report of a Medical Board, when each case will be separately examined. In all other cases the time of absence of the Officer before he has completed the required three years' service as Lieutenant-Colonel will be deducted, so that the Officer shall have actually served that time before he be promoted to the rank of Colonel.

6. Having considered the position of the Lieutenant-Colonels now in the Service who have held that rank for three years and upwards, it has been resolved that the above rule shall not be applied in its full strictness to them; but that the circumstances of each case and the length and causes of absence shall be taken into consideration, and the proper deductions, if any, from their time of service be made accordingly.

7. We leave it to the Governor General of India in Council to specify in General Orders the Officers on the Staff or other detached Military employment, in which service as Lieutenant-Colonel shall, from the date of the promulgation in General Orders of the present arrangement, be held equivalent to actual Regimental Command as Lieutenant-Colonel in qualifying Officers to be promoted to Colonel.

8. The Commissions of Colonels to all Lieutenant-Colonels qualified according to the arrangement now communicated, by three years' service as Lieutenant-Colonels, on the 28th November 1854, are to bear that date, being the date assigned to the first promotions made in Her Majesty's Service under the Royal Warrant.

We are, &c.,

And Eleven other Directors.

He was tried for murder, but the Court Martial convicted him of manslaughter, and sentenced him to three months' imprisonment, recommending him to mercy. The sentence was not confirmed by the Commander-in-Chief. Government published a General Order on the occasion. Lieut. Procter has been remanded to his Regiment.

1. We have perused these proceedings with extreme regret.

2. Without entering into a detail of the particulars of the transaction, of which a lucid narrative is given in your General Order of the 21st August 1854, we desire to record our entire acquiescence in the views and sentiments expressed by the Governor General in Council on the occasion.

3. Lieutenant Procter, in being deprived of his detached employment, has received a very slight and inadequate punishment for his unjustifiable act. His greater punishment will be found in the strong and expressive terms used in General Orders in condemnation of his conduct, and in the reflection that, from error of judgment, he took on himself the heavy responsibility of causing two fellow-creatures to be put to death. We entertain no doubt but that the announcement of your sentiments will suffice to prevent any similar act of violence hereafter.

We are, &c.,

* No. 46 of 1855, dated 28th March.

The annuities for "Meritorious service" are to be distributed in sums of £ 5, £ 10, £ 15 or £ 20, according to the merits of the case.

On the occurrence of vacancies, the Serjeants holding any of the inferior rates of annuity have no claim to be advanced to a higher rate.

In all cases where punishments awarded by Courts Martial are wholly remitted by competent authority, Non-Commissioned Officers and Soldiers are to be considered, in all respects, as if no trial had occurred, and are eligible for the honorary rewards sanctioned by the Good Conduct Regulations.

Warrant and Non-Commissioned Officers, on promotion to a Commission, are entitled to retain the Medal "for Meritorious service" or "for Good Conduct," which may have been awarded to them, although the annuity or gratuity lapses by such promotion.

The Medals "for Meritorious service" or "for Good Conduct" on the death of a Soldier are to be made over to his next of kin, unless such Medals are specifically left by Will to some other person.

Remarks by His Excellency the Commander in Chief.

The circumstances connected with the foregoing trials have been very insufficiently developed by the evidence, but I concur in the verdict of the Court; for although expressions may have been used by the accused in a measure objectionable, and perhaps urged with some degree of warmth, these Officers do not appear to me to have been intentionally insubordinate or disrespectful, and I have therefore much satisfaction in directing the release from arrest of Subadar Shekh Peer Buksh and Jemadar Syed Ucbar to whose characters such favorable testimony, has been borne by their Commanding Officer.

By order of His Excellency the Commander in Chief.

(Signed) W. G. WOODS, Lieutenant Colonel,

Adjutant General of the Army.

Subadar Shekh Peer Buksh and Jemadar Syed Ucbar of the 8th Regiment N. I., are to be released from arrest and directed to return to their duty.

The foregoing Extracts to be read to all Native Corps in the Madras Army.

By His Excellency the Commander in Chief.

HEAD QUARTERS: OOTACAMUND, 12*th July* 1855.

At a District Court Martial held at Ootacamund, on Saturday the 7th day of July 1855, Assistant Apothecary and Acting Apothecary John Robert McEnerney of the Bengal Medical Establishment, was arraigned on the following Charges, viz.

First.—For conduct to the prejudice of good order and Military discipline, in having at Ootacamund on the 15th of March 1855, unauthorizedly discharged two of the Public Servants attached to the Hospital of the Most Noble the Governor General of India, namely Chinnia, Hindoo Cook and Nunja, Sweeper to the Hospital, irregularly engaging in lieu of the former, Ramaswamy, a man of the lowest caste, useless for every purpose of a Cook to the patients either Mussulman or Hindoos and in lieu of the latter, Chinnee, the wife of his own Horsekeeper, he well knowing that the engagement of a woman as Hospital Sweeper, was unusual and improper, as the duties required must occasionally be unfit for a woman to perform. These changes, in order to their concealment, he, Assistant Apothecary and Acting Apothecary John Robert McEnerney, never having reported to his immediate Medical superior, Surgeon Alexander Grant of the Bengal Medical Establishment, nor noted in the Pay abstracts of the Hospital Department for the aforesaid month of March, as it was his duty to have done in preparing the same and as is the rule and practice in all such cases.

Second.—For conduct to the prejudice of good order and Military discipline, in having at Ootacamund, during the month of May 1855 and particularly between the 1st and 12th of that month, when attached to the Dispensary, in attendance upon the Most Noble the Governor General of India, grossly neglected his duty by failing to afford proper medical aid and a supply of requisite medicines to Lance Serjeant Thomas Hall, attached to the Governor General's Establishment, notwithstanding, he, Lance Serjeant Thomas Hall, was suffering from severe constitutional disease and large ulcers on the arm, and had made repeated applications for the same at the Dispensary, where it was the duty of Assistant Apothecary and Acting Apothecary John Robert McEnerney to give his personal attendance when required.

Finding.—The Court having maturely weighed and considered the evidence before it and what has been stated in defence, is of opinion that the Prisoner Assistant Apothecary and Acting Apothecary John Robert McEnerney of the Bengal Medical Establishment, is

Guilty of so much of the 1st Charge as amounts to his having irregularly engaged in lieu of Chinnia, Hindoo Cook and Nunja, Sweeper, attached to the Hospital of the Most Noble the Governor General of India, Ramaswamy, a man of low caste as Cook and Chinnee, the wife of his own horsekeeper as Sweeper and of never having reported these changes to his immediate Medical superior, Surgeon Alexander Grant, such conduct being to the prejudice of good order and Military discipline, but acquits him of the remainder of the Charge.

Guilty of the Second Charge.

The Candidate will then be called upon to read fluently and translate correctly portions of any of the test books and also a fairly but not very clearly written manuscript in the language selected; and, when that is still a spoken language of the country, he shall further be required to carry on a conversation with the Examiners, or with one or more Natives in presence of the Examiners, on such subjects proposed by them, as are calculated to test his colloquial facility both as regards scholar-like expression and knowledge of the terms and phrases commonly used by the poorer and uneducated classes.

When parties proceed on Steamers (other than the Government Steamers, passages on which are separately provided for) unless the necessity for the arrangement be satisfactorily shewn, only the ordinary rate of passage money on a sailing vessel will be granted.

Table money when included in passage money.

34. When passage is provided at the public expense for Commissioned, Warrant and Non-Commissioned Officers proceeding on duty from port to port in the British possessions in India by Vessels not chartered by Government, table money will not be allowed on account of individuals in addition thereto, it being the intention that every provision for passage by Government shall embrace table at the expense of the state.

Table money deducted when passage is given in a private vessel.

35. When Officers are provided with passages on board private vessels at the expense of Government, they are to be subjected to the same deductions for table money, and for provisioning servants as if they were embarked on a Vessel hired by Government. The passage of the regulated number of servants is included in the passage paid for themselves.

Officers' Families.

37. Whenever applications for passage either in a Steamer or a sailing Vessel is made for the family of any person entitled under Regulations to a free passage for his Wife and Children, as well as for himself, it shall be accompanied by a Nominal Roll specifying the particular relationship, and in the case of Children the ages of the parties for whom passage is required. The term "family" includes only the Wife and Children, but not step or adopted Children.

Passage to families of Warrant and other classes.

38. The families of all Warrant Officers inferior to Deputy Assistant Commissary, as well as of Staff Serjeants, Men of the European Veteran Battalions, and Carnatic Ordnance Artificers, proceeding on duty on *permanent* removals from port to port in the British Possessions in India, when permitted to accompany them, are entitled to passage at the cost of Government. The families of Clerks and of others not attached to Corps, who are

not relieved periodically, but are entitled to a public passage, are allowed a similar indulgence.

Passage to European Soldiers' families.

39. The wives and children of Soldiers, Trumpeters, Drummers, and similar classes, whether serving with European or Native Corps, Effective or Non-Effective, who are in receipt of Government Subsistence allowance, will be allowed passage and provisions at the public cost from port to port in the British possessions in India whether such passage be provided for them on a Government Transport or at so much per head on other Vessels. The wives of Soldiers of European Corps not in receipt of the allowance will be allowed passage only at the public cost when it can be provided for them on a Government Steamer or Transport. On other occasions they must defray the cost themselves. All legitimate children of European Soldiers are entitled to passage and provisions whether their Mother be in receipt of the Government allowance or not.

Passage to Native Soldiers' families.

40. Whenever families of Native Troops are permitted to accompany them on Coast Voyages in India, they must provision themselves in every thing but wood and water, which will be provided for them by Government.

European Troops when not victualled by Commissariat.

41. When European Troops proceeding on board Ship are not victualled by the Commissariat, the Commander of the Ship in the event of his providing them, will be remunerated at the daily rate of 12 Annas for each European Private, and for each European or East Indian woman the wife of a Private, and at the rate of 6 Annas for each child. The bill to be supported by a declaration upon honor from the Senior Officer in charge that they were not victualled at the public expense.

Soldiers' wives in private service proceeding to England.

42. The Government allowance to Soldiers' wives is suspended when they leave their husbands to enter private service, except when their husbands are absent on foreign or field service ; upon the same principle the charter party passage to the wives of Soldiers who accompany their husbands to England should not be granted to those who in consequence of being in private service do not embark with their husbands. If from any other cause beyond their control, they shall not be able to accompany their husbands, their claim to the charter party allowance when the impediment has ceased, should be admitted.

Widows.

43. The widows of Soldiers cease to draw the Government allowance at the expiration of six months from the date of the Soldier's decease. If embarking within that time, they are entitled to the usual charter party allowance. If they voluntarily remain in India after that time, their claim to passage money ceases. If detained by any cause beyond their own control, their claim to passage money at the subsequent time will be specially considered.

Free discharged Soldiers and their families of Her Majesty's Service.

44. Soldiers who obtain a free discharge will be entitled to their pay and rations to the date on which they may embark, provided they do so within two months of their arrival at the port of embarkation, after which all claim to pay or subsistence of any kind will cease.

45. In order to prevent as far as practicable the detention at the Presidency of Soldiers desirous of embarking for England or the Colonies, it will be ascertained under the orders of His Excellency the Commander in Chief periodically from the Marine Department through the Quarter Master General of the Army, when Ships are most likely to sail from the different ports, in order that the Soldiers may be warned and thus deterred from taking their discharge, and proceeding to the Presidency, at a time when there may be no probability of procuring a passage.

46. All Men who may have been two months at the Presidency, will on the expiration of that period be furnished by the Town Major or the Brigade Major Queen's Troops as the case may be, with the confirmed parchment Certificates of discharge, and they are not under any circumstances to be included in the arrangements for embarking Men of Her Majesty's Service for the Australian Colonies, under Military control, who may have more recently arrived at the port of embarkation.

47. Men obtaining free discharge can claim a free passage to England only ; but in cases when His Excellency the Commander in Chief may recommend the indulgence, a free passage

to any of the Colonies will as at present be allowed to them provided the cost does not exceed that of passage to England.

48. On the arrival of the Men at the Presidency, the Town Major or Brigade Major Queen's Troops as the case may be, will apply at once to the Marine Board through the Department of the Quarter Master General of the Army, for passage to the place to which the men are allowed to proceed: The Marine Board will provide passage if practicable, or intimate their inability to do so; and in the latter case the Men will have to make their own arrangements for passage, and will be allowed towards the cost of it such sum as the Marine Board may certify to be the average cost of a passage to England at the time, if one be procurable; or the average cost during the preceding season.

49. This allowance will be payable to the Agent of the Ship on a Certificate that the Men have embarked.

50. A free passage or an allowance as above explained, will be granted for Soldiers' Wives and legitimate Children, including in the latter term their unmarried daughters of whatever age, their sons under the age of sixteen years, and such of their sons above that age as may be crippled or ill.

51. Soldiers who have embarked, and who return in consequence of the Ship putting back from Sea, will be allowed pay and rations only for any portion of the two months subsequent to arrival at the Presidency, which may have remained unexpired on the date of their embarkation; should they have received pay for the full two months, they will have no claim on the state after their return.

52. Should the number of discharged Soldiers of Her Majesty's service wishing to proceed to Australia, amount to thirty or upwards but in no other case, (and provided these men embark within the period of two months with reference to paras 45 & 46) they will be allowed, when such an arrangement may be practicable, to proceed to their destination under charge of an Officer, ordinarily of the Company's service, who may be proceeding to those Colonies.

53. Soldiers of Her Majesty's service embarking for the Australian Colonies under the charge of an Officer, will not be provided with their discharge certificates prior to embarkation, but these certificates will be made up to the last day of the month, two months in advance of that on which the party embarks; and will be given to the Officer in charge, for delivery to the Men, with the balance of their pay, on arrival at their destination.

54. Soldiers entitled to free discharges who wish to avail themselves of that indulgence and to return home, are not to be finally discharged in India, but are to be sent to the United Kingdom when opportunities offer, and be finally discharged on their arrival.

55. As they are to be under Military discipline during the voyage, they must generally be sent with detachments of Invalids, and be placed under the orders of the Officers in command. In special cases when the Commander in Chief may deem a Soldier worthy of the indulgence, and recommend him for it, there will be no objection to his being allowed to proceed separately, and to his being granted for this purpose the amount of passage money which would be incurred, if he remained in India, to proceed with the Invalids: the average cost of passage money in that season being allowed him for that purpose.

Discharged European Soldiers and their Families of the Hon. Compy.'s Service.

56. The grant of charter party passage allowance at fixed rates is to be discontinued.

57. Every Soldier born or enlisted in Great Britain or Ireland on receiving his discharge, either upon the expiration of any period for which he shall have enlisted, or otherwise, and with or without pension, shall be provided with a passage to England for himself, his wife and his legitimate children.

58. Any Soldier receiving his discharge, desiring to proceed to Australia, or to any of the Colonies, will be allowed a passage for himself, his wife and his legitimate children, provided the cost of such passage does not exceed the amount for which a passage to England can be engaged at the time.

59. The wives of Soldiers who in consequence of being in private service, do not embark with their husbands, are not afterwards entitled to a passage: but if they are prevented from accompanying their husbands by any other cause beyond their own control, they will be entitled to a passage when the impediment shall have ceased.

60. The unmarried daughters of discharged Soldiers, are entitled to passages without limit as to age, but no boy above the age of 16 will be provided with a passage unless he be crippled or ill, in which case he will be allowed a passage without limit as to age.

Children of deceased Soldiers. 61. This rule also applies to the legitimate children of deceased Soldiers.

Widows. 62. The Widows of Soldiers will be provided with passages if they embark within six months of the date of the death of their husbands, but if they voluntarily remain in India beyond that time, their claims to passage will cease. If detained by any cause beyond their control, their claim to passage at a subsequent time will be specially considered.

Letter dated 5th April 1855, *No.* 82.

Submit the question whether as Officers are, on their first application for leave of absence on Furlough, to declare whether they will abide by the old or accept the new Furlough Rules. Staff Officers who apply for leave to the Hills or elsewhere in India are to vacate their Offices like those who take leave to the Cape or elsewhere beyond sea. Government observe, that if this were so, the Rule would have the effect of debarring such Officers from all leave, however short, in excess of the privileged leave of one month in six.

7. Staff Officers applying for leave in India are not required, by the new Furlough Rules, to vacate their Staff appointments. We therefore approve and confirm the view you have taken of this question.

SITTANG, 12*th July* 1855.

Approved and confirmed.

PALLAMCOTTAH, 1*st September* 1855. } (Signed) GEORGE ANSON, Lieutenant General, *and Commander in Chief.*

The period of suspension awarded Assistant Apothecary Richard Prince of the Madras Medical Establishment, is to commence from the date of the promulgation of this order at Sittang, which is to be reported to the Adjutant General of the Army.

At a District Court Martial held at Bangalore, on Wednesday the 15th day of August 1855, George Watson, Assistant Apothecary of the 1st Regiment of Light Cavalry, was arraigned on the following Charge, viz.

Charge.—For conduct to the prejudice of good order and Military discipline in the following Instances:

First.—In having at Bangalore on the 2d day of August 1855, failed to report to Surgeon Andrew Charles Brisbane Neill of the 1st Regiment of Light Cavalry, that Gholam Hoossain, Camp follower, in the same Regiment, had been brought into the Hospital of the 1st Regiment of Light Cavalry, with a broken leg.

Second.—In having at the same place and on the same date as mentioned in the 1st Instance of the Charge, summarily discharged the said Gholam Hoossain from the same Hospital, telling him to come the next morning, when the Doctor (meaning Surgeon Andrew Charles Brisbane Neill of the 1st Regiment of Light Cavalry,) would be present, or words to that effect.

BANGALORE, 16*th August* 1855.

I approve of the opinion of the Court on the 1st and 2d Instances of Charge, as it was proper for the Surgeon, in a case of the kind, to have seen the Patient and to have decided himself whether or not he should have been admitted into the Hospital of the Regiment, but as I consider that Assistant Apothecary George Watson acted from error of judgment and am not satisfied that he was guilty of intentional falsehood, I refrain from giving effect to the sentence of the Court.

GENERAL ORDERS

By His Excellency the Commander in Chief.

ADJUTANT GENERAL'S OFFICE: FORT ST. GEORGE, 13*th October* 1855.

The following General Order issued to Her Majesty's Troops, serving under this Presidency, are published for the information of the Army.

HEAD QUARTERS :

GENERAL ORDER. OOTACAMUND, 24*th September* 1855.

At a General Court Martial holden at Rangoon, on Wednesday the 15th day of August 1855, and continued by adjournment to Thursday the 16th day of the same month and year, Private Patrick Collins, regimental number two thousand nine hundred and twenty-six, in the I. or Captain and Brevet Major William Justin MacCarthy's Company of Her Majesty's 84th Regiment of Foot, was arraigned upon the following Charge.

Charge.—"That he, Patrick Collins, on the third of June, one thousand eight hundred and fifty-five at Rangoon, he being then and there a Soldier serving in the Territories of the East India Company, at a distance of upwards of one hundred and twenty miles from the Presidency of Fort St. George, did feloniously kill and slay one Michael Corcoran, Private of Her Majesty's Eighty-fourth Regiment of Foot."

"The above being within the provisions of the Articles of War."

RANGOON, *the eleventh day of June, one thousand eight hundred and fifty-five.* (Signed) JAMES ALEXANDER WEST, Major, Commanding Her Majesty's Eighty-fourth Regiment of Foot.

Upon which Charge the Court came to the following decision.

"The Court having maturely weighed and considered the evidence before it, and what has been stated in defence, is of opinion, that the Prisoner Patrick Collins, Regimental number two thousand nine hundred and twenty-six, Private in the I. or Captain and Brevet Major William Justin MacCarthy's Company of Her Majesty's Eighty-fourth Regiment of Foot is"

Finding on the Charge.—"Guilty of the Charge."

Sentence.—"The Court having found the Prisoner guilty as above stated, doth sentence him, the said Patrick Collins, Regimental number two thousand nine hundred and twenty-six, Private in the I. or Captain and Brevet Major William Justin MacCarthy's Company of Her Majesty's Eighty-fourth Regiment of Foot, to imprisonment without hard labour in the prison room of Her Majesty's Eighty-fourth Regiment of Foot, for five calendar months."

RANGOON, *August the sixteenth, one thousand eight hundred and fifty-five.* (Signed) GEORGE HALPIN, Major Twenty-fifth Regiment of Madras Native Infantry, and President.

Approved and Confirmed.

OOTACAMUND, *September 20th,* 1855. (Signed) GEORGE ANSON, Lieutenant General.

Remarks by His Excellency the Lieutenant General Commanding.

Before the result of this Court Martial can be known at Rangoon, the Prisoner will have been in confinement several months. Taking therefore into consideration that the case presents no circumstances of aggravation, and that the Prisoner bore no ill will to the deceased, together with the general good conduct of the men of the 84th Regt., the Lieutenant General Commanding remits the sentence; trusting that the punishment necessarily attendant upon the conviction of his crime, and the reflection that he has been the means of depriving a comrade of life, will induce Private Collins to relinquish the debasing vice of drunkenness from which, in his case, such lamentable consequences have ensued.

By order of His Excellency Lieutenant General the Honorable George Anson.

(Signed) T. S. PRATT, Colonel,
Deputy Adjutant General H. M. Forces.

The Prisoner is to be released from confinement and to return to his duty.

This Order is to be entered in the General Order Book, and read at the head of every Regiment in Her Majesty's Service, on the Establishment of Fort St. George.

By order of His Excellency Lieutenant General The Honorable George Anson.

Deputy Adjutant General H. M. Forces.

N. B.—Holders of Family Certificates should, as a general rule, always receive money compensation for the difference of price instead of Rice or Paddy in kind.

2. When the prices of Rice in the public market exceed the fixed rates as above defined, Officers at the head of Departments or Commanding or in charge of Corps, Detachments, Pensioners, &c. &c. are to make application to the Officer Commanding the Force or Station, for permission to indent on the Commissariat for Rice on account of the parties entitled to receive it, or to draw money compensation in lieu thereof.

3. If it is found impossible or inexpedient to issue grain in kind, compensation money is to be drawn in arrears on abstract, agreeably to the annexed form, the entries as to quantity, description, and price of grain being modified according to actual circumstances and the rules applicable thereto.

4. At Stations where the Madras Measure is not in general use, the certificates of the average price should state the designation of the Measures in use, the number of them sold for a Rupee and the equivalent in Madras Measures. Should the latter be found impracticable or inconvenient, the equivalent must be ascertained by measurement, and the bill for compensation must be supported by a certificate from the Commissariat Officer, or if there is no Commissariat Officer at the Station, from the Station Staff Officer, of the number of Madras Measures equivalent to the number of local Measures certified to have been sold for a Rupee.

Half Measure.
Quarter do.
$\frac{1}{8}$ do. or Ollock.
$\frac{1}{16}$ do. or half Ollock.
$\frac{1}{32}$ do. or Quarter Ollock.

5. FORT ST. GEORGE, 9TH NOVEMBER 1855.

No. 280 of 1855.—The Right Honorable the Governor in Council directs that the following Proclamation by the Most Noble the Governor General of India be read and explained to the Troops on Parade with the usual ceremony, and that Royal Salutes be fired at every Station of the Army.

PROCLAMATION.

The Governor General has the highest satisfaction in announcing to the Army, and the People of India, the Capture of the Town of Sebastopol, with its forts, and arsenals, and munitions of war.

When during the past year the Russian forces invaded the dominions of His Highness the Sultan, the Sovereigns of England and France, in close alliance, despatched their fleets and armies, to save him from the danger by which he was threatened.

From the day when war was declared the Russian fleets sought safety within their fortified ports ; and have never dared to meet the Allied Force upon the Sea.

The defences of Bomarsund have been captured and destroyed. The great naval Arsenal of Sweaborg has been bombarded—it's magazines exploded—it's stores of material and it's buildings burned.

The coasts of Russia have everywhere been blockaded. Her commerce has been extinguished ; and her merchant navy no longer exists.

The Russian army was speedily compelled to retire from the Turkish provinces which it had invaded ; and the Russian Territories were invaded in their turn.

Since that time the Allies have defeated the Russians in three great battles within the Crimea ;—have forced them to abandon their forts along the whole Circassian shore ;—and have swept and ravaged all their coasts ; while at the same time they have been laying constant siege to the mighty fortress of Sebastopol.

This great siege, without a parallel in the Annals of War, has now been crowned with triumphant success.

Garrisoned by a numerous army—stored with unbounded resources—and defended by our enemies with the utmost gallantry, determination, and skill, Sebastopol has nevertheless been compelled to yield. The Town, the dockyard, the arsenals, and forts have fallen into the hands of the Allies. Four thousand pieces of Artillery, and enormous quantities of warlike stores, have been captured in the place. Lastly, the Russian navy in the Black Sea, which consisted of more than one hundred ships of war, carrying upwards of two thousand guns, has been utterly demolished ; and all its vessels have been burnt, sunk, or destroyed.

For the great and glorious victory which has thus been vouchsafed to their arms, the Allied Sovereigns have already offered up their sacrifice of gratitude to Almighty God.

The Governor General, desirous that their example should be followed throughout the British dominions in the East, proposes that on the second day of December Public Thanksgiving should be offered to Almighty God for the signal and repeated successes which have been gained during the present war by Her Majesty's Forces, and by those of Her Allies and especially for the Capture of the Town of Sebastopol.

The Governor General directs that this Proclamation shall be read to all the Troops, and promulgated throughout the country; and that the glorious tidings which it conveys shall be welcomed by a royal salute in every station of the Indian Army.

DALHOUSIE.

GENERAL ORDERS

By His Excellency the Commander in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, *1st November* 1855.

At an European General Court Martial held at Secunderabad, on Thursday the 18th day of October 1855, Ensign Richardson Borrodaile of the 52d Regiment Native Infantry, was arraigned on the following Charge, viz.

Charge.—For conduct highly unbecoming the character of an Officer and to the prejudice of good order and Military discipline, in having at Secunderabad on the 5th day of September 1855, been drunk on parade when at the Recruit's and Adjutant's drill of the 52d Regiment of Native Infantry.

Finding.—The Court having maturely weighed and considered the evidence before it and what has been stated in defence, is of opinion that the Prisoner Ensign Richardson Borrodaile of the 52d Regiment of Native Infantry, is

Guilty of the Charge.

Sentence.—The Court having found the Prisoner Guilty as above stated, doth sentence him, the said Ensign Richardson Borrodaile of the 52d Regiment of Native Infantry, to be suspended from rank, pay and allowances for three calendar months.

SECUNDERABAD, *19th October* 1855.

(Confirmed.)

BANGALORE, *October 29th*, 1855.

(Signed) GEORGE ANSON, Lieutenant General, *and Commander in Chief.*

Remarks by His Excellency the Commander in Chief.

The Commander in Chief does not consider a sentence of the description passed by the Court, suitable either to the nature of the offence, or the position of the offender. The effect of it is to relieve him for three months from all control, and to afford him the opportunity of indulging in those habits which it is the object of punishment to restrain.

In the opinion of His Excellency a sentence of loss of rank would have been far better calculated to influence this Officer to avoid the possibility of being again placed in his present humiliating position.

His Excellency would have felt it his duty to return the Proceedings of the Court for revision, recommending a more appropriate punishment, but as this course of proceeding would involve much delay, and Ensign Borrodaile has already been a considerable time in arrest, he remits the sentence and directs his return to his duty, in the hope that he will take warning from the past, and by his future conduct prove that the leniency now shewn him has not been misplaced.

By order of His Excellency the Commander in Chief.

Adjutant General of the Army.

5. Commanding Officers will be unfettered in their discretion of recommending this Gratuity to be conferred upon such individuals, whether Serjeants, Corporals, or Privates, as they may be satisfied to have been the best conducted men; the only limitation being the aggregate amount to be annually awarded.

	European.

The Gratuity so awarded will be paid shortly after presentation of the Medal and placed in the Regimental Savings Bank to be there held, not under the control of the Soldier, in deposit at interest until his discharge; and shall be deemed to be his personal property, subject only to forfeiture for misconduct of which he may be convicted by a General, Garrison, or District Court Martial; and should he die before he has completed 21 years' service, or after completing such service before his discharge, such Gratuity, with its accumulated interest, shall be deemed to be a part of his effects, and be payable to his legal representative.

7. With the view of further marking meritorious conduct, and of inciting other Soldiers to imitate such conduct, it is directed that upon awarding to such Soldiers the above Gratuity, they shall be entitled to wear a Silver Medal, having on one side the words "For long Service and Good Conduct," and on the other side, the Company's Arms, with the name and rank of the Soldier. Before embarkation, the Great Coats in use are to be carefully examined, and all that may be considered unfit for the Service, though they may not have lasted the full time, are to be exchanged for new ones. This rule does not apply to Troops embarking for ordinary duty at Stations beyond Sea.

A supply of Great Coats and Blankets to repair losses is to be sent under charge of the Commissariat Department whenever the Service is likely to be protracted.

A supply of Flannel Banians, Boots and Socks is also to be sent in such cases, for issue at such reduced prices as may, from time to time, be fixed with the sanction of Government, not in the first instance, but at the expiration of a certain time, to be determined, according to circumstances, by the General Officer Commanding.

The General Orders as per Margin are cancelled.

No. 70.—With reference to the Regulations as per margin His Excellency the Commander in Chief directs, with the sanction of Government, the following Rules to be observed in the preparation of the Annual Indent and Measurement Roll for Clothing.

Para 71, page 15, Clothing Regulations, para 35, page 33, General Regulations.

1. For instructions regarding the forwarding of Indents to the Superintendent and Agent Army Clothing, see Regulations as per margin.

Clothing Regulations, Section III, paras 57, 58. 59, Forms D, E. F. G. H.

2. Officers Commanding Corps and Departments will forward direct to the Clothing Agent, *annually*, on the 1st January, a Measurement Roll for the Men of their Corps and Departments for Clothing issuable in the following year.

3. These Measurement Rolls are invariably to include the Native Officers, Staff Serjeants, and Trumpet, Farrier, Bugle, Drum and Fife Majors, and only such of the other Ranks, as are above the dimensions of the established first size.

4. The Clothing due to fixed Detachments, except of Artillery, Sappers and Miners and Veterans, is to be dispatched from Head Quarters of Corps, and Contingent Bills for the expenses forwarded to the Clothing Agent for adjustment, this arrangement being found more economical than for such Clothing to be separately dispatched by the Agent from Madras.

5. Clothing will be made up in the *sizes* now under preparation and will be supplied according to the required numbers of each size of Clothing, as on trial has been found to fit the men of each Regiment and Department.

INSTRUCTIONS FOR FITTING CLOTHING.

6. In fitting Clothing which, to insure correct fitting, ought to be the work of several Parades, all the *smallest* size should be issued *first*, and of course allotted temporarily to the smallest men. When the whole of the smallest size has been fitted, as well as can be done, *without making alterations*, then the next smallest size is to be issued and fitted as above, and so on with all the remaining sizes. All having been thus fitted, the Regiment or Detachment is to be Paraded in their New Clothing, and any exchanges made which the Commanding Officer may find necessary, so as to make the best possible fit generally. *Measurement* Clothing will of course be at once made over to the parties for whom it had been prepared.

7. The Clothing as thus adjusted will then be considered *permanently* allotted, and any necessary minor alterations will be made in the usual way.

8. In altering Clothing, where necessary, the following course is to be adopted.

When too large, the Jackets are to be taken in by a side seam, below each arm pit down to the waist, by which all superfluous cloth being turned in the Jacket will at once be contracted to the required size.

Trowsers to be taken in on the two outer side seams length ways without interfering with the fork.

Fixed Detachments Artillery, Sappers and Miners and Veterans only.

9. As regards Detachments of Artillery, Sappers and Miners and Veterans, Officers Commanding will, in addition to the distribution Rolls which are still required to be forwarded with the Annual Indent

for Clothing, forward Amended Distribution Rolls to the Superintendent and Agent Army Clothing in all cases of alterations taking place in the stations and Strength of Detachments, prior to the receipt of the Clothing at Regimental Head Quarters, in order that the Clothing may be dispatched by the Agent direct to the Detachments.

10. Cases will sometimes occur wherein Amended Distribution Rolls could not have reached the Agent in sufficient time to admit of the Clothing being sent direct to Detachments, and in such cases only will the Government sanction its transport at the public expense.

11. Officers neglecting to give the necessary information to the Superintendent and Agent Army Clothing will be held personally responsible for any charges that may be incurred on that account.

By order of His Excellency the Commander in Chief.

W. G. WOODS, Lieutenant Colonel,

Adjutant General of the Army.

GENERAL ORDERS

By His Excellency the Commander in Chief.

HEAD QUARTERS: CHOULTRY PLAIN, 17*th December* 1855.

No. 71.—The subjoined General Orders issued to Her Majesty's Troops, serving under this Presidency, are published for the information of the Army.

GENERAL ORDER.

HEAD QUARTERS:
MADRAS, 17*th December* 1855.

1. The following Extracts from the London Gazette, of Promotions and Appointments by Her Majesty in the Troops serving in this command, are published in accordance with the General Order by the Commander-in-Chief in India, dated 3d February 1832.

STAFF.

Captain and Brevet Major Charles Albert Denison, 52d Foot, to be Deputy Adjutant General to the Queen's Troops serving in Madras, with the rank of Lieutenant Colonel in the Army, vice Pratt, dated 23d October 1855.

Major and Brevet Lieutenant Colonel George Talbot, 43d Foot, to be Deputy Quarter Master General to the Queen's Troops serving in Madras, with the rank of Colonel in the Army, vice Felix, dated 23d October 1855.

2. With reference to the Extract from the London Gazette, dated 23d October 1855, published in General Orders this day—Brevet Lieutenant Colonel Charles Albert Denison, and Brevet Colonel George Talbot, will assume the duties of their respective Offices of Deputy Adjutant General, and Deputy Quarter Master General of H. M. Forces, from this date.

By order of His Excellency Lieutenant General the Hon'ble George Anson.

(Signed) T. S. PRATT, Colonel.

Deputy Adjutant General H. M. Forces.

Colonel Pratt, C. B., Deputy Adjutant General, and Colonel Felix, Deputy Quarter Master General of H. M. Forces, having been relieved from their respective Staff employments by order from the Horse Guards, Lieutenant General Anson cannot allow the opportunity to pass without recording his sense of their valuable services, during the time they have held these important Offices within the Madras Presidency.

Lieutenant General Anson speaks confidently of the whole of this period although his own experience does not extend beyond the last 15 months. The records of their Offices shew the excellent system on which the business has been conducted.

The discipline and high order of all Her Majesty's Regiments that have served in this Presidency, will testify to their exertions in promoting their efficiency and in providing for their comforts.

Lieutenant General Anson has the satisfaction likewise of believing that an invariable cordiality of feeling has existed between their Departments and the corresponding Departments of the Honorable East India Company's Service, with a praiseworthy desire to carry out every measure conducive to their mutual benefit. The Lieutenant General feels therefore that he is justified in not confining his remarks to their services under his immediate command.

He begs that Colonel Pratt, C. B. and Colonel Felix, will accept his thanks for the assistance he has personally received from them, and he hopes that they may long enjoy the gratifying reflection that their honorable career of service in India, has fully entitled them to the approbation of their Sovereign and of their country.

By order of His Excellency Lieutenant General the Hon'ble George Anson,

(Signed) CHARLES DENISON, Lieutenant Colonel,

Deputy Adjutant General H. M. Forces.

HEAD QUARTERS:
MADRAS, *21st December* 1855.

GENERAL ORDER.

His Excellency Lieutenant General the Honorable George Anson is pleased to direct the publication in General Orders of the following "Extract from the Minutes of Consultation, dated 17th December 1855, No. 3318."

No. 84.

FROM THE SECRETARY TO THE GOVERNMENT OF INDIA,
IN THE MILITARY DEPARTMENT.

TO THE SECRETARY TO GOVERNMENT, MILITARY DEPARTMENT,
FORT ST. GEORGE.

SIR,

"I am directed to acquaint you, for the information of the Right Honorable the Governor in Council, that a Company of European Soldiers and some Sailors, were attached to the Mission to Ava.

The former consisted of the Light Company of Her Majesty's 84th Regiment, to which some of the Band of Her Majesty's 29th Regiment were added. The latter were taken from the Honorable Company's Steamer "Zenobia."

Before the Mission left the frontier a message, which the Most Noble the Governor General requested might be given to the men, was publicly delivered to them.

The Soldiers have more than fulfilled the highest expectations which His Lordship had previously formed of them from the great character the 84th Regiment has borne in Pegu. Their conduct during the whole of their escort duty and at Umerapoora was admirable. It was pointedly noticed to the Commissioner by the Burmese themselves; and in such terms as shewed that it had greatly raised the character of the British Soldier in their estimation.

Conduct such as this, under such peculiar circumstances, appeared to His Lordship to deserve not praise only but substantial reward. His Lordship therefore authorized Major General Steel, Commanding the Pegu Division, to publish a General Order expressing the high satisfaction which the report of the conduct of the men of the 84th had given him, and intimating to them that in further proof of his approbation, he had directed that they should receive double pay for the period during which they had been employed on this honorable escort duty. The same reward will be given to the Bands-men of Her Majesty's 29th Regiment."

I have, &c.

MILITARY BOARD'S CIRCULAR ORDER.

No. VII of 2nd February 1855.

ENGINEER DEPARTMENT.

The Military Board notify for information that under the 12th para. of Section 6 of the Accountant General's rules published in the margin, it is enjoined that Officers prior to submitting bills for charges of any description, shall insert on the face of such bills the several advances made on account of the work; exhibiting either the balance due to the Officer, or the amount to be refunded to Government by reason of the advances having exceeded the expenditure for the work: and such balances as are due to Government, must, prior to the submission of the bill to the Board, be refunded by the Officer, and a receipt for the same be attached to the bill.

Para. 12.—Engineers or other Officers receiving advances in preparing bills, to be passed by the office of Audit or by the Military Board, will exhibit in them the amount viewed for each specific purpose in order that the balance of the advance, if the advance shall be found to exceed the amount of the bill passed, may be received from the individuals, or any surplus that may be in their favor may be paid to them upon the receipt of the Officer certified by the Accountant General, with reference to the books of the transfer department in his office, to effect an immediate adjustment of the transaction as connected with each advance separately.

It has hitherto been customary before discharging the amount of balance due to an Officer to await the sanction of Government and passing of the bills; but Government having been pleased to obviate this inconvenience, the Military Board now make known the resolution of Government as per margin, No. 3,347 of 16th December 1854, granting relief to the Officers entrusted with the expenditure of public monies, by authorizing balances due to Officers being at once paid off; but the Board particularly request, that care may be taken to take up advances in

MILITARY BOARD'S CIRCULAR ORDER.

No. IX of 13th February 1855.

ENGINEER DEPARTMENT.

The Military Board publish for general information and guidance, the subjoined correspondence relative to the provision of Punkahs and the necessary establishment for pulling them in Churches; and in accordance with instructions from Government, the Military Board request Officers Commanding Divisions and Forces to cause the early submission by Engineer or Executive Officers (in communication with the Church Committees at Stations) in the Division under their Command, of estimates for providing and suspending Punkahs over those parts of Government Churches requiring them, appropriated to the Troops and subordinate classes of Government servants; to which will be added a statement of the number and wages per annum of the Punkah pullers that will be required.

Letter dated 6th July (No. 4) 1853.

Paras. 22 and 23. In reply to an application for the erection of Punkahs over the seats occupied by the Soldiers in the Churches at Bellary and Secunderabad, it was intimated that the provision of Punkahs by Government is prohibited by the Court, but the present application is nevertheless specially referred to for Court's instructions.

Extract from a letter from the Honorable the Court of Directors dated 25th October, No. 6 of 1854.

18. It is absolutely necessary that proper means of ventilating the Churches should be adopted during the hot season, and we therefore authorize you to provide Punkahs and the necessary establishment for pulling them, over those parts of the Churches in your Presidency which are appropriated to the Troops and to the lower classes of Government servants.

No. 37. ECCLESIASTICAL DEPARTMENT.

Extract from the Minutes of Consultation dated 14th December 1854.

5. A copy of this para. will be forwarded to the Venerable the Archdeacon with reference to Extracts from Minutes of Consultation Nos. 131 and 165 dated respectively 10th May and 16th June 1853 also to the Military Board, who will submit estimates for suspending Punkahs in the Fort Church at Bellary and in other Government Churches requiring them.

The Venerable the Archdeacon will in communication with the several Church Committees fix the periods for pulling the Punkahs at the various Stations according to variations in the climate, and submit for the approval of Government a statement of the requisite establishment for this purpose.

Resolved that the estimate submitted with the Military Board's letter of the 6th September 1853 for supplying and suspending Punkahs in Saint John's Church at Secunderabad, amounting to Rupees (844–3–0) Eight hundred and forty four and annas three be sanctioned—also the grant of an annual allowance of (60–0–0) Sixty Rupees for Punkah pullers, as applied for by the Church Committee in their letter to the Venerable the Archdeacon of the 14th July 1853.

Copy of a letter from the Venerable the Archdeacon of Madras to the Military Board dated 23d Dec. 1854.

With reference to para. 5 of the Minutes of Consultation No. 307, dated the 14th Instant, I beg leave to bring to your notice the very great convenience it would be to the respective Congregations, especially those at the extremely warm stations of Kamptee, Jaulnah, Secunderabad, Bellary, Cannanore, Trichinopoly, &c. if the Punkahs could be suspended before the ensuing hot season.

I apprehend that under the present order of Government, all the Churches belonging to the Government, with exception of those in Bangalore and on the Neilgherry Hills, will require Punkahs.

May I venture to solicit the favor of instructions being given for the Punkahs being made as light as possible, the difficulty of having them effectually pulled, when of the former heavy construction, being very great.

I trust this arrangement will be considered as including a very small Punkah over the pulpit and reading desk as at the Cathedral, the officiating Minister being of course the chief sufferer from the heat, and also a Punkah in the chancel for the joint benefit of Minister and people at the celebration of the Holy Communion.

The Military Board in printing and circulating the above letter and the Honorable Court's Despatch No. 6 of 1854, with instructions to endeavour to carry out the liberal orders of Government, have to intimate, that no expense can be incurred either for putting up Punkahs, or for the establishment, without the previous sanction of Government; and the Board whilst calling for estimates to be forthwith sent in for the Punkahs, also point out that the cost of the establishments must be ascertained and reported to the Venerable the Archdeacon.

By order,

(Signed) J. HAMILTON, Captain, *Actg. Depy. Comy. of Ordnance.*

Copy of a letter from the Principal Commissary of Ordnance to the Military Board, No. 246, dated 3d February 1855.

1. In conformity to instructions conveyed in your letter No. 6,238 of the 15th ultimo, I have the honor to annex a Report on the Tools, and specimens of Country Iron and Steel forwarded herewith, from the Ordnance Officer at Vizagapatam.

2. I beg to return the original Statement from Captain Hamilton of Materials, &c. employed in making up the Tools received with the above communication.

3. I do not clearly understand Captain Hamilton's Statement, shewing the number of workmen employed, as the proportion between Smiths', Hammer-men, and Bellows Boys, appears to vary so much, in each description of article made up.

Report on Tools and specimens of Country Iron and Steel received from the Ordnance Department, Vizagapatam.

MAMOTY COUNTRY EUROPE PATTERN,—Has two defects—1st, Its having no Steel welded to its face to prevent its wearing; the other is the very low angle of the eye—A low angle may perhaps in some situations be preferable but not for general work.

MAMOTY COUNTRY NATIVE PATTERN,—Has the same defect—viz. no Steel, as also the angle of eye is too low, and the eye too heavy for a Mamoty of this kind, it ought to be made lighter.

AXE PICK COUNTRY,—Is Steeled at both ends and appears a serviceable Article; were the eye made of an oval shape, the person using it would have more command over it.

AXE PICK HALF COUNTRY,—Is a strong but coarsely made Article.

AXE FELLING COUNTRY,—Is a strong made Article; it is Steeled; but not tempered.

HAMMER SLEDGE,—Is a strong made Article.

ADZE COUNTRY,—Is a strong and well made Article of its kind.

CHISSEL CARPENTERS' COUNTRY,—Is a strong but roughly made Article.

CROW IRON COMMON 16½ lbs.—Is a very well made Article.

BILL HOOK COUNTRY,—Is a well made Article of its kind.

SPECIMEN OF COUNTRY IRON ORE,—A piece weighing 3 lbs. has been tested and the Iron produced from it after working up is very good; it was first placed in the fire and at a white heat hammered out; afterwards a welding heat taken on it; then doubled over, and another welding applied, and hammered to the shape it now presents, after this process it works well and clearly demonstrates that the Ore only requires to be properly prepared to become excellent Iron.

SPECIMEN OF COUNTRY STEEL,—A piece weighing 13 ounces was hammered small at one end, and twisted in the shape of a screw; while in the act of hammering the small end, the other end held by the tongs broke off in two instances; this, it is suggested is from the Iron not being properly freed from its impurities, previous to being converted into Steel; when heated it works well either by itself or when welded to Iron.

Principal Commissary of Ordnance.

Copy of a letter from the Superintendent Gun Carriage Manufactory to the Military Board, No. 79, dated 30th January 1855.

With reference to your letter No. 6,238 dated 15th January 1855, to the Principal Commissary of Ordnance, accompanied with a Statement* of the cost of sample Tools made up at Vizagapatam, which were sent to me by the Principal Commissary of Ordnance with a box of Tools for my report, I have the honor to state that I have examined them and the Statement of their cost, and I find only the 5 lb. Mamotie and 5 lb. Pick Axe are nearly equal to the Manufactory cost, all the rest appear to me somewhat dearer, considering the proportion of Smiths' charged to them, which by way of comparison are stated as follows:—

*Dated 19th December 1854.

	Mamotie 5 lbs.	Mamotie Wudders 4 lbs.	Pick Axe 5 lbs.	Pick Axe half 6 lbs.	Hammer Sledge 9¼ lbs.	Axes Felling 7 lbs.	Adzes Carpenters' 3 1/16 lbs.	Chissels Carpenters' 1 lb.	Crows Iron Common 16½ lbs.	Hooks Bill with handles 3½ lbs.
The charge of Smiths' at Vizagapatam.....	½	½	½	¼	1	½	1	½	½	1
The charge of Smiths' at the Gun Carriage Manfy.	⅓	¼	½	⅓	½	⅓	½	¼	⅓	½

If the Smiths' at Vizagapatam finish a 5 lb. Mamotie and 5 lb. Pick Axe in half a day each, they might work up the other Tools sooner than the above time. I doubt not if they are allowed good Iron of the sizes required for each of the Tools, they will by degrees make the Tools quicker and cheaper.

I observe that the 5 lb. Mamoties made up at Vizagapatam, have not Steel edges, whereas at the Manufactory, both the 10 and 5 lb. Mamotie (with the exception of Wudders) have Steel edges. The Wudders Tool is only intended for soft ground, the others for soft and hard.

Copy of a letter from the Superintendent, Gun Carriage Manufactory to the Military Board, No. 80, dated 31st January 1855.

In returning the accompanying two Statements* of Tools from Vizagapatam which accompanied your letter No. 6,263 dated 16th January 1855, I have the honor to state that the sample of Tools made of Country Iron alluded to in one of the Statements,—viz.

*Dated 15th December 1854.

		Rs.	A.	P.
1	Axe Pick Country Half, 6 lbs.....	1	2	0
1	Axe Felling Country, 8½ „	1	7	11
1	Hook Bill Country, 4 „	1	4	2
1	Adze Carpenters' Country, 4½ lbs ...	1	5	9
1	Chissel Carpenters' Country, 1½ lbs..	0	7	7

have been inspected as well as a specimen of the Country Iron contained in a box sent to me by the Principal Commissary of Ordnance, which appears to me rather hard and coarse, and thereby caused more than one hundred per cent. wastage in working up, which increased the cost.

If Country Iron of better quality could be procured the cost would be very moderate.

In the other Statement of Tools,—viz.

		Rs.	A.	P.
710	Axes Pick, 7 to 9 lbs.....	1,201	14	0
816	Crow Bars, 17 lbs.....	2,418	6	0
75	Mamoties, 5, 7 & 9 lbs.....	141	9	6
248	Mamoties Wudders, 5 to 7 lbs.....	545	7	0
16	Hammers Sledge, 10 lbs.....	41	15	0

The cost of the above Tools is also dear in consequence of the enormous wastage in working up the Iron, I doubt not if better Iron were supplied the workmen at Vizagapatam would turn out Tools much cheaper.

Good Iron is solid and bends before and after heating without flaws, but the Country Iron received from Vizagapatam is not so.

The Country Steel received from Vizagapatam is sound and solid and will do very well for use.

With reference to the helves and handles for all kinds of Tools, I beg to state that at Madras Trincomallie and Eroombaly woods are generally used, but these perhaps may not be procurable in other places. It is therefore advisable to ascertain from each Ordnance Officer what description of woods are principally used by the Natives of the adjoining town and district for such purposes, and that such woods can be procured on the spot, with their prices. After receiving this information, the Board can then publish an order directing the use of Country made helves and handles for all Tools.

In looking over the Statements of Tools made at different Arsenals, I have been struck with the high prices paid for fuel. It might be expected that at Vizagapatam and Cannanore, where forests and jungles are so close, the prices of Charcoal would be moderate compared with Madras, but they are quite as high as at the Presidency, where Charcoal has to be brought in fifty or sixty miles.

MILITARY BOARD'S CIRCULAR ORDER.

No. XIV of 9th March 1855.

ORDNANCE AUDIT DEPARTMENT.

1. In modification of the practice hitherto obtaining of entering in the Monthly Report for the Military Board's orders all articles requiring repair, and with a view to prevent the accumulation of repairable Articles in Store, and enable Ordnance Officers to improve the efficiency of their Arsenals,—the Military Board direct, that, for the future, all repairable Articles, (whether received from Corps and Departments, and such as have become repairable whilst in Departmental use, as well as such as have deteriorated in Store) are at once to be repaired by the Departmental means, and transferred from the "*repairable*" to the "*serviceable*" column in the following month's Monthly Report, without waiting until the "Monthly Report" in which they are recommended to be repaired is returned from the Military Board.

2. Such Articles as cannot be repaired by the Departmental means at the disposal of the Ordnance Officer, must be submitted for the orders of the Board, and entered in the Monthly List; in which shall also be noted the number and date of the estimate forwarded to the Board providing for the repairs being executed by additional means not available in the Arsenal.

3. Such estimates will be despatched by the Ordnance Officer as necessity arises, without delaying till the end of the month, and on the same being returned by the Board "*approved*" the Ordnance Officer will at once proceed with the repairs, without waiting for the "Monthly Report" being also returned by the Board.

4. Any Articles of Store may on emergency be repaired by the Ordnance Officer, and the estimate for additional means at once passed by the Officer Commanding; (in duplicate) one copy being retained by the Ordnance Officer, and another forwarded to the Board for approval; and whenever circumstances will admit, all Articles received from Corps are at once to be repaired and returned to the Corps instead of being exchanged, thereby preventing the accumulation of half used up Articles. All Light Field Carriages, and other Stores and Articles affecting the efficiency of the Force, must at all times be kept in a state of perfect repair and in readiness for any emergency.

5. Ordnance Officers must however be careful to record in each Monthly Report, the fullest

information regarding the repair or deterioration of Stores, noting also the arrangements made for the conversion of Stores from a "*repairable*," to a "*serviceable*" state; and with these enlarged powers, the Board confidently rely on Ordnance Officers maintaining efficiency as far as possible.

2. The Board further request that all Tools made up in Ordnance Establishments may be stamped with the year of make and name of Arsenal; English made Tools being stamped with the name of the maker, may in addition be marked with the year of receipt from England when leisure may allow for this being done.

3. Spare copies of this Order will be supplied to Ordnance Officers, to enable them to call on Officers receiving Tools to report thereon; and as the necessity of these reports will cease as soon as full information is furnished to Government, it is hoped that receiving Officers will readily comply with this call.

4. Ordnance Officers in transmitting to the Board the above reports will take care to supply full details as to weights and prices of Tools, where made, and quantity of Steel used for each Tool.

Extract of a letter from the Commissary of Ordnance at Secunderabad to the Military Board, No. 29, dated 17th February 1855.

"Major Maitland does justice to the desire of this Department to carry out the Board's orders, and "I feel obliged to him for the remark.

"Without Iron adapted for the purpose, it is of course impossible to compete with other Establish- "ments that have so many advantages as regards superior workmen and material, in making up both "Mamoties and Pick Axes, but to show what may be done here when furnished with proper material, I

"beg to forward a Statement exhibiting the cost of one Pick Axe when made out of a bar of Iron adapted "to the purpose, and which amounts to 9 $\frac{8}{10}$ pice less than one made up at Madras, but it must be ob- "served that this is by no means average work, having been performed by a native smith very far superi- "or to any other I have in the Arsenal, and who has expended on it an amount of labor, which could not "be kept up for any length of time. It will however suffice to prove that with Iron of a proper descrip- "tion, a fair average amount of Pick Axes may be turned out for the cost incurred."

GUN CARRIAGE MANUFACTORY:
Madras, *24th March* 1855.

J. MAITLAND, Major,
Supt. Gun Carriage Manfy.

The Board now call on Ordnance Officers to state definitely the number of different kinds of Tools they are prepared to make up in a year, also the additional aid they require in Establishment, in working sheds, and also quantities of materials, to enable them to perform a definite amount of work.

The Ordnance Officers will in making up Tools, employ their regular Establishment in the work, in aid of the extra Establishments, but not to the neglect of the regular Ordnance work, which will however be carefully examined and duly apportioned to the Artificers permanently maintained, in order that these may perform a full quantity of work in proportion to the pay they receive from the State.

By order,
A. H. HOPE, *Secretary.*

MILITARY BOARD'S CIRCULAR ORDER.
No. XX of 27th March 1855.

LASCAR DEPARTMENT.

Referring to G. O. No. 101 of 3rd May 1851, the Military Board call on Ordnance Officers to forward with their Report of the entertainment of Native Artificers, a Certificate of the qualifications of men entertained in the Arsenals, this Certificate to be in accordance with the provisions of the above G. O.

The following Certificate, lately granted by the Superintendent Gun Carriage Manufactory for 6 Native Artificers selected for employment on the Tenasserim Coast in lieu of 6 Carnatic Ordnance Artificers, is published for the guidance of Ordnance Officers, as it seems to comprise the principal points for notice; but Ordnance Officers will of course exercise discretion in mentioning the requisite qualifications, taking care fully to satisfy themselves of the efficiency of the workmen they entertain, and keeping the Board duly informed.

In all cases of Artificers being advanced from a lower to a higher rate of pay, the Board expect that Officers will also satisfy themselves as to the efficiency of the men as artisans, reporting thereon to the Board.

By order,
A. H. HOPE, *Secretary.*

I do hereby certify that the undermentioned 3 Native Carpenters and 3 Native Smiths entertained 4th January 1855 for Foreign service to Moulmein, are qualified in their trades as follows:—

Carpenter Amundon, „ Ramalingum, „ Valoydon,	Understand dove-tailing, Limber and Store box framing, and scraping, fitting spokes and felloes to wheels—can repair Ordnance Carriages, Waggons and Limbers.
Smith Veerasawmy, „ Vencatachellum, „ Chinnatombee.	Understand to weld a clip-band with swivel, leaving it of the same dimensions when completed as before; to forge Limber box handle; port-fire cutter; draught loops; lint-stock tubes, welding and tiring wheels—can repair and do Iron work of Ordnance Carriages and Carts, as well as making Intrenching Tools.

MILITARY BOARD'S CIRCULAR ORDER.
No. XXI of 30th March 1855.

ORDNANCE DEPARTMENT.

1. The Military Board publish for information, the following Report from the Superintendent Gun Carriage Manufactory on an estimate received for the repair of a Howitzer Carriage; and in so doing, the Board call the attention of Ordnance Officers to the necessity of stating the nature and extent of repairs, the number and date of the construction of the Carriage, and generally giving that kind of information which will enable the controlling and checking Departments to ascertain the necessity and propriety of the proposed outlay.

2. The Board also call attention to the inexpediency of almost renewing old Carriages, such as the extensive repairs of the nature contemplated by this estimate must necessarily involve, and the Board beg that a special report may be submitted prior to incurring any considerable outlay for old Carriages.

By order,
A. H. HOPE, *Secretary.*

Copy of a letter from the Superintendent Gun Carriage Manufactory to the Military Board, No. 169, *dated 7th March* 1855.

With reference to the Extract* from the Proceedings of the Military Board, No. 7,643, accompanied with an estimate from the Commissary of Ordnance at————, I have the honor to report that I am unable to judge from the document what may be the extent of repairs required for the 12 Pdr. Howitzer Carriage and Limber of Colonel Cullen's Pattern, but from the account given in the estimate it appears to be almost renewing the Carriage.

*1st March 1855.

The expense of repairing and assimilating a Carriage and Limber at the Manufactory is generally not more than one half of the expense given in this estimate.

If the Commissary will state the repairs, &c. required, I could then say confidently whether it would be advisable to undertake them.

It would also be as well he should state the age and condition of the Carriage and Limber, and if the wheels are much worn, or if they have been frequently tired.

Estimate shewing the quantity of Materials actually required in repairing and assimilating a Carriage with Limber Light Field, Colonel Cullen's Pattern Howitzer 12 Pdr.

MILITARY BOARD'S CIRCULAR ORDER.

No. XXIII of 17th April 1855.

ORDNANCE DEPARTMENT.

The Military Board publish the accompanying Memorandum and Table relative to Target materials for information and guidance.

By order,
A. H. HOPE, *Secretary.*

MEMORANDUM.

In preparing the new scale of Target materials, the articles have been calculated at the rate of 2 Targets per Troop and Company for all Arms, and the quantities added to the old scale agreeably to the increased number of rounds of Ammunition per man allowed by the late Order, viz. an additional half per Target to Cavalry and Horse Artillery, and two-thirds to Foot Artillery, Sapper, and Infantry of all branches, the supply will consequently be for the Horse Artillery and Cavalry one and a half times more per Troop, and to all other Arms one and two-thirds more than the old scale, i. e. there are double the number of Targets as well as the additional quantity of materials, viz. half and two-thirds respectively.

The increased supply of Targets and Target materials has been given to enable Corps to comply with the G. O. C. C. in expending the whole of the annual supply of Ammunition, and it is considered that except in very extraordinary cases it will be found ample. Should any of the articles remain at the end of the year, a corresponding deduction will be made in the next indent.

Indents for Target materials to be forwarded annually with the indents for Ammunition, and should Corps not have sufficient security in their Store-rooms for the increased quantity of materials, Arm Chests or Packing Cases with hasp, hinges and lock, can be indented for on the Arsenal of the Station.

When Corps, Troops, or Companies are ordered to march, all Stores not required on the march, including therein Target materials and Ammunition, are to be returned into the Arsenal with a list. All Ammunition and Stores and all articles including Ammunition due, but not drawn on any sanctioned indent, will be drawn and the indents completed, but the articles so drawn will be immediately returned into Store and a receipt taken, which is to be attached to the indent made out for articles and Ammunition and Stores required by the Corps on its arrival at the Station, the indent being at once passed on emergency, provided the receipts attached show the articles returned into the Arsenal.

The Target materials for the Recruits have not been altered.

A Contract allowance is granted by Government for the repair of Saddlery and Harness at the rate of Rupees 1-12 per month for each Saddle and set of Horse Appointments effective, (i. e. corresponding with the number of Horses present but not exceeding the established strength,) and 8 Annas per month for each Saddle and set of Horse Appointments non-effective, (i. e. exceeding the number of Horses present but not exceeding the established strength.)

3. The same rates viz. Rupees 1-12 and 8 Annas respectively, are allowed for sets of Harness effective and non-effective, provided that the number does not exceed the established number of draft Horses. No allowance is granted on account of Saddlery or Harness for Horses supernumerary to the established strength.

4. The above allowance will be formed into a general Fund to meet all charges for maintaining in efficiency the Saddlery and Harness of Corps. The profits, after defraying such charges, are to be divided annually among the Commanding Officers who may be entitled, according to the time they may have held the Command, to receive them. The Officer Commanding Horse Artillery receiving two shares—each Officer Commanding a Regiment of Cavalry one share—the Officers Commanding the Body Guard and Horse Field Batteries, a quarter share each.

5. The Adjutant General will in the month of May in each year, furnish the Military Auditor General with a statement shewing the number of Saddles, Harness, and Horse Appointments effective and non-effective, during each month in the past year accompanied by a list of Officers entitled to share, upon which Returns the computations of the Saddle Contract Fund will be made.

6. Officers are entitled to share in the Saddle Contract Fund under the Regulations applicable to Regimental Command Allowance, with the exception that Officers absent on duty will not forfeit their claim; and that Officers removed from one Regiment to another are to be considered on duty, provided they join within the prescribed period.

7. Officers in Command of Brigades of the Third Class, to which they succeed by virtue of seniority, do not forfeit their claim to share in the Saddle Contract Fund; but those temporarily or permanently in Command of Brigades of the 1st or 2nd Class, or holding any inferior permanent Brigade Command under appointment by Government, have no claim to share in the profits of the Fund.

8. The Quarter Masters of the Horse Brigade and of Regiments of Cavalry will be charged with all duties pertaining to the Saddlery and Harness of their Corps, and be responsible for the Stores, Workmen and Accounts, under the immediate supervision of the Commanding Officer and the orders of the Military Board. In the Body Guard and in Horse Batteries these duties will be discharged by the Commanding Officer. In Troops of Horse Artillery detached from the Head Quarters of the Horse Brigade, these duties rest with their Commanding Officers: who will at the commencement of each official year notify to the Officer Commanding the Horse Brigade, what number of Saddles, &c. may require to be replaced in the course of the ensuing year, specifying what materials cannot be provided of good quality on the spot or in the neighbourhood, and may therefore be required to be sent from Head Quarters.

9. Officers Commanding Troops of Horse Artillery or Cavalry, will be responsible for the state of the Saddlery and Harness in use with their Troops. For all articles required to be repaired or replaced, they will send indents to the Quarter Master, who will retain these documents as vouchers for the issue or repair.

10. At the end of every quarter, the indents referred to in the preceding paragraph shall be condensed in the form of a Certificate to bear the signature of the Quarter Master and to accompany the annual accounts to the Military Board. The original indents may be destroyed, on the notification of the adjustment of the year's accounts, appearing in G. O.

11. In the event of a Troop Officer making a requisition for the repair or replacement of any article of Saddlery or Harness which may appear to the Quarter Master to be unnecessary, the latter Officer shall bring the circumstance to the notice of the Officer Commanding the Corps, whose decision shall be final.

12. The same course shall be followed, in case of a Troop Officer objecting to receive from the Quarter Master any article, on the ground of its being of inferior quality or incorrect pattern.

13. All arrangements for providing materials and workmen are left entirely to Commanding Officers; but the workmen should not receive higher rates of pay than those drawn by Artificers of the same class in the pay of Government.

14. Commanding Officers will take care that there is always a sufficient supply of materials and of the component parts of Saddlery and Harness in Store, to meet the demands of the Service, but that there shall be no unnecessary accumulation of either.

15. In all Detachments of Horse Artillery or Cavalry, the senior Officer will conduct the duties appertaining to the Saddlery and Harness for the efficiency and care of which he will be responsible; and he will furnish his accounts monthly to the Quarter Master, for the purpose of being examined and embodied in those of the Corps.

16. The Quarter Master of the Horse Brigade will receive a monthly allowance of 60 Rupees, Quarter Masters of Cavalry 30 Rupees, and Officers Commanding the Body Guard and Horse Batteries 10 Rupees, for Stationery and Writers, to be charged in arrears in the Account Current.

17. Riding Masters of Mounted Corps will draw 5 Rupees a month for each Troop of the Brigade or Regiment to which they belong, for the provision of Cavessons, Whips, and other Horse Drill Equipments; to be charged to the Saddle Contract Fund. Where no Riding Master is attached, these articles are to be procured and charged to the Fund.

18. When a Corps marches from Station to Station, the whole of the Saddlery, Harness, and Horse Appointments forming the Establishment of the Regiment shall at all times be kept complete, without reference to the number of Horses present; should these not be sufficient to convey the whole, all surplus articles must be carefully packed, and conveyed as well as materials in Store upon Carts at the expense of the Fund.

19. The unserviceable articles of Saddlery and Harness returned into Store, will be examined at the end of each quarter by a Committee of which the Commanding Officer will be President; those condemned finally by this Committee to be burnt or otherwise destroyed, any useful parts being brought to account. The Proceedings, prepared according to Form No. 15, will accompany the annual list of articles made up, &c. sent in to the Military Board.

20. Materials required for the Saddle Contract Department, can be obtained from the Ordnance Department on payment, upon indent sanctioned by the Military Board.

21. The whole of the Saddlery and Harness in use with Corps (effective and non-effective) as well as the articles and materials in Store, and Cash in hand, shall be examined and compared with the Books on the 30th of April in every year, by a Committee of Mounted Officers to be appointed by the Officer Commanding the Station. The Committee will record their declaration upon honor of the number and condition of the articles submitted to them, and the estimated cost of completing the established allotment in an efficient state. The Proceedings (see Forms 7, 12 and 16) are to be forwarded immediately through the Head Quarters of the Division to the Military Board in duplicate, one copy being retained with the Corps.

22. A similar course will be followed on all occasions of the relief of Commanding Officers or Quarter Masters of Corps; except that in these cases the Committee will be assembled Regimentally, and will consist of the three senior Officers in Command of Troops.

23. Officers Commanding Mounted Corps, the Body Guard, and Horse Field Batteries, will apply to the Military Board quarterly for advances of such funds as may be requisite for the payment of workmen and provision of materials: and the Military Board will sanction such amounts, within the prescribed limits as they may deem necessary, and communicate to the Accountant General, who will instruct Paymasters to advance the amount to Commanding Officers on their receipt. The advances so made will be adjusted annually on the 30th April, agreeably to a statement of expenses incurred in the provision and repair of Saddlery during the past year, to be compiled by the Military Auditor General from the Regimental Returns of Saddlery and the Account Current of the Secretary Military Board.

24. The applications for advances, referred to in the preceding paragraph, are to be despatched so as to reach the Military Board by the 15th of the month preceding the commencement of the quarter for which they are required; and Commanding Officers are to take care to apply for sufficient funds to prevent the accounts shewing at any time a balance due to themselves, or the Quarter Master.

25. The following documents are to be prepared and forwarded annually from the Saddle Contract Department in Corps, as soon as possible after the 1st of May.

MILITARY BOARD'S CIRCULAR ORDER.

No. XXX of 4th May 1855.

ORDNANCE DEPARTMENT.

The Military Board have much satisfaction in publishing the following general Statements* of Tools made up at the Vellore Arsenal from 1st January to 31st December 1854, by Lieutenant King, Assistant Commissary of Ordnance; and the attention of Ordnance Officers is requested to the great assistance which the Arsenals can afford in providing Tools for Public Works, judging from the large quantity of Tools manufactured at this small Arsenal, in spite of indifferent materials, as to size and quantity of Iron and Steel, and with inexperienced and hired Artificers.

*Board's Nos. 20,976 and 21,008.

About 3,000 Tools of various kinds and sizes have been made up at this Arsenal in the course of 12 months; some of them Miners' Tools hitherto obtained from England, as being of a peculiar and difficult construction. The difficulty found to exist in the manufacture of Tools in this country appears therefore to be removed; and all the Tools made up at Vellore having been favorably reported upon, being even pronounced by the Principal Commissary of Ordnance quite equal to English-made Tools, the Board are now confident of future success in providing Tools by means of the Arsenals, when furnished with good materials, qualified Artificers, and efficient supervision.

A. H. HOPE, *Secretary.*

Lieut. King's Report upon Tools manufactured at the Arsenal of Vellore from the 1st April 1851 to the 31st December 1853, and transmitted to the Grand Arsenal, where they were pronounced to be "of good workmanship."

The Military Board having ordered the manufacture of Tools at the Vellore Arsenal, a few extra sets of Smiths were entertained in January 1854, and in the month of May the same year, the forge was enlarged, when there were 8 sets of hired Smiths set to work, and they went on gradually increasing until the end of the year, when there were as many as 16 sets at work: but there being no room at present for any more, the Military Board have sanctioned a further enlargement of the forge, which will be carried out in a couple of months from this date, as palmyra trees are now being brought in for that purpose.

There was much trouble at first with the hired Smiths, in getting them over a wanton waste of both fuel and metal; they have not yet got quite rid of that fault, but time it is hoped, will bring them round, as they see the advantages more particularly to themselves, arising from their employment.

Some of the Tools made at the beginning of the year were found objectionable in size; that has been all remedied, and with the sanction of the Military Board Pick Axes and Mamoties are now made, each of three standard weights, viz. 10 lbs., 8 lbs., and 6 lbs.; those of 10 and 6 lbs. to be specially indented for, and those of 8 lbs. for all ordinary purposes. This simplifies both the manufacture and accounts kept of them; they are generally made up here of those weights exactly, but it does sometime occur that they are turned out 1 or 2 ounces less, seldom or ever anything over.

In April 1854, the blade ends of the Pick Axes made up here, were partially rounded in consequence of the lascars never taking up a new one to work with, if they could get one that had been used; afterwards the Mamoties were made in the same way, and both continue to be so made, up to the present time.

In July 1854, a large quantity of Country Iron and a small quantity of Country Steel was purchased to be made up into Tools at this Arsenal; the former was found to be very crude and altogether bad, losing upwards of 300 per cent. in working it up, but the latter proved to be good.

In August 1854, it was found that 530 of the double headed Shot in this Arsenal were made of very good malleable Iron, giving 5,053 lbs. of that valuable metal.

The following Statement of materials expended and workmen employed in making up Tools at this Arsenal during the year 1854 and January 1855, will shew a gradual falling off in the expenditure of materials, and also in the prices chargeable for the different articles made up; this improvement may be expected to continue until the Smiths are, as at other large establishments, completely broken in and reconciled with their work; then all will continue to go on smoothly and as it should be. The prices of making up Tools since the 1st January 1854, having as a matter of course fluctuated, the charges are given in four distinct columns, shewing how they became less.

MILITARY BOARD'S CIRCULAR ORDER.

No. XXXIV of 22d May 1855.

ORDNANCE DEPARTMENT.

The Board circulate for attention and guidance, whenever practicable, the following letter from the Principal Commissary of Ordnance containing a well arranged nomenclature for Accoutrements, and spare copies will be furnished to Ordnance Officers for distribution to Corps.

By order,
A. H. HOPE, *Secretary.*

Copy of a letter from the Principal Commissary of Ordnance, to the Military Board dated 9th May 1855, No. 968.

In consequence of the introduction of the new pattern Belts for the Army, the nomenclature of Accoutrements requires to be revised, I therefore do myself the honor to submit for approval of the Board, one drawn up with much care; and arranged in the following manner, which it is supposed, will be found very convenient for reference.

First—under the head "Horse Artillery, Cavalry, and Horse Battery," will be found Accoutrements of the established pattern, at present in use with those Corps.

Second—under the head "Foot Artillery and Infantry," the same arrangement; the Accoutrements being alike for both branches of the Army, whether "European or Native."

Third—under the head, "Sappers and Miners, Rifle, Light Infantry, Gun Lascars, and Veterans," the same arrangement.

Fourth—under the head, "Miscellaneous," are entered all Accoutrements not in common use, such as pattern Belts &c. in use with the Troops of the Bengal and Bombay Presidencies, Sea service Belts &c.; also all old pattern Belts available for conversion to established patterns, which, when converted, will have to be transferred to the other heads, as may be necessary.

No Accoutrements should be entered under either of the three first headings, except those of the established pattern, available for issue to Corps.

By this arrangement, it will be seen at once the number of Belts of the established pattern available for issue, and the number in store that can be converted.

The outer figures in the list, are the numbers on the labels affixed to the pattern Belts, by the late Colonel Gordon.

Should this revised nomenclature of Accoutrements be approved of by the Military Board, I would suggest that it be printed, and copies furnished to all Ordnance Officers.

Arsenal Masulipatam,
21st *February* 1855.

(Signed) W. J. Cook, Captain,
Acting Commissary of Ordnance.

Copy of a letter from the Superintendent of the Gun Carriage Manufactory to the Military Board, dated 10th March 1855, No. 174.

In returning the Statement* of Tools from the Acting Commissary of Ordnance Masulipatam, sent for my report with your letter No. 7,630 dated 28th ultimo, I have the honor to state that I have minutely examined the charges of Tools alluded to in the Statement, and my opinion thereon is as follows:—

* Dated 21st February 1855.

1st.—The Tools made up by contract are dear.

2nd.—The Tools made up by hired workmen are moderately priced.

3rd.—The Tools made up by the Department Artificers are cheap.

4th.—The Mamoties are not Steel edged

To prevent misapprehension on the part of Ordnance Officers at up-country Arsenals, I suggest to the Board that in all future construction of Intrenching Tools, the Mamoties, Crow Bars and Pick Axes, with the exception of Wudders' Mamoties, should be pointed or edged with sufficient Steel and also properly tempered, this will render the Tool efficient to be used for hard or soft ground for a length of time.

The weight of each Tool made up at Masulipatam is given in the 2nd page of the Statement which I suppose the Board have overlooked.

Statement of the cost of the undermentioned Tools made at the Arsenal Bellary, shewing the weight and value of Materials and Workmen for one of each description, together with the proportionate cost of Materials and Workmen calculated for a ton of 2,240 lbs.

The Military Board notify that Ordnance Officers have been furnished with lithographed drawings of the established pattern Linking or Collar Chain, one copy to be for use, and the other to be bound up with the Board's Orders; and the Board direct the Chains in Store and in use to be assimilated to the established pattern, and an allotment of spare Chains for each Arsenal submitted for the Board's approval.

MILITARY BOARD'S CIRCULAR ORDER.
No. XL of 12th June 1855.

ORDNANCE AND INDENT DEPARTMENTS.

The attention of the Military Board having recently been drawn to the charges incurred for the conveyance of unserviceable Stores from an out-station to the nearest Magazine, the Stores so conveyed being in many instances of little value, far below the cost of their carriage, it is to be understood in future that in place of despatching old and useless articles of little value, the same are to be disposed of on the spot, either by sale, by burning, or otherwise.

When sold, the disposal will be made by Public Auction under a person totally unconnected, if practicable, with the Corps or Department in whose charge the articles had been in use; but before selling the articles, care will be taken to render them totally useless for the exact purposes for which supplied by Government, and in all cases, the Officer in Command will specially sanction the sale or destruction of the articles, specifying his decision on the list, which will be submitted to him by the Corps or Department, and which list will accompany the accounts as a voucher.

In cases where doubt may exist as to the value or uses to which articles can be applied, or as to whether the articles are worth the cost of conveyance, a reference should be made to the nearest Ordnance Officer for information; and it should be borne in mind, that there are many articles which though unserviceable in one state, may by conversion in an Arsenal, be made useful in another form.

By order,
A. H. HOPE, *Secretary.*

Arsenal:
Fort Saint George,
12th June 1855.

(Signed) P. Hamond, Lieut.-Colonel,
Actg. Principal Commissary of Ordnance.

MILITARY BOARD'S CIRCULAR ORDER.

No. XLII of 19th June 1855.

Ordnance Department.

The Military Board request the attention of Ordnance Officers to the Ordnance and Carriages kept in Store, and as it appears unnecessary to mount all heavy Field Guns on Carriages, the Board direct that the Guns be dismounted, carefully and correctly skidded, vents and bores attended to, so as to be available for use on any emergency, and the Ordnance protected from the weather by ante-corrosive paint.

When local necessity may require, Ordnance, Carriages, Ammunition, &c. to be kept in a state of complete preparation for use at a moment's notice, the Board desire that the Officer Commanding the Artillery will after consulting the Ordnance Officer, in communication with the Officer in supreme Command, give instructions in writing as to the state of readiness in which the equipments are to be kept, and the inspections to which they will be subjected; a copy of such instructions being forwarded to the Board.

The Board also call attention to the importance of frequently inspecting the wheels and Carriages, to the searching of vents and bores of Guns (as ordered at page 78 of the Regimental Ordnance Regulations) to the frequent turning of wheels of Carriages, keeping them clear of

damp ground when in Store, to the timely tightening of bolts and nuts of Carriages, care being taken that all the joints of Carriages intended for a march or for firing are carefully closed before issuing the Carriages; but the Board do not intend to have Carriages taken to pieces, solely to close openings which during the hot weather so frequently appear in serviceable Carriages, without materially affecting their efficiency. The Board also request that attention be given to seeing that the platforms are in good order, the bolts, screws, and component parts assimilated, and the established numbers maintained.

The Board further request attention to the Board's Circular Order No. X of 25th June 1847, and to the detailed instructions consequent thereon, published at page 71 of the Artillery Regimental Ordnance Regulations (edition of 1849,) respecting the care and preservation of Ordnance and projectiles.

By order,
A. H. Hope, *Secretary.*

MILITARY BOARD'S CIRCULAR ORDER.
No. XLIV of 26th June 1855.

ORDNANCE DEPARTMENT.

1. It having been observed that the ballards recently fixed to the Dwarf Traversing Platforms, are not of the exact diameter laid down in the drawings, and further that they are made to revolve on a circular bolt, instead of being fixed with a square bolt as experience has proved to be the best mode, the Military Board beg that this defect may be remedied in all the Platforms already made and avoided in future constructions; and the Board further desire the substitution of bolts of greater substance, as the strain and leverage on them is often excessive, an alteration which in the absence of any instructions except the drawing, has been suggested by actual experience.

2. For the information of all Ordnance Officers, the Military Board remark, that with the circular bolt the power of two or three men has been found unequal to prevent the ponderous Carriages of the 56 Pdr. and 8 Inch Guns from running down too rapidly, whereas with the larger ballard *fixed*, one strong man is able to control its progress to the required extent.

3. The Principal Commissary of Ordnance will obtain from the Manufactory and forward to Singapore, materials for making these changes in the Singapore Carriages, and completing all Carriages previously made up at Madras with the ballard and preventive ropes; these improvements being also attended to in all future constructions.

By order,
A. H. HOPE, *Secretary.*

The Military Board publish the following instructions from Government, and direct that the same be followed in the preparation of estimates.

No. 297. PUBLIC WORKS DEPARTMENT.

Extract from the Minutes of Consultation under date the 28th June 1855.

The plan of retaining fractions in the amount of estimates for Public Works is inconvenient as greatly complicating the accounts and causing trouble, and it is useless because these fractions are utterly insignificant on the total sum. The rules of the new Public Works Department will provide for the exclusion of such fractions in the preparation of estimates, but as it will be some time before those rules are in operation, and as estimates are now constantly coming before Government for sanction, the Right Honorable the Governor in Council resolves to order that from this time forward fractions shall be excluded from estimates so submitted. The Board or Officer sending up the estimates will add such a sum to the amount inserted for contingencies as will bring the total to an even sum in rupees, and will ask for sanction for such sum. In estimates exceeding 1,000 Rupees the total may be thus brought to even tens and in those exceeding a lac to even hundreds.

ORDNANCE DEPARTMENT.

The Military Board publish in Circular Orders the following letter from the Acting Principal Commissary of Ordnance, and direct that the number of Bass Drums proposed for the several Arsenals be considered the allotment, and as the Bass Drum is seldom renewed, Ordnance Officers may by attention to the Board's Orders as per margin, always ensure a proper store of Bass Drums to meet demands.

With reference to Extract from the Proceedings of the Military Board, No. 1,398 of the 19th Instant, I have the honor to state that the number of Bass Drums noted in the margin, would I conclude be an ample allotment for the different Arsenals, and as most of the stations are already provided with the full complement, I would beg to suggest that only as many as may be required by Ordnance Officers on their Annual Indents be sent from the Presidency.

LASCAR DEPARTMENT.

The Military Board call attention to the Circular letter of 30th July 1833, No. 26, and in addition thereto direct the following resolutions of Government to be made known.

"Resolved that Lieutenant Colonel Cullen's suggestion for withdrawing all details of Store Lascars "attached to offices or employed as orderlies be adopted, and that the "practice of imposing on public servants, duties other than those for which "they are specially engaged be strictly prohibited."

Minutes of Consultation dated 5th March 1833.

Para. 1. "The Right Honorable the Governor in Council concurs with the Military Board in "considering it unadvisable to employ Ordnance Lascars upon duties foreign "to their proper line of employment, and which can be more economically "provided for by the hire of Coolies when required.

Minutes of Consultation No. 3,071 of 17th November 1851.

2. "His Lordship in Council therefore directs that the employment of Ordnance Lascars for "the purposes noted in the margin be for the future discontinued, "with the exception that two or more may be detached with the "fire engines when required at Government House, in order to "the engines being kept under their charge.

3. "The Military Board will submit an application in the usual form for such number of Peons "as may be actually required for the duties of messengers."

With reference to the Military Board's recommendation as follows,

6. "We are of opinion that the Stationery office must be supplied with Lascars from the Arsenal "as the department is within the Arsenal buildings, but we are also of "opinion that the Stationery department should pay for the service of the "Lascars so employed and appear in the accounts against the Stationery "issued to the whole of the Government offices as all other charges are made to appear."

Military Board's letter to Government No. 173 of 15th January 1855, para. 6.

Government passed the following Order.

3. "His Lordship in Council has no objection to the Stationery "being debited with the pay of Lascars employed in that department "if thought advisable."

Minutes of Consultation No. 407 dated 2d February 1855, para. 3.

And the Principal Commissary of Ordnance having stated to the Board,

"That as no requisitions or Indents for the services of Lascars for "removing office Records, Furniture, carrying Stationery, pulling Punkahs, "&c. have been received for some time past; I conclude that the several "departments have made other arrangements for the performance of these "duties, and therefore presume no inconvenience would be occasioned by the issue of the Circular Order "alluded to, relative to Store Lascars not being employed on duties foreign to their proper line of "employment."

From Acting Principal Commissary of Ordnance to the Military Board, No. 1,156 of 9th June 1855.

The Board now request that the above instructions may in future be strictly adhered to.

MILITARY BOARD'S CIRCULAR ORDER,
No. L of 10th July 1855.

ORDNANCE DEPARTMENT.

The Military Board call attention to paras. 43, 44, 45 and 46 of Section I Ordnance Regulations, and publish for guidance the following resolution passed by Government in Minutes of Consultation No. 1,476 of date 18th May 1855.

"The Right Honorable the Governor in Council directs that orders by Officers Commanding "appointing Officers to act as Commissaries of Ordnance be forwarded for confirmation through the "Military Board in accordance with the intention of para. 44 Section I Ordnance Regulations."

By order,
A. H. HOPE, *Secretary.*

MILITARY BOARD'S CIRCULAR ORDER,
No. LI of 13th July 1855.

ORDNANCE DEPARTMENT.

The Military Board intimate that under instructions from Government, the allotment of Target materials published in the Board's Circular Order No. XXIII of 17th April 1855 is to be considered as experimental, subject to modification according to the reports of Commanding Officers to be submitted at the close of the year; and the Board request that on the 10th May 1856, Officers Commanding Divisions and Stations will call for Regimental reports as to the sufficiency, quantity, and suitableness of the articles forming the allotment; making suggestions for improved arrangements, and forwarding their reports to the Board with their own recommendations.

The Board also notify, that the quantities laid down in the Table published in the Board's Order No. XXIII of 17th April 1855, are intended for a half year's supply; but in order to prevent the necessity of indenting twice during the year, the Board authorize the Indent to be made out for the whole year, and it is consequently to include double the quantities for the half year's allotment, as shewn in the accompanying Table.

As regards the current year, Indents having already been made in some instances for the old allotment of Target materials, the Board request that Indents for additional supplies to complete the quantities as shewn in the revised Table, when required, may be passed on emergency by Officers Commanding.

As it may in some cases be convenient to draw these materials from time to time, Ordnance Officers are authorized to issue portions on receipt, retaining the passed Indent, which will be receipted in full on the whole being issued; each receipt specifying the number of the Indent, the whole quantity of each article authorized, the quantities already drawn, and those therein applied for.

By order,
A. H. HOPE, *Secretary.*

MILITARY BOARD'S CIRCULAR ORDER.
No. LVI of 20th July 1855.

COMMISSARIAT DEPARTMENT.

On the 24th November 1851 the Military Board issued a Circular Order No. 35, placing on Officers Commanding, the authority for regulating in Station Orders the supplies of Barrack attendants, oil, chatties, and various other articles of petty supply required by Regiments, Guards, &c.; and the Board having received copies of these Orders, now request the attention of Officers in general command to the advantage to the public service, of strict examination being made into the necessity of all demands, as regards quantity and quality of articles and number of attendants.

The Board do not wish to check or diminish demands, as Officers in local Command have many more and better opportunities of judging of their propriety and necessity; at the same time it is hoped that with this power vested in Commanding Officers, strict scrutiny will be exercised, that no demands for articles or attendants are passed on the mere plea of custom, unless the necessity for them be clearly established.

The Board would also wish to receive from Officers in Command, occasional reports on the system; in order to show that in addition to the Station Orders, due enquiries have been made before authorizing the issues.

By order,
A. H. HOPE, *Secretary.*

MILITARY BOARD'S CIRCULAR ORDER.

No. LVII of 24th July 1855.

INDENT DEPARTMENT.

The Military Board having under instructions contained in G. O. G. No. 199 of 1st October 1852, submitted their Annual Return of supplies of Furniture made to Departments during the year 1854-55, and Government having pointed out irregularities in the supplies passed by the Board, it becomes requisite to issue instructions for greater regularity in making future demands.

By the 2nd para. of G. O. G. No. 25 of 6th February 1852 (as per margin,) it will be seen that the Board have authority to pass Indents for the repair or exchange of office Furniture in use with the several Departments, Civil and Military, at the Presidency; and it is requisite that the several Departments should now prepare a list of all articles in use, sending in the same to the Barrack Master whose duty it is to submit all requisitions to the Board, with observations, pointing out whether the demands be for the exchange or repair of existing articles; and the Board request the Barrack Master in future carefully to attend to this important part of his duty.

"All requisitions for the repair or exchange of "office Furnitnre in use with the several Depart- "ments Civil and Military at the Presidency shall "be made on the Barrack Master, agreeably to the "annexed form, who will transmit a similar Indent "on the proper Department in duplicate to the Mi- "litary Board for sanction."

The Government having also remarked on the insufficient explanations given by Officers Indenting for additional supplies of Furniture, the Board call attention to the observations of Government in the 4th para. of Minutes of Consultation No. 1,571 of 29th May 1855 (as per margin,) and request that Indenting Officers will in future give more full and detailed statements of the necessity of the extra supplies, in order to enable the Military Board to afford in their Annual Report that sufficient and clear information which the controlling authority has a right to expect. The Military Board must do all in their power to fulfil the injunctions of Government, and therefore it must be distinctly understood, that all demands irregularly made or defectively explained, will henceforward be firmly rejected; however inconvenient such a course may be to Departments. The duty required to be performed being clearly defined in the existing Order, the following para. of G. O. G. No. 199 of 1st October 1852 is republished for guidance.

"The Governor in Council further observes that "the reasons assigned by Indenting Officers in sup- "port of their requisitions for additional Furniture "are generally of the most meagre and unsatis- "factory description, and altogther insufficient to "enable the controlling authority to judge of the "expediency of their being complied with. His Lord- "ship expects that the Board will exact greater at- "tention to this point in future, and that they will "firmly reject any Indent which may be deficient on "this important particular."

Para 4. "In case of additional Furniture being required, *the requisition by Indent* is to be previ- "ously submitted to the head of the Department to which the Indenting Officer belongs, with a full expla- "nation as to the necessity of the increase; if satisfactory, the Indent with the recommendation of the "head of the Department, is to be forwarded direct to the Military Board, who will be careful to check "any improper or irregular demands, and to pass such only as may be absolutely necessary, for supply on "presentation—forwarding to Government annually on the 1st of May, a Return of all extra Furniture "sanctioned by them during the preceding official year, under this rule."

All demands for the repair, exchange or supply of articles of Furniture, will be submitted by Departments to the Barrack Master, whose duty it will be to check the demands as respects quantity, description, condition, and all points connected with the supply or exchange; and as by the 6th para. of G. O. G. No. 25 of 6th February 1852, lists of Furniture and unserviceable articles should be in possession of the Barrack Master, he has the means of exercising this check.

In addition to the Orders in G. O. G. Nos. 25 and 199 of 1852, Government have now issued the following instructions respecting supplies of Furniture to any new Department or Establishment which may be formed; and lists of the articles required by new Departments or Establishments will in future be submitted to the Board, and by them to Government for sanction.

The Military Board further notify, that Government have by the 2nd para. of resolution No. 571 of 29th May 1855 (as per margin,) directed the Board to submit all demands for Furniture not provided for by regulation, and to revise the allotment and list of articles published in G. O. G. No. 25 of 1852; and the Barrack Master and Officers in charge at outstations will accordingly (under paras 8, 9 and 11 of that Order) revise the allotment and list, and forward the same to the Board with full information; this opportunity being taken to render the allotments as complete as possible, and to ascertain that each branch, such as Schools, are fully provided, the articles required being clearly described so as to facilitate all future supplies.

"The Governor in Council considers the above "practice objectionable, such Indents should either "have been submitted to Government for approval "prior to having passed, or the Board should have "taken steps to obtain the sanction of Government "to a revised allotment calculated to meet the rea- "sonable demands of the service on them."

By order,

A. H. HOPE, *Secretary.*

MILITARY BOARD'S CIRCULAR ORDER.

No. LVIII of 24th July 1855.

ORDNANCE DEPARTMENT.

The Military Board having had under consideration the difficulty stated to be experienced in inducing workmen employed in making up Tools, to give a full day's work for the pay they receive, specially call attention to the opening given by the new system of making up Tools in the Arsenals by means of hired Artificers, for the introduction of different modes of payment. The Board have vested in Ordnance Officers authority to give such wages as they may consider necessary for the work done in Tool making, and the Board think the workmen may be brought to see that their own interests and those of Government are identical, by the simple measure of paying each man according to the quantity and excellency of the work executed; since the most expensive kind of work is that done by a bad Smith, involving not alone a waste of money in wages, but a serious waste of Iron and Fuel generally treble the amount of daily pay disbursed.

There are various expedients by which workmen may be induced to exertion; for instance the quantity of work to be done by each in a given time should be agreed on before hand, together with the quantity of Fuel and Iron to be expended in the job and the amount of remuneration should be fixed, and fairly and promptly paid to the workmen on the completion of the work. Again workmen may be paid by the day whenever the nature of the work may justify this measure; but strict surveillance should in that case be exercised over the workmen. The number of Tools to be made in a given time should also be fixed, and the price paid for each Tool should in some degree regulate the daily wages; taking care that the kind and quantity of Iron and Fuel to be worked up, be also settled with the workmen.

By these and other arrangements ensuring an economical use of materials (Iron and Fuel) Ordnance Officers will be able to allow of high remuneration being paid for the work done; and in some cases the workman may be allowed to take his own time in making up Tools, as it will sometimes happen that materials will be less wasted by time being granted for the manufacture of the Tools.

The Board also caution Ordnance Officers against permitting a pottering system of work in Iron, or indeed in any work, but as respects Iron especially, the expenditure of Fuel must be great and the outlay consequently enhanced. The Board being alive to the waste of money from the misuse of materials, have published in their Circular Orders details of the expenditure incurred in making up Tools; from which it will be seen that there are great variations in the different Arsenals in the expenditure of materials and labor. The latter being far less costly than the former, for one per cent. saved in the value of materials, Government would be able to give an increase of wages to the extent of fully three per cent. for labor; and it should therefore be borne in mind that economy in materials with good work, is far more important than a low rate of wages.

The Board would also call attention to the use of different kinds of Fuel, as opening out means of making up Tools at smaller cost; the hardest kinds of woods make the best Charcoal, but this description is often dear in comparison with that made from the more abundant light woods. In each locality there are peculiar kinds of Fuel available known to the people alone; but if the inducement be once offered to the workmen, of increased pay corresponding with work done and saving of materials, this will tend to develope local advantages, and create a spirit of emulation among the workmen.

The Board would also call the attention of Ordnance Officers to the kind of Iron used, because until the means exist of constantly supplying Arsenals with Iron of the proper sizes, judgment and discretion must be exercised in making the best use of the available Iron, and working it up into the proper sizes and shapes before forming the Tools.

A. H. HOPE, *Secretary.*

MILITARY BOARD'S CIRCULAR ORDER.

No. LIX of 27th July 1855.

ORDNANCE DEPARTMENT.

The Honorable Court of Directors having directed patterns of Mamoties to be sent home, the Military Board will feel obliged to Collectors, Judges, Civil and Military Engineers, Superintendent of Roads, and all Officers in charge of Public Works to send in to the nearest Ordnance Department the Mamoty, or Mamoties, (one of each kind) in use in the districts, with a Memorandum stating the weight of the Tool and kind of work for which used.

Ordnance Officers are also requested to assist in collecting patterns and to forward the Mamoties and information to the Principal Commissary of Ordnance as soon as possible. Copies of this Order will be furnished to them for distribution to all Officers concerned.

MILITARY BOARD'S CIRCULAR ORDER.

No. LX of 27th July 1855.

ORDNANCE DEPARTMENT.

The Military Board publish for information and guidance the following form of a revised allotment of Percussion Caps to be maintained in the Saugor Arsenal; and direct Ordnance Officers at all Stations to prepare and submit to the Board similar revised allotments of Percussion Caps, to meet the additional demands likely to be made for the extra supplies of Ammunition granted in G. O. G. No. 76 dated 15th March 1855, as well as to provide for all other services.

The annual expenditure of Caps will be carefully compared with the quantities calculated in the allotments, in order to prevent the accumulation of useless Stores, and to enable Ordnance Officers to regulate the demands made in Annual Indents.

The allotment of Percussion Caps is calculated in the proportion of 125 Caps to 100 Ball Cartridges, and 110 Caps to 100 Blank Cartridges; and the number of Cartridges for each Arsenal is calculated on the principle laid down in the Board's Circular letter No. 2,677 of 4th March 1834, and 22nd August 1843 page 229, viz. four equipments per man beyond frontier and three equipments within frontier, according to the strength dependent on the Arsenal.

The Ammunition for Practice and Exercise is calculated according to—

The Board request that Caps returned into store after being in charge of men or in Regimental Magazines, may be carefully examined, their condition ascertained, and any defects carefully remedied before being re-issued; it being understood that the oldest Caps if quite serviceable or those which have already been in use, be issued for Practice or Exercise, and the best made, or most efficient Caps retained for service.

MILITARY BOARD'S CIRCULAR ORDER.

No. LXI of 31st July 1855.

ORDNANCE DEPARTMENT.

With reference to Circular Order No. VIII of 7th March 1854, the Military Board call attention to the following remarks of the Superintendent Gun Carriage Manufactory and Principal Commissary of Ordnance, respecting the construction of the eyes of Pick Axes; and specially to the suggestions of the Principal Commissary of Ordnance respecting the kinds of Iron to be used for different Tools, and the importance of keeping the Tools in use with working parties in good condition, particularly as regards re-steeling.

By order,
A. H. HOPE, *Secretary.*

Copy of a letter from the Superintendent of the Gun Carriage Manufactory to the Military Board, dated 17th May 1855, No. 355.

In reply to Extract from the Proceedings* of the Military Board No. 415, I have the honor to state that it is not safe to form the eye of the Pick Axe from a solid bar, as it is liable to crack; it is better to form it from two pieces welded together.

*Dated 7th May 1855.

It would be well to have a return from all Ordnance Officers at least once a year, shewing the number of old Mamoty and Pick Axe eyes that have been received into store for repair, as attention to the Board's Circular* on this subject may save many Rupees to the State, and facilitate the supply of Tools for Public Works in each district.

*No. 8 of 7th March 1854.

Extracts from a letter from the Principal Commissary of Ordnance to the Military Board, dated 26th March 1855, No. 640.

4. The Overseer attached to the Grand Arsenal differs in opinion from Lieutenant French in the method of forming the eye of the Pick Axe; he considers it preferable that the Pick Axe should be welded in two pieces, to being formed from the solid bar; as being more economical, and equally as strong, *when properly welded* as a solid bar: he states that in England where the work is assisted by machinery and where Iron of the same quality and dimensions is always procurable, the principle of making the eye of the Pick solid, has not been adopted. He states that punching Iron is one of the tests made use of to ascertain its quality; if not good it will open out with, and across its fibre, after punching, and thus defeat the very object proposed to be obtained in leaving it solid; and he fears it will not always be the case that the Iron is of a sufficient good quality to bear the punching out.

5. There is no doubt an excessive wastage, from Iron of too large a description being used for any particular Tool; involving a wastage in time, material, and fuel. This cannot at all times be obviated; but with strict attention to the description of Iron found to be the most suitable, if Ordnance Officers will specify in their requisitions for Iron the work for which it is specially intended, it would enable the Principal Commissary of Ordnance, (in the preparation of the Statement sent in annually to the Board, as a guide in the preparation of their Indent on the Court of Directors) to procure from England the description of Iron that will assist the different Ordnance Departments to economize their supplies in the most advantageous manner.

6. The Iron for making Mamoties especially should be of a good quality, or the wastage will be excessive and prices greatly enhanced. The best description is flat Iron $6 \times \frac{3}{8}$.

The Iron for Jumpers should be Bolt, of about $1\frac{1}{2}$ Inch and steeled at one end; the price of this article would be considerably reduced if the swell in the centre were done away with, and would be equally efficient in the hand of a native.

Large Stone Hammers can be made from Bolt Iron of 4 Inch, $3\frac{3}{4}$, $3\frac{1}{2}$, $3\frac{1}{4}$, or from Square $3\frac{1}{2}$ and 3 Inch, and for the smaller Hammers as those weighing 3 and 2 lbs., Iron Square of 2 Inch would answer well.

For Pick Axes of 10 lbs. the best description is Flat Iron $3\frac{1}{2} \times \frac{5}{8}$, for those of 5 lbs. Flat Iron $2\frac{1}{2} \times \frac{5}{8}$.

7. It might be deemed advisable to call the special attention of those officers carrying on Public Works, in which Tools such as are above referred to, (especially the Pick Axe, and the Mamoty) are extensively employed, to one point: viz. that the persons in charge of working parties should be careful not to permit Tools to be used after the Steel is worn away, until renewed.

By strict attention to this rule (where practicable) and having the implements re-steeled when necessary, they would last for almost any period of time; as on hard soil the Steel prevents the Iron from wearing away.

8. I am well aware that this cannot at all times be attended to, and that on many occasions there are no available means of carrying this useful suggestion into effect; but where there is a Work-shop at hand, or where the nearest Arsenal is not at an inconvenient distance to allow the Tools to be sent in to be re-steeled, much advantage would accrue from its being acted on.

9. In forwarding the above remarks I am aware that they do not contain much information that is new, but as stated at the commencement, the Grand Arsenal has not hitherto had an opportunity of making up Tools on any thing but a comparatively small scale; I hope, in a few days, to be able to send for the inspection of the Board a variety of Tools (usually received from England) made up in the Grand Arsenal experimentally; with an estimate shewing what would be their probable cost if made up on an extensive scale in this country, as appears to be the wish of the Board.

MILITARY BOARD'S CIRCULAR ORDER.

No. LXII of 31st July 1855.

ORDNANCE DEPARTMENT.

The Military Board publish for information and guidance, the following letter and Memorandum from the Principal Commissary of Ordnance, with instructions to Ordnance Officers to be guided by the advice contained therein, and to submit for experimental trial Targets made up in the manner suggested, obtaining permission from Officers Commanding to make up some for use with Corps, to be tried and reported upon for the Board's information.

By order,

A. H. HOPE, *Secretary.*

Copy of a letter from the Acting Principal Commissary of Ordnance to the Military Board, dated 13th July 1855, No. 1,411.

1. With reference to resolution of the Military Board, No. 1,722 of the 2nd Instant, I do myself the honor to annex a Memorandum of the dimensions and weights of the component parts of Iron Targets, with detailed information relative to making up of the same.

2. I beg to observe that the Wooden Sleepers are not now used at the Presidency, and seldom at out-stations, as they are found too cumbersome to be carried by Corps backwards and forwards to the Practice ground, which is generally at some distance from the Lines; a plate of round Iron, or shoe made in the shape of a quoit, with a perforation the exact diameter of the Iron uprights of the Targets, being used in preference, when necessary, but it more frequently happens, that the uprights are merely placed in holes made in the ground for the purpose.

3. Small Iron studs could be attached to the cross bars for the purpose of hooking the cloth to the Targets, viz. five studs in the centre, and one at each end of the upper and lower cross bars, for large sized Targets; and one in the centre, and one at each end of the cross bar would be sufficient for ordinary and Pistol Targets.

Some of the Targets in use with Corps at the Presidency, might, it is suggested, be fitted up in this manner for trial, and reported on by Commanding Officers.

1. Two upright Iron rods, and three cross bars, with six thumb screws, form a Target.

2. The cross bars are made with an eye at each end, through which the upright rods pass, and the whole are adjusted, and kept in their proper position, by means of thumb screws; which are tapped, and fitted to a hole made for the purpose, on one side of the eye of the cross bars.

3. The wooden Sleepers have a hole in their centre, for the Iron uprights to fit into, and support the Targets.

4. The thumb screws should all be made alike, tapped with same sized thread, that they may fit any of the holes indiscriminately, the head flat, and of an oval shape, $1\frac{3}{4} \times 1\frac{1}{4}$ Inch, and the part that enters the hole in the cross bar 1 Inch in length; and the weight of each 3 ounces.

5. These Targets can easily be put together, and taken to pieces if necessary, in a few minutes, with the assistance of a Hammer and Hand Vice, on the ground.

MILITARY BOARD'S CIRCULAR ORDER.

No. LXIII of 4th September 1855.

ORDNANCE DEPARTMENT.

The Military Board call attention to the 22nd and following paras. of Section I of the Ordnance Regulations respecting the despatch of Stores from one Arsenal to another, and request that Ordnance Officers will endeavour to give full effect to the intentions of Government as clearly explained in the Regulations quoted.

The Board observe that since these rules were promulgated, the Order for the formation of Committees of Survey to take over the Stores from the Ordnance Officers proceeding in charge, has been abrogated; and the duty of transferring the Stores now rests between the receiving and delivering Officers.

When differences of opinion, in respect to the state of Stores, or quantities delivered, exist between the delivering and receiving Officer which they cannot settle by personal communication, then an appeal should be made to the Officer Commanding, who will under existing regulations take such measures as he may see fit for adjusting the matter; but where the differences cannot be locally settled, the reports of the delivering and receiving Officers with the views of the Commanding Officers should be at once forwarded to the Board.

The Board have made these remarks in consequence of a recent case where Stores were delivered over deficient in quantity and otherwise defective, one party stating the deficiency to be owing to inaccuracy in Scales and Weights and to temperature, the projectiles having been correct by guage when despatched, but incorrect on arrival; other reasons were also assigned, but only after the lapse of some time when the delivering Officer had left the station, thereby precluding a proper investigation of the matter.

The Board therefore desire it to be understood that all explanations and settlement of differences should be made at the time of delivering over Stores, either between the two parties, or by reference to the authorities.

By order,
A. H. HOPE, *Secretary.*

MILITARY BOARD'S CIRCULAR ORDER.

No. LXIV of 11th September 1855.

ORDNANCE DEPARTMENT.

The Military Board notify that the following allotment of Tools has been recommended by the Superintendent of Roads to be maintained in Arsenals, but Ordnance Officers will observe that as the duration of the several kinds of Tools varies from 4 to 12 months, it will be requisite to lay in accordingly a stock sufficient for 12 months expenditure. For instance as Hand Hammers only last 4 months, the year's stock will therefore be 9,180 × 3 = 27,540; but as Mamoties are serviceable for 6 months, the stock for the year will be 8,300 × 2 = 16,600; and each Arsenal will on this principle arrange its supplies according to the quantities required and the period that each article lasts.

By order,
A. H. HOPE, *Secretary.*

MILITARY BOARD'S CIRCULAR ORDER,
No. LXVII of 28th September 1855.

ORDNANCE DEPARTMENT.

Under authority from Government, the Military Board authorize the issue of Lead Oil for cleaning Percussion Arms in use with Corps to be increased from 2 to 8 Ollocks of Oil for every 100 Stand of Arms; as also an additional supply of 1 Measure for the preservation of Drill Swords, Tools, &c. from rust; the whole to be drawn half-yearly. The mode of preparing the Oil when supplied from Arsenals, will be found detailed in the Board's Circular Order No. XX of 19th October 1852; but the preparation of Oil drawn from the Commissariat Department will rest with Corps, following the practice described in the above Order, the Lead used being Bullets, a few of which will be cut up for that purpose and struck off the Returns as expended for that purpose.

The Board request that Cocoanut Oil be used whenever it can be obtained, as being considered the best description for Arms and Tools; but when Cocoanut Oil cannot easily be procured Gingelly Oil may be substituted, having been frequently used and found to answer well, though not so efficiently as Cocoanut Oil. And the Board would suggest that in many parts of the country other kinds of Oil may be met with, which would answer equally well.

The Board observe that Linseed Oil was formerly used in the Grand Arsenal for preventing rust, and found to be very efficacious for Muskets Kept in store, as it dries soon and forms a coating over the surface, thereby preventing corrosion; it was also found useful in keeping stocks of Muskets from cracking in hot weather, but was discontinued in consequence it is believed of the great liability of the rags used in applying it to spontaneous combustion, and the Board do not therefore wish this kind of Oil to be used, more especially as the Lead Oil has been found to answer well.

The Board also authorize the supply of a small Tin to hold the Oil for each Company, and a Jar or large Tin for the Corps as may be most convenient.

The Board trust that with this liberal grant of Oil, the Musketry of the Army will be maintained in good order, free from rust; and as Lovell's suggestions (page 24 last para.) as to the timely cleaning and oiling of the different parts of a Musket may have been overlooked, the Board here republish it for information.

"At stated periods each half year, the nipples should be taken out and cleaned as described in page 16; on all occasions after exposure to rain during the prevalence of the monsoon, all Arms should be dismounted and the locks and barrels cleaned, to guard against the frequent destruction of Arms from the barrel getting corroded from rain, in consequence of damp lodging between it and the stock—rubbing the inside of the stock with a mixture of oil and wax would preserve the wood and lessen the chances of its cracking when exposed to severe heat. On all occasions of dismounting Arms and taking out nipples, the operations should be conducted under the direction of a well instructed Non-Commissioned and supervision of a European Commissioned Officer."

To clean the Barrel.

"Stop the touch-hole of the nipple (4, *e*) with a little peg of soft wood; pour about a gill of water (warm if it can be had) into the muzzle of the bagrel; let it stand a short time to soften the filth of the powder; put the wooden plug into the muzzle and shake the water up and down the barrel well; pour this out and repeat the washing two or three times until the water comes out clear; take the stopper out of the touch-hole, and set the barrel, muzzle downwards, upon a board or wooden floor to drain for a few minutes.

"Screw the worm (32, *e*) on to the end of the rammer (5, *e*), and put a piece of dry rag or two round it, so as to cover the horns well, and prevent them scratching or scoring the bore of the barrel; wipe the barrel out quite dry, changing or drying the rag two or three times. Then, if necessary, turn out the nipple (4) with the nipple-wrench (32, *e*); in doing this, take care that the wrench (*a*) goes well down over the squares of the nipple (4, *b*), otherwise they will be battered and the nipple spoiled.

"Wipe the nipple clean inside and out, and clean the screw threads in the nipple-seat (1, *b*), and the touch-hole into the barrel, with a rag that has been slightly oiled put on the end of a small piece of wood or a feather; but never use any thing harder than wood.

"When the screw-threads of the nipple (4, *d*) are quite dry and clean, touch them with a small quantity of olive or sweet oil; turn the nipple into the nipple-seat two or three threads of the screw with the finger and thumb lightly, that you may be certain it has entered fair, and then screw it home with the wrench, taking care that no grit or dirt gets between the shoulder of the nipple (4, *e*) and the face of the nipple-seat (1, *b*). Do not put oil in the touch-hole of the nipple (4, *e*), nor leave the hole into the barrel clogged with oil, because this is almost certain to cause the first cap to miss fire. Lastly, put a piece of slightly oiled rag round the worm, and rub the bore of the barrel and the face of the breech-pin (2, *d*) with it, and immediately put the stopper (33) into the muzzle.

"Observe that the breech-pin should never on any account be turned out except by an experienced armourer, with a proper breech-wrench and clamps. Nor should the bayonet-spring (3) ever be unpinned: it may be perfectly cleaned without taking it off if it be kept well oiled.

"The face of the breech-pin (2, *d*) may at any time be rubbed bright by means of a piece of cork fixed on to the worm; touch the end of the cork with oil, and then dip it in finely-powdered brick-dust; put the cork down upon the face of the breech-pin, and turn it round and round with the rammer until the face is bright; then wipe the barrel out clean. If the inside of the barrel is bright and clean, the face of the breech-pin will be seen on looking (in the direction of the light) into the muzzle."

By order,

A. H. HOPE, *Secretary.*

MILITARY BOARD'S CIRCULAR ORDER.
No. LXVIII of 2nd October 1855.

ORDNANCE DEPARTMENT.

The Military Board publish for information the following useful Memorandum kindly prepared for the information of the Board by Mr. Rohde on the most suitable Woods for helves and handles, and request that Ordnance Officers will collect specimens of all the Woods in the vicinity of the several Arsenals proper for helves, handles, planes, &c. and forward to the Board lists thereof, with Botanical and Native names, cost price per cubic foot, and remarks regarding quantity procurable, shewing also weights of helves, handles, &c. as made of the different kinds of woods, and the price at which made.

---

1. It has been suggested that instead of procuring helves and handles from Europe or the Central Arsenal, the same should in future be made up in the several districts, from the Woods most easily procurable on the spot.

Trincomallee Wood--Berrya Ammonilla.

2. There can be no doubt that the Trincomallee wood of Madras ranks high for most of the purposes for *which helves or handles* are required, it is *straight grained, slightly pliant, moderately tough* and very strong, not heavy, and is *not much affected by the atmosphere*, but it is rarely procurable out of Madras.

Black-wood--Dalbergia latifolia.

3. Few Woods surpass the Black-wood sometimes called Bombay Rose-wood; when the close grained stunted variety is used it is well suited for Chissel handles, Mallets, and generally to stand Percussion, and is procurable straight grained for Hammer handles; its weight is however an objection for some purposes.

Nulla Muddi--Terminalia tomèntosa.

4. The Nulla Muddi of the Northern Circars and Cuddapah is also a good wood for the purpose.

Common Dirasana--Katuvagei--Acacia speciosa.

5. The Common Dirasana, Katuvagei, Acacia speciosa is as good as any, and there is scarcely a hedge-row in India in which large trees of it are not to be found.

6. When required straight grained, moderately young wood must be used, or the outer edge of the planks.

Tamarindus Indica.

7. Where great hardness combined with toughness is required, the heart of the Tamarind tree is desirable.

Satin wood--Billoo Kara--Chloroxylon Swietenia.

8. The short crooked pieces of the *Common* Satin-wood (Billoo Kara) are most useful for frames, Saws, &c.; larger pieces of the same I have used for bench screws with advantage.

Gangarani of Telugoos--Poovarasha or Poorasum of Tamils--Thespesia populnea.

9. The Common Thespesia Populnea *Gangarani* of the Telugoos and *Poovarasha* of the Tamils, when not too old is well suited for Tool handles.

Conda Tonghadi--Inga Xylocarpa.

10. One of the best is the Conda Tonghadi of the Circars, the *Inga Xylocarpa*, a good straight grained strong wood, which if I mistake not is now applied to the purpose in England.

Saul--Vatica robusta.

11. Saul if seasoned and well selected would probably be found serviceable, but is found only in Vizagapatam and Ganjam.

Mangrove.

12. The Mangrove is valued in England for handles of squares, &c. where retention of the form is important.

13. To this list very many less known or less abundant Woods might be added. I will only recapitulate the purposes to which the several Woods might be applied.

Dirasana and Rose-wood (Black-wood.)

14. For a Brace I would use *Dirasana* or Rose-wood (Black-wood), and I know very few Tool handles to which these Woods are inapplicable.

Trincomallee, Teak, and Dirasana.

15. For planes I prefer Trincomallee, but *close grained* Teak and *Dirasana* would also answer well.

16. For handles of Chissels almost any hard wood is superior to English beech.

17. Box is a prime wood in England, and I have not yet found any wood altogether its equal; Trincomallee answers many of its uses; Roxburgh speaks of a wood resembling it in use by weavers in the North.

18. Buffalo and Stag's horn are in this country often economically substituted for wood.

19. When Tools are stuck with Iron implements, the head of the handle should be protected from splitting by a ferrule of Brass or Iron.

20. Bent helves as for Carpenter's Axes, may be *split* with the grain from plank of the Chloroxylon (Billoo Kara) or cut with the grain from the Black-wood *(Yerroogudda Chéva Kara.)* The *Tadakara* of the Circars may also be reft for the same purposes; in character though not in colour (which is chocolate) it much resembles the Lance-wood.

The Military Board notify that the Honorable Court of Directors have decided on not sending out from England any more helves &c. for Intrenching Tools &c., and Ordnance Officers are hereby directed to make arrangements for supplying the Arsenals with helves, handles, stocks, and other wooden articles, from the ample sources which exist in the vicinity of the respective Arsenals.

The Board observe that within the vast range of country over which the Ordnance Officers of this Presidency are scattered, viz. from Labuan to Saugor, every variety of wood required for the different purposes to which Timber is applied in the Ordnance service can be obtained. Requests and applications have at various times been made to develope the local resources, but no systematic arrangements have yet been followed in ascertaining the local means actually available for the Ordnance service in respect to Woods. No further time must be lost, and the Board now direct therefore that in every Ordnance Department under their authority, a collection of Woods be forthwith made and Registers opened to be kept in the following form; and with a view of corrections and additions being made from time to time, not more than 5 entries be written on each page of the Register, which is to be formed of the thick paper available in the Arsenals, the quantity used for that purpose being written off in the "Monthly Report."

1. Stamped number on specimen.
2. Exact dimensions in Inches (length, thickness and depth) of specimen.
3. Weights in Avoirdupois ounces as ascertained at different dates.
4. Native names of Woods in the various Native characters.
5. Native names of Woods in English character (when known.)
6. Botanical names (when known.)
7. District in which grown.
8. Locality in which grown with exact particulars.
9. Soil, particulars on which grown.
10. Relative abundance of wood.
11. Native uses to which applied.
12. Durable or otherwise.
13. Specific gravities.
14. Relative degrees of strength.
15. Remarks.

MILITARY BOARD'S CIRCULAR ORDER.
No. LXX of 9th October 1855.

ORDNANCE DEPARTMENT,

The Military Board call attention to the Circular Order No. XVII of 20th March 1855 requiring reports to be made on Tools supplied for Public Works, and point out to Ordnance Officers the necessity of examining Tools prior to delivery from Arsenals for Public Works, as well as for other kinds of service. Some Tools recently issued are stated to be of a very inferior description, especially the Hammers some of which broke the first day; whilst many of the Mamoties broke at the eye, the eyes not being thoroughly welded to the blades, and the Bores and Jumpers were useless until fresh pointed with Steel.

There is no mention as to whether the Tools in question were Europe or Country, or if Country in what Arsenal made up; but the Board believe the Tools to have been of Europe manufacture and it is quite clear that all Europe-Tools if found defective should be made good before being issued from Arsenals, and Ordnance Officers are therefore requested to have a thorough examination made of all the Tools in store, English or Country, and take measures to have them put into an efficient state for use before issuing them.

The Board also request that a set of Tools made up in the different Arsenals may be sent to the Grand Arsenal from time to time; say once in 6 months, with a view to an inspection being made as to their efficiency.

The Board also remind Ordnance Officers that they have already been called on to collect information from Officers of Public Works as to the efficiency of the Tools supplied; also as to improvements in pattern or quality, keeping the Board duly informed of the remarks and suggestions.

By order,
A. H. HOPE, *Secretary.*

MILITARY BOARD'S CIRCULAR ORDER.
No. LXXI of 16th October 1855.

ORDNANCE DEPARTMENT.

The Military Board have for some time past desired to make known to Ordnance Officers the great amount of work done in the Grand Arsenal in manufacturing Tools and Stores of various kinds, and having now received from the Principal Commissary of Ordnance a list of the articles hitherto made up and those which can in addition thereto be undertaken, the Board publish the same for information and guidance, with the request that Commissaries of Ordnance will make known to the Warrant Officers and permanent Artificers that they will perform good service to the State by promoting the manufacture of Tools, and that their services in this duty if well performed shall be brought to the favorable notice of Government.

The Board whilst calling attention to the necessity of good and well-tempered Iron work equal to that of the Europe articles, must point out that the cost should not exceed the English price; and think that, with the excellent arrangements that might be made in Arsenals, every facility exists for making Tools both efficiently and economically, Ordnance Officers are therefore directed to send in to the Board statements of the estimated number and kind of Tools that could be made up in the several Arsenals annually.

By order,
A. H. HOPE, *Secretary.*

By order,
A. H. HOPE, *Secretary.*

PUBLIC DEPARTMENT.

No. 1,238.

Extract from the Minutes of Consultation dated 18*th September* 1855.

Read the following letter from the Superintendent and Agent for Army Clothing.

States that the Superintendent of Stationery has submitted an Indent for thin superfine Navy blue and scarlet for Peons' Belts, and that these Cloths are much needed for Army Clothing purposes, suggests that such Cloths as from age and other causes may not be fit for Army Clothing purpose but suitable for Peons' Belts may in future be used for the latter purpose. Annexes a Memo. of Cloth of the description alluded to and solicits permission for its transfer to the Superintendent of Stationery.

(Here enter 1st September 1855, No. 42.)

The Governor in Council considers it objectionable that the Superintendent and Agent for Army Clothing should be called on to supply Cloth for Peons' Belts and other Office uses; and he directs that henceforward Cloth required for such purposes shall be purchased in the Shops. Applications for Cloth

will like the Indents at present, be submitted to the Military Board; and will be of the nature of an estimate specifying the object for which the Cloth is required, and the quantity, description and probable price. The application or estimate having been passed by the Board, the disbursement will be authorised among the contingent charges, on the passed estimate as a voucher.

The Board direct that in all allotments where minute accuracy is not essential, round or even numbers be adopted as the quantity to be maintained; for instance the Bangalore allotment instead of being 19,97,498 should be considered as two millions.

MILITARY BOARD'S CIRCULAR ORDER.
No. LXXXV of 4th December 1855.

ORDNANCE DEPARTMENT.

The Military Board call attention to the necessity of reporting to the Board the number of Valises furnished to men on embarkation for England, in order that the requisite reports may be made to the Home Government to take over the articles on arrival; and as a failure in this particular will cause a retrenchment against the Corps, the Board hope that attention will be given to this point and publish for information the two Resolutions of Government as below.

Letter dated 21st May 1855 *No.* 67,

With reference to No. 14 of 1855, report the embarkation of Her Majesty's 25th Foot for England from Cannanore on the Ships *"Cheapside" "Mobile"* and *"Standard,"* forward correspondence respecting the disposal of the Arms taken by the Regiment, being those in use with it, and state that the men have been authorized to retain the Valises subject to Court's approval.

12. It is important that we should be kept informed of the Arms, Ammunition, Great Coats &c. taken home by Regiments or Detachments of Her Majesty's Service, such being the property of the East India Company, and that Officers in Command of those Regiments or Detachments should invariably be instructed to forward the Arms &c, to the Company's Stores in Leadenhall-street London, on arrival at the Port of disembarkations.

To be communicated to the Commander-in-Chief, Deputy Adjutant General Her Majesty's Forces, the Military Board and Clothing Department for guidance.

13. The permission granted to the men of Her Majesty's 25th Regiment to retain their Valises is objectionable in principle, and inconvenient as a precedent.
