INDENT DEPARTMENT.

Adverting to para 3 of Circular Memo. No. 4798, dated 4th October 1864, the Inspector General of Ordnance and Magazines requests that all Indents on the Commissariat Department, requiring the sanction of this Department, be submitted in *Triplicate*, instead of in Duplicate as since the above date.

No. III of 26th January 1865.

ORDNANCE DEPARTMENT.

Ordnance Officers are informed that the Government of India has sanctioned the proposals of His Excellency the Commander-in-Chief in India regarding Gauges for Shot and Shell; *viz.*

Proceedings of Government No. 106, dated 11th January 1865.

1*st.* That the Indian low Gauge, termed the "unserviceable" Gauge, be abolished, and that all Shot and Shell which will pass through the English low Gauge be condemned.

2*nd* That for all Iron Ordnance in India, the bore being of the same diameter as in England, the English high and low Gauges be introduced, and for 9 and 6-Pounder-Guns the English Gauges adopted.

3*rd* That as it appears the Calibres of 24-Pounder and 12-Pounder Howitzers, Indian pattern, are somewhat less than those of the corresponding English Howitzers, the Indian Gauges for those pieces be adhered to.

ORDNANCE DEPARTMENT.

*Extract from Circular Memorandum addressed to General Officers Commanding at Home and Abroad*

HORSE GUARDS, S. W., *21st June* 1864.
LABORATORIES,
(1) 1864.

**General Number 302.**

The following Rules and Regulations for the guidance of Laboratory Parties are published for general information, and are to be strictly adhered to at all stations at home and abroad, viz. :—

No Laboratory operation which involves risk of an explosion is to be carried on within a distance of 400 yards from a magazine in which large quantities of Gun-powder are stored.

Only steady and intelligent men are to be employed on Laboratory work, and the preference is to be given to those who have passed through a course at Woolwich.

No accumulation of Gunpowder or other explosive material is to be allowed *on any* account in the Workshops, or in close proximity to the Laboratory buildings. A small expense magazine, *in a safe position*, is to be provided; the stores are to be drawn from this magazine, *in small quantities*, as required, and the finished work is to be returned to the magazine in the same way. This is a most important point, for, notwithstanding every precaution, an accident may occur.

All the arrangements should, therefore, be made with a view to reduce, as far as practicable, the amount of explosive or combustible material, in a building at any one time, where Laboratory operations are being carried on.

The destruction of combustible stores by fire, or by breaking up, is, on no account, to be effected within the precincts of a Laboratory.

By Command OF HIS ROYAL HIGHNESS
*The Field Marshal Commanding-in-Chief.*

(Signed) JAMES YORKE SCARLETT,
*Adjutant General.*

(True Extract.)

I. J. HATHORN, *Captain,*
*Asst. to Inspr. Genl. of Ordce. and Magazines*

No. VI of 8th February 1865.

ORDNANCE DEPARTMENT.

The Inspector General of Ordnance and Magazines calls the attention of Ordnance Officers to G O. C. C. No. 121 of 23rd December 1864 and publishes extract from a letter from the Government of India to the Madras Government, recorded in the Proceedings of Government No. 4538, of 11th December 1864, on the subject of condemning Rifles.

1. "The rules laid down in General Order by the Commander-in-Chief, Madras, No. $\frac{1}{62}$, "dated 24th December 1861, are taken from the Circular just referred to; but "the Deputy Inspector General of Ordnance, Fort Saint George, has pointed "out, in his letter to the Controller, No. 4627, dated 20th September last, that "from the wording of paragraph 5 of that General Order, it would seem to "be at the option of the Annual Committees whether the shooting test should "be carried out or otherwise".

2. "This is a mistake; as the test in question is ordered to be always used when the "shooting of Rifle is suspected; and in no case should any Rifle be condemned "on account of its being over guage or of the Rifling being worn away, with-"out being so tried and found defective."

No. VII of 13th February 1865.

ORDNANCE DEPARTMENT.

In continuation of Circular Memo. No. 7253, of 19th December 1864, the Inspector General of Ordnance and Magazines publishes the following List of Files which will be maintained in Store for the use of the Ordnance Department.

2. The several descriptions of Files at present on the Stock Book number 292, which by revision has been reduced to 82.

3. The sizes remaining in store which, by this order become obsolete, may be transferred to the next sizes higher or lower of the same description, thus Files flat rough 15 Inch will be transferred to Files Flat rough 14 Inch, and Files which are in excess of 2 years requirements, may be sold by Public Auction and so eliminated from stock.

4. The distinguishing numbers prefixed to the Files are always to be noted, as it is by these numbers that Contracts for supply are entered into by the Right Honorable the Secretary of State.

5. The whole of these Files 82 need not be retained in any of the out-station Arsenals, and for the particular guidance of Ordnance Officers a List of those Files most suitable for Batteries of Artillery and Regiments of Infantry, follows the General List

ORDNANCE DEPARTMENT.

With reference to the Proceedings of Government No. 466 dated 5th April 1864, the Inspector General of Ordnance and Magazines directs Ordnance Officers to forward to the Arsenal Fort Saint George, by the earliest opportunity offering, all repairable Cats-o-nine tails, returned into store by the Judges and Magistrates of the several Districts.

2. The Commissary of Ordnance Fort Saint George has been instructed to despatch to out station Arsenals and Magazines, and Depots, new supplies of Cats-o-nine tails to enable Commissaries of Ordnance to comply with requisitions for the same.

3. By the above arrangement, indents for the article in question may be made by Judicial Officers on the nearest local Arsenal, instead of as heretofore on the Arsenal, Fort Saint George.

4. Supplies of Cats-o-nine tails will invariably be made up in the Grand Arsenal, where, also, all repairs to those returned into store, will be executed.

ORDNANCE DEPARTMENT.

The Accompanying Circular Memorandum No. 53, dated 7th January, 1865, of the Military Account Department, is forwarded for information and guidance of Ordnance Officers, in checking Indents for articles which have to be supplied, renewed, or repaired, from the Gun Contingent Allowance drawn by Battery Officers.

# MILITARY ACCOUNT DEPARTMENT.

## CIRCULAR MEMORANDUM.

No. 53.

For the information and guidance of Officers Commanding Batteries of Artillery, and in conformity with existing rules in Bengal, the following instructions are published, with reference to Circular Memorandum No. 211 of 15th December 1862, authorizing payment to the Artillery of this Presidency of Gun Contingent and other allowances.

1. All Charcoal, Iron Leather and Steel. required for repairs, together with Tar, Grease, and Oil are to be provided out of the contract allowance.

2. Gun-bits, Strap-buckles for side Arms, Gun drifts, Esses, Felloes, Linch-pins, Match-sockets Match-loops, Wooden Naves of Wheels, Port-fire Sockets, Port-fire Nippers, Handles for Tools, Spokes, Board Seats, Rammer-heads, Yokes, Washers, Wad-hooks, Priming-wires are to be repaired and renewed from the Contract allowance, from which allowance also Wheels should be kept in the most efficient state of repair.

3. Felling-axes, and all Tools, immediately attached to the Ordnance Ammunition Boxes, Store Limber-boxes, Chains, Drag-ropes, and Metal Naves of Wheels are to be repaired at the expense of Battery Captains, but renewed from Magazines at the expense of Government.

4. The expenses of all repairs to framing and other wood-work that can be executed by Artificer Establishment on the spot are to be defrayed from the Contract allowance; the Contingent allowance is expected to provide for every repair required to Carriages however extensive. Articles required from Magazines for repairs will be supplied on Indents sanctioned by the Inspector General " on payment."

5. Planking, and all material for wheels and for repairs of wood-work, which can be executed by Battery Artificers, are to be supplied by Captains. The marginally noted items, are included under this category, and all articles required for repairs (except those, the failure or breaking of which would render the Carriage unserviceable, such as Beams and Cheeks) such as Iron, Steel, Fuel, Screws, with extra labor if needed, and everything required in the workshop, must be provided for out of the Carriage Contract allowance.

Framing of all kinds.
Foot-boards.
Splinter bars.
Planks, Sissoo and Saul.
Poles.
Axletree beds (Field Carriage.)

6. All repairs of iron work of every description within the capability of the Establishment of Regimental Artificers, must be executed at the expense of the Captain, who should also supply the requisite material. But these repairs are necessarily limited, and do not include repair of a broken axle, or the renewal of an elevating screw, the latter requiring the action of a lathe. The cost, however, of all possible repairs to these and every part of the iron work of the Carriage, and also of the renewal, when necessary, of the smaller articles, must be borne by the Contingent allowance.

7. Committees, authorized by Regulation to report on Carriages requiring extensive repairs, will decide whether the needful repairs to axletrees, limber-hooks, trail and trunnion-plates, can be effected by the Regimental Establishment; if not, the articles having been condemned, should be obtained upon Indent, and re-placed by Government.

8. Elevating screws also, when injured beyond repair, are condemned and replaced by Government.

9. Captains are held responsible that their Carriages and all Equipments are kept in a perfect state of efficiency; on delivering them into Store, they will be held liable for all deficiencies in repair or equipment.

10. All articles of equipment not enumerated in the accompanying List are Battery Stores, subject to periodical survey by a Board agreeably to Regulation. Those enumerated are liable to be broken or injured in ordinary daily use, and require constant repair or renewal, which could not be done at Magazines without considerable trouble and inconvenience to the service.

11 A List is annexed, showing, in detail, the articles to be supplied, renewed, and repaired out of the Contract allowance.

From the Officiating Secretary to the Government of India, Military Department, Fort William, 31st August 1864, No. 708 ; to the Secretary to Government, Military Department, Bombay.

With reference to your letter, No. 59, of the 8th instant, forwarding copy of a General Order, granting Major Cochrane, of Her Majesty's 7th Royal Fusiliers, Brigade Major, Saugor, 20 months sick leave to Europe, I am directed to point out, for the information of His Excellency the Governor in Council, that the practice observed in this Presidency in the case of *British* Officers, is to allow them leave to England, to appear before a Medical Board, without specifying any period for which leave is granted, in the same manner as such Officers obtain leave in orders issued by His Excellency the Commander-in-Chief.

*Holding Staff appointments.*

From the Secretary to Government, Military Department, Bombay Castle, 8th September 1864, No. 2428 ; to the Secretary to the Government of India, Military Department, Simla.

Referring to my letter, No. 59, dated 8th August last, reporting the grant of a furlough on Medical Certificate to Major Cochrane v. c. Her Majesty's 7th Fusiliers, Major of Brigade, Saugor, I am directed to acquaint you that, on the suppositions of the course pursued in this instance being incorrect, the G. G. O. granting the furlough was cancelled. Subsequently on Secretary Major Burne's letter, No. 832, dated 31st December last, in the case of Captain Henchy, Royal, (Madras) Artillery, being brought to notice, it appears doubtful whether the orginal procedure was not correct, and I am desired to inquire whether leave on Medical Certificate to Officers of Her Majesty's British Regiments holding Staff appointments should be granted by the Government or the Commander-in-Chief.

From the Officiating Secretary to the Government of India, Military Department, Fort William, 29th October 1864, No. 699; to the Secretary to Government, Military Department, Bombay.

With reference to your letter, No. 2428, of the 8th ultimo, I am instructed to acquaint you, for the information of His Excellency the Governor in Council, and for future guidance, that the practice observed in this Presidency, is for the Government to grant leave to Europe to such Officers of the British Service as proceed with retention of Staff appointments; the order granting the leave being worded in the manner pointed out in the letter from this Department, No. 708, dated 31st August 1864.

*PROCEEDINGS OF THE MADRAS GOVERNMENT*

Read the following papers :—

From the Secretary to the Government of India, Military Department, Fort William, 21st November 1864 No. 669 ; to the Officiating Assistant Adjutant General.

With reference to your letter, No. 1029, of the 12th instant, I am desired to acquaint you, for the information of His Excellency the Commander-in-Chief, that as all Officers, whether of the British or Indian service, holding Staff appointments in India, and retaining these appointments whilst on leave to Europe, must obtain such leave from the Government in Government General Orders, it appears to the Governor General in Council desirable that they should obtain leave under the same terms, and for such periods, as may be fixed by the Medical Committee, in accordance with the rules laid down in the new Furlough Regulations.

2. British Officers proceeding on leave to England as Staff Officers with retention of appointment, should appear therefore before the same Board as Indian Officers similarly situated, *viz.*, the Army Medical Board at the Presidency.

---

From the Officiating Assistant Adjutant General, Calcutta, 12th November 1864, No. 1029; to the Secretary to Government of India, Military Department, Calcutta.

I am directed to request that you will move the Government to favor me, for the information of His Excellency the Commander-in-Chief, and for future guidance, with definite orders regarding the conditions on which Officers of the British Army holding Staff appointments in India are to obtain leave to England on Medical Certificate, with retention of their appointment.

Uncertainty is at present felt on this point from the fact of there being two Medical Boards at the Presidency; before either of which, under existing Regulations, an Officer of the British Army in Staff employ proceeding Home sick may present himself.

One, the Army Medical Board which grants Officers who appear before it definite periods of leave in accordance with the new furlough rules, and the other the Queen's Troops Board, which is debarred recommending any specified period, but merely orders Officers to England where their cases are further reported on by the Board in London, and leave is granted on that recommendation under the orders of His Royal Highness the Field Marshal Commanding-in-Chief.

The point which I am therefore to submit for consideration and orders solves itself into ..

"Before which Board at the Presidency (the Army or the Queen's Troops) is an Officer of Her Majesty's British service in Staff employ to appear before proceeding to Europe on sick Certificate."

ORDNANCE DEPARTMENT.

The following Instructions are published for the guidance of Ordnance and Artillery Officers, in making up Royal Artillery pattern Cartridges.

2. Patterns filled with saw-dust, will be deposited in out-station Arsenals, for reference and guidance

3. Particulars regarding these Cartridges are given in the Table at page 144 of the Hand-book for Field service 1862; but the Cartridges for the Guns in use in India, will not be quite so long as the English ones, there being ¼lb. of powder less in them.

*Instructions for making up Royal Artillery Pattern Cartridges for Light Field Guns, as made up at the Royal Laboratory, Woolwich*

Use a Copper needle with three ply of worsted; after the Powder is in the Cartridge, draw up the end of the bag in folds, pass the needle thro', from end to end coming out at the seam close to the powder; take three turns of the worsted round the hole, then four stitches under and over the turns, round the choke, after the last stitch, pass the needle down the seam through the powder to ½ ⅓ or ¼ of length of Cartridge, according to number of hoops required; take one turn round the Cartridge, secure this turn with stitches, like the Choke at a needle's length apart, thus forming and securing the 1st hoops; then pass in the needle down the seam again, and form the other hoops in like manner. All Cartridges for Guns above 6 Pdr. Howitzers above the 12 Pdr. and Mortars above the 5½ Inch, have three rows of stitches in the seam and serge over lapping one inch; the rest have serge over-lapping ⅞ of an inch, and only two rows of stitches as a General rule for Iron Guns, the number of hoops round the Cartridge correspond with the number of rows of stitches in the seam, but with Brass Ordnance, the 9 Pdr. and 6 Pdr. Gun Cartridges have two hoops, and the 12 and 24 Pdr. Howitzer Cartridges have only one hoop. The choke and hoops ought all to be made with one needleful of worsted, and the choke of every Cartridge ought not to exceed ½ an Inch in length.

ESTABLISHMENT DEPARTMENT.

Some doubts having arisen as to whether a Commissary of Ordnance has the power of discharging a Native Artificer from the service, the Deputy Inspector General of Ordnance and Magazines republishes the letter from Military Board No. 96, dated 27th May 1839 to the Officer Commanding Hyderabad Subsidiary Force in order that it may be generally known, that all Ordnance Officers above the grade of Conductor in charge of Arsenals or Manufacturing Establishments, are empowered to discharge Native Artificers, who are not entitled to Pension, and to entertain others in their stead, on their own responsibility.

"Having submitted to the Military Board letter from the Commissary of Ordnance "Hyderabad Subsidiary Force dated 11th, under your countersignature of the 15th Instant, "I have the honor under their Orders, to state that the Commissary is at liberty to discharge, "and replace Artificers at his discretion, and on his own responsibility."

2. The Inspector General expects that the general authority vested in Ordnance Officers will not be misapplied, but that Ordnance Officers in using their discretion, will satisfy themselves that there are just and sufficient grounds for the discharge of a Native Artificer; and that the measure is not to be resorted to unless severe punishment, or an example for the good of the public service, is needed, or the Artificer is incapacitated from work.

Ordnance Officers will, as soon as practicable after the receipt of this, report, whether if supplied with rivets, or copper bolt to make them with, they will be able to affix bottoms to shot and shell, instead of as at present, receiving them already bottomed from the Grand Arsenal. ORDNANCE DEPARTMENT.

Officers Commanding Native Infantry Regiments having the Brunswick Rifle in use, are informed that His Excellency the Commander-in-Chief, taking into consideration the very unfavourable reports received regarding the efficiency of the Conical Bullet at present used, considers it advisable to revert to the Spherical Ball (belted) which was orginally intended for this Rifle.

As soon as Ordnance Officers are ready to exchange ammunition, Indents may be passed by Officers Commanding Divisions on "emergency."

Ordnance Officers will melt down "Gubbins Bullets" as received in store & bring on moulds as obsolete.

ORDNANCE DEPARTMENT.

Government having directed the discontinuance of detailed accounts, shewing a separate record of materials expended and Workmen employed in the repair of each Article, [as shewn in the Material Reports of Arsenals, Magazines and Depôts] when the aggregate cost on such account falls under Rupees 50, the expenditure will in future, on these services, be grouped together under a general head of "Petty Repairs."

2 When the cost of repairs during the month exceeds the value above stated the expenditure will be shewn separately.

3. When repairs are executed to Arms, Accoutrements, Carriages &ca. returned into Store by Corps, and Battery Officers who draw Contract and Gun contingent allowances, Statements in detail shewing the Stores issued, and workmen employed, on the above account, should be furnished to the Examiner of Ordnance Accounts agreeably to Circular Order No. 9768, of 15th April 1863, and the entries shewn separately in the Material Reports.

4. Repairs of Articles when executed for Civil Departments, should also be separately exhibited in the Material Reports.

5. The object of these arrangements is to simplify and reduce clerical labor; but it is not intended thereby to diminish the responsibility of Ordnance Officers, who are required to exercise the strictest scrutiny over expenditure, and to be careful that the materials used and the labor employed, are not in excess of the actual requirements.

No. XXII of 1st April 1865.

ORDNANCE DEPARTMENT.

In assimilation with the practice in Bengal, the Madras Government, under their Order No. 910 dated 7th March 1864, have determined that the Ordnance Department shall make its own arrangements in future for the supply of Stores required, obtaining locally those that can be so procured of good quality and at reasonable rates, and indenting on England for the remainder in the usual way.

2. The following arrangements will therefore be carried out for the year 1865-66.

3. For the supply of articles of Petty Stores, Officers will take measures for obtaining them locally in the most economical manner.

4. It is expected that Officers will appreciate the facility afforded to Departmental operations by placing within their control this important branch of their functions, and that they will prove, by the economy, punctuality, and quality of the material procured, the advantage to the public service resulting from this concession by Government of the great principal of making the Department responsible for, and dependent on, its own proceedings only.

5. Ordnance Officers will invite tenders for the supply of Petty Stores as entered in their respective estimates for the Official year 1865-66 at once.

6. The invitation should be made as widely known as possible, by advertisement in any Newspaper, or similar publication, that may be circulated in their own, or contiguous stations, as well as by printed hand bills posted at places of public resort.

7. The division of the Stores into classes, with a view to the persons dealing in, or manufacturing, such or similar articles tendering for the supply, is left to such arrangements as a knowledge of the parties tendering, and of the resources of the District &ca. may suggest.

8. On tenders being received and dealt with in accordance with the Advertisement, Ordnance Officers will forward them, together with a general Abstract of all Tenders received, to the Office of the Inspector General of Ordnance, intimating at the same time, the tender which they would recommend for acceptance, stating reasons for the selection, or, if the division of any articles of supply, between any number of Contractors is considered advisable, the reasons should be notified.

9. As soon as intimation is given that a tender has been approved in this Office, the Contract deed should be signed and sealed by the Contractor before two witnesses, and immediately forwarded for the signature and seal of the Inspector General of Ordnance, accompanied by an acknowledgment of the receipt of the security money lodged by the Contractor.

Previous orders on the subject having, apparently, in some instances, been misunderstood, the Inspector General of Ordnance and Magazines now directs that all Enfield Rifle Ammunition of the *large diameter* ball, and all Enfield Rifle Ammunition of *Madras Musket* powder (if any remains) in store, are to be broken up, and a report of quantities so broken up will at once be furnished to this Office.

2. A statement exhibiting Rifle Ammunition (i. e. English Rifle Powder prior to June 1864, and Madras *Rifle* Powder made since June 1864) remaining in store, and the quantities still required to complete allotments, will accompany the report above called for.

No. XXV of 19th April 1865.

ORDNANCE DEPARTMENT.

Complaints having reached the Inspector General of Ordnance and Magazines, that in some instances the Percussion Cap with smaller top adapted for the smooth bore Native Infantry Musket, has been issued to British Regiments armed with Rifles

instead of those of a larger size specially adapted for that weapon, the Inspector General of Ordnance and Magazines directs that Ordnance Officers will immediately take the precaution of examining the Caps in store, and carefully separating the two descriptions of Caps referred to.

2. Caps manufactured and despatched from the Grand Arsenal after 1st January 1860, are to be reserved for issue to British Regiments; and the old stock previously received, will be issued to Native Infantry Regiments.

3. The large Cap is suitable, it will be observed, for all small Arms, and when the Stock of old Pattern Caps is expended, will alone be issued for all Regiments, Native as well as British.

# Circular Orders by the Inspector General of Ordnance and Magazines.

No. XXXVI of 19th June 1865.

ORDNANCE DEPARTMENT.

In order to obviate the charge of detention Batta in consequence of the non-arrival in proper time of stores despatched by Rail, Ordnance Officers are requested to adopt the following course.

(*a*) Previous to the despatch of large consignments of stores by Rail the Commissariat Officer, at the station to which they are to be conveyed, should be asked to intimate the day on which carriage will be ready to receive the stores, and on receipt of such information it should be communicated to the Railway authorities, so that the whole consignment may be transmitted at once and in due time.

(*b*) In ordinary cases it will not be necessary to inform the Railway authorities on what day the goods despatched should be at the station, where they are to be met by other carriage, it being sufficient if the Commissariat Officer state, a few days previously, when the carriage will be ready.

No. XXXVIII of 30th June 1865.

ORDNANCE DEPARTMENT.

The Inspector General of Ordnance and Magazines publishes the following order of Government, for the information and guidance of Ordnance Officers in continuation of Circular Memo No. 859 dated 5th June 1865.

JUDICIAL DEPARTMENT 11th April 1865 No. 567, Order. The Governor in Council is of opinion that, both for the reasons given by the Registrar General of Assurances at Bombay and for the better protection of the interests of Government the Registration of Assurances to which the Government is a party, and the Registration of which is optional, should be the rule. He also considers the provisions of Section 51 of the Act should be carried out, as respects such instruments whenever they may be applicable.

---

No. XXXIX of 19th July 1865.

ORDNANCE DEPARTMENT.

I beg to acknowledge the receipt of your letter * * * and to observe that, I delayed reply until the receipt of certain Forms from the Commissary General.

2. As this is the first occasion on which, under the new system, Tenders for supplies have been received by Ordnance Officers, I was prepared to learn that possibly some difficulties had been experienced in dealing with them, but certainly was not prepared for the grave irregularities which have taken place in this matter.

3. It is not to be expected that the Contract system can be worked with advantage, unless it be carried out with the most perfect good faith, and in a manner to create confidence in the class who are prepared to come forward to furnish supplies.

4. Referring to para 1 of your letter, I must impress upon you the necessity of the strictest adherence to the Forms of your notification. If the time appointed for opening Tenders was 12 noon, then no Tender should have been received after the last stroke of the clock; and there are sufficient reasons for this course, for in a very great number of cases there are parties who keep back their Tenders, till they have learnt what the lowest tender received before 12 may be, and then, on the spot, alter their Tenders some fraction lower than the rates tendered. You will perceive how unjust this course is to the fair Trader, who puts in his tender by the appointed time, and is successful or unsuccessful according to the rates entered therein.

5. Now it is impossible to avoid the suspicion that more than one of the Tenders, submitted by you have been altered, as alluded to above. Look at the erasures, the interlineations; the erasures, making the papers almost illegible; and the wretched nature of the paper in which these instances occur, is favorable to such a proceeding. All Tenders should be written on foolscap or other good paper, and rates entered in figures and writing, and any alterations vouched by the initials, or name of the party tendering.

6. I cannot too distinctly state that, if at any time it comes to my knowledge that any Clerk employed in an Ordnance Office, be he who he may, is guilty of collusion with parties tendering for contracts, I will summarily dismiss him the Public Service, and if he be any Arsenal subordinate I will bring him to Court Martial.

7. I now pass to para 4 of your letter, and I beg that in future the strictest adherence to Form be enforced; and as you gain experience in the working of the contract system, the necessity of this course will be obvious. One of the reasons for adherence to Form is, that all Tenders may be expressed in the same manner, so that no open point of doubt between the *meaning* of two Tenders in different forms, may be left possible.

8. Para 6 of your communication states that the Tenders received were closed with gum or paste. Your notification calling for Tenders should state that Tenders are to be *sealed* with *wax*. Tenders fastened with gum or paste may be regarded with suspicion.

9. The rule in the Commissariat Department, and the rule is a good one, is that the Senior Officer alone receives the Tenders, and opens them at the appointed hour, in the presence of the next Senior Officer of the Department, and in the presence, if they please to attend, of the parties tendering.

10. A Register, in the form attached, should be sent to the Inspector General's Office exhibiting the names and rates of all parties tendering, whether successfully or not, together with your reasons for recommending any particular Tenders in preference to others.

No. XL of 26th July 1865.

ORDNANCE DEPARTMENT.

It having come to the notice of the Inspector General of Ordnance and Magazines that in a recent instance the Warrant Officer proceeding in charge of stores to a station was not present when such stores were being packed, and did not affix his initials to the List of contents contained in each package, it is directed that in every instance of stores being despatched from one Ordnance Establishment to another, the person proceeding in charge must *himself* see the stores packed, and affix his initials to the List put up with each package, in attestation of being aware of the contents, for the due delivery of which he is personally responsible.

No. XLI of 26th July 1865.

BILL DEPARTMENT.

With reference to form D* attached to Circular Memo. No. 859, dated 5th June 1865 the Inspector General of Ordnance and Magazines informs Ordnance Officers, that it is not necessary to attach the passed Bill to the Account Current furnished to the Examiner of Ordnance Accounts. The entry of the date when the Bill was sanctioned as provided for in the above-mentioned form, is sufficient for the purposes of the Examiner's Department, in noting the adjustment of advances drawn.

* Account Current of Cash received under sanctioned Estimate for the year.

In future notifications, inviting Tenders, Ordnance Officers will be careful to insert the word *sealed* before the word Tenders, thus "Notice is hereby given that sealed Tenders will be received &ca," A fresh copy of form (F) is annexed.

Form F.

Ordnance Officers are requested to furnish the Inspector General of Ordnance and Magazines with any suggestions they may have to offer on the working of the new system of obtaining supplies locally; their suggestions should be despatched by the first week in December 1865, to allow of ample time for the preparation of a full and revised set of Rules on the subject, being prepared before the close of the official year.

ORDNANCE DEPARTMENT.

The following Order of Government is re-published for general information in the Ordnance Department.

*Order of Government, Public Department, 26th July* 1865, *No.* 792.

The Governor in Council is pleased to notify that, subject to the provisions contained in this order, all Government servants in receipt of salaries amounting to 100 Rupees and upwards, are entitled to the attendance of the Medical officer of the station or district, at their own houses in cases of illness such as to prevent their consulting the Medical Officer at his house. At the Presidency, where the duty of attending on this class of Public servants would bear very heavily on Medical Officers, and where suitable accommodation or Medical treatment is available on payment of very moderate charges, in the General Hospital, (of which for their own sake, it is desirable that Government servants should avail themselves) such Government servants are decline to avail themselves of these advantages, will, as heretofore make their own arrangements for Medical attendance.

There will no doubt, be cases in the interior, of not unfrequent occurrence in which it will be proper for the Medical Officer to visit at their houses, Government servants in receipt of salaries under 100 Rupees. The Governor in Council prefers trusting to the good-sense and good feeling of the Medical profession, to attempting to lay down any precise rules for such cases.

It is to be distinctly understood, that Medical Officers will not be expected to attend Government servants in their own houses, *unless the patient is unable to wait upon* the Medical Officer, either at his house, or at such place and time as, having due consideration for the condition of the servant and circumstances of the case, may be appointed.

Uncovenanted servants intending to apply for pension, who are required to produce Certificate after having under you a course of Medical treatment, and who are able to carry on their Ordinary business, will also be required to wait upon the Medical Officer. Subordinate Government servants in stations in which there may not be proper Hospital accommodation, will be visited in the first instance by the Medical Subordinate, and afterwards by the Surgeon should the case be reported as serious.

Read the following papers :—

From the Officiating Secretary to the Government of India, Military Department, Fort William, 4th August 1865, No. 91 ; to the Secretary to Government, Military Department, Bombay.

In reply to your letter, No. 1823, dated 9th June last, I am directed to acquaint you that in this Presidency, a Warrant Officer admitted to pension as a Non-Commissioned Officer, is held to be entitled to passage to England for himself and his family, just as if he had not risen to the Warrant grade : and the Right Honorable the Governor General in Council is of opinion, that this rule should obtain in the three Presidencies.

2. But His Excellency in Council regrets his inability to accord sanction to the recommendation in the 2nd paragraph of your letter, that "free Charter Party passages in Troop Ships as a Non-"Commissioned Officer for himself and family, be substituted for the regulated allowance of Rupees "eight hundred, in any case in which a Warrant Officer's necessities may make it preferable ;" as, although the cases in which such an allowance is claimable are very few, any alteration of the existing rule, which grants a fixed sum towards the Warrant Officer's passage, appears to the Government of India to be unadvisable.

**Complimentary Order C. Brig. R. H. A.**—No. 1.—The following Extract from General Orders by His Excellency the Commander in Chief in India, is republished :—

*Head Quarters, Camp Meerut, 6th December* 1864.

The departure of the Head Quarters and A and B Batteries of C Brigade, Royal Horse Artillery, formerly the 1st Brigade of Bengal Horse Artillery, for England, offers the Commander in Chief in India an opportunity, of which His Excellency gladly avails himself, of recording his appreciation of the long and honorable service of the Royal, late Bengal, Artillery in this Country.

The Batteries of this distinguished Corps have taken part in every action by which our dominion in Bengal has been created and established; and their conduct has been conspicuous for gallantry, and for all the high qualities of British Soldiers.

Their services have not been entirely limited to India; one of the very Batteries now about to embark having been employed, at the beginning of the century in Egypt, in co-operation with the Royal Artillery.

His Excellency has every reason to be pleased with the efficiency and the discipline of the two Batteries, now on the point of embarkation. He especially values and thanks them, as well as the noble Regiment to which they belonged, for the excellent spirit which they have displayed whilst under his Command, in uniting themselves in feeling and system with the now one Royal Regiment of Artillery.

Sir Hugh Rose, in bidding farewell to the Head Quarters C Brigade, and the Batteries now about to embark, feels that he can assure them of a warm welcome from their brethren in arms at Home; and he is as confident that, should occasion arise, they will distinguish themselves, be the quarter of the world where it may, as much as they have already done for a century in the East.

# GENERAL ORDERS

## By His Excellency the Commander in Chief.

ADJUTANT GENERAL'S OFFICE FORT SAINT GEORGE, 19th January 1865.

**Fuel. Barracks and Hospitals.**—No. 8.—The following Extract from General Orders by His Excellency the Commander in Chief in India, is with the sanction of Government, republished and made applicable to this Presidency :—

2. The two Seers referred to in para. 6 are equal to 4 lbs. avoirdupois.

3. The scale of Fuel has been modified to adapt it to this Presidency.

*Head Quarters, Camp Nowshera, 30th January* 1864.

The following instructions relative to the issue of fuel to troops at certain Stations are, with the sanction of Government, published for information and guidance in supercession of all previous orders on the subject :

1. The subjoined scale of fuel for Barrack and Hospital fire-places is also applicable to Guard Rooms, and all Buildings attached to European Lines in which fire-places are constructed.

2. In establishing these maximum quantities, it is to be understood that it is not considered essential that the full scale of fuel should *each day* be issued without reference to local circumstances, therefore to ensure a due attention to the interests of Government, as also to provide for the actual comfort of the Soldiers, it is directed that the daily or weekly indents furnished by Regimental authorities must certify that the quantity indented for is absolutely necessary for the use of the men, and that the whole of the previous days' supplies have been used *bonâ fide* solely for the purpose for which they were intended by Government, and any surplus remaining unconsumed is to be carried to account the following day.

3. With more strict attention to the actual necessity for burning fires at such times only as they are absolutely requisite, and placing the wood authorized for each fire place under the care of a selected Non-Commissioned Officer or Soldier, it is believed that the sanctioned allowance will fully secure the utmost comfort to the European Soldiers in Barracks where the climate in the cold season renders this indulgence generally requisite. The attention of all Officers Commanding European Troops at Stations where the issue of fuel is authorized is called to the necessity of carefully economising the supply authorized.

4. Fuel is to be indented for only when the lighting of fires is considered actually necessary by the Regimental and local authorities.

5. The use in any Government building of pieces of firewood exceeding 18 inches in length is strictly prohibited, when they exceed this size they are not to be received from the Commissariat Department.

Fuel for Hospitals.

6. In all ordinary circumstances where the number of patients is twelve or more, the allowance of firewood shall be restricted to two seers per man, per diem.

7. In cases where the number of patients is less than twelve, or where (in the hills or other places) the firewood supplied is not tolerably dry and good, two and a half seers per man per diem may be allowed, or even three seers if necessary,—but the cause which renders the increase necessary, must be certified by the Medical Officer at the time, and the reason why better fuel cannot be, or is not supplied, is to be stated, in order that the increased expenditure may be passed by the Examiner of Medical Accounts.

8. In the case of outbreaks of epidemic disease, or other extraordinary circumstances, no fixed limit can be either assigned or observed, but in such cases the Principal Medical Officers will certify to the necessity of the extra expenditure which may be incurred, stating distinctly all the circumstances of the necessity for such increase.

It is to be noted that the experience of Medical Officers has proved that the expenditure of firewood in hospitals may by proper care be generally, and often considerably, reduced below the limits laid down in the following Scale, and it will be the duty of all Medical Officers to pay close attention to the economical use of the firewood which is issued for the use of the patients under their care.

# GENERAL ORDERS

## By His Excellency the Commander in Chief.

ADJUTANT GENERAL'S OFFICE, FORT SAINT GEORGE, 14th February 1865.

**Discharge Documents.**—No. 17.—The following Circular by the Adjutant General, Bengal, is republished for information and guidance:—

*Circular to Officers Commanding Regiments of British Cavalry and Infantry, and Batteries of Artillery in Bengal.*

No. 116.

E.

Discharges.
MEMO.

ADJUTANT GENERAL'S OFFICE,
HEAD QUARTERS, SIMLA,
9TH SEPTEMBER 1864.

The present Memorandum, being a Compilation of Orders issued from time to time, is drawn up principally for the use of Boards convened to prepare Discharge Documents, and will be placed on the table for their information on each occasion of assembly.

Attention to the several points brought to notice therein will enable them to avoid mistakes which are of very frequent occurrence and entail on the men for discharge much inconvenience through their detention at the Ports of embarkation, besides imposing on the Commandants of the Invalid Depôts a heavy, but wholly unnecessary, increase of labor in correcting inaccuracies.

The Commander in Chief will notice every instance where carelessness or disregard of existing rules, is brought to his notice, and the Commandants of the Invalid Depôts are hereby requested to report each and every instance of inattention to existing rules and regulations for his information.

Commanding Officers will ascertain before affixing their signatures to the proceedings of Boards and Parchment Certificates, that the respective documents have been correctly filled in, they will also see that such parts of the following orders and instructions as may concern them have been carefully attended to—

1. "Frequent remarks on carelessness and omissions in the preparation of discharge documents having been made by the Adjutant General Horse Guards, the Commander in Chief is again compelled to call the attention of Officers Commanding Regiments and Brigades and Batteries of Royal Artillery to irregularities and omissions in the discharge documents of Soldiers, which cause serious inconvenience to the public service, and endless trouble to Departments and evince a great want of supervision and attention on the part of Commanding Officers and Adjutants.

Standing Orders Q. T. p. 11 of 1863.

2. The principal omissions and irregularities are:

*Proceedings of Regimental Boards.*—The manner of stating the conditions of discharge, which should be

"At his own request, on payment of £— which amount has been lodged in the hands of—
"Do Do free (with deferred pension of ——— if entitled.)"
"Do Do free with pension (if *modified* to be so distinguished) after ——— years' service.
"In consequence of his having claimed it on termination of his limited engagement."

Vide page 181, para. 9, and page 189, para. 33, of Her Majesty's Regulations and Orders for the Army.

Specification of badges of merit and of the number of Good Conduct Badges, page 178, para. 4; and in the case of Sergeants and other Non-Commissioned Officers, Horse Guards, Circular No. 211, 5th July 1862.

Specification of disabilities, page 185, para. 20.

Declaration on 4th page to meet the requirements of War Office Circular No. 722, dated 30th October 1861, vide Circular, dated Adjutant General's Office, Calcutta, 9th October 1862.

Omission of the name of the party to whom purchase money for discharge has been paid, Horse Guards, Circular No. 104, 25th January 1861. (See G. O. 12th September 1863.)

Every part of the Proceedings of Regimental Boards should be filled in in ink to date of the Board's sitting; excepting only, on the 2nd page, "further service of date of final discharge," and "total service to date of final discharge," which should be left blank, and not crossed out in ink, as is done in many Regiments; and place and date of discharge on 4th page, "final description," also to be left blank. Both these blanks will be filled up either in the Office of the Adjutant General Her Majesty's Forces in India, or in England, as the case may be, when the Soldier is finally discharged.

*Parchment Certificate.*—Service to be inserted in *pencil* only and the word "Conduct" to be prefixed to the character, vide page 179, para. 7, of Her Majesty's Regulations final description, Horse Guards Circular No. 184, 15th February 1862.

3. Her Majesty's Regulations are laid down for general observance, and His Excellency the Commander in Chief in India will not permit them to be disregarded.

4. If Commanding Officers will not take the trouble of referring to the Regulations of the Army, and seeing that their Adjutants do the same, they must take the responsibility upon themselves; and the Commander in Chief in India will report for the information and orders of His Royal Highness the General Commanding in Chief, every instance of the important duty connected with the discharge of Soldiers being carelessly performed.

5. A copy of this Circular to be invariably placed before Regimental Boards held for the purpose of verifying the services of Soldiers obtaining or claiming their discharge.

6. In the event of a soldier, dying, or re-engaging, or the authority for his discharge being cancelled, his discharge documents, if in possession of the Commandant of Invalids, Fort William, or the Officer Commanding the Kurrachee Depôt, are to be returned to the Officer Commanding the Corps to which the man belonged; or a Memorandum sent to the Adjutant General Her Majesty's Forces if the documents are in his Office, with a view to their being so returned."

*Regimental Board crossing out parts of the proceedings.*—No part of the proceedings of the Regimental Board, for verifying a Soldier's service, is to be crossed out.

This information is required only in the case of Invalids, or men entitled to pension.

*Discharge Documents for confirmation.*—The Discharge Documents of Soldiers proceeding to the Colonies, or for discharge by purchase, also for those permitted to reside in the country, must be forwarded to the Adjutant General for confirmation, and not sent to the Ports of embarkation, which is at present frequently done by certain Regiments. In transmitting the documents, the Port to which the men may have proceeded is to be stated.

Great hardships have been entailed upon numbers of men by the frequent neglect of this order.

*Detachments of Corps not to be divided on the Road.*—When Soldiers leave a Corps for the Ports of embarkation, they are not unless from sickness to be divided into separate parties, but must be kept together, so that men of the same Regiment may arrive at their destination on the same day; much inconvenience is entailed, when Detachments of Corps are broken up on the Road, Officers appointed to command Detachments are to be made acquainted with this order.

*Clothing Roll.*—A separate Clothing Roll for each man is required, shewing what he has received, and what he may be still entitled to.

*Head Quarters, Calcutta, 27th January* 1865.

**Complimentary Order.**—No. 18.—The services of the 71st Highland Light Infantry in India entitle them, on their departure for England, to honourable mention in General Orders.

A Wing of the Regiment on their arrival in India in 1858 joined the Central India Field Force, and His Excellency therefore is enabled to bear testimony to the good services which they performed, and the excellent spirit which they displayed during that Campaign.

The Regiment more recently distinguished itself under their Commanding Officer, Colonel Hope, C.B., in the late operations on the Frontier.

Sir Hugh Rose cannot, in justice to Military merit, speak of the 71st in a General Order without reverting to an earlier period, when in two great Campaigns in Europe they won a reputation which has earned them an honoured page in history.

Sir Hugh Rose's best wishes attend this distinguished Regiment on their leaving his Command for Home.

## By His Excellency the Commander in Chief.

HEAD QUARTERS, MADRAS, 11th April 1865.

**Passages. Medical Certificate, &c.**—No. 39.—The Commander in Chief is pleased to publish for general information the following letter, with annexure, from the Secretary to the Government of India, to the Secretary to Government Military Department, Bombay, and promulgated in Madras Order of Government No. 1212, 29th March 1865.

"From the Secretary to the Government of India, Military Department, Fort William, 8th March 1865, No. 382; to the Secretary to Government Military Department Bombay."

In acknowledging the receipt of your letter, No. 27 of the 25th January last, I am directed to state that the decisions of the Government of Bombay, on certain questions connected with the grant of free passages, under Government General Order, No. 317 of the 8th April 1864, to Officers proceeding on Medical Certificate to and from Stations beyond Sea, as recorded in Resolution, No. 2129, dated 5th August 1864, are correct; it being understood that the term "any place reached by sea route," means any place which is accessible both more conveniently and less expensively by sea.

2. An Officer granted a "free passage" by sea is always entitled to take with him the regulated number of servants, unless where special restrictions have been laid down.

No. 384.

Copy of the above and of the Bombay Government Resolution of the 5th August 1864, No. 2129, forwarded to the Secretary to the Government of Fort Saint George, Military Department, for the information of His Excellency the Governor in Council.

By Order,

(Signed) B. E. BACON, Lieutenant Colonel.
Assistant Secretary to the Government of India.

Passages, Officers on sick leave beyond Sea.
*Military Department.*

No. 2129.

Letter from the Quarter Master General, No. 1306, dated 9th July 1864.

Enquires whether the G. G. O. No. 222, dated 3rd May 1864, regarding passages to Officers returning to stations beyond sea from sick leave, is intended to cancel the Government Resolution, No. 2895, dated 26th September 1862, ruling that Officers proceeding to join their Regiments on their return from Europe from sick leave are not entitled to free passages.

Report by the Controller of Military Accounts, No. 822, dated 26th July 1864.

---

Resolution.—Copy of the Controller's report to be sent to the Quarter Master General.

2. The words of the Order by the Government of India are—

"A free passage will be provided for * * * Officers who may require to proceed by sea on Medical Certificate from any Station beyond sea at which they may be quartered and employed and back to their Station on return from such leave."

This is rather obscure as respects the case of Officers who go on Medical Certificate to Europe; but it must be held to grant in such cases a free passage to and from the port from which they embark and debark on departure to and return from Europe. It therefore supersedes Government Resolution, No. 2895, dated 26th September 1862.

3. The Controller also requires whether the term, 'Stations beyond sea' means only such places as Sind and Aden, or whether it includes any place in India to which the Officer has occasion to travel by Sea. His Excellency in Council considers that any place reached by sea-route is intended.

4. The Controller further requires whether the late orders intend free passages to Officers' servants also. His Excellency in Council considers that the same number of servants as hitherto allowed when free passages were granted is intended.

5. These decisions of the above stated questions will be reported to the Government of India, for confirmation or correction.

(Signed) W. F. MARRIOTT, Lieutenant Colonel,
Secretary to Government.

Bombay Castle, 5th August 1864.

# GENERAL ORDERS

## By His Excellency the Commander in Chief.

HEAD QUARTERS, MADRAS, 10th April 1865.

**Arms. Annual Board.**

No. 38.—The Commander in Chief directs that the orderss noted in the margin, be cancelled, it being considered that the Circulars, General Nos. 109 and 235 Horse Guards. 25th February 1861 and 3rd December 1862, and the New Musketry Regulations, dated 1st December 1864, the Chapter headed "Arms" page 96, Queen's Regulation, and this General Order afford every necessary information on the subjects of which they treat.

G. O. C. C. 24th December 1861, No. $\frac{2}{5}$, page 745.
Do 11th November 1862, „ 82 „ 613.
Do 6th March 1863, „ 13 „ 106.
Circular Memo. Adjutant General, Fort St. George, No. 2780, dated 20th November 1860.
G. O. C. C. 23rd December 1864, page 742.

Officers Commanding Divisions and Stations will on receipt of this order, direct the assembly of Boards for the current year, and as the Musketry Regulations dated 1st December 1864, may not have been received, Inspectors of Musketry are directed to forward to Stations, without delay, for the guidance of Boards Extracts, of that part IX headed "Experiments with Small Arms," pages 123 to 125 inclusive.

1. The Arms of all European Corps and Detachments will under the orders of Officers Commanding Stations, be inspected once annually, after the completion of the course of Musketry instruction in each year, by Boards consisting of not less than three Officers, an experienced Field Officer as President, and the Ordnance Officer and Regimental Instructor of Musketry as members. The Arms are to be minutely examined, stand by stand, and the defects of each duly noted, with a view to such repairs as may be necessary being executed at the expense of Officers Commanding Companies. If the means are at hand, barrells which are suspected of being dented, or in any way damaged in the bore or rifling, are to be accurateye gauged, and if any are unserviceable, their exact number is to be stated, and the causes to which their unserviceable condition is attributed, as well as the dates of issue are to be distinctly specified in the Proceedings of the Boards, prepared according to the annexed Form which is to be forwarded to the Chief Inspector of Musketry, direct, for transmission to the Adjutant General and submission to the Commander in Chief; to reach Bangalore, by the 1st of July; a Copy being retained in Regiments for the guidance of subsequent Boards.

2. When a Company or Companies have to be sent on Detachment after having completed *their* Annual Course, but before the Annual Course of the Regiment is completed, a Spacial Garrison Board shall, under the orders of Officers Commanding Stations, assemble to examine and report on the Rifles, previous to their leaving the Station.

The number of Rifles so examined are to be included in the Proceedings of the Board on the remainder of the Rifles of the Regiment at the conclusion of the Annual Course.

3. Each man should parade with his Rifle, regarding which, from having just gone through the Annual course, he should be able to give the Board a minute account.

4. Officers Commanding Companies will invariably be present with the Arms of their respective Companies, to afford every information.

5. At the annual examination of Arms of Regiments the breeches of all Rifles are invariably to be removed.

6. When a Rifle or a Carbine is found to be injured in a way likely to affect its shooting, it should be *immediately* tested by firing, and a diagram of its practice kept until the assembly of the Annual Arms Board.

7. No Rifle is to be condemned as "unserviceable," unless considered dangerous to be fired out of without undergoing the prescribed test by shooting.

8. Separate Proceedings of a Court of Inquiry should be attached to Reports on each Rifle condemned, in consequence of the neglect or carelessness of the Soldier and when blame is attributed to him.

9. If Officers Commanding Companies see that repairs are executed by the Armourer so soon as injuries to the Rifles occur, it will seldom happen that any number will require repair at the period of the annual Inspection of Arms.

10. Special diagrams are not required for the experiments to test the shooting of defective Rifles. The plan of target in diagram f.r the Platoon or Skirmishing practices pasted on a sheet of Foolscap will answer the purpose required. The orders for conducting trials laid down in Circular General Number 109 Horse Guards, 25th February 1861. Part IX, page 123, Musketry Regulations dated 1st December 1864, and the following rules are to be strictly complied with; any deviation will render the trial useless.

1. The test is not to commence until the firer is sure of his sighting and hit the Target,
2. If after 15 trial-shots the shooting is wide, and sighting cannot be correctly obtained the same should be recorded in the remarks, and the Rifle may be condemned without test.
3. The ammunition should be carefully selected, and charges weighed. The Committee should satisfy themselves by actual test that the firer can, with a known good weapon, and with the same ammunition, make good practice, and the diagram of such practice should be attached.
4. The number of shots fired should never be less than ten; honeycombed barrels should be tested up to 20 shots to show effect of fouling.
5. No Rifle is to be tested in weather unfavourable to good shooting.
6. Remarks of Committee, if considered necessary, should be written on reverse side of diagram.
7. The average figure of an Enfield Rifle at 500 yards for 20 rounds is 15 or 16 inches. Therefore with practice something approximate to that figure should be obtained by a good shot with a really good Rifle *using* a *rest*. If not, the cause of error will be found either in the Rifle, the firer, or the ammunition. Every endeavour should be made to ascertain and show which, as if it is not in the two latter causes, the result of the test will not be affected thereby.

11. The greatest care must be bestowed on spare Arms, which should be always kept oiled and plugged, and frequently inspected by the responsible Officers.

12. When Arms are received from Store, or brought out by Recruits, they are to be subject to a thorough examination by a Regimental Committee. The breeches being in all such cases removed.

13. Arms in excess of the established strength of Regiments are to be at once returned into the nearest magazine, and receipts taken.

14. Regiments should indent for the prescribed complement of muzzle stoppers of the latest pattern to re-place such as are unserviceable or deficient.

REGIMENT.

186

THE Annual Board assembled under paragraph 34, page 103, of the Queen's Regulations and Orders for the Army having carefully inspected the whole of the Arms in possession of the above Corps, report as follows:—

DISCHARGES.

WAR OFFICE. HORSE GUARDS.
18.2.65. *7th March* 1865.

SIR,—The Royal Warrant of the 23rd July 1864, having been misinterpreted by many Commanding Officers and its conditions (in some cases less favourable than those of previous Warrants) having been consequently exacted from men enlisted prior to its issue, or promulgation, I am directed by the Field Marshal Commanding in Chief, in concurrence with the Secretary of State for War, to explain.

1stly. That the Royal Warrant of the 1st July 1848 is "cancelled" only as regards men enlisted since the publication of the Warrant of the 23rd July 1864, consequently (as stated in paragraph 1 of the latter) men enlisted prior to that date are entitled to every benefit (not forfeited by misconduct) which they could claim while the first named only was in force.

2ndly. Should, however, as in some cases will happen, the conditions of the last Warrant offer greater advantages to the Soldier enlisted under the previous Warrant, he may be allowed to avail himself of them.

The result is, that the Soldier enlisted prior to the 23rd July 1864, can be discharged upon the conditions of whichever of the two Warrants offers the greater benefits to him ; but the man enlisted *since* can only be discharged on the terms of the Warrant of that date.

You will be pleased to make the above ruling known to Corps under your Command.

I have &c.,

2. His Excellency the Commander in Chief has much pleasure in notifying that, with the object accordingly of encouraging the most industrious and successful Cultivators, Government has sanctioned a grant annually of 50 Rupees to be divided into four Prizes for general competition in each Regiment, the amount being, however, issuable only to those Corps in which Gardens have been established a full twelvemonth, either at their last or present station.

Prizes sanctioned.

3. Special Committees will assemble at such time of the year, as the local Authorities may deem best, so as to allow of the several descriptions of Gardens, flower or vegetable, cultivated entirely by the Soldiers themselves, being properly inspected; on the understanding, however, that Prizes are not to be awarded more than once a year.

Special Committees to assemble.

4. Competition is to be strictly confined to men of the same Corps, and the following Prizes will be allotted for general competition.

Competition restricted and the amount of prizes.

1 Prize of..... ..... ..... 16 Rs.

5. It is to be discretionary with Committees to award these Prizes in full or in part, according as they consider the exertions of the men deserve.

Competition by Non-Commissioned Officers.

6. Regimental Non-Commissioned Staff are not eligible to compete for these Prizes, unless it can be certified that their Garden produce has been *bonâ fide* the result of their *own labor*, in this case they can compete for the general Prizes detailed in paragraph 4.

Payment of Prizes.

7. In order that Prizes may be paid on the spot to the successful competitors, sums equal to the aggregate amount of these several Prizes are to be obtained by the Presidents of the Committees at the prescribed period, under a Station order from the Executive Commissariat Officer of the station, and in the event of the Committee not awarding the whole sum, the balance is to be re-paid to the Commissariat Officer.

Bills for Prizes how adjusted.

8. As soon as practicable after the proceedings of the Committee have terminated, a Contingent Bill in detail, on the Commissariat Department, should be forwarded by the President, to the Officer of the Quarter Master General's Department attached to the Division or District, for the amount actually presented as Prizes, and after having been countersigned by the Officer Commanding the Division or District, the Bill should be returned for delivery to the Commissariat Officer who had advanced the money, to enable him to settle his accounts.

Distribution of Prizes to be considered a Fete.

9. His Excellency wishes that the distribution of Prizes should be considered as a "Fete" for the Regiment, and be a holiday for the men at large, the band playing at the place of distribution, and Sir Hope Grant would feel obliged if all Officers would make a point of attending the distribution.

XXXIII. "With a view to ensure the submission of all Military requirements in the way of original "works to the Local Governments and Administrations in each year, in time to admit of their entry into "the Budget Estimate, an Annual Committee will be assembled at all Military Stations on the 1st day "of August, or as near that date as possible, which will report on these requirements; one copy of the "report being submitted to His Excellency the Commander in Chief by the 1st September, and the other "being at the same time sent to the Local Government or Administration through the Superintending "Engineer, with any remarks the Executive Engineer and Superintending Engineer may see fit to "make.

XXXIV. "The copies of the reports sent to Army Head Quarters will be forwarded thence to the "Local Governments or Administrations by the 1st November, with the remarks of His Excellency the "Commander in Chief, by which the Local Governments and Administrations will be guided, as far as "possible, in framing this portion of their Budget Estimates.

XXXV. "On the receipt of the first copy of the Committees' Report through the Superintending "Engineer, the necessary orders will be given by the Local Governments or Administrations for the "preparation of Estimates of such works as appear likely to be required, especially such of them as involve "estimates which will take time in their preparation, so as to admit of the punctual submission of the "the Budget Estimate in a complete form."

2. Agreeably to the foregoing instructions, Officers Commanding Divisions and Forces will cause a Committee composed of three senior Officers, to assemble at every station under their Command annually on the 15th July, to investigate the wants of every Corps, Detachment and Military Department in it.

3. Committees will communicate with Regiments and Departments in the station, and will limit their application to such new works only, as are really necessary or sanctioned by Regulations.

II. The Column for remarks should exhibit the cause in full with reference to dates of orders.

III. New works should be so stated, with detailed particulars of their necessity.

IV. Every project once entered in a Report is to continue there in all succeeding Reports (unless specially rejected by authority,) until the sanction of Government is obtained to its construction, and even then it should continue on the Record under the circumstances mentioned in Clause I of this para. The object being that nothing shall be lost sight of in preparing the Budget of the year, that has once been applied for and approved of; and that nothing shall be removed from the List, until it has actually been taken in hand.

6. Officers Commanding Divisions and Forces will be held strictly responsible for the fulfilment of the foregoing para.

7. In the course of correspondence with Head Quarters after the Budget has been closed, it happens that the Commander in Chief can often do no more than promise that a work then applied for shall be entered in the Return sent by the Quarter Master General to Government for the following Budget. Such works should be remembered and entered in the Division List with an appropriate reference.

8. The return from the Officer Commanding the Division should be despatched so as to reach Army Head Quarters punctually on the 1st September.

**Station Butchers.**—No. 59.—With the sanction of Government, the Commander in Chief is pleased to direct the republication of G. O. G. G. No. 136 of 1865.

2. Under the orders of Government, the application of the provisions of the Order in question, will, however, be restricted to the Stations where public Slaughter-houses are maintained viz., Bangalore and Secunderabad, and for the present will be considered an experimental measure only, to be reported on at the expiration of six months.

3. The result of the experiment to be reported to the Commissary General.

"No. 136 of 1865.—The rules laid down by Government General Order of the 25th October 1822, for the appointment of European Station Butchers, and the conduct of the duties entrusted to them, being no longer fully applicable, owing to the various changes that have taken place in the system of rationing the British Troops, the following are promulgated for future guidance, in supersession of previous rules:—

1. At every station occupied by an European Garrison, not less in strength than one Regiment, a European Station Butcher of suitable qualifications, and of good character and sober habits, to be carefully selected, by the Officer Commanding, from the European Troops quartered at the station, is to be appointed, in Station Orders, for the supervision, under the orders of the Executive Commissariat Officer, of the slaughter-yard and slaughter cattle.

2. The Butcher so appointed will march with his Corps on its removal from the Garrison, when his place will be filled by another nomination.

3. The Staff pay of a Butcher will be Rupees 20 per mensem.

4. As it is necessary for Station Butchers to reside near the cattle pens, with the supervision of which and the selecting of the cattle for slaughter their duties are specially connected, quarters will be provided for them when necessary in a suitable locality; pending the construction or provision of which, and so long

as it is necessary for them to hire quarters, house-rent, not exceeding Rupees 15 per mensem, will be passed on the certificate of the Executive Commissariat Officer, that the Butcher is occupying quarters in the vicinity of the pens.

5. The Butcher will, however, be quartered in his own barracks when these are not too far from the slaughter-house and cattle pens; and pony allowance at Rupees 10 per mensem will be granted specially to him when the necessity for it may be shown by the Executive Commissariat Officer, through the Head of his Department.

6. All pay and allowances accruing to a Station Butcher will be drawn for in the Regiment to which he belongs; and, on staff pay being drawn for the first time for an European Butcher, a certified extract of the Station Order appointing him should be attached to the pay abstract of his Regiment. This will be sufficient authority for the Pay Department, and confirmation of the Station Order in General Orders is unnecessary.

7. In all other respects he will be at the disposal of the Executive Commissariat Officer, under whose orders his duties will be as follows:—

I. By daily careful inspection to see that the full stock of cattle and sheep are duly kept up by the contractor as per contract deed, as also the stipulated quantity of fodder; that the animals are regularly watered twice a day, or more frequently if necessary; and that they daily get the prescribed quantity of fodder (according to the season), and of salt,—and that the pens and slaughter-yards are kept thoroughly clean.

II. He will also superintend and direct the whole process of preparing the meat intended to be served out to the Troops, and it will be his bounden duty to bring any omissions or abuse on the part of the contractors or their people, to the immediate notice of the Executive Commissariat Officer.

III. After the meat has been prepared, he should mark it, and take such other precautions to prevent its being changed as may be found necessary. He will also attend at the ration stands whenever he may be required to do so by the Executive Commissariat Officer."

**Farewell Order.**—No. 64.—1. Lieutenant General Sir J. Hope Grant, G.C.B., having been appointed by Her Majesty, Quarter Master General to the Forces, and Lieutenant General Sir J. Gaspard le Marchant, G.C.M.G, having arrived to relieve him of this command, His Excellency bids farewell to the Officers and Soldiers who have served under him during the last three years and a half.

2. When he assumed Command of the Madras Army in 1861, the amalgamation of the local European Forces with the British Army had just been ordered, and in the following year it was carried into effect. Sir Hope Grant cannot forbear from noticing the excellent spirit and activity displayed by all ranks of the Artillery and the new line Regiments in carrying out this important measure. Very great changes were necessary to assimilate the Artillery with the old Royal Artillery, so as to secure perfect uniformity; these have been most successfully effected.

3. The conduct of the whole of the European Troops has been very good during His Excellency's Command, but especially so during the past year, in which Courts Martials have been fewer, and the crimes of a less serious nature.

4. Sir Hope Grant further desires to place on record the high opinion he entertains of the discipline and efficiency of the Native Army of Madras. The continual foreign service to which every Regiment is habituated tends very materially to their usefulness.

5. The Madras Army has not had much opportunity of late years of seeing active service, but portions of it have served under His Excellency both in Bengal and in China, where they behaved exceedingly well, especially the Sappers who proved themselves to be good and steady workmen under fire. The conduct of the whole Native Army has been most exemplary.

6. The Commander in Chief begs to thank the Officers of every arm in this Presidency for their zeal on all occasions.

7. Sir Hope Grant desires to thank Major Generals Williams, Armstrong, the Hon'ble A. A. Spencer, C.B., McCleverty, Duke, and McLeod, Commanding Divisions; as also the Inspector of Royal Artillery, the Brigadier Generals Commanding Brigades, and the Officers Commanding Regiments, Corps, and Batteries, for the support they have given him in carrying out their duties.

8. He is also much indebted to the Staff and Heads of Departments for the able assistance they have always given him, especially to Colonel Primrose, Adjutant General, to Lieutenant Colonel Woods, who was Adjutant General up to the time of the amalgamation of the Staff, to Lieutenant Colonel Scott, Quarter Master General; to Colonel Pritchard, Judge Advocate General; to Dr. Cole, Principal Inspector General, Medical Department; and to Dr. Inglis C.B., Deputy Inspector General of Her Majesty's Hospitals.

Sir Hope Grant feels bound to add that the duties of the Ordnance and Commissariat Departments have been most effectually carried out; and he tenders his best thanks to Colonel Simpson and Colonel Hill, the Heads of these two Departments.

9. All reports from this date will be made to Lieutenant General Sir J. Gaspard le Marchant, C.B. C.M.G.

By Order of His Excellency the Commander in Chief.

J. M. PRIMROSE, Colonel,
Adjutant General.

# GENERAL ORDERS

## By His Excellency the Commander in Chief.

HEAD QUARTERS, OOTACAMUND, 21st June 1865.

No. 74.—The following Extract from G. O by His Excellency the Commander in Chief in India, is with the sanction of Government, republished and made applicable to this Presidency :—

*Head Quarters, Simla, 17th April* 1865.

**Regimental Institutions. Prizes.**

His Excellency the Commander in Chief has much satisfaction in expressing to the Army in India, the great interest with which he has witnessed the growth and development, within the last few years, of the system of Regimental Workshops

2. So great has been the success of these institutions, that His Excellency is happy to find there are few British Regiments in which an opportunity is not now afforded to the Soldier of prosecuting with advantage and profit to himself, the trade which he may have followed before entering the Army, or to the young Soldier of acquiring under the auspices of experienced workmen, a thorough knowledge of any trade he may have an inclination to learn.

3. With the view of stimulating to a greater extent the exertions of individual workmen, not only in themselves prosecuting their trade, but also in instructing their younger and less experienced comrades and the sons of the Soldiers of their Regiment, His Excellency has much pleasure in directing, with the sanction of Government, that a distribution of prizes shall take place annually according to the following scale :—

For each 1st Class workman, a prize of Rupees 15.
Do 2nd do do do do 8.

For each apprentice who may be, certified to have acquired a thorough knowledge of any trade, the Soldier who taught him, should the apprentice have had no previous knowledge of the trade, to receive a bonus of 25 Rupees.

If the apprentice has been only partially instructed, a sum proportionately less to be given The number of "Bonuses" however is not to exceed two in a Battery or eight in a Regiment the Bonus being of course given to those men who have trained the most fully instructed apprentices in each Battery or Corps.

4. The merits of the individual workmen, the proficiency of the apprentices, and the award of Prizes, shall be determined by a special "Workshop Committee," to be appointed in the same manner and at the same time as the annual special "Garden Committees."

5. The aggregate of the Prizes sanctioned by Government, exclusive of bonuses for the instruction of apprentices is, for a Regiment of Cavalry or Infantry, Rupees 150, and for a Battery of Artillery or a Convalescent Depôt, Rupees 50. But if on account of a large attendance at the shops and of great and especial merit, the Committee should desire to recommend prizes in excess of the above limits, a reference may be made to His Excellency the Commander in Chief with the view of a grant for the amount in excess of the authorized rates, being submitted for the favorable consideration of Government.

6 To ensure the prompt payment of the Prizes, (within the authorized limit), the measures laid down in paragraphs 44 and 45 of the G. O for the Regulation of the Soldiers' Gardens, dated *5th July 1864, are to be adopted, and His Excellency would be glad to see the distribution associated with the annual Regimental Fête suggested in paragraph 46 of the same Order.

7. His Excellency has learnt, with much satisfaction, the success of the recent Exhibition at Meean Meer, where the productions of the Workshops of Regiments quartered in the Punjaub, were opened to the inspection of the public. These consisted, not only of articles of common use, but also of objects of great beauty and finish. The readiness with which every article exhibited met with a purchaser, and the evident demand for still further supplies will prove, His Excellency trusts, to every Soldier in the Army, that success and profit are sure to attend his efforts in exact proportion to the industry he evinces and the labour he expends.

8. The Commander in Chief proposes to consult Officers Commanding Divisions and Districts in the hope of making such Exhibitions general throughout the Army

*Charge.*—For having at Madras, between the 1st and 13th of May 1865, begun a Mutiny in the Carnatic Ordnance Artificer Company, by attending unlawful Meetings held at night in the People's Park by one Kelly, a trader, for the purpose of combining with others of the said Company to claim from the Government certain privileges granted to European Soldiers, or their discharge from its Service; and there allowing the said Kelly to bind each with an oath not to divulge anything that passed, and in pursuance thereof on the last named date combined to resist Military authority, in having when ordered by Lieutenant-Colonel Thomas Hay Campbell, Superintendent, Gun Carriage Manufactory, their Commanding Officer to go to their work, and to face to the right for that purpose, mutinously in a body disobeyed his lawful command, by deliberately standing still, and not facing.

Ootacamund, 3rd July 1865.

REMARKS BY HIS EXCELLENCY THE COMMANDER-IN-CHIEF.

The Sentences of the Court on the above trials are lenient for the offence of Mutiny, made liable to Penal Servitude, or to Death; but I have confirmed them as there are circumstances connected with the conduct of these Prisoners, recorded in the evidence, that induce me to do so.

The Artificers well know that if they have any cause of complaint they can obtain redress through their Commanding Officer, and they also know how to apply for it according to the Regulations of the Service. There is no necessity to resort to the paid advocacy of those without the Service. They also know well that any combination on their part to obtain their ends is a Military Offence of the gravest nature, and they now know beyond any doubt, that a combined resistance to the lawful commands of their Military Superiors, is Mutiny.

These Prisoners plead that they with others have been misled by one they considered capable of advocating their cause in a just and lawful manner; and by the evidence it certainly does appear to have been so; as every act of insubordination was dictated by that person: but for the maintenance of discipline and as an example to others of the Company, they must undergo their punishment that their Comrades may see the peril Soldiers incur, when in forgetfulness of their duty, they think to obtain redress for any real or imaginary grievance by refusing submission to authority.

By Order of His Excellency the Commander-in-Chief,

(Signed) J. M. PRIMROSE, Colonel,
*Adjutant General.*

The Sentences to be carried into effect under the orders of the Officer Commanding Centre Division.

*Charge.*—For conduct unbecoming the character of an Officer and a Gentleman and to the prejudice of good order and Military discipline in the following instances.

*Second Instance.*—In having at Kamptee on or about the 11th of November 1864, before the Military Court of Requests there held, attempted to defraud one Birdee Chund, Sowcar, of his just claims against him, by wilfully and falsely declaring that the writing and signatures in two Promissory Notes, dated at Jaulnah the 23rd December 1861, and 22nd January 1862, for the sums of Hyderabad Rupees 300 and Hyderabad Rupees 100 respectively, produced by the said Birdee Chund, in support of his claims, were not his but were forgeries, and that he denied the debt; whereas in truth and in fact he well knew the writing and signatures in the said Promissory Notes to be his own, and that he had received the said sums from Birdee Chund.

**Bedding.**—No. 79.—The Commander in Chief directs the publication of the following correspondence on the subject of Soldiers' Bedding.

From the Secretary to the Government of India, Military Department, Fort William, 10th March 1865, No. 519, to the Secretary to Government, Military Department, Fort Saint George.

In reply to your letter No. 508 of the 4th ultimo, relative to the question whether Recruits landing on the 13th September 1864, and supplied with articles of Bedding on arrival, are entitled to a second supply on the date of the annual issue, viz., the 1st October following; I am directed to acquaint you, for the information of the Government of Madras, that there appears nothing in paragraph 4 of General Order by the Commander in Chief, Madras, No. 114, dated 15th September 1859, referred to by the Deputy Commissary General of that Presidency, to warrant the conclusion that Recruits, who, in Bengal as in Madras, receive a Quilt and Settrinjee before they leave the Presidency, and the remaining articles of Bedding on joining their Regiments, should receive a second supply the same year or compensation in lieu.

2. The decision of the Government of Madras that the articles, if received shortly before the date of issue of the Annual Clothing, should be considered as provided in advance of that issue, is, I am to state, in conformity with the practice in Bengal, and with the principle laid down in the annexed Extract, paragraph 3 of letter, No. 159 of the 9th June last, to the Adjutant General.

Extract from a letter from Colonel H. W. Norman, C.B., Secretary to the Government of India, Military Department, Simla, 9th June 1864, No. 159, to the Adjutant General.

Paragraph 3.—A Regiment arriving in India, is on landing supplied with full Bedding; but should a Corps arrive late in the season, the supply for the year due on the 1st October following, is only issued in addition when certified by a Committee to be necessary. This appears to His Excellency in Council to be a just rule, and one which might with propriety be acted upon in all Presidencies.

**Sites for Cattle Sheds, &c.**—No. 80.—The Commander in Chief is pleased to notify, under the orders of Government, that no changes of site of public Establishments, such as Cattle Sheds, recommended to take place on Sanitary grounds, and involving expense to Government, are to be allowed without a report being first made to Head Quarters, and sanction obtained from Government.

# GENERAL ORDERS

## By His Excellency the Commander in Chief.

HEAD QUARTERS, OOTACAMUND, 17th July 1865.

No. 83.—The following Extract from General Orders by His Excellency the Commander in Chief in India, is, with the sanction of Government, republished and made applicable to this Presidency :—

Head Quarters, Simla, 13th May 1865.

**Public Works Department. Promotions, &c., of Soldiers.**

Under instructions from Government, His Excellency the Commander in Chief is pleased to direct the publication of the following Rules, regarding the promotion and remand of Soldiers in the Public Works Department, for general information and guidance :—

No. 19. "*Supersedes paragraph* 5, *Section* 3, *Chapter XVI, of the Public Works Code, with reference to G. G. O., Military Department, No.* 754, *dated* 4*th August* 1862, *and No.* 151, *dated* 23*rd February* 1863; *letter from Military Department, No.* 170, *dated* 10*th September* 1864; *and G. O. C. C., dated* 20*th August* 1862.

Promotion to Serjeant "1. Soldiers on the Unattached List, employed in the Public Works Department, are eligible for promotion to the rank of Serjeant, after approved effective permanent service on Staff employ, with uniform good conduct, for the full period of one year, if recommended by their immediate superiors for such promotion, provided that their total effective service as Soldiers be not less than three years.

Rank only temporary. "2. Such promotion is however purely local and temporary, and any Soldier in the Department who may have attained the rank of Serjeant under the operation of this Order, will on return to Regimental duty, revert, *ipso facto*, to the rank which he held at the time of his transfer to the Unattached List, whatever be the cause of his return or remand.

But retained on Field Service. "3. Soldiers thus promoted when temporarily employed on Field Service will retain their Departmental rank, and if attached to Regiments, they will be borne as Supernumeraries of that rank in the Rolls of the Regiment. Time passed on Field Service will count as service for promotion to the Warrant grades.

Mode of application for such promotion. "4. Recommendations for promotion to the rank of Serjeant under these Rules must be forwarded by the Executive Engineer, under whom the man may be serving, together with a Descriptive Roll in the accompanying Form, No. 19, and Extracts from the Regimental and Departmental Defaulter's books, to the Superintending Engineer. The latter having recorded his opinion on the application, will pass on the whole of the papers to the Chief Engineer, who, should he agree in the recommendation, will pass it on with the Descriptive Roll only, direct to the Adjutant General for the orders of His Excellency the Commander-in-Chief.

Date of effect. "5. The retrospective date from which Rule 2 of this Order will have effect, will be subsequently notified.

Warrant rank. "6. The rank of Serjeant attained under this Order, qualifies for promotion to the Warrant grade, in accordance with Chapter I, paragraph 5 of the Public Works Code. The rank of the Public Works Warrant Officers is permanent and absolute, and it can only be forfeited by sentence of a Court Martial, or by Order of Her Majesty's Government.

Remand of Non-Commissioned Officers and Soldiers. "7. A Soldier remanded to Military duty will return to the Regiment or branch of service in which he was originally enlisted. A Soldier of the old Indian Local Army who has not volunteered for general service, will be sent to the local body of the branch of the service in which he was enlisted, or may, under extraordinary circumstances, and as a temporary arrangement only, be attached to do duty with any of Her Majesty's Regiments in India. A man of the Royal Engineers would be sent to a Company in the Colonies or in England.

And of Warrant Officers. "8. There being no Regimental rank corresponding to the Warrant grades, a Warrant Officer cannot be remanded to Regimental duty unless after having been reduced by sentence of a Court Martial, or by Order of the Government."

# GENERAL ORDERS

## By His Excellency the Commander in Chief.

HEAD QUARTERS, OOTACAMUND, 19th July 1865.

**Discharges.**—No. 87.—With reference to G. O. C. C. dated 14th February 1865, Head "Discharges," the following Rules are published in order to obviate difficulties which have been experienced in providing passages to England and the Colonies, for Soldiers who have purchased their discharge, and for their families.

2. The difficulties adverted to have chiefly arisen from two causes.

1st.—The insufficiency of the amount lodged to defray the cost of passage.

2nd.—The money being lodged with Regimental Agents in England, instead of with Regimental Pay Masters in India.

3. The Commander in Chief therefore directs that when a Soldier applies for his discharge by purchase, for the purpose of proceeding to any place beyond sea, the Officer Commanding his Corps shall, in the 1st place, ascertain from the Quarter Master General's Department at Madras, what the passage rate of the day is. If the amount lodged by the Soldier for his passage, and for that of his family, should he be a married man, be found to be adequate, the application for his discharge may be submitted to Head Quarters, with a Memo. to the effect that the money lodged has, on reference to the proper quarter, been ascertained to be sufficient. If the money lodged is short of the sum required, the application is to be withheld until the full amount is forthcoming.

4. If the Soldier has sufficient funds for the purchase of his discharge and payment of passage, in the Regimental Saving's Bank, the sum should be at once withdrawn and lodged with the Regimental Pay Master, who should grant two separate receipts, viz., one for the amount to be paid for the discharge, and the other for the passage money. If the Soldier be a married man, a sum equal to that ascertained to be sufficient for his own passage, must also be lodged on account of his wife, and two thirds of the same for each child.

5. On the Soldier's discharge being sanctioned by the Commander in Chief, the Regimental Pay Master must immediately remit to the Staff Officer and Superintendent of Details, Fort Saint George, by a Government transfer receipt, the amount held by him as passage money, detailing the separate sums received on account of the Soldier's own passage, and that of his wife and children. Should the passage be eventually obtained for a less sum than that deposited, the difference must be handed to the Soldier on his embarkation.

6. When the funds for purchase of discharge and for passage are lodged with Regimental Agents in England, they should be instructed to forward to the Regimental Pay Master in India, a letter of credit stating that they have received the sum of £———for the discharge and passage to ———— of ———————— of the ——— Regiment.

7. Regimental Pay Masters can always deduct the amount of passage money noted by the Regimental Agents, from the usual monthly Remittance Returns rendered to the War Office, quoting the No. and date of the Agent's Letter, as authority for the deduction.

8. It must be clearly understood that the amount of purchase and of passage money must be acknowledged by the Regimental Pay Master to be actually in his possession, before a Soldier is allowed to quit his Regiment for the port of embarkation.

9. The sums should not be lodged in the hands of private Agents in Madras or elsewhere, but must always be deposited with Regimental Pay Masters.

10. Commanding Officers are requested to send a copy of this Order to their Depôts, for communication to Regimental Agents in England, and they will keep the Regimental Agents informed of the rates of passage, ruling between this Country and England.

11. Referring to the subjoined Despatch No. 168, from the Secretary of State for India, published in the following Circular by the Adjutant General, Bengal, Officers charged with the payment of Batteries of Artillery, must ascertain that there is a sufficient sum lodged for passage money with Messrs. Cox and Co., before submitting the Discharge Documents to the Adjutant General for confirmation.

DISCHARGES.

With reference to the following despatch, No. 168, dated India Office, London, the 30th April 1863, from the Right Honorable the Secretary of State for India, Commanding Officers are requested to report all cases of the nature therein mentioned to the Commandant of Invalids, Fort William;* or the Commandant of the Kurrachee Depôt, who will take the necessary steps.

MY LORD,—I have to inform you that in all cases in which the discharge of men from the Royal Artillery serving in India, may be purchased in this Country, the Agents of the Regiment have been instructed by the Secretary of State for War to pay to this Office the amount lodged with them for the passage of the men to Europe.

2. In all cases, therefore, in which the men's discharge documents specify that passage money has been lodged, passage should be provided for them by your Government, a report being at the same time made to me, in order that Messrs. Cox and Co., may be called upon for payment of the passage money should it not have been previously received from them.

**Encamping grounds near Cantonments.**—No. 89.—The Commander-in-Chief under the Orders of Government, is pleased to direct, that in order to provide for the immediate removal, when considered necessary, of one or more Regiments attacked by Cholera, from Cantonment into Camp, measures be taken for the selection of suitable ground at a distance of four or five miles from the Station.

2. These encamping grounds must be easily accessible to wheeled carriage at all seasons of the year, and it is desirable that communication between them, where there are several, should be possible without passing through the Station. The ground should be high, dry, having good natural drainage and in the vicinity of water, and always maintained in a fit state for occupation by Troops. The approaches to it should be kept in good condition.

3. At Head Quarter Stations, Plans will be prepared by the Quarter Master General's Department. At others, by the District Survey Establishment, or by the Revenue Survey Department. When neither of these is available, application should be made by the Officer Commanding the Division or Force to the Superintending Engineer for the services of a competent Surveyor for the purpose.

4. At Secunderabad and Bangalore, ground for three Regiments should be selected. At Kamptee, Bellary, and Madras, for two Regiments ; and at all other Stations ground for one will be sufficient.

5. The sites are to be selected at Head Quarter Stations by a Civil Officer to be appointed by Government, by an Officer of the Quarter Master General's Department, and by the senior Medical Officer. At other Stations within Madras Revenue jurisdiction, by the Officer Commanding, the Collector and a Medical Officer : and at Stations under the Civil administration of Bengal, by the Officer of the Quarter Master General's Department, the senior Medical Officer and any Civil Officer who may be deputed by the Resident or Commissioner.

6. The plans should be prepared on the same scale as the existing Plan of the Cantonment, to which it should be attached. The features of the ground and the roads to it should be exhibited in full detail. Its area, and the number of Troops for whom there is space, should be stated on the Plan.

7. One copy of each Plan should be retained at the Station, and another forwarded to the Quarter Master General.

Captain A. C. Bruce, of Her Majesty's 91st Highlanders, is directed to proceed to Madras, for the purpose of appearing before a Medical Board at that Station.

**Barrack Accommodation.**—No. 90.—With reference to G. O. C. C. No. 111, dated 1st December 1864, the Commander in Chief under the authority of Government, is pleased to issue the following further instructions, regarding Barrack accommodation and the marking of public buildings.

2. Occupation Returns for the whole Army having been received, it is found that until buildings for all purposes are separately provided, misappropriation, in the case of some, is unavoidable. But the Public Works Department having authority to mark the buildings, as required in para. 2 of the above order, it should be called upon to execute the work, as follows :—

3. Every building occupied in the manner for which it was intended, should have outside of it, its use painted in large characters, such as "Barracks," "Hospital," "Commissariat Stores," &c. The different apartments in buildings occupied by Troops should be separately numbered, and inside over the door-way, on the wall, the subjoined form should be painted in black.

BARRACK No. 1.
ROOM No. 3.
Cubical space — .....Superficial area.—
Number of men to be accommodated. —

*N. B.*—Blank spaces to be filled according to the Proceedings of Committees forwarded to Head Quarters.

4. Buildings unavoidably misappropriated are to be marked according to the purposes for which they were built, not according to the misappropriation. The number of men they would contain if rightly occupied, should be left blank until the misappropriation has ceased, when it should be entered.

5. The Annual Returns of public buildings forwarded to the Quarter Master General should be rectified accordingly.

6. Every new building handed over by the Public Works Department to the Quarter Master General, should be marked as above, before it is transferred.

7. The Government of India has ruled that in the plains every man is to have 90 superficial feet and at hill stations 75 superficial feet allotted to him.

Serjeant Henry Hynes, 18th Hussars, is appointed *to act* as Serjeant Major of the 1st Regiment Light Cavalry.

Lieutenant E. H. Walters, (late 50th Regiment N. I.,) is removed from doing duty 8th Regiment N. I., to do duty with the 33rd Regiment Native Infantry.

# GENERAL ORDERS

## By His Excellency the Commander in Chief.

HEAD QUARTERS, OOTACAMUND, 10th August 1865.

No. 96.—The following General Order by His Excellency the Commander in Chief in India, is published :—

*Head Quarters, Simla, 11th July* 1865.

**Penal Servitude.**—The Commander in Chief thinks it most important that the effect of an Act of Parliament published in 1864, and styled an Act to amend the Penal Servitude Acts, should be made thoroughly known to Her Majesty's Forces serving in India.

His Excellency, therefore, directs the publication of a Circular from the Home Office, dated Whitehall, August the 15th, 1864, in which the Right Honorable Sir George Grey explains the effect of the Statute, and further displays the important modification about to be introduced into the convict system in reference to the granting of remissions, hitherto comprehended under the name of "ticket of leave."

A sufficient number of copies of this order is forwarded to each Regiment, to admit of one copy per troop or Company.

It being most important to disabuse the mind of the Soldier with regard to the possibility of alleviation of punishment, contrary to the intention of the Secretary of State's Circular, His Excellency invites the assistance of Commanding Officers for the purpose of causing the conditions stated in the Circular to be made familiar to all serving under their Command.

The mode of procedure directed in Circular No. 941, of the 9th May 1861, to be observed when a Soldier is sentenced to Penal Servitude, is to be continued; this G. O. being read on parade with the others.

CIRCULAR.

*Whitehall, August* 15, 1864.

SIR,—I think it right to lose no time in transmitting to you a Statute which received the Royal Assent at the close of the last session of Parliament, entitled "An Act to amend the Penal Servitude Acts."

In doing so I feel it my duty to furnish you with correct information as to the mode in which convicts under sentence of penal servitude will now be treated.

The principal change in the law which is effected by this Statute is the abolition of sentences of penal servitude of four and three years, leaving the sentence of five years as the shortest that can be passed in any case, and authorizing it in those cases where only sentences of four or three years could have been passed before. This will have the effect of increasing the severity of the penal law, which, owing to the very frequent use of the short sentences referred to, had, in the opinion of the Royal Comsioners who lately investigated this subject, become too much relaxed. With the same object another very important provision is added, that a person convicted of a crime punishable with penal servitude, after having been previously convicted of felony, if the Judge in his discretion thinks that the punishment of penal servitude should be inflicted, shall not be so sentenced for a shorter period than seven years.

It will be observed that in all these cases the alternative sentence of imprisonment is not interfered with. In that respect the law continues as it stood before the passing of the late Statute.

The remainder, and by far the larger portion of the Act, refers to the granting to convicts under this sentence, licences to be at large before its expiration; and introduces various regulations for the purpose of preventing the misconduct of such persons between the time of their release and that at which they would have been by law entitled to their liberty. I do not think it necessary to occupy your time with any observations upon this part of the subject, except to remark that, amongst other safeguards of the public, it is enacted that the conviction of a licence-holder upon indictment of any offence, involves not merely a revocation of his licence, but a remission to his original sentence as it stood when his licence was granted, and this in addition to any punishment to which he may be sentenced upon such indictment.

It appears to me that the information which you really require is rather as to the extent of the remission hereafter to be granted in such cases, and the terms upon which it is to be obtained. When you are fully informed upon these two points, you will see exactly the practical effect of the sentences which you pronounce, and will feel confident that nothing is left to accident or caprice, but that the punishment inflicted is precisely that which you intended to inflict.

In accordance with the strong recommendation of the Royal Commissioners an important modification is about to be introduced into the convict system in reference to the granting of remissions.

Instead of these being granted as a reward of general good conduct as heretofore, they are now to be earned by industry alone; general good conduct (such as implicit obedience to all prison rules), will be as indispensable as before, but will of itself count as nothing towards the obtaining a remission of a portion of the sentence; that can only be gained by steady and laborious industry, the degree of which will be measured and recorded every day by the assignment to each convict of a certain number of marks.

A maximum amount of remission is fixed (as hereafter stated) as the utmost which can be attained by perfect industry, and the number of marks is so regulated, that a convict must obtain the maximum number of marks every day (without any deduction for misconduct), in order to get the maximum remission. The sentence, therefore, is absolutely certain up to a certain point, but may possibly extend beyond that point, and will inevitably do so unless the convict persistently and strenuously exerts himself.

The maximum periods of remission for male convicts are to be as follows :—

SCALE for regulating the discharge on Orders of Licence of Male Convicts sentenced to Penal Servitude.

| Term of Sentence. | Period to be undergone in Separate Confinement. | Shortest Period to be undergone on Public Works. | | | Maximum Period to be Remitted. | | |
|---|---|---|---|---|---|---|---|
| Years. | | Yrs. | Mo. | Weeks. | Yrs. | Mo. | Weeks. |
| 5 | Nine months, in all cases. | 3 | 2 | 1 | 1 | 0 | 3 |
| 6 | | 3 | 11 | 1 | 1 | 3 | 3 |
| 7 | | 4 | 8 | 1 | 1 | 6 | 3 |
| 8 | | 5 | 5 | 1 | 1 | 9 | 3 |
| 9 | | 6 | 2 | 1 | 2 | 0 | 3 |
| 10 | | 6 | 11 | 1 | 2 | 3 | 3 |
| 12 | | 8 | 5 | 1 | 2 | 9 | 3 |
| 14 | | 9 | 11 | 1 | 3 | 3 | 3 |
| 15 | | 10 | 8 | 1 | 3 | 6 | 3 |
| 20 | | 14 | 5 | 1 | 4 | 9 | 3 |

The principle adopted by this Scale is a maximum remission of a fourth part of that portion of the sentence which remains after deducting nine months for separate confinement.

With respect to convicts hereafter sentenced to penal servitude for life, they will be considered as forming an exception to the rule, that a remission of sentence may be earned by a regular course of industry. Upon this point the Royal Commissioners have reported as follows :—

"Sentences for life should, we think, be only passed on men guilty of very aggravated crimes, but when passed they ought really to imply that those who have incurred them shall never again be allowed to return to society either at home or in a Colony, unless the mercy of the Crown should be extended to them on special grounds. After a certain time, if they behave well, the severity of their punishment might be properly relaxed, but they never ought to regain even the qualified freedom of the holder of a ticket-of-leave.

"If, however, they are to be kept in perpetual confinement, this punishment may be inflicted more safely and more conveniently at home than in a Colony. Should this rule as to the enforcement of sentences for life be adopted, the Courts before which offenders are tried would naturally make a distinction between the most atrocious criminals and those whose guilt, though aggravated, is one degree less, by passing sentences for life on the former only, and on the latter, sentences for a definite though in some cases a very long term of years."

I propose, in accordance with these views, to reserve all cases of this nature which may arise hereafter for special consideration, with a view to a more rigid enforcement of this sentence.

With respect to females, I also concur with the Royal Commissioners, who, for the reasons stated in page 70 of their Report, recommend the remission of a larger portion of sentences of penal servitude in the case of female convicts.

The Table applicable to them will be as follows, being founded upon the principle of a maximum remission of a third part of each sentence :—

TABLE for regulating the Discharge on Orders of Licence of Female Convicts sentenced to Penal Servitude.

| Term of Sentence. | Maximum period to be Remitted. | |
|---|---|---|
| Years. | Yrs. | Mo. |
| 5 | 1 | 8 |
| 6 | 2 | 0 |
| 7 | 2 | 4 |
| 8 | 2 | 8 |
| 9 | 3 | 0 |
| 10 | 3 | 4 |
| 12 | 4 | 0 |
| 14 | 4 | 8 |
| 15 | 5 | 0 |
| 20 | 6 | 8 |

There are two more points connected with convicts sentenced to penal servitude, upon which I think it right to add a few words.

The first and most important of these questions is that of their diet.

A notion had prevailed in some quarters that this was excessive in quantity and unnecessarily good in quality, and the subject was brought under the notice of the Royal Commissioners, who, upon the evidence before them, did not feel justified in recommending any change, though they advised that experiments should be tried, in order to ascertain whether any reduction could safely be made. In consequence of this suggestion, the matter has since been more fully investigated by a Committee of experienced medical men, appointed for that purpose only, and the result has been a moderate reduction in the quantity of food allowed, both in the stage of separate confinement and in that of hard labour upon public works. This alteration has only just been introduced in practice, but there is no reason at present to doubt that it will be attended with success.

The other and the only remaining question upon which I propose to make any observations is, that of the amount of gratuities allowed to this class of convicts upon their discharge. An important change has been made in this respect upon the recommendation of the Royal Commissioners. The maximum amount which can be earned by the greatest possible industry has been largely reduced, and is to be the same whatever may be the length of the sentence. By this means a defect properly pointed

out in the former system will be obviated, viz., that prisoners who were under the heaviest sentences, in consequence of the enormity of their offences, received the largest sums of money from the public upon the recovery of their freedom. They will henceforth have no more than is considered necessary to enable them to live honestly until they can be reasonably expected to procure employment.

"4. But while the Governor General in Council will not alter the existing system, yet should His Excellency the Commander in Chief represent that further assistance is necessary to enable the Sepoy to build his lines in particular localities, the Government of India is quite prepared, on a clear case being made out, to take the matter into consideration. **Hospitals. Women and Children.**—His Excellency the Commander in Chief desires to call the attention of Officers Commanding British Regiments and Brigades of Royal Artillery, and of Medical Officers, to the subject of sick Women and Children, and to the circumstances under which they should be admitted into Hospital.

The Establishment of Female Hospitals, for the treatment of sick Women and Children who are seriously ill, is a great boon, as in case of severe sickness they can have nursing, attendance and comforts in Hospital, which they could seldom secure in their own quarters ; but on the other hand, when women with families are not so seriously ill as to necessitate their being confined to bed, their removal to Hospital, when they can be treated in their own quarters, is often a source of inconvenience to themselves and to their young children who may thus be left without protection, especially when the father is on duty.

The considerations therefore to be observed in deciding on the question of admission of a Soldier's wife into Hospital (particularly if she have young children) are, whether her state of health is such as to require confinement to bed, and whether she can without risk to her own recovery continue under medical treatment in her own quarters. If she can do so without injury to herself or her family, it is not desirable that she or they should be inconvenienced by requiring her to go to Hospital. A Soldier's wife should never be required to go into Hospital except for her own advantage and comfort. The cases in which it is really for her own benefit that she should be admitted into Hospital, will of course be left to the discretion of her medical attendant.

When women or children are laboring under contagious diseases, they should, as a matter of course be invariably removed from the Married quarters, and placed under proper isolation in Hospital ; and,

as a rule, all women should be admitted into Hospital for their confinement, unless they have comfortable quarters, and can command good attendance, as may be the case with the wives of some of the Non-Commissioned Staff.

In cases of trifling ailments of themselves or families, it is expected that the women will attend at the usual hour at Hospital for advice and medicine.

# GENERAL ORDERS

## By His Excellency the Commander in Chief.

HEAD QUARTERS, OOTACAMUND, 25th August 1865.

No. 107.—With the sanction of Government the following Extracts from General Orders by His Excellency the Commander in Chief in India are republished, and made applicable to British Troops serving in this Presidency.

2. The Order regarding "*Boards of Survey*" on Arms, cancels G. O. C. C. No. 38, dated 10th April 1865, and all previous Orders published in this Presidency, on the subject :—

*Head Quarters, Simla, 29th May* 1865.

**Small Arms. Armourer Serjeants.**—With the sanction of Government His Excellency the Commander in Chief is pleased to announce that from the 1st May 1865, the system of repairs of interchangeable Rifles of the pattern 1853, promulgated in War Office Circular, No. 697, dated 15th July 1861, published in Government General Orders No. 1088 of 28th November 1861, shall be introduced into all Regiments of Her Majesty's British Forces, serving in India, armed with trade-made Arms. To meet the special requirements of service in this Country and repair of these Rifles, the following additional regulations are laid down.

1. The pay of trained Armourer Sergeants with Regiments and in the Ordnance Department, is fixed at 5*s.* or Rupees 2-8 per diem for the seven days in the week.

2. Reduced Armourer Sergeants will receive 2*s.* 6*d.* or Rupees 1-4 daily for seven days in the week, being the same as is paid to the private Armourer on enlistment under Her Majesty's Warrant of June 1858. They will be employed in the Arsenals and Magazines, and will be eligible for promotion to their former rank and re-employment with Regiments, should their conduct prove deserving of recommendation to His Excellency the Commander in Chief.

3. All trained Armourers will receive Rations or compensation in lieu, the Clothing and Quarters of their rank, with subsistence allowance for their wives and children.

4. No deductions will be made from their pay and allowances on account of authorized leave of absence, provided Government be put thereby to no additional expense.

5. Armourer Sergeants requiring change to the Hills on account of health, will be attached to Convalescent Depôts. They will be selected by Medical Boards, and sent to the Hills under exactly the same regulations and at the same time as other Soldiers.

6. Should it be impracticable to make proper arrangements regimentally, for the repair of arms during the absence at a Depôt of the Armourer Sergeant, application should be made through the Officer commanding the Division for the temporary services of an Armourer Sergeant attached to the nearest Magazine or Arsenal, if one be available.

7. In order to compensate the Armourer Sergeant for his additional labor in making the component parts of Trade Arms fit, an increased charge to that laid down in the War Office Circular as detailed in column D of the Statement following, is sanctioned for certain repairs, and is to be paid to the Armourer Serjeant, who is required, in consideration of such extra remuneration, to provide any additional labor for repairing the Arms that he may find needful.

8. All repair to arms injured either intentionally or by carelessness, are to be paid for by the men at the regulated rate specified in columns A and B of the annexed Statement. The Captains of Companies will be responsible for recovering the charges for these damages and for crediting the amount to the public ; less the amounts in columns B and D, which are to be paid to the Armourer Sergeants as provided for in the following para.

9. To meet the case of repairs which have to be charged to the Soldiers, the Statement shews in Column A the cost of the Materials, Column B shews the sum to be paid by the Soldier to the Sergeant Armourer for his extra labor in replacing the several parts enumerated in that column as most likely to be thus damaged. This payment to the Sergeant Armourer with the cost of the material, will be the total charge against the Soldier ; but as the materials will have been originally supplied without charge, their value, when thus used, to make good loss and damage, must be credited to the public less further the amounts in Column D which are to be paid to the Armourer Sergeant.

10. The sum of eight annas a year per arm shall be deducted from each Captain's Contingent allowance, and credited to the public in aid of the expense incurred in maintaining the arms in repair.

11. To enable the Armourer Sergeant to perform the duty of browning the arms as part of his regular duty, he may be allowed the assistance necessary for the purpose from the Regiment, the men employed under his direction being allowed the usual working pay, provided the amount does not exceed Rupees 9 per 100 Rifles. Fuel will also be supplied at the public expense as follows :—Charcoal, 4 maunds, Firewood, 10 seers, monthly, throughout the year for repairs, and 4½ maunds of Firewood weekly for 20 weeks while the arms are being browned. The fuel will be supplied by the Commissariat in the usual manner ; the allowance of Firewood for browning, being furnished only upon the Certificate of the Officer commanding the Regiment, that two years have elapsed since the arms were last browned. Coal, coke or other fuel, at the option of the Armourer Sergeant may be supplied, provided the expense be not increased.

12. The annexed Statement contains a list of component parts, which will be furnished at the public expense to the Armourer Sergeant, for the repair of Rifles on the system now introduced; they will be obtained annually on indent by the Officer Commanding the Regiment when Ammunition is indented for: at the same time, an account is to be rendered of the receipts and expenditure of the material, and of the number of the several articles remaining in possession of the Quarter Master, shewing the amounts recovered from Soldiers per Column A, and the payments (Column D) made to the Armourer Sergeant, the balance, if due to the Regiment, will be adjusted by a Contingent Bill at foot of the account; or if due to Government, the Pay Master's receipt for the amount should be attached.

**Arms. Boards of Survey.**—With the sanction of Government, His Excellency the Commander in Chief is pleased to direct, that the form and instructions to guide the Annual Board of Survey, assembled under the provisions of paragraph 34, page 103, of the Queen's Regulations and Orders for the Army, to inspect the arms in possession of Regiments, as laid down in Horse Guards' Circular Memorandum No. 235 of the 3rd December 1862, of which a reprint is given at foot, shall in supercession of G. O. B. F. of the 16th October 1861, be made applicable to the British Troops serving in India.

2. The proceedings of the Board in duplicate, are to forwarded so as to be reach Army Head Quarters as early after the conclusion of the Annual Course of Musketry Practice as possible, but not later than the 1st June annually.

3. The reports furnished are to show the state of all the Rifles in possession of Corps, as ascertained by careful inspection with the breeches out. Separate Boards are to be assembled to report on the arms of detached Troops, Batteries, or Companies or of men at Depôts; which could not during the current year be inspected by the Board at Regimental or Brigade Head Quarters; and to permit of the proceedings of each Corps being complete before transmission to Army Head Quarters. Officers commanding Depôts will forward the proceedings of the Board assembled to inspect the arms of men attached from different Regiments, to the different Commanding Officers concerned, sending themselves to Army Head Quarters, only the proceedings connected with the state of the arms specially belonging to their Depôts.

4. In testing the accuracy of arms considered defective, particular attention is to be paid to part IX, page 123 of the Musketry Regulations of 1864. The diagrams made by all such arms are to be attached to the original copy of the proceedings of the Board, which will be careful to show proof, that the Firers were, at the time of testing, really steady shots; their diagrams, which should not be over 15, with good Rifles and with the same ammunition, being attached.

5. In the case of arms, or parts of arms charged to Regiments, an abatement in the price, according to the number of years the condemned weapon, or part thereof, has been in use, will be allowed, and in the case of trade arms, the Regiment will be further credited with the value of such component parts, of the unserviceable arms, as can be brought into magazine stock, but at the depreciated rates the Regiment has already been charged for them.

6. All arms supplied by the Ordnance department are to be carefully examined by a Regimentas Board of Survey immediately after they are received. The packages being opened, and the content, counted in the presence of the Board, and of the person, if any, making them over. Any damage they may have received is to be at once reported to the Ordnance Officer who issued them, in order that it may be determined whether the damage was caused by the carelessness of the carriers.

7. Arms are not to be rejected for mere blemishes, which do not practically interfere in any way with their efficiency as Military weapons. But the Board will report to Head Quarters, and record the existence of such blemishes or defects, as they may think necessary, in view to hereafter shielding the Captains and Soldiers from any responsibility, which in the judgment of an Annual Board, might otherwise be attributed to their neglect.

8. Arms sent into store, whether for repair, or otherwise, are, to permit of an account being kept by the Ordnance department with each Regiment, to be accompanied by a detailed statement shewing whether each Rifle is serviceable, repairable or unserviceable. Under this head, attention is directed to War Office Circular No. 696, of the 3rd July 1861, published in G. G. O. No. 1088 of the 28th November 1861.

9. All the necessary Forms and Diagrams can be obtained from the Military Orphan Press by indent in the usual manner.

10. Previous to the assembly of the Annual Boards on Arms, the Commanding Officer will apply to the nearest Arsenal for the services, if they can be spared, of a Civil Master Armourer, "Viewer," to assist the Board; and on such occasions the Viewer will also, on the conclusion of the inspection, specially report to the Commanding Officer on the efficiency of the Armourer and the condition of his shop, tools, and appliances. In the event of any deficiency or neglect being found, the Commanding Officer will, on transmitting the proceedings of the Board through the usual channel, report the same to the Adjutant General, noting the steps taken, or required to be taken, to remedy such deficiency or neglect.

11. To shew the distribution of the arms in India, and to prevent mistakes, the abstract in the heading of the Regimental Head Quarters proceedings may be bracketed thus—

| | Sergts. | R. & F. | Sergts. | R. & F. | |

CIRCULAR MEMORANDUM.

*Addressed to the Army at Home and abroad.*

General Number 235.

HORSE GUARDS, S. W.,
*3rd December*, 1862
(Arms.)

There being at present no rules laid down, or fixed principle to guide the annual boards of survey assembled under paragraph 34, page 103, of the Queen's Regulations and Orders for the Army, to inspect the arms in possession of regiments, His Royal Highness The Field Marshal Commanding in Chief has been pleased to desire that the following instructions be adhered to in future :—

It is not necessary that numerical returns of all the Arms in possession of the regiment, company by company, should be forwarded to this department ; it will be sufficient to state in the proceedings (a form of which is annexed) the total number of rifles which have been found to be in a good and serviceable state, making due allowance for the period they have been in use, and for fair wear and tear, such as dents in stocks, &c., which do not impair the efficiency of the arm.

It should then be shown what rifles can be repaired by the Armourer, at the expense of the Regiment, and if it is considered that any repairs executed by him, are fairly chargeable to the public, the usual evidence, shewing the circumstances under which the injury was effected, should be taken, and appended to the proceedings.

The usual Special Report, by the board, should be made on all such rifles, or parts of rifles as are considered unserviceable, and which are required to be exchanged for new ones, stating the date of issue, the reason of the damage, and on whom the cost incurred is to fall : and whether, provided the parts are supplied by Government, the repair can be executed by the Armourer of the regiment.

A mean deviation of over three feet, at five hundred yards, is to be considered a sufficient inaccuracy to condemn a rifle suspected of being inferior, and tested by shooting under the Circular Memorandum, dated Horse Guards, 25th of February, 1861, No. 109.

Requisitions for whatever is required, in duplicate, should accompany the proceedings.

By Command,
JAMES YORKE SCARLET,
*Adjutant General.*

NOTE.—It should seldom happen that any number of Rifles require repair at the Annual Boards of Inspection, as all casualties should be disposed of, at the time, in the usual manner.

Attention is called to H. G. Circulars, dated the 25th February 1861, General No. 102, and 3rd December 1862, General No. 235, in the case of Rifles considered unserviceable

No. 5162 E.

*Adjutant General's Office, Head Quarters,*
*Simla, 1st August* 1865.

To

Major General Sir C. T. VanStraubenzie, K.C.B.,
Commanding the Forces, Bombay.

Sir,—I have the honor to acknowledge the receipt of your letter, dated the 26th June 1865, No. 1119, giving cover to a report from Ensign B. R. Conolly, 72nd Highlanders, regarding an outbreak

of Cholera in the Ranks of a Detachment of British Troops proceeding under his command from Asseerghur to Poonah in April last.

By desire of the Commander in Chief in India, I am to request you will convey to Ensign Conolly, His Excellency's best thanks for the intelligence and decision displayed by him under the very difficult circumstances connected with his late march.

A Regiment may well be proud when one of its constituents distinguishes himself in the manner which now calls forth the Commander in Chief's commendations, and His Excellency congratulates Colonel Payn and the 72nd Highlanders accordingly.

Sir William Mansfield trusts that it will have been in the power of his Commanding Officer to promote Corporal Thompson, 72nd Highlanders, for the excellent manner in which he supported Ensign Conolly, and the admirable example he set to his comrades on the trying occasion referred to.

The good conduct of Private Whittaker, 18th Royal Irish, and Gunner Lloyd of the Royal Artillery, should be respectively brought prominently to the notice of their Commanding Officers.

His Excellency must, however, express his regret that there were other Soldiers in the Detachment under Ensign Conolly, whose conduct was discreditable to them as Soldiers and comrades, when required by their Officer to assist the sick.

(Signed) D. M. STEWART, Colonel,
Deputy Adjutant General.

HEAD QUARTERS, OOTACAMUND, 11th September 1865.

No. 115.—In republishing the following G. O. C. C. by the Commander in Chief in India, Sir Gaspard Le Marchant directs that the Spring Inspections at Secunderabad, Kamptee, Thayetmyo and Tonghoo, be conducted generally in the month of February.

*Head Quarters, Simla, 15th July* 1865.

**Inspections. Confidential Reports.**—The Commander in Chief has had occasion to notice the irregularity with which Half Yearly Inspections of British Regiments have been conducted, there having been in some instances during the past twelve months an interval of only two or three months between the Spring and the Autumn Inspections.

2. His Excellency desires to notify that the Autumn Inspections of Corps should not take place later than the first week in November. The Spring Inspection should, on the other hand, be conducted subsequently to the Drill season, that is to say, generally between the 15th March and 15th April.

3. The Autumn Inspection may be performed by Brigadier Generals of Stations, excepting when they belong to the Corps to be inspected. In the absence of a Brigadier General Commanding a Station, the Officer Commanding the Division will report, in the month of September, the name of the Brevet Colonel he would select for the duty.

4. The Spring Inspection should be effected by Officers Commanding Divisions.

5. Considering the ordinary state of health of Regiments at the end of October, and the still debilitating condition of climate, it is expedient that the Autumnal Inspection should be generally confined to matters of interior Economy; Conduct; Barracks; Schools; Workshops; Regimental Books; Examination of Classification of Soldiers, in respect to liability to Corporal Punishment; and so forth. It is unnecessary at that time of the year to have long parades for the different sorts of Drill, or for heavy marching order. At the Spring Inspection, on the contrary, immediately after the Drill season, all matters connected with the Exercise of the Troops, including Musketry Instruction, should receive the most careful scrutiny from Officers Commanding Divisions.

6. The above order refers only to British Regiments of Cavalry and Infantry, and does not affect the Artillery, or Corps of the Native Army, the Inspections of which are conducted according to rules peculiar to themselves.

---

**Subaltern's Tents.**—No. 116.—There being at present no Subaltern's Tents available in store, for issue to Officers who under present rules, are entitled to receive Tents on payment from the public stores, the Commander in Chief is pleased to notify, that Government have sanctioned the issue to such Officers of European Tents, for the march on which they are proceeding only, on the condition that they pay for all repairs, to be ascertained by the Ordnance Department, and also that they pay four Annas for every stage travelled, because repairs do not cover wear, which is not perceivable.

2. Officers receiving Tents in the manner now sanctioned, will be required to return them into Store wherever ordered at their own expense.

---

G. O. C. C. dated 3rd July 1865, directing Lieutenant R. S. Burgess, 1st Battalion 10th Foot, to do duty at the Depôt Poonamallee, until an opportunity offers for his joining his Battalion, is cancelled.

---

**Volunteering.**—No. 117.—Her Majesty's 1st Dragoon Guards being under orders for England, men of that Corps who are desirous of extending their service in India, are allowed to volunteer under the provisions of the General Orders* as per margin, to the undermentioned Cavalry Regiments remaining in India.

3. Particular attention is requested to para. 8 of G. O. G. No. 427 of 1863.

4. With reference to para. 4 of G. O. G. G. No. 695 of 1863, the Officer Superintending the volunteering will communicate by Telegraph with Regimental Commanding Officers in order that the volunteering for any particular Corps may not exceed the prescribed limit.

5. On the conclusion of the volunteering the Superintending Officer will transmit for the information of the Commander in Chief, a Return in the subjoined Form of the number of Volunteers. The Volunteers will continue at their present Station until further orders.

6. The Officer Commanding Hyderabad Subsidiary Force, will name three days during which the volunteering will take place bearing in mind that there is no avoidable delay in carrying out this order.

7. The Officer Commanding the 1st Dragoon Guards, will also, without loss of time place himself in communication with Departmental Officers under whom any of the men of his Regiment on the Effective Supernumerary List may be serving, in view to their decisions being recorded for remaining in India on the conditions specified in para. 14 of G. O. G. G. No. 695 of 1863, or rejoining their Regiment. In the former case their transfer documents will be forwarded at once from their present Regiment to the Officer Commanding that which they may elect for; or in the event of their wishing to remain in their present Regiment, they will be withdrawn from detached employ as soon as their services can be dispensed with. 2. Men may be allowed to volunteer for the 2nd Battalion 24th Regiment, shortly expected from England.

**Cholera.**—No. 119.—A Pamphlet entitled "Measures for the prevention of Cholera among European Troops" having been ordered to be forwarded to Regiments for information and guidance, the Commander in Chief, with reference to para. 30 of G. O. G. No. 166 of 1856, directs particular attention to the two following paragraphs.

454. Whenever Cholera shows itself in an apparently epidemic form at a Station or in a District in which European Troops are quartered, notice of the fact ought instantly to be sent by telegraph to the Head Quarters of the neighbouring Divisions of the Army. The Commanding Officer should be held responsible for the strict observance of this standing Order. He should also send information from time to time of the progress or cessation of the disease, noticing any facts, the knowledge of which may appear likely to be useful at other stations. These reports may be always made in a few words, and they need give little trouble. All information received by the Military Authorities should be immediately communicated by them to the Chief Civil Authority of the District. He again should transmit the information to the Officers subordinate to him.

Military Authorities to send to other Stations intelligence regarding outbreak and progress of Cholera.

455. The Civil Authorities of every Division and District must be held responsible for obtaining immediate notice of the outbreak of Cholera in their jurisdictions, and for communicating it to the Military Authorities without the least delay.

Civil Authorities responsible for giving information of outbreak of Cholera to Military Authorities.

It is perfectly possible at the present time that Cholera may be raging among the Native population within a few miles of a Cantonment of European Troops, and that the fact may be altogether unknown to the Military Authorities. We believe that orders were issued by the Government a few years ago on this point, but little attention has been paid to them.

2. All information connected with the existence of Cholera is to be telegraphed to the Quarter Master General also, and no movements of Troops or Officers are to take place until the infected road is reported safe.

# GENERAL ORDERS

## By His Excellency the Commander in Chief.

HEAD QUARTERS, OOTACAMUND, 22nd September 1865.

The following Extract from General Orders by His Excellency the Commander in Chief in India, is republished :—

*Head Quarters, Simla, 27th July* 1865.

At a General Court Martial assembled at Singapore on the fifth of May, one thousand eight hundered and sixty five, Lieutenant John Leigh Goldie Silver, General List of the Madras Army, and doing duty with the Thirty-fourth Regiment Chicacole Light Infantry, was arraigned on the following charges :—

CHARGES.

*First Charge.*—For having at Singapore, on sixteenth of January, one thousand eight hundred and sixty five, failed to appear at the place appointed by his Commanding Officer for parade in Heavy Marching Order, and Sword Exercise of his Regiment.

*Second Charge.*—For having at Singapore, on seventeenth of January, one thousand eight hundred and sixty five, failed to appear at the place appointed by his Commanding Officer for parade for Battalion Drill of his Regiment.

*Third Charge.*—For conduct, unbecoming an Officer and to the prejudice of good order and Military Discipline in the following instances.

*First Instance.*—In having at Singapore on or about the seventeenth of January, one thousand eight hundred and sixty five, rendered himself incapable of performing his duties from the effects of intoxication.

*Second Instance.*—In having at Singapore, on the thirty-first of January, one thousand eight hundred and sixty five, when under arrest, been incapacitated from attending at a Court of Inquiry into his conduct from the effects of intoxication.

The above being in breach of the Articles of War.

FINDING.

The Court on the evidence before it and what has been stated in defence is of opinion that the Prisoner John Leigh Goldie Silver, Lieutenant on the General List of the Madras Army, doing duty with the Thirty-fourth Regiment Chicacole Light Infantry, is

*Finding on the first Charge*... Guilty—but the Court finds the parade, at which the Prisoner failed to appear, to have been for "Battalion Drill," and not for "Heavy Marching Order and Sword Exercise," as averred in the charge.

*Finding on the second Charge.* Not Guilty.

*Finding on the first instance of the third Charge.* Guilty of the third Charge in its first Instance.

*Finding on the second instance of the third Charge.* Guilty of the third Charge in its second Instance.

SENTENCE.

The Court sentences the Prisoner John Leigh Goldie Silver, Lieutenant on the General List of the Madras Army, doing duty with the Thirty-fourth Regiment Chicacole Light Infantry, to be dismissed from Her Majesty's Service.

(Signed) R. G. H. GRANT, Lieutenant Colonel,
*Royal Artillery, President.*

Singapore, 18th May 1865.

---

Recommendation by the Court.

The Court having awarded a sentence commensurate with the offences of which the Prisoner has been found guilty, begs most respectfully to recommend him to the merciful consideration of His Excellency the Commander in Chief, on account of his youth and the contrition he has expressed.

Confirmed.

It appears to the Commander in Chief that the Court erred in stopping the cross examination of the first witness on a material point. This would have been sufficient to cause the verdict to be disallowed, but for the sufficient evidence given by the second witness.

His Excellency sees no extenuating circumstances in this case,—but if the Court thought it was one in which a less punishment than dismissal should have been awarded it would appear that their sentence should have been in accordance with such views, the charge not being such as to render it imperative on the Court to record a sentence of dismissal.

His Excellency further thinks that this trial, the evidence taken at which is very brief, should have been closed in five or six days at the most, instead of being spread over thirteen days.

(Signed) W. R. MANSFIELD, General.

# GENERAL ORDERS

## By His Excellency the Commander in Chief.

HEAD QUARTERS, OOTACAMUND, 29th September 1865.

No. 124.—The following General Order by His Excellency the Commander in Chief in India, is republished :—

*Head Quarters, Simla, 31st August 1865.*

**Transport.**—Under instructions from the Horse Guards, His Excellency the Commander in Chief in India desires to notify, that with a view to prevent the delay which sometimes takes place in settling claims for compensation due to Troops on account of Rations short issued, during voyages from India to England, the Secretary of State for India in Council has approved of the amount so due being in future paid by the Master or Owner of the Ship immediately on the arrival of the Troops in England, and before they disembark.

2. In order to carry the arrangements into effect Officers embarked in charge of Troops sent home from India are instructed, in any instance of a short issue of rations, to keep a very accurate *daily* account of the quantities of each kind of provision deficient, with the number of Men, Women, and Children under and above 10 years of age, entitled to receive compensation.

3. Any provisions substituted for those deficient should be registered in like manner, and it should be shewn *at what rate* the substitutes are given for the articles deficient, the proportion being arranged between the Officer commanding the Troops and the Master of the Ship at the time of issue.

4. These particulars are to be drawn on the annexed Form, and the Commanding Officer should be careful to see, that the Return (signed by himself and the Master of the Ship) is prepared by the time the vessel reaches Spithead, so that it may be at once handed to the Officer superintending the disembarkation. Any delay in rendering the return may cause the Ship to be unnecessarily detained, which is liable to be attended with heavy expenses.

5. In the case of a Freight Ship engaged by the Indian Government, the amount to be paid as compensation by the Master or Agent of the Ship, on the spot, at the rate of twice the cost price of the provisions deficient, as stated in the Articles of Agreement of the Ship, will then be calculated under the Superintendence of the General or other Officer Commanding at the port of disembarkation and the sum due to each man credited to him in the Acquittance Roll, the money being forwarded to, Netley Hospital for the Invalids, and to the various Depôts for the time-expired and other men.

6. Officers proceeding to England in charge of Troops are prohibited from accepting from the Master, Owners, or Agents of the Ship, any sum of money as compensation for short or inferior rations without the special sanction of the General or other Officer Commanding at the port, or of his Staff Officer superintending the disembarkation, and in the event of there being any cause of complaint of the provisions, &c., Officers commanding Troops should be careful to mention the same in the Certificates which will be presented for their signature by the Agents of the Ship, on the termination of the voyage.

7. All Officers proceeding to England in charge of Troops are to be furnished with a Printed Copy of this Circular and Form by the Officer superintending the embarkation.

N. B.—Commandants of Regiments, Cavalry, and Infantry, now on leave in Europe, will, on return to duty, be liable *as heretofore* to be nominated to such Corps as the Public Service may render it expedient that they should be appointed to.

2. In carrying into effect so comprehensive a measure as the new organization of the Army, it is probable in the distribution of Officers, notwithstanding the greatest care, that some errors may have crept in; the Commander in Chief therefore directs that any Officer who may conceive that his individual interests have been overlooked or compromised, will at once, in the usual way, refer his case (through the Military Secretary), for His Excellency's consideration, stating explicitly the specific appointment he anticipated to fill, or may have considered he was entitled to succeed to, with a view to affording, where necessary, the requisite redress.

3. With the sanction of Government, His Excellency lays down the following instructions for the guidance of Commandants of Corps and the Officers under their Command.

I. The Commandant will exercise a direct supervision over every detail connected with his Regiment. It is not intended by placing European Officers in charge of Wings and Squadrons, and thus assigning to them definite duties, to weaken the entire control of the Commanding Officer over every portion of the Regiment.

II. European Officers will command Wings in the Infantry and Squadrons in the Cavalry, leaving the Command of Troops and Companies in the hands of the Native Officers. The latter should act as Captains of Companies or Troops as far as possible, except as respects payment of the men and repairs of Arms and Accoutrements—for which Squadron and Wing Officers will eventually be entirely responsible and draw the regulated allowance.

III. Although Native officers will thus command Troops and Companies, European Officers may occasionally be detached or employed with single Troops or with one or two Companies when thought desirable.

IV. The Officers of Squadrons and Wings will, as far as possible, be detached with their own Squadrons and Wings, and will be responsible in quarters and the field for their appearance, discipline, and efficiency on parade. The Wing Commandants will act as Majors, and Squadron Officers Command their squadrons.

V. All the European Officers in the Infantry are to be mounted Officers and to be mounted on parade, on the line of march or in action: but doing duty Officers are only required to provide themselves with useful, inexpensive horses of charger height.

VI. The Adjutants of Cavalry and Infantry and the Quarter Masters in the Infantry, will perform the duties usually appertaining to these appointments.

VII. The Doing duty Officer of the Cavalry is ordinarily to remain at Regimental Head Quarters, unless acting in another situation for some absent Officer of the Corps; and he should have charge of such duties as would devolve upon a Quarter Master: that is, he should have charge of any public or Regimental stores or ammunition, superintend the preparation of equipment, &c. He would act as a second Regimental Staff Officer in the field, or take charge of a Squadron when necessary. If a Wing was detached he might accompany it to perform the duties of Adjutant, making over, for the time, the charge of the books in his keeping to a Squadron Officer remaining at Head Quarters. While performing these duties, he would be afforded a complete insight into the system of the Native Cavalry, and be preparing himself for any post in that branch of the service.

VIII. In the Infantry it is not practicable to assign any very specific duties to the doing duty Officer: but if one of the senior Officers was absent, he might act as Quarter Master, and if a wing was detached he should accompany it and perform the duties of Adjutant (without extra pay), or he might himself be sent in Command of a smaller detachment, if opportunity offered, after he had become acquainted with the Regimental system. He may, when at Head Quarters, assist the Adjutant in the drills, and generally be employed, under the direction of the Commanding Officer, in such manner as would tend to qualify him for the higher appointments of the Corps.

IX. Each Wing or Squadron Commandant will prepare the Muster Roll and Abstract of the Native Officers and men of his Wing or Squadron.

X. The Adjutants of Cavalry and Infantry will prepare the Muster Roll and abstract of all Officers, other than those belonging to Wings or Squadrons, as also of the Quarter Masters and Medical Establishments, Recruit Boys, Bazaar Establishment, and followers.—The Abstracts for the Mess and Band allowance are also to be made out by the Adjutant.

XI. The Muster Rolls and Pay Statements will be submitted on the first day of each month to the Commanding Officer, who will cause a General Pay Bill of the Regiment to be prepared therefrom, to be signed by himself and forwarded to the Pay Department, vouched by the Muster Rolls and Pay Statements.

XII. On receipt of the Pay the total amount for each Wing or Squadron will be paid to its Commandant, and the rest will be distributed, as due, under the direction of the Commanding Officer.

XIII. The Commanding Officer will be responsible that the Officers prepare their Muster Rolls and pay papers correctly, and will carry out the decisions of the Offices of Audit and Account.

XIV. As the Adjutant is the only Officer to whom Office allowance is given, the correspondence and papers which do not pertain to Wing or Squadron Commandants must be prepared in the Adjutant's Office, under the orders of the Commanding Officer.

XV. All Officers of Cavalry and Infantry under His Excellency's orders who are not provided for in the above appointments, will, until further orders, remain attached to the Corps with which they are at present serving, but without any claim to Staff salary; and will be appointed by Regimental Commandants to assist the Wing and Squadron Officers in carrying out their respective duties.

XVI. The Commander in Chief desires that Commandants of Corps will carefully explain to the Non-Commissioned Officers and Soldiers that they are not in any way affected by the change, either as regards present position, pay and allowances, or the Regulations to which they are accustomed. The position of the Native Officers is raised, but the terms of their service are unaltered; and it is to be remarked that they generally participated in the advantages of increased pay granted last year.—The designation "Irregular" is not to be applied to the new organization, it being a misnomer and calculated to mislead.

## Native Army, Re-Organization,

*Commander-in-Chief's Minute on the distribution of Officers.*

No. 133.—In continuation of G. O. C. C., No. 132 of this date His Excellency the Commander-in-Chief publishes for the information of the Madras Army the following Minute, explanatory of the principle upon which the Rolls for the distribution of Officers in the New Organization were framed.

MINUTE.

1. In carrying into effect the instructions of the Government, and in preparing the accompanying "Nominal distribution list of Officers" for the "revised Regiments" in this Presidency;

I have treated the question of the re-organization of the Madras Army, as "*one* comprehensive measure of reform,"—that is to say,—as a general change, involving the "*simultaneous*" creation of a "Staff Corps," together with the introduction of a "new Regimental system,"—and I have not recognized any justification for encroachment upon interests which had been guaranteed, from the circumstance of the one having been formed,—for convenience,—in anticipation of the other;—

2. A principle which I conceive it essential to preserve, notwithstanding its operation may have been delayed;—

3. I have therefore framed the first "distribution Roll," from the Army generally, as it stood on it's old organization, according to Substantive Regimental Seniority,—assigning from that list, on the one hand, the Officers for the "Staff Corps," and providing from it, on the other, for the appointments in the "revised Regiments;"

4. Thus avoiding any supersession on first transition, by junior Officers over senior in Regimental Commands,—yet without withholding those advantages in pay and position, both contingent and prospective, originally held out to the Officers electing to join the "Staff Corps;"

Although, at the same time, *not* conceding to them that *additional* supersession over the general body of Officers, which they have subsequently aspired to, from the accidental circumstance of the "Staff Corps" having been formed "*first*," in place of "*simultaneously*" with the "revised Regimental system," and their new rank having been conferred *before* the entire re-organization of the Army, as a whole, could be effected and brought into operation;

5. An excess of supersession indeed, to which, in my opinion, the Staff Corps Officers,—(knowing the guarantee given to the general body of Officers, that their position was not to be infringed)—could not in fairness have maintained any solid claim;—and to have recognized which, would have carried with it an immense injury to the interests of the other Officers of the Army:—

6. In dealing with the Commands, I have taken the general Roll of "Field Officers" according to their former substantive seniority, but in the case of "junior Officers" according to Regimental Seniority in "Corps" and "Cadres,"—a course corresponding to that which would have regulated their promotion to the rank of "Field Officers" on the previous system;—and I have disturbed as little as possible the Regimental Officers now serving with Corps:—

7. In the case of "Staff Corps Officers" available for Regimental Service, I have disposed of them so as to avoid their new rank conflicting with the interests of their former Regimental Seniors,

And I propose,—(which will be easy),—so to regulate the subsequent regimental distribution of these Officers, until the old Officers have been absorbed, and the whole service has been merged into one Staff Corps, that their new rank shall not come into irritating collision with former precedence;

8. Acting upon these principles, I trust that the "Minimum" of supersession has been secured, that the interests of the "general body of Officers" have been protected as impartially as so comprehensive a reform will permit,—while the interests of the Staff Corps Officers will have been fairly but not unduly promoted,—and that I shall have been enabled to carry out the spirit of those views impressed upon me by Sir Charles Wood, "to use no hurry, but above all things, to be careful to "compromise as little as possible, the individual interests of the Officers of the "Madras Army;"—

9. A course for action, which has guided and supported the views which I now submit for effecting the new organization, and which I sincerely trust may

have enabled me to suggest such measures as will avoid occasioning to the Officers of this Army, those feelings of mistrust, heart-burnings, and sense of injury, which too unfortunately for the maintenance of discipline and the morale of the Service, have in some instances been engendered.

10. It will be observed, that the appointments of "doing duty Officers" generally, have not yet been made; Subalterns who have passed in Hindustanee will shortly be nominated to those situations; at the same time that the few vacancies in the Regimental Staff will also be filled up :—

11. I have only to add, that having given the subject the most careful deliberation, and arrived at a conclusion in my judgment as equitable as compatible with the programme for my guidance, so I am quite prepared to assume the fullest responsibility for all the measures I have now the honor to submit :—

(Signed) J. GASPARD LeMARCHANT,

# GENERAL ORDERS

## By His Excellency the Commander in Chief.

HEAD QUARTERS, MADRAS, 8th December 1865.

At a General Court Martial held at Kamptee, on the 24th October 1865, Lieutenant John Hudleston, of the Cadre of Officers of the 18th Regiment of Native Infantry, was arranged on the following charge, viz. :—

*Charge.*—For having at Bombay, between the 15th October 1864 and the 21st May 1865, neglected to obey the General Orders by His Excellency the Commander in Chief, No. 52, dated 13th June 1864, and the Garrison Order by the Officer Commanding Malabar and Canara, dated 17th September 1864, directing him to proceed to join and do duty with the 1st Regiment Native Infantry, then stationed at Hossungabad, by remaining during that period in Bombay, without leave.

*Finding.*—The Court on the evidence before it and in the absence of any defence, is of opinion that the Prisoner Lieutenant John Hudleston, of the Cadre of Officers of the 18th Regiment of Native Infantry is

*Guilty of the Charge.*

*Sentence.*—The Court sentences the Prisoner Lieutenant John Hudleston, of the Cadre of Officers of the 18th Regiment of Native Infantry, to be severely reprimanded.

KAMPTEE, 25th October 1865.

The Court is hereby revised for the purpose of re-considering their sentence, which I consider to be wholly inadequate, for the crime of which the Court has found the prisoner guilty.

(Signed) J. GASPARD LE MARCHANT,
Commander in Chief.

OOTACAMUND, 13th November 1865.

*Revised Sentence.*—The Court having most maturely weighed and considered the Remarks of His Excellency the Commander in Chief, sentences the Prisoner Lieutenant John Hudleston of the Cadre of Officers of the 18th Regiment of Native Infantry, to be severely reprimanded.

KAMPTEE, 24th November 1865.

REMARKS BY THE COURT.

The Court beg most respectfully to submit (with reference to the 127th Article of War), that in consequence of the Prisoner, as appears by the Army List, being at the bottom of the List of Lieutenants in the Cadre of his Regiment, and holding no Army rank distinct from his Regimental rank, the only alternatives left are Reprimand, and Dismissal, or Cashiering; and as the Court consider dismissal too severe for the occassion they are compelled to adhere to their former Sentence.

KAMPTEE, 24th November 1865.

Confirmed. But disapproved.

The Sentence being totally incommensurate for the offence.

(Signed) J. GASPARD LE MARCHANT,
Commander in Chief.

MADRAS, 6th December 1865.

REMARKS BY HIS EXCELLENCY THE COMMANDER IN CHIEF.

The Court has misinterpreted its powers under the 127th Article of War, which, in providing that any Commissioned Officer may be sentenced to loss of Army or Regimental rank, and pointing out the manner in which such loss may be inflicted on Officers under the rank and degree of a Field Officer, and on all *Superior* Officers, provides also that in *all cases* where the Officer so sentenced to loss of rank, holds Army as well as Regimental Rank, the loss of Rank may be inflicted in either or both of those Ranks. Lieutenant Hudleston though at the bottom of the List of his Grade in the Cadre of his Regiment, holds Army Rank as Lieutenant also, with many below him ; and was therefore subject to be reduced to the last, or to any other, place on the List of that Grade.

By order of His Excellency the Commander in Chief,

(Signed) J. M. PRIMROSE, Colonel,
*Adjutant General.*

Lieutenant Hudleston is to be released from arrest and directed to return to his duty.

By order of His Excellency the Commander in Chief.

J. M. PRIMROSE, Colonel,
*Adjutant General.*

HEAD QUARTERS, MADRAS, 19th December 1865.

**Camp Equipage. Epidemics Disinfectants.**—No. 162.—The Commander in Chief, with the sanction of Government, is pleased to lay down the following rules for guidance, regarding the disposal of tents, hospital cots, punkah-fringes, and ropes, clothing and bedding, in the event of contageous diseases breaking out in Military stations.

I. *Tents used as a Cholera Hospital.*—Tents occupied as a cholera hospital should be disinfected by one or other of the following gaseous disinfectants, chlorine, nitrous acid, or sulphurous acid, and subjected to the action of boiling water or of steam when boiling is not practicable, then pitched and exposed to the action of the sun and wind until thoroughly dried. The process of disinfection should be conducted before the return of the hospital tents to Cantonments. If they have been used in cholera camps and if they have been used in Cantonments, it is desirable that they should be taken to some out-of-the-way but airy spot outside Cantonments, to undergo the process of washing subsequent to fumigation, which should be conducted before the tents are struck, wherever they may have been standing when in use.

II. *Tents used as a Small Pox Hospital.*—During the prevalence of an epidemic of small pox, or as long as fresh cases may be expected to occur, the tents should be disinfected on the spot each time that they are vacated, as directed in Rule I, and afterwards subjected to the action of boiling water, then pitched and exposed to the action of the sun and wind, and finally stored separately until required for the accommodation of small pox patients. When they are no longer required for this purpose, they should be destroyed in the presence of a responsible and trustworthy person.

III. None but old tents, or those nearly unserviceable, should be used for the cover of small pox patients.

IV. *Cots, Punkah-fringes and ropes.*—It is not necessary to destroy either the cots, punkah-fringes, or ropes, used in small pox and cholera hospitals when they can be immediately subjected to the prolonged action of boiling water, on the vacation of the buildings for their purification on the cessation of the epidemic in the case of small pox, or on the removal of the Troops into camp in the case of cholera.

V. Before being re-painted, furniture should be subjected to the action of hot caustic limewash, which will destroy the organic matter with which it is brought into contract. It will only be expedient to burn wooden cots used by small pox patients, when their purification in boilers, like those used for destroying bugs in soldiers' cots, cannot be effected.

VI. *Clothing being private property.*—All articles of clothing belonging to persons affected by contagious diseases, and worn at the time of their admission to Hospital shall, if practicable, be cleansed by exposing them to the fumes of sulphur, ignited over a charcoal fire, after which the articles of clothing are to be boiled for from half an hour to an hour. They are subsequently to be exposed to the air and sun for two or three days, when they should be packed away for subsequent use.

VII. If from the number of sick under treatment or any other certified cause, it may not be practicable to clean and disinfect the clothing in the manner prescribed, it must be destroyed by fire in the presence of a Medical Officer.

VIII. Compensation will be allowed for clothing so destroyed, provided that it be shown that the expenditure was unavoidably required for the public safety. The Government will however require in each instance a full explanation of the circumstances making the destruction of the clothing necessary. But the destruction of bedding and body linen is really a question of time, for in any given cases, if their destruction can be safely deferred till a convenient opportunity offers, the ground for expediency has ceased to exist, and the destruction of the poison in the washerman's boiler can be affected without the sacrifice of the cloths. To destroy accumulations of good but infected bedding and clothing, when it would be equally easy to boil them as to burn them, would be wanton waste.

IX. *Hospital Bedding and Clothing.*—Hospital bedding and clothing used by patients affected with cholera and small pox, are to be purified whenever practicable, in the manner laid down in paragraph VI. Should however the number of patients under treatment render the instant purification of the clothing impracticable, it must be destroyed by fire in the presence of a Medical Officer, who will be required to certify to the necessity of the measure.

X. *Mattresses.*—Coir Mattresses should never be used for patients laboring under contagious maladies. Paillasses stuffed with clean straw are more easily cleaned, and if they have to be destroyed, they can be re-placed at a comparatively slight expense.

XI. In carrying out the foregoing orders, the Quarter Master General's, the Ordnance and the Medical Departments, are to act in communication with each other; and no destruction of property is ever to take place without a full report of the same being forwarded from the Officer Commanding the Station to the Commander in Chief, in whatever Department the transaction may occur.

XII. *Disinfectants.*—The following instructions by the General Board of health for the preparation of chlorine gas-nitrous acid and sulphurous acid, are appended for general information.

"Gaseous disinfectants."

1. "Chlorine gas may be procured by mixing three parts (by weight) of binoxide of manganese, "with one part (by weight) of common salt. These should be placed in a large open vessel of glass or "earthenware, capable of holding several times the quantity of the ingredients used, and acted upon by a "mixture of two parts (by weight) of sulphuric acid (commonly known as oil of vitriol) and one part of "water; or, one part (by weight) of the binoxide of manganese may be mixed with two parts of hydro-

"chloric acid (commonly called muriatic acid). The evolution of chlorine gas soon takes place; and "will continue for some days, if the operation be left to the chemical action of the ingredients alone. "The application of a gentle heat by means of a lamp or charcoal fire placed underneath the vessel, will "facilitate the evolution of the gas, and complete the operation in a few hours. A vessel containing "these ingredients should be placed in every room required to be disinfected, and the doors and windows "must be carefully closed during the process."

2. "Nitrous acid, in the form of vapour has, in some instances, been successfully employed in "checking the progress of fevers, and in disinfecting buildings and the interior of ships."

"This acid may be obtained by pouring half an ounce (by weight) of nitric acid over an equal "quantity of copper turnings or the powder of starch. These quantities are sufficient to disinfect a "room of ten feet in each dimension; and it is advisable, in larger apartments to multiply the number "of vessels rather than introduce larger quantities of the materials into one vessel, as the fumes given "off might seriously affect the operator, who should retire as quickly as possible after the action has "commenced. As in the case of chlorine, the rooms should be kept carefully closed for several hours."

3. "Sulphurous acid has also been found useful in arresting the progress of contagious dis- "orders."

"This acid is produced in a gaseous form, when sulphur is burned in the air. It is also procured "by heating sulphuric acid with copper filings, or powdered charcoal. For the purpose of disinfection, "it may be prepared by melting one or two ounces of the flowers of sulphur or brimstone, in a pipkin "or iron pot, and placing the vessel in the middle of the room to be disinfected. It should then be set "on fire by means of a lighted match and allowed to burn out. The same precautions should be "observed, as in the cases of chlorine and nitrous fumes.
