† Madras G. O. G. 29th August 1873, page 176.

The lectures will be given exclusively from "*Clery's Minor Tactics*," but at the same time it should be kept in view that the subject consists for the most part in the application of the principles of drill treated of in the Field Exercise Book, to which constant reference should be made by instructors.

24th June, 1875.

The following General Orders by His Excellency the Commander-in-Chief in India, are re-published :—

Head Quarters, Simla, 7th June, 1875.

Lord Napier of Magdala has much pleasure in publishing to the Army a General Order issued by the Government of India, on the behaviour of a detachment of the 28th Punjab Native Infantry, which escorted Colonel Browne's mission from Burmah to Western China.

Colonel Browne has reported that Havildar Mana Singh, the senior non-commissioned officer, supported by Naicks Warriam Singh and Dewa Singh, with twelve men, when suddenly attacked, defended the mission throughout the whole day of the 22nd February, repulsing the repeated attempts of overwhelming numbers to carry their position.

By their gallantry and steadiness they extricated the British Mission from a perilous position, and saved the public property under their charge.

The Commander-in-Chief has the utmost gratification in announcing to the non-commissioned officers and men of the detachment of the 28th Punjab Native Infantry, the rewards bestowed by the Government of India for their faithful and soldierly conduct.

No. 529, *dated* 21*st May* 1875.—The Right Hon'ble the Governor-General in Council, having received a report of the excellent conduct of the small detachment of the 28th Regiment Punjab Infantry, which accompanied the late mission to Western China when it was attacked in force on the 22nd February 1875, desires to mark the sense entertained by the Government of India of the gallant and good service rendered by all the party on that occasion under very trying circumstances, and especially by the Havildar and two Naicks who are reported to have carried out all the orders they received with intelligence and in a prompt and ready manner.

The promotions and admissions to the Order of Merit will take effect from the 22nd February 1875, and they will remain supernumerary in their new grades until their turn for promotion comes in ordinary course.

Each sepoy of the detachment is granted a donation of one year's batta.

The above order is to be read at the head of every regiment, or detachment of Bengal* Cavalry and Infantry, at a parade ordered for that purpose.

GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF.

HEAD QUARTERS, OOTACAMUND,
20th July, 1875.

The following General Order by His Excellency the Commander-in-Chief in India, is re-published:—

Head Quarters, Simla, 2nd July, 1875.

At a General Court Martial, assembled at Nowshera, on Wednesday, the 2nd day of June 1875, Jemadar Behzad, of the 27th Punjab Regiment of Bengal Native Infantry, was arraigned on the following charges:—

CHARGES.

1*st*. Behaving in a manner unbecoming the position and character of a native officer, in having, at Nowshera, on or about the 13th of March 1875, when in charge of a party of his regiment at target practice, knowingly and wilfully ordered and permitted a false entry in the target practice register, to the effect, that Naick Appar Sing had fired and made a bull's eye; whereas, as he, Jemadar Behzad, well knew, Havildar Prem Sing had fired, instead of Naick Appar Sing.

2*nd*. Neglect of duty, to the prejudice of good order and military discipline, in having, at Nowshera, on or about the 13th of March 1875, when in charge of a party of his regiment at target practice, failed to report to superior authority, that Havildar Prem Sing had fired for Naick Appar Sing, and that a bull's eye made by the former had been improperly scored to the latter.

FINDING.

The court finds, that the prisoner, Jemadar Behzad, of the 27th (Punjab) Regiment of Bengal Native Infantry, is guilty of the charges.

SENTENCE.

The court sentence the prisoner, Jemadar Behzad, of the 27th (Punjab) Regiment of Bengal Native Infantry, to be suspended from rank, pay and allowances for the period of (3) three calendar months.

(Signed) DASSOONDAH SING, Subadar,
27th Regt. P. N. I.,
President.

NOWSHERA, 2nd June, 1875.

APPROVED AND CONFIRMED.

Jemadar Behzad, Havildar Prem Sing, and Acting Havildar Appar Sing, of the 27th Punjab Native Infantry, have been found guilty of being concerned in a false entry at target practice, whereby a score made by Prem Sing was recorded in favor of Appar Sing.

In the same regiment Havildar Hashim Khan and Naick Gholam Shah were found guilty of a similar false entry, by which Naick Gholam Shah, after firing his full number of rounds, obtained a bull's eye with a cartridge received from Private Mahomed Allam.

The Court Martial which tried these offences has sentenced the Jemadar Behzad to suspension from rank, pay and allowances for three months; and the Havildars and Naicks to reduction to the ranks, with the addition, in the cases of Prem Sing Havildar, Acting Havildar Appar Sing, and Naick Gholam Shah, of various terms of imprisonment.

The Court Martial before which Jemadar Behzad was tried has recommended him to mercy, on account of his long and meritorious services, and the numerous campaigns in which he has served.

I have accepted the Court's recommendation in favor of Jemadar Behzad, on consideration of his distinguished services in the field.

I am willing to believe that these soldiers, all of whom have previously borne good characters, did not thoroughly realise the dishonorable nature of the acts which they committed; their unfairness to their comrades in their own and other regiments, and especially the injury they were doing to the credit of their own regimental records of shooting.

In remitting the punishment of Jemadar Behzad, I remit also the sentences of the non-commissioned officers previously named, whose misconduct is in some degree extenuated by the connivance of their superior officer; but I desire to warn the soldiers

of the Native Army of the serious nature of this misconduct; a repetition of it will not only cause the severe punishment of the persons found guilty of it, but will destroy the claims of regiments to all prizes for good shooting, and all credit for any success they may have gained. It therefore behoves every soldier immediately to check the least tendency to unfair scoring that comes to his notice.

These remarks, together with the sentences of the Court Martial, will be read to every regiment, troop, and company of the Native Army.

The Court, of which Subadar Dassoondah Sing, of the 27th Punjab Infantry, is President, has faithfully performed a very painful duty.

(Signed) NAPIER OF MAGDALA, General,
Commander-in-Chief in India.

SIMLA, June 25th, 1875.

The foregoing order will be read to every regiment, troop, and company of the Madras Native Army.

By order of His Excellency the Commander-in-Chief,

ROB. C. STEWART, Brigadier-General,
Adjutant-General.

The following General Order, by the Government of India in the Military Department, is re-published :—

No. 848, dated 20th August 1875.—In the G. G. O. quoted in the margin, rules were laid down for the investigation of claims preferred by officers of the Indian Army for compensation for loss of sums paid up to the 18th February 1861 for the purchase of promotion.

* No. 212 of 1867.
† „ 607 „

2. These claims were restricted to officers of the late Indian Artillery and Engineers below the grade of Colonel Commandant or Colonel with Colonel's allowance, and to officers of the Cavalry and Infantry, including the new Line Corps and the several Staff Corps, below the rank of Lieutenant-Colonel, and they were made subject to the following deductions :—

I.—Of all sums paid to officers transferred to the invalid establishment.

II.—Of the advantages of pay gained by accelerated promotion.

III.—Of the value of any special annuity received on retirement.

IV.—Of the amount a retired or retiring officer might have received, or might expect to receive, from the juniors of his regiment or cadre, or from his regimental retiring fund.

3. The Right Honorable the Governor-General in Council is now pleased to promulgate for general information the following extract of a despatch from the Secretary of State No. 165 of 24th June 1875, withdrawing wholly, or in part, the first three of the above deductions, and removing in certain cases the restrictions as to rank :

" The principles upon which the revision is to be made are as follows :

"The claims made by each officer must be carefully investigated, and shown upon sufficient evidence to represent, and be limited to, sums actually paid by him in the course of his service towards purchasing the retirement of his seniors or their transfer to the invalid establishment.

" The deduction heretofore made on account of the value of accelerated promotion is to be withdrawn.

" The objection on account of any special annuity granted by the Government on the officer's retirement, except in cases such

as those of the General Order of the 1st January 1875, where the stipulation is distinctly made, is also to be withdrawn.

"A claim to bonus compensation advanced by an officer above the regimental rank of Major is only to be admitted in cases where the claimant can produce satisfactory evidence that had he retired from the service on or before the 18th February 1861 in the regimental rank in which he ultimately retired, he would, under the established practice of the regiment or branch of the service to which he belonged, have received a bonus on retirement from his brother officers not less than the amount of subscription the refund of which he now claims. Officers will still be debited with any sums they may receive from their brother officers on retirement, and no officer whose retirement from the service may be compulsory will be considered entitled to compensation for loss of bonus."

4. In accordance with this decision, all claims hitherto received and disposed of in India from the year 1867 up to the present time will be carefully revised by committees in the three presidencies.

5. The proceedings of the committees will be regulated by instructions which will be furnished to them hereafter.

6. Any sums due to officers under this revision will be paid in India if the officers are residing in this country, and at the India Office, if they are residing in Europe.

7. All applications under this order from officers who have hitherto made no claims, and all claims by officers who may retire in future, must be made (in the case of the latter after their retirement) direct to the Secretary of State for India.

Head Quarters, Simla, 27th August, 1875.

By direction of the Commander-in-Chief, the annexed returns of the Annual Musketry Practice of the British and Native troops, Madras Presidency, for the course 1874-75, are published for the information of the Army.

II. The results of the course are generally satisfactory.

1. *European Troops.*—The course was very regularly and carefully conducted by all; there were no serious irregularities brought to notice; and the registers and returns were very well and correctly kept.

2. The 43rd, 44th, and 67th Regiments are steadily improving.

1. *Native Army.*—The annual course was very fairly conducted.

2. The percentage of non-exercised men is very satisfactory, being only about one (1) per cent.

3. Sir Frederick Haines notices with approval the marked attention paid by the officers of the Native Army to this very important part of the soldier's instruction. His Excellency is glad to learn that they have (with very few exceptions) been unflagging in their exertions to properly instruct and train their men, and the results have been very satisfactory.

Extract from Division Orders by Major-General Borton, C.B., Commanding Mysore Division.

Bangalore, 15th September, 1875.

Major-General Borton cannot resign the command of the Mysore Division, which he has held with so much satisfaction during the past five years, without placing on record the high sense which he entertains of the support which he has received, at all times, from the officers who have, from time to time, been placed in command of corps, and at the head of the several departments.

He more especially desires to convey his best thanks to those who are now serving under him.

The duties of the Assistant Adjutant-General and Assistant Quartermaster-General have been performed with equal zeal and ability by Lieutenant-Colonel Arbuthnot and Lieutenant-Colonel Mesham.

The Deputy Surgeons-General of both the British and Indian Medical Departments have been indefatigable in their exertions to maintain the health of the troops. The Commissariat and Barrack Departments have performed their duties most efficiently, and the Officers Commanding corps and batteries have exerted themselves so successfully to maintain discipline and promote the general efficiency of their men that His Excellency, Sir F. P. Haines, the Commander-in-Chief, was pleased to express his marked approval of the state of the troops at his recent inspection of this Garrison.

Major-General Borton will always look back to the period of his command of the Mysore Division with unmixed satisfaction, and retain a lively interest in its welfare.

So large a portion of the Madras Army has, in the course of Major-General Borton's tenure of command, served in the Mysore Division, that his local order on relinquishing that high position

cannot fail to be of public interest in this Presidency. The Commander-in-Chief therefore publishes to the Army the above Mysore Division Order, and, in doing so, has much gratification in recording his sense of the sound judgment General Borton has ever displayed both in enforcing the discipline and in maintaining the efficiency of the troops that have served under him.

His Excellency cordially acknowledges the loyal and ready support which has always been afforded him by Major-General Borton on all occasions involving doubt or difficulty. No Officer could be more solicitous for the comfort, welfare and good name of those placed under his command than Major-General Borton. The good wishes of all follow him, and in these the Commander-in-Chief heartily joins.

By order of His Excellency the Commander-in-Chief,

ROB. C. STEWART, Brigadier-General,

Adjutant-General.

GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF.

HEAD QUARTERS, OOTACAMUND,
2nd October, 1875.

The following General Orders, by His Excellency the Commander-in-Chief in India, are re-published:—

Head Quarters, Simla, 6th September, 1875.

With reference to the approaching Camp of Exercise at Delhi, the Right Honorable the Commander-in-Chief desires the attention of General and Commanding Officers to the following instructions:—

Infantry attack in open country.

1. All plans for attack (or defence) must be based on as perfect a knowledge of the ground and disposition of the enemy as can be obtained from existing maps and by close reconnaissance.

2. A well considered and clearly defined project of attack must be prepared and communicated by the general officer commanding, to officers commanding divisions, brigades or regiments, as the case may be; and by the commanding officers of regiments to commanders of companies. Every disposition preparatory to attack must be carefully completed; and the directing body and objective point named, before the final signal for advance is given. When once committed to the attack, it must be steadily carried through to its ultimate issue, without hesitation or delay, and as rapidly as the circumstances demand or permit.

3. It may be well to give the men brief breathing space, either lying down, or under cover if it be available, just before entering the zone of effective infantry fire.

4. Brigades will generally consist of three regiments, and the regiments be divided into eight companies.

5. The order of battle, preparatory to entering the zone of artillery fire, will be to pass from columns of route, covered by advanced guards and flanking parties, to a line of brigades in mass at battalion deploying distance, and thirty paces; the

battalions advancing in double columns from their respective centres.

6. On entering the zone of artillery fire at from 3,000 to 2,500 yards, the two centre companies of the leading battalions will extend in rank entire, with one pace between each man, so as to cover the front of the battalion when deployed; followed as a support, at a distance from 100 to 200 yards, by the next two leading companies similarly extended.

7. The remainder of the battalion deployed, but with company intervals, will follow at a distance of 200 or 300 yards.

8. The centre regiments of brigades will form the second line, and deployed in line, (with the exception of the flank battalions which will advance in double column of companies from their outer flanks, or in column from the outer flanks of half battalions) will support the first line, following the reserve of that line at a distance of about 500 to 600 yards.

9. The rear regiments of brigades will follow in original formation in a line of double columns, at a distance of from 500 to 600 yards.

10. The attacking force would as a rule be superior to the defence. In case, however, of the front not being sufficiently extended to overlap the flank or flanks of the defence, as may be desired, the required extension of the firing line must be directed on the formation of line of battle, according to project of attack and configuration of ground, from battalions in 2nd line either in the centre, or on the flanks. Any extension, however, after movement, or committal to attack, must be on the flanks. In such cases the 3rd battalions of brigades would move up to 2nd line in immediate support to the leading battalions of its own brigade. Should a flank attack or other strategical movement be projected, the troops for the same would be previously told off, conveniently located, and not mixed up with those detailed to carry out the frontal attack.

11. So soon as opportunity offers, the general commanding the attack must avail himself of the utmost concentrated artillery fire at his command, directed by the officer commanding that arm, to keep down the fire of the enemy and cover the infantry advance as far as practicable.

12. It is of great importance that the firing line should advance as rapidly as possible over the space under artillery and extreme musketry fire, to within the effective range of four or five hundred yards. Men advancing to the attack firing at long ranges against an enemy in position, uselessly expend ammunition, which, under fire, cannot be replaced, and unnecessarily suffer loss by retarding the rapidity of the advance.

13. The firing line advancing under musketry fire to effective range, must do so on the principles and in any one of the forms,

according to the nature of the ground, laid down for skirmishing in the Field Exercises.

14. Gaps in the firing line will be filled by men from the support, which must rapidly follow the first line, by the alternate forward movement of companies or other named bodies, invariably lying down or availing themselves of cover when not moving. To insure the continuous maintenance of the first line in strength, the majors in command of the half battalions will remain with the supporting company of their half battalions, and be responsible for the feeding of the firing line until its arrival within about 300 yards of the enemy, when the whole of this supporting line will push forward and join the firing line; the reserve under the commanding officer reducing its distance from the front, and if necessary reinforcing the attacking line, at the moment previous to advancing to the final assault.

15. Captains of companies must be as little interfered with as possible in their legitimate commands, while to the field officers, on such occasions, especially appertains the keeping up of the communication, the provision of reinforcements, and the maintenance of the firing line intact.

Nothing in modern warfare requires more attention than the control of fire, and while captains command the companies, the subalterns and non-commissioned officers must throughout use their utmost exertions to control the fire of the men of half companies, and sections, immediately near them, and be continually on the watch to keep the right direction. The officer commanding the body of direction will adopt the necessary measures for maintaining the line of direction on the named objective point.

16. Should the leading line of battalions become entirely engaged, the second line must move up to support, and to this line in its advance especially belongs, in conjunction with the cavalry, the protection of the flanks of the attack. As any serious flank attack must be felt along the whole front, the flank battations, in column, must always be ready to move out and meet any such movement; their place in second line will be immediately filled up from the following battalion of the same brigade in the third line; or if such attack is more serious than can be disposed of by a single corps, it must be met by movements directed by the general officer in command of the flank division.

17. On attainment of a position, the officer commanding must secure and profit by the advantages gained; the existing object of the fight may be followed up; but the troops immediately engaged must as soon as possible be reformed, and in case of further action fresh troops should be employed from those in the reserve lines.

18. It will be observed that these remarks generally apply only

to the attack of an enemy in a defensive position in open country. Contingencies of war varying with country and circumstances may not require such special procedure, but there is nothing in these instructions prohibitive of that free scope given in the regulations to every commander to use the troops, trained as they are for every contingency, in that manner which the speciality of the occasion or position demands, and which is fully provided for in the Field Exercises.

Infantry defence.

19. The dispositions for defence must depend on the nature of the ground to be held. It may be assumed that there will be some natural cover, in a position taken up for defence, or that its absence will be compensated for by shelter trenches or artificial cover of some kind. Behind this shelter the defenders should be so placed that they shall be able to use their rifles with the greatest effect and accuracy, which would probably be with intervals of a pace between each man. The supports should be as near as possible, so as to have the minimum of exposure in moving up to supply vacancies, or to reinforce the firing line.

20. In a defensive position, with available cover, the distances of the approaching attack will probably be known, and so soon as within range it should be plied with the maximum amount of steadily aimed musketry fire, supported by artillery, and commanding positions in advance of the main defence should be strongly held and maintained. No favorable opportunity should be lost of making a counter attack with the supports or reserves and of turning the defensive into an offensive movement.

Artillery.

21. Artillery covering an attack should come into action on a flank to avoid as far as possible its fire being masked by its own troops. It will, however, occasionally happen that it must fire over its own infantry as the latter approaches the enemy's position, and, the range having been correctly determined, this can be done with safety until the infantry have commenced their final rush.

22. Artillery having got within effective range should make as few movements as possible. Short advances should never be made merely for the sake of the slight increase of accuracy due to the shorter range, as it does not compensate for the loss of time in moving, and obtaining the range from the new position.

23. It has been held that as a general rule artillery should not fire against artillery, but, like other rules, it has a great many exceptions.

24. If artillery were supporting an attack on a position or body of the enemy, its first object of fire would be that part of the enemy directly opposed to the attacking force or holding the objective point on which the attack was directed. The officer commanding the artillery would also consider what proportion of his artillery he should direct on such other parts of the enemy as could direct a fire to impede the advance of the attack, whether that fire was one of infantry or artillery.

25. If the attack would be subject to greater obstruction from the enemy's supporting artillery than from the direct defence, then undoubtedly that artillery should be engaged by the artillery of the attack.

26. If the direct defence is partly composed of artillery, that of course ought to be silenced if possible.

27. After the supporting artillery have done their best to damage the immediate front attacked, or as soon as their fire becomes masked by their own attack, they should direct it on such part of the enemy, either artillery or the reserves, which would best prevent their supporting the defence.

28. The artillery of the defence may have favorable opportunities of disabling the enemy's guns in their advance or when coming into action, before the infantry of the attack has advanced within effective range, and such opportunities should not be lost; but when the attacking infantry has come within effective range, the artillery of the defence should as a rule direct its fire on them only.

UMPIRE RULES.

The following are the rules to be observed by the Umpire Staff at the forthcoming manœuvres :—

1. The Umpire Staff will be distinguished by a broad white band round the right arm, above the elbow, and will appear in "Field Day Order."

2. All orders from the Umpire Staff are to be considered as directly emanating from the Umpire-in-Chief, and are to be carried out with alacrity.

3. Umpires, on the evening before a day's operations, will receive copies of the "Special Orders" communicated to generals commanding divisions and brigades; they *must* consider these orders *strictly confidential*. Generals commanding divisions and

brigades will impart to the umpires attached to them their intentions, and keep them informed throughout the day's proceedings of any proposed alterations.

4. Umpires will decide on the spot all questions connected with artillery, cavalry or infantry.

5. No general or other officer commanding a brigade, regiment, or battery, is, on any account, to enter into a discussion with the Umpires, who on their part must avoid offering any criticism on the manner in which the troops are handled.

6. An Umpire, with one or two assistants, will be attached to every brigade, and, if possible, to any independent body of troops. Each Umpire should be acquainted with the strength and position of the different portions of the body to which he is attached. When there is a prospect of collision, the Umpires from each side should meet, and, after communicating the strength and position of their forces, decide which is to retire.

7. When two Umpires differ in opinion regarding a decision, lots are to be drawn on the spot as to which is to be acted upon ; the senior present will deliver the decision as that of both.

8. Assistant Umpires attached to Umpires will assist them in ascertaining the strength and position of the troops, the number of guns in position, and the object on which such guns are firing. They are not entitled to give a decision, but can, on their own authority, in order to prevent a collision, order a body of troops to halt until the decision of the nearest Umpire is communicated.

9. Loss is to be estimated by half troops, half companies, a gun, or other larger units. Such units should at once be marched to their own camp or bivouac, and remain out of action the remainder of the day.

10. The Umpires will decide on the actual present circumstances, without a reference to their effect on the general course of the manœuvres. At the conclusion of a day's proceedings Umpires will forward to the Secretary of the Umpire-in-Chief a brief and concise report of the day's proceedings, accompanied by a statement of the circumstances connected with any decision they may have given, together with a sketch of the positions of the troops at starting, and at the points of attack ; and at the close of the day, these positions will be recorded on the general map in the Umpire's tent, and shown by Kriegspiel pieces for the information of the Umpire-in-Chief, whose final decision will be subsequently promulgated.

Principles to guide the Umpire Staff.

(These are given as general guides, and must be modified at the discretion of the Umpires, to suit the varying conditions which will occur.)

11. If infantry are judiciously posted in a strong position, but without more cover than is afforded by the accidents of the ground, they cannot be dislodged by a front attack by less force than 2 to 1. The attacking force will lose 1-4th of its strength if unsuccessful, 1-6th if successful. The defending force will lose 1-4th if dislodged.

12. If infantry are posted behind a shelter trench, bank, or other equivalent cover, suitably disposed, they cannot be dislodged by a less force than 3 to 1. The attacking force will lose 1-3rd of its strength if unsuccessful, 1-4th if successful. The defending force will lose 1-4th if dislodged. These attacks (paras. 11 and 12) must be prepared by artillery.

13. If troops in position are attacked in flank in sufficient force they must retire.

14. Cavalry cannot attack infantry in formation unless they take them in flank or rear, or by surprise. If for a tactical reason it is necessary for cavalry to attack infantry in formation otherwise than as above stated, they will be held to have lost 2-3rds of their force.

15. Cavalry and artillery must not remain halted under the effective fire of infantry or artillery. Effective Fire of Arms :—Infantry—700 ; Artillery, F. A.—2500 ; H. A.—2,000 ; Cavalry dismounted—400.

16. Artillery limbered up, unsupported, when attacked in flank by cavalry, are to be considered taken. Cavalry attacking artillery in position in front except in skirmishing order, are to be considered repulsed.

17. Guns limbered up, if unsupported or weakly protected, may be captured by infantry skirmishers.

18. The fire of four companies would put *hors-de-combat* a number equal to a company of infantry or a squadron of cavalry, not under cover, in ten minutes, at a range of 500 yards.

19. A battery of artillery firing at infantry or cavalry halted, in close formation, at 1,500 yards, will put *hors-de-combat* a number equal to a company of infantry or a squadron of cavalry, in ten minutes.

20. Twelve men well posted will prevent the passage of a defile, such as a hollow road, or bridge by cavalry, until driven back by a superior dismounted force.

Destroying and Repairing of Bridge.

21. If the necessary tools and materials have been brought to the spot, a bridge can be destroyed in a quarter of an hour.

When practicable, an Umpire will always visit a bridge about to be destroyed or repaired, and, if on the spot, will decide when the demolition or repair is complete; if no Umpire is present, the means that have been adopted and the time occupied is to be stated in writing, and left in charge of one of the party, who will wear a white distinguishing mark on his left arm, and will be considered as a neutral.

22. (*a*) If ready prepared materials are supposed to have been brought to the spot (which will be indicated by the presence of sufficient wagons and sappers,) or if such materials are clearly on the spot, a bridge can be repaired in half an hour.

(*b*) If materials have to be collected, one and a half hours. It may be possible, however, to collect sufficient materials for the passage of infantry in half an hour.

Shelter Trenches.

23. If circumstances will not allow of the troops actually throwing up trenches, they must be indicated by white tape stretched on pickets, about 3 feet high. It must be seen to the satisfaction of the Umpires that the necessary transport for tools was on the spot. A shelter trench can be made available in half an hour.

24. When troops are prevented deploying by crops, tabbooed ground or other accidents which would not prevent their doing so in actual war, they may, if the commanding officer wishes it, be considered deployed.

Rules to be observed by the Troops.

25. The opposing forces will be dressed in different colors.

26. If no Umpire is present when a doubtful point occurs, a general officer or brigadier may send for one, the troops remaining halted till he arrives.

27. *No troops are to approach within* 150 *yards of an opposing force* (except in a flank attack from cover when 100 is the limit,) and no firing of any sort to be allowed at a less distance. As a general rule, except in a flank attack, the weaker body should retire; if for any reason it does not do so before the limit laid down is attained, the opposing forces are to halt, order arms, and wait until the Umpire decides which is to fall back.

28. Beaten cavalry must retire at a trot. Victorious cavalry may follow at a walk at 300 yards distance.

29. When infantry are defeated by infantry (according to the Umpire's decision) the victors may pursue at 300 yards distance. The defeated infantry cannot reform for attack until they have been rallied in rear of supporting troops, or shelter.

30. The "Cease Fire" and "Halt" are on no account to be sounded by any regiment for the purpose carrying out regimental details, but words of command only or to be issued.

31. In action infantry are never to fix bayonets or cavalry draw swords.

32. Villages with troops formed in front of them are to be considered as occupied.

33. All hurry or forced rate of marching (except in reinforcing skirmishers or seizing a position under fire) is to be prevented.

34. It is essential that the most economical use of ammunition should be inculcated and enforced. Infantry will not commence operations with more than 15 rounds in pouches (see Rule 24). Troops are not to be supposed to be in possession of any ammunition which they do not actually carry.

35. To avoid accidents railways are only to be crossed by the regular bridges and crossings.

36. Firing near buildings or stack yards should be avoided as much as possible, and every precaution taken to guard against fire.

37. Repeated attacks by the same body of cavalry are absurd and impracticable in real battle.

38 When the "Halt" is sounded the troops will at once obey the order, cease firing, and lie down,—cavalry dismounting. *No movement of any kind* except retiring (by order of an Umpire,) is to be permitted. When the advance is sounded the engagement will be resumed. When the "Cease Fire," followed by the "Assembly," is sounded, officers commanding divisions and brigades will repair to the Umpire in Chief, and the troops will form up and wait for orders. An Umpire may order the "Halt" to be sounded by any body of troops, if he thinks there is danger of collision.

By order of His Excellency the Commander-in-Chief,

ROB. C. STEWART, Brigadier-General,

Adjutant-General.

HIS EXCELLENCY THE COMMANDER-IN-CHIEF.

ADJUTANT-GENERAL'S OFFICE,

Fort St. George, 21*st October*, 1875.

The following General Orders, by His Excellency the Commander-in-Chief in India, are re-published :—

Head Quarters, Simla, 27*th September*, 1875.

1. The following instructions regarding the discharge of soldiers of the British Forces, and the preparation of their discharge documents, are published for information and guidance in the approaching discharge season. A copy will be placed before all Discharge Boards.

Commanding Officers should recollect that unless the documents of men for transfer to England are sent to the Deolalee Depôt complete in every respect—and attention to these instructions will ensure that object—the men cannot be embarked.

2. The embarkation of all soldiers for discharge out of India will be effected between the 14th November current and the 8th April 1876, and no soldier is to be despatched from his regiment unless he can reach the port of embarkation by the latter date.

3. All men not provided for in the troopship's distribution statement prepared by the Quartermaster-General, whose destination is the United Kingdom, and who are entitled to a passage at the public expense, will be sent to(*a*) * * *

4. All men entitled to free passage, destined for the Mauritius or Cape of Good Hope, must be despatched to the Deolalee Depôt to embark in private vessels from Bombay. Men proceeding to other colonies will be sent either to Calcutta (*b*) or Deolalee as may be most convenient, but in every instance they should not leave their regiments until the Transport authorities at

Bombay or Calcutta(*a*) (as the case may be) have notified that they are prepared to receive them.

Note.—The object of the reference is to provide against men whose service must expire before they are embarked, or for whom passages cannot be readily found, being detained at the depôts for unnecessarily long periods.

Officers commanding regiments should forward without delay to the Transport authorities concerned a return of men for whom passage will be required, naming the probable date.

5. Men proceeding to the colonies *viâ* Calcutta(*a*) should be informed, before leaving their regiments, that they have to defray their own expenses on shore at Galle, where they are sometimes detained ten or twelve days when proceeding by the steamers of the P. and O. Company.

It frequently happens that men arrive at Calcutta(*a*), both unacquainted with and unprepared for this charge.

6. The amount allowed by Government for passage to the colonies is the *bonâ fide* cost of passages for themselves and families from either of the Presidency towns, as may be most convenient to the colony or port nearest to the colony to which they elect to proceed, provided the amount of such passage does not exceed, for the soldier Rs. 300, for his wife Rs. 300, for each child above 1 year of age Rs. 150, (G. O. (*b*)339 of 1868, and 5 (*c*) of 1875.) The following is the scale of charges for passage by the P. and O. Company's steamers to various ports in the colonies :—

remitted either to the Brigade Major, Fort William(*a*), or the Paymaster, Deolalee Depôt, as the case may be. See clause III., para. 13 of the Instructions annexed.

When men entitled to free passage proceeding to the colonies cannot be furnished with passage for the entire distance, passage to the farthest possible point *en route* may be furnished, and any unexpended balance of the prescribed passage money within the maximum laid down as above, may, at the discretion of the officer commanding at the port of embarkation, be made over to them to enable them to pay for their onward passage.

7. Men who pay their own passage to England or the colonies may be sent either to Calcutta(*b*) or Deolalee for embarkation, previous notification being made to the General Officer commanding the Presidency district, or the Officer Commanding the Deolalee Depôt as directed above.

8. Soldiers, not enlisted in India, who have been sentenced to discharge with ignominy, and whose term of imprisonment is expired, will be sent to Deolalee for embarkation in the troop-ships; but prisoners (not enlisted in India) invalided by a medical board must be sent home by the same route, irrespective of the fact of their terms of imprisonment not having been completed.

Rules regarding the kits of such men will be found in paras. 1719 and 1720 of the Bengal Army Regulations. (Madras G. O. C. C. No. 87, dated 4th August 1871, p. 231.)

9. All insanes will be embarked in the troop-ships; but they will be despatched under special arrangements made by the Quartermaster-General, and not as ordinary invalids. In cases in which insanity declares itself so near to the trooping season that the retention of insanes, especially if harmless, up-country, may not only be feasible, but preferable to a long journey to the Bhowanipore(*b*) Asylum, it will rest entirely with the local medical authorities, in communication with the Surgeon-General, British Forces, to decide on the advisability of sending them direct to the asylum at Colaba, under arrangements made by the Quarter Master-General, as directed above. When insanes are despatched direct for embarkation, they must be separately detailed in the returns of embarkation, furnished to the Quartermaster-General's Department. The kits of insanes sent to the Colaba depôt are to be forwarded to the Commandant for the use of the men when embarked for England. The kits of insanes sent to Bhowanipore(*b*) are to be handed over to the escort for delivery to the Brigade Major at Fort William(*c*). The discharge documents of such men should also in like manner be forwarded

to the Brigade Major(*a*) (* * *); likewise their No. 1 Reports (* * * ,) completed as far as directed in para. 75 of the Instructions attached to this order, but the balances of pay due to them are to be dealt with as directed in the Controller's "Instructions" to Paymasters, para. 354, Section XXI., *viz.*, remitted to England by the Paymasters of regiments, to whom the Brigade-Major(*a*) will send any further sum that may accrue up to date of embarkation.

10. When an insane soldier is sent to the asylum at Colaba (*b*) in view to his removal to Europe, the certificates (*c*) required by G. O. (*d*) 357 of 1873 should invariably accompany him, and his discharge documents should be sent direct to the Commandant of that depôt.

Documents connected with Insane soldiers should be endorse with the word "Insane" in red ink on the upper right handd corner.

N.B.—Attention is directed to G. O.(*c*) 355. of 1873.

11. All men for embarkation for England, whose period of service will be completed before the 10th May 1876, may be forwarded to Deolalee, and may be embarked before their term of service has actually expired; but if proceeding to the colonies, they must complete their term in this country, their final discharge being effected at Bombay or Fort William(*f*) (see para. 4) before they leave India.

12. In the same manner, men who will become eligible for a free discharge before 10th May 1876, the requisite authority for discharge having been obtained, may, *if necessary*, be embarked *for England* before the time entitling them to a free discharge is actually completed, but as a rule such term should have expired before embarkation, as the loss of a good conduct badge may cause them to forfeit their title at the last moment. These men should not be sent down to the port of embarkation till their time is nearly completed, to obviate their detention at the Deolalee Depôt. In the cases of men who will become eligible for free discharge late in the season, the prospective authority is necessarily conditional on the soldier conducting himself properly, and thus fulfiling the conditions of discharge. Commanding officers of regiments and depôts are authorised to detain men who, by the loss of a badge, or by not obtaining one, are ineligible for the free discharge which has been sanctioned. In such

cases a report will be made to the Adjutant-General's Office, Simla,-(*a*) in order that the authority may be cancelled.

13. Detachments proceeding to ports of embarkation will be officered in the manner laid down in para. 2279, Bengal Army Regulations.

14. The officers commanding the various parties will report to the Assistant Adjutant-General of the Division, or Brigade Major of the District, for record in those offices, their having received over from the several regiments the whole of the documents, balances, due, &c., &c.

15. Officers commanding parties will receive special instructions in writing from the officers commanding the divisions and districts from which they start, to furnish—

16. Pay transactions of detachments for Bombay will be conducted in accordance with the instructions given under the head "General" in the Instructions for preparation of Discharge Documents, (see p. of those instructions,) and in Section XI. of the Controller's "Instructions for the information and guidance of Paymasters of British Troops in India" (copy attached). Separate Nominal Rolls of Invalids and other men will be furnished by Commanding Officers of regiments and batteries to officers commanding detachments, and Commanding Officers will give full information in writing to those officers to insure the submission of a proper account of the money made over to them.

All punishments affecting the soldier's pay will be notified in detachment orders, and all losses of good conduct pay will be noted in Bengal(*c*) Form No. 40. On arrival at Deolalee, Commanding Officers will render a report to the Depôt Paymaster of all casualties which may have occurred since the commencement of the march.

Particular attention is directed to the necessity of sending the proper advances of pay with the men, as complaints have been received from Deolalee on the subject.

18. To ensure regularity in the arrival and departure of detachments, and to prevent clashing at the camps, all movements of troops by railway or bullock train, whether of regiments or detachments, are to be carried out in accordance with the instructions issued by the Quartermaster-General, after due communication between officers commanding divisions and districts, and the responsibility of collisions at Resting Camps will rest with despatching officers.

19. Timely notice of all movements of troops by rail or bullock train, either up or down the line, giving the date and hour of arrival at each camp, is to be given by the officer commanding the division from which the detachments start, to the divisions through which they will pass, and that to which they are proceeding, in view to the necessary arrangements being made for their reception and onward progress.

20. All subsidiary orders in furtherance of the arrangements specified in paras. 17 and 18 are to be given by officers commanding divisions and districts, who are desired to communicate freely with each other in regard to details.

21. General Officers commanding divisions and districts are reminded of the necessity of filling in and returning, three weeks before the departure from Bombay of the troop-ships which will convey troops from their respective commands, the detailed Return on W. O. Form 173, copies of which will be furnished to them by the General Officer Commanding the

22. Time-expired men and others (except prisoners) arriving at home for discharge will be disposed of as follows :—

Royal Artillery { Non-commissioned officers and men from Garrison Brigades to be sent to Sheerness. Ditto from Horse and Field Brigades to Woolwich.

Royal Engineers to be sent to Chatham.

Cavalry and Line ditto Netley.

All invalids will be sent to Netley Hospital.

It is of the utmost importance that men should arrive at home with their documents in such a complete state as to obviate delay in effecting their discharges at these depôts. Excepting in the case of prisoners sent to England under the provisions of G. O.(*a*) 319 of 1874, the documents of all men sent home for discharge with ignominy or as bad characters, whose term of imprisonment has expired, should be made over to the officer commanding the

party for delivery to the General or other Officer Commanding at the port of disembarkation, in view to carrying out the discharge of these men.

23. To prevent confusion, the documents of invalids and time-expired men must never, if it can be avoided, be given into the custody of the same officer; the two classes of documents should be kept distinct.

24. All claims of men for discharge must be investigated and, if possible, settled before the men leave their regiments. If settlement is impracticable, the fullest particulars of the case must be transmitted with them, and reference made to the proper quarter. No claims can be entertained at the embarkation depôts, unless they have been previously preferred at the head-quarters of regiments, or have arisen after departure from the regiments.

N.B.—Complaints have been received that soldiers for discharge at the port of embarkation have been sent thither without the amount of gratuity due to them from the Fines for Drunkenness Fund having been remitted for payment to them there. Particular attention should be paid to this matter, as the omission often leads to the detention of men.

25. The discharge documents, with exception of the Company Defaulter Sheets, Medical History Sheets, Ledger Sheets (W. O. Form 338,) and No. 1 Report (Bengal (*a*) Form No. 40) of men proceeding to the ports of embarkation, will be dispatched (*by post, and packed in wax cloth,*) to the depôts direct from the regiment, addressed to the Commandant(*b*) or Paymaster as indicated in the schedule. These packets must be despatched in time to ensure their arrival at the depôts *at least* a week before the men themselves, so as to admit of examination (and return to corps for correction, if requisite) before the men embark. The No. 1 Report, as above, Ledger Sheet, *Company* Defaulter Sheets and Medical History Sheets (*c*) will invariably accompany the men, and be handed to the officers in military and medical charge respectively, except in the cases of Invalids proceeding to the Cape or Mauritius, whose Medical History Sheets and detailed Medical Histories are to be sent with the proceedings of Boards to the Adjutant-General's Office, Simla.(*d*) (Horse Guards' G. O. No. 45 of 1872.)

26. In the cases of men at convalescent depôts, any documents requiring the soldier's signature will be forwarded for that purpose by the regiment, and will be returned to the regiment, for despatch to the embarkation depôt, as soon as a report is

received from the convalescent depôt of the soldier's departure to the port of embarkation.

Commanding Officers of regiments moving in relief must keep Commandants of Convalescent Depôts and the Officer Commanding the Deolalee Depôt informed of their movements by sending a copy of their route. In past seasons, for want of this advice, Commandants of Convalescent Depôts were unable to notify to regiments the departure of men to the port of embarkation, and men consequently arrived at Deolalee without their records.

27. Each packet containing documents sent by post is to be registered, and a list of enclosures (in duplicate) put up in the packet. When compared and checked with the documents receipted, one copy of the list will be returned to the corps, duly receipted by the officer commanding the embarkation depôt, who will retain the other copy as a record.

28. The list above referred to is to record the documents in the same order in which they are placed in the Schedule attached to the instructions issued with this order, and the documents of *each man* are to be stitched together in the upper left hand corner by a loop of silk or strong thread, and folded lengthwise, the board's proceedings being the inner document in the series and not outside the others. The combined forms of attestation and Board's proceedings, War Office Forms No. 39 and 497, will, when sent by post or otherwise, be so folded as to ensure the fourth page being inside. Commanding Officers will explain the cause of absence of any documents, and state whether they will be subsequently forwarded.

The Horse Guards have had reason to comment on the dilapidated state of the Board's Proceedings, which in some instances were quite useless as records. (See G. O. C. C. 11th September 1872, p. 425.) Madras G. O. C. C. 15th October 1872, No. 90, p. 374.

29. On the departure of the invalids and time-expired men, officers commanding regiments, batteries and detachments will send a certificate to the Station Staff Officer, that all the documents concerning the men have been disposed of as laid down in this order.

30. The officer commanding the party will be furnished with a list, in triplicate, of the documents he has in possession (see para. 25). These lists will be receipted by the officer commanding the depôt. One copy is to be given to the officer who commanded the party, one sent to the corps for record, and the third retained at the depôt.

31. Officers proceeding in charge of parties are to be instructed that the non-effective accounts of men who die *en route* to the depôt are to be handed to the Paymaster of the depôt on arrival, and not forwarded to the Paymaster of the corps.

32. The Commandants of depôts, whether at the ports of embarkation or elsewhere, are empowered to address themselves

direct to Commanding Officers; and His Excellency desires that all communications from these officers, concerning the discharge documents, or matters connected with them, may be regarded in the light of instructions transmitted by Staff Officers. The Commander-in-Chief further desires to impress upon commanding officers the necessity of paying prompt and strict attention to all such communications, as the embarkation of the men concerned may be delayed by any neglect in this respect.

33. Immediately after the sailing of each troop-ship, officers commanding embarkation depôts will forward, without fail, to commanding officers of regiments and brigades a report of the embarkation, not only of detachments, but of individuals (including prisoners, see Circular 87 of 1869), accompanied by a nominal list, with regimental numbers attached, of the men referred to.

34. Commanding Officers will on receipt of the above reports correct the rolls of their corps and send the requisite advices home in continuation of the returns (*a*) previously transmitted to England (see G. O. 171 of 1870). Madras G. O. C. C., 24th August 1870, No. 92, p. 259.

35. In the case of men of the Royal Artillery, returns of men proceeding to the port of embarkation (Bombay) are to be forwarded, at least a fortnight before the men embark, to the Deputy Adjutant-General of Royal Artillery at the Horse Guards. Officers commanding brigades, as well as Captains of detached batteries, will, at the same time, transmit to the same office copies of the men's transfer Savings Bank statements.

36. Women near their confinement are not to be embarked in the troop transports, and the husbands of such women are to be detained with them (G O. (*b*) 8 of 1870). These men will remain attached to any regiment at the station where they may be located, until their wives are fit to travel, when they are to be despatched to Deolalee for embarkation on the first available troopship. Should, however, the prospect of such occurrences be anticipated among the women proceeding by any of the three last vessels, permission should be solicited for their despatch at an earlier date.

37. Care is to be taken that no soldier leaves any member of his family behind in India, unless with the special sanction of Government. (* * *).

38. Whenever the wife of a British soldier is sent to England unaccompanied by her husband, the officer commanding the

regiment or battery will, on her departure from the Head-Quarters, forward at once to the Regimental Depôt a report showing the authority for her being sent home, and the cause; her destination; her family, if any; and whether she is entitled to any assistance from the State. A similar report is at the same time to be despatched to the port of embarkation to which the woman is ordered, with a request that it may be handed to the officer commanding on board the ship in which she proceeds (or to the Captain of the vessel, if there are no troops embarking) for delivery to the chief military authority at the port of debarkation (G. O. 15 of 1873.) Madras G. O. C. C., 27th March 1873, No. 30, p. 133.

The particular attention of Commanding Officers is called to G. O. C. C. dated 16th October 1874, relative to the payment of the gratuities to widows and orphans leaving India, *vide* para. 14, Section 33, Pay Code of 1849.

39. Invalids, or men proceeding to England for discharge, belonging to the Unattached List, should have been struck off that list by an order from the Adjutant-General, before they are sent to the port for embarkation. Should it appear to the authority at the port that this has not been done, an immediate report is to be made by telegraph to the Adjutant-General's Office at Simla.(*a*)

40. In cases where it is found impracticable to forward to the Quartermaster-General, Horse Guards, the detailed return on War Office Form 753, (see Appendix No. XII. of the Transport Regulations, Part I.) so as to arrive in advance of the party, a copy of that return should be given to the officer in charge of the details, or to the individual, for the purpose of being handed to the officer superintending the disembarkation at the port of arrival.

A. R. CLEPHANE, Lieut.-Colonel,

Offg. Deputy Adjutant-General.

GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF.

HEAD QUARTERS, MADRAS,
28th October, 1875.

The following General Orders, by His Excellency the Commander-in-Chief in India, are re-published :—

Head Quarters, Simla, 4th October, 1875.

The Right Honorable Lord Napier of Magdala, G.C.B., G.C.S.I., is pleased to signify his intention of bestowing the following prizes for rifle competition by the regiments of British Cavalry, batteries of Royal Artillery, and regiments of British and Native Infantry, serving in the Bengal Presidency, under the following conditions :—

I. CARBINE PRIZE FOR ROYAL ARTILLERY AND BRITISH CAVALRY.

1. Prize—a sword, regulation pattern, value £10. The match to be divided into two stages.

Conditions :—First stage. Every non-commissioned officer and soldier, with their commanding officer's permission, (and commanding officers are requested to place as few restrictions as possible on the number of competitors,) will be eligible to enter for the first stage, on payment of one rupee each, and will fire five rounds each, unless they retire before completing that number, standing, at 200 yards.

2. The twenty men of Cavalry regiments and five men in batteries of Artillery who make the highest scores at this distance, in each regiment or battery, will

Second stage. be considered as the champions, and they alone will compete in the second stage of the match, without paying any further entrance, and will fire five rounds each, standing, at 200 yards, and five rounds each, at 300 yards. The individual who makes the highest aggregate score at the two distances of the second stage, will be the winner of the sword presented by His Excellency. The regiments and batteries competing will be placed in order of merit, according to the averages made in the second stage by their champions.

3. The whole of the entrances, without any deduction, will be issued in individual prizes to the best shots in order of merit, amongst the competitors in the second stage of the match, in proportion to the percentage of prizes to competitors, (see general rule 3). The number of money prizes, and the amount of each prize, will depend on the number of entrances for the match, and will be determined by the Chief Inspector of Musketry, in communication with the commanding officers of competing regiments, and batteries, as soon as the total number of entrances shall have been ascertained. The winner of the sword given by His Excellency the Commander-in-Chief will, in addition, receive the first money prize.

Individual money prizes.

4. Garrison batteries of Royal Artillery may compete, either as Cavalry or as Infantry. If any battery competes as Infantry, it will be guided by the rules laid down for the competition of that branch.

II.—British Infantry.

Infantry prizes.

1. *Aggregate prize*, a cup value £70.
Individual prize, a watch value £20.

The match to be divided into two stages. Every non-commissioned officer and soldier, with their commanding officer's permission, (and commanding officers are requested to place as few restrictions as possible on the number of competitors,) will be eligible to enter for the first stage, on payment of one rupee each, and will fire five rounds each, unless they retire before completing that number, at 500 yards.

Conditions:—First stage.

2. The twenty men who make the highest scores at this distance, in each regiment, will be considered the champions of their regiment, and they alone will compete in the second stage of the match without paying any further entrance, and will fire five rounds each at 500 yards, and five rounds each at 600 yards. The highest aggregate score made by the twenty champions of any regiment or garrison battery, at the two distances of the second stage, to win the cup presented by Lord Napier of Magdala, which will be regarded as regimental property, to be kept in the officers' mess.

Second stage.

3. The individual who makes the highest aggregate score in the second stage of the match, will win the watch presented by His Excellency.

4. The whole of the entrances, without any deduction, will be issued in individual prizes to the best shots in the second stage of the match, in order of merit, in proportion to the percentage of

Individual money prizes.

prizes to competitors (see general rule 3). The number of money prizes, and the amount of each prize, will depend upon the number of entrances for the match, and will be determined by the Chief Inspector of Musketry, in communication with the commanding officers of regiments competing, as soon as the total number of entrances is known. The first money prize will probably be 200 Rupees.

III.—Native Infantry.

To all regiments of Native Infantry, serving in the Bengal Presidency, including the Madras regiments serving in the Presidency and Saugor districts, and the Punjab Frontier Force, under the following conditions :—

1. *Prize.*—A gold medal with inscription.

2. The match to be divided into two stages. Every non-commissioned officer and soldier, with their commanding officer's permission, (and commanding officers are requested to place as few restrictions as possible on the number of competitors,) will be eligible to enter for the first stage, on payment of four annas each, and will fire five rounds each, unless they retire before completing that number, at 500 yards.

Conditions :—First stage.

3. The twenty men who make the highest scores at this distance, in each regiment, will be considered the champions of their regiment, and they alone will compete in the second stage of the match without paying any further entrance, and will fire five rounds each at 500 yards, and five rounds each at 600 yards. The highest aggregate score made by the twenty champions of any regiment at the two distances of the second stage, to win the prize presented by Lord Napier of Magdala, consisting of a gold medal, which will become the property of the best shot of the team and be worn by him.

Second stage.

4. The winning team will also receive one hundred rupees, to be divided among the non-commissioned officers and men composing it, proportionate to their several scores, according to a decision regimentally arrived at.

5. The whole of the entrances, without any deduction, will be issued in individual prizes to the best shots in the second stage of the match, in order of merit, in proportion to the percentage of prizes to competitors (see general rule 3). The number of money prizes, and the amount of each prize, will depend upon the number of entrances for the match, and will be determined by the Chief Inspector of Musketry, in communication with the officers commanding regiments competing, as soon as the total

Individual money prizes.

number of entrances is known. The first money prize will probably be 40 rupees.

General Rules, applicable both to the Cavalry and Infantry Competitions.

1. The intention of the Right Honorable the Commander-in-Chief is, that the whole army may share and be interested in these matches.

2. The entrances should not therefore, as has been sometimes the case, be confined to regimentally selected men.

3. The award of prizes by a proportion of competitors has been introduced to prevent regiments which only enter a few picked shots, carrying away more than a just share of the entries of regiments in which many more competitors enter. It will be calculated thus :—suppose 5471 competed and 182 prizes given, the percentage of prizes to competitors will be 3·32 : the number of individual prizes a regiment can gain will then be 3·32 of the number of its entries. This will be given according to scores, but after this proportion has been awarded the men of such regiments will be passed over, and the money prizes awarded to men of regiments with more entries.

4. Every soldier who wishes to do so, and who, at the time of competition, is not on the defaulters' list, should have permission to enter for the first stage, the period for the execution of which has been extended to admit of the practice of an increased number of competitors.

5. The first stage (except in the case of corps on the line of march or at the Camp of Exercise, hereafter provided for,) must be shot off during the month of December 1875, and the second stage on any day between the 26th of December 1875 and the 4th of January 1876, both days inclusive. The practice of the second stage, once commenced, must be terminated on the day on which it was begun.

Date of competition.

6. In order to give corps, which will be on the line of march or at the Camp of Exercise about the dates above specified, an opportunity to compete—and the Commander-in-Chief is anxious every regiment should have an equal chance—commanding officers are requested to address the Chief Inspector of Musketry, Simla, at once, stating their wishes as to the date *prior to the 26th December* or *after the 4th January* on which they wish to compete. The Chief Inspector of Musketry will communicate the Commander-in-Chief's wishes to the corps concerned. But in order to permit of the result of the match being ascertained early, the earliest possible date should be named.

Corps marching.

7. When regiments are divided into wings or detachments, the second stage of the competition will take place, under regimental arrangements, at the station of the Head-Quarters wing only.

8. In these cases, the travelling expenses of such men as may be sent to Head-Quarters to join the selected 20 champions may, in British regiments, be charged to the Canteen Fund. In Native regiments it may be charged to the Lead and Cap Fund, provided the repair of ranges and appliances is duly secured.

9. *Arms.*—British corps will use the Snider rifle or carbine. Native Infantry regiments will in the second stage fire with Government muzzle-loading rifles only; regiments armed with the Snider rifle may use that weapon in the first stage if they so desire.

10. *Ammunition*—of Government issue only. Native Infantry regiments will use bullet ·55 only.

11. *Targets.*—Regulation.

12. *Marking and Scoring*—Regulation.

13. *Position*—Any.

14. *Dress*—Any.

15. The Musketry Regulations, in regard to registers and all details not otherwise specified are to be strictly followed. To give complete confidence to all, that the competition will be conducted with perfect fairness, the Commander-in-Chief wishes that in stations where two regiments are quartered together, a committee should be formed for each corps, consisting of one Field Officer (if available, otherwise of the senior Captain present instead,) one Captain per regiment, and the Officer Instructor of Musketry, Wing Officer or Adjutant of the other regiment: for example, at Meerut, the committee of the 15th Hussars would be composed of one Field Officer and one Captain of the 15th Hussars, and the Musketry Instructor of the 85th Light Infantry. The committee of the 85th Light Infantry would be composed of a Field Officer and Captain of that regiment, and of the Musketry Instructor of the Hussars. The committee of the 5th Regiment of Native Infantry would be composed of two officers of the 5th Regiment and the Musketry Instructor of the 85th Light Infantry. The committee of the 23rd Pioneers at Jhelum would be composed of two officers of that regiment and of a Wing Officer or Adjutant of the 22nd Punjaub Native Infantry. In stations, where only one regiment is quartered, the committee would consist of two officers of that corps and of an officer to be detailed by the officer commanding the division, district, or station. The committee for a battery of artillery would be composed of the two senior officers present with the battery, and of one officer of another regiment

to be detailed by the officer commanding the division, district, or station.

16. The presence of an officer of another regiment, or of the Staff Corps, at all stations, is compulsory, and should be early arranged for.

17. The committee for each regiment or battery should be present during the firing of the second stage only of the competition; they are to sign the practice registers at the conclusion of each distance; and send a certificate, according to the following form, to the Chief Inspector of Musketry, Simla, for the Commander-in-Chief's information.

18. The registers of both stages, and an order on the Simla Treasury for the total entrances, are likewise to be transmitted by each corps to the Chief Inspector of Musketry. The Treasury order should follow as soon as possible after the registers, if it cannot be obtained in time to accompany them.

19. Particular attention is requested to the necessity for all remittances being made payable on Simla; as much inconvenience and loss to the fund are caused by Treasury orders, bank cheques, and money orders being drawn on other stations.

20. No man is to be permitted to fire in the first stage until he has paid his entrance money.

Certificate.

We certify that we were present during the whole of the practice of the second stage of the competition for His Excellency the Commander-in-Chief's prize by the —— selected men of the —— regiment or battery; that we compared the registers with the target at the conclusion of the practice at each distance; that we added to, or deducted from, the total points of each register, any discrepancy that existed between target and register; and that we saw that the practice was conducted in strict accordance with the conditions and rules of the match, and with the Musketry Regulations.

GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF.

HEAD QUARTERS, MADRAS,
1*st November*, 1875.

Officers commanding divisions and districts will be pleased to assemble Invaliding Boards at stations within their respective commands occupied by European Troops, to examine all men whom it is proposed to invalid. The Deputy Surgeon-General, British Forces, or the Superintending Surgeon-Major of the Circle, will invariably sit as President.

2. Medical Boards, when invaliding men who have been enlisted in India and are not desirous of leaving the country, will refrain from recommending them to be sent to England.

3. These boards will assemble at all stations in the command, including hill depôts, between 10th December, 1875, and 10th January, 1876. At Wellington, a board will assemble for a second time if necessary, not later than the 15th January 1876, and will be guided by the instructions laid down in G. O. C. C. dated 12th December, 1872, page 431. The exact dates will be fixed by officers commanding divisions and districts, in communication with the Administrative Medical Officer, British Forces, of the Circle, and should be made to correspond with the instructions for movement and embarkation received from the Quartermaster-General. Supplementary Invaliding Boards should only be permitted in cases of proved emergency.

4. The divisional and district military and medical authorities will arrange for the examination of men on detachment, or of corps at out-stations.

5. Officers commanding detachments and convalescent and other depôts will place themselves in direct communication with the officers commanding the regiments of such men as may be invalided, with a view to ensure accuracy in their documents and accounts. This must be done in good time with a view to all claims and other matters being settled before the men leave the depôts, and the places at which the detachments may be stationed for the port of embarkation. The rule directing the settlement of all claims before the men leave their regiments applies equally to invalids from depôts and detachments.

6. W. O. Form 821A (for India only), "Return of Invalids," will be employed in the preparation of all nominal returns of invalids.

7. The medical officer in charge of a corps or battery, or of a convalescent depôt, will prepare this Return in duplicate, to be signed by the commanding officer and himself, and afterwards countersigned by the officer commanding the station and the Deputy Surgeon-General or Superintending Surgeon-Major of the Circle. One copy of the Return of Invalids, W. O. Form 821A (for India only) will be handed over to the medical officer proceeding in charge of the invalids to Deolali. He will be careful to enter in this nominal list any changes that have occurred during the journey. This copy of the Return of Invalids will be delivered to the medical officer of the Deolali depôt, and by him retained as a record as long as it may be considered necessary. The duplicate copy will be transferred by the President of the Invaliding Board to the regimental or depôt military authorities, for their information, and for despatch by post to Deolali, as directed in the Discharge Order. This copy of the Return of Invalids will be retained by the Commandant of the Depôt until the close of the trooping season, and afterwards transferred to the Surgeon-General, Bombay, for record in his office.

In the case of invalids from Burmah the duplicate copy of W. O. Form 821A will be sent by post to the Commandant, Poonamallee Depôt, with the other discharge documents. In addition to the above, no other Station Return of Invalids will be necessary.

8. The Commandant at Deolali will cause a continuous Nominal Roll of Invalids, in duplicate, on W. O. Form 821A (for India only), to be made out for each troopship, corrected up to the latest moment. This duplicate Roll will be entrusted to the medical officer proceeding in charge of the troopship, for delivery to the principal medical officer at Netley, when the invalids reach that place. This duplicate Roll is the only nominal list of invalids which is required to be sent to England from this country.

9. The Detailed Medical History, W. O. Form 891, of every man invalided to England, will be made out by the regimental medical officer in duplicate, and will be submitted to the Station Invaliding Board, who will ascertain that the information under each heading is complete, and, after filling in the remarks and finding, will countersign the return. The proceedings will thereafter be approved and signed by the Principal Medical Officer of the division or district. One copy, together with the Medical History Sheet, will be handed to the medical officer proceeding in charge of the party to Deolali, for transfer to the medical officer of the depôt. These documents will be afterwards entrusted to the

medical officer proceeding to England in charge of the troopship, and will finally be handed over by him to the principal medical officer at Netley, along with the troopship Nominal Rolls alluded to in para. 8. The duplicate copy will be transferred to the officer commanding the regiment for attachment to the "Proceedings of the Regimental Board" (W. O. Form 83). In the case of invalids who are eligible under the regulations, and who may elect to proceed to the colonies or to remain in India, one copy only of the Detailed Medical History will be required for each man. This copy, signed by the board and by the Deputy-Surgeon-General or Superintending Sugeon-Major of the Circle, will be forwarded, together with the man's Medical History Sheet, through the military authorities to officers commanding regiments, to be transmitted with the proceedings of Regimental Boards, &c., to the Adjutant-General's Office at Fort St. George.

10. The number of invalids, whom it may be proposed to bring before the annual invaliding committee from head quarters of corps and from detachments, will be intimated to the Surgeon-General, Fort St. George, (marked "Statistical") by the medical officers in charge. The numbers to be invalided from convalescent depôts, shown under each separate corps, will in like manner be communicated by the medical officers in charge of those depôts to the Surgeon-General, in order that the necessary invaliding forms may be sent to them direct.

11. The administrative medical officers presiding over divisional or district boards will be furnished with the general and other necessary returns, on application being made as directed above.

12. Further instructions for the guidance of divisional invaliding boards will be issued by the Surgeon-General, British Forces.

13. As soon as invaliding medical boards have completed their sittings, the administrative medical officer of the circle will prepare, in duplicate, a numerical return of the invalids, which he will forward to the General Officer commanding the division or district for early transmission to the Quartermaster-General of the Army, Fort St. George. Forms of this return will be supplied from the Surgeon-General's Office, Fort St. George.

14. Invalids, who are so seriously ill as to be unable to embark or bear the voyage for which they were designated, will be detained at Deolali until the sailing of the last troopship, and if the medical authorities then consider it absolutely necessary that they should proceed to England by the Cape route, His Excellency the Commander-in-Chief of the Bombay Presidency will order passages in private vessels to be provided for them.

15. The invaliding of military insanes should be carried out by special medical boards assembled under the approval of the

Surgeon-General, British Forces, and at as early a date before the commencement of the cold weather as possible, to enable provision to be made for their passages.

The invaliding documents of insanes will be furnished to the authorities at the Colaba depôt, instead of being taken or sent on to Deolali, as directed in the case of other invalids.

16. The instructions contained in the annual discharge order are to be followed so far as they apply to invalids; any subsidiary orders necessary in furtherance of the foregoing arrangements being issued by General Officers commanding divisions and districts.

By order of His Excellency the Commander-in-Chief,

ROB. C. STEWART, Brigadier-General,

Adjutant-General.
