Adjutant-General's Office, Simla, 10th January 1881.

At a General Court Martial, assembled at Aden on Wednesday, the twenty-fourth day of November 1880, Major Burton Yaldwyn, of the 14/8th Brigade Royal Artillery, was arraigned on the following charges :—

CHARGES.

2*nd Charge.*—Having at Aden, between the 1st and 19th days of March 1880, in the balance sheet of the 14th Battery 8th Brigade Royal Artillery for the month of February 1880, signed by him as officer commanding the battery, and produced at the Annual Inspection on the 19th day of March 1880, of the contents of which it was his duty to ascertain the accuracy, been privy

to the making of a false statement, to the effect that the amount due to Government on the Pay List of the 14th Battery 8th Brigade Royal Artillery for the month of February 1880, was Rupees (1,005-5-8) one thousand and five, annas five, and pies eight, thereby omitting the following sums due to Government on the said Pay List, that is to say, the sum of Rupees (3,000) three thousand, advanced on Emergent Receipt, dated 8th January 1880; the sum of Rupees (1,500) fifteen hundred, advanced on Emergent Receipt, dated 19th January 1880; and the sum of Rupees (2,146) two thousand one hundred and forty-six, due to Government as per last Pay Certificate of the battery from the Madras Presidency.

FINDING.

The Court find that the prisoner, Major Burton Yaldwyn, of the 14/8th Brigade Royal Artillery, is—

Not guilty of the 1st charge;

Not guilty of the 2nd charge;

Guilty of the 3rd charge, with the exception that the Court find the amount of the deficiency is Rupees (10,148-8-9) ten thousand one hundred and forty-eight, annas eight, and pies nine, instead of Rupees (10,390) ten thousand three hundred and ninety.

The following MEMORANDUM by HIS EXCELLENCY THE COMMANDER-IN-CHIEF is published for general information :—

MEMORANDUM.

MAJOR-GENERAL PAYN, C.B., will this day relieve me of my command, and I now take leave of the Army I have had the honour to command for the past five years.

My duties as Commander-in-Chief have been discharged without difficulty, because of the good conduct which has generally prevailed throughout the Army, British and Native, and because of the soldier-like spirit which has generally animated all ranks.

The condition and contentment of every army must, in the main, depend upon the fitness of its regimental officers for the discharge of their several duties, and upon the care they bestow on the many matters, small as well as great, which contribute to the efficiency, comfort, and happiness of those placed under their command. These duties have, as a rule, been properly carried out; and it is a satisfaction to me to be able to testify to the manner in which all ranks have assisted in maintaining the efficiency and character of the Army.

From General Officers in command of divisions and districts I have received willing co-operation; and the General Staff have done their duty zealously.

From the officers of the Head-Quarter Staff I have invariably received the most hearty assistance; and the Army is indebted to them for the earnest and impartial manner in which they have performed their duties.

The British troops serving in the Madras Presidency are necessarily in all respects the representatives of the same branches serving in any other part of Her Majesty's dominions. In instruction discipline and conduct the British soldier of to-day is, I consider, fully the equal of the soldier of the past; and when a higher standard of education has become general and the non-commissioned officers are men of longer experience, discipline will be the more easily maintained and the fighting power of the army will be increased.

During my period of command the canteens in this Presidency have been opened to the soldiers on more easy, and as I believe, more reasonable conditions; and the result after three years' trial has been so satisfactory as, in my opinion, to justify the final adoption of the change.

The British soldier now enjoys many advantages not possessed by those who served in former times; but, whilst it is in the power of Government to grant to the Army many material advantages, it is to himself that the soldier must look for that rise in his moral status which shall fit him for the relaxation of many existing restraints.

Drink is at the root of almost every crime that has to be punished in the Army, and if that failing could be conquered, the necessity for Courts-Martial would almost cease. In justice however to the British soldier, it must be remembered that drunkenness is not only a military vice; it is brought into the Army as a national failing, and moreover many acts which may be no offence, or may pass unnoticed amongst the general population, must be punished when committed by the soldier, in order to preserve discipline.

The efficiency of the Native Army of the Presidency is scarcely of less importance than the efficiency of the British forces. The Madras sepoy of the present is what he has been in the past; he is intelligent, tractable, and faithful to his salt, and ready to serve wherever required, whether by land or sea. All that he looks for is consideration for himself and family; the Army is his home and the Government his guardian.

The Native Regiments are, as a rule, well disciplined and well instructed, and the Madras sepoy well commanded is a reliable soldier, fit to take his place with the sepoys of the other Presidencies; and he is capable of again doing the good service which distinguished him when first trained and disciplined as a regular soldier, when employed in the early campaigns of the Presidency. And if the Native soldier is not what he can be and ought to be, the fault lies not only with himself: nor does difficulty in recruiting for this Native Army proceed from any insuperable objection on the part of the youth of Southern India to accept military service.

Native Regiments urgently require to have with them a sufficiency of British Officers; and it is indispensable that their promotion be regimental and be based upon efficiency. Further the custom which has, in effect, set aside one body of officers for Regimental duty and another for the Staff tends to lower the discharge of regimental duty, and is otherwise injurious to the Army.

Consequent upon the introduction of breech-loading arms and the necessary change of tactics, the efficiency of native troops must hence-forward largely depend upon the fitness of the Native Officers to lead and control their men when broken up into small bodies. For the Native Officers to efficiently discharge such duties they must be promoted because of their fitness—they must be continually under instruction—and they must be taught in peace time and off the level parade ground to exercise those functions which are required of them in war. There is no regiment in the Madras Army which cannot produce men equal to the discharge of such duties, and the responsibility of finding and promoting the men fit to be Native Officers rests with the Regimental British Officers.

Promotions in the non-commissioned grades need equally to be made by selection. Promotion is not the proper reward for mere length of service, and this fact must be understood by all ranks of the Native Army. A system of seniority is a system of stagnation, which renders hopeless any progress in military organization or military efficiency.

Throughout the Commissioned and Non-commissioned grades promotion should be made upon a system of caste or creed representation, whereby a fair proportion of preferment will be secured to each class.

Constant instruction in all the duties required of the Native soldier is indispensable; but military efficiency and soldierlike pride cannot be expected if excessive guard duties are imposed upon the sepoy, or the Native Army is looked to to take the place of an insufficient Police.

The tendency of the Madras sepoy to deny himself a sufficiency of food in order that he may support his relatives is a matter which calls for the constant attention of all Regimental Officers. The sepoy's first duty is to the Government he serves, and this he cannot thoroughly discharge unless he is properly nourished.

Commanding Officers can best protect the sepoy from this injury to himself and to his offspring by judiciously using their influence to keep down, as far as may be practicable, the number of relatives living in the lines to those degrees of relationship acknowledged by Government; but this requires to be done with circumspection, and Commandants need to carry with them the sympathy of their men.

Education in the Native Army is now upon a satisfactory footing and has made rapid strides of late. In the not distant future every sepoy will be able to read and write his own vernacular, whilst English will be widely understood and spoken.

The reduction by eight years of the period of service entitling the several ranks to claim pensions is a great boon lately conferred upon the Native Army. It has already afforded the means of pensioning many deserving old soldiers—it has tended to expedite promotion—and must continue to promote efficiency.

It was my desire, before I left India, to have seen the Madras Army dressed in a uniform more suited to the climate and to the duties required of a sepoy. I regret that this hope has not been realised, but I trust that the change may not long be deferred.

I bid the Army a hearty farewell. I hope that its future career may be marked by honour in quarters, and success in the field. Every soldier must feel that these distinctions are only to be acquired through discipline, instruction, and constant attention to the discharge of every detail required by duty.

All reports of the Army will from this date be made for the information of Major-General Payn, C.B., Commanding the Mysore Division.

On disembarkation all boxes, &c., labelled with the "red star" will be collected in one place and subsequently distributed to the owners.

GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF.

HEAD QUARTERS, MADRAS,
3rd February 1881.

At a District Court Martial held at Bangalore on the 28th day of December 1880, First Class Assistant Apothecary William Johnston, Subordinate Medical Department, attached to the 14th Hussars, was arraigned on the following charge :—

CHARGE.

Having, at Ooregum, Kolar District, on or about 25th September 1880, committed the offence of drunkenness.

FINDING.

The Court find that the prisoner, First Class Assistant Apothecary William Johnston of the Madras Subordinate Medical Department, attached to the 14th Hussars, is guilty of the charge.

SENTENCE.

The Court sentence the prisoner, First Class Assistant Apothecary William Johnston of the Madras Subordinate Medical Department, attached to the 14th Hussars, to be reduced three places in the list of his class.

(Signed) A. T. COX, Lieut.-Col.,
President.

BANGALORE,
1st January 1881.

Confirmed. The name of First Class Assistant Apothecary William Johnston will be placed next below that of First Class Assistant Apothecary Daniel O'Leary in the list of First Class Assistant Apothecaries.

(Signed) NEVILLE CHAMBERLAIN, General,
Commander-in-Chief.

MADRAS,
29th January 1881.

REMARKS.

I am always willing to give the fullest consideration to previous good character, but the verdict of the Court is beyond question, and the prisoner only in April last was placed in arrest for drunkenness: on that occasion his previous good character saved him from trial. This being his second offence of the same kind, it is quite impossible to extend to him any consideration for his having been unavoidably kept three months under arrest. I do not feel that I should be justified in remitting the sentence, which I consider lenient. Drunkenness in a Medical Subordinate is a very grave offence; and I trust that the Assistant Apothecary will not again commit himself, or he will be sure to lose his service.

Commander-in-Chief,
Madras Army.

GENERAL ORDERS

BY

THE PROVINCIAL COMMANDER-IN-CHIEF.

HEAD QUARTERS, BANGALORE,
4th April 1881.

The following general orders, by His Excellency the Commander-in-Chief in India, are republished :—

Adjutant-General's Office, Simla, 21st March 1881.

Horse Guard's G. O., 13 of 1881, (Census, 1881,) is republished for information and guidance :—

2. The returns on Form A will be sent direct by corps to the Adjutant-General, Horse Guards.

3. Officers commanding divisions and districts will forward to this office, as soon after April 4th as possible, a return on the accompanying form of all officers and soldiers belonging to the British army and their families, employed on the staff, or in departments within their commands.

4. Officers of the Staff Corps, officers of the British army not seconded, and soldiers borne on the establishment of their corps or batteries, will be excluded from this return, as such officers and soldiers will be included in Form A furnished by corps.

Horse Guard's G. O. 13.—*Census*, 1881.

I. A return being required by the Registrar-General, of every individual borne on the strength of, or belonging to, the British Army on the 4th April next, distinguishing English, Scotch, and Irish, and showing the ages of the officers, men, women, and children, in quinquennial periods, a report on one of the accompanying Forms (A) is to be transmitted to the Adjutant-General, as soon as possible after the above date, by

every Regiment and Depôt in Great Britian and Ireland, in the Colonies, in India, and at Sea; special care being taken that every individual belonging to the Regiment or Depôt, whether present or absent, is duly accounted for in the column which may be applicable to his or her particular case.

II. Similarly a return, on Form B, is to be transmitted by General or other Officers Commanding Districts at home or stations abroad.

III. The wives and families of soldiers married without leave, and residing out of barracks, are not to be included in the Military Form A, as they will be accounted for by the Enumerator of the District in which they reside.

IV. It is to be clearly understood that these two returns, which are required to show the strength of the Army at home and abroad on the Census day, are quite independent of, and do not supersede, the ordinary Census operation, in which all the civil and military population, living on the night of April 3rd, will be enumerated by the Registrars of each district in the United Kingdom.

V. Every facility is to be afforded to the Local Officre appointed under the Census Act, whose duty it will be to deliver at the different barracks in England and Wales, Scotland, Ireland, and the Channel Islands, the proper schedule or enumeration book, for the purpose of being filled up by some Officer, to be in each case specially selected for that duty.

VI. In case of the Barracks in England and Wales, containing more than 200 soldiers, payment will be made to the enumerating Officer for his trouble in filling up the return, according to a scale of allowance fixed by the Lords Commissioners of Her Majesty's Treasury.

B.

3. The Government of India have also approved, subject to the concurrence of Her Majesty's Government, that the passing of the examination prescribed for final admission to the Staff Corps should be compassed within the period of the three years now allowed for passing the higher standard in Hindustance, instead of, as at present, within 18 months, *i.e.*, the probationary period of the officers in question, instead of being divided into two parts, as is the case at present (*vide* rules VIII and X of Horse Guards' G. O. 117 of 1878), is to be considered as one whole term of three years, reckoning from the date of first

With the sanction of Government, the following additions and alterations are made in G.O.C.C. of 22nd December 1880, republishing Bengal G.O.C.C. of the 7th September 1880, abolishing standing medical boards at the ports of embarkation, for officers of the Indian Services proceeding on furlough, and promulgating instructions thereon for the guidance of General Officers and others concerned.

(Specially issued on the 11th April 1881.)

ARMY ORGANIZATION.

I. The following changes in the organization, titles and uniform of the regiments of the Infantry of the Line and Militia having been approved, are promulgated for general information. When not otherwise stated, they will come into effect on 1st July 1881.

II. *Organization.*—The Infantry of the Line and Militia will in future be organized in Territorial Regiments, each of four battalions for England, Scotland and Wales, and of five battalions for Ireland; the 1st and 2nd of these being Line battalions, and the remainder Militia. These regiments will bear a territorial designation corresponding to the localities with which they are connected; and the words "Regimental District" will in future be used in place of "Sub-District," hitherto employed.

III. In those regimental districts where more than the requisite number of Militia battalions at present exist, the supernumerary battalions will either be converted into Artillery or Engineers, or absorbed, according to circumstances. In those where only one exists, another will be formed as soon as practicable.

IV. The following alterations in the localization of Line battalions will take place :—

The	26th	and	90th	will be localized together at Hamilton.
,,	39th	,,	54th	,, ,, Dorchester.
,,	42nd	,,	73rd	,, ,, Perth.
,,	43rd	,,	52nd	,, ,, Oxford.
,,	45th	,,	95th	,, ,, Derby.
,,	53rd	,,	85th	,, ,, Shrewsbury.
,,	71st	,,	74th	,, ,, Hamilton.
,,	72nd	,,	78th	,, ,, Fort George.
,,	75th	,,	92nd	,, ,, Aberdeen.
,,	87th	,,	89th	,, ,, Armagh.
,,	88th	,,	94th	,, ,, Galway.
,,	91st	,,	93rd	,, ,, Stirling.

V. The 79th will be localized at Inverness, round which centre a fresh regimental district will be formed.

VI. Soldiers serving in any of the battalions mentioned in paragraph IV, previous to the 1st July 1881, will not be liable to serve in the other Line Battalion of their new Territorial Regiment without their own consent.

VII. In addition to the regiments formed out of the existing Rifle battalions of the Line, the Territorial Regiments formed out of the—

26th and 90th with their affiliated Militia battalions,
83rd ,, 86th ,, ,, ,, will
become Rifles.

VIII. *Honors and Distinctions.*—All distinctions, mottoes, badges or devices, appearing hitherto in the "Army List," or on the colors, as borne by either of the Line battalions of a Territorial Regiment, will in future be borne by both those battalions. Battalions which have not hitherto borne a special device will adopt a national badge, as follows :—

English regiments	A Rose.
Scotch ,, ...	A Thistle.
Irish ,, ...	A Shamrock.
Welsh ,, ...	A Dragon.

IX. *Uniform.*—With the exceptions noted in paragraph XIII, the uniform of all the battalions of a Territorial Regiment will be the same. The title of the regiment will be shown on the shoulder strap.

X. The facings and the Officers' lace of Territorial Regiments will be the same for all regiments belonging to the same country (Royal and Rifle regiments excepted), and will be as follows :—

	Facings.	Pattern of Lace.*
English (and Welsh) Regiments ...	White.	Rose.
Scotch Regiments ...	Yellow.	Thistle.
Irish „ ...	Green.	Shamrock.

XI. Royal Regiments will retain blue facings, wearing the national lace. The black line will be maintained in the lace of Territorial Regiments, any of whose battalions are now authorized to wear it.

XII. The following regiments, in addition to those already wearing the kilt, will adopt it, *viz.*, the 72nd, 73rd, 75th and 91st. All other Scotch Regiments will wear trews and the Highland jacket.

XIII. Militia battalions will wear an "M" on the shoulder strap above the title of the Territorial Regiment. Scotch Militia battalions belonging to a regiment whose Line battalions are kilted will, instead of the kilt, wear trews of the same tartan. The Royal Aberdeenshire and the Highland Light Infantry Militia will, however, continue to wear the kilt.

XIV. The accompanying Tables (see Appendix) show the precedence, composition, title and uniform of the new Territorial Regiments.

XV. The changes of uniform for battalions, which become either kilted or rifles, will come into effect both for Officers and men on 1st April 1882, with the exception of the 73rd Regiment, which will adopt its new uniform on 1st July 1881. Officers joining these battalions will, previous to the change, only be required to appear in undress uniform.

XVI. Changes of facings and alterations in badges (for battalions in which these and the Officers' lace only are changed) will come into effect, both for the Line and the Militia, as regards the men, on 1st July 1881.

---

* Patterns of the three kinds of lace are in the War Office pattern-room.

Officers newly appointed to these battalions will at once provide themselves with uniform in accordance with these instructions, and other Officers in them as they may require to replace that now in possession.

XVII. Paragraphs XV and XVI will not apply to the Militia battalions of those regimental districts where their number at present exceeds two in England and three in Ireland. In these cases the Militia Battalions will continue to wear their present uniform, pending further instructions.

The following Horse Guards' general order is republished for the information and guidance of all concerned :—

Consequent on the introduction of the word "fire" as an executive word of command (G.O. 15 of 1881), the following

* Superintendent, Lawrence Asylum Press, Madras.

alterations in the "Rifle Exercises and Musketry Instruction" will be made in all copies of the book now in possession :—

Page 107, line 19, *dele* from "In" to end of paragraph.
Page 111, *after* "present" *insert* "fire."
Page 112, section 9, lines 7 and 14, *after* "present" *insert* "fire."
Page 112, line 8, *after* "present" *insert* "fire."
Page 112, section 9, line 8, *dele* from "The" to "commences" and *insert* "after a pause the right-hand man of the front rank will commence."
Page 114, *insert* "fire" *after* "present" in four instances.

With the view of assimilating the words of command in the British and Native armies, the Commander-in-Chief in India directs that officers commanding regiments of Native Infantry will at once introduce the word "fire" as an executive command in volley firing.

Revised instructions for executing this practice will shortly be issued to the Native army; but in order to accustom the men to the change, the command "fire" is to be given at all volley-firing drills from the date of the receipt of this order by commandants.

When the men come to the "present," the instructor, after a pause equal to three beats of slow time, will give the word "fire."

Each man will at once press the trigger firmly, but without a jerk, and then proceed as detailed in the firing exercises.

The instructor should dwell on the word "fire," which must be given slowly, but still with decision, avoiding all hurry and confusion.

From the Right Hon'ble the MARQUESS OF HARTINGTON, *Her Majesty's Secretary of State for India, to His Excellency the Most Hon'ble the Governor-General of India in Council, No.* 116 (*Financial*), *dated India Office, London, the 31st March* 1881.

I forward herewith a copy of a letter from the War Office, Dated 15th March 1881. from which it will be seen that the Secretary of State for War has decided to give an allowance of one pound per man on account of extra wear and tear of clothing in the Zulu Campaign, to those men who crossed the border into Zululand between the 11th January and 1st September 1879, inclusive.

2. With a view to the prompt settlement of the claims of the men, I request that they may be paid as soon as practicable, provided that the necessary certificates and vouchers are furnished in support of the claims.

3. Statements of the sums issued in accordance with the request of the War Office should be forwarded to this office, with the certificates and vouchers, in order that the amount advanced to meet the claims may be adjusted in this country.

No. 079/1244. SURVEYOR-GENERAL'S DEPARTMENT, WAR OFFICE ;

The 15th March 1881.

SIR,

I am directed by the Secretary of State for War to inform yon that he has decided to give an allowance of one pound per man

(*a*) Madras G.O.C.C. 5th July 1880, page 311.

on account of extra wear and tear of clothing in the campaign against the Zulus to those men who crossed the border into Zululand between the 11th January and 1st September 1879 inclusive.

As some corps engaged in the operations in question have since gone to India, Mr. Childers considers that the shortest method of adjusting the proposed issues to such corps would be to transfer the due amounts at once, and he has accordingly given instructions for the immediate transfer of a sum of £4,500 to the credit of the Secretary of State for India in Council, in order to meet the claims which the officers commanding the corps named in the margin will be directed to make upon the local authorities; and I have to request that you will move the Marquess of Hartington to cause instructions to be given to the local authorities to authorize payment of such claims when made.

"I" Battery, "N" " , "O" " } 6th Brigade Royal Artillery } Madras.

* * *

2nd Battalion 24th Foot (Madras).

I have to add that each claim should be certified by the commanding officer that the men were engaged in the operations in Zululand during the period mentioned in the first para. of this letter, and that none of them have previously received compensation in lieu of extra articles not issued to them during the same period.

Should the amount transferred not be sufficient, the difference required to pay the claims will be allowed by the Imperial Government on receiving a statement showing the disposal of the sum now transferred; but if it be more than sufficient, the surplus amount should be recredited to the Imperial Government.

I have, &c.,

(Signed) JOHN ADYE, *Lieut.-Genl.*

To the Under Secretary of State for India,
India Office.

With reference to the above, the Commander-in-Chief directs commanding officers to submit the claims of all men entitled to the allowance, in the usual manner, as early as practicable.

2. On disembarkation all boxes, &c., labelled with the "red star" will be collected in one place and subsequently distributed to the owners.

9. Timely notice of all movements must be given by the General Officer Commanding the Division or District from which the troops proceed to the General Officer Commanding the

HEAD QUARTERS, BANGALORE,
29th September 1881.

1. The General Officers in command of divisions and districts in which any men of the corps specified in the margin are now serving, will, in communication with the Deputy Surgeons-General of the divisions and districts concerned, at once assemble special invaliding medical boards to ascertain what men of the regiments and batteries, under orders to embark this cold season from Bombay for England, will require to be discharged from the service on their arrival at home. A list of these men, showing in separate columns such as may accompany their regiments or batteries, and such as are unable to bear the rapid change to the winter climate of England, will be furnished to the Surgeon-General Her Majesty's Forces, Madras.

12-8th Royal Artillery.
1st Bn. Royal Scots Fusiliers.

2. Complete invalid and discharge documents will be made out in India for all men whose discharge on arrival at home is contemplated; those of men left behind (that is, who will not accompany the regiments, or batteries to England,) being transmitted to the officer commanding the depôt or station where the men may be quartered. The documents to be prepared for men left behind, whose discharge on arrival at home is not contemplated, will be those for an ordinary transfer to the depôt company, with the usual invalid documents complete.

3. A nominal roll of *all* men not embarked with their regiments, or batteries, will be transmitted by commanding officers to the Adjutant-General, and in the case of the Royal Artillery to the Assistant Adjutant-General Royal Artillery, Madras, shortly before sailing; the cause of detention being specified in each case. It will further be stated whether all necessary documents in the case of each man shown in the roll have been transmitted to the proper authorities.

4. His Excellency the Commander-in-Chief of the Bombay Presidency is requested to cause any men of these regiments or

batteries, whose fitness for embarkation at the time intended may have become doubtful after departure from their stations, to appear before medical boards at Bombay, in view to their being detained till later in the season, when the period for arrival at home will be more suitable for men in a weakly state of health. In the case of all such men left behind, the instructions given in paragraph 2 will be observed.

5. Medical boards will communicate to regiments and batteries their decisions in the several cases brought before them for examination.

By order of the Provincial Commander-in-Chief.

GENERAL ORDERS

BY

THE PROVINCIAL COMMANDER-IN-CHIEF.

HEAD QUARTERS, BANGALORE,
1*st October* 1881.

Officers commanding divisions and districts will be pleased to assemble invaliding medical boards, in accordance with the following instructions, at stations within their respective commands occupied by British troops, to examine all men whom it is proposed to invalid. The Deputy Surgeon-General of the division or district, or in his absence the medical officer doing his duty, will sit as President.

2. Boards will be held twice during each trooping season, and will assemble at all stations in the command including convalescent depôts, the first early in October, and the second late in February. All such men as have become permanently unfit for service and are not likely to suffer by removal to England during the winter months, will be invalided by the boards assembling in October, the invaliding of the remainder being dealt with by the boards to be held about the end of February. The dates will be fixed by officers commanding divisions and districts, in communication with the Deputy Surgeon-General, and should be made to correspond with the instructions for movement and embarkation received from the Quartermaster-General.

3. Medical boards will refrain from recommending soldiers who have enlisted in India and are not desirous of leaving the country to be sent as invalids to England or the colonies, but soldiers enlisted in a particular colony, and who desire to return to the same, may be recommended by the board accordingly.

4. Regiments and batteries marching in relief before the assembly of invaliding boards will, as a general rule, take all invalids capable of travelling with them, if proceeding to stations on the line of railway nearer to the port of embarkation; but if otherwise, or moving to more distant stations, they will leave them behind.

5. Care will be taken that all documents connected with such men are completed, as far as possible, prior to the march of their regiment or battery, and handed over, the military docu-

ments to the officer commanding, and the medical documents to the medical officer in charge. In the event of there being no regiment or battery at the same station to which the invalids can be attached, the military documents should be made over to the officer detailed to proceed to the port of embarkation with the men; or in the event of no such officer being detailed, an experienced subaltern will be left in command of the party who will take charge of the documents in question. Arrangements will also be made in communication with the divisional authorities for the medical charge of the detachment, and the custody of the medical documents of the invalids.

6. With a view to ensure accuracy in their documents and accounts, officers commanding and in medical charge of detachments and hill and other depôts, will place themselves in direct communication with the regiments of all men about to be invalided. This must be done in good time, in order that all claims and other matters may be settled before the men belonging to depôts or detachments leave their stations. The rule directing the settlement of all claims before the men leave their regiments, will apply equally to invalids from depôts and detachments.

7. W. O. F. 821,-A, "Return of invalids," will be used for all nominal returns of invalids.

8. This return will be prepared in duplicate by the medical officer in charge, and signed by himself and the officer commanding the corps prior to its submission to the medical board. Separate returns are required for each corps. In the case of insanes separate returns are required for each individual.

9. The medical board will fill up the column for discharge or change of climate, and the two copies will be thereafter certified by the Deputy Surgeon-General, and countersigned by the officer commanding the station.

10. One copy will be handed to the medical officer proceeding in charge of the invalids to Deolali, who will enter in this nominal list any changes that have occurred during the journey. This copy will be delivered to the medical officer of the Deolali depôt, and retained by him as a record as long as it may be considered necessary.

11. The duplicate copy will be transferred by the president of the board to the regimental or depôt military authorities, for their information, and for despatch by post to Deolali as directed in the discharge order. This copy of the return of invalids will be retained by the commandant of the Deolali depôt, until the close of the trooping season when it will be transferred to the Surgeon-General of Her Majesty's Forces in Bombay, for record in his office. In the case of invalids from Burmah the duplicate copy of W. O. F. 821-A, will be sent by post to the

Commandant, Poonamallee depôt, with the other discharge documents. No other station return of invalids will be necessary.

12. The commandant at Deolali will cause continuous nominal rolls, in *duplicate*, of the invalids embarked in *each* troopship, to be made out on the same form, one set for men of the Royal Artillery, and one set for all other troops. These will be handed to the medical officer proceeding in charge of the invalids to England, any casualty *en route* being duly recorded in the columns set apart for that purpose.

13. The Detailed Medical History of every man invalided to England (Army Form B-179, late W. O. F. 891) will be made out by the medical officer in charge in duplicate and in the case of insanes a Statement of Case (W. O. F. 891-A.) will be attached to each copy. These will be submitted to the board, who will ascertain that the information under each heading is complete; and after filling in the remarks and finding, will countersign the return. The proceedings will thereafter be approved and signed by the Deputy Surgeon-General. One copy, together with the Medical History Sheet (Army Form B-178, late W. O. F. 1143) will be handed to the medical officer proceeding in charge of the party to Deolali, for transfer to the medical officer in charge of the depôt. These documents will be afterwards entrusted to the medical officer proceeding to England in charge of the troopship.* The duplicate copy will be transferred to the officer commanding the regiment for attachment to the "proceedings on discharge" (Army Form B-268).

14. In the case of invalids who are eligible under the regulations, and who may elect to proceed to the colonies or to remain in India, one copy only of this return will be required for each man. This copy, after being signed by the invaliding medical board, and by the Deputy Surgeon-General, will be forwarded, together with the man's Medical History Sheet, through the military authorities to officers commanding regiments, to be transmitted with the proceedings on discharge, &c., to the Adjutant-General at Fort Saint George.

15. Forms for invaliding will be obtained from the Surgeon-General, Her Majesty's Forces, Fort Saint George, in the usual manner.

16. Further instructions for the guidance of divisional invaliding boards will be issued by the Surgeon-General Her Majesty's Forces.

---

* It is of the greatest importance that all medical documents of invalids should be handed over to the medical officer in charge *immediately on embarkation.*

17. As soon as invaliding medical boards in October and February respectively have completed their sittings, the Deputy Surgeon-General will prepare, in duplicate, a numerical return of the invalids, which he will forward to the general officer commanding the division or district for transmission as follows—one copy to the Quartermaster-General, Fort Saint George. Forms of this return will be supplied from the Surgeon-General's Office, Fort Saint George.

18. Invalids, who are so ill as to be unable to embark or bear the voyage for which they were designated, will be detained at Deolali until the sailing of the last troopship, and if the medical authorities then consider it absolutely necessary that they should proceed to England by the Cape route, His Excellency the Commander-in-Chief of the Bombay Presidency will order passages in private vessels to be provided for them.

19. The invaliding of military insanes will, with the approval of the Surgeon-General, Her Majesty's Forces, be carried out by special boards assembled under the orders of the local military and medical authorities, at as early a date before the commencement of the cold weather as possible, to enable provision to be made for their passages. Recommendations made by boards for the removal of insanes to a Lunatic Asylum, require the special sanction of the Surgeon-General before the men are allowed to leave their stations.

20. Invaliding medical documents of insanes will be endorsed with the word "Insane," in *red ink*, in the upper right hand corner, and will be disposed of as in the case of ordinary invalids, excepting the duplicate copy of the return of invalids (W. O. F. 821-A.) which will be posted to the commandant of the Colaba depôt, instead of the Deolali depôt; accompanied by the admission order for the Colaba asylum by the Surgeon-General, Her Majesty's Forces, Fort Saint George.

21. The instructions contained in the Annual Discharge order are to be followed, so far as they apply to invalids; any subsidiary order necessary in furtherance of the foregoing arrangements being issued by general officers commanding divisions and districts.

By order of the Provincial Commander-in-Chief.

Adjutant-General.

GENERAL ORDERS

BY

THE PROVINCIAL COMMANDER-IN-CHIEF.

HEAD QUARTERS, BANGALORE,
22*nd October* 1881.

The annexed returns of the Musketry practice of British and Native troops in the Madras Presidency for 1880-81, are published for general information.

2. *British Cavalry.*—The figure of merit exhibits a decrease of 1·40 points per man on that of last year, and is not so good as it ought to be considering the improved weapon with which the cavalry are now armed.

3. *Native Cavalry.*—There is an improvement in the figure of merit of 8·95 points per man, which is due in a great measure to the superior shooting of the 3rd Light Cavalry.

4. *British Infantry.*—The results of the individual practices continue very satisfactory, the figure of merit being 106·41 against 104·71 in 1879-80, and the 2nd Battalion, Hampshire Regiment heads the list with the "very good" average of 116·25.

5. *Native Infantry.*—The figure of merit is only "moderate" and exhibits a decrease of 2·39 points per man on that of the previous year.

6. The percentage of non-exercised men is still too high and the Provincial Commander-in-Chief desires again to remind commanding officers that except those exempted by regulation and those who were in hospital, in prison, or on the recruiting service during the whole course, there should be no untrained men in any regiment.

7. The annual course, except in a few instances in the Native Infantry, has been regularly conducted and the musketry documents kept with care and accuracy.

8. The shooting of the recruits shows a decrease of 1·73 points per man on the figure of last year, but the average attained in

individual firing, viz., 100·10 proves that with proper instruction the required standard for admission to the ranks is not too high.

9. Field firing was carried out by brigades at Bangalore, Secunderabad, Bellary, and Thayetmyo, and at a few other stations by battalions and half battalions. The Provincial Commander-in-Chief is glad to learn from the reports on this most useful practice that the fire of the men generally was well under control both of company commanders and section leaders, but he regrets to find that more practice is still required by all ranks in estimating distance. Major-General Payn would therefore ask general officers commanding to see that fuller effect is in future given to the regulations as per margin regarding extra judging distance practice.

Paras. 82, 83 and 138 and 157 of the Indian Appendix and Native Musketry Regulation respectively.

10. Firing at moving objects is in future to form part of the annual course for the Native Infantry, but the Provincial Commander-in-Chief has noticed with pleasure that in three regiments of British and fourteen of Native Infantry, 2,306 men were exercised therein during the past season.

Conditions :—First stage.

2. The twenty men of Cavalry regiments and five men in batteries of Artillery who make the highest scores at this distance in each regiment or battery, will be considered as the champions, and they alone will compete in the second stage of the match without paying any further entrance, and will fire seven rounds each at 400 yards, and seven rounds each at 500 yards in any position. The individual who makes the highest aggregate score at the two distances of the second stage, will be the winner of the purse presented by His Excellency. The regiments and batteries competing will be placed in order of merit according to the averages made in the second stage by their champions.

Second stage.

3. The whole of the entrances, without any deduction, will be issued in individual prizes, to the best shots in order of merit, amongst the competitors in the second stage of the match, in proportion to the percentage of prizes to competitors, (see general rule 3). The number of money prizes, and the amount of each prize, will depend on the number of entrances for the match, and will be determined by the Assistant Adjutant General for Musketry, in communication with the commanding officers of competing regiments and batteries, as soon as the total number of entrances shall have been ascertained. The winner of the purse given by His Excellency the Commander-in-Chief, will in addition, receive the first money prize.

2. The match is to be divided into two stages. Every non-commissioned officer and soldier, with their commanding officers' permission, (and commanding officers are requested to place as few restrictions as possible on the number of competitors,) will be eligible to enter for the first stage, on payment of four annas each, and will fire in any position seven rounds each, unless they retire before completing that number, at 500 yards.

Individual money prizes.

tion with the officers commanding regiments competing, as soon as the total number of entrances is known. The first money prize will probably be 40 rupees.

General Rules, applicable both to the Cavalry and Infantry competitions.

1. The intention of His Excellency the Commander-in-Chief is, that the whole Army may share and be interested in these matches.

2. The entrances should not, therefore, be confined to a few regimentally selected men.

3. The award of prizes will be calculated thus:—suppose 5,471 competed and 182 prizes given, the percentage of prizes to competitors will be 3·32, the number of individual prizes a regiment can gain will then be 3·32 of the number of its entries. This will be given according to scores, but after this proportion has been awarded, the men of such regiments will be passed over, and the money prizes awarded to men of regiments with more entries.

4. The first stage (except in the case of corps on the line of march or under orders to return to England, as hereafter provided for,) must be shot off during the month of December 1881, and the second stage on any day between the 19th and 24th of December 1881, both days inclusive. The practice of the second stage, once commenced, must be terminated on the day on which it was begun.

Date of competition.

5. In order to give corps, which will be on the line of march, or under orders to return to England about the dates above specified, an opportunity to compete—and the Commander-in-Chief is anxious every regiment should have an equal chance—commanding officers are requested to at once address the Assistant Adjutant General for Musketry, Simla, stating their wishes as to the date, *prior to the 19th or after the 24th of December*, on which they wish to compete. The Assistant Adjutant General for Musketry will communicate the Commander-in-Chief's wishes to the corps concerned. But in order to permit of the result of the match being timely ascertained, the earliest possible date should be named.

Corps marching.

6. When regiments are divided into wings or detachments, the second stage of the competition will take place, under regimental arrangements, at the station of the head quarters' wing only.

7. In these cases, the travelling expenses of such men as may be sent to head quarters to join the selected twenty champions may, in British regiments, be charged to the Canteen Fund. In Native regiments it may be charged to the Lead and Cartridge Case Fund, provided the repair of ranges and appliances is duly secured.

8. *Ammunition*—of government issue only.

9. *Targets*—as per regulation for the season in question.

10. *Marking and Scoring*—Regulation.

11. *Dress*—any.

12. The Musketry Regulations, in regard to registers and all details not otherwise specified, are to be strictly followed. To give complete confidence to all, that the competition will be conducted with perfect fairness, the Commander-in-Chief wishes that in stations where two regiments are quartered together, a committee should be formed for each corps, consisting of one Field Officer if available, (otherwise of the senior Captain present, instead,) one Captain of the competing regiment, and the Officer Instructor of Musketry, Wing Officer or Adjutant of the other regiment. In stations where only one regiment is quartered, the committee would consist of two officers of that corps, and of an officer to be detailed by the officer commanding the division, district or station. The committee for a battery of Artillery would be composed of the two senior officers present with the battery, and of one officer of another regiment to be detailed by the officer commanding the division, district or station.

13. The presence of an officer of another regiment, or of the Staff Corps, at all stations, is compulsory, and should be early arranged for.

14. The committee for each regiment or battery should be present during the firing of the second stage only of the competition; they are to satisfy themselves that no mistake has been made in the nomination of the team; ascertain the number of entries in the first stage; sign the practice registers at the conclusion of each distance; and send a certificate, according to the form at foot of para. 17, to the Assistant Adjutant General for Musketry, Simla, for the Commander-in-Chief's information.

15. The registers of the second stage, and an order on the Simla Treasury for the total amount of entrances, are likewise to be transmitted by each corps to the Assistant Adjutant General for Musketry. The Treasury order should follow as soon as possible after the registers, if it cannot be obtained in time to accompany them.

16. Particular attention is requested to the necessity for all remittances being made payable on Simla; as much inconvenience and loss to the fund are caused by treasury orders, bank cheques and money orders being drawn on other stations.

17. No man is to be permitted to fire in the first stage until he has paid his entrance money.

Certificate.

We certify that we were present during the whole of the practice of the second stage of the competition for His Excellency the Commander-in-Chief's prize, by the 20 or 5 champions of the —— regiment or battery; that we compared the registers with the target at the conclusion of the practice at each distance; that we added to, or deducted from the total points of each register, any discrepancy that existed between target and register; and that we saw that the practice was conducted in strict accordance with the conditions and rules of the match, and with the Musketry Regulations. We also certify that there were —— entrances in the first stage, and that the men who fired in the second stage were those who made the highest scores in the first stage.

Adjutant-General's Office, Simla, 18th October 1881.

Horse Guards' general order No. 64, *Soldiers' Documents*, dated 1st June 1881, is re-published for information:—

I. When soldiers are transferred or discharged, great inconvenience is frequently caused by the whole of the necessary documents not being sent at once to the officer who should, in future, have charge of them.

II. With a view of obviating this inconvenience, a new Army Form (B 278), headed "*List of Documents*," has been prepared. One of these forms will be attached to the outside of the first page of each Copy Attestation in the keeping of Commanding Officers. This should be done by means of a little gum or a wafer put on the left upper corner of the Attestation.

III. When a soldier is to be transferred to another battalion or corps, or to the Reserve, or when he is to be discharged, the documents relating to the man, required by the Queen's Regulations, will be put inside his Copy Attestation (or Attestation, as the case may be), carefully arranged in the sequence shown in this Form (B 278). Should any one of these documents be missing an explanation of the deficiency, written on a half sheet of foolscap, and signed by the Commanding Officer, must be substituted. Each separate Attestation will then be folded once lengthways, with the "*List of Documents*" (Form B 278) *outside*, and tied round with a piece of string or tape. The Attestations of a Draft will be arranged alphabetically and made into a parcel, in order that all the documents of any individual man may be easily found.

IV. The "*List of Documents*" (Form B 278) will remain attached to the Copy Attestation in the custody of the Commanding Officer, for future use or reference, and will remain so attached until the man is discharged, when it should be transferred to the original Attestation sent up with the discharge documents.

V. The Commanding officer who sends the men away will cause a nominal list of the party to be prepared alphabetically, on Army Form B 279, headed "*Receipt for Documents*," showing the documents sent with each man.

VI. The entries against any man's name, in the "*Receipt for Documents*," (Army Form B 279), should be the same as those against his name in the "*List of Documents*," (Army Form B 278).

VII. The officer to whom the documents are sent, should check them by the entries in the "*List of Documents*," (Army Form B 278), as soon as possible after receiving them. He should also check the entries in each, "*List of Documents*" against the entries in the "*Receipt for Documents*." Having found the entries correct he should sign and return the "*Receipt for Documents*." Should any document be missing, he must at once apply for it, as he will be held answerable for any deficiency.

VIII. In the case of a Draft proceeding under the command of an officer, the documents of all the men, duly prepared as directed in paragraph 3, will be handed over to him with the "*Receipt for Documents*." This should be done in sufficient time to enable him to check the entries as directed in paragraph 7, and return the "*Receipt for Documents*" before his departure.

IX. In other cases, the "*Receipt for Documents*" will be sent by post to the officer who takes over the command of the men, who will deal with it as directed in para. 7.

X. In cases of transfer from one corps to another, the original Attestations, together with the documents thereto attached, will be transferred direct from the officer in whose custody they were to the officer who will have charge of them in future.

XI. Army Form B 137 (late W.O. Form 869) is obsolete.
