No. 1.

College.—The following Horse Guards' General Order, dated 1st November 1886, is republished for general information :—

G. O. 125.—Staff College.

I. Revised regulations respecting admission to, and training at, and in connection with, the Staff College have been approved, and will be issued to all concerned. They will come into force for Officers entering the College in February 1887, but will not be applicable to any Officers now students at the College.

II. The following will be substituted for paras. 1-23 of Sec. IX., "Queen's Regulations and Orders for the Army, 1885":—

Admissions, how regulated.

1. The Staff College is open to Officers of all arms of the Service, and may consist of 60 students, including, as supernumeraries, 8 Officers of the Indian Army and Royal Marines; admission to it is determined by a competitive examination. Only one Officer from a battalion of Infantry or regiment of Cavalry, and 12 Officers from the Royal Artillery and Royal Engineers will belong to the College at one time; but an exception to this rule may be made when an Officer has been unable to complete the course within the prescribed period, and so far as the exigencies of the Service shall permit, there will be no limitation to the numbers allowed to compete for admission.

Twenty-four vacancies are offered for competition annually, which will be filled as follows :—Three by Officers of the Royal Artillery; two by Officers of the Royal Engineers, with an additional vacancy per annum for each corps alternately, provided that they are among the 24 candidates highest on the list; and 18 by Officers of the remaining arms of the Service. In addition to these, the Commander-in-Chief may nominate annually for entrance to the Staff College two Officers who have performed good service in the field or held the appointment of Adjutant with the Regular Forces for a period of four years. These Officers will only be required to qualify for entrance in the subjects enumerated in para. 5. An Officer who, while a student at the Staff College, is promoted to the rank of regimental Lieutenant-Colonel, will be liable to be ordered to rejoin his regiment for duty. No Officer will be permitted to compete for admission to the Staff College whose age exceeds 37 years at the date fixed for the examination.

Qualifications for Admission.

2. The following are the qualifications requisite for admission:—

(*a*) A service of not less than five years previous to examination, exclusive of any leave of absence, other than the usual leave annually granted, to Officers on home service, or the leave on first appointment.

(*b*) A certificate from his Commanding Officer that the candidate is in every respect a thoroughly intelligent and good regimental Officer; that his name has been recorded on the selected list (referred to in para. 3), and that he is an Officer whom he would select to act as Adjutant, or to serve on his own Staff.

(*c*) A certificate that the candidate, if not a Captain, has qualified for promotion to that rank, and that he is a fair rider.

(*d*) A certificate from a Medical Board to the effect that the candidate is in good health and physically fit for active duties of the Staff; and that he is not deaf or short-sighted.

(*e*) Satisfactory replies to the following questions, confidentially and independently given to the General Officer Commanding by the Commanding Officer and the two next senior Officers of the candidate's regiment:—

1. Is his conduct marked by steadiness and prudence, and is he temperate in his habits?
2. Is he active and energetic?
3. State very fully your opinion of the candidate as a rider, and mention the opportunities you have had of judging of his capabilities in this respect.
4. Does he display zeal, activity, intelligence and discretion in the performance of his duties, and take an interest in his profession?
5. Are his disposition and temper such as to enable him to perform those duties with tact and discrimination, and in a manner calculated to ensure cheerful obedience of orders conveyed by him?
6. Report any other characteristic of the Officer which renders him suited or otherwise for the duties of a Staff Officer.

Officers furnishing the certificates (*b*), (*d*), and (*e*) will bear in mind their extreme importance; for if an Officer so recommended should while at the Staff College prove himself clearly unfitted for Staff employment, this will be considered by His Royal Highness as reflecting seriously upon the judgment and capacity of those who recommended him.

List of Officers recommended for Admission to be kept up by the Commanding Officers.

3. Every Commanding Officer will keep a list of those Captains and Subalterns over three years' service whom he can certify to be in every respect thoroughly good Regimental Officers and whom he recommends for admission to the Staff College, should they desire it, because he believes that their services on the Staff would be creditable to the regiment to which they belong, and valuable to the Service, and because he knows no reason, either moral or physical, why his expectation should not be justified. The list should be carefully revised from time to time, and submitted at the inspection to the General Officer Commanding, who should state in his confidential report whether he concurs in it or not. Permission to attend the entrance examination will be given only to Officers whose names are on the list. The reason for adding the name of any Officer to, or for removing that of any one from the list, must be fully explained to the satisfaction of the General Officer Commanding.

Subjects of Examination.

4. The examination for entrance to the Staff College comprises the following subjects, the relative value of each at the examination being shown by the number of marks attached to it:—

	Marks.
Mathematics:—Limited to arithmetic; algebra, as far as quadratic equations inclusive; geometry, the I., II., III., IV., and VI. books of Euclid; the use of logarithms; and plane trigonometry, as far as the solution of triangles inclusive	400
Military History and Geography	800
* Fortification.—Field 500, Permanent 100; the latter to embrace only types of the modern bastion and polygonal system	600
* Military Topography	500
* Tactics	600
* Military Law	400

* The scope of the examination in these subjects (Permanent Fortification excepted) will be that specified for Captains before

promotion to the rank of Major, as laid down in Appendix II., Queen's Regulations and Orders for the Army.

	Marks.
French	500
German	500
Hindustani	300

Standard of Qualification.

5. Every candidate will be required to qualify in—

1. Mathematics.
2. Languages.—French or German except for Officers of the Indian Staff Corps who will be permitted to substitute Hindustani.
3. Fortification (Field and Permanent).
4. Military Topography.
5. Tactics.

One-half of the total marks assigned to each of these five subjects must be obtained by every candidate, except the two specially nominated under para. 1, who will only be required to obtain three-eighths.

The remaining subjects may be taken up at the option of the candidate, the marks gained therein, and in the obligatory subjects, being reckoned in determining his position in the list of competitors; but an aggregate of 1,600 marks will, in any case, be required for qualification. If in any subject the marks obtained by a candidate do not amount to a quarter of the total assigned, these marks will not be allowed to count.

Handwriting.

6. Bad or indifferent handwriting will entail a deduction not exceeding 10 per cent. of the aggregate marks allotted. Illegible handwriting will disqualify. The deduction to be made from each paper for bad writing will be fixed by the Director-General of Military Education.

Examination in Military History.

7. Early notice will be given of the subject of examination in Military History.

Date of Examination.

8. An examination for admission in February will take place each year on the first Tuesday in the preceding June, and the preceding seven following week days.

Mode of Application.

9. Application for permission to attend the examination must, except under very exceptional circumstances, be made whilst the Officer is present and serving with his corps; Officers holding the appointment of Adjutant with the Auxiliary Forces will not be eligible to compete. The application must, in every case be made through his Commanding Officer, and the General Officer Commanding. The Commanding Officer, in forwarding it, will transmit with it the several certificates alluded to in para. 2. The General Officer, after satisfying himself that the Officer is in every respect a desirable candidate, will attach him to his Staff for one month, at the expiration of which period he will transmit the application to the Adjutant General to the Forces, reporting confidentially his opinion of the candidate's general fitness for Staff employment, and specially upon his aptitude for business and for conducting official correspondence. In the case of Officers serving at the Depôt, the following course will be adopted:—The application to compete will be sent through the Officer Commanding the Depôt to the Officer Commanding the Service Companies of the candidate's battalion, who will transmit certificate (*b*), para. 2, to the Officer Commanding the Depôt. The latter will then forward it, with his own replies to the questions in (*e*), to the General Officer Commanding, who will proceed as stated above. The Officer Commanding the Service Companies will also forward a copy of the Officer's application, together with his replies to the questions specified in (*e*), to the General Officer in whose command the Service Companies are stationed, who will forward them, with his opinion if he has any personal knowledge of the candidate, to the Adjutant General. No application can be entertained which does not reach the Adjutant General in complete state prior to the 1st April.

Boards of Examination.

10. The examination of candidates for entrance will be conducted by boards consisting, wherever possible, of three Field Officers; in no case should the President be below that rank. Candidates serving in the United Kingdom will attend the Board assembled in London, under the orders of the Director-General of Military Education. General Officers Commanding abroad will assemble the Board at a convenient station.

Programme of Examination.

11. A programme of the order of examination, with detailed instructions for guidance of the Board and candidates, will be issued by the Director-General of Military Education.

It is most important that the examination should be conducted with strictness, and in accordance with the instructions.

Candidates' Papers to be forwarded without delay.

12. On the completion of the examinations abroad, General Officers Commanding will transmit the candidates' papers to the Director-General of Military Education without delay.

Notification of Result.

13. Immediately after the reports of the Examiners have been received, the result of the examination will be published in General Orders, with the names and index-numbers of the successful candidates, and of those who have qualified, but for whom there may be no vacancies; the index-numbers and the total number of marks gained by candidates who have failed will also be shown.

Competitors qualified, but Vacancies insufficient.

14. Competitors who qualify, but for whom there are no vacancies, will not subsequently be admitted to the Staff College without undergoing a fresh examination. The fact of their having so qualified will be favourably noted by the Military Secretary.

Fees to Mess and Library Funds.

15. No payment is required from students to the funds of the College beyond an entrance fee of 3*l.* from an unmarried, and 1*l.* 10*s.* from a married, Officer, as a contribution to the College mess fund, in addition to the regulated quarterly subscription; and an entrance-subscription of three guineas to the College library.

Officers to apply for Instructions before joining.

16. Officers ordered to join the College on the 1st February will report themselves in writing to the Commandant as soon as practicable after the names of the successful candidates have been published in General Orders, and will forward an address in the United Kingdom to which communications may be sent. No officer is to reside out of the College without permission.

Course of Training, &c.

17. The course of the Staff College occupies two years, which period is not to be exceeded except in case of illness or absence on service; and then only with the sanction of the Field-Marshal Commanding-in-Chief. In each year there are two terms—viz., from 1st February to 15th July, and from 1st September to

15th December; the intervening periods, with a week at Easter, constitute the vacations.

Liability to Removal.

18. An Officer recommended by the Commandant—with the concurrence of the majority of the Military Professors—for removal from the College, in consequence of marked deficiency or neglect, or as being unlikely to make an efficient Staff Officer, will be required to withdraw from the College.

Discipline.

19. Confidential reports upon the character and abilities of every Officer at the College, and upon his qualifications for Staff employment will be made at the end of each year by the Commandant to the Director-General of Military Education for the information of the Commander-in-Chief. In framing these reports the Commandant will be assisted by the Military Professors.

Withdrawl in Consequence of Failure at Examination of First Year.

20. Any student who fails to qualify in the examinations at the close of the first year will be required to withdraw from the College.

Rejection of Students after the First Year.

21. At the conclusion of the examinations of the First year a Board, composed of the Commandant and the Military Professors, will carefully consider whether, amongst the students who have qualfied, there are any who, in their opinion, being unfit for Staff duties in the field are not likely to be rendered fit by further instruction at the College. The Commandant will forward the report adopted by this Board, through the Director-General of Military Education, to the Adjutant General, for the orders of the Commander-in-Chief.

Selection of Students as Graduates.

22. At the conclusion of the examinations of the second year, the Board specified above will be assembled for the purpose of selecting from the list of students who have qualified, those whom they recommend should be considered as having graduated. The same course will be followed, as in the preceding paragraph, with regard to these recommendations.

Each member will regard as absolutely confidential the views and opinions expressed by himself and by the other members of the Board.

Final Confidential Reports.

23. The Commandant, in framing his final confidential report, will place the names of the Officers in the order in which he believes their claim to Staff employment may be fairly considered. He will also indicate the special branch of the Staff for which he thinks each Officer most fitted.

Publication in General Orders of Names of Successful Students.

24. The names of the Officers who have graduated, specifying those who have been specially "distinguished" in any subjects, will be published in General Orders in the order of seniority of their regiments.

Graduates to be attached to other Arms of the Service for Instruction.

25. Officers who have graduated at the Staff College will be attached for four months, during the following summer drill season, to the arms of the Service other than their own, for the purpose of acquiring a knowledge of their duties and of field movements. The mode in which such instruction will be carried out is detailed in Section IV of the Staff College Regulations. General Officers Commanding and Commanding Officers of regiments to which Officers are attached for this purpose, are held responsible that the course laid down is strictly pursued, and will furnish the Adjutant General with certificates on the forms prescribed therein.

Failure precludes Re-admission to the College.

26. Officers not selected for a second year's residence at the College, or who have failed to graduate, will not be allowed to compete again for admission to the College.

College Board for Educational Purposes.

27. The Commandant, in arranging the details of the course of instruction, will be assisted by a College Board composed of the Professors, military and civil.

Course of Study, &c.

28. The Staff College Regulations, containing a synopsis of the course of study and practical work, and showing the standard for qualification at the examinations, will be forwarded to any Officer on application to the Director-General of Military Education.

2. Applications from Officers serving in India should reach the Adjutant General's Office,* in a complete state not later than 15th February, as heretofore.

Military Department No. 855-C., dated 15th April 1887.

Part II.—Add as para. 34A.

"34A. The rules governing the assessment of, and payment for, damage done to crops by camps of exercise in the Punjab, North-Western Provinces, Oudh, Central Provinces and Mysore, are detailed in Appendix I A."

Military Department No. 869-C., dated 16th April 1887.

APPENDIX I A.

Rules for the awarding of compensation for damage done by Camps of Exercise, in the North-Western Provinces and Oudh and Central Provinces.

Before the arrival of the troops at the place fixed for the camp, the Collector shall order the Tahsildar of the Pergunnah in which the camp is situated to prepare two Registers in the form shown below :—

Column	1.	Name of village.
,,	2.	Name of field in settlement of khusrah.
,,	3.	Name of cultivator.
,,	4.	Area of field in acres.
,,	5.	Soil and whether irrigated or unirrigated.
,,	6.	Name of crop.
,,	7.	Estimated produce.
,,	8.	Estimated value.
,,	9.	Proportion injured.
,,	10.	Cash compensation.

2*nd*. In one of these registers the land actually taken up for the camp shall be entered and the first 6 columns filled up before the troops arrive. In the other, the fields which may be injured by the movements of the troops shall be entered from day to day.

3*rd*. The registers shall be kept by the Tahsildar, who with the Canungo, will be held responsible for the supervision of the Putwaris' returns and the entry in the register of every field reported by them.

4*th*. The Putwaris of surrounding villages should be warned that they must furnish a daily report for each village in which any field has been injured by the troops, showing the particulars required in the first six columns of the register. These columns will then be filled up with the data given in the reports, care being taken that every field in which any damage, however slight, has occurred, should be reported and registered.

5*th*. An extract from each register shall, weekly, be furnished to the Commanding Officer.

6*th*. The owner or cultivator of any field which has been injured may require the Putwari to report the field for entry in the register, and on refusal of the Putwari to do so, or on his making a false report, complaint may be made to the Canungo or to the Tahsildar, who will be responsible for full enquiry into the case and for bringing the Putwari to punishment, if the truth of the complaint be established.

7*th*. Towards the end of February or at the period when the crops are beginning to ripen, the Collector will personally, or through his subordinates, enter upon the task of estimating the produce of each field, the value of the crops and the proportion injured. As far as possible these estimates should be framed under the immediate supervision of the Collector, and in all cases they must be carefully checked by him at the time of awarding compensation.

8*th*. The work of framing these estimates will ordinarily be done by the regular establishment of the district, but, where the operations of the troops have been extended, and the area damaged is very large, Collectors are authorized to apply to Government for an additional Deputy Collector, or for leave to entertain a special staff. The cost of any additional establishment thus employed shall be debited to the Military Department in the manner described hereafter.

9*th*. In making out the estimates, the first step will be to strike out the names of those fields which have manifestly suffered no injury. Then with the assistance of a punchayat

composed of zemindars of the neighbourhood, a *kunkoot* or appraisement of the estimated produce, estimated value and proportion injured, will be made and duly entered in columns 7, 8 and 9 of the registers.

10*th*. The Collector will himself visit each village as soon as the estimates for the village are completed, and will award compensation according to the entries in columns 7, 8 and 9 of the register. If the estimate is objected to by any person concerned, the Collector will have power to enquire into it, and alter it if he thinks necessary, otherwise the award of the punchayat may be accepted. He will at the same time receive and pass orders on any petition that may be presented by persons claiming compensation. Where such petitions relate to crops for which an estimate has been made, the substance of each petition and the orders passed on it shall be briefly recorded in column headed *Remarks* of the Tabular Statement to be furnished to Government, as described below.

11*th*. Payment of compensation shall be made immediately upon the Collector's award. The money will be drawn from the District Treasury, and will be debited to the Military Department. At the time of payment, a receipt and agreement (qubzool, wusool and razeenamah) will be taken from each person to whom compensation is paid.

12*th*. When the payment of compensation has been completed, the Collector shall submit to Government, through the Commissioner, a tabulated statement with the following headings:—

1. Name of Pergunnah.
2. Name of village.
3. Number of field.
4. Area of field.
5. Crops.
6. Name of person to whom compensation has been paid.
7. Amount of compensation paid.
8. Remarks.

13*th*. This statement, after sanction by Government, shall be sent to the Military Department, with a request that the sums thus expended be placed to the credit of the District Treasury by that department. If it has been found necessary to entertain any special staff as described in paragragh, 8, an account of the sum paid to each member of such staff shall accompany this statement, with a similar request.

Rules for determining compensation for damage to crops by Camps of Exercise and Manœuvres of Troops in the Punjab.

I. On the arrival of troops within the limits of a district, and thenceforward during the period they remain in the district, the Deputy Commissoner shall cause a daily record to be kept in the annexed form (Appendix A) of all fields occupied by the camp, or traversed by troops, in which there may be at the time a standing crop or on which seed has been sown or would be sown were the fields not occupied by troops. This record shall show the name of the village; the number of the fields in the settlement records; the name of the cultivator; the area of the field in acres; the description of soil irrigated or unirrigated; and the name of the standing crop, and these details shall be filled in from day to day. The remaining columns of the form, showing the estimated produce, the proportion injured, and the amount of money compensation will be filled up subsequently as provided in rule V.

II. The Patwari and Canungo will be held responsible that no omissions occur in the daily preparation of the detail of fields in which crops have been injured, and also that no fields are entered to which damage has not occurred.

III. The entries in the record (Appendix A, Cols. 1 to 6) shall be made immediately after the troops have occupied or traversed the fields, and shall on the same or the following day be read out to the cultivators of the fields in the presence of a Lambardar and attested by the Patwari, Lambardar and cultivator in each case. If any objection is made to the entry it shall be considered and orders passed thereon by the Tahsildar or other officer supervising the preparation of the record, the objection being placed with the file.

IV. Claims for compensation made subsequent to the attestation of the entries in columns 1 to 6, Appendix A, prescribed in rule III, shall be decided on their merits, but unless good cause is shown for the claim not having been preferred previous to such attestation it shall not be entertained.

V. After the attestation mentioned in the preceding rule, an abstract of the statement (Appendix A) in the form given in Appendix B, shall be signed by the Tahsildar and forwarded by the Deputy Commissioner every week to the Military Authorities. This abstract shall show for each village, the total average of fields occupied or traversed and the description of crops injured. The Deputy Commissioner shall consider any objections made by the Military Authorities to the entries in the abstract.

VI. At such time as the crops shall have sufficiently ripened to enable a just estimate to be formed as to the damage caused,

the Deputy Commissioner shall cause the remaining columns of Appendix A to be filled in on the spot by the Tahsildar or other officer appointed by him to estimate the compensation in the presence of the cultivators, of the Lambardars and of the Patwari. In column 7, the estimated produce will be the gross out-turn which might have been expected to be produced in the field if it had not been occupied or traversed. In column 8 will be given the estimated value of such produce. In column 9 will be given the proportion of the crops injured as a fraction, and this proportion will be calculated not upon the area injured, but with reference to the difference in the value of the ripened crop, and of the crop which would have ripened, but for the manœuvres. Column 10 will contain the cash compensation proposed—where this amount differs from that obtained by an application of the figures of column 9 to those of column 8, a cause should be assigned for such difference.

VII. Objections to the entries made in these columns will be recorded with the proceedings and orders passed thereon by the officer determining the compensation.

VIII. The Deputy Commissioner or one of his assistants should personally inspect the locality and satisfy himself of the reasonableness of the entries regarding the estimated damage.

IX. In any case the Deputy Commissioner shall give the final order fixing the amount of compensation to be awarded. This order shall then be communicated to the persons concerned who shall be called upon to state whether they agree to the amount of the award and their statement shall be briefly recorded. If the parties agree to the award the Deputy Commissioner shall forward a demand statement in the form given in Appendix C to the Military Authorities. If the parties do not agree to the award, it shall be competent to them to institute a suit in the Court competent to decide such claims under section 15 of the Land Acquisition Act, and the proceeding shall thenceforth be in accordance with the rules for such suits which may be in force for the time being.

X. The Military Authorities will be bound by the award of the Deputy Commissioner, and will remit the amount immediately on receipt of the demand statement forwarded to them under rule VIII. The amount will then be distributed without further delay by the Deputy Commissioner.

XI. As the compensation determined under rule VIII will cover the whole of the damage done to the crops, no remission or suspension of land revenue or cesses will be necessary, and applications for such remission or suspension will not be entertained by the Deputy Commissioner.

Memorandum of instructions for the guidance of Officers in the settlement of compensation for crops damaged during a Camp of exercise in the province of Mysore.

Before the assembly of the camp, the civil authorities will warn the Shanbhogs to be as much as possible present in their villages during the operations, and to note what fields are injured by the troops.

2. The Amildar of the Talook will be on the spot. He will keep a daily record—(1) of the fields which may be occupied by the camps, (2) of those over which troops might pass. Each of these statements will be in the following form :—

Column 1.—Name of village.
" 2.—Number of the field.
" 3.—Class (whether 1st, 2nd, or 3rd).
" 4.— Extent of the field (area).
" 5.—Name of cultivator.
" 6.—Name of crops injured.
" 7.—Date of inquiry.
" 8.—Estimated produce,
" 9.—Estimated value.
" 10.—Proportion injured.
" 11.—Compensation awarded.
" 12.—Date and signature of the cultivator in token of acknowledgment.

3. The Shanbhogs of the village will report to the Amildar the damage done to each field not later than three days after the troops have passed over it. The Amildar will from time to time test the accuracy of these reports, and fill up the first seven columns of the statements referred to in para. 2 above. He will further forward a copy thereof once a week to the Officer Commanding.

4. The Shanbhog and the Amildar will be responsible for any errors of omission or incorrect entry in the above statements, the object being to relieve the cultivators as far as possible from any trouble in bringing their loss to notice.

5. When the season is so far advanced that the quality of the harvest can be fairly estimated, the Deputy Commissioner of the District accompanied by a military officer detailed for the duty, will go over the fields with the Amildar and the Shanbhog, and will strike out from the list all fields in which it is evident that no damage has been done to the crops. Then with the assistance of a *punchayat*, composed of the leading inhabitants of

villages in the neighbourhood, an appraisement of the "estimated produce," "estimated value," and "proportion injured" will be made for the remaining fields.

6. The Deputy Commissioner will check the estimates and ask the cultivators concerned whether they are satisfied with the appraisement, or whether they have any objections or complaints to make; such objections or complaints, if any, will be weighed by the Deputy Commissioner, who shall adjudge the compensation to be awarded.

7. The amount so adjudged shall forthwith be paid and a *razeenama* obtained of all claims for compensation.

8. In no case shall the award be delayed beyond the time at which the crops are harvested.

9. When all claims for compensation have been disposed of, a copy of the statements alluded to in the foregoing paragraph shall be furnished to the General Commanding, in view to the amount being recovered from the Military Department.

10. If the number of troops engaged be large, and the operations extend over a large tract of country, the Deputy Commissioner may apply for the services of an assistant, one or more Amildars, and a special staff. Any extra charges incurred on account of, or in connection with, the persons so employed will form an item in the compensation bill.

No. 24.—Courts Martial.—In certain recent cases, Courts Martial have disregarded the Memorandum drawn up for their guidance by the Deputy Judge Advocate, and have as a consequence committed illegalities and irregularities.

Presidents and Members of Courts Martial are reminded that it is the duty of the Deputy Judge Advocate to advise them on points of law and procedure, and that though they are not absolutely bound to take his advice (since they are themselves answerable for the legality of the Proceedings) they should always do so unless for very special reasons to the contrary.

II. Similarly, Prosecutors at Courts Martial, under the Army Act, and Superintending Officers at Courts Martial, under the Indian Articles of War, have sometimes neglected to elicit all the evidence specified by the Deputy Judge Advocate in his Memorandum of instructions, with the natural result that proof has been unsatisfactory and insufficient.

These officers are entirely without excuse, for they cannot possibly incur any responsibility by carrying out the Deputy Judge Advocate's instructions.

Section IX.—Add new Chapter VIII.

INSTRUCTION AND EMPLOYMENT OF SOLDIERS IN TELEGRAPHY.

1362A. To encourage the instruction of telegraphy in the army and secure a body of efficient army signallers, General officers commanding divisions and districts will arrange for the instruction of selected men from British regiments. The individuals selected should be private soldiers of good character, and in possession of one good-conduct badge at least; they must be able to read, write, and spell correctly, and have a sufficient knowledge of arithmetic to be able to render simple accounts.

1362B. The instruction of soldiers in telegraphy is carried out by the Telegraph Department, either in classes established at a telegraph station under the supervision of the Telegraph Master in charge, or in classes under an instructor specially appointed by the Director General of Telegraphs.

1362C. Should there be candidates for instruction at a station where no class is established, such soldiers may, with the consent of their commanding officer, be attached to another corps in the same presidency where a telegraph class exists. Similarly, men already under training may, on the transfer of their corps to another station in the same presidency, be allowed to remain behind and complete their course.

1362D. Before admission into a telegraph training class soldiers are to be examined in dictation, and the result submitted for the orders of the divisional Telegraph Superintendent. Indifferent handwriting, or more than two words per hundred incorrectly spelt, should be held to disqualify.

1362E. The number of men in a class depends upon local circumstances, and is limited to the extent prescribed by the divisional Telegraph Superintendent. Two men must always be present at the same time, and must attend daily for instruction (Sundays excepted) for a period of not less than two hours, nor more than 4.

1362F. In admitting soldiers to a training class, the preference is given to men whose regiments are expected to remain some time in India, or who, on their corps leaving the country, intend to volunteer for some other regiment remaining in India.

1362G. The instruction of soldiers who fail to qualify within six months is to be discontinued.

1362H. The final examination of a soldier signaller is conducted by a Superintendent or Assistant Superintendent. The standard is ability to signal correctly 16 words per minute, and to receive in both open and closed circuit correctly 12 words per minute during trials of at least 5 minutes' duration.

1362I. To secure the efficiency of trained military signallers, it is indispensable that they should be kept in constant practice, and with this object the Telegraph Department will, as far as practicable, provide employment for certificated men, either in regular telegraph offices, or in military telegraph offices supervised by a military staff officer.

Employment.

1362J. While so employed, soldier signallers draw the following allowances from the Telegraph Department in addition to their military pay, *viz.*, 10 or 12 annas per diem, according as they may be qualified (as shown by their certificates) to receive correctly 12 or 20 words per minute: if in charge of an office, or performing the duties of a Civil Telegraph Master, an additional allowance of 8 annas per diem.

When employed in field service camp telegraph offices, soldier signallers draw, in addition to regimental pay, 12 annas a day as telegraph pay, and if also acting as Telegraph Master, an extra sum of 8 annas a day. These allowances may be increased up to as much as 18 annas and 12 annas respectively on the special sanction of the Director General of Telegraphs.

For offences connected with telegraph duties, soldier signallers may be punished, under the orders of the Director General of Telegraphs, by deductions from their telegraph allowances or by the cessation of employment.

Other offences are dealt with by their own commanding officer, or by the commanding officer of the corps to which they may be temporarily attached.

1362K. Application for the services of certificated soldier signallers are made by divisional Telegraph Superintendents to the General officers commanding divisions and districts.

Should the regiments to which such signallers belong not be in the same station as the telegraph office for which they are required, they may be attached to another regiment at that station; or should they belong to a regiment which is in the same station as the telegraph office in which they are employed, they may, when that regiment marches, be attached to another.

1362L. On the arrival of a new regiment at any station in his division, the divisional Telegraph Superintendent should ascertain from the commanding officer whether there are in it any certificated telegraph signallers or any men desirous of being instructed in telegraphy.

1362M. A soldier signaller in charge of an office should, if practicable, reside on the office premises; soldier signallers not in charge reside in barracks.

1362N. When soldier signallers are required to attend their annual musketry course, the Telegraph Superintendent of the division will, on receipt of sufficient notice from the military authorities, arrange to relieve them, and where more than one soldier signaller is employed in an office, not more than half the total number should be withdrawn at the same time.

1362O. In case of absence on account of sickness, supported by a medical certificate, soldier signallers may be allowed to draw daily pay at full rates up to a maximum of 15 days in one year.

1362P. A certain number of appointments, limited to 20, on the Unattached List, are reserved, for the Telegraph Department, and soldier signallers who have served in the Telegraph Department at least two years to the satisfaction of the Telegraph authorities, and who have passed such department tests as may be prescribed, may, provided there be vacancies on this list, enter the Telegraph Department permanently and be transferred to the Unattached List under the sanction of the Director-General of Telegraphs in India.

1362Q. Soldiers on the Unattached List employed in the Telegraph Department are not eligible for promotion to warrant rank.

The following rules have been made by the Governor-General in Council, under section 549 of the Code of Criminal Procedure, respecting the delivery to the military authorities of persons charged with offences under section 41 of the Army Act, 1881, for which they are liable to be tried by court-martial held under that Act:—

I. (1) When a person subject to military law is accused of an offence for which he is liable under the Army Act, 1881, section 41, to be tried by a court-martial, a Magistrate shall not proceed to try him, or to issue an order for his trial by jury, or to hold an inquiry into the case as a case triable by the Court of Session or the High Court, unless he is moved to do so by the military authorities, or is of opinion, for reasons to be recorded in writing, that he ought so to proceed without being moved thereto by those authorities.

(2) When the Magistrate is of opinion that he ought so to proceed without being moved thereto by the military authorities, he shall give notice of his intention to do so to an officer to whose command the accused person is subject, and shall not, till the expiration of fifteen days from the date of the service of the notice on the officer,—

(*a*) in a summons case, acquit or convict the accused under section 243, section 245, section 247, or section 248 of the Code of Criminal Procedure, or hear him in his defence under section 244 of the code; or,

cl

(3) If within the fifteen days, or at any time thereafter before the Magistrate has done or made an act or order specified in clause (2), sub-clause (*a*), sub-clause (*b*), sub-clause (*c*), or sub-clause (*d*) of this rule, an officer to whose command the accused is subject notifies to the Magistrate that, in the opinion of the military authorities, the accused should be tried by a court-martial, the Magistrate shall stay the proceedings before himself, and if the accused is in his power, deliver him, together with the statement mentioned in section 549 of the code, to the authority prescribed in that section.

II. If, after a Magistrate has been moved by the military authorities to proceed against a person subject to military law for an offence for which that person is liable, under the Army Act, 1881, section 41, to be tried by court-martial, an officer to whose command the person is subject notifies to the Magistrate that, in the opinion of the military authorities, the accused should be tried by a court-martial, the Magistrate, if he has not, before receiving the notice, done or made an act or order specified in clause (2), sub-clause (*a*), sub-clause (*b*), sub-clause (*c*), or sub-clause (*d*) of rule I, shall stay the proceedings before himself, and if the accused is in his power, deliver him, together with the statement mentioned in section 549 of the code, to the authority prescribed in that section.

III. If a person who has been delivered by a Magistrate to a commanding officer, under rule I, clause (3), or under rule II, for the purpose of being tried by court-martial, is not brought to trial before a court-martial for the offence of which he is accused or effectual proceedings have not been taken, or have not been ordered to be taken against him, the Magistrate shall report the circumstance—

No. 78.

Cooks and Cooking.—With a view of placing the cooking of the Army on a better and more regular system, the Commander-in-Chief in India directs that the following rules be followed in every regiment of cavalry, battalion of infantry, and battery of artillery.

2. Immediately a regiment or battalion is ordered on service to a country where a sergeant cook would be required, application is to be made to Army Head Quarters, for submission to the Horse Guards, in order that, if possible, one may be sent out to meet the corps on arrival at its destination.

3. It being indispensable that regiments suddenly ordered on service out of India, should be able to cook their own food, His Excellency desires that during each cold season a certain number of men (selected as at least knowing something of cooking and

allowed exemption from other duties), per troop, company and battery, be formed into classes for a course of instruction in preparing and cooking the rations, and that they be required to cook the men's dinners, occasionally, in cantonments, on the march, and during the winter manœuvres. If a sufficiently qualified non-commissioned officer or man is not available, one of the best native master cooks should be employed to teach the men selected for instruction.

4. From the 1st April 1888, prizes as under will be available for distribution under the orders of officers commanding corps:

1st prize. Rs. 10. To the man in each troop, battery, or company who has cooked most successfully for the period between the issue of this order and the 31st March 1888.

2nd prize. Rs. 5. To the next best man in each troop, battery, or company for the same period.

These prizes will be awarded on the votes of the men, to be obtained by the troop, battery or company commander, and represented by him to his commanding officer.

5. There is no reason why a soldier should not at all times and in all places in India prepare the rations for cooking, even though the extreme heat of summer prevents his cooking at that season.

6. Similar classes will be formed at all Hill Depôts and camps during the hot season.

7. As many men as practicable should receive instruction, and when properly trained, with a view to keeping up their knowledge, they should take their turn for a month at a time as troop or company cooks.

8. Their duties will be to superintend the cooking, to ensure cleanliness, to prevent pilfering, or substitution of rations, and to ensure regularity as to hours.

9. The groceries in proper receptacles will be in their charge, and they will issue the quantity requisite for breakfast and evening meals.

10. Tea should be made by pouring boiling water into the teapots supplied for the purpose, shortly before it is required, and not according to the faulty practice of putting the tea into the water boiled in the degchies.

11. With a view to secure a sufficient variety in the men's food, it is desirable that two or three times a week there should be baked joints, and that the vegetables, particularly the potatoes, should be baked with them.

12. On the meat being taken from the ration stand to the cook-houses, the manner in which it is to be cut up and cooked will be determined; the men being allowed a portion, not exceeding one half, of the rations cooked for breakfast.

13. The men are at liberty to purchase, and have cooked, extra meat, puddings, &c., for dinner, on making known their wishes to the orderlies at the proper time. Sufficient vegetables should be insisted on. Pork will be sold at the ration stand, only by dealers licensed in writing by commanding officers, and no license will be given to any dealer until he proves that his pigs are properly fed.

14. There are few, if any, regiments which have not got bakers in their ranks, and the establishment of regimental bakeries would be found remunerative to the men, as well as a great convenience to the corps.

15. The following general instructions will be printed and hung up in the cook-houses in wooden frames:

Duties of cooks.

(*a*) The cooks should be at the cook-house at day light; the boilers filled with water, and every thing in readiness for the day's work.

(*b*) After breakfast, things should be got ready for dinner: all the vegetables should be washed and skinned, and put into empty boilers with the covers on to keep them clean. No vegetable, or meat, except salt beef, should ever be allowed to soak in cold water. If there is time, some of the meat may also be boned and got ready, and the bones should always be put on to stew before breakfast;—as much as possible should be done before breakfast, so as to allow plenty of time for cooking the meat afterwards.

(*c*) Immediately after breakfast, the dinner should be cooked. When dinner is served, great pains should be taken to send it up as hot as possible.

(*d*) In the afternoon, all the cooking utensils should be thoroughly cleaned, the towels especially should be well washed, and hung upon a clean string; the cook-house should be well cleaned out, and all refuse removed to a distance; a heap should be made, and every thing put there, instead of being thrown about all over the place. Wood should be chopped for the following day, and all should be made neat and clean.

16. General officers commanding divisions and districts are requested to submit reports on the 1st of April next as to how far this system has been carried into effect and with what success.

GENERAL ORDERS.

ADJUTANT GENERAL'S OFFICE,
Ootacamund, 9th December 1887.

No. 58.—Duties.—In supercession of the instructions contained in S.G.O. No. 81 of 1884, the following procedure is to be adopted in future with a view to facilitate the employment of military labor in public works:—

(1) Whenever a Military work of any sort is to be carried out by the Public Works Department, the Engineer preparing the estimate shall, at the time of submitting it for countersignature, attach to the estimate a memorandum showing—

I. What part of the work is suitable for military labor, European or Native.

II. The number of troops that would be required and for what time.

III. The amount available for their pay, as calculated in the estimate at the local rates.

(*a*) Contracts for labor allotted to troops should be restricted to such work as may be completed within a period not exceeding one month, in order that payments for work may be regularly distributed at monthly intervals.

(*b*) The contracts should further be regulated so as to admit of the work proposed being undertaken by small bodies of men not exceeding a company.

(*c*) Whenever troops are employed under the Public Works Department, the portion of them actually allotted work should be struck off all Military duties until the work is completed, so far as the exigencies of the service will admit and when it can possibly be avoided the working parties are not to be changed oftener than once a week.

(2) The General or Commanding Officer will then decide and endorse on the Estimate—

I. Whether the troops can be spared for employment with due consideration to drill and duties.

II. Whether the amount available in the estimate appears sufficient for the remuneration of the troops.

III. Whether he recommends their employment.

(3) If satisfied on these points, the General or Commanding Officer will order the employment of the troops, as soon as he is informed that funds are allotted, and that the work is to be commenced.

(4) Troops will be employed under their own officers and non-commissioned officers. It will be the duty of the local Engineer to convey the necessary instructions simply and clearly to the senior officer of the working party; and of this officer to see them properly carried out, and transmitted to his successor in command on the relief of the party.

(5) In case of dispute or dissatisfaction, the General or Commanding Officer will decide with whom the fault lies, and in case of neglect or carelessness by the troops, it shall be competent to him to with-hold payment of working pay until the work be satisfactorily completed, or to stop it altogether, as provided for in Army Regulations, India, Volume I, Pay.

(6) In deciding questions under the last paragraph the General or Commanding Officer will invariably consult the Superintending Engineer as his legitimate adviser.

(7) Sappers are to be employed on the same principles as troops of the line. If capable of higher classes of work, they will be paid as specially provided in Army Regulations, India, Volume I, Pay.

(8) Task work is the best mode of stimulating troops to exertion. Particular work or sections of work should be made over to particular regiments, and the distribution of working pay should be effected regimentally.

(9) Tools will in all cases be supplied, free of charge, by the department employing the troops the men using them being required to pay for any damage that may be caused by unfair usage or negligence on their part. The procedure in this case will be similar to that followed in assessing barrack damages.

(10) When employed at a distance from barracks, troops should be encamped, using their own Camp Equipage, and regimental or depôt carriage. Their rations, water-supply, and the sanitation of their camps, should be provided and arranged for

exactly as at Camps of Exercise; no extra cost being debitable to the Public Works under these heads.

(11) In every matter relating to the employment of military labor, excepting only the power to sanction excess expenditure, the General Officer is supreme.

No. 59.—Discipline.—With reference to S. G. O. No. 43 of 1887, it is notified for information that the Government of India has ruled that the rules respecting the delivery, to the Military authorities, of persons charged with offences, under section 41 of the Army Act 1881, for which they are liable to be tried by Court-martial, are applicable only to persons who are subject to the Army Act 1881, and not to persons subject to the Indian Articles of War, Act V of 1869.

No. 60.—Clothing—Necessaries—Native Army.—With the sanction of Government, the Commander-in-Chief notifies that Great Coats of Madras Infantry Regiments will, until further orders, be made up of cloth similar to that manufactured by the Egerton Woollen Mills Company, and numbered 57.

2. The cost of the Great Coat made up and in material, is at present as follows:—

	Rs.	*a.*	*p.*

Part I, page 352.

Add the following appendix :—

APPENDIX No. 30.

Resolution of the Government of India in the Home Department, No. 1222, dated 27th July 1887.

The following rules have been made by the Governor-General in Council, under section 549 of the Code of Criminal Procedure, respecting the delivery to the Military authorities of persons charged with offences under section 41 of the Army Act, 1881, for which they are liable to be tried by court-martial held under that Act :—

I. (1) When a person subject to Military law is accused of an offence for which he is liable under the Army Act, 1881, section 41, to be tried by a court-martial, a Magistrate shall not proceed to try him, or to issue an order for his trial by jury, or to hold an inquiry into the case as a case triable by the Court of Session or the High Court, unless he is moved to do so by the Military authorities, or is of opinion, for reasons to be recorded in writing, that he ought so to proceed without being moved thereto by those authorities.

(2) When the Magistrate is of opinion that he ought so to proceed without being moved thereto by the Military authorities, he shall give notice of his intention to do so to an officer to whose command the accused person is subject, and shall not, till the

expiration of fifteen days from the date of the service of the notice on the officer,—

(*a*) in a summons case, acquit or convict the accused under section 243, section 245, section 247, or section 248 of the Code of Criminal Procedure, or hear him in his defence under section 244 of the Code; or,

(*b*) in a warrant case, frame a charge against the accused under section 254 of the Code; or,

(*c*) issue an order for the trial of the accused by a jury under section 451 A., sub-section (2), of the Code; or,

(*d*) make an order committing the accused for trial by the Court of Session or the High Court under section 213 or section 214 of the Code.

(3) If within the fifteen days, or at any time thereafter before the Magistrate has done or made an act or order specified in clause (2), sub-clause (*a*), sub-clause (*b*), sub-clause (*c*), or sub-clause (*d*) of this rule, an officer to whose command the accused is subject notifies to the Magistrate that, in the opinion of the Military authorities, the accused should be tried by a court-martial, the Magistrate shall stay the proceedings before himself, and if the accused is in his power, deliver him, together with the statement mentioned in section 549 of the Code, to the authority prescribed in that section.

II. If, after a Magistrate has been moved by the Military authorities to proceed against a person subject to Military law for an offence for which that person is liable, under the Army Act, 1881, section 41, to be tried by court-martial, an officer to whose command the person is subject notifies to the Magistrate that, in the opinion of the Military authorities, the accused should be tried by a court-martial, the Magistrate, if he has not, before receiving the notice, done or made an act or order specified in clause (2), sub-clause (*a*), sub-clause (*b*), sub-clause (*c*), or sub-clause (*d*) of rule I, shall stay the proceedings before himself, and if the accused is in his power, deliver him, together with the statement mentioned in section 549 of the Code, to the authority prescribed in that section.

III. If a person who has been delivered by a Magistrate to a commanding officer, under rule I, clause (3), or under rule II, for the purpose of being tried by court-martial, is not brought to trial before a court-martial for the offence of which he is accused or effectual proceedings have not been taken, or have

not been ordered to be taken against him, the Magistrate shall report the circumstance—

(*a*) in cases occurring within the territories administered by the Governor of Fort St. George in Council or by the Governor of Bombay in Council, for the information and orders of the Governor in Council of Fort St. George or of Bombay, as the case may be ; and

(*b*) in other cases, through the Local Government, for the information and orders of the Governor-General in Council.

Any Captain who considers himself exempt from examination in subjects (*a*) and (*b*) under the provisions of section IX, para. 41, Queen's Regulations, will apply, through the prescribed channel, to the office of the Adjutant General in India in order that, should his claim be valid, he may be furnished with a notification to that effect. A copy of such notification must be attached to his application for examination in (*c*) and (*d*).

Para. 1318.—Substitute a comma for the full stop after "form A 2" in line 2, and add—the summary of the examination in (*a*) and (*b*) will be drawn up on Army Form B 2066.

In Section IX, chap. VIII, add following new paras. :—

Duties of a Station Staff Officer, in charge of a Military Telegraph Office.

1362 R. A "military telegraph office" is a telegraph office established under the supervision of a station staff officer, and worked entirely by soldier signallers.

The Governor-General in Council has ruled that duties connected with the supervision of military telegraph offices are not only, as a rule, nominal, but that they are essentially such as properly fall within the functions of the station staff officer; that special allowances for supervising such offices are therefore inadmissible; that in places where it may be found desirable to open military telegraph offices, the necessary accommodation will be provided by the Military Department; that in cases where no suitable accommodation may be found in a public building, the rent of a private building will be paid by the Military Department; and that if accommodation be provided by the station staff officer in his own house, an office allowance not exceeding Rs. 20 per mensem is admissible.

1362 S. The station staff officer is responsible for the custody of the cash and stamps, and all correspondence and accounts are signed by him. He must inspect the office at least once a week and in the course of each such inspection he will carefully examine the cash book, cash accounts, and vouchers.

1362 T. The cash book should be verified by arithmetical check by seeing that the totals or balances are correctly carried on from page to page; that entries have not been altered; that

no known receipts are omitted; and that all sums written off as paid are vouched for: also that all receipts and payments are entered at the time and in the order of their occurrence.

1362 U. The cash accounts and the list of message payments are copies of cash book entries submitted for audit to the Examiner of Telegraph Accounts. The staff officer will see that the latter are written up day by day, and correspond with the cash book.

1362 V. Vouchers for payments should be kept together in order of number, and the staff officer will see that they are complete and regular.

1362 W. The staff officer will have the cash book balanced and will see, after checking it, that the amount of the balance is produced in full, as well as (in cash or telegraph stamps) the full amount of the fixed stamp imprest. Both of these amounts must be produced together; not only one at a time.

1362 X. The message drafts and registers (which should be written up daily) have to be sent to the check office weekly. The staff officer is responsible that this is done with the utmost punctuality.

1362 Y. The station staff officer is responsible that any irregularities discovered by himself, or pointed out by the auditing or superintending officers of the Telegraph Department, are strictly investigated immediately.

1362 Z. When a station staff officer makes over charge of a military telegraph office, the relieving officer will sign receipts in triplicate Form (T-5), to be prepared by the relieved officer, who will also countersign them. Of these receipts, one will be retained by the relieved officer and two sent to the Chief Superintendent of the Division, who should retain one and forward the other on the same day in which received, to the Examiner. The relieving officer shall examine the instruments, records, stores, count the cash in hand and compare it with the balance of the cash book, and count the standing imprest of stamps. Should there be any deficiency in the cash, stamps, or quantity of stores, &c., he will note the particulars on the receipts given to the relieved officer, as well as report the circumstances of the case to the Chief Superintendent.

Para. 1448, clause (*d*), is reconstructed as follows:—

Officers requiring chargers must apply through the proper channel to the General Officer Commanding on India Army Form 83.

Para. 1490.—Add the following as para. 1490 A :—

Tunic.
Dress trousers.
Dress pantaloons.
Shell jacket.
Mess waistcoat.
Saddle cloth.

On occasions when these officers have, in accordance with the regulations, to wear full dress uniform, they may wear the full dress of the regiment or corps to which they belong, or to which they last belonged. The staff shoulder and sword belts will not be worn.

Clause (*e*), *para.* 1553.—In the eighth line, after the words "Commander-in-Chief," *add* the following :—

In cases of officers of the medical staff applying for general leave in India, on private affairs, Deputy Surgeons General will first ascertain from the Surgeon General, Her Majesty's Forces, whether there is any objection to the leave being granted before transmitting the applications to General Officers Commanding for disposal.

Para. 1627 is expunged and the following substituted :—

In addition to the report required under para. 32, sec. XIII, of the Queen's Regulations, all officers of Royal Engineers proceeding to England on furlough or leave, other than privilege leave, must report their arrival in writing to the India Office and apply there for instructions as to medical examination, extension of leave, and return to duty.

Add the following as para. 1648 A :—

Extensions of leave beyond one year, except on medical certificate, under the leave rules for the Staff Corps, are not claimable in any way as a right, but are admissible only on special and urgent grounds, which should be fully stated by officers when applying for extensions.

Para. 1805.—Insert new clause (*m*) "Donations for men sent to hill depôts in accordance with para. 2105, section XVIII."

Para. 2105.—For para. "1815," in line 5, insert "1805."

Recruits will thereupon be deemed subject to military law as unattested recruits, and will be liable to be proceeded against for desertion."

Para. 2269 is cancelled.

Page 134, after special "Bengal" *insert* "and Bombay."

Para. 2299 is cancelled.
