The following Army Order, dated War Office, 1st August 1889, is republished for information:

A. O. 338.—*Examinations for promotion.*

"(1) A report has been received by the Commander-in-Chief of the case of an officer who, when examined for his promotion, gave in as his own work a paper which he had copied from the work of another officer. His Royal Highness has learned with regret that there is reason to believe that this is not a solitary instance of an offence of this nature, and he is determined to put a stop to it.

"(2) The officer who allows his paper to be copied is guilty of the same misconduct as he who copies from him. They both endeavour to deceive their superior officer in a matter of duty and of public importance; and such conduct becomes disgraceful in view of the certificate signed by an officer that he has not received any assistance during the examination.

"(3) His Royal Highness desires to notify that should any officer in future be guilty of conduct so unbecoming the character of an officer and a gentleman, his remaining in the Army will become a matter for consideration.

"(4) His Royal Highness desires also to call the attention of the officers who superintend the examinations to the importance of their duties. He is satisfied that if they strictly carried out those duties, there would not be the laxity which at present prevails in these examinations."

2. The Commander-in-Chief in India regrets that instances have occurred in this country as well, which leave little reason to doubt that communication between officers under examination has been permitted; all officers concerned are therefore warned that any such misconduct in the future will be visited with the severest penalty, and Boards of examination are reminded that their duties are very important, and any neglect, or perfunctory performance of these duties, will incur the severest censure.

Adjutant General's Office, Simla, 18th January 1890.

The following additional rules to be observed on rifle ranges are published for information and guidance:

I.—Unless a special officer has been detailed to supervise the marking in the butts, officers superintending target practice in both British and Native corps are invariably to check the targets themselves, and they are on no account to depute this duty to any subordinate whatsoever.

II.—Fixed targets are to be checked by an officer as often as may be considered necessary, with due regard to quick and efficient marking. When a marker at such a target begins to find it difficult to distinguish hits, the superintendent at the butts may stop the practice and mark with a pencil all holes in the targets thus  ., and patch the *back* of the target. If the hits become so numerous that it is necessary for an officer

to check the target in the middle of the practice, patches are to be put on both front and back of the target, care being taken that all holes have previously been marked  . After this the non-commissioned officer before patching the back of the target should mark all fresh holes thus  to preclude the possibility of hits already checked doing duty a second time. Should the targets have required a second check by an officer, the holes would thereafter be marked  . In cases where the observance of the foregoing rules is found to be inconvenient, a fresh target may be substituted whenever it is considered requisite, the used target either being placed face downwards outside the marker's butts until it can be checked, or else being sent straight up to the firing point. Failing the adoption of any of these methods of check, a special officer must be detailed to supervise the marking in the butts.

III.—On ranges where the double trolly and rail system, or the window frame system, are in use, there is no necessity for an officer to check the target until the end of the practice; but each shot hole is to be marked  and patched at the back of the canvas when the target comes in, unless spotting discs are employed, when the patching at the back will be postponed until after the next shot has been fired.

IV.—In future the butt register keeper is to record the value of each shot as it is fired—*e.g.*, 4, 3, 0, 2, 3, 2, R, &c., the marker's memorandum referred to in the Musketry Regulations being no longer required.

V.—Register keepers must belong to companies other than those firing.

VI.—Officers are never to keep registers.

VII.—The order of firing is to be frequently changed.

VIII.—Non-commissioned officers in charge of sections are to be held responsible that the proper men are firing.

IX.—If desired, an officer may always be employed in the butts, no special sanction being required.

X.—All hits in sectional practices are to be taken off by an officer, and no one in the butts is to be permitted to handle the targets until this has been done.

2. When firing has been stopped to enable the targets to be checked, superintending officers are directed carefully to com-

pare the register kept at the firing point, the butt register keeper's memorandum, and the target, and should any serious discrepancy be discovered the matter is to be at once laid before the Officer Commanding with a view to such further action being taken as may be considered necessary.

Adjutant General's Office, Simla, 22nd January 1890.

It is notified for the information of officers concerned that the badge of a deceased Companion of the Distinguished Service Order belongs to his Estate.

---

* * *

It having been brought to the Commander-in-Chief's notice that several cases have lately occurred where non-commissioned officers who had completed 21 years' service have been sent home without being paid their deferred pay, such omissions resulting in great inconvenience to the non-commissioned officers concerned, and in much needless delay and correspondence, His Excellency directs the attention of Commanding Officers to the provisions of paras. 323 and 323-A of the "Instructions for the Payment of British Troops Serving in India" as reconstructed and added to by India Army Circulars, clauses 137 of 1885 and 110 of 1886, which require that such payments shall be made in India, that a red ink note to that effect shall be made on the non-commissioned officer's record of service and that a certificate that the necessary entry has been made shall invariably accompany the voucher supporting the charge in the general state of accounts.

It is notified for information and guidance that certain modifications in the Annual Musketry Course as at present laid down for British Troops are under consideration, and that British Corps serving in this country are not to commence the Course for 1890-91 until further orders.

The foregoing notification does not apply to Volunteer Corps, which may commence their Musketry course in accordance with existing regulations on the 1st April next.

Adjutant General's Office, Simla, 11th March 1890.

The Commander-in-Chief is pleased to direct that certificates obtained by British non-commissioned officers and men at Transport Training classes in India should be entered on the 4th page of their attestations.

It is notified for the information and guidance of Officers Commanding British Corps serving in India, that intimation has been received from the Adjutant General, Horse Guards, that His Royal Highness the Commander-in-Chief has been advised that when section 79 of the Army Act, 1881, has once been acted upon, the power of forfeiture of service thereby conferred must be deemed to have been exhausted in respect of any offences of desertion or fraudulent enlistment committed before the date on which it is so acted upon.

2. For example, a soldier having enlisted into a corps on the 1st January 1883, deserts from that corps on the 15th February 1885; under section 79, Army Act, he forfeits his prior service and continues to serve for the term of his original enlistment, reckoned from the date of his conviction of desertion or from the date of order dispensing with trial for such offence. In 1887, he confesses to an act of fraudulent enlistment or desertion committed by him previous to the date of his present attestation. He does not, under the ruling contained in para. 1 above, forfeit, in consequence of his offence last referred to, his service between the date of disposal of his offence of desertion on 15th February 1885 and the date of his confession.

Moving	Between 100 and 200.	5	The method of conducting these practices is entirely optional. The targets may bear any suitable device, but must not exceed 2 feet square.
Vanishing	Between 100 and 200.	5	
Attack	600 to 150	10	2 targets 3 feet by 8 feet (as at 300 yards, 2nd period). Targets to be at least 20 feet apart.
Skirmishing	450 and 200	10	
Company field firing ...	.....	10	
Brigade or regimental field firing	.....	10	
Commandant's allowance ...	... ..	15	To be expended at such times and in such field practices as under the direction of General Officers, may be deemed best for the purpose of improving the shooting of the men.

Men who fail to obtain 55 points (Snider 45 points) in the 1st period range practices are debarred from executing moving, vanishing or skirmishing practices, and the 20 rounds of ammunition thus made available, together with 10 rounds to be taken from the Commandant's allowance, will be utilized for the purpose of causing these 3rd class shots to repeat the 1st period during the current season. This repeated practice, which will not be included when calculating the figure of merit, may be supervised by a Native officer.

Q

Recruits.

This course will be executed in accordance with the instructions contained in the Native Musketry Regulations, 1888.

The individual firing will be divided into three periods, *viz.* :

1st Period—100 and 200 yards.
2nd ,, —300 and 400 ,,
3rd ,, —500 and 600 ,,

Recruits are required to obtain 55 points (Snider 50 points) in the 1st period before being passed to the 2nd, and a similar number in the 2nd period before being passed to the 3rd. In the 3rd period they must obtain 45 points (Snider 40 points) before qualifying as trained recruits.

Prizes.—A grant of 5 annas in the Cavalry and Sappers and Miners, and 10 annas in the Infantry, is sanctioned, for each *trained soldier* exercised *through* the annual course of individual firing (1st period range practices), and also a sum of Rs. 20 for each regiment of Native Infantry, all the companies of which have been fully exercised.

The money thus rendered available is to be allotted in prizes in the following proportion :

	Cavalry and Sappers and Miners.	Infantry.
(*a*) For good performances in the individual firing (1st period range practices).	One-half of the total sum earned.	Three-sixths of the total sum earned.
(*b*) For good performances in the collective firing (2nd period range practices).	Ditto ...	Two-sixths Ditto.
(*c*) For good performances in the field practices.	*Nil*	One-sixth ditto.

Prize holders need not necessarily have qualified as marksmen.

The allotment laid down must be adhered to by all concerned unless in the opinion of General Officers Commanding exceptional conditions should render a special distribution desirable, when they are authorized to sanction such variations as may seem to them to be called for by the exigencies of the case.

When the above details have been settled, they are to be made known to all concerned.

The best scheme for the encouragement of individual merit which has been brought to the notice of the Commander-in-Chief is that by which one anna is awarded for every bull's eye scored in the range practices 1st period. A continuous incentive to marksmanship may thus be applied to the entire regiment, including even the worst shots, who under the provisions of schemes ordinarily submitted have had but scant inducement to exert themselves. Moreover, under this system prizes to mixed regiments would no longer pass so completely, as is at present frequently the case, into the hands of one particular class. It is believed that even in very good shooting corps, the anna per bull's eye would be covered by the prize money now sanctioned for this part of the course, and in the few instances where the proportion might be exceeded by a trifling amount, the deficit could easily be made good from the lead and cartridge case fund.

The foregoing scheme is however only put forward as a suggestion, and the details of distribution under the several allotments are left to the discretion of Commanding Officers, subject always to the approval of General Officers Commanding. As soon as a prize scheme has received sanction, its provisions should be made known to all concerned, and as little time as possible should be allowed to elapse between the winning of a prize and its bestowal.

Badges will be issued in accordance with the rules laid down in para. 313, Native Musketry Regulations.

The names of all prize-winners (money or badges) are to be published in regimental or detachment orders.

‡ S.G.O. No. 37 of 1887, page 109. § G.O.C. No. 291 of 1888, page 178.

In continuation of G.O.C.C., dated 20th March 1890, pages 109 to 114,† the following standard of Musketry percentages for the Native Army is published for information.

Standard.		1st PERIOD. Percentage of points to highest possible score.	2ND PERIOD. Percentage of points to number of rounds allotted.	TOTAL. Figure of merit.
Very good	M. H. Rifle ...	60	50	110
	M. H. Carbine ...	55	50	105

	M. H. Carbine ...	45	35	80
	Snider Rifle ...	45	30	75
	Snider Carbine ...	35	25	60
Bad when under moderate.				

These figures indicate the general merit of the practice performed, but attendant circumstances, whether favorable or otherwise, must always be taken into account when estimating their value.

Commanding Officers should further bear in mind that although the figure of merit is thus specially singled out, the results which it records by no means cover the whole field of musketry efficiency. They should therefore be careful to impress upon their subordinates that fire discipline and control, together with several of the more practical exercises which are excluded from the figure of merit and estimated independently, do not on this account carry any the less weight in determining the shooting value of a corps and its general musketry proficiency.

The results of the annual inspection in signalling of British troops in India for the year 1889-90 are published in the annexed return.

The return shows that 8 regiments of cavalry, 27 batteries of artillery and 46 battalions of infantry have been inspected, nearly all of which were classified.

The figure of merit obtained by the 1st Battalion, Duke of Cornwall's Light Infantry, places the regiment at the top of the list, and His Excellency congratulates the regiment on its state of efficiency in signalling.

His Excellency is pleased to see that the 7th Dragoon Guards have maintained their place at the head of the cavalry list, a position they obtained last year.

The best battery is No. 13 Battery, Eastern Division, Royal Artillery, to whom much praise is due, as it had to work under adverse circumstances at Thayetmyo.

His Excellency appreciates the interest taken generally in the signalling training of the troops as evidenced by the results now published compared with those obtained last year. Sir Frederick Roberts, however, sees much room for improvement in the Artillery, and trusts higher figures of merit will be obtained by them at the next inspection.

Several accidents having recently occurred during the manufacture of blank ammunition on the Morris system, one of which resulted in the death of 6 men and serious injury to another, the Commander-in-Chief has directed the publication of the following extract from the rules to be observed in making up the ammunition :—

"Not more than 50 lbs. of gun powder are to be drawn at "one time from the Magazine; and of this quantity only 1 lb. "shall at any one time be exposed in the tray with leather "bottom used in filling the cartridges. The Non-Commissioned "Officer shall be responsible that the barrel containing the "powder is kept covered with a tarpaulin or powder cloth, and "shall himself issue the small quantities of powder as required."

The manufacture of blank ammunition is always to be carried out under an officer specially appointed for the purpose, who will be held strictly responsible in every way, but his actual presence is imperative only in the third stage of the manufacture, in which alone there is any chance of accident.

Commanding Officers are also held strictly responsible that the provisions of Army Regulations, India, Volume III, Appendix XXXII, are rigidly enforced, and are reminded of the grave responsibility they incur, should accidents occur through the violation of the rules therein laid down.

Men of "bad" character who have extended their service under Indian Regulations and are therefore compulsorily retained in India, should be sent to the other Battalion of their corps if in India; if not, special instructions as to their disposal should be asked for. Other men of bad character will, if not transferred to the other Battalion of their corps, go to England with their Battalion.

II.—Volunteering into any one regiment is limitted to the number stated against each corps which will increase the strength of the regiment to 8 per cent. in excess of the proscribed strength.

III.—Married men are not allowed to volunteer for regiments which have already their full proportion of married men, or nearly so.

IV.—Lads enlisted under special authority are not to be allowed to volunteer until they have attained the age of 18 years, unless they may wish to volunteer in order to remain in India with relatives, and sufficient proof of relationship is forthcoming.

V.—Non-Commissioned Officers transferred to other corps, whether compulsorily, or voluntarily, will, in all cases, take rank and precedence in their new regiments in their respective ranks according to the date of their promotion or appointment.

VIII.—Men on, or probationers for, the unattached list borne on the rolls of the corps returning home, who may be desirous of continuing in their staff situations, can volunteer only to corps of the same arm serving in their own presidencies. But if holding higher rank than that of sergeant, they will only be allowed to elect for transfer to another corps on the condition

that if they revert to their new corps for duty, they must consent, if required, to do so in the rank of sergeant. Commanding officers should lose no time in ascertaining from Departmental Officers the wishes of those men of their corps employed under them, and in reporting the result to the Adjutant General of the Presidency on India Army Form 170.

IX.—Volunteering will take place under the orders of the general officer commanding, at least one clear month before the regiment leaves its station; a medical board being convened for the examination of the volunteers.

X.—Transfers and volunteers will be paid in their old corps up to the date preceding that of departure to join their new corps, and struck off the rolls of their corps from the day of departure inclusive. They will proceed under district arrangements to join their new regiments, but will in the meantime continue to do duty with their original corps.

The transfer documents (Queen's Regulations, 1889, Part II, Section XIX, paragraph 87) will be prepared at once, and sent by post to the regiments to which the men have volunteered; a report of the date of their despatch being made by commanding officers to the general officer in local command.

Commanding Officers receiving the documents will be held responsible that they are in all respects satisfactory and complete. The company defaulter sheets, and lists of clothing and necessaries in possession of the volunteers will be handed over to the officers appointed to command the parties proceeding to join the new regiments.

Horses in drill order without collar chains and with stripped saddles.

2. In wrestling on horse back horses with bridoon only and without saddles.

3. The dismounted combatants must wear leather jackets, masks, gloves, and proper pads.

4. Each combatant must wear a distinguishing colour on the left arm which will be supplied.

5. On the day appointed for the distribution of prizes, Prize winners must be properly dressed with waist-belts and side arms.

Judges.

6. Three judges will be appointed for each competition or combat, any of whom can stop the play at any moment, provided that in doing so it does not militate against the chance of either of the men. Their decision shall at all times be absolute and final, and no appeal against, nor interference with, their decision will be permitted under any circumstances. Any judge may send the combatants to corners. Any of the three judges may be appointed umpire by the other two.

Combats.

7. Combatants will be drawn by lot in pairs, and the ties will be arranged in the same manner. If two swordsmen, or two Lancers, or two Bayonetmen, be drawn together in the ties for Sword *v.* Lance, or Lance or Sword *v.* Bayonet, they will use their own weapons.

Those who enter as mounted men will not be called on to fight dismounted; those entering as dismounted men will not be compelled to fight on horseback.

8. No competitor shall be allowed to draw two byes successively in the same competition.

9. A corner will be assigned to each combatant at which he takes post on entering the arena; at the word "march" each mounted man will canter around the arena (to the right or left) in accordance with the instructions of one of the judges of the arena till the word attack is given when the horses will be turned inward and the attack made towards the centre of the arena at any pace the combatants may choose, except when armed with the lance, when the pace must be moderate. Competitors will not cease fighting unless ordered by a judge to do so.

10. All competitions in Fencing, Single-stick, Bayonet *vs.* Bayonet Sword *vs.* Lance and Lance *vs.* Bayonet will be decided by the best of three cuts or thrusts, except in the final competition when the best out of five will win.

All thrusts must be delivered so that the point would penetrate the body and cuts must be given with the edge of the sword, or, when sticks are used, with the part representing the edge.

11. If a competitor is unhorsed in a combat, one hit will be scored against him, but his adversary must not wilfully strike him while unhorsed under penalty of disqualification.

12. In all competitions except Fencing and Single-stick contests (for which see special Rules of Fencing), it scores a hit against the one who loses his weapon, except when the combatant makes a disabling hit before losing it, in which case the hit got is not scored, and the run is given as a counter.

13. A combatant shouting or wilfully striking his opponent's horse, or wilfully striking his opponent below the belt, will be disqualified for that event.

14. In all other respects these combats must be governed by the rules of fencing annexed thereto, excepting rule 17, which does not apply.

15. In the combats of sword (mounted) *vs.* Bayonet, and Lance *vs.* Bayonet, the mounted man will take post at one end of the arena, and the dismounted man in the centre; neither will attack until one of the judges has given the word.

16. A combatant is not allowed to catch hold of his opponent's weapon by the cutting portion.

Rules of Fencing.

17. In taking guard, the adversaries must first cross their foils and retire one step, so as to be out of distance before commencing play. Any hit given before this is done is deemed a surprise and does not count. This rule must be strictly observed, not only when commencing play, but on every occasion after a hit or a halt has been called.

18. Hits are counted good, only when fairly made on either the chest or stomach between the neck and the hip, and with the point fixed so that it would penetrate the body if delivered in action. If a man hides those parts by stooping or other contortions, a hit on any part of the body, (back or front), between the chest and hip is good.

19. A disarm counts nothing. If a hit is received *immediately* after a fencer has lost the grasp of his foil, it is considered fair but if sufficient time has elapsed for his adversary to perceive his discomfiture before the delivery of the thrust, it counts nothing.

20. Immediately upon a hit being given or claimed no matter on what part, the play must be stopped until the judges decide whether the hit is to be counted or not. The fencers must then return to their own ground and take a fresh engagement

21. When two men hit together the hit belongs to the one who lunged. If both lunged, it is a counter and the hit belongs to neither.

Sword *vs.* Bayonet and Bayonet *vs.* Bayonet and Single-stick.

22. The rules of Single-stick are the same as those of fencing, except that cuts and thrusts given on any part are counted good.

23. When a sword or Single-stick player touches his opponent by breaking his guard, it is not counted a hit.

24. The rules of Sword *vs.* Bayonet (dismounted) and Bayonet *vs.* Bayonet, are the same as those of Fencing; except

that hits on any part are counted good that the swordsman may lay hold of his adversary's rifle, (but not by the Bayonet or the Lance Button), and that a disarm counts. (This is governed by Rule 12 combats).

25. Butt end of the rifle not to be used.

Tent Pegging.

26. The dimensions of the peg will be length 14 inches (subject to nature of ground); width 2½ inches; thickness 1 inch; length above ground 7 inches; peg upright.

A clean cut must be made. The points all to the left. Pace at a fair speed. Competitors will be disqualified unless the cuts are properly laid for, as per Cavalry Regulations.

32. Marks:—One mark for each cut or point and 8 marks if the whole be taken. Two runs. Two marks for style may be given according to the discretion of the judge.

For the first lemon cut "one" to the right must be used; for the second, cut "two" to the right, both cuts to be correctly made; the sword must be carried at the "right engage" up to a point 15 yards short of the first lemon.

34. Regimental pattern sword to be used by each competitor. Competitors will be disqualified unless the cuts are properly laid for, as per Cavalry Regulations.

39. Going between each set of chatties or posts counts three: and three extra for going through all successfully. If a wheel passes outside a chatty no mark will be allowed for that set. For touching or going over a chatty one mark is lost. No. 1 going outside posts or chatties loses one Mark. If a horse touches a chatty with his foot, or if a horse's foot and a wheel touch the same chatty one mark will be lost.

40. A maximum of 6 marks may be given at each competition for pace and style of driving.

2. The invalids of all Districts of the Madras Army will be despatched to Deolali *en route* to Bombay, under orders which will be issued in the Quarter Master General's Department.

6. A nominal roll of *all* men not embarked with the corps will be transmitted by the commanding officer to the Adjutant General, Ootacamund, shortly before sailing, the cause of detention being specified in each case. It will further be stated whether all necessary documents in the case of each man shewn in the roll have been transmitted to the proper authorities.

7. The Adjutant General of the Bombay Army will be requested under the orders of the Commander-in-Chief to cause any men of these corps, whose fitness for embarkation at the time intended may have become doubtful after departure from their stations, to appear before medical boards at Bombay, in view to their being detained till later in the season, when the period for arrival at home will be more suitable for men in a weakly state of health. In the cases of all such men left behind, the instructions given in paragraph 5 will be observed.

8. Presidents of invaliding medical boards will communicate to the officer commanding the corps the decisions in the several cases brought before the boards for examination.

No. 377.—The following extracts from general orders by His Excellency the Commander-in-Chief in India, are republished:—

Head Quarters, Simla, 2nd August 1890.

The Commander-in-Chief has directed the publication of the accompanying return, shewing the results of the annual course of musketry for the season 1889-90, as executed by the British and Native armies serving in the three Presidencies, including the Hyderabad Contingent.

In promulgating this return, His Excellency has again to comment favorably upon the improved results obtained by British troops, and is much pleased to observe the high standard of musketry efficiency attained by the majority of regiments. None are classified as "Bad," and very few are below the standard "Good." Fire discipline and control have improved in a corresponding ratio, and Sir Frederick Roberts feels sure that the results of the current season will shew a still further advance in these important branches of musketry training.

This being the first year of the new Native Musketry Course no comparison can be made with the shooting of previous seasons; the results, however, are highly satisfactory.

The Commander-in-Chief is very much gratified to observe the spirit with which all ranks of the Native army entered into the details and objects of the new course, also the care and attention bestowed upon musketry training generally, to which in a primary degree the excellent results are attributable.

The radical changes which it introduced have been fully justified; fire discipline and control have improved in a marked degree; and although much still remains to be done, in order to produce really good results in collective firing, His Excellency is pleased to record his great satisfaction with the highly increased proficiency generally evinced.

Owing to serious irregularities which were discovered in the target practices executed by the 2nd Battalion Devonshire Regiment, 2nd Battalion Yorkshire Light Infantry, and the 16th (Lucknow) Regiment of Bengal Infantry, these Corps have been debarred from participating in any musketry rewards, and have been excluded from the Figure of Merit list. With these exceptions the musketry course for the past season has been regularly conducted.

RETURN shewing the Figure of Merit for the season 1889-90, *of the several regiments of British and Native Cavalry and Infantry serving in the three Presidencies, including the Hyderabad Contingent.*

GENERAL ORDERS

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF.

Head Quarters, Ootacamund,
12th September 1890.

No. 397.—It is notified for information that the *London Gazettes* of the 15th and 19th August 1890, were received at Army Head Quarters on the 11th instant.

(Quarter Master General.)

No. 398.—It is notified for information that the 12th January 1891 is the date fixed for the assembly of the next class of Army Signalling at the Poona Central School.

No. 399.—Under instructions from the Horse Guards, Lieutenant G. Browne, Border Regiment, is directed to proceed from Mandalay to Chakrata, to join the 2nd Battalion of his regiment to which he has been transferred. On duty at the public expense, under para. 223, clause (*j*), and para. 513, clause (*k*), Army Regulations, India, Volume X, Parts I and II, respectively.

2. With the concurrence of the Commander-in-Chief in India, Lieutenant Browne will remain attached to the 1st Battalion of his regiment until its departure from Burma, during the coming trooping season.

(Quarter Master General.)

No. 400.—The following instructions will be attended to by despatching officers, &c., in carrying out the movements of time-expired details, &c., under orders to proceed to England by troopship during the season 1890-91. The allotments for the several troopships will be notified to all concerned by the Quarter Master General:—

I. The troops and details should be despatched as follows:—

(*a*) Invalids and time-expired details, ignominies, military convicts, and other details so as to reach Deolali ten days prior to the date fixed for their embarkation at Bombay.

(*b*) Insanes as per para. 8 of the Regulations for the discharge of British soldiers serving in India, *Vide* also para. 9 of G. O. C. No. 373 of 22nd August 1890.

(*c*) Warrant officers, departmental non-commissioned officers and their families who have been allotted passages, should proceed to Bombay in time to embark on the date specified.

(*d*) In the case of men proceeding to join the Depôt at Home, or of any men for whose transfer to the Home Establishment, the special sanction of Horse Guards or any other authority may be requisite, it must be distinctly understood that Regimental or Battery authorities are responsible that such men are not despatched from their Corps for embarkation, until the requisite authority for their transfer to the Home Establishment has been received.

II. Despatching officers will arrange accordingly, and report arrangements proposed to be made for the movement of the troops and details to the Quarter Master General's Office, Ootacamund, some time previously.

III. The details from Burma should be sent to Madras for despatch thence under arrangements to be made by the Brigadier-General Commanding Madras District so as to arrive at Deolali, &c., as above directed. When opportunity offers, however, and a saving to Government may be effected thereby, the details from Burma may be despatched from Rangoon to Calcutta by Indian Marine vessel and thence by rail to Deolali

in communication with the General Officer Commanding Presidency District, Fort William, particular care being taken in regard to the date of arrival at Deolali.

IV. Timely notice of all movements must be given by the General Officer Commanding the district from which the troops proceed to the General Officer Commanding the district through which they will pass *en route*, in view to the necessary arrangements being made for their reception and onward progress, as well as to the General Officer Commanding Bombay District, &c., at destination.

V. It having been frequently represented that much inconvenience is caused by troops taking with them to Bombay, a large amount of baggage in excess of that allowed by regulations and of unauthorized dimensions, Commanding Officers will be held responsible, that the regulations on the subject are complied with. The General Officer Commanding Bombay District will report to the Quarter Master General, Ootacamund, any officer responsible for non-compliance with this order.

Section X, Army Regulations, India, Volume X, Part I.

VI. In view to obviating the inconvenience experienced by widows, women unaccompanied by their husbands, and orphan children, on arrival at Portsmouth, owing to their baggage being placed in the wrong railway trucks, "red star" paper labels for their boxes will be provided at Deolali and Bombay. On disembarkation, all boxes, &c., labelled with the "red star" will be collected in one place and subsequently distributed to the owners.

VII. As a considerable amount of correspondence frequently arises after disembarkation relative to men's kit bags reported missing after the men have arrived at their destination, owing to a certain proportion of the troops being on duty on board up to the hour of parading for departure, and consequently unable to see that their kit bags are placed in the proper vans or wagons, printed labels for the kit bags of invalids, time-expired men and other details and the boxes of their families will be provided at Deolali, lettered "Chatham," "Woolwich," "Netley," "Gosport," according to the destination of the men. The labels will bear the names of the above places in large distinct letters and will be carefully and securely fixed.

VIII. Returns and nominal rolls of time-expired men invalids, &c., *actually* to proceed from each District to Deolali, &c., should be sent to the Quarter Master General's Office, Ootacamund, as soon as possible, copies of the same being furnished to the Brigadier-General Commanding Bombay District. Also, immediately after troops and details have been despatched to Deolali, &c., a return in amended Form B-142, published at page 79 of Madras Standing Order of 20th August 1886, should be furnished by the General Officer Commanding the district concerned, to the General Officer Commanding Bombay District, giving the numbers, &c., so despatched.

IX. Warrant Officers requiring passage to England during the ensuing season, in excess of the number for whom second class accommodation exists on board the troopships, will be provided with staff sergeants' accommodation for themselves and their families, and messed at the Warrant Officers' table.

X. Officers to proceed in charge of the details will be detailed under the orders of the General Officers concerned from officers detailed for duty with their regimental depôts, &c.

XI. Instances having occurred, of Insanes arriving at Bombay with documents incomplete, thereby necessitating their detention at that port, the attention of Officers Commanding British Corps and Batteries is invited to para. 1026, Army Regulations, India, Volume II, the provisions of which should be strictly complied with.

XII. Attention is invited to Section VI, para. 508, Army Regulations, India, Volume II, requiring all prisoners to be sent Home in sufficient time to enable them to reach England before their sentences of imprisonment expire and when possible it should be arranged that prisoners are embarked so as to arrive in England at least a fortnight before their imprisonment expires. The dates on which the sentences of prisoners expire must be carefully considered in the Staff Offices of Districts, priority of passage being given to those prisoners whose sentences expire earliest.

XIII. Attention is invited to G.O.C. No. 56 of 1887 and para. XV of G.O.C. No. 367 of 1888, requiring General Officers Commanding Districts when forwarding to the Quarter Master General, Ootacamund, applications for passages Home for the

wives and children of warrant and non-commissioned officers and soldiers serving with their Corps or on the Unattached List to transmit therewith copies (in duplicate) of the proceedings of Medical Boards, recommending their being sent Home either with or without their husbands as the case may be.

XIV. All officers entitled to passage for themselves and their families under the Regulations, should apply to the General Officer Commanding the District in which they are serving, who will arrange with the General Officer Commanding at the port of embarkation *direct* for allotment of the accommodation authorized by the Regulations.

Head Quarters, Simla, 27th August 1890.

The attention of the Commander-in-Chief in India has of late been called to some features of the game of Polo, as at present played, which have an important bearing as prejudicially affecting the welfare and efficiency of the service. Objections to the game may be included under two heads; (1) danger, and (2) expense.

I. *Danger.*—Accidents have recently become very numerous, and within the last few months several young and promising officers have lost their lives, while others have suffered more or less permanent injuries. In speaking of the danger of the game, Sir Frederick Roberts desires at the outset to deprecate any idea that he would discourage an amusement or exercise simply because it involves danger.

Any consideration of this description he knows must be repugnant to officers of the Army, and where risk to life or limb is a necessary element of any occupation, whether in the nature of duty or of legitimate recreation, it must continue to be accepted with little or no thought being given to the risk involved. But when danger is not inseparable from a pastime and does not even add to its interest, and when risk of injury can to a great extent be avoided by ordinary precautions without detracting from the merits of a game, it becomes a duty to reduce danger to a minimum.

The chief sources of danger are—

(1) The increased height of the ponies and the higher speed which any success in the game now necessitates. The height has been gradually rising since the first introduction of the game and now stands at 13-3 hands; but owing to the rules of measurement which obtain it is quite possible for a pony to be considerably over the standard height while correctly measured and certified as within it.

(2) The use of imperfectly broken and badly bitted ponies, when high speed is indispensable, as in matches. Ponies cannot be trained without play, but they need not be ridden to the risk of collision until thoroughly trained, and Sir Frederick Roberts considers that it should be recognised as a rule in all polo clubs that no pony is allowed to be used, except at practice, until it has been passed as thoroughly broken to the game.

(3) The neglect to wear a head dress capable of protecting the head in case of a fall; or if such a head dress is worn as a precaution against the sun, of discarding it as soon as the sun goes down. This source of danger is absolutely preventable, and here again the Commander-in-Chief considers that the rules of all clubs should provide that a substantial head dress is invariably to be worn at all times, even at the cost of some occasional inconvenience. It is certain that loss of life has frequently occurred through the neglect of this precaution.

In dealing with the question of danger Sir Frederick Roberts desires to impress upon officers that there is no merit in running objectless risks, but rather the reverse. Natural manliness may make young men careless of themselves, but there are others whose feelings should be considered. Even to those who may have no personal connection or acquaintance with them, it is distressing to hear of a promising life being lost or spoiled through preventable accident or through culpable carelessness. The danger of polo can be almost entirely removed if only ordinary and easily adopted precautions are taken, and officers have the remedy in their own hands.

II. *Expense.*—The game has come to be very costly and beyond the pecuniary means of many officers who feel themselves compelled from various motives to join it without regard to the expense.

This is due in part to the increased popularity of the game which has necessarily raised prices all round. But the chief cause is the high class of animal required to give any chance of success in the inter-regimental tournaments. These two causes combined have brought polo ponies very much to the level of horses as regards cost, and the general effect, especially in the mounted branches, is to necessitate an expenditure on horseflesh out of all proportion to what it was but a few years ago.

The first consideration with Cavalry officers is now, too often to set themselves up in ponies, with the result that there is no

money left to provide proper chargers, and that the expenses of the stable are far beyond what most young officers can afford. This is extravagance which must be dealt with by Commanding Officers in the same way as any other description of undue expenditure; and the Commander-in-Chief looks to them to see—

I. That officers are provided with efficient chargers.

II. That no undersized animal is mustered as a first, second or third charger on any pretext whatever.

III. That until chargers are provided, no expensive ponies are allowed to be kept.

IV. That the price of polo ponies is kept strictly within the means of the officers owning them, and that their height is strictly within the authorised limit.

It has been represented to the Commander-in-Chief that to limit the height and price of ponies would interfere with tournaments, through which alone a healthy and manly game, useful for recreation and valuable as physical training, is maintained. If such a result should ensue, it would be a matter of regret. Tournaments are a test of proficiency in contests regulated by certain conditions and restrictions, and there is no reason why the rules of competition should not be so arranged as to be consistent with a necessary economy in the cost of the game.

How this consistency can best be ensured Sir Frederick Roberts must leave to the good sense of officers to devise; but it must be borne in mind that if the present extravagant outlay in ponies is considered to be inseparable from the competition, tournaments will have to give way to the necessity of a restricted expenditure.

It is said, and apparently with truth, that success at polo now depends more on the speed of the ponies than on the skill of the players, and it would be well if means could be devised to cure a defect which sooner or later must deprive the game of its interest and value, at least for those whose pecuniary means are limited.

No. 431.—The following extracts from general orders by His Excellency the Commander-in-Chief in India, are republished :—

It is notified for the information of all concerned that His Royal Highness the Commander-in-Chief has been pleased to approve of service at all stations abroad being allowed to reckon towards the seven years' Indian Service required from Army Schoolmasters under para, 105, Army Regulations, India, Vol. XIII, "British Army Schools.".

* * *

It has recently been brought to the notice of the Commander-in-Chief in India that in many instances the regimental monthly returns of British Cavalry and Infantry have been very carelessly prepared, more especially the service tables on the second page of Army Form B 105.

His Excellency therefore directs the strictest attention of officers concerned to para. 26, section XXI of the Queen's Regulations and Orders for the Army, 1889, Part I, which prescribes as follows :

"Commanding Officers are strictly enjoined to take every care to ensure that the annual and monthly returns, and more especially the tables therein which refer to the age and services of soldiers, and the age of horses, are filled up in the clearest and most accurate manner. They are to certify that all parts of the return have been carefully examined and found correct."

2. The facts lately brought to light show that a practice obtains in some regiments and battalions of copying certain portions from one month's return into the next. This culpable practice which vitiates the return has been the cause of much unnecessary trouble and correspondence, and Commanding Officers are directed to take steps to ensure the returns being made out each month from fresh calculations and their being compiled with the greatest care.

The following additions to Army Regulations, India, Vol. II, are promulgated :

Add as new para. 216-A. The Inspector General of Cavalry will inspect British and Native Cavalry regiments yearly and submit his reports, on the modified Army Form ‖ B. 108 for the former, and India Army Form 113 (accompanied by India Army Form 113-A), for the latter, both in duplicate, to Army Head Quarters.

---

§ G.O.C., No. 457 of 1889, page 341.

‖ In triplicate in Madras.

He will confine his inspection to the field service equipment, equitation, condition of horses, stable management, drill and field movements of a regiment, but he will not touch upon questions of discipline and interior economy which are to be dealt with by the General Officer under whose command the regiment is serving.

As soon as possible after completion of an inspection the Inspector General of Cavalry will furnish, confidentially, to the General Officer Commanding, an epitome of the report he is about to make on the regiment under the head of "General observations" in order that the General Officer may be in possession of the Inspector General's opinion as to the efficiency of the Corps for field service. Whenever the Inspector General finds it necessary to remark on the condition of some article of equipment, clothing, &c., or to animadvert on some matter connected with the regiment which, from a service point of view, is essential to the efficiency of the regiment, and is also one that may be dealt with by the General Officer Commanding under the head of interior economy, he should, before making any report to Army Head Quarters concerned, or passing any orders thereon, communicate with the General Officer Commanding, ascertain his views and whether he has made or intends to make any representation in his own report.

Any remarks on subjects relating solely to his own inspection, which the Inspector General may consider it desirable should be at once communicated to the regiment, will be made in a memorandum to the General Officer Commanding the District, who will report the same to the Adjutant General of the Presidency.

On receipt from the Officer Commanding the Regiment of the reports on officers, Army Form B-194-1 for Officers of British Cavalry and Probationers with Native Cavalry and India Army Form 48-A for Officers of Native Cavalry, the Inspector General will, after adding his own remarks thereon, forward them to the General Officer Commanding for completion and submission to Army Head Quarters.

A. O. 283.—Staff College—Entrance Examination.

1. At the examination for admission to the Staff College, to be held in June 1891, questions in Military History will be set as follows :—

(*a*) On the principles of strategy, as explained and illustrated in "The Operations of War," Parts I to V.

(*b*) On the various operations in—

The Peninsula and France	...	1808—1814
France and Belgium	...	1815
France up to and including Sedan	...	1870

narrated in "The Operations of War."

The accounts of these operations, as given in the work referred to, should be taken for the basis of their study.

2. In order to test the candidate's powers of independent original thought, the paper will include one or more questions on the operations indicated in (*b*) based on the supposition that the operations were conducted in a manner different from that in which they were actually carried out.

† Hindi only under clause 129, India Army Circulars, 1888.

3. Skeleton maps showing the principal places and the rivers will be furnished for the solution of questions coming under (*b*).

4. Candidates are reminded that no question on Military History can be intelligently answered by any one who does not possess a fair knowledge of the military geography of the country, or who does not know anything about the hostile forces beyond their daily positions and actual movements.

"Napier's Peninsular War," Hooper's "Waterloo," and Hooper's "Sedan," furnish sufficient information on these matters for this examination.

In continuation of G. O. C. C.,† dated 4th September 1890, regarding the careless manner in which in many instances the Regimental monthly returns of British corps are prepared, the following extract from a letter received from the Adjutant General to the Forces is published for information :—

* * * * *

"It is manifest to His Royal Highness that very serious errors have been made in the returns, and he therefore requests that it may be pointed out to corps that the monthly returns, upon which much action is taken in this office as to recruiting, the preparation of drafts and many other matters, are worse than useless if the statistics which they are intended to show cannot be depended upon in every particular. * * *

"Officers Commanding battalions should be informed that His Royal Highness expects the information given in all parts of these monthly returns to be properly verified *each month*, when the return is being prepared, and that he must hold the Officers Commanding responsible that his instructions to this effect are complied with." * * *

2. Investigation has resulted in proving the fact that in some corps, the practice obtains of allowing certain figures in the service tables on the second page of the monthly returns to

† G.O.C. No. 431 of 1890, page 326.

stand with little alteration for months, and that then periodical corrections are made which embrace alterations as to the service of the men generally which could not possibly occur in one month.

3. Other instances show that the errors are due to inadvertence on the part of the compiler by entering the numbers in the table a line too high, thus making the services of the men to appear a year longer than they actually are.

4. The Commander-in-Chief in India now directs that a system of compilation is to be introduced into orderly rooms, such as will prevent the possibility of such errors occurring in the future; the tables are to be compiled *monthly* and the work of compilation must be carefully supervised by Adjutants and Commanding Officers of regiments and battalions.
