sidered desirable to enter into any special contracts with any particular steam-boat companies for passages to or from Bombay and other Indian ports, and declining to make any change in the existing rules for the grant of passage-money.

"2. His Lordship is further of opinion that the arrangements proposed in the last paragraph of the Government of India despatch No. 92, dated the 24th May 1889, for the grant of passages from India to England will fully meet the requirements of the case. In order to prevent any misunderstanding, I am directed to state that under the above decision the rules for passages in private steamers are as follows :—

"(i) The General Officer Commanding Bombay District is to exercise his discretion in providing passages for officers proceeding home on medical certificate, or otherwise entitled to passage, by steamers of the Peninsular and Oriental Company, or give them passages in other vessels, provided the latter have suitable passenger accommodation and carry surgeons. In all cases the General Officer Commanding is to be guided in his decision by considerations of economy, and as a rule officers should be provided with passages by the line which is most economical to Government, both as regards passage-money and date of sailing, provided the accommodation is considered suitable;

"(ii) Officers, whether proceeding on leave on medical certificate or not, may be sent from Karachi when the expense of rail passage to that port is less than that to Bombay;

"(iii) Officers allowed to make their own arrangements will receive the British India Steam Navigation Company's rate of passage-money, *viz.*, Rs 525, as heretofore. They are entitled to rail passage to Bombay or Karachi, whichever journey may be the cheapest."

The necessary alterations to Army Regulations, Vol. X, will be published in due course.

*In detailing native candidates from Burma preference should be given to the six Burma Battalions of Madras Infantry.

4. In the event of the detail allotted to a command not being fully taken up, the fact should be notified at once to the General Officer Commanding Secunderabad District, in order that the vacancy thus made available, may be filled from another command. An increased number of officers of either British or Native Corps may attend a class provided there are vacancies and the total number allowed, viz., 20, is not exceeded; but no exchanges can be permitted in the detail of other ranks.

5. Native officers and British and Native non-commissioned officers who are near the end of their service, or who are unlikely to become efficient instructors, should on no account be detailed.

6. Attention is invited to para. 82 of the standing orders of the Schools of Musketry in India, para. 258 (*b*) of the British

and para. 400 of the Native Musketry Regulations, and Commanding Officers are reminded that an officer who has once completed a course and obtained a company certificate can, with the sanction of the Adjutant General, only attend the examinations at the end of another course, provided that no expense is charged to the public.

7. The Non-Commissioned Officers selected for Instructors are to be despatched to Secunderabad in sufficient time to admit of their reporting themselves on the 28th May next, for the purpose of undergoing a course under the Officer Instructors, previous to the opening of the school.

8. The Commander-in-Chief desires to impress on General Officers Commanding the necessity for great care in the selection of non-commissioned officers as Instructors. The work required from them is of a special nature, and only intelligent and well conducted men are capable of undertaking it with success. They should be in possession of certificates as Sergeant Instructors in Musketry.

9. A nominal roll of all ranks detailed for instruction at the first class and of the Instructors should be communicated to the General Officer Commanding Secunderabad District by the 8th May, and a similar roll of those detailed for the second class, by the 5th August. These rolls are to contain a certificate that both officers and non-commissioned officers detailed for instruction are well acquainted with the Martini-Henry firing exercises. A special report will be made of any candidate who fails to qualify in this subject within a fortnight after the assembly of the class.

Officers and non-commissioned officers detailed to attend the classes for instruction should arrive at Secunderabad two days prior to the date the classes are ordered to assemble, and should at once report their arrival to the Chief Instructor.

10. Officers and men attending the School of Musketry should reside at the school as far as the accomodation available will admit.

11. The following officers are detailed to attend both classes:—

Chief Instructor.

*Captain W. H. Riddell, Officiating Assistant Adjutant General for Musketry, 1st District.

* To travel on duty at the public expense.

Junior Instructor.

Captain R. C. Andrews, Deputy Assistant Adjutant General for Musketry, 2nd District.

Native Officer Instructor.

To be detailed by the General Officer Commanding Secunderabad District.

The Head Quarters of the 1st Musketry District may be removed to Secunderabad and remain there during the time the Assistant Adjutant General for Musketry is at that station on duty connected with the school.

The Officer Instructors will take up their inspection duties as soon as possible after the examinations have been concluded and the papers despatched to Simla. The necessary railway warrants for the conveyance of the district clerks and office records, not exceeding five maunds will be provided by General Officers Commanding.

12. The Sergeant Instructors are allowed, if married, to take their families with them, and they will remain at the schools until the termination of the 2nd class

13. Each British Officer will take with him a copy of the latest edition of the Musketry Regulations, British or Native, as the case may be, "The Treatise on Military small Arms and Ammunition," "Infantry Fire Tactics, 1888," and sufficient stationery to last the course. British non-commissioned officers should be in possession of the latest edition of the Musketry Regulations.

14. Chapters X and XI, Infantry Fire Tactics, will form the subject of the examination papers for the "Officers Extra" certificate at the end of the 1st class. The chapters selected for the 2nd class will be notified hereafter.

15. All Officers and Non-Commissioned officers must have previously gone through a recruit's course of Musketry, and the British non-commissioned officers must be in possession of a 2nd class certificate of education.

16. Every non-commissioned officer must be medically inspected and reported fit for duty on the day he leaves his corps, his rifle or carbine must be carefully examined by an armourer, and any defect remedied, and he must arrive fully armed and equipped.

17. Should there be a difficulty in detailing a sufficient number of Color Sergeants (to whom preference should be given), Sergeants or Lance-Sergeants, to attend a course, Corporals in possession of 2nd class educational certificates may be selected: but before leaving their corps, they must be made provisional Lance-Sergeants for three months to enable them to be examined for a certificate. A non-commissioned officer of a Native corps detailed to attend a course, must be promoted provisional Lance-Havildar, if below that rank.

18. In the selection of officers and non-commissioned officers preference is to be given to—

British Service.

(1) Adjutants, and those commanding troops or companies who are not in possession of a School of Musketry certificate.

(2) Lieutenants at or near the top of the list for promotion to Captain.

Indian Service.

This further period of service will be completed *in India*, and will commence after the expiration of the extra year's service with the colors due from a soldier serving in India.

3. The grant of bounty is conditional on the men signing an agreement to accept for the completion of their extended service transfer to a corps in India; but as regards infantry, this condition will only apply when their own battalion may leave India without being relieved by a battalion of the same regiment. The extension of service will be carried out on Army Form B. 221.

4. The bounty will be paid to each man at once on his signing the required agreement, or, at his option, placed to his credit in the Regimental Savings Bank. Advances for this

No. 327.—Instances have recently occurred in which **discharge documents** of soldiers transferred to pension in India have been sent home in a very incomplete state, some without even being confirmed, thereby necessitating their return to this country for completion and confirmation, the Commander-in-Chief desires to impress upon Commanding Officers the fact that such negligence results in the infliction of unnecessary hardship on discharged soldiers, whose pensions cannot be awarded until the Commissioners of Chelsea Hospital are in a position to deal with their documents in a complete state.

2. His Excellency directs that in future Commanding Officers will carefully scrutinize all discharge documents and see that they are correct and complete in every respect before despatching them to England.

No. 328.—The numerous petitions which have recently been received by the Commander-in-Chief from men discharged from regiments of the Madras Army praying for **re-instatement** in the service, indicate that some misconception prevails in the minds of the ranks of the Native Army as to the means whereby this may be attained.

Instead, therefore, of addressing their petitions to His Excellency, or to the Adjutant General, the proper course is for all men wishing to re-engage to make their application to the Officer Commanding the regiment into which they are desirous of enlisting.

453. The result of the annual inspection in signalling of British troops in India for the year 1891-92 are published in the annexed return, from which it will be seen that 9 regiments of Cavalry, 31 batteries of Artillery, and 51 battalions of Infantry were inspected, nearly all of which classified for prizes.

The Commander-in-Chief is pleased to observe that there has been an improvement in the Cavalry and Infantry on last year's performances, in both of which branches, with some few exceptions, the results are considered very creditable.

In the Royal Artillery in Bengal, however, notwithstanding that a few batteries have done very well, the results are not so generally satisfactory, and much room still remains for improvement in this branch, and His Excellency therefore hopes that the Commanding Officers concerned, who are, under existing regulations, held responsible for the efficiency of their signallers, will, by an added interest on their own part, and by affording increased facilities for instruction and practice, ensure better results by next inspection.

HIS EXCELLENCY

THE COMMANDER-IN-CHIEF.

Head Quarters, Ootacamund,
Friday, 1st July 1892.

No. 335.—The **London Gazettes** of the 3rd and 7th June 1892, were received at Army Head Quarters on the 29th ultimo.

No. 336.—Horse Guards' Orders.—Medical Staff.—Surgeon-Captain J. W. Cockerill, has been granted an extension of leave, from the 8th June to the 7th October 1892, on medical certificate.

No. 337.—His Excellency the Commander-in-Chief has noticed with displeasure that Commanding Officers have been in the habit of taking upon themselves to improve or alter various articles of the soldiers' **clothing and necessaries** without authority and under the pretence that by providing a better article expense is saved "*in the long run.*" This custom must cease. It is well known that an increase in the price of clothing invariably causes great and just dissatisfaction, and in every case where it is discovered that any variation whatever from the sealed pattern has been introduced without special sanction, General Officers Commanding will immediately report the matter to Head Quarters, and Commanding Officers will be ordered to refund to the men the extra cost, if any, which has been charged against them.

No. 338.—Examinations.—With reference to G. O. C. Nos. 31 and 60 of 1892, the attention of Officers Commanding Native Regiments is directed to the necessity for forwarding to the Adjutant General as soon as obtained, all certificates of qualification for promotion of officers serving under their command.

2. In one or two instances of late, certificates, such as those of equitation, have not been so forwarded, the result being the possibility of duly qualified officers being passed over for promotion owing to there being at Army Head Quarters no record of their qualifications.

No. 339.—So much of G. O. C. No. 270 of 1892, as refers to **Lieutenant F. Copeland,** 30th Regiment (5th Burma Battalion) Madras Infantry, is cancelled.

No. 340.—The non-commissioned officer named below has been awarded a silver medal for "**long service and good conduct**" *with gratuity*, under the provisions of Articles 1165 to 1183, Army Regulations, India, Volume I, Part I :—

440. The following detailed result of the shooting for the annual prize given by the Inspector General of Artillery in

India, for competition between all batteries of Horse and Field Artillery, is published for information.

The Commander-in-Chief is much gratified at the very satisfactory advance made on previous years. Ten batteries have exceeded the highest score of last year ; * and fifteen, as against three last year, have scored over 250 hits. This year seventeen batteries have scored less than 150 ; last year twenty-four failed to make a higher score.

It must be pointed out, however, that the results obtained by the batteries at the bottom of the list are very poor indeed, and a comparison with those at the top shows clearly the want of proper instruction.

His Excellency also notes with satisfaction that the 12-prs. are at last taking their proper place on the list (due in part to the use of service ammunition, but also to improvement in fire discipline), and that there has been a very decided advance in the shooting of the Royal Horse Artillery.

In point of time taken in action, there is also an improvement (twenty-one batteries being under 20 minutes against eight last year), but slowness is now the chief fault. Lord Roberts considers that with proper training the time taken in action at the three positions should not exceed 15 minutes, and every exertion should be made to attain this end.

* Irrespective of the number of hits by case shot, which this year have not been taken into account.

Battery.	Name of Battery Commander.	Hits.				Total time in action.		Equipment.	Remarks.
		First position.	Second position.	Total.	Third position.	Minutes.	Seconds.		
65th Field ...	Captain E. F. Nelson ...	267	356	623	81	21	28	12-pr.B.L....	Winner of prize given by Inspector-General of Artillery (also winner 90-91 of His Excellency the Commander-in-Chief's prize). Principles correct and result good at both positions, but time is still too long. Fire discipline and observation both very good.
A. Royal Horse Artillery.	Major A. E. Duthy ...	77	446	523	59	21	17	12-pr.B.L....	Range not found sufficiently accurately at first position, and laying irregular; at second position results very good. A very satisfactory advance in all respects on last year's shooting, and but for an error in passing on Commanding Officer's order regarding length of fuze, the results would probably have been much better.

Battery.	Name of Battery Commander.	Hits.				Total time in action.		Equipment.	Remarks.
		First position.	Second position.	Total.	Third position.	Minutes.	Seconds.		
Q. Royal Horse Artillery.	Major Hon. F. W. Shore	274	133	407	95	19	30	12-pr.B.L....	Laying not sufficiently regular at either position, and observation faulty; principles correct and an improvement on last year in all respects, and especially in "time."
36th Field ...	Major J. D. Douglas ...	111	275	386	93	18	16	12-pr.B.L....	Time good and principles correct: spoilt by irregular laying, otherwise a great improvement on last year.
B. Royal Horse Artillery.	Major F. W. Campbell ...	258	120	378	67	20	34	12-pr.B.L....	At first position laying not regular enough; at second position faze too short, the result of altering on one round only. A considerable improvement on last year, but fire discipline reported not yet good enough. Observation good.

10th Field ...	Major C. S. Skipton ...	192	185	377	88	17	7	12-pr. B.L....	Laying not regular and correct fuze established too late at first position; at second position correct range established, but by "creeping back," and elevation subsequently altered. Time good, and an improvement generally, especially in observation.
71st Field ...	Major G. W. R. Howard-Vyse.	274	86	360	111	19	30	12-pr. B.L....	Laying erratic at first position; a bracket of 50 yards at a range of 3,000 yards is not sufficient; at second position an attempt at creeping, and laying also irregular: result not so good comparatively as last year with 9-pr. R. M. L.
C. Royal Horse Artillery.	Major A. N. Rochfort ...	269	70	339	146	17	30	12-pr. B.L....	Laying irregular at the first, and range not correctly found at the second position. Time good, but observation not always correct.
H. Royal Horse Artillery.	Major E. Blaksley ...	221	88	309	52	21	12	12-pr. B.L....	Range correctly found at both positions, but fuze too short at the second. Principles correct, fire discipline and observation good, but time slow.
5th Field ...	Major J. Temple ...	124	183	307	53	18	51	9-pr. R.M.L.	In number of hits and in time this is better than the winning Battery last year. Through faulty observation no bracket was established at the first position. Second position very good and laying very regular. A great advance on last year.

Battery.	Name of Battery Commander.	Hits.				Total time in action.		Equipment.	Remarks.
		First position.	Second position.	Total.	Third position.	Minutes.	Seconds.		
68th Field ...	Captain R. L. Heygate ...	112	180	292	68	19	45	12-pr. B.L.	Laying irregular at both positions; fuze too short at second. Fire discipline good.
59th Field ...	Major J. H. Hall ...	75	214	289	38	16	34	9-pr. R.M.L.	Range accurately found at both positions, but elevation for shrapnel not sufficient at either. Fire discipline, observation and time all good, and an improvement on last year.
26th Field ...	Major H. W. Brackenbury	90	199	289	118	17	15	12-pr. B. L.	Laying erratic at first position; creeping at second position, but range not found: time good.
42nd Field ...	Captain W. E. Fairholme	67	185	252	37	17	30	9-pr. R.M.L.	Laying irregular at both positions: range not verified at the first. Result better than last year.

R. Royal Horse Artillery.	Major W. W. Smith ...	85	166	251	100	21	46	12-pr. B. L.	At first position range not found, no verification made, and 5 different elevations tried during shrapnel fire: at second position range found but laying variable. Time too slow.
34th Field ...	Captain W. K. McLeod ..	59	160	219	58	16	15	9-pr. R.M.L.	Principles correct, and range properly found at both positions, but laying irregular; also fuzes, probably due to boring. Time good.
T. Royal Horse Artillery.	Major C. J. Long ...	3	213	216	82	20	8	12-pr. B. L.	At first position every shrapnel was "over": at second position range correctly found and result good. Time slow, otherwise great improvement on last year
54th Field ...	Major F. C. Farmer ...	60	128	188	45	18	30	9-pr. R.M.L.	No range report kept as ordered. At first position elevation altered three times after range considered found. Fire discipline reported good.
35th Field ...	Major R. G. W. Hepburne	159	28	187	27	12	2	9-pr. R.M.L.	Range not accurately determined or verified at first position; at second position observation of ranging shots at fault and laying irregular. Time very good, but probably too hurried. Fuzes irregular.
31st Field ...	Captain W. H. Connolly	72	111	183	66	17	10	9-pr. R.M.L.	Laying erratic at both positions; fuzes irregular, probably due to boring.

Battery.	Name of Battery Commander.	Hits.				Total time in action.		Equipment.	Remarks.
		First position.	Second position.	Total.	Third position.	Minutes.	Seconds.		
39th Field ...	Major R. H. S. Baker ...	64	116	180	59	20	39	9-pr. R.M.L.	Range correctly found at both positions, but result spoilt by bad laying. Time slow. Fuzes irregular.
2nd Field ...	Major F. M. Banister ...	96	73	169	116	21	40	9-pr. R.M.L.	Range found at both positions, but laying irregular, also fuze boring.
50th Field ...	Major F. Burridge ...	77	87	164	52	14	41	12-pr. B. L.	Range correctly found, but fuze short at both positions. Time good.
60th Field ...	Major W. H. Frith ...	18	143	161	41	22	13	12-pr. B. L.	Laying and fuzes irregular. Time slow.
8th Field ...	Major E. N. Henriques ...	72	88	160	68	14	41·5	9-pr. R.M.L.	Laying erratic and fuze short at first position. Observation and time good.
9th Field ...	Major M. J. Barlow ...	117	41	158	56	17	36	9-pr. R.M.L.	Laying irregular at first position and fuze too short at second. Observation good.

M. Royal Horse Artillery.	Major J. Leach ...	14	139	153	49	21	55	9-pr. R.M.L.	Range correctly found at both positions, but laying of shrapnel erratic. Time slow.
27th Field ...	Major H. H. Pengree ...	3	140	143	97	16	28	9-pr. R.M.L.	At first position range accurately found, but subsequent laying very irregular. Time good.
20th Field ...	Major E. C. Wace, D.S.O.	41	97	138	46	23	18	9-pr. R.M.L.	Erratic laying in trials and shrapnel fire prevented a better result. Time very slow.
17th Field ...	Captain J. Hanwell ...	62	74	136	33	21	23	12-pr. B.L....	Range correctly found at both positions: trajectory for shrapnel too low at second. Time slow.
53rd Field ...	Major H. J. Lyster ...	52	83	135	43	24	30	12-pr. B.L....	Laying very erratic at both positions and fuzes at first badly managed. Time inadmissibly slow.

44th Field ...	Major R. Wynyard ...	39	84	123	40	29	30	9-pr. R.M.L.	At first position trials were all over, and range only found approximately by creeping. Laying very bad in ranging at first position. Range not verified, nor fuze found. At second position management of fuze unintelligible. Time inadmissibly slow.

5th Field ...	Major E. Cassan ...	3	119	122	72	22	20	12-pr. B.L....	At first position trajectory too high in shrapnel fire, and nearly all "over." Second position good. Time very slow. Fire discipline very good.
21st Field ...	Major G. R. Moore ...	32	83	115	53	26	50	9-pr. R.M.L.	Range correctly found, but laying of shrapnel irregular at first position: fuze too short at second. Time inadmissibly slow.
24th Field ...	Major C. M. Haggard ...	36	67	103	47	18	58	9-pr. R.M.L.	Spoilt by erratic laying and irregular burning of fuzes, probably due to careless boring.
22nd Field ...	Major N. P. Fowell ...	38	61	99	44	21	53	9-pr. R.M.L.	At first position six trials, all at same elevation, although no shell was judged range; laying irregular. Time too slow. Results very poor. Last year's slightly worse.

72nd Field ...	Major J. W. T. Spencer...	43	46	89	66	17	20	9-pr. R.M.L.	Ranges correctly found. Laying of Shrapnel irregular. Fuze badly managed at second position. Time good.
48th Field ...	Major L. J. A. Chapman	2	66	68	68	16	26	9-pr. R.M.L.	At first position range not found or considered found and shrapnel nearly all over. Laying and observation both bad. Time good, but result very poor. This battery was last on the list 1890-91 and scarcely any improvement has been made.
51st Field ..	Major A. H. C. Phillpotts	14	51	65	53	26	25	9-pr. R.M.L.	Bad laying. Fuze badly managed Time inadmissibly long. Report carelessly compiled.

55th Field ...	Major J. W. H. Potts ...	12	31	43	34	27	5	9-pr. R.M.L.	Very poor results, due partly to the position of the targets: fuzes irregular, probably due to incorrect boring. Time inadmissibly slow.

Battery.	Name of Battery Commander.	Hits.				Total time in action.		Equipment.	Remarks.

70th Field ...	Major E. C. Hawkshaw ...	33	5	38	29	23	22	9-pr. R.M.L.	The extremely poor results are due entirely to violation of principles and orders for the conduct of practice. No. 357.—The following extracts from **General Orders by His Excellency the Commander-in-Chief in India,** are republished:—

Head Quarters, Simla, 8th June 1892.

454. With reference to clause 78, India Army Circulars, 1892, regarding the establishment of recruiting depôts for the Native Army, the following rules for Recruiting Officers are published for guidance:—

Rules for Recruiting Officers.

1. In all matters of discipline District Recruiting Officers will be under the orders of the General or other Officer Commanding any District or Station in which they may be permanently or temporarily resident. On all questions of recruiting they will correspond with Army Head Quarters direct.

2. District Recruiting Officers will report to General or other Officers Commanding their arrival in, and departure from, any District or Military Cantonment on recruiting duty.

3. The Commander-in-Chief desires to impress on Recruiting Officers that, although special stations are assigned to them as their head-quarters, it is by no means intended that they should remain permanently at those stations or confine their exertions to the organisation of recruiting operations from thence; indeed it is essential that they should freely move about within the limits of the country assigned to them, with the whole of which they must render themselves perfectly familiar. They will be expected to acquaint themselves thoroughly with the history, distribution, sub-divisions and peculiarities of the races with which they are more especially concerned, and to cultivate the friendship and encourage the assistance of the leading families of those races. They must constantly study those local differences of feeling and custom which so largely affect the value as soldiers of men of the same caste when drawn from different districts of a province. The duty of Recruiting Officers will not be confined to seeing that the men they enlist are physically fit, of the authorised standard and of the required class; they will also be held absolutely responsible that the men are drawn from the best military sub-divisions of that class and are, by tradition and descent, likely to prove worthy of the service for which they offer themselves. District Recruiting Officers will submit to the Adjutant General in India, Simla, by the 1st April 1894, a memorandum on the beliefs, customs, distribution, sub-divisions, &c., of the class or classes which they have been appointed to enlist.

4. The following general rules are laid down for their guidance in recruiting:—

(*a*) Officers Commanding regiments or detachments may still enlist men presenting themselves for that purpose at regimental or detachment head-quarters. With this exception all enlistments must take place through the Recruiting Officers.

(*b*) Commanding Officers in need of recruits will communicate their requirements to the Recruiting Officer concerned, who will inform the Commanding Officer of the strength and composition of the recruiting party necessary and of the place where and date on which it should report itself to him.

(*c*) All recruiting parties, whether from this or from another presidency or from any local force, will be under the immediate orders of the Recruiting Officer. Commanding Officers of regiments are to send all orders for their respective parties through that officer.

(*d*) The best method of working recruiting parties must depend largely on local conditions, and Recruiting Officers, whose work will be judged solely by results, are left free to exercise their own discretion in the matter. It may, however, be pointed out that it is not necessary, and will often be undesirable, that recruits should be brought to the Recruiting Officer's head-quarters for examination and approval. Probably the most generally effective system will be to post the native officer in charge of each party in some town or village centrally situated as regards the localities where his men are searching for recruits. All men offering themselves would then be brought in to the native officer, who would at once reject those obviously unsuitable, retaining the remainder till the arrival of the Recruiting Officer, who should visit each such sub-depôt at short intervals, examine the recruits collected there, have all those of whom he approves medically inspected* and despatch them direct to their regiments.

* By civil medical officers if a medical officer in military employ is not available. Army Regulations, India, Vol. VI, para. 1381.

(*e*) Recruiting Officers must see that native officers in charge of parties are kept supplied by their regiments with sufficient funds and with such clothing, bedding, &c., as may be necessary (regard being had to the season of the year) for immediate issue to men on enlistment.

(*f*) In selecting sub-depôts at which to post native officers care should be taken that suitable accommodation is available, in serais or elsewhere, for recruiters and recruits.

(*g*) Sepoys going on furlough will be instructed by Commanding Officers to take any recruits they may obtain to Recruiting Officers for approval.

(*h*) Men offering themselves for enlistment without the intervention of recruiters or of furlough men may be accepted for the regiment they may prefer, subject to the existence of vacancies and the consent of Commanding Officers.

(*j*) It is to be distinctly understood that there is to be no arbitrary drafting off of recruits to regiments. Unless they themselves express a wish to the contrary, recruits will be held to have enlisted only for the regiment to which their bringer belongs.

(*k*) Subject to a strict observance of the regulations and of the rules now laid down, Recruiting Officers will endeavour in every way to meet the wishes of Commanding Officers as regards the districts from which recruits for their regiments should be drawn and the standard of measurement to be exacted.

5. Recruiting Officers will render all assistance in their power to heirs of deceased sepoys or claimants of family pensions in obtaining possession of the estates of deceased men or in establishing claims to pension.

6. The necessary books of Regulations and General Orders, &c., will be supplied to Recruiting Officers from the Office of the Adjutant General in India, Simla. Office accommodation, writers and stationery will be supplied by the officers themselves from the allowance granted them for this purpose.

7. Recruiting Officers will suggest any alterations or additions to these rules which their experience may show to be desirable.

Head Quarters, Simla, 17th June 1892.

483. It is notified for the information and guidance of despatching officers that through communication has been established between Luckeesarai, Parbatipur, and Dhubri, and that all officers and troops proceeding from stations north of Luckeesarai, to Darjeeling and stations in Assam other than Silchar, and *vice versâ*, should be despatched by this route in future, instead of by the route *viâ* Naihati Junction. In the case of a movement of a large body of troops to or from Northern Assam, application may, if considered desirable, be made to Army Head Quarters for permission to despatch them *viâ* Naihati Junction and Goalundo instead of by the above route.

Convalescents proceeding from stations north of Luckeesarai to Darjeeling will, however, be despatched in communication with the General Officer Commanding Presidency District, who will decide the route by which they should proceed.

Horses, mules, bullocks, &c., proceeding to or returning from a station in Assam should be despatched in future *viâ* Naihati Junction and Goalundo.

No. 412.—The following extracts from **General Orders by His Excellency the Commander-in-Chief in India,** are republished:—

Head Quarters, Simla, 15th July 1892.

552. The Commander-in-Chief has directed the publication of the accompanying return shewing the results of the annual course of musketry for the season 1891-92, as executed by the British and Native Armies serving in the three Presidencies, including the Hyderabad Contingent

Comparisons with results obtained in previous seasons are rendered difficult owing to the adoption of a new course for British troops and to the introduction of additional practices into the course for the Native Army.

Nevertheless, sufficient data are forthcoming to prove that the British Army has fully maintained its position, whilst in the Native Army a considerable advance is again discernible.

To enter somewhat more closely into particulars, the following are the most obvious characteristics of the practices performed last season :—

British Corps.—The new course constitutes a comparatively severe test of individual marksmanship, but the majority of corps have attained to a very satisfactory standard.

Musketry drill and instruction, however, require very careful attention. Musketry drill is the foundation of good fire discipline, and the advance made in this direction during the season under review is disappointing. The impetus given to fire direction, control, and discipline during the three previous seasons seems latterly to have lost a great part of its energy, and no time must be lost in acquiring and maintaining a very high standard of efficiency in this essential branch of musketry instruction. To this end the attention of Commanding Officers and all of those immediately responsible for the training of young Officers and Non-Commissioned Officers is specially directed to the Chapters on "Control of Fire" in the British and Native Army Musketry Regulations, and to pages 1 and 85 to 90 of the Annual Report on Musketry in India for the season 1890-91.

Native Corps.—Shew more and more the good results of close and constant supervision by British Officers and of the very careful preliminary training generally imparted to recruits.

The shooting has again greatly improved in the aggregate, whilst the fire direction, control, and discipline, although exhibiting very varying degrees of excellence in different corps, is yet on the whole quite satisfactory, shewing as it does a considerable advance on results obtained in any previous season.

The list of Native Infantry corps is published in the order of merit as decided by the result of the shooting in the collective practices, but His Excellency the Commander-in-Chief is aware that some few regiments stationed in the hills have to shoot on ranges that are unfavorable to the scoring of ricochets, and that therefore these corps do not stand as high on the list as they otherwise would do had they shot on more favorable ranges.

No irregularities in the execution of the course by British and Native troops have been brought to notice, and the Commander-in-Chief takes this opportunity of expressing his approbation of the zeal and energy displayed by Officers and Non-Commissioned Officers of all the leading corps to whose personal exertion he attributes the present generally satisfactory musketry condition of the Army in India.

No. 419.—It is notified for information that, in accordance with the rule contained in Article 1034, A. R., I., Vol. I, Part I, as reconstructed by clause 101, India Army Circulars of 1892, the Government of India has sanctioned **Non-Commissioned Officers** being placed on the supernumerary list of their corps after three months residence at the Thomason College, Roorkee, or the College of Engineering, Madras.

2. Commanding Officers concerned will on the 1st August 1894, report to the Adjutant General whether the raising of the standard has in any way affected recruiting for these corps.

No. 421.—General Officers Commanding Districts are requested to assemble **invaliding medical boards** in accordance with Section XVII, Army Regulations, India, Volume VI, (Medical), at stations within their respective commands occupied by British troops, to examine all men whom it is proposed to invalid during the next trooping season. These boards will be held, the first early in September, and the second during the first week in January, a special board being held at the end of February if necessary. The Principal Medical Officer of the District, or, in his absence, the Medical Officer doing his duty, will sit as President.

2. The invalids of all Districts of the Madras Army will be despatched to Deolali *en route* to Bombay, under orders which will be issued in the Quarter Master General's Department.

Invalids whose state of health would make it hazardous or injurious to forward them to Deolali, should, in communication with the General Officer Commanding Bombay District, be sent to Bombay and attached to the Colaba Sanitarium, until required to embark, particular care being taken that none but real cases of sickness are so sent, and that in each case it is first ascertained from the General Officer Commanding Bombay District, that accommodation is available.

3. The instructions contained in the Regulations for the Discharge of British Soldiers serving in India are to be followed, so far as they apply to invalids, any subsidiary orders necessary in furtherance of the foregoing arrangements being issued by General Officers Commanding Districts.

4. At stations where any men of the corps marginally noted and under orders to embark this cold season from Bombay for England, are now serving, special invaliding medical boards will also be assembled, in communication with the Principal Medical Officer of the District to ascertain what men belonging to these corps will require to be discharged from the service on their arrival at home.

2nd Battalion Devonshire Regiment.

5. Complete invalid and discharge documents will be made out in India for all men whose discharge on arrival at home is contemplated, those of men left behind (that is, who will not accompany their corps to England) being transmitted to the officer commanding the depôt or station, where the men may be quartered. The documents to be prepared for men left behind, whose discharge on arrival at home is not contemplated, will be those for an ordinary transfer to the depôt company, with the usual invalid documents complete.

6. A nominal roll of *all* men not embarked with their corps will be transmitted by the commanding officer to the Adjutant General, Ootacamund, shortly before sailing, the cause of detention being specified in each case. It will further be stated whether all necessary documents in the case of each man shown in the roll have been transmitted to the proper authorities.

7. The Adjutant General of the Bombay Army will be requested under the orders of the Commander-in-Chief to cause any men of these corps, whose fitness for embarkation at the time intended may have become doubtful after departure from their stations, to appear before medical boards at Bombay, in view to their being detained till later in the season, when the period for arrival at home will be more suitable for men in a weakly state of health. In the cases of all such men left behind, the instructions given in paragraph 5 will be observed.

8. Presidents of invaliding medical boards will communicate to the officer commanding the corps the decisions in the several cases brought before the boards for examination.

9. The particular attention of General Officers Commanding Districts, and of officers commanding batteries and corps is called to the instructions contained in paragraphs 17 and 19 of the Regulations for the discharge of British soldiers serving in India, and to Quarter Master General's Circulars No. 2755-A of 2nd August 1888, and No. 969 of 2nd March 1889.

In such cases it should be noted in the column of "Remarks" that the individual is entitled to the silver India clasp, and the number of silver clasps required should be shown separately in the numerical return.

VI. In the case of volunteers of the Indian Volunteer Force the following additional certificate should be inserted at the foot of the nominal rolls which should be sent for the signature of the Officer Commanding the corps to which the claimant belonged when proceeding on field service:—

"I certify that the individuals named in this roll were efficient volunteers when proceeding on field service."

VII. In the case of followers, the following certificate should be substituted for that given at the foot of the form of medal roll:—

"I certify that the individuals named in this roll are entitled to receive the decoration, and that they were all authorised followers paid by the State at the time the decoration was earned."

VIII. The claims of civilians, except members of the Indian Volunteer Forces, are to be submitted direct to the Government of India, Military Department.

No. 445.—It is notified for information and guidance that classes for the **Instruction of Armourer-Sergeants** of British Corps in the mechanism, &c., of the Lee-Metford rifle and Webley pistol, will be held in the Madras and Bellary Arsenals on the 15th September 1892, and in the Rangoon Arsenal on the 25th idem.

2. Officers Commanding British Corps will arrange for the arrival of their Armourer-Sergeants at the arsenals, on which they are dependent for supplies, on the dates specified above.

No. 447.—Staff Corps—Probationers.—Numerous applications having of late been received from Officers serving in Burma as Probationers for the Indian Staff Corps, for extensions of the allotted time prescribed by Regulations in which to pass the required examinations qualifying for final admission to the Staff Corps, it is notified that in future such will only be entertained when it is conclusively shown that circumstances rendered it absolutely impossible for the applicant to qualify within the prescribed limit of time.

2. Probationers are allowed 3 years in which to pass the necessary tests, which period appears ample for the purpose if they take full advantage of it. In many cases, however, they allow themselves to procrastinate, and when, towards the close of their probation, circumstances arise which interfere with the possibility of study, they plead these as a reason for the grant of an extension of time, forgetting or overlooking the fact that, had they made good use of their opportunities at first, no such extension would have been necessary.

3. General officers will be good enough to afford probationers every facility to pass in the Vernacular by recommending them, whenever possible, for "language" leave.

No. 448.—**Lieutenant G. E. Reid,** attached 2nd Madras Lancers, is directed to proceed to Secunderabad, for the purpose of being examined in the professional tests for final admission to the Staff Corps. (Para. 107, Vol. II, A. R., I.)

Head Quarters, Simla, 16th August 1892.

653. It has been brought to the notice of the Commander-in-Chief that officers and non-commissioned officers have been sent to the Schools of Musketry with a very imperfect knowledge of the Rifle and Carbine Firing Exercise, and that in consequence of this ignorance in the rudiments of musketry much valuable time is lost at the Schools, and the students do not obtain the full benefits for which these institutions were established.

The attention of Officers Commanding Corps is again drawn to the necessity for all officers and non-commissioned officers being thoroughly conversant with, and capable of instructing in, the Firing Exercise.

Without this knowledge of drill officers are not competent to superintend the instruction of squadrons or companies, and the musketry efficiency of corps must be seriously impaired.

No officer or non-commissioned officer is on any account to be sent to a School of Musketry, without a certificate from his Commanding Officer that he has satisfied himself that the candidate is an efficient instructor.

Chief Instructors at Musketry Schools will submit a report to the General Officer Commanding, regarding any officers or non-commissioned officers who join the Schools insufficiently instructed in the Firing Exercises, with a view to their being remanded to their corps, as their retention would unduly take up the Instructors' time to the detriment of the others attending the school.

I. The troops and details should be despatched as follows :—

(*a*) Invalids and time-expired details, ignominies, military convicts, and other details, so as to reach Deolali ten days prior to the date fixed for their embarkation at Bombay.

(*b*) Insanes as per paras. 17 *et seq*, of the Regulations for the discharge of British soldiers serving in India. *Vide* also para. 9 of G. O. C. No. 421 of 19th August 1892.

(*c*) Warrant officers, departmental non-commissioned officers and their families, who have been allotted passages, should proceed to Bombay in time to embark on the date specified.

(*d*) In the case of men proceeding to join the Depôt at Home, or of any men for whose transfer to the Home Establishment, the special sanction of Horse Guards, or any other authority, may be requisite, it must be distinctly understood that Regimental or Battery authorities are responsible that such men are not despatched from their Corps for embarkation, until the requisite authority for their transfer to the Home Establishment has been received.

II. Despatching officers will arrange accordingly, and report arrangements proposed to be made for the movement of the troops and details to the Quarter Master General, Ootacamund, some time previously.

III. The details from Burma should be sent to Madras for despatch thence under arrangements to be made by the General Officer Commanding Madras District, so as to arrive at Deolali, &c., as above directed. When opportunity offers, however, and a saving to Government may be effected thereby, the details from Burma may be despatched from Rangoon to Calcutta by Indian Marine vessel and thence by rail to Deolali in communication with the General Officer Commanding

Presidency District, Fort William, particular care being taken in regard to the date of arrival at Deolali.

IV. Timely notice of all movements must be given by the General Officer Commanding the district from which the troops proceed, to the General Officer Commanding the district through which they will pass *en route*, in view to the necessary arrangements being made for their reception and onward progress, as well as to the General Officer Commanding Bombay District, &c., at destination.

V. It having been frequently represented that much inconvenience is caused by troops taking with them to Bombay a large amount of baggage in excess of that allowed by regulations, and of unauthorized dimensions, Commanding Officers will be held responsible that the regulations on the subject are complied with. The General Officer Commanding Bombay District has been requested to report to the Quarter Master General, Ootacamund, any officer responsible for non-compliance with this order.

Section X, Part I, Vol. X, A. R., I.

VI. In view to obviating the inconvenience experienced by widows, women unaccompanied by their husbands, and orphan children, on arrival at Portsmouth, owing to their baggage being placed in the wrong railway trucks, "red star" paper labels for their boxes will be provided at Deolali and Bombay. On disembarkation, all boxes, &c., labelled with the "red star" will be collected in one place, and subsequently distributed to the owners.

VII. As a considerable amount of correspondence frequently arises after disembarkation relative to men's kit bags reported missing after the men have arrived at their destination, owing to a certain proportion of the troops being on duty on board up to the hour of parading for departure, and consequently unable to see that their kit bags are placed in the proper vans or wagons, printed labels for the kit bags of invalids, time-expired men and other details, and the boxes of their families, will be provided at Deolali, lettered "Chatham," "Woolwich," "Netley," "Gosport," according to the destination of the men. The labels will bear the names of the above places in large distinct letters, and will be carefully and securely fixed.

VIII. Returns and nominal rolls of time-expired men, invalids, &c., *actually* to proceed from each District to Deolali, &c., should be sent to the Quarter Master General, Ootacamund,

as soon as possible, copies of the same being furnished to the General Officer Commanding Bombay District. Also, immediately after troops and details have been despatched to Deolali, &c., a return, in Form B-142, should be furnished by the General Officer Commanding the district concerned, to the General Officer Commanding Bombay District, giving the numbers, &c., so despatched.

IX. Passages for departmental Warrant and Non-Commissioned Officers will be arranged for by the heads of their departments in direct communication with the General Officer Commanding Bombay District, a similar course being followed as regards passages for Non-Commissioned Officers on the Unattached List, which will be arranged for by the General Officer Commanding the District in which they are serving.

X. Second class accommodation and messing are now provided on Her Majesty's Indian troopships for 16 men, 6 women and 6 children, or an equivalent of 25 adults, and under no circumstances can warrant officers, or their families, in excess of the above numbers be embarked.

XI. Officers to proceed in charge of the details will be detailed under the orders of the General Officers concerned from officers detailed for duty with their regimental depôts, &c.

XII. Instances having occurred of Insanes arriving at Bombay with documents incomplete, thereby necessitating their detention at that port, the attention of Officers Commanding British Corps and Batteries is invited to para. 1026, Vol. II, A. R., I., the provisions of which should be strictly complied with.

XIII. Attention is invited to para. 508, Section VI, Vol. II, A. R., I., requiring all prisoners to be sent Home in sufficient time to enable them to reach England before their sentences of imprisonment expire, and, when possible, it should be arranged that prisoners are embarked so as to arrive in England at least a fortnight before their imprisonment expires. The dates on which the sentences of prisoners expire must be carefully considered in the Staff Offices of Districts, priority of passage being given to those prisoners whose sentences expire earliest.

XIV. Attention is also invited to G.O.C. No. 56 of 1887, and para. XV of G.O.C. No. 367 of 1888, requiring General Officers

Commanding Districts, when forwarding to the Quarter Master General, Ootacamund, applications for passages Home for the wives and children of warrant and non-commissioned officers and soldiers serving with their Corps, or on the Unattached List, to transmit therewith copies (in duplicate) of the proceedings of Medical Boards, recommending their being sent Home either with or without their husbands, as the case may be.

XV. All officers entitled to passage for themselves and their families under the Regulations, should apply to the General Officer Commanding the District in which they are serving, who will arrange with the General Officer Commanding at the port of embarkation *direct* for allotment of the accommodation authorized by the Regulations.

No. 516.—The following extracts from **General Orders by His Excellency the Commander-in-Chief in India** are republished:—

Head Quarters, Simla, 17*th September* 1892.

758. The accounts of the **Queen's Military Widows' Fund** for 1891 are published for general information.

The general statement of accounts shows that the income of the fund last year was Rs. 46,195-0-2, while the expenses amounted to Rs. 51,448-5-7. The expenditure exceeded the income by Rs. 5,253-5-5, and this notwithstanding that the

subscriptions for 1891 amounted to nearly Rs. 2,200 more than was received in 1890. This is the third year since the subscriptions were reduced (in 1888), that the expenditure has exceeded the income. To prevent the Fund suffering further loss, the Committee of Management, at their annual meeting in August 1891, proposed that the rates of subscription should be raised. A circular was accordingly issued, and with the consent of the general body of subscribers the rates of subscription were raised to what they were prior to the last reduction in 1888, namely: —

An officer in receipt of pay and allowances
of Rs. 750 a month or more ... Rs. 4 per mensem.
„ of Rs. 400 or more, but less than Rs. 750 ... Rs. 3 „ „
„ of less than Rs. 400 ... „ 2 „ „

These rates came into force on 1st January 1892.

It is calculated that this measure will bring the Fund an additional Rs. 6,000 a year.

The number of subscribers which at the end of 1889 stood at 712 has now risen to 850.

The Committee of Management wish to draw attention to number XVIII of the Fund Rules which allows an officer to continue his subscriptions during temporary absence out of India, whether on leave or on duty. In the event of his death while so absent, his family would derive the same benefits as if he died in India.

The Committee also wish to draw attention to Rule XXI (*a*), latter para., which enables the widow of a deceased officer (who dies in India) to draw maintenance allowance for six months according to the scale fixed, although the widow may have been out of India at the time of her husband's decease.

The Committee of Management wish to impress upon Officers Commanding Corps the advisability of urging upon officers under their command, married or single, the advantages that accrue to all officers by the establishment of this Fund. When an officer who is a subscriber dies, the award from the Fund permits of the family at once returning in comfort to England, without the delay that must occur when lawyers have to be consulted and legal matters arranged. The Fund does away with the necessity of officers having to subscribe largely for the assistance of destitute widows and children. The Committee hope, therefore, that the unmarried officers of a corps will also see that it is to their advantage to contribute to a Fund which has such a good object in view. The subscription for bachelors is so low (Re. 1 per quarter) that regarded as a charitable contribution on their part, the Fund will commend itself to their favor.
