MADRAS COMMAND ORDERS

BY

HIS EXCELLENCY
LIEUT.-GENERAL C. MANSFIELD CLARKE, C.B.,

COMMANDING THE FORCES.

Head Quarters, Ootacamund,
Friday, 26th April 1895.

No. 51.—The following **General Orders by His Excellency the Commander-in-Chief in India** are republished :—

1st March 1895.

No. 14.

Books—Regulations.—The following corrections are made in Army Regulations, India, Vol. II, "Discipline" :—

The following to be added as paragraph 381-A :—

381-A. The discipline of the Native Army depends in great measure on the Summary Court Martial. When a soldier or other native amenable to the Indian Articles of War has committed an offence which is ordinarily triable by Summary Court Martial, Commanding Officers, when determining by what class of Court the prisoner is to be tried, are to bear in mind that the legislature, in conferring upon Commanding Officers the powers of a Summary Court Martial, intends that Commanding Officers shall exercise these powers.

The cases ought therefore to be few, which should be remanded for trial by Regimental Court Martial; and trial by this class of Court is to be restricted as far as possible.

Para. 1325.

In lines 3 and 4 *dele* the words "with the Watkin field range-finder or field telemeter" and *substitute* the words "with the field telemeter or mekometer."

Para. 1329 (*b*).

In line 14 after the words "on special grounds" *add* the words "of a public character."

Para. 1330 (*l*) is reconstructed as follows:—

"The men of this class will be considered as doing duty at the college, and being on probation will remain on the strength of their respective regiments (without prejudice to their promotion and other advantages) until appointed to the Public Works Department, but after three months' absence from their corps they will become supernumerary in accordance with the rule contained in Article 1058, Army Regulations, India, Volume I, Part I.

Commanding Officers are authorised to promote (with the man next junior to them on the seniority roll) as supernumeraries, non-commissioned officers studying at the college, on the understanding that they would not have been superseded, had they been serving with their corps, and that Commanding Officers will be prepared to take them back in their seniority in the higher rank if not permanently admitted to the Public Works Department.

Staff Sergeants, however, will not be permitted to study at Roorkee unless they consent to resign their staff appointments. Non-commissioned officers on

the Unattached List will be required to resign their positions on that list, and revert to the regimental pay and allowance of the rank which they held previous to their transfer."

Para. 1755 to be expunged.

Books—Regulations.—The following corrections are made in Army Regulations, India, Volume VIII :—

Para. 117 is reconstructed as under :—

117. All officers required by regulation to maintain chargers are entitled to have horses they propose to purchase as chargers professionally examined as to soundness by a veterinary officer who will furnish a written certificate. This veterinary examination will, for horses selected from remount depôts, be carried out by the depôt veterinary officer, if there is one, as provided in Army Regulations, India, Volume II, and in all other cases horses will be sent to the station veterinary hospital for examination during the hours the veterinary officer ordinarily attends.

Para. 118 is reconstructed as under :—

118. All officers entitled to veterinary examination of chargers under paragraph 117 are also, when there is a veterinary officer doing duty at the station, entitled to receive free veterinary attendance and medicines if available for their sick chargers, either in the station veterinary hospital or in their own stables as the veterinary officer may consider most convenient. When veterinary attendance or medicines are not available officers must make their own arrangements for them with reference to

Army Regulations, India, Volume I, Part I, Article 440. In the case of a charger receiving a serious injury or urgently requiring veterinary attendance outside the limits of a camp or station, a veterinary officer, if one is present and can be spared from his other duties will, under the orders of the officer commanding the station, be sent to attend the case, on the understanding that his travelling expenses are paid by the owner of the horse.

Para. 119 is cancelled and the following substituted :—

119. The above rules will not, under any circumstances, apply to any animals other than *bonâ fide* chargers. For all other horses, officers concerned must make their own arrangements. No animals except the *bonâ fide* chargers of officers will be admitted to station veterinary hospitals, provided with Government medicines, etc., or attended during the hours the veterinary officer is on duty.

Paras. 120, 121, 122, 123, and 125 are cancelled.

Para. 126 is reconstructed as under :—

126. The shoeing of officers' chargers will be supervised by a veterinary officer when desired.

Veterinary Department.—Cases have recently come under the notice of the Government of India in which, owing to the division of authority, between civil and military officers, the measures that have been taken upon the occurrence of an outbreak of contagious disease among animals, have not been as prompt and effective as they might and should have been. In outbreaks of disease it is especially important that all concerned should co-operate in the fullest manner, as the powers of the executive in the matter are at the best extremely limited, while the evil spreads so rapidly that whatever can be done to check it, should be done at once.

2. The Governor General in Council accordingly desires that the following procedure may in future be observed whenever contagious disease makes its appearance among animals :—

(1) When any contagious or infectious disease appears among animals at a horse or cattle fair, or in the neighbourhood of a cantonment, or of a line of military communication, the district or subdivisional officer shall immediately report the fact and the nature of the disease to the nearest military authority who will be responsible for communicating the information to any other military authorities whom it may concern.

(2) When such disease appears in a camp or cantonment, or among animals under military authority on a line of communication, the facts shall be immediately reported by the military authorities to the district or subdivisional officer within whose charge the disease has appeared.

(3) The principal local authority, whether civil or military, within whose jurisdiction the disease has appeared, should keep the local military or civil authority (as the case may be) informed of the preventive or repressive measures that he has adopted, so that the action taken by the one may be, as far as possible continued by the other. Any suggestions that either authority may have to make for action on the part of the other, with a view to checking the spread of the disease, should be made to him direct. The latter on receiving them should give them his best attention, and should inform the authority who made them, how far he feels himself able to accept and act upon them.

(4) The direct communication between the local authorities enjoined in the above rules in no way supersedes the necessity of reporting the fact of an out-break for the information and orders of superior authority, under any rules or practice that may be from time to time in force.

Captain L. J. Andrews ... do. do.

No. 137.—The Government of India has approved of regiments of Native Cavalry, Infantry, "Queen's Own" Sappers and Miners and Mountain Batteries of Artillery *proceeding on service* being permitted to draw either puckhals in kind, or their value in money, or a portion of the issue in puckhals and a portion in money. In cases in which money is drawn, regiments, &c., will be allowed to adopt the method of carrying water best suited to the class or classes of men of which they are composed, provided that the system adopted shall be suited to mule carriage and shall not require more transport than the present regulation puckhals.

2. When puckhals are drawn in kind, they will, though the property of the State, always remain in regimental charge and the Commissariat-Transport Department will be debited with the cost of their up-keep in the same way as if they had been returned into Commissariat Store on conclusion of service in the field. Whilst in regimental store they should not be used for ordinary regimental purposes, but reserved for use on field service. If, however, under special circumstances, it should be found necessary to take them into use, the regiment must be held responsible that serviceable puckhals are available to replace them for active service.

3. Regiments, however, that have made, or desire to make up, special water vessels, should be allowed to draw the value of puckhals in lieu on each occasion that they may be due. The metal vessels thus provided regimentally will remain the property of, and will be maintained by, the regiment. No restriction will be placed upon their use on the line of march, camps-of-exercise or other occasions, on the understanding that they are maintained in efficient condition when required for service.

4. As from a medical point of view copper vessels are considered open to objection if not kept scrupulously clean, the advisability of the adoption of block tin water kegs strengthened with iron bands is suggested.

No. 138.—With a view to furthering the scheme for the **employment of native military pensioners,** it is notified that the Commissioner of Police for the town of Madras, and the Superintendents of Police at Bellary, Kurnool, and Chingleput are prepared to receive, in the Police Force, a limited number of privates of good character, physique, and education.

2. Men should be not under 5′ 7″ in height, and not over 35 years of age.

Pay will be given according to class at the rate of either seven or eight rupees per mensem.

3. Commanding Officers desirous of recommending any men, about to be pensioned, for employment in this Force, should communicate with the above mentioned officers.

No. 139.—The undermentioned officer has passed the examination in subject (*e*), Appendix VII, Queen's Regulations:—

Lieutenant G. S. Worsley ... ...Royal Artillery.

No. 140.—Clothing—Dress.—The dress of Wing Officers of Native Infantry Regiments for dismounted duties such as Courts-Martial, Garrison Boards, &c., should correspond to the "Order" laid down for ceremonial parades, which are also dismounted duties, when spurs are not worn.

[G.O.C. No. 136 of 1895.]

No. 141.—Transport—Sea.—It is notified that the Government of India have directed that passages granted in Her Majesty's troopships, hired transports, and vessels of the Royal Indian Marine, should in future be uniformly designated "entitled" and "not-entitled" passages, and that the use of other terms should be discontinued.

2. The terms "entitled" and "not-entitled" will be substituted for "regulation" and "non regulation" wherever they occur in Army Regulations, India, Volume X.
