The decrease is ascribed mainly to the introduction of Prohibition in eight districts and to the closure of arrack shops in select firkas with effect from 1st October 1946, which has been offset to some extent by the fact that the consumption of arrack in the non-prohibition areas was on the upward trend. The total revenue derived from country spirits increased from Rs. 545·93 lakhs to Rs. 605·77 lakhs. There was an increase of Rs. 45·95 lakhs under licence fees and Rs. 13·89 lakhs under duty.

There was a decrease in the consumption of wines, spirits and beer and an increase in the consumption of denatured spirit and methyl alcohol. The quantity of foreign liquor imported by sea was 248,912 gallons which showed a substantial increase over the quantity imported in 1945–46, viz., 112,136 gallons. 6. *Hemp drugs.*—The rates of duty on ganja and bhang continued to be the same as in the last year, viz., Rs. 55 and Rs. 25 per seer respectively. Four hundred and fifty-four shops were sold for the year for Rs. 36·31 lakhs as against 457 shops for Rs. 35·16 lakhs in the previous year. 8. *Offences.*—The total number of cases under the Abkari Act during 1946–47 was 21,037 as against 21,432 in 1945–46 (this figure excludes the figure for the eight districts in which prohibition was introduced on 1st October 1946). This is exclusive of the cases detected by the staff attached to the Excise Intelligence Bureau. This staff detected 50 cases as against 53 cases in the previous year. Nine thousand one hundred and ninety-four cases were detected in the year under illicit manufacture of toddy as against 8,911 cases detected in the previous year. 2. *Establishment.*—Prohibition was introduced in eight districts of the Province from 1st October 1946 and the posts of three Assistant Commissioners, 19 Inspectors, 21 Assistant Inspectors, 204 Sub-Inspectors, 6 upper division clerks, 76 lower division clerks, 145 petty officers and 964 peons, were abolished with effect from that date. The enforcement of Prohibition was entrusted to the Excise Department in the districts of Kurnool, Bellary, Anantapur and Cuddapah, and to the Police Department in the districts of Chittoor, North Arcot, Salem and Coimbatore. Details of the staff employed in the Excise Prohibition districts are given in the chapter on " Prohibition ". The number of Excise subdivisions was reduced from eight to five from 1st October 1946. Each subdivision continued to have a special detective party of one Assistant Inspector, three petty officers and one peon and the head clerks' posts of two of the heavy circle offices in each subdivision continued in the cadre of Sub-Inspectors. The staff of one Inspector, three clerks and four peons sanctioned for the Northern Distillery circle for the effective supervision of the Distillery and allied institutions, continued to be employed during the year. To cope with the increased work in the circle offices, an additional lower division clerk was employed in each of the Excise circle offices, Madura, Dindigul Tuticorin, Tinnevelly, Chicacole, Bezwada, Kandukur, Madras, Bapatla and Poonamallee. The post of a steno-typist was also sanctioned for the Deputy Commissioner, Northern Division. To attend to the increased work consequent on the introduction of Prohibition, the ministerial staff of the Excise Branch of the Board of Revenue was strengthened by the employment of one junior superintendent, two upper division clerks and two lower division

clerks. The general increase in work in the office necessitated a further increase in the establishment by three typists, one lower division clerk and two peons.

The rates of cost price of jaggery ar ack of 35° u.p. were enhanced from Rs. 1-10-6 to Rs. 2-0-3 in the case of one distiller, from Rs. 2-7-0 to Rs. 2-8-0 in respect of another, from Rs. 2-7-9 to Rs. 2-8-9 in the case of a third distiller and from Rs. 2-6-0 to Rs. 2-7-0 in respect of all other jaggery arrack distillers. The cost price of molasses arrack continued to be Re. 0-15-0 per gallon of 35° u.p. The issue prices of jaggery arrack were also enhanced by one anna in conformity with the increase in the cost price allowed to the distillers. The difference between the notified issue price and the cost price granted to the molasses arrack distillers was credited to the Government by the distillers. Though there was a change from jaggery to molasses, in the kind of liquor, supplied in the Nilgiris district from 16th December 1946, on account of the change in contractors, the same notified issue price for jaggery arrack continued to be collected from the licensed vendors and the difference between the issue price and contract price was credited to Government by the distillers.

There was no change in the rates of duty levied on arrack for the year 1946-47. The rates of duty per proof gallon were Rs. 10 in one district, Rs. 8-12-0 in four districts, Rs. 13-12-0 in seven districts and Rs. 11-4-0 in the remaining districts except in special tracts.

9. *Issue strength and limit of private possession.*—The issue strength of arrack continued to be 35° u.p. throughout the Province except in the Agency tracts where it was 60° u.p. The issue strength of ippa arrack or its substitute coloured ordinary arrack in Chicacole circle of Vizagapatam district was 60° u.p. The limits of private possession of arrack without a licence continued to be two drams in the Shiyali and Tiruthuraipundi taluks of the Tanjore district, Tiruvadanai and Paramakudi taluks of Ramnad district, the Nilgiris district and in all municipalities and within a distance of five miles thereof and four drams in other areas except in certain special localities where the limit of private possession was one dram. In connection with the introduction of Prohibition in eight districts, the Government, under section 13-A of the Madras Abkari Act, 1886, prohibited with effect from 1st October 1946 in the areas of this Province, outside the Prohibition districts, within ten miles from the boundaries of the Prohibition districts, the possession by any person of any quantity of country spirits, outside the licensed premises of arrack shops, except under a licence or permit issued under the said Act.

10. *Depots and shops.*—The number of wholesale depots which worked during the year under report in the areas under the contract distillery system was 351 (351). Six other depots worked under the Central Distillery System. The number of shops licensed for the retail vend of country spirits in the areas under the contract distillery system was 5,858 (5,844) and 50 (50) under the outstil and the Central Distillery System. Besides all the arrack depots and shops in the eight prohibition districts, the arrack shops situated in the firkas selected for intensive Rural Development, were also closed with effect from 1st October 1946. There was on an average one shop for every 30,083 (30,331) persons in municipal areas and for 7,426 (7,414) persons in areas outside the municipal limits.

11. *Consumption.*—During the year, the consumption of country spirits amounted to 22,96,064 proof gallons against 24,45,543 proof gallons in 1945-46, representing a decrease of about 6·11 per cent. The decrease is due to the

introduction of prohibition in eight districts and to the closure of arrack shops in select firkas with effect from 1st October 1946. Generally the consumption of arrack in non-Prohibition areas, was on the upward trend on account of the financial position of the consumers. The average incidence of consumption per 100 of population throughout the province was 4·6 (5) proof gallons.

12. *Revenue.*—The total revenue derived from country spirits increased from Rs. 545·93 lakhs to Rs. 605·77 lakhs. There was an increase of Rs. 45·96 lakhs under licence fees and 13·89 lakhs under duty.

13. *Agency tracts.*—There was no change in the system of supply of liquor to the Agency tracts. In the Vizagapatam Agency the Central Distillery system was in force in the Gummalakshmipuram range of Parvatipur taluk. Eight shops were working under this system and they were supplied with ippa arrack or coloured arrack of 60° u.p. by the Thummapala distillers. The duty on ippa arrack or its substitute was 4½ annas per gallon of 60° u.p. The consumption during the year was 4,015 (4,222) gallons of 60° u.p. All the eight shops under the system were sold for a rental of Rs. 10,776 (Rs. 10,176). Under the outstil system which was in force in the Agency portions of Gudem and Srungavarapukota taluks of Vizagapatam district, six combined shops and still licences were sold for Rs. 25,728 (Rs. 40,392). In the Bhadrachalam and Nugur taluks of East Godavari Agency, the Central Distillery system continued to be in force. Owing to the difficulty in obtaining sufficient quantity of ippa flowers the distillers were permitted to supply either ippa arrack or coloured jaggery arrack of 60° u.p. or a mixture of ippa and coloured jaggery arrack, provided such mixture contained not less than 50 per cent of ippa arrack. The duty on the arrack was 4½ annas per gallon of 60° u.p. Thirty-six shops were sold and the rentals realized for the year under report amounted to Rs. 4,07,502 (Rs. 35,613). The consumption in the year was 1,17,760 (1,22,121) gallons of 60° u.p.

14. No maximum selling price was enforced for ippa arrack. The shops were sold without a maximum selling price for the year under report.

CHAPTER III.—TODDY.

15. *Rates of tree-tax.*—There was no change in the rates of tree-tax for the year 1946-47. The rates of tree-tax in force in the different areas of the Province during the toddy year 1946-47 are noted below :—

District.	Cocoanut palm for each half year.	Sago palm for each half year.	Palmyrah or date palm for the whole year.	Dadasal for the whole year.

The abkari and opium administration of the British enclave villages of Anjengo and Tangasseri has been leased out to the Travancore Government from 1st April 1946.

16. *Limit of private possession.*—The limit of private possession of toddy without a licence continued to be one dram in certain special localities and half a gallon elsewhere.

17. *Revenue.*—The total revenue derived from toddy during the official year 1946-47 in the Province amounted to Rs. 6,61,87,934 (Rs. 7,88,80,148) made up of Rs. 4,24,57,214 (Rs. 5,08,59,426) under rentals and Rs. 2,37,30,720 (Rs. 2,80,20,722) under tree-tax.

18. *Shops and consumption.*—The total number of toddy shops sold in the Province for the toddy year 1946-47 was 6,686 (10,382). All the toddy shops in the Bellary, Cuddapah, Kurnool, Anantapur, Chittoor, North Arcot, Coimbatore and Salem districts and in seventeen select firkas were closed with effect from 1st October 1946 consequent on the reintroduction of Prohibition in the first eight districts referred to and on account of the intensive rural development scheme in the select firkas. The Abkari Act is in force in the select firkas.

The special tree-tax scheme devised in 1937 to minimise the crime of admixture of sweet juice with fermented toddy in the Tinnevelly district and parts of Ramnad district with certain changes made during the year 1945-46 continued to be in force during 1946-47 and has been working satisfactorily.

The following comparative statement shows the number of trees marked for tapping for toddy in the Province during the last three years :—

Toddy year.	Coconuts.	Palmyrahs.	Dates.	Sagos.	Total.
1944-45	1,952,043	784,532	1,354,456	5,327	4,096,358
1945-46	1,956,257	791,662	1,408,261	5,327	4,161,507

1945-46 (up to July 1946).	1,891,926	779,372	1,390,566	5,297	4,067,161

Expressed in terms of coconut trees by the application of the formula that 2 coconuts = 3 palmyrahs = 3 dates = 1 sago, the total number of trees marked for the toddy year 1945-46 is represented by the figure 3,433,526 (3,388,689) and that for the first ten months of the toddy year 1946-47 by 2,174,485 (3,349,146).

19. *Tapping for domestic consumption.*—The number of trees tapped for fermented toddy for domestic consumption was 39,689 (45,247) of which 32,428 (32,991) trees were tapped by the Koyas in the East and West Godavari Agency. The existing concession allowed to Koyas to tap the allotted number of trees for drawing toddy under a free licence continued in the year.

20. *Trees tapped in British territory for shops in Indian States and vice versa.*—The number of trees tapped in British territory for toddy shops in the Indian States and vice versa during the first ten months of the toddy year 1946-47 with the corresponding figures for the previous years are noted below :—

	Number of trees marked	
	In the State territory for British shops.	In the British territory for the State shops.
1 Mysore	.. (15,830)	.. (14,554)
2 Pudukottai	64 (263)	1,902 (1,473)
3 Cochin	122 (100)	175 (Nil).

The arrangements for the tapping of trees in Mysore State for shops in British territory and vice-versa were terminated so far as Salem, Chittoor, Cuddapah and North Arcot districts were concerned consequent on the reintroduction of Prohibition in these districts.

21. *Tapping for sweet juice for the manufacture of jaggery.*—The tapping of sweet toddy for manufacture of jaggery was under excise control in the East and West Godavari districts (ordinary and the tree-tax areas of the Agency), in the Repalle and Bapatla taluks of the Guntur district and in the Kavali, Nellore, Atmakur and Kovur taluks of the Nellore district. In these areas the sweet toddy rules issued under the Madras Abkari Act are in force and the tapping for sweet toddy is permitted only under a licence issued under those rules. In the rest of the Province except in the eight Prohibition districts tapping for sweet toddy is not under control. The approximate number of trees tapped for sweet toddy in the Province during the first ten months of the toddy year 1946–47 was 59,257 (85,243) coconuts, 932,376 (976,911) palmyrahs, 16,744 (14,039) dates, 11,162 (10,054) sagos of which 371,526 (335,832) palmyrahs and 13,140 (3,830) dates were tapped in the controlled areas of the Province.

In the other parts of the Agency the tapping of toddy trees was not controlled.

The total collection for the year including the arrears of previous years amounted to Rs. 14,37,40,496 (Rs. 15,72,57,725). A sum of Rs. 87,600 was written-off as irrecoverable.

46. *Percentage of charges.*—The total expenditure during the year amounted to Rs. 52,99,629 (Rs. 51,58,362), the details of which will be found in Imperial Return No. II. The net percentage of charges to receipts was 3·7 (3·2).

47. *Incidence of taxation.*—The incidence of total excise revenue per head of population was Rs. 2-14-3 (Rs. 3-2-11). No allowance has been made for the increase of population since last census of 1941.

CHAPTER VIII.—OFFENCES.

48. The total number of cases reported under the Abkari Act during the year was 21,037 (21,432). This excludes the figures of the eight districts where Prohibition is in force from 1st October 1946, i.e , Salem, Chittoor, Cuddapah, North Arcot, Bellary, Anantapur, Coimbatore and Kurnool. The cases detected by the Excise and Prohibition Intelligence Bureau staff are dealt with separately.

49. *Country spirit offences.*—Three thousand four hundred and seventy-five (3,990) cases of illicit distillation and kindred offences were detected during the year. As usual, illicit distillation crime was common in Vizagapatam, East Godavari, West Godavari, Guntur, Malabar and South Kanara districts. There was a marked increase in the number of cases detected in East Godavari 564 (454), and a heavy fall in Vizagapatam 574 (891), West Godavari 559 (711), and South Arcot 228 (279) districts. The fall is mainly due to clubbing of ranges for want of Sub-Inspectors, and non-availability of rice and ippa flower, the chief ingredients for distilling arrack. The special staff employed in Chicacole and Cocanada circles for the suppression of illicit distillation crime continued to function throughout the year.

50. *Toddy offences.*—Nine thousand one hundred and ninety-four cases (8,911) of illicit manufacture of toddy were detected during the year. The increase is marked in the districts of Madras 410 (256) and Malabar 1,334 (1,242). Admixture of sweet toddy with fermented toddy was prevalent in Ramnad, Tinnevelly, Malabar and South Kanara districts.

51. *Hemp drug offences.*—The number of hemp drug cases reported during the year was 319 (366).

52. *Offences under the Opium and Dangerous Drugs Act.*—Cases convicted under the Opium Act are embodied in the Statements I and J. Thirteen (7) cases were prosecuted under the Dangerous Drugs Act in the year. The total quantity of drugs confiscated under the Dangerous Drugs Act amounted to 48 tolas of prepared opium, etc., and 2 tolas of ganja. The total punishment imposed in three cases amounted to six months, rigorous imprisonment and Rs. 360 were imposed as fine on five cases and the remaining four cases are pending.

A case of unlicensed possession of 5½ seers of licit opium was detected at Madras on 12th June 1946.

53. *Enquiry into and disposal of cases.*—Enquiry into cases by the departmental officers were generally prompt and efficient. In 292 (391) cases

the accused persons were released. In 15,893 (15,573) cases the offences against the accused were compounded. Four thousand seven hundred and thirty-one (6,657) cases were dealt with by Magistrates, and convictions were obtained in 3,928 (5,532) of them. One hundred and four (176) cases ended in acquittal. One thousand and fourteen cases (745) were pending with Magistrates and 1,281 (1,496) were pending with the Inspectors at the end of the year.

54. *Excise and Prohibition Intelligence Bureau.*—The staff of the Excise and Prohibition Intelligence Bureau during the year 1946-47 consisted of one Inspector, two Assistant Inspectors, twenty-four Petty Officers and five peons with one upper division clerk, one lower division clerk and one typist in the Inspector's office. The Bureau has its headquarters at Madras. Its main preventive function is to deal with the smuggling of ganja and opium by inter-Provincial and international smugglers. The Bureau is intended to be a pool for the receipt and dissemination of information from and to all agencies connected with the suppression of smuggling of drugs. During the year the name of the Bureau was changed to Excise and Prohibition. Intelligence Bureau with continued jurisdiction in the Prohibition areas of the Province.

The Excise and Prohibition Intelligence Bureau staff detected 50 (53) cases during the year 1946-47, i.e., 28, (9) opium cases, 18 (10) ganja cases and 4 (34 abkari) toddy cases The total quantity of opium and ganja seized by the staff amounted to 230 seers 33½ tolas (109 seers 73 tolas) and 138 seers 19½ tolas (40 seers 12 tolas) respectively. Of these cases the most important cases were.—

(1) Seizure of 48½ seers of licit opium on 10th June 1946 by Sri P. Krishna Kurup, Inspector, Excise and Prohibition Intelligence Bureau, Madras, at Central Railway Station, Madras.

(2) Seizure of 30 seers of licit opium on 28th July 1946 at 8-30 p.m. at Madras Central Railway Station by Excise and Prohibition Intelligence Bureau (Northern) party.

(3) Seizure of 14 seers of licit opium on 2nd May 1946 at 8 p.m. by Mr. S. Basha Sahib, Petty Officer, Excise and Prohibition Intelligence Bureau, Madras, at Central Railway Station, Madras.

(4) Seizure of 12 seers of licit opium on 19th August 1946 at 8 p.m. by the Excise and Prohibition Intelligence Bureau (Northern) party at Madras Central Railway Station.

(5) Seizure of 11 seers and 73½ tolas of licit ganja on 27th September 1946 at 9-40 a.m. by Mr. Sheik Ali, Petty Officer, Excise and Prohibition Intelligence Bureau, Madras, at Panyam bus-stand, Nandyal taluk, Kurnool district.

(6) Seizure of 11 seers of licit ganja on 15th September 1946 at 2 p.m. by Sri K. L. Narayana, Assistant Inspector, Excise and Prohibition Intelligence Bureau (North) at Brodiepet Railway level crossing gate, Guntur.

Excise Supplements to the *Madras Criminal Intelligence Gazette* were issued regularly every month.

55. *Rewards* :—A sum of Rs. 40,257 (Rs. 41,.05) was paid as rewards in abkari cases during the year. Out of this amount Rs. 15,704 (Rs. 17,126) were paid to outside informers. A total sum of Rs. 774 (Rs. 418) was also

paid as rewards in cases detected under the Opium and Dangerous Drugs Acts, out of which Rs. 375 (Rs. 151) went to outside informers. The total amount of rewards sanctioned for the cases detected by the Excise and Prohibition Intelligence Bureau was Rs. 10,961 (Rs 5,683) out of which Rs. 1,095, (Rs. 1,173) went to outside informers.

56. *Assaults.*—Seventeen cases of assaults on excise officers and peons were reported during the year. None of them was reported to be of a serious nature.

CHAPTER IX.—LABORATORY (1946–47).

57. The total number of samples analysed and articles examined during the year under review was 1,773 (6,525). The fall is in respect of Indian made foreign liquor samples and dram measures. Owing to the increased import of foreign liquor fewer samples of Indian made foreign spirits were received for test. Also as a result of extension of prohibition only a small number of dram measures were tested.

58. *Country liquor.*—The number of samples of country liquor tested during the year was 242 (290). In the case of samples of liquor received for annual analysis from the distilleries in the province, some samples both from pot and patent still distilleries were found to contain copper in excess of the permissible limit of 0·25 grains per gallon and some samples from pot still distilleries were found to contain a high furfural content. The concerned officers were directed to carry out the instructions given in the Technical Excise Manual for reducing copper and furfural.

Of the 194 (268) samples tested for copper content, none (none) was free from copper. One hundred and thirty (192) or 67 per cent contained less than the permissible limit of 0·25 grain of copper per gallon and 64 (76) or 33 per cent contained more than the permissible limit. Of thirteen (8) samples suspected to be of illicit origin submitted for test by Inspectors, twelve were on analysis found to be only licit arrack and the other samples was found to contain denatured spirit. Nine (7) samples taken from shops and depots were received for declaration of correct strength as they were suspec ted to be diluted. Their correct strengths were communicated to the officers concerned to enable them to take necessary action in the matter. Two samples of rectified spirits were on test found to be inferior in quality and hence were not passed as rectified spirits. Cashew arrack manufactured at the Mangalore distillery during the year was found to be good and of better quality than the sample of the previous year. Two samples were received from Prohibition districts under this head. Of these one was found to contain alcohol and the other to be free from it.

59. *Beer, wort, wash, etc.*—Under this head 260 (228) samples were analysed during the year. Of these 16 (23) relating to consignments of beer imported from outside the Presidency, viz., Mysore and Pondicherry were tested and passed as fit for consumption. Thirty-seven (28) samples were received from the breweries in the Presidency for quarterly analysis and some of them were on analysis found to have original gravities appreciably different from the declared original gravity. The concerned brewers were asked to declare the correct gravities in future. The remaining samples were found to be normal and were passed. The number of samples of beer submitted by the Inspectors in connection with suspected cases of dilution was 198 (165) and in 7 (4) cases dilution in excess of 3 per cent was found on analysis. The

highest percentage of dilution so found was 20 (14·3). A sale sample was found to be highly acid. The duplicate sample was called for and analysed and it was found to be still more acid. The concerned Inspector was informed of the high acidity and requested to take samples in clean bottles for submitting for analysis.

Four samples of spent wash were analysed and one was found to be free from spirit and the other three contained spirit ranging from 0·7 per cent to 2·9 per cent of proof spirit.

60. *Toddy.*—The number of samples of toddy analysed during the year was 289 (293). Of these 149 (98) came from the Trichinopoly subdivision and 116 (158) came from the West Coast subdivision. Two hundred and forty-six (216) out of the total of 289 samples analysed contained more than 10·0 grains of lime per gallon and of these 32 (33) contained 100 grains and more of lime per gallon. The highest lime content in any one sample was 176 (208) grains per gallon. The Phenol test for toddy is being continued. On account of the raising of the limit of 10 to 15 grains of lime per gallon for accidental causes in certain areas of Ramnad and Tinnevelly, six (1) samples of toddy were not declared as admixtured sweet juice as their lime content was between 10 to 15 grains per gallon.

61. *Foreign liquor.*—One hundred and thirty-three (316) samples were analysed. Of these 26 (69) were found to be weaker than the minimum saleable strength. A sample of whisky imported from outside the Presidency was found to be not of the usual light brown colour but to be light green. The colouring matter was tested and found to be a non-prohibited one. A sample of Biscuits brandy suspected to be spurious was found on analysis to be weaker in strength and different in other respects from the genuine sample. A sample of Indian made foreign brandy which was cloudy was ordered to be redistilled.

62. *Opium and its preparations.*—The number of samples of opium and its preparations tested during the year was 93 (80). Of these, 17 were medicinal drugs of which 15 were found to have deteriorated and were ordered to be destroyed. Of the rest, 11 (22) were smoking preparations, 39 inferior opium and 24 good opium, and of the latter, a sample was found to be illicit opium. Two samples were received from the Prohibition districts of which one contained opium and the other was free from it.

63. *Ganja and its preparations.*—Forty-six (9) ganja samples were received. Of these three were from the annual crop and they were found to be of good quality. Out of 19 samples of confiscated ganja received during the year, four were found to be illicit and another sample was found to be very old. They were ordered to be destroyed and the rest which were found to be good and licit were ordered to be sold to licensees. Two samples of surrendered medicinal drugs—one containing cocaine and the other containing ganja—were analysed. It was found that the cocaine preparation was good and fit for use and the second preparation had deteriorated and was therefore destroyed. Forty-six samples of laghiums suspected to contain ganja and plants suspected to be ganja plants were received from the Prohibition districts. Of these 8 were free from ganja and the rest contained ganja.

64. *Miscellaneous.*—Except for certain samples of water received from Bellary, Vyasarpady and Mangalore distilleries and Cuddapah and Madura warehouses, all others received from the several distilleries and warehouses in the Presidency for the two half years ending with May and November 1946 were found to be of good quality and hence were passed. In the case of

the five institutions mentioned above the water from alternative sources were found to be good and they were approved for reduction purposes. Two hundred and ten (4,665) dram and other measures were standardized during the year. Of these 15 (28) were gallon pots received for periodical standardization from the institutions in the Madras City. Thirty (17) were dram measures submitted by the excise officers on suspicion of being short. All the measures except three were found short in capacity. A half dram measure was found bigger by ten minims and two full and two half dram measures were short in capacity by 184, 154, 76 and 96 minims respectively.

Thirty-one (31) samples of denaturants were tested and passed for use. Nineteen (29) samples of essences were tested and the proportions in which they were to be used for compounding Indian made foreign spirits were fixed. During the year 36½ lb. of Edicol Brown O.H.S., colouring matter powder were issued for colouring country liquor. A large number 129 (145) samples of spirituous medicinal and toilet preparations, medicated wines and similar preparations and flavouring essences imported from outside the Presidency were tested for alcoholic value. Twelve (9) samples of biochemic tonic wine manufactured in Father Mullers Laboratory, Kankanady were tested and passed as such. Two samples of tamarind wine manufactured in Vuyyuru distillery were found to be fairly good though the tamarind flavour was predominant in them.

Twenty-two samples were received under this head from the Prohibition districts. A majority of them consisted of samples of ripe wash fit for distilling arrack or denatured spirit on which an attempt at denaturing them had been made. Only four samples were found to be free from alcohol.

Other items of work under this head include samples of lead rivets analysed, brake fluids and pocket stoves analysed for spirit value and empty bottles measured for capacity.

One hundred and sixty-seven (275) liquor testing instruments were standardized.

During the year 36 seers of confiscated opium were made into half seer cakes and issued to the Madras Taluk office.

CHAPTER X—PROHIBITION.

65. *Enforcement.*—On 1st October 1946 Prohibition was reintroduced in the districts of Salem, North Arcot, Chittoor and Cuddapah and introduced for the first time in the districts of Coimbatore, Anantapur, Bellary and Kurnool.

The enforcement of Prohibition was entrusted to the Police in the four districts of Coimbatore, Salem, North Arcot and Chittoor and to officers and men of the Excise Department newly constituted into a Prohibition Department in the four Ceded Districts. There were two main reasons for adopting this course. The first was that sufficient notice of the introduction of Prohibition was not given to the Police to enable that department which was already shorthanded, to recruit and train sufficient number of officers and men to undertake the work in as many as eight districts. The second was that the Excise Department expressed a desire to be given an opportunity to enforce prohibition which was denied to them when Prohibition was introduced before the war. The details of the staff sanctioned for enforcement of prohibition are shown in the Statement I.

66. *Offences*—(*a*) *Illicit distillation and kindred offences.*—The number of cases reported during the half-year ending 31st March 1947 was 277 in Anantapur district, 263 in Bellary district, 646 in Kurnool, 922 in Cuddapah district, 440 in Chitoor district, 1,340 in North Arcot district, 1,178 in Salem district and 57 in Coimbatore district. North Arcot and Salem districts have provided largest number of cases. As illicit distillation is very lucrative and the means of committing it in secrecy are so great, many people seem to take to the trade. This is a most serious offence against the Prohibition Act and experience gained during the period when the Act was primarily in force and during the half-year ending 31st March 1947 shows that strict control over this form of crime was essential if Prohibition were to succeed. Every attempt is being made by the enforcement staff to bring the crime under control.

(*b*) *Illicit tapping.*—No cases under this head were reported in Kurnool and Chittoor districts during the half-year. The number of cases reported was 362 in Coimbatore district, 73 in Salem district, 9 in North Arcot, 4 in Anantapur district, 2 in Cuddapah district and 1 in Bellary district.

(*c*) *Denatured Spirit.*—The number of offences that came to light under this head was 24 in North Arcot district and nil in other districts. This is a dangerous form of crime and the enforcement staff have been instructed to keep a vigiliant watch over sales of denatured spirit in their districts.

(*d*) *Ganja.*—Most of the cases detected relate to unlicensed possession of drug, the number reported being 33 in Anantapur, 38 in Bellary, 64 in Kurnool, 71 in Chittoor, 85 in Cuddapah, 193 in Salem, 210 in North Arcot and 213 in Coimbatore. There were seizures of large quantities of Mysore and Hyderabad ganja during the period.

(*e*) *Opium.*—Offences ralating to this drug were mostly cases of possession for personal consumption and they were not numerous except in Coimbatore district were 62 cases were reported during this period.

67. *Border problems.*—A large number of addicts in Prohibition districts visited the border shops for drink. The border patrol staff was very active and detected cases of smuggling of liquor from adjoining states. There were, however, no indication of large scale smuggling into Prohibition areas.

Vehicular checks were satisfactory, but the cases detected as a result of these checks were few when compared with the number of checks made.

68. *Prohibition committees.*—Taluk and Village Prohibition Committees to assist the staff in the effective enforcement of Prohibition were formed in all districts. But the help rendered by these Committee members towards detection of crime was very poor.

69. *Enforcement—General remarks.*—Notwithstanding the absence of vehicles and shortage of staff which handicapped detection work, the enforcement staff has done good work during the period, as evidenced from the number of cases detected. The number probably represents a very small percentage of crime committed. Without active co-operation from the public, it is not possible to detect all the crimes committed and enforce Prohibition effectively. The Department would welcome assistance from those who desire to put an end to the sale and consumption of illicit liquor, by reporting such cases and by assisting the enforcement staff to detect them and prevent their recurrence. There is no enactment which depends for its success so much on public co-operation as the Prohibition Act.

CHAPTER XI.—AMELIORATIVE WORK.

70. As Prohibition involves the changing of the habits of a large section of the public, Government considered that to make the change over as easy and smooth as possible, it was necessary to undertake and provide ameliorative measures alongside the enforcement of prohibition and sanctioned the following special staff for the purpose for the eight districts :—

8 Special Development Officers at the rate of one for each district.

31 Assistant Development Officers at the rate of one for each Revenue division.

31 Ballad singers at the rate of one for each Revenue division.

77 Rural Recreation Officers at the rate of one for each taluk.

77 Village guides at the rate of one for each taluk and

47 peons to work under the Special Development Officers and Assistant Development Officers in the eight districts. Besides the staff for the districts Government sanctioned one post of Deputy Commissioner of Prohibition

21E 1948 I & Quarter.

(Amelioration) and Joint Registrar of Co-operative Societies to assist the Commissioner in his work, Sri Rao Bahadur J. C. Ryan, then Joint Registrar of Co-operative Societies, was appointed to the post and he joined duty on 20th September 1946 and held charge till the end of the year. Government also sanctioned the following headquarters staff to work under the Deputy Commissioner of Prohibition (Amelioration).

1 Manager of the rank of a Co-operative Sub-Registrar,
2 Upper division clerks,
1 Typist and
1 Personal clerk for the Deputy Commissioner.

As work in the ameliorative branch of the Board's office increased, Government sanctioned the following additional staff in February 1947 :—

2 Senior Inspectors of Co-operative Societies,
2 Upper division clerks and
2 Lower division clerks.

There were, in each of the eight Prohibition districts, one Special Development Officer, drawn from the ranks of Deputy Registrars of Co-operative Societies, functioning as Personal Assistant to the Collector, and Assistant Development Officers at the rate of one for every Revenue division recruited from Co-operative Sub-Registrars and Deputy Tahsildars functioning as personal assistants to the Revenue Divisional Officers, besides Rural Recreation Officers and Village Guides at taluk headquarters and ballad singers at the headquarters of Revenue divisions.

71. *Objects of ameliorative work.*—The objects of ameliorative work briefly stated are, *first*, to provide counter attraction to drink and drugs which will make it easier for the addict to give up his former habits. It was realized that the average villages and many towns are dull places in the evening, and that men resorted to drink shops largely as an escape from boredom. Efforts were, therefore, made to provide entertainments in the evening hours which would help to make drinkers and drug-takers forget their former habits. It is the policy of the Department, as far as possible, to reduce the temptation to break the law and to create conditions in which former addicts are content to live without alcohol and drugs, rather than to have to employ a huge preventive staff to force prohibition upon a dissatisfied and unhappy section of the public. *Second*, to ensure, so far as possible, that the main object of Prohibition—the positive side of the programme—the economic, social and moral uplift of the people is achieved by launching simultaneously with the introduction of Prohibition, a district wide rural uplift drive. *Third*, to find employment for the toddy tappers.

72. *Scope of ameliorative.*—It is difficult to define exactly the scope of ameliorative work as it embraces everything that promotes general rural welfare. The following are the more important directions in which this work was undertaken in the Prohibition districts :—

(1) the provision of direct substitutes for drink,
(2) the provision of counter-attractions to addicts,
(3) the promotion of thrift so as to save particularly the money previously spent on drink,
(4) the orgrnization of gramasangams or village betterment committees for the promotion of general rural welfare, and
(5) the provision of employment to tappers thrown out of work on account of Prohibition.

The extent to which these activities were carried on in the eight districts during the year under report is summarized below.

73. *Provision of substitutes for drink.*—Government permitted the opening of refreshment stalls at about 1,750 centres or roughly one half of the number of toddy shops in the eight districts and sanctioned a grant of Rs. 100 for each stall. Arrangements were made by the Collectors of these districts to provide substitute drinks to the ex-addicts at or near the places where the toddy shops existed prior to the introduction of Prohibition in these districts. With the Government grant supplemented by local donations, refreshment stalls were started at 1,478 centres. The statement below gives the number of stalls opened in each district and the expenditure incurred on them :—

The main idea of establishing these stalls was to bring home to the ex-drinkers that even after toddy was banned, it was possible for them to congregate and pass a pleasant evening at or near the old toddy shop and enjoy milder drinks like coffee, tea, buttermilk and jaggery water supplemented by eats like uppuma, chilli cakes, etc. These eats and drinks were provided free of cost for a time and were later sold at concessional rates. The stalls subsidized by Government were run for a maximum period of three months and were closed by 31st December 1946. It was expected that by this period these stalls would be taken over by private parties or that fresh stalls might spring up. This expectation has been fulfilled. As many as 524 stalls are said to have come into being in Salem, while in Coimbatore, Kurnool and Anantapur, 218, 45 and 44 stalls respectively are said to have sprung up. It is reported that the tea and coffee stalls put up by the private agencies are increasing in number and popularity and that many ex-addicts are frequenting these shops and taking advantage of them.

74. *Rural recreations*—(1) *Counter-attractions to drink.*—The most important activity on the ameliorative side is the provision of counter-attractions to drinkers. In the Salem district, during the last Prohibition period, it was found that the most effective counter-attractions were rural sports and games, folk dances, kathaprasangams, kalakshepams, harikathas and village dramas. The most popular game was chedugudu in which young and old including ex-addicts participated, providing mirth and amusement to the spectators. Firka, taluk and district tournaments were held and witnessed by hundreds and thousands of spectators. Besides providing alternative attractions to the ex-addicts, these games served to rouse the villager, dissipate his apathy, improve his morale and prepare the ground for a general rural uplift drive. The spirit of unity in the village in particular was fostered on the playground and divisions due to factions or cost tended to disappear. Appreciating the dual effect which these rural sports produced on the villagers generally

Government sanctioned a special staff of Rural Recreation Officers and Village Guides at the rate of one for every taluk in the Prohibition districts. These officials visited the villages, organised indigenous games, rural recreation clubs and firka and taluk associations for conducting periodical tournaments.

Though Government sanctioned 77 posts of Rural Recreation Officers for work in the eight districts, it was not possible to fill up the posts as qualified men were not available. Arrangements were, therefore, made for the transfer, as a temporary measure of the Rural Recreation Organizers working in the non Prohibition districts. Twelve Organizers were so transferred and together with the eight Rural Recreation Organizers and their seven Assistants already working in the districts, they attended to the organization of rural recreational activities in the districts. In the meantime, the Board, with the sanction of Government, recruited suitable candidates mostly from ex-servicemen and arranged for their training in the Y.M.C.A. College of Physical Education, Saidapet, for a period of two months from the middle of January 1947. Sixty-five candidates were recruited and of these, 53 joined the training course. Forty-five of them completed the course successfully and were posted to the districts by the middle of March 1947. The course of instruction for the candidates included besides training in rural games, elementary instructions in rural uplift activities by officers of the various Nation Building Departments of Government. The candidates were also taken on excursions to a few co-operative institutions to enable them to have an idea of their practical working. Government sanctioned a special grant of Rs. 1,050 to the Y.M.C.A. College in connection with the conduct of the course which included the cost of employment of a Chief Physical Instructor. They also sanctioned the post of an Assistant Physical Instructor on a salary of Rs. 100 per mensem for the conduct of the course.

The statement below gives the abstract of work done by the Rural Recreation staff during the half-year ended 31st March 1947 :—

Even after the completion of the training course, all the posts of the Rural Recreation Officers sanctioned could not be filled up. The twelve Rural Recreation Organisers temporarily transferred to the prohibition districts were retransferred to their original places in the non-Prohibition districts. Government also sanctioned 17 posts of Rural Recreation Officers

and 17 ballad singers to provide counter-attraction and rural recreation in the 17 firkas selected for intensive development in the non-Prohibition districts consequent on the order of Government for the closure of the toddy, arrack and other liquor and drug shops in those firkas. To recruit and train the required men for the remaining vacancies of Rural Recreation Officers in the Prohibition districts and for the posts sanctioned for the selected firkas referred to above, Government ordered, after the close of the year under report, the starting of a second training course in the Y.M.C.A. College of Physical Education, Saidapet.

To conduct training courses for Rural Recreation Officers and also to tour round the prohibition districts and check up the work of the Rural Recreation Officers so as to maintain the standard of efficiency of rural recreation, Government sanctioned the employment of a Chief Physical Instructor on Rs. 230—700 for one year from 21st March 1947, and the continuance of the Assistant Physical Instructor previously sanctioned.

(ii) *Ballad singers.*—The ballad singers appointed at the rate of one for every Revenue division took the assistance of the Village Betterment Committees or Gramasangams or the local Village Organizations that existed and organized bhajanas, folk dramas, street dramas, Pandari bhajanas, kathaprasangams, kalakshepams and the like. The Rural Recreation Officers also helped them in these activities. These ballad singers organized bhajana parties in the villages, gave performances of harikathas or kalakshepams and organized community singing in villages. The ballad singers were provided with musical instruments at a cost not exceeding Rs. 10 for each set of singers. To encourage the ballad singers to organize community songs among the villagers and to create a spirit of enthusiasm and emulation among them Government sanctioned a sum of Rs. 1,500 for the grant of rewards to deserving ballad singers for commendable work in this direction.

The statement below shows the work done by the ballad singers and other rural recreation staff during the year :—

Name of district.	Number of villages visited by ballad singers.	Number of villages in which community songs were introduced.	Number of villagers trained in community songs.	Number of dramatic performances, folk dances, etc., arranged.	Number of villages in which harikathas, Kathaprasangams, etc., conducted.

Drama as a form of counter-attraction to drink has become more and more popular. Reports from Collectors indicate that in various parts of the prohibition districts local people have organized amateur dramatic parties

and staged dramas. Street dramas were enacted in a large number of villages. To promote amusements and to encourage local talent, Government have granted in certain cases subsidies to dramatic troupes composed of ex-tappers, ex-addicts or others. One troupe composed of ex-tappers at Doddagetta in the Anantapur district was recommended a subsidy of Rs. 500 for enacting ten dramas in the neighbourhood during the year and Government sanctioned the grant to the dramatic troupe since the close of the year.

(iii) *Propaganda vans.*—Eight Propaganda vans belonging to the defunct War Publicity Department originally transferred to the Board of Revenue (Civil Supplies) were transferred to the Commissioner of Excise and Prohibition with effect from 1st November 1946 together with the staff of one driver, one cleaner and one cinema operator for each van and these vans were placed under the control of the Special Development Officers in the Prohibition districts for purposes of propaganda and providing entertainment to the villagers. The vans are provided with a radio, a gramophone, a micraphone, etc., and some gramophone records. One of the Studios at Coimbatore produced a film of the inaugural ceremonies connected with the introduction of prohibition in the Coimbatore town and copies of the film with commentaries in Tamil were secured during the year and supplied to each of the Tamil prohibition districts. Arrangements were also made for the purchase and supply of films with commentaries in Telugu to the Telugu districts since the close of the year,

One other effective counter-attraction to drink is the installation of community radio receiving sets. Local boards and private bodies were exhorted to instal radios under the Government of India subsidy scheme.

(iv) *Cinemas.*—Cinema houses in the prohibition districts attracted large crowds and they were generally packed to capacity as they were frequented by ex-addicts and others, and provided a good counter-attraction to drink in the evening hours. It is reported that 19 permanent and 41 temporary theatres have sprung up in the eight prohibition districts during the year. Some of the cinema houses in the Salem district gave free admissions to a few ex-addicts.

(v) *Parks.*—Parks fitted with radios are good centres for providing alternative attractions and recreation to the public. The establishment of parks is therefore encouraged in the prohibition districts. Eight new parks were opened during the year in five districts, two in each of the districts of Kurnool, Cuddapah and Coimbatore and one each in Salem and Anantapur. The Board has recommended to Government that financial assistance may be given to municipalities for putting up parks wherever necessary.

75. *Promotion of thrift.*—Prohibition as was stated already, is but a means to an end which is the economic, social and moral uplift of the people. Part of the money formerly spent on drink will no doubt be spent on the purchase of the necessaries of life—food, clothing, etc. A part might also be spent on the purchase of utensils, cattle, jewels, etc., and for the liquidation of debts. Still there will be a surplus left with the villagers for investment. To harness this surplus, a thrift campaign through home safes and hundi boxes has been arranged in the prohibition districts through Co-operative Societies under the direct supervision of Development officers. Thrift days are celebrated by the Co-operative Societies selected for the scheme and the special and Assistant Development officers and other Revenue officials attend these celebrations and carry on propaganda and exhort the ex-addicts and others to put by their savings in the hundi boxes and accumulate them in the

Co-operative Societies. The results achieved in the working of the thrift campaign up to the end of March 1947 are given below :—

Savings under the National Savings Scheme are also encouraged by the Ameliorative Staff in the prohibition districts. According to the figures furnished by the Provincial National Savings Officer, the total savings under the National Savings Scheme in the eight prohibition districts amounted to Rs. 3,99,465 up to 31st March 1947.

76. *Formation of gramasangams and rural uplift work.*—To promote rural uplift activities in the villages, village betterment committees or gramasangams have been formed in the villages by the ameliorative staff. Paid officials of Government like village officers and other non-officials are associated with these committees. The gramasangams organize rural recreation and village uplift activities like thrift, village sanitation, street cleaning and lighting, repairing of old roads and construction of new ones, opening of public schools for children and adult night schools, provisions of protected water-supply, opening of libraries and reading rooms, introduction of better seeds and manure, encouragement of cattle breeding, poultry farming, fostering of cottage industries suited to local conditions, etc. There were on 31st March 1947, 5,061 gramasangams in the eight Prohibition districts. In certain districts, firka and taluk associations have also been formed. The ameliorative staff organized and guided the gramasangams, in their activities. The following statement shows the number of gramasangams, etc., organized in the various districts :—

Name of district.	Number of gramasangams organized.	Number of firka associations.	Number of taluk associations.

7 Salem	1,222	55	10

Total ..	5,061	111	34

Gramasangams have been organized in almost all the big villages of Salem, North Arcot, Coimbatore and Kurnool districts. These sangams have taken

up various kinds of activities for the benefit of the villages. Some gramasangams in the Coimbatore and Salem districts and a few in the North Arcot district have shown commendable progress during the year. The ameliorative staff have been directed to bestow special attention to the organization and development of gramasangams in all the villages in the Prohibition districts.

These gramasangams strive to organize and promote every amenity required for the village taking the assistance of other village organizations like the village panchayat, the village Co-operative Society, etc., and availing themselves of the resources at their disposal. It is the idea that their activities should be undertaken as far as possible on a self-help basis. Apart from the fact that Government cannot finance schemes for rural development on an extensive scale, it is necessary that the villagers must realize that their advancement is primarily their concern and that only if they proceed on the basis of self-help, their advancement will be real and lasting.

77. *Rural uplift schools.*—To train young men (with a rural bias) in the methods of promoting rural welfare and to make them acquainted with the policy and plans followed by the various nation-building departments of Government engaged in rural development, Government have sanctioned the conduct of rural uplift schools, four annually in each of the eight prohibition districts, one school in each quarter in each revenue division by rotation. Government have sanctioned a grant of Rs. 1,000 for each school which includes stipends to 50 students at Rs. 12 per mensem. Besides training in the organization of rural games and other counter-attractions, instructions are imparted to the students in rural uplift work by officers of the various Nation Building departments of Government who deliver a series of lectures to them on the facilities provided by their respective departments for promoting rural welfare. The students are expected to be useful village guides establishing liaison between the villagers on the one hand and the officers of the Government on the other. The best of the students are appointed as wholetime village guides as part of the ameliorative staff. The following statement shows the number of such schools conducted during the year in the eight districts and the number of candidates who were trained in them :—

Districts.	Number of schools conducted.	Number of students who have undergone training.
1 Anantapur	2	92
2 Kurnool	2	98

5 Chittoor	2	73
6 Bellary	2	69
7 Salem	2	110
8 North Arcot	2	75
Total ..	16	678

It is reported that 57 of the villagers trained in the rural uplift schools have been appointed as village guides in the prohibition department and that 75 others are actively assisting in the organisation and conduct of rural games and rural uplift work.

To create local enthusiasm and carry on propaganda among the villagers, rural exhibitions and tournaments were organised towards the closing days of these schools. The Agricultural, the Veterinary, the Industries, the Co-operative, the Public Health and other development departments took active part in these exhibitions held in the Prohibition districts. Sixty-four rural exhibitions including cattle fairs were held in the prohibition districts during the year.

78. *Economic improvement of toddy tappers thrown out of employment on account of prohibition.*—(i) *Statistics of unemployed tappers.*—Steps were taken for providing alternative employment to toddy tappers thrown out of employment by the advent of Prohibition. Statistics obtained from the Collectors disclosed that the number of tappers thrown out of work in each district was as follows :—

Districts.	Number of tappers thrown out the work.
1 Anantapur	693
2 Kurnool	2,462
3 Cuddapah	355
4 Coimbatore	13,500
5 Chittoor	398
6 Bellary	440
7 Salem	2,069
8 North Arcot	1,085

(ii) *Co-operative societies for jaggery manufacturing.*—By far the most effective method of providing alternative work to the ex-tappers was considered to be to organise palm jaggery manufacture. This is because, the tapping of sweet juice and the manufacture of jaggery from the juice is an occupation which most of the tappers are already accustomed of or can easily undertake. The Madras Sweet Toddy Rules, 1939 provide for the grant of licences to tappers for the tapping of sweet juice for the manufacture of jaggery. The question whether in the attempt to provide alternative work to the tappers in this manner, opportunity to abuse the concession would arise and thus endanger the enforcement of Prohibition was examined and it was considered that it was not safe to allow the tapping of coconut trees for sweet juice in the prohibition districts. Permission for the tapping of sweet juice from palmyra trees only was, therefore, allowed in the four districts of Coimbatore, Salem, North Arcot and Chittoor. Co-operative Societies for the manufacture of palmyra jaggery have been formed in these districts. Government were addressed for a special staff of Special Senior Inspectors of Co-operative Societies for the organisation and supervision of these societies at the rate of one inspector for every 15 societies, and orders of Government sanctioning 13 senior inspectors were received since the close of the year. The statement below shows the number of Co-operative societies functioning in these districts, the number of tappers to whom licences

have been issued and the quantity and value of jaggery produced by them till the end of March 1947.

Districts.	Number of Co-operative Societies.	Number of licences issued.	Jaggery produced upto end of March 1947.	
			Quantity.	Value.
			MDS.	RS.
1 Coimbatore	90	5,300	17,000	1,20,000
2 Salem	55	11,209	21,661	1,15,902
3 North Arcot	25	628	403	3,100
4 Chittoor	1	117	1,169	6,753

More progress could not be made by these societies as there was no special staff to organise and direct their activities during the season.

The question of permitting the tapping of sweet juice from date trees which abound in the Ceded districts was also considered. The Collectors of Bellary and Kurnool were not in favour of giving this concession for reasons of successful enforcement of Prohibition, while in respect of Cuddapah it was held that there was no extreme need for it. In the Anantapur district, a licence was granted at one centre, viz., Dhoddagetta where the production of date palm jaggery has been undertaken as an experimental measure. The results of the experiment are encouraging and the question of permitting sweet juice tapping of date trees in a few centres in that district through co-operative auspices is under consideration.

(iii) *Other Co-operative Schemes.*—Special schemes on a co-operative basis were drawn up in some cases for providing alternative employment to the tappers. At Ayodyapatnam in the Salem district, the tappers have been organized into a carpet weaving co-operative society. Government have, on the recommendation of the Board, sanctioned the following assistance to the society since the close of the year:—

(i) a sum of Rs. 5,000 as subsidy and Rs. 5,000 as loan for the purchase of machinery and implements,

(ii) a sum of Rs. 1,125 towards stipend to 15 trainees,

(iii) the loan of services of a Senior Inspector of Co-operative Societies for a period of one year free of cost.

At Ambur, in the North Arcot district, the tappers have been organised into six co-operative societies for the supply of milk and milk products. Government have sanctioned a scheme for the formation of a co-operative milk supply union at Ambur with the six feeder societies and have provided financial and other assistance to this society as shown below:—

(i) a subsidy of Rs. 100 to each of the six feeder societies for a period of six months,

(ii) an allotment of Rs. 50,000 for the sanction of interest free loans to the members for the purchase of milk animals, and

(iii) the free services of a Senior Inspector of Co-operative Societies for a period of six months.

This scheme is intended to provide employment for about 200 tappers. At Reddinaickenpalayam, in the North Arcot district, a co-operative society for mat weaving has been organized to provide employment for 25 ex-toddy tappers. The possibilities of organising co-operative societies for similar cottage industries for the benefit of the tappers in other centres are being explored by the ameliorative staff.

While steps were taken as indicated above for the provision of alternative employment to tappers by organizing them on a co-operative basis the attempts to secure work for them were not confined to the co-operative method only. Collectors were instructed to explore all possibilities of providing works for them in agricultural labour, earthwork, brickwork, road making, etc.

At the instance of the Board, the Chief Engineer, Highways, Madras, has issued instructions to his subordinates in the eight prohibition districts, to employ ex-tappers on road works giving preference to them in the same way as to ex-servicemen.

The reports of the Collectors generally indicate that the ex-toddy tappers in the eight Prohibition districts have adjusted themselves to the new situation either by migrating to wet districts or neighbouring states or by seeking employment in agricultural or other work and that the problem of unemployment is not keen in these districts.

79. *Economic improvement of ex-addicts generally.*—Steps were taken to improve the economic condition of the ex-addicts generally by increasing their income and utilising their savings for useful purposes. Cottage industries were organised wherever possible on a co-operative basis with suitable assistance from Government. At Rajampet, in the Cuddapah district, a co-operative society was organized at the instance of the Deputy Commissioner of Prohibition (Amelioration) for the manufacture of leather goods for about 60 families of coblers who are all ex-addicts. Government have also sanctioned grants as shown below to this society :—

(i) a grant of Rs 600 to meet the non-recurring expenditure such as purchase of tools, etc.,

(ii) a grant of Rs. 200 to meet half the recurring cost on the payment of rent, establishment charges and contingencies.

At Bojjayappale, in the same district, the cart-makers have been organised into a co-operative society for the manufacture of country carts. Government have sanctioned financial help to this society also as shown below :—

(i) a loan of Rs. 2,100,

(ii) the free services of a Senior Inspector of Co-operative Societies for a period of one year.

Milk supplies societies.— Co-operative milk supply societies were organized during the year with a view to increase the income of ex-addicts and ex-tappers in the following places :—

(i) Mariapuram near Cuddapah in the Cuddapah district,

(ii) Kodajanahalli in the Anantapur district,

(iii) for the labourers engaged in the Tungabadra Project Works.

The ex-addicts were enabled to purchase cows and she-buffaloes with the savings effected by Prohibition and supplemented by loans obtained from Government, on easy terms. Incidentally, these schemes help to solve the milk scarcity in the neighbouring urban areas. The local non-official leaders evinced a keen interest in these schemes.

In the Salem district, an iron metal workers co-operative society was organized for the Adi-Dravidas of Attayampatti and a mat weavers co-operative society at Uthamasholapuram for the Adi-Dravidas. Both the societies are intended to promote the well being of a class of people who are ex-addicts.

80. *Housing schemes.*—Select weavers' co-operative societies which have built up substantial reserves during the last few years have been encouraged to undertake housing schemes for their members. The idea is that the drink money saved by the members might be invested in houses thereby relieving the congestion in their villages and providing them with decent houses to live in Under the scheme, the societies will acquire suitable sites, construct the required number of houses and allot them to their members on the hire-purchase system. The societies will utilize for this purpose the surplus funds at their disposal as well as the initial contributions by the members and balance of the money required will be obtained by them as long term loans from Government. Since the close of the year, 24 societies were selected for working the scheme and proposals have been received in respect of ten societies. In the case of the remaining societies the matter is under consideration.

The Gudiyattam Weavers' Co-operative Society which is one of the societies selected, decided during the year to construct 50 to 100 houses for the weavers who are mostly ex-addicts and constituted a committee to select a site for the purpose and push through the scheme.

The Rural Housing Scheme for Yeminganur which was sanctioned by Government prior to the introduction of Prohibition was pushed through so as to provide employment for the ex-tappers on earthwork, brickwork, road building and house construction.

The Co-operative Building Society at Sholingur was started on 3rd March 1947 and a sum of Rs. 25,110 was collected as share capital and site value. It is proposed to provide for about 300 houses which will be built with loans from Government given out of funds available with the Registrar of Co-operative Societies. Thirty-three quarry workers, most of whom were addicts, have joined the society paying Rs. 100 each as share capital,

81. *Women and Prohibition.*—Women, especially those belonging to families of ex-addicts, are probably the greatest beneficiaries of Prohibition. The homes of many ex-addicts were unhappy as long as drink could be had freely, and there was no peace in many of these homes. The Board, therefore, considered that it was necessary to secure the assistance of women in the cause of prohibition and issued instructions to Collectors to get into touch with the various women's association to carry on propaganda on the benefits of prohibition, and to educate the women-folk of ex-addicts and train them in making their homes happy for the men who return after the days' toil. The Indian Women Civic Corps branches at Salem and Bellary did useful work during the year. In Bellary town, a Creche has been opened where 35 children below the age of three are being looked after with the help of public subscriptions. To achieve more tangible results and carry on propaganda in the villages and to direct the activities of women organizations in the districts, the Board recommended to Government the appointment of two Lady Organizers for the Prohibition districts. Government have since ordered that the Indian Women Civic Corps through their branches in the districts could, as an experimental measure, undertake the work and have sanctioned a conveyance allowance of Rs. 15 for the six Indian Women Civic Corps branches in connexion with the prohibition work to be carried on by the branch leaders and other honorary workers.

82. Amelioration work is progressing steadily despite the double handicap of shortage of staff and the preoccupation of the Revenue Department in the districts with other pressing work.

83 *Beneficial results of prohibition*.—The reports from the Collectors indicate that there has been a considerable improvement in the social and economic condition of the poorer and middle classes as a result of prohibition. The desire for drink among the ex-addict is seen to be slowly disappearing and they are reconciling themselves to the changed conditions. Domestic quarrels and street brawls have decreased and villages present a calmer and more lively appearance. The ex-addicts and their families are generally reported to be well fed and well dressed and look cheerful and are able to save out of their earnings. Prohibition is welcomed by all.

CHAPTER XII.—GENERAL AND MISCELLANEOUS.

84. There was an increase in the consumption of denatured spirits and methyl alcohol and a decrease in the consumption of country spirits, toddy, wines, spirits, beer, opium, ganja and bhang. The decrease is due to the introduction of prohibition in eight districts and to the closure of shops in select firkas with effect from 1st October 1946. The increase of denatured spirits is due to its increased use for commercial purposes.

85. There was a decrease in the number of cases reported under illicit distillation and kindred offences 3,475 (3,990). This excludes the figures of the eight districts of Salem, Chittoor, Cuddapah, North Arcot, Bellary, Anantapur, Coimbatore, and Kurnool, where prohibition was in force from 1st October 1946. There was a marked increase in the number of cases detected in East Godavari and a heavy fall in Vizagapatam. The fall is mainly due to clubbing of ranges for want of Sub-Inspectors and non-availability of rice and ippa flower, the chief ingredients for distilling arrack. The special staff employed in Chicacole and Cocanada circles for the supervision of illicit distillation crimes continued to function.

No arrack shops worked under the surcharge system during the year.

86. *Sale of cashew arrack*.—Cashew arrack was manufactured in the Mangalore Distillery during the year under report. This arrack was supplied to shops in South Kanara district and to all medical institutions in this province. Supply was made in bulk as well as in sealed bottles of two drams and four drams to shops in South Kanara district and in sealed bottles of eight drams only to medical institutions. A quantity of 1,343·5 proof gallons was manufactured in the year against the sanction of Government to manufacture a quantity of 5,000 proof gallons. The fall in manufacture was due to the extreme difficulty in procuring enough cashew fruits which failed, on account of the unexpected early heavy rains. The quality of the cashew arrack this year was good.

87. *Experiments in partial prohibition*.—The experiment of closure of arrack shops in toddy drinking areas, continued to be in force in the Shiyali and Tiruturaipundi taluks of Tanjore district and Tiruvadanai and Paramakudi taluks of Ramnad district. Experiment appears to have been successful.

In order to implement the scheme of Rural Development, all abkari and opium shops in firkas selected for intensive rural development in all non-prohibition districts were closed under Government orders after 1st October 1946.

The sale of liquor to the members of the hill tribes in The Nilgiris except on medical certificate continued to be prohibited during the year. The

experiment is reported to have not had the desired effect. Illicit Distillation offences existed in the hilly area near Kotagiri and other areas. The consumption in the district of various classes of liquor during the last five years is noted below :—

88. *Anjengo and Tangasseri villages.*—The administration of arrack opium, salt and customs revenue in the British enclave villages of Anjengo and Tangasseri was leased to the Travancore Government from 1st April 1946 for an amount of Rs. 7,000 per year.

89. *Temperance societies.*—There were no temperance societies or picketting activities anywhere during the year except in Tuticorin circle of Tinnevelly district. During the toddy sales in August 1946, in Tiruchendur taluk a group of persons including renters joined together to refrain from bidding in the sales. The sales were adjourned and for the next time, enough bandobust was made and there was no trouble.

There were no instances of local bodies prohibiting the tapping of their trees for fermented toddy and the location of shops in the lands except in Poonamalle circle where the local board objected to the tapping of 95 coconut trees in Sriperumbudur in Madras-Bangalore Road.

90. *Advisory Committees and Licensing Boards.*—The number of meetings of the Excise Licensing Board and Excise Advisory Committees which had to be adjourned for want of quorum was three and eighteen respectively. These bodies recommended the closure of seven shops and the change of site of ninety-four shops and action was taken accordingly.

91. *Closure during fairs and festivals, etc.*—In eight districts, arrack shops were closed during fairs and festivals or on market days. Restrictions on the hours of sales were enforced in the shops in the vicinity of mills or in the industrial areas. The closure of shops on such occasions had no adverse effect on rental or consumption and did not stimulate crimes. The order for the closure of certain kinds of shops during the election were enforced during the year.

92. The following changes are worthy of mention :—

(i) Consequent on the introduction of Prohibition from 1st October 1946 all abkari and opium shops were closed in the eight districts.

(ii) Creation of a ten-mile belt area in the districts adjoining the Prohibition districts and marking restricted to five years average preceding the introduction of Prohibition.

(iii) Possession of any kind of liquor outside the licenced premises in the belt area adjoining the Prohibition districts within ten miles from the boundaries of these districts in this Province was prohibited under section 13-A of the Madras Abkari Act of 1886.

(iv) Marking of trees for toddy in the select firkas was prohibited.

(v) Issue price of opium was enhanced from Rs. 140 to Rs. 150 per seer.

(vi) Nellore and Cuddalore subdivisions were reconstituted, whereby Chingleput and Poonamalle circles of Chingleput district, were added in the Cuddalore subdivision.

(vii) The Weekly Holiday Act was enforced to all abkari and opium shops.

(viii) Consequent on the transfer of fourteen villages from Trichinopoly to Madura district the Excise administration of this area was brought under the jurisdiction of the Collector of Madura.

(ix) Reduction of subdivisions from eight to five from 1st October 1946.

93. *Conviction for drunkenness.*—There were 3,928 (5,552) convictions for offences against abkari laws.
