**DESCRIPTIVE MEMOIR OF NALLUR OF THE
CONJEVERAM TALUK.**

SITUATION This village is situated 4 miles north-east of Conjeveram.

AREA The total area prior to Survey was, omitting fractions 272 acres; by Survey it is 285 acres; increase 13 acres.

It must be distinctly borne in mind that deductions of 16 and 25 per cent. have been made from the gross produce of wet and dry lands respectively, on account of unfavorable seasons and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any Survey field does not confer on the cultivator of that field, the right of entering on such poramboke, or of, in any way interfering with it, and any unauthorized encroachment on such poramboke will be severely dealt with. This applies to both Government and Inam lands, Survey excess to the extent of 10 per cent. being allowed to the Inamdars, free of charge, under Board's Circular No. 173.

DEMARICATION This village contains 4 Kandams, or sub-divisions and 49 Survey fields.

The demarcation marks erected are:—

This village is irrigated by a rain-fed Tank. The irrigation is inferior. The irrigated lands have accordingly been placed in the 3rd group. The dry lands are placed in the 2nd group.

The revised irrigated area of the Government occupied lands is 50 acres and 85 cents, assessed at Rupees 101-12-0 for a single crop.

KUDI-MARAMAT. The ryots have undertaken to keep the sluices clear of silt, and to clear the distributing channels when needed, at their own cost, as per separate statement.

CROPS. The acreage of the crops cultivated in Fasli 1286 as per Karnam's accounts, is as under :—

SETTLEMENT. Commencing from the frontier of Enadur (shrotriam,) block A, irrigated by the Tank, comprising Nos. 1 to 6, 9 to 20, 22 to 27, 33 and 34 is assessed in class VIII. West of A, block B, similarly irrigated, comprising Nos. 7, 8, 21, 28 to 32 and 35 to 49 is assessed in class VI. There are no Manavari or lands irrigated by baling in this village. The dry lands intermixed with the irrigated area are assessed in the class and sort assigned to the block in which they are situated.

The following table exhibits the revised assessment of the Pattah lands of the village:—

Pangu lands.—This is an Ekabogam village the Mirasi lands 138 acres and 49 cents. are entered in the names of Strinivasa Nayakkan and Kristnasami Nayakkan in a joint pattah. The fee registered against these lands is at present a mere matter of account and need not be collected, as the Mirasidars themselves hold the lands. But if these lands hereafter become waste by relinquishment and are taken up again by the Mirasidars or by a stranger they will be chargeable with the fee plus the taram assessment, and the fee thus collected will be payable to the Mirasi body.

NOTE.—When the field classification was modified under the Block System, it often happened that for purposes of symmetry lands excluded as Poramboke from the operations of this Department were included in blocks containing lands classified and assessed. In the Memoirs attached to the Village Register, the blocks are referred to, as containing such and such numbers, placed in such and such classes without any explanation, though some of the numbers may be Poramboke. When from this cause any question arises as to whether a particular number in a particular block is assessed or Poramboke, the entry in the Register alone must determine it.

Director of Revenue Settlement.
