

DESCRIPTIVE MEMOIR OF NETTERI OF THE CONJEVERAM TALUK.

SITUATION. This village is situated 2 miles North-west of Conjeveram.

AREA. The area prior to Survey was, omitting fractions 207 acres ; by Survey is 223 acres ; increase 16 acres.

It must be distinctly borne in mind that deductions of 16 and 25 per cent. have been made from the gross produce, of wet and dry lands respectively, on account of unfavorable seasons, and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke, in any Survey field, does not confer on the cultivator of that field, the right of entering on such poramboke, or of, in any way interfering with it, and any unauthorized encroachment on such poramboke will be severely dealt with. This applies to both Government and Inam lands, Survey excess to the extent of 10 per cent. being allowed to the Inamdars, free of charge, under Board's Circular No. 173.

DEMARCATIION. This village contains 3 Kandams or sub-divisions and 91 Survey fields.

The demarcation marks erected are :—

Boundary Stones.		Offsets.		Field Stones.
Village.	Kandams.	Village.	Kandams.

IRRIGATION. This village is irrigated by a rain fed Tank and Tungal. The irrigation is inferior. The irrigated lands have accordingly been placed in the 3rd group. The dry lands are placed in the 2nd group.

The revised area and assessment of the Government occupied lands under each source of irrigation are as follows:—

Source of Irrigation.	Area.		Assessment.

SETTLEMENT. Commencing from the frontier of Karuppaditettadi, block A irrigated by the Netteri Tungal, comprising Nos. 1, 26 to 49 and 54 to 91 is assessed in class VIII. South of A, block B, irrigated by the Putteri Tank, comprising Nos. 2 to 25 and 50 to 53 is assessed in class V. There are no Manavar or lands irrigated by baling in this village. The dry lands intermixed with the irrigated area are assessed in the class and sort assigned to the block in which they are situated.

The following table exhibits the revised assessment of the Pattah lands of the village:—

Description of land.	Block.	Class.	IRRIGATED.										DRY.

The land assessment for Fasli 1286 was Rupees 152; by Settlement it is Rupees 160; increase Rupees 8. The former wet land assessment was charged at rates varying from Annas 12-0 to Rupees 2-1-0 an acre. The ordinary dry lands were charged at Annas 10-9 an acre.

SECOND CROP. No lands have been compounded for as permanent double crop.

SAMUDAYAM. There are no common lands in this village.

MIRASI TENURE. As the Government have recognized the Mirasidar's claim to a percentage fee (Swatantram) on the taram assessment the following arrangements are made for its future collection and payment.

The fee is fixed at 2 Annas in the Rupee of assessment of both dry and wet lands, for which the lands are divided in to (i) Pangu, (ii) Durkast, and (iii) Waste.

Pangu lands.—The Mirasidars, 2 in number, have hitherto held 118 acres and 39 cents in 2 shares. These lands have now been distinguished re-divided where necessary, and entered in individual pattahs. The fee registered against these lands is at present a mere matter of account and need not be collected, as the Mirasidars themselves hold the lands according to their respective shares. But if these lands hereafter become waste by relinquishment and are taken up again either by a Mirasidar or by a stranger, they will be chargeable with the fee plus the taram assessment, and the fee thus collected will be payable to the Mirasi body.

Durkast lands.—There are no Durkast lands in this village.

Waste lands.—The fee registered against these lands is all that the Mirasi body is likely to realize at present, and that only when these lands are applied for. Intending applicants must, therefore, clearly understand that when they take up these lands they will have to pay the fee plus the taram assessment, registered against each field. The Swatantram fee on the waste of this village (24 acres and 4 cents.) amounts in the aggregate to Rs. 11-14-0.

The names and shares of the present Mirasidars are as under :—

No.	Name of Mirasidar.	Shares.
1	Devaraja Mudali	1
2	Vuradappa Mudali	1
Total...		2

PASTURAGE. No lands have been specially set aside for this purpose. The cattle are fed on the Pattah lands and Government waste.

BUILDING SITE Is sufficient for present requirements. No new enclosure is to be made or new building erected without permission in future within the limits of the building site.

INAMS. The following lands are held tax-free or on favorable terms :—

No.	Name of Inamdar.	Wet or Dry.	Single or Double Crop.	Area.		Amount of Quit-rent.			Second crop assessed, ment compounded for at Settlement.		Total.			Remarks.

NOTE.—When the field classification was modified under the Block System, it often happened that for purposes of symmetry lands excluded as Poramboke from the operations of this Department were included in blocks containing lands classified and assessed. In the Memoirs attached to the Village Register, the blocks are referred to, as containing such and such numbers, placed in such and such classes without any explanation, though some of the numbers may be Poramboke. When from this cause any question arises as to whether a particular number in a particular block is assessed or Poramboke, the entry in the Register alone must determine it.
