

No. 376.

**DESCRIPTIVE MEMOIR OF TALAYAMPATTU OF THE
CONJEVERAM TALUK.**

SITUATION.

This village is situated 12 miles East of Conjeveram.

AREA.

The total area prior to Survey was, omitting fractions, 82 acres; by Survey it is 101 acres; increase 19 acres.

It must be distinctly borne in mind that deductions of 16 and 25 per cent. have been made from the gross produce of wet and dry lands respectively, on account of unfavorable seasons, and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke, in any Survey field, does not confer on the cultivator of that field the right of entering on such poramboke, or of, in any way interfering with it, and any unauthorized encroachment on such poramboke will be severely dealt with. This applies to both Government and Inam lands, Survey excess to the extent of 10 per cent. being allowed to the Inamdars, free of charge, under Board's Circular No. 173.

DEMARCATATION.

This village contains 1 Kandam or Sub-division, and 46 Survey fields.

The demarcation marks erected are:—

Boundary Stones.		Off-sets.		Field Stones.
Village.	Kandam.	Village.	Kandam.	
4	...	39	8	158

STATISTICS.

The Statistics of the village, as ascertained by the Census of 1871 are as under:—

Houses.	Bazars.	Population.	Land Pattahs as per Settlement.		Wells.		Cattle.	Sheep.
			Single.	Joint.	Old.	New.

IRRIGATION.

This village is irrigated by the Tenneri Tank. The irrigation is ordinary. The irrigated lands have accordingly been placed in the 2nd group. The dry lands are also placed in the 2nd group.

The revised irrigated area of the Government occupied lands is 63 acres and 3 cents, assessed at Rupees 153-2-0.

KUDI-MARAMAT. The Ryots have undertaken to clear the distributing channels, when needed, at their own cost, as per separate statement.

CROPS.

The acreage of the crops cultivated in Fasli 1286, as per Karnam's accounts, is as under:—

Name of Crop.					Irrigated or Dry.	Area in acres.
Tope	...	...	...	...	Dry.	1
Raggi	...	...	...	...	Irrigated.	2
Paddy	...	...	...	...		42
					Total Irrigated	44
					Grand Total...	45

SETTLEMENT.

Commencing from the frontier of Ambakkam, block A, irrigated by the Tank, comprising Nos. 1 to 12, 18 to 22 and 41 to 46 is assessed in class VI. West of A, block B, similarly irrigated, comprising Nos. 13 to 17 and 23 to 40 is assessed in class VIII. There are no Manavari or lands irrigated by baling in this village. The dry lands intermixed with the irrigated area are assessed in the class and sort assigned to the block in which they are situated.

The following table exhibits the revised assessment of the Pattah lands of the village:—

Description of land.	Block.	Class.	Irrigated.						Dry.

Total...			...	...	63	3	153	2	...	...	...	...	...	...

The land assessment for Fasli 1286 was Rupees 130; by Settlement it is Rupees 158; increase Rupees 28. The former wet land assessment was charged at rates varying from Rupees 1-11-0 to Rupees 3-15-0 and the ordinary dry lands were charged Rupees 1-5-0 an acre.

SECOND CROP. No lands have been compounded for as permanent double crop.

SAMUDAYAM. There are no common lands in this village.

MIRASI TENURE. As the Government have recognized the Mirasidar's claim to a percentage fee (Swatantram) on the taram assessment, the following arrangements are made for its future collection and payment.

The fee is fixed at 2 Annas in the Rupee of assessment of both dry and wet lands, for which the lands are divided into (i) Pangu, (ii) Durkast, and (iii) Waste.

Pangu lands.—This is a Ekabogam village, and the Marasi lands are entered in the name of Vijayaragavaiyengar. The fee registered against these lands is at present a mere matter of account and need not be collected, as the Mirasidar himself holds the lands. But if these lands hereafter become waste by relinquishment and are taken up again either by the Mirasidar or by a stranger they will be chargeable with the fee plus the taram assessment and the fee thus collected will be payable to the Mirasi body.

Durkast lands.—These are not at present liable to the payment of the fee as the pattahdars have hitherto held them free of any such payment. Consequently no fee has been registered against these lands, but should they hereafter become waste by relinquishment and be taken up again on Durkast, they will be dealt with in the same manner as registered Pangu lands, and the fee will be chargeable on them at the rate of 2 Annas per Rupee of assessment.

Waste lands.—The fee registered against these lands is all that the Mirasi body is likely to realize at present, and that only when these lands are applied for. Intending applicants must, therefore, clearly understand that when they take up these lands they will have to pay the fee plus the taram assessment registered against each field. The Swatantram fee on the waste of this village (6 acres and 34 cents) amounts in the aggregate to Rupees 1-13-0.

PASTURAGE. No lands have been specially set aside for this purpose. The cattle are fed on the pattah lands and Government waste.

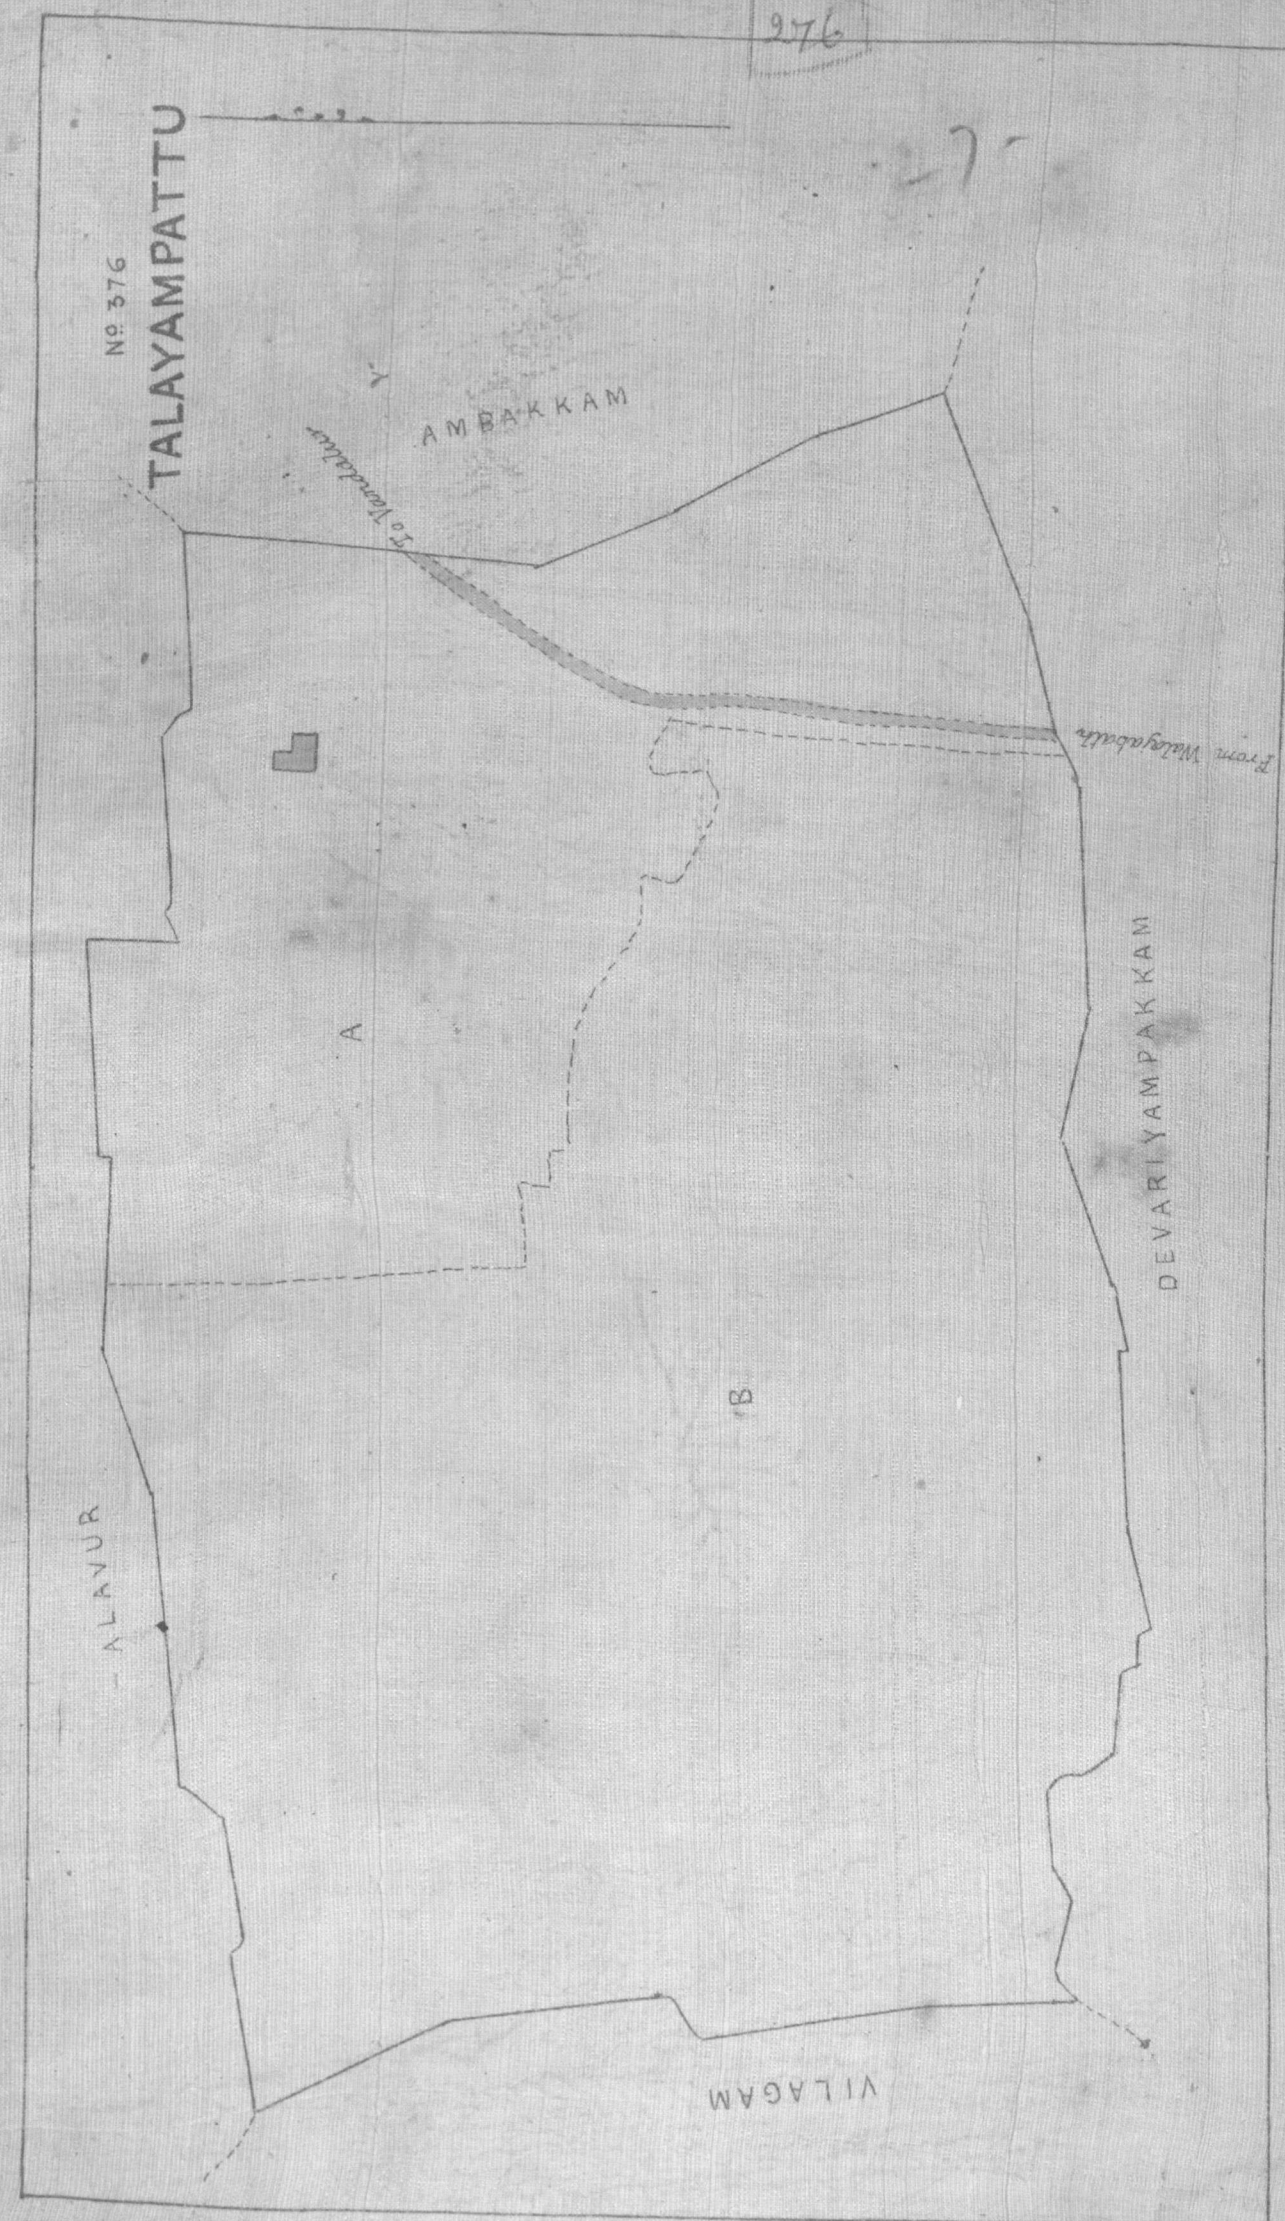

BUILDING SITE. Is sufficient for present requirements. No new enclosure is to be made or new building erected without permission in future, within the limits of the building site.

INAMS.

The following lands are held tax-free or on favorable terms :—

NOTE.—When the field classification was modified under the Block System, it often happened that for purposes of symmetry lands excluded as Poramboke from the operations of this Department were included in blocks containing lands classified and assessed. In the Memoirs attached to the Village Register, the blocks are referred to, as containing such and such numbers, placed in such and such classes without any explanation, though some of the numbers may be Poramboke. When from this cause any question arises as to whether a particular number in a particular block is assessed or Poramboke, the entry in the Register alone must determine it.

Director of Revenue Settlement.
