No. 86.

DESCRIPTIVE MEMOIR OF UPPUKULAM OF THE
CONJEVEVERAH TALUK.

SITUATION. This village is situated $\frac{1}{4}$ of a mile East of Conjeveram.

AREA. The total area prior to Survey was, omitting fractions, 67 acres; by Survey it is 66 acres; decrease 1 acre.

It must be distinctly borne in mind that deductions of 16 and 25 per cent. have been made from the gross produce of wet and dry lands respectively, on account of unfavorable seasons, and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any Government Poramboke, in any Survey field, does not confer on the cultivator of that field, the right of entering on such Poramboke, or of, in any way, interfering with it, and any unauthorized encroachment on it will be severely dealt with. This applies to both Government and Inam lands, Survey excess to the extent of 10 per cent. being allowed to the Inamdars, free of charge under Board's Circular No. 173.

DEMARCATATION. This village contains 1 Kandam or sub-division and 42 Survey fields.

The demarcation marks erected are :—

The revised area and assessment of the Government under occupied lands under each source of irrigation are as follow:—

SETTLEMENT.

Commencing from the frontier of Tirukklikadu Shrotriem, block A, irrigated by the Manjanirkal and Kuttai No. 2, comprising Nos. 2 to 6, 11 and 38 to 42 is assessed in class V. West of A, block B, irrigated by the Manjanirkal and Kuttai No. 19 B, comprising Nos. 1, 7 to 10 and 12 to 37 is assessed in class VI. There are no Manavari lands in this village. The lands irrigated by baling are assessed at one Rupee an acre less than the rate assigned to the block in which they are situated. The dry lands intermixed with the irrigated area are assessed in the class and sort assigned to the block in which they are situated.

The following table exhibits the revised assessment of the Pattah lands of the village.—

The land assessment for Fasli 1286 was Rupees 96; by Settlement it is Rupees 96. The ordinary dry lands were held at Rupees 2-10-5 an acre.

SECOND CROP.

No lands have been compounded for as Permanent double crop.

SAMUDAYAM.

There are no common lands in this village.

MIRASI TENURE.

As the Government have recognized the Mirasidar's claim to a percentage fee (Swatantram) on the taram assessment, the following arrangements are made for its future collection and payment.

The fee is fixed at 2 Annas in the Rupee of assessment of both dry and wet lands for which the lands are divided into (i) Pangu, (ii) Durkast, and (iii) waste.

Pangu lands.—This is an Ekabogam village. The Mirasi lands 31 acres and 27 cents. are entered in the name of Tumbavanam Sami Mudali. The fee registered against these lands is at present a mere matter of account and need not be collected, as the Mirasidar himself holds the lands. But if these lands hereafter become waste by relinquishment and are taken up again either by the Mirasidar or by a stranger, they will be chargeable with the fee plus the taram assessment and the fee thus collected will be payable to the Mirasi body.

Durkast lands.—These are not at present liable to the payment of the fee as the pattahdars have hitherto held them free of any such payment. Consequently no fee has been registered against these lands, but should they hereafter become waste by relinquishment and be taken up again on Durkast, they will be

dealt with in the same manner as registered Pangu lands, and the fee will be chargeable on them at the rate of 2 Annas per Rupee of assessment.

The lands free of Swatantram till resigned are Nos. 17A held by Durkastdar.

Waste lands.—The fee registered against these lands is all that the Mirasi body is likely to realize at present, and that only when these lands are applied for. Intending applicants must, therefore, clearly understand that when they take up these lands, they will have to pay the fee plus the tarām assessment registered against each field. The Swatantram fee on the waste of this village 27 cents.) amounts in the aggregate to Annas 1-0.

PASTURAGE. No lands have been specially set aside for this purpose. The cattle are fed on the puttah lands and Government waste.

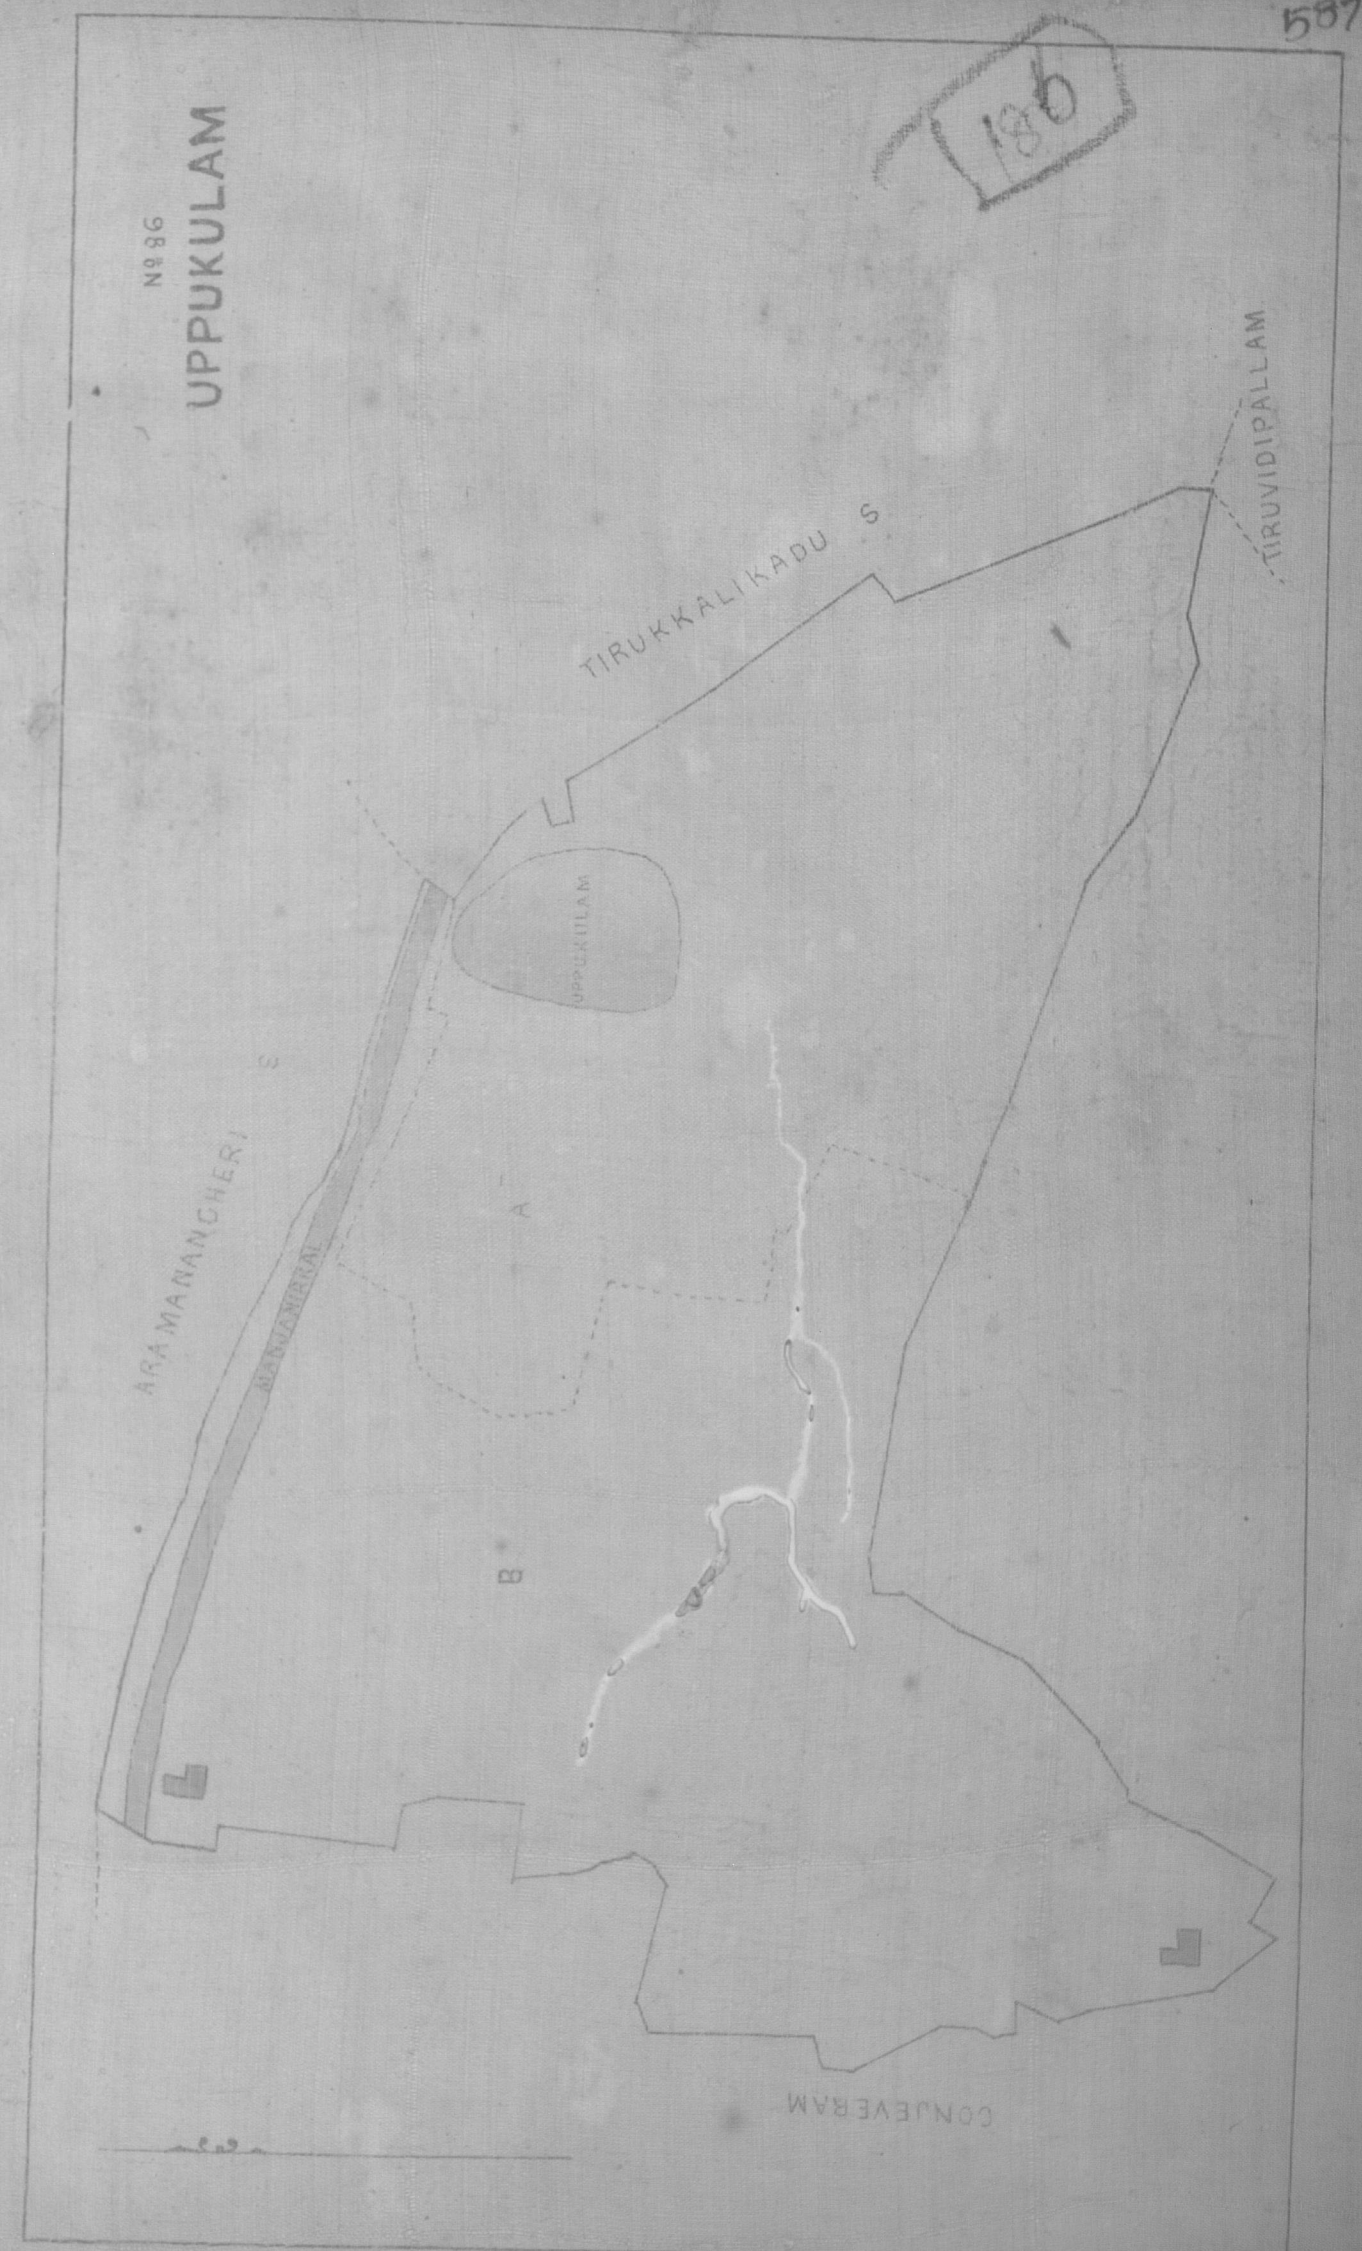

BUILDING SITE. Is sufficient for present requirements. No new enclosure is to be made or new building erected without permission in future within the limit of the building site.

INAMS. The following lands are held tax-free or on favorable terms:—

NOTE.—When the field classification was modified under the Block System, it often happened that for purposes of symmetry lands excluded as Poramboke from the operations of this Department were included in blocks containing lands classified and assessed. In the Memoirs attached to the Village Register, the blocks are referred to, as containing such and such numbers, placed in such and such classes without any explanation, though some of the numbers may be Poramboke. When from this cause any question arises as to whether a particular number in a particular block is assessed or Poramboke, the entry in the Register alone must determine it.

W. WILSON,
Director of Revenue Settlement.
