

DESCRIPTIVE MEMOIR OF PAKKUVANJERI OF THE MADHURANTAKAM TALUK.

SITUATION. This village is situated 10 miles south-east of Madhurantakam.

AREA. The total area prior to Survey was, omitting fractions 136 acres; by Survey it is 206 acres; increase 70 acres.

It must be distinctly borne in mind that deductions of 16 and 25 per cent. have been made from the gross produce, of wet and dry lands respectively, on account of unfavorable seasons, and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke, in any Survey field, does not confer on the cultivator of that field, the right of entering on such poramboke, or of, in any way interfering with it, and any unauthorized encroachment on such poramboke will be severely dealt with. This applies to both Government and Inam lands, Survey excess to the extent of 10 per cent. being allowed to the Inamdars, free of charge under Board's Circular No. 173.

DEMARCATON. This village contains 2 Kandams, or sub-divisions and 51 Survey fields.

The demarcation marks erected are:—

Boundary Stones.		Offsets.		Field Stones.
Village.	Kandam.	Village.	Kandam.

STATISTICS. The statistics of the village, as ascertained by the Census of 1871, are as under:—

Houses.	Bazars.	Population.	Land Pattahs as per Settlement.		Wells.		Cattle.	Sheep.
			Single.	Joint.	Old.	New.		
13	...	113	1	...	4	1	145	10

IRRIGATION. This village is irrigated by Sengattur Hissa Yeri. The irrigation is ordinary. The irrigated lands have accordingly been placed in the 2nd group. The dry lands are also placed in the 2nd group.

The revised irrigated area of the Government occupied lands is 60 acres and 81 cents, assessed at Rupees 194-1-0.

KUDI MARAMAT. The ryots have undertaken to keep the sluices clear of silt, and to clear the distributing channels when needed, at their own cost, as per separate statement.

CROPS. The acreage of the crops cultivated in Fasli 1286 as per Karnam's accounts, is as under :—

SETTLEMENT. Commencing from the frontier of Nemandam, block A, a tract of double crop worst black loam situated round and about the village site, and well irrigated by the Sengattur Hissa Tank on a low level, comprising Nos. 2 to 4, 8 to 9, 18 to 22, 25 to 36 and 40 to 51 is assessed in class VI wet. Within A, block B, a patch of double crop inferior black loam situated round and about the village site and similarly irrigated, comprising Nos. 5 to 7, 23, 24 and 37 to 39 is assessed in class V wet and VI dry. East of A, block C, an area of worst black clay irrigated by the above source on a high level, comprising Nos. 1 and 10 to 17 is assessed in class VII wet. There are no Manavari or lands irrigated by baling in this village.

The following table exhibits the revised assessment of the village:—

The revised assessment of the village:--

The land assessment for Fasli 1286 was Rupees 164; by Settlement it is Rupees 195; increase Rupees 31. The former wet land assessment was charged at rates varying from Rupees 2-10-5 to Rupees 4-5-8 an acre. The ordinary dry lands were held at a uniform rate of Rupees 1-2-7 an acre.

SECOND CROP. Blocks, A2, and B2, have been compounded for as permanent double crop at $\frac{1}{4}$ additional to the single crop assessment.

SAMUDAYAM. There are no common lands in this village.

MIRASI TENURE. As the Government have recognized the Mirasidar's claim to a percentage fee (Swatantram) on the taram assessment, the following arrangements are made for its future collection and payment.

The fee is fixed at 2 Annas in the Rupee of assessment of both dry a wet lands, for which the lands are divided into (i) Pangu, (ii) Durkast, and (iii) Waste.

Pangu lands.—This is an Ekabogam village and the Mirasi lands are entered in the name of Babu Reddi. The fee registered against these lands is at present a mere matter of account and need not be collected as the Mirasidar himself holds the lands. But if these lands hereafter become waste by relinquishment and are taken up again by a stranger, they will be chargeable with the fee plus the taram assessment, and the fee thus collected will be payable to the Mirasi body.

Durkast lands.—There are no Durkast lands in this village.

Waste lands.—The fee registered against these lands is all that the Mirasi body is likely to realize at present, and that only when these lands are applied for. Intending applicants must, therefore, clearly understand that when they take up these lands they will have to pay the fee plus the taram assessment registered against each field. The Swatantram fee on the waste of this village (10 acres and 1 cent.) amounts in the aggregate to Rupees 2-4-0.

PASTURAGE AND FIRE WOOD JUNGLE. No lands have been specially set aside for this purpose.

BUILDING SITE. Is sufficient for present requirements. No new enclosure is to be made or new building erected without permission in future.

INAMS

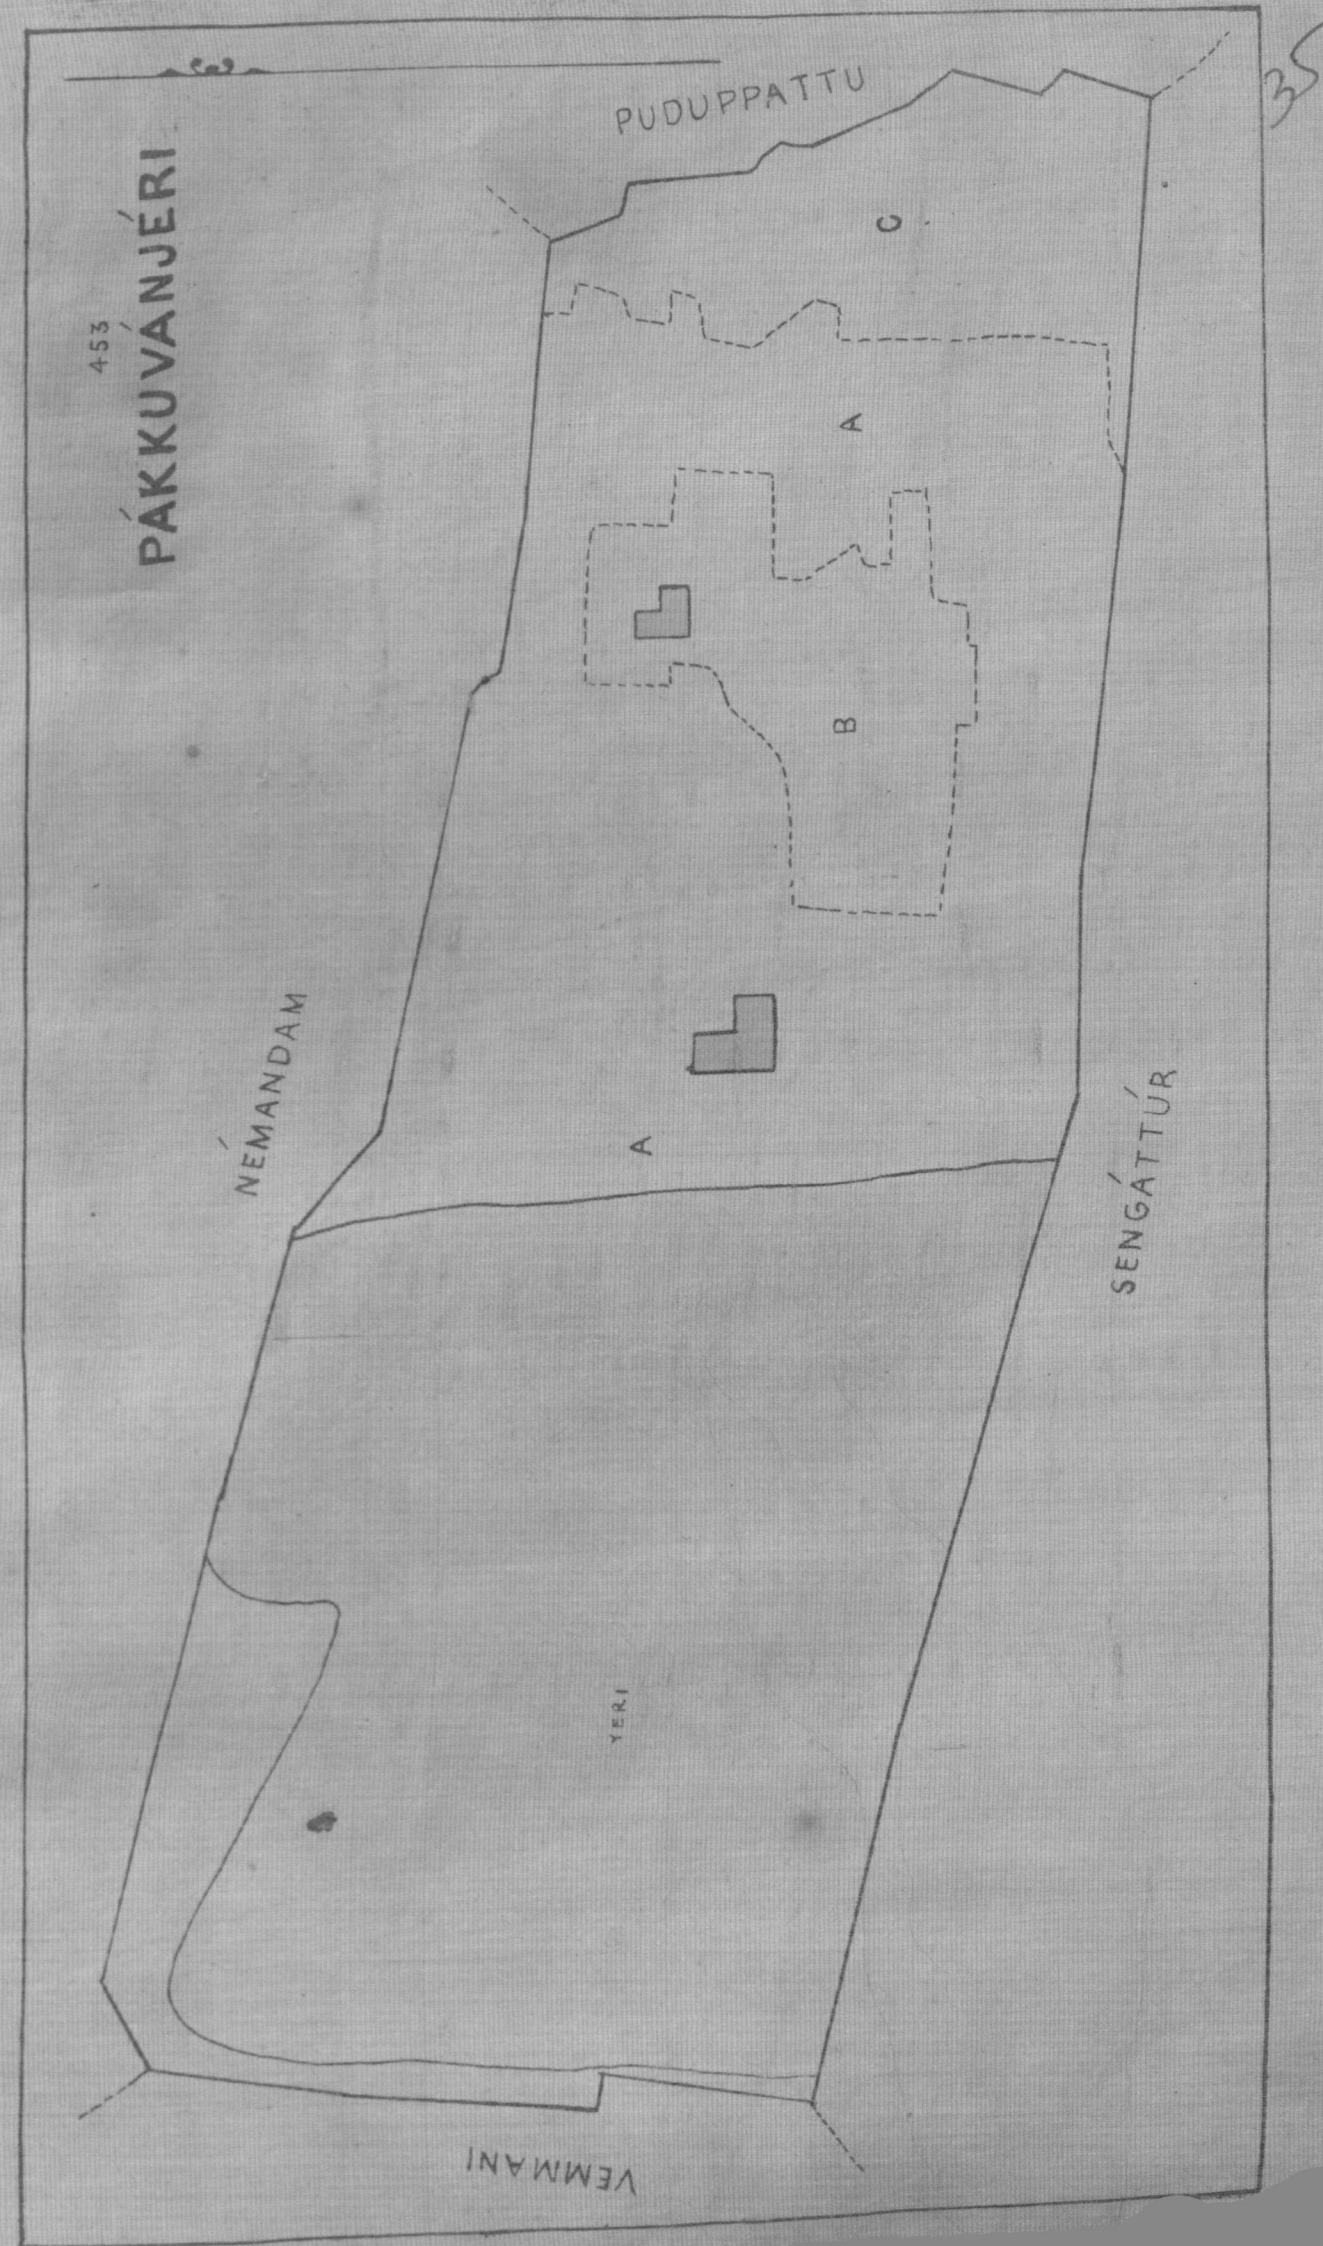

The following lands are held tax free or on favorable terms:—

NOTE.—When the field classification was modified under the Block System, it often happened that for purposes of symmetry lands excluded as Poramboke from the operations of this Department were included in blocks containing lands classified and assessed. In the Memoirs attached to the Village Register, the blocks are referred to, as containing such and such numbers, placed in such and such classes without any explanation, though some of the numbers may be Poramboke. When from this cause any question arises as to whether a particular number in a particular block is assessed or Poramboke, the entry in the Register alone must determine it.

W. WILSON,
Director of Revenue Settlement.
