No. 45.

**DESCRIPTIVE MEMOIR OF PANDAVAKKAM OF THE
MADURANTAKAM TALUK.**

SITUATION. This village is situated 12 miles north of Madurantakam.

AREA. The total area prior to Survey was, omitting fractions 262 acres; by Survey it is 320 acres; increase 58 acres.

It must be distinctly borne in mind that deductions of 16 and 25 per cent. have been made from the gross produce, of wet and dry lands respectively, on account of unfavorable seasons, and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke, in any Survey field, does not confer on the cultivator of that field, the right of entering on such poramboke, or of, in any way interfering with it, and any unauthorized encroachment on such poramboke will be severely dealt with. This applies to both Government and Inam lands, Survey excess to the extent of 10 per cent. being allowed to the Inamdars, free of charge under Board's Circular No. 173.

DEMARCATION. This village contains 2 Kandams, or sub-divisions and 66 Survey fields.

The demarcation marks erected are:—

Boundary Stones.		Offsets.		Field Stones.
Village	Kandam.	Village.	Kandam.

STATISTICS. The statistics of the village, as ascertained by the Census of 1871, are as under:—

Houses.	Bazars.	Population.	Land Pattahs as per Settlement.		Wells.		Cattle.	Sheep.
			Single.	Joint.	Old.	New.		
7	...	62	4	3	1	1	20	30

IRRIGATION. This village is irrigated by a rain-fed Tank. The situation is ordinary and the irrigation indifferent. The wet lands are placed in the 3rd group, and the dry in the 2nd group.

The revised irrigated area of the Government occupied lands is 26 acres and 1 cent assessed at Rupees 71-5-0 for a single crop.

KUDI MARAMAT. The royts have undertaken to keep the sluices clear of silt, and to clear the distributing channels when needed, at their own cost, as per separate statement.

CROPS. The acreage of the crops cultivated in Fasli 1286 as per Karnam's accounts, is as under:—

SETTLEMENT. Commencing from the frontier of Vendivakkam block A, a poor red sandy tract covered with jungle, situated round and about, the village site comprising Nos. 1 to 30, 47, 54, 56, 65 and 66 is assessed in class VII dry. West of A, block B, a patch of inferior black loam, comprising Nos. 31 to 43, 50 to 53 and 55 is assessed in class VI wet. North-west of B, block C, an extent of worst black loam intermixed with soda and lime, comprising Nos. 44 to 46, 48, 49 and 57 to 64 is assessed in class VII wet, and dry. The Manavari lands are assessed in VI dry. There no lands irrigated by baling.

The following table exhibits the revised assessment of the village:—

The land assessment for Fasli 1286 was Rupees 106; by Settlement it is Rupees 106; The former wet land assessment was charged at rates varying from Rupees 2-1-3 to Rupees 4-5-7 an acre. The Manavari lands were held at Rupees 2-1-3 an acre and the ordinary dry lands at rates varying from Annas 15-10 to Rupees 1-10-6 an acre.

SECOND CROP. No lands have been compounded for as permanent double crop.

MIRASI TENURE. As the Government have recognized the Mirasidar's claim to a percentage fee (swatantram) on the taram assessment, the following arrangements are made for its future collection and payment.

The fee is fixed at 2 Annas in the Rupee of assessment of both dry and wet lands, for which the lands are divided into (i) Pangu, (ii) Durkast and (iii) Waste.

Pangu lands.—The Mirasidars 2 in number have hitherto held 41 acres and 29 cents. in 1 share. These lands have now been distinguished, re-divided where necessary, and entered in individual pattahs. The fee registered against these lands is at present a mere matter of account and need not be collected, as the Mirasidars themselves hold the lands according to their respective shares. But if these lands hereafter become waste by relinquishment and are taken up again either by a Mirasidar or by a stranger they will be chargeable with the fee plus the taram assessment, and the fee then collected will be payable to the Mirasi body.

Durkast lands.—These are not at present liable to the payment of the fee as the pattahdars have hitherto held them free of any such payment. Consequently no fee has been registered against these lands, but should they hereafter become waste by relinquishment and be taken up again on Durkast, they will be dealt with in the same manner as registered Pangu lands, and the fee will be chargeable on them at the rate of 2 Annas per Rupee of assessment.

The lands free of Swatantram till resigned are Nos. 1, 7, 46AB, 47B, 48AB, 55, 62 to 64 and 66B, held by 6 Durkastdars.

Waste lands.—The fee registered against these lands is all that the Mirasi body is likely to realize at present, and that only when these lands are applied for. Intending applicants must, therefore, clearly understand that when they take up these lands they will have to pay the fee plus the taram assessment registered against each field. The swatantram fee on the waste of this village (182 acres and 85 cents.) amounts in the aggregate to Rupees 19-10-0.

The names and shares of the present Mirasidars are as under:—

No.	Name of Mirasidar.	Shares.
1	Appavu Pillai	$\frac{1}{2}$
2	Malai Virasami Pillai	$\frac{1}{2}$

NOTE.—When the field classification was modified under the Block System, it often happened that for purposes of symmetry lands excluded as Poramboke from the operations of this Department were included in blocks containing lands classified and assessed. In the Memoirs attached to the Village Register, the blocks are referred to, as containing such and such numbers, placed in such and such classes without any explanation, though some of the numbers may be Poramboke. When from this cause any question arises as to whether a particular number in a particular block is assessed or Poramboke, the entry in the Register alone must determine it.

W. WILSON,
Director of Revenue Settlement.
