

DESCRIPTIVE MEMOIR OF PUNDI OF THE MADURANTAKAM TALUK.

SITUATION. This village is situated 10 miles south-east of Madurantakam.

AREA. The total area prior to Survey was, omitting fractions 209 acres ; by Survey it is 190 acres ; decrease 19 acres.

It must be distinctly borne in mind that deductions of 16 and 25 per cent. have been made from the gross produce of wet and dry lands respectively, on account of unfavorable seasons, and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke, in any Survey field does not confer on the cultivator of that field the right of entering on such poramboke, or of, in any way interfering with it, and any unauthorized encroachment on such poramboke will be severely dealt with. This applies to both Government and Inam lands, Survey excess to the extent of 10 per cent. being allowed to the Inamdars, free of charge, under Board's Circular No. 173.

DEMARICATION. This village contains 2 Kandams, or sub-divisions and 45 Survey fields.

The demarcation marks erected are:—

Boundary Stones.		Offsets.		Field Stones.

IRRIGATION. This village is irrigated by a rain fed Tank. The irrigation is ordinary. The irrigated lands have accordingly been placed in the 2nd group. The dry lands are also placed in the 2nd group.

The revised irrigated area of the Government occupied lands is 29 acres and 97 cents, assessed at Rupees 90 for a single crop.

KUDI MARAMAT. The ryots have undertaken to keep the sluice clear of silt and to clear distributing channels when needed, at their own cost, as per separate statement.

CROPS. The acreage of the crops cultivated in Fasli 1286, as per Karnam's accounts, is as under :—

SETTLEMENT. Commencing from the frontier of Vemani village, block A, a tract of inferior red loam poorly irrigated by the Tank on a high level, comprising Nos. 1 to 4, 9 to 16, 18 to 20, 44 and 45 is assessed in class VI wet and VII dry. East and north of A, block B, a patch of worst black loam situated round and about the village site and similarly irrigated on a low level, comprising Nos. 5 to 8, 17, 22 to 26, 32 and 33 is assessed in class VI wet and VII dry. East of B, block C, a level of inferior black clay poorly irrigated by the above source on a high level, comprising Nos. 21, 27 to 31 and 34 to 43 is assessed in class VI wet and VII dry. There are no Manavari or lands irrigated by baling in this village.

The following table exhibits the revised assessment of the village :—

The land assessment for Fasli 1286 was Rupees 118; by Settlement it is Rupees 158; increase Rupees 40. The former wet land assessment was charged at rates varying from Rupees 2-10-5 to Rupees 3-9-7 an acre. The ordinary dry lands were held at rates varying from Annas 10-7 to Annas 15-11 an acre.

SECOND CROP. No lands have been compounded for as permanent double crop.

SAMUDAYAM. There are no common lands in this village.

MIRASI TENURE. As the Government have recognized the Mirasidar's claim to a percentage fee (Swatantram) on the taram assessment, the following arrangements are made for its future collection and payment.

The fee is fixed at 2 Annas in the Rupee of assessment of both dry and wet lands, for which the lands are divided into (i) Pangu, (ii) Durkast, and (iii) Waste.

Pangu lands.—This is an Ekabogam village and all the Mirasi lands are entered in the name of Danakoti Ammal. The fee registered against these lands is at present a mere matter of account and need not be collected, as the Mirasidar herself holds the lands. But if these lands hereafter become waste by relinquishment and are taken up again by a stranger, they will be chargeable with the fee plus the taram assessment, and the fee thus collected will be payable to the Mirasi body.

Durkast lands.—These are not at present liable to the payment of the fee as the pattahdars have hitherto held them free of any such payment. Consequently no fee has been registered against these lands, but should they hereafter become waste by relinquishment and be taken up again on Durkast, they will be dealt with in the same manner as registered Pangu lands, and the fee will be chargeable on them at the rate of 2 Annas per Rupee of assessment.

The lands free of Swatantram till resigned are Nos. 12, 19, 37 and 42, held by 2 Durkastdars.

Waste lands.—The fee registered against these lands is all that the Mirasi body is likely to realize at present, and that only when these lands are applied for. Intending applicants must, therefore, clearly, understand that when they take up these lands they will have to pay the fee plus the taram assessment registered against each field. The Swatantram fee on the waste of this village 10 acres and 10 cents.) amounts in the aggregate to Rupees 1-7-0.

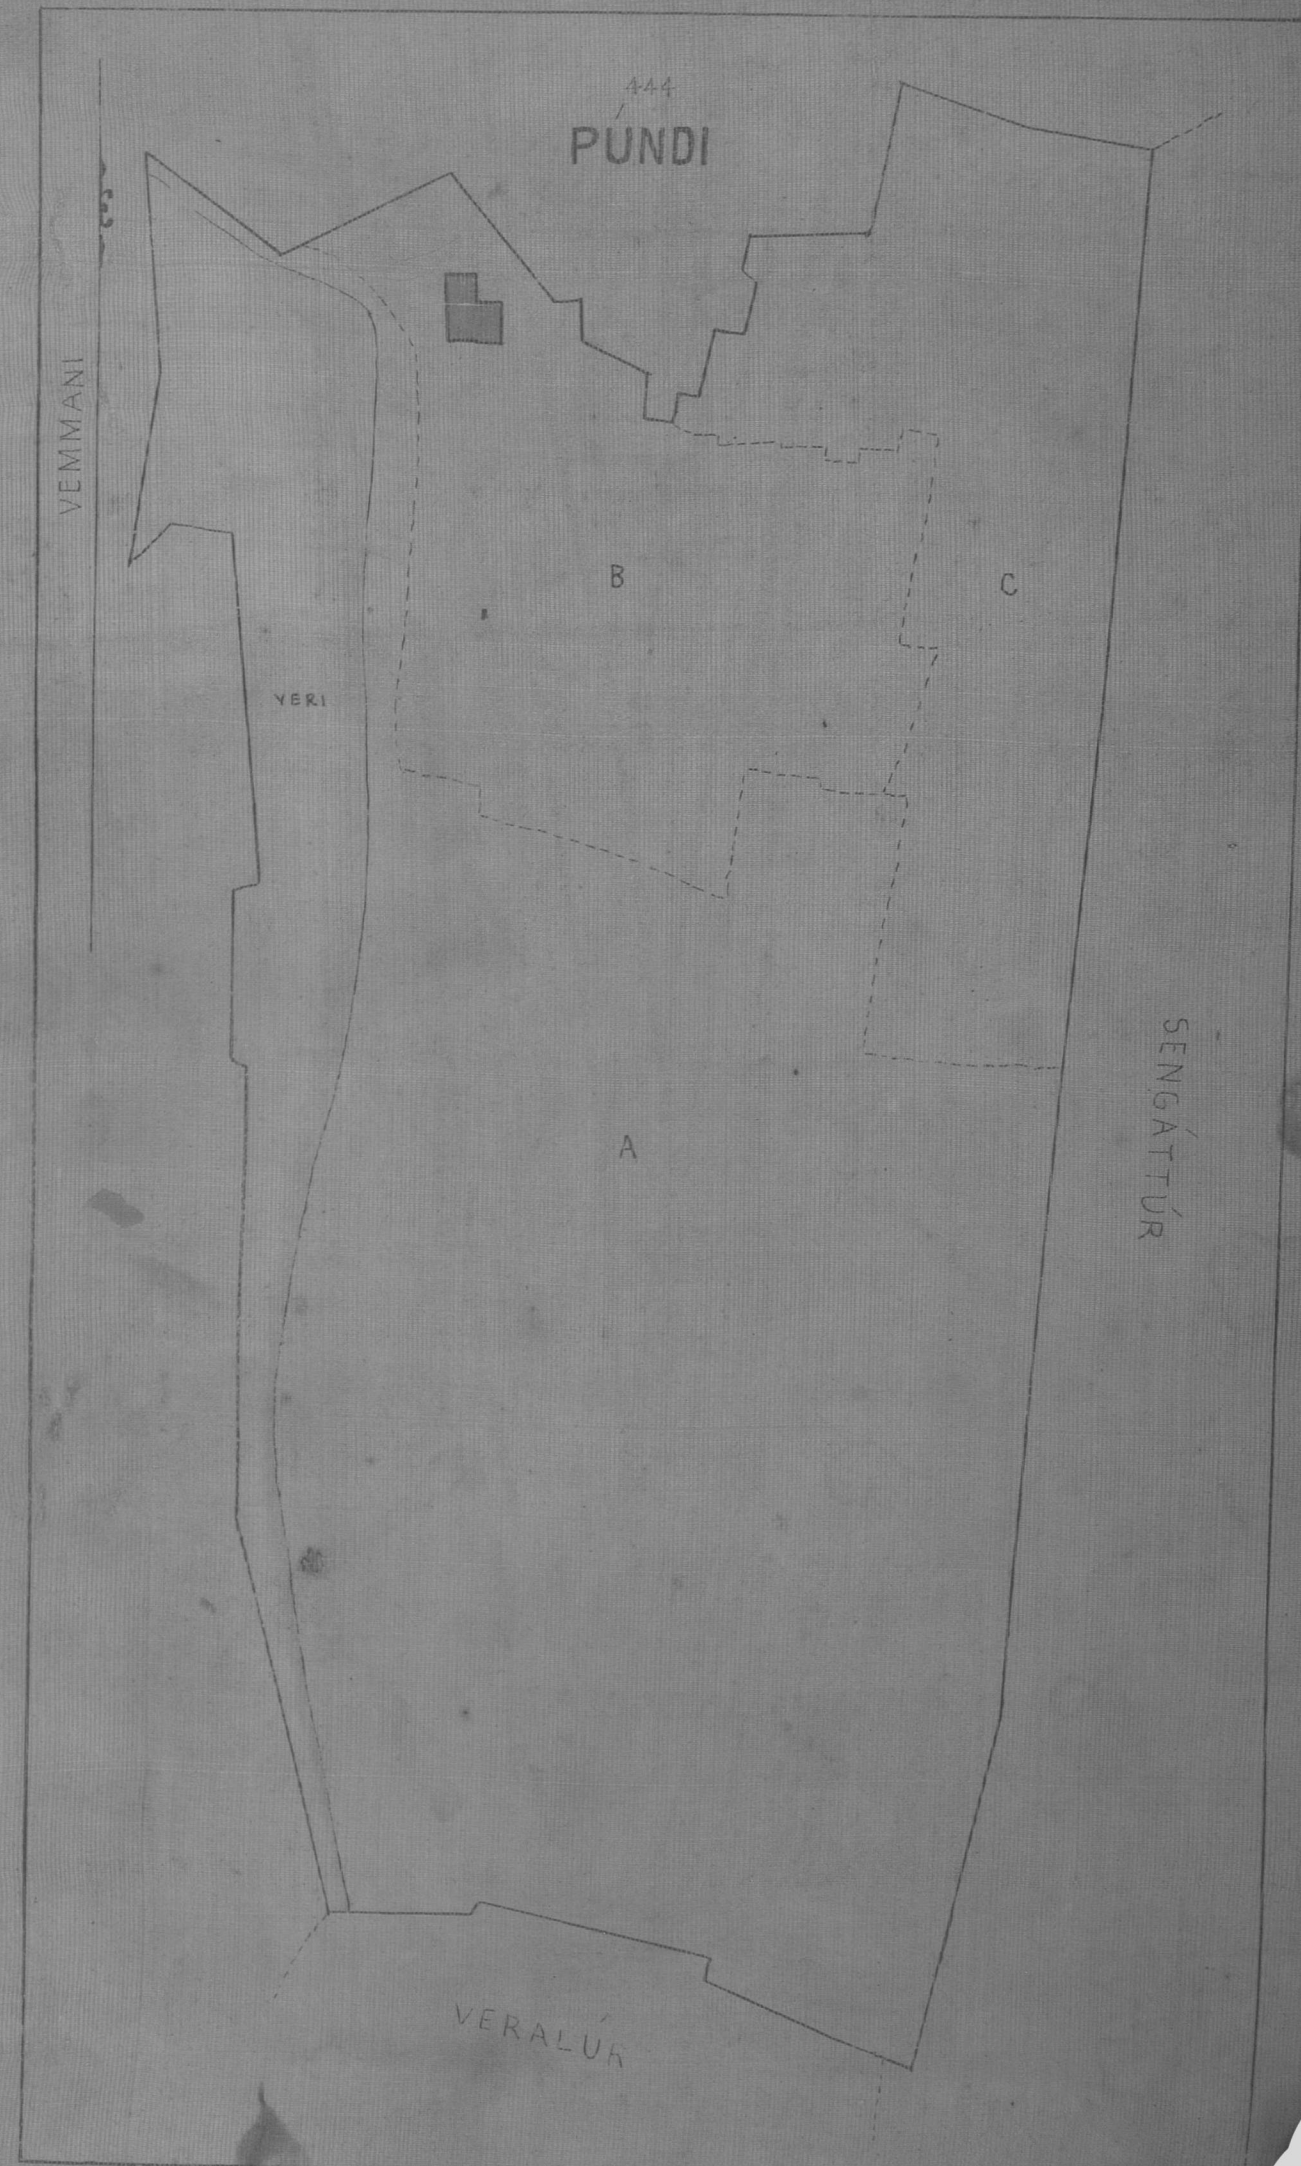

PASTURAGE AND FIRE WOOD JUNGLE. Nos. 2, and 39, amounting to 4 acres and 25 cents have been set aside for this purpose.

BUILDING SITE. Is sufficient for the present requirements. No new enclosure is to be made or new building erected without premission in future.

NAMS. The following lands are held tax-free :—

NOTE.—When the field classification was modified under the Block System, it often happened that for purposes of symmetry lands excluded as Poramboke from the operations of this Department were included in blocks containing lands classified and assessed. In the Memoirs attached to the Village Register, the blocks are referred to, as containing such and such numbers, placed in such and such classes without any explanation, though some of the numbers may be Poramboke. When from this cause any question arises as to whether a particular number in a particular block is assessed or Poramboke, the entry in the Register alone must determine it.

W. WILSON,
Director of Revenue Settlement.
