

No. 119.

DESCRIPTIVE MEMOIR OF MEYYUR OF THE SAIDAPET TALUQ.

Location. This village is situated 22 miles west of the Madras Fort.

Area. The total area prior to Survey was, omitting fractions, 1,101 acres; Survey it is 1,194 acres; net increase 93 acres.

It must be distinctly borne in mind that deductions of 16 and 25 per cent. have been made from the gross produce of wet and dry lands respectively, on account of unfavourable seasons, and on account of any roads, channels, tanks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any Government poramboke in any Survey field, does not confer on the cultivator of that field the right of entering on such poramboke, or of in any way interfering with it, and any unauthorized encroachment on such poramboke will be severely dealt with.

This applies to both Government and Inam lands, Survey excess to the extent of 10 per cent. being allowed to the Inamdars, free of charge, under Board's Circular No. 173.

Demarcation. This village contains 5 Kandams or sub-divisions, and 93 Survey fields.

The demarcation marks erected are :—

The revised assessment for Fasli 1285 is Rupees 500-0-0; by Settlement Rupees 452-4-0; total decrease Rupees 47-6-0.

The former wet land assessment is charged at Rupees 6-3-0 and Rupees 6-3-0 an acre. The Manavari lands were held at Rupees 4-8-0 an acre. The ordinary dry lands were held at Rupees 1-0-3 and Rupees 15-6-0 an acre. Second crop lands have been compounded for as permanent double crop.

Samudayam. The former lands amounting to 100 acres, 50 cents. of dry and 11 acres, 40 cents. of wet have now been divided amongst 20 shareholders, and have been entered in individual pattahs with the consent of the parties concerned.

Mirasi Tenure. As the Government have recognized the Mirasidar's claim to a percentage fee (mirasidari) on the tax assessed, the following arrangements are made for its future collection and payment.

The fee is fixed at 2 annas in the 100 of assessment of both dry and wet lands, for which the lands are divided into (I) Pangu, (II) Durkast and (III) Waste.

Pangu lands. The Mirasidars, 15 in number, have hitherto held 62 acres, and 80 cents. in 6 shares. These lands have now been distinguished, re-divided where necessary, and entered in individual pattahs. The fee registered against these

lands is at present a mere matter of account, and need not be collected, as the Mirasidars themselves hold the lands according to their respective shares. But if these lands hereafter become waste by relinquishment, and are taken up again either by a Mirasidar or by a stranger, they will be chargeable with the fee, plus the taram assessment, and the fee thus collected will be payable to the Mirasi body.

Durkast lands. These are at present liable to payment of the fee as the pattahdars have hitherto been free of any such payment. Consequently, no fee has been registered against these lands, but should they hereafter become waste by relinquishment, and be taken up again on Durkast, they will be dealt with in the same manner as resigned pangu lands, and the fee will be chargeable on them at the rate of 2 annas per Rupee of assessment.

Waste lands. The fee registered against these lands is all that the Mirasi body is likely to realize at present, and that only when these lands are applied for. Intending applicants must therefore, clearly understand, that when they take up these lands, they will have to pay the fee, plus the taram assessment registered against such field. The swantaram fee on the waste of this village 17 acres, 12 cents, amounts in the aggregate to Rupees 3-0-0.

The names and shares of the present mirasidars are as under :—

C. J. STUART, MAJOR
Major Deputy District Officer of Revenue Settlement

Revenue Settlement Office
Madras 1876

No. 120.

DESCRIPTIVE MEMOIR OF NOCHIMEDU OF THE SAIDAPET TALUQ.

Situation. This village is situated 22 miles west of the Madras Fort.
Area. The total area prior to Survey was, omitting fractions, 196 acres; by Survey it is 257 acres; net increase 61 acres.

It must be distinctly borne in mind that deductions of 16 and 25 per cent. have been made from the gross produce of wet and dry lands respectively, on account of unfavourable seasons, and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any Survey field, does not confer on the cultivator of that field the right of entering on such poramboke, or of in any way interfering with it, and any unauthorized encroachment on such poramboke will be severely dealt with.

This applies to both Government and Inam lands. Survey excess to the extent of 10 per cent. being allowed to the Inamdars, free of charge, under Board's Circular No. 173.

Demarcation. This village contains 3 Kandams or sub-divisions, and 119 Survey fields.

The demarcation marks erected are:—

Boundary stones.		Offsets.		Field stones.
Village.	Kandam.	Village.	Kandam.

Statistics. The Statistics of the village as ascertained by the Census of 1871, are as under:—

Houses.	Bazars.	Popula- tion.	Land Pattabs as per Settlement.		Wells.		Cattle.	Sheep.
			Single.	Joint.	Old.	New.

Irrigation. This village is irrigated by a large tank in Nemam and by a small rain-fed tank in the village. The irrigation is ordinary. The irrigated lands have accordingly been placed in the 2nd group. The dry lands are also placed in the 2nd group.
