**DESCRIPTIVE MEMOIR OF MADAVARAM
OF THE TRIVELLUR TALUK.**

SITUATION. This village is situated 18 miles north-east of Trivellur.

AREA. The total area prior to Survey was, omitting fractions, 577 acres; by Survey it is 450 acres; decrease 127 acres.

It must be distinctly borne in mind that deductions of 16 & 25 per cent. have been made from the gross produce of wet and dry lands respectively, on account of unfavourable seasons, and on account of any roads, channels, banks, paths &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any survey field, does not confer on the cultivator of that field, the right of entering on such poramboke, or of in any way interfering with it, and any unauthorized encroachment on such poramboke will be severely dealt with. This applies to both Government and Inam land, survey excess to the extent of 10 per cent. being allowed to the Inamdars, free of charge, under Board's Circular No. 173.

D VENCATA ROW,

Ag. Assistant Director of Revenue Settlement

NOTE.—When the field classification was modified under the Block System, it often happened that for purposes of symmetry lands excluded as Poramboke from the operations of this Department were included in blocks containing lands classified and assessed. In the Memoirs attached to the Village Register, the blocks are referred to, as containing such and such numbers, placed in such and such classes without any explanation, though some of the numbers may be Poramboke. When from this cause any question arises as to whether a particular number in a particular block is assessed or Poramboke, the entry in the Register alone must determine it.

W. WILSON,
Director of Revenue Settlement.
