

DESCRIPTIVE MEMOIR OF SIYAPPANJERI OF THE
TRIVELLUR TALUK.

SITUATION. This village is situated 16 miles north-east of Trivellur.

AREA. The total area prior to Survey was, omitting fractions 86 acres; by Survey it is 89 acres; increase 3 acres.

It must be distinctly borne in mind that deductions of 16 and 25 per cent. have been made from the gross produce of wet and dry lands respectively, on account of unfavorable seasons, and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke, in any Survey field, does not confer on the cultivator of that field, the right of entering on such poramboke, or of, in any way interfering with it, and any unauthorized encroachment on such poramboke, will be severely dealt with. This applies to both Government and Inam lands, Survey excess to the extent of 10 per cent. being allowed to the Inamdars, free of charge, under Board's Circular No. 173.

DEMARCATIION. This village contains 1 Kandam, or sub-division and 27 Survey fields.

The demarcation marks erected are:—

STATISTICS. The statistics of the village, as ascertained by the Census of 1871, are as under:—

IRRIGATION. This village is irrigated by a rain fed Tank, the Siyappanjeri, Yeri. The irrigation is ordinary. The irrigated lands have accordingly been placed in the 2nd group. The dry lands are also placed in the 2nd group.

The revised irrigated area of the Government occupied lands is 26 acres and 43 cents, assessed at Rupees 104-8-0 for a single crop.

KUDI-MARAMAT. The ryots have undertaken to clear the distributing channels when needed, at their own cost, as per separate statement.

CROPS. The acreage of the crops cultivated in Fasli 1285 as per Karnam's accounts, is as under :—

SETTLEMENT Commencing from the frontier of Arani Ponneri Taluk the entire irrigated area is assessed in class IV and the dry lands are assessed in class V. There are no Manavari lands in this village. The lands irrigated by baling are assessed at one Rupee an acre less than the rate assigned to the block in which they are situated.

The following table exhibits the revised assessment of the Government occupied lands of the village :—

Description of land.	Block.	Class.	IRRIGATED.						DRY.

Total...	...	...	...	...	26	43	104	8	...	...	7	93	11	15

The land assessment for Fasli 1285 was Rupees 136 ; by Settlement it is Rupees 116 ; decrease Rupees 20. The former wet land assessment was charged

at Rupees 5-3-2 and the ordinary dry lands were charged at Rupees 2-0-2 an acre.

SECOND CROP. No lands have been compounded for as permanent double crop.

SAMUDAYAM. There are no common lands in this village.

MIRASI TENURE. As the Government have recognized the Mirasidar's claim to percentage fee (swatantram) on the taram assessment, the following arrangements are made for its future collection and payment.

The fee is fixed at 2 Annas in the Rupee of assessment of both dry and wet lands for which the lands are divided into (i) Pangu, (ii) Durkast, and (iii) Waste.

Pangu lands.—The Mirasidars Sambaraju, Ramannja Rayar and Kristna-Rayar have hitherto held jointly 25 acres and 89 cents. in 1 share. These lands have now been distinguished, re-divided where necessary, and entered in individual pattahs. The fee registered against these lands is at present a mere matter of account and need not be collected, as the Mirasidars themselves hold the lands according to their respective shares. But if these lands hereafter become waste by relinquishment and are taken up again either by a Mirasidar or by a stranger, they will be chargeable with the fee plus the taram assessment, and the fee thus collected will be payable to the Mirasi body.

Durkast lands.—These are not at present liable to the payment of the fee as the pattahdars have hitherto held them free of any such payment. Consequently no fee has been registered against these lands, but should they hereafter become waste by relinquishment and be taken up again on Durkast, they will be dealt with in the same manner as registered Pangu lands, and the fee will be chargeable on them at the rate of 2 Annas per Rupee of assessment.

Waste lands.—The fee registered against these lands is all that the Mirasi body is likely to realize at present, and that only when these lands are applied for. Intending applicants must therefore clearly understand that when they take up these lands they will have to pay the fee plus the taram assessment registered against each field. The swatantram fee on the waste of this village (1 acre and 11 cents.) amounts in the aggregate to Rupees 0-8-0.

The lands free of swatantram till resigned are Nos. 1B, 4B, 6 and 28B held by 3 Durkastdars.

PASTURAGE. No lands have been specially set aside for this purpose ; the cattle are fed on the pattah lands and Government waste.

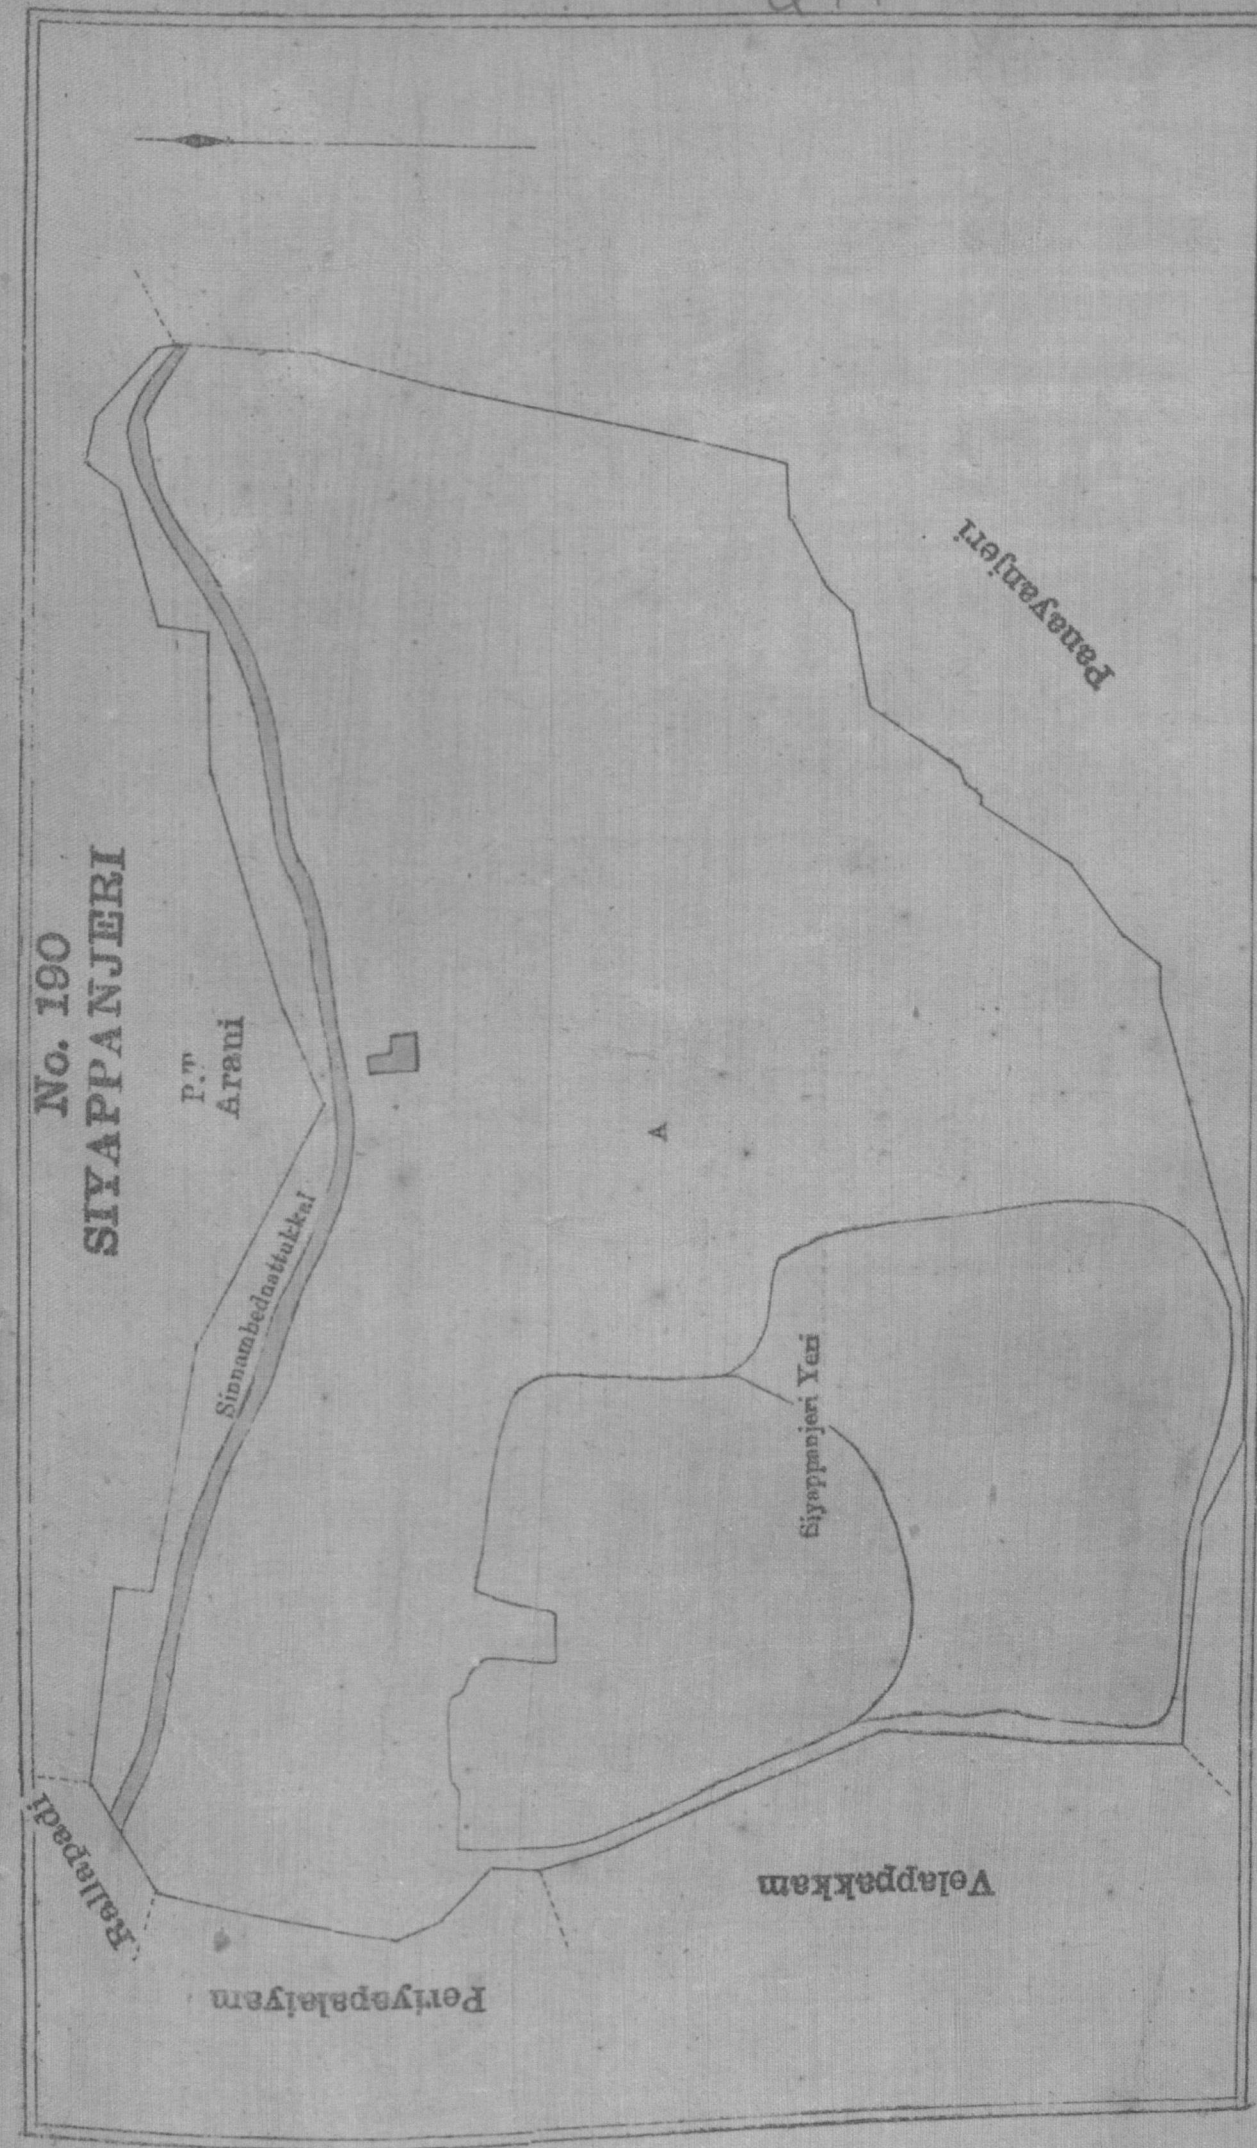

BUILDING SITE. Is sufficient for present requirements. No new enclosure is to be made or new building erected without permission in future within the limits of the building site.

INAMS

The following lands are held tax-free or on favorable terms:—

NOTE.—When classification was modified under the Block System, it often happen purposer of symmetry lands excluded as Poramboke from the operations of this Department were included in blocks containing lands classified and assessed. In the Memoirs attached to the Village Register, the blocks are referred to, containing such and such numbers, placed in such and such classes without any explanation, though some of the numbers may be Poramboke. When from this cause any question arises as to whether a particular number in a particular block is assessed or Poramboke, the entry in the Register alone must determine.
