

**DESCRIPTIVE MEMOIR OF KAMMANTANGAL OF THE
ARCOT TALUK.**

1. **SITUATION.** This village is situated about 18 miles south-east of Arcot.
2. **AREA.** The boundary of this village remains unchanged by Settlement. The area prior to Settlement was, omitting fractions, 281 acres; by Settlement it is 306 acres; increase 25 acres.
3. It must be distinctly borne in mind that a deduction of 20 per cent. has been made from the gross produce on account of unfavorable seasons and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any Government Poramboke in any Survey field does not confer on the cultivator of that field the right of entering on such Poramboke or of in any way interfering with it and any unauthorized encroachment on such Poramboke will be severely dealt with. This applies to both Government and Inam lands, Survey excess to the extent of 10 per cent. being allowed free in respect to Inams under Board's Circular No. 127.
4. **DEMARCATION.** This village, as now formed by Settlement, contains 2 Khandams or sub-divisions and 68 Survey fields.
The demarcation marks erected and standing are:—

Boundary stations.	Division stations.	Field stones.
4	5	237

The village officers have given receipts for them and are now responsible for their up-keep.

5. **STATISTICS.** The Statistics of the village, as ascertained by the Census of 1881, are as under:—

Bazars.	Houses.	Population.	Land Patches as per Settlement.	Cattle.	Sheep.	Wells.
---	4	24	17	3	---	5

6. **IRRIGATION.** The revised area and assessment under each source of irrigation and the class assigned to each with reference to its supply, capacity and the ability of the irrigation, are as under:—

7. The unirrigated lands are placed in the 1st group.

8. Baling.	None.
------------	-------

No deduction for lift is made in the case of lands partly supplied by wells in wet ayacut.

11. **SETTLEMENT.** Commencing from the frontier of Pullivakkam village, block A, a plot of good red loam, comprising Nos. 37, 43 to 45, 47 to 61 and 64, irrigated by yeri, is assessed in class VIII wet and Nos. 34 to 36, 62, 63, 65, 66 and 68, in class VI dry. North of A, block B, a tract of ordinary red loam, in which the village-site is situated and comprising Nos. 38 to 42 and 46, irrigated by yeri, is assessed in class XI wet and Nos. 16 to 26, 32, 33 and 67, in class VII dry. East of B, block C, a strip of ordinary red sand, comprising Nos. 1 to 15 and 27 to 31, is assessed in class VIII dry.

The above classification does not apply to the Poramboke lands included in these blocks.

No lands have been registered as permanent double crop in this village.

The lands in blocks A and B, may be compounded for at ½ in future;

All Inams have been registered as single or double crop with reference to the entries in the Title-deeds, issued by the Inam Commissioner and in the case of such as have not been dealt with by him according to the present Revenue accounts

Double crop Inams whether in single or double crop blocks or ayacuts will be entitled to water free of charge for 2nd crop & single crop Inams in double crop block or ayacuts can only claim water free of charge for one crop. If a second is raised water rate must be paid. Single crop Inams can be compounded for at the same rate as the Government lands in the blocks in which they are situated if the Inamdars wish

12. The following table exhibits the revised assessment of the occupied area in the village.
