

DESCRIPTIVE MEMOIR OF KIRIJAPURAM OF THE ARCOF TALUK.

1. **SITUATION.** This village is situated about 35 miles east of Arcot.
2. **AREA.** The boundary of this village remains unchanged by Settlement. The area prior to Settlement was, omitting fractions, 233 acres; by Settlement it is 262 acres; increase 29 acres.
3. It must be distinctly borne in mind that a deduction of 20 per cent. has been made from the gross produce on account of unfavorable seasons and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any Government Poramboke in any Survey field does not confer on the cultivator of that field the right of entering on such Poramboke, or of in any way interfering with it and any unauthorized encroachment on such Poramboke will be severely dealt with. This applies to both Government and Inam lands, Survey excess to the extent of 10 per cent. being allowed free in respect to Inams, under Board's Circular No. 127.

4. **DEMARICATION.** This village, as now formed by Settlement, contains 2 Khandams or sub-divisions and 100 Survey fields.

The demarcation marks erected and standing are :—

Boundary stations.	Division stations.	Field stones.
10	2	403

The village officers have given receipts for them and are now responsible for their up-keep.

5. **STATISTICS.** The Statistics of the village, as ascertained by the Census of 1881, are as under :—

a. HALING.

— No deduction for lift is made in the case of lands partly supplied by wells in the wet aynat.

8. WITHIN WELLS LIABLE TO TIRVAJASTI. Besides lands under Doruvu, Ittak & Dasabandham wells, all irrigation from wells in the irrigated area when supplied to lands registered as unirrigated are liable to water rate.

11. SETTLEMENT. Commencing from the frontier of Menallur Village, block A, a tract of ordinary black loam, comprising Nos. 1 to 5 and 8 to 10, irrigated by Mamandur yeri kalvoy and tangal, is assessed in class V wet. South of A, block B, a plot of inferior black loam, in which the village site is situated, comprising Nos.

6, 7, 20 to 31, 41, 42, 46, 47, 49, 50, 72 to 75, 80 and 81, irrigated by Mamandur yeri kalvey and tangal, is assessed in class VII wet and No. 76, in class VII dry. South and east of B, block C, a tract of inferior red loam, comprising Nos. 35, 37 to 40, 43 to 45, 48, 51 to 55, 59, 60, 62, 70, 71 and 89, irrigated by the joint sources of Mamandur yeri kalvey and tangal, is assessed in class X wet and Nos. 36, 56 to 58, 61 and 63 to 69, in class VIII dry. South of C, block D, a stretch of ordinary red sand, comprising Nos. 77 to 79, 82 to 85, 87 to 93 and 98, is assessed in class VIII dry. South of D, block E, a plot of inferior red sand, comprising Nos. 94 to 97, 99 and 100, is assessed in class IX dry.

The above classification does not apply to the Poramboke lands included in these blocks.

The lands in block A and in part of B, have been registered as permanent double crop and charged with one-half in addition to the 1st crop assessment.

Fields uncultivated in them in seasons when the supply of water fails will be entitled to remission of second crop assessment (Vide G. O. No. 580 dated 14th July 1874). If second crop is raised on the single crop lands of the blocks B & C, it will be charged with one-half in addition to the 1st crop assessment.

All Inams have been registered as single or double crop with reference to the entries in the Title-deeds issued by the Inam Commissioner and in the case of such as have not been dealt with by him according to the present Revenue account.

Double crop Inams whether in single or double crop blocks or ayacuts will be entitled to water free of charge for the 2nd crop and single crop Inams in double crop blocks or ayacuts can only claim water free of charge for one crop. If a second or raised water rate must be paid. Single crop Inams can be compounded for at the same rates as the Government lands in the blocks in which they are situated if the Inamdar wish.
