DESCRIPTIVE MEMOIR OF SETTITANGAL OF THE
ARCOOT TALUK.

1. **SITUATION.** This village is situated about 25 miles east of Arcot.
2. **AREA.** The boundary of this village remains unchanged by Settlement. The area prior to Settlement was, omitting fractions, 165 acres; by Settlement it is 343 acres; increase 178 acres.
3. It must be distinctly borne in mind that a deduction of 20 per cent. has been made from the gross produce on account of unfavorable seasons and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any Government Poramboke in any Survey field, does not confer on the cultivator of that field the right of entering on such Poramboke or of in any way interfering with it and any unauthorized encroachment on such Poramboke will be severely dealt with. This applies to both Government and Inam lands, Survey excess to the extent of 10 per cent. being allowed free in respect to Inams, under Board's Circular No. 127.
4. **DEMARICATION.** This village, as now formed by Settlement, contains 3 Khandams or sub-divisions and 126 Survey fields.

The demarcation marks erected and standing are:—

Boundary stations.	Division stations.	Fields enclosed.
11	3	535

The village officers have given receipts for them and are now responsible for their up-keep.

5. **STATISTICS.** The Statistics of the village, as ascertained by the Census of 1881, are as under:—

7. The unirrigated lands are placed in the 1st group.

8. **BALING.** A portion of one Rupee per acre will have to be made from the assessment of the 1st group and half a Rupee from that of the 2nd crop of all irrigated lands entered in the Register as under wells or baling.

No deduction for lift is made in the case of lands partly supplied by wells in the wet ayacut.

9. **WITHIN WELLS LIABLE TO TIRYAJASTI.** Besides lands under Doruvu, Hilek and Dasabandam wells, all irrigation from wells in the irrigated area when applied to lands registered as unirrigated are liable to water rate.

10. **CROPS.** The acreage of the crops cultivated in Fash 1291, as per Curram's

The above classification does not apply to the Perambolke lands included in these blocks.

The lands in blocks D and F and in part of E, have been registered as permanent double crop and charged with 1 in addition to the 1st crop assessment. Fields uncultivated in them in seasons when the supply of water fails will be entitled to remission of 2nd crop assessment. (Vile G, O, No. 830, dated 14 July 1874).

If second crop is raised on the lands in blocks B, C, G and in part of E, it will be charged with 1 in addition to the 1st crop assessment.

All Inams have been registered as single or double crop with reference to the entries in the Title-deeds issued by the Inam Commissioner and in the case of such as have not been dealt with by him according to the present Revenue accounts, double crop Inams whether in single or double crop blocks or ayacuts will be entitled to water free of charge for 2nd crop and single crop Inams in double crop blocks or ayacuts can only claim water free of charge for one crop. If a second is raised water rate must be paid. Single crop Inams can be compounded for at the same rates as the Government lands in the blocks in which they are situated if the Inamdars wish.
