

DESCRIPTIVE MEMOIR OF VALAKACHI OF THE
GUDIYATAM TALUK.

102 201

1. SITUATION. This village is situated about 4 miles south-east of Gudiyatam.

2. AREA. The boundary of this village remains unchanged by Settlement. The area prior to Settlement was, omitting fractions, 226 acres; by Settlement it is 266 acres: increase 40 acres.

3. It must be distinctly borne in mind that a deduction of 20 per cent. has been made from the gross produce on account of unfavorable seasons and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any Government Poramboke in Survey field, does not confer on the cultivator of that field the right of entering such Poramboke, in any way interfering with it and any unauthorized encroachment on Poramboke will be severely dealt with. This applies to both Government and Inam lands; Survey excess to the extent of 10 per cent. being allowed free, in respect to Inam, under Board's Circular No. 127.

4. DEMARCATION. This village, as now formed by Settlement, contains 4 Chardams or sub-divisions and 121 Survey fields.

The demarcation marks erected and standing are:—

Under	Division stations.	Field stones.
...	30	463

The village officers have given receipts for them and are now responsible for their up-keep.

5. STATISTICS. The Statistics of the village, as ascertained by the census of 1881, are as under:—

Bazara.	Houses.	Population.	Land Pattas as per Settlement.	Cattle.	Sheep.	Wells.
...	66	459	41	360	110	26

11. **SETTLEMENT.** Commencing from the frontier of Amatanakuppam village, block A, an extent of best black sand in which the village site is situated, comprising Nos. 16 to 23, 25, 27 and 28, irrigated by Mittakaskkali, is assessed in class VIII wet and Nos. 69 to 73, 75, 76, 78, 80, 82, 84, 86, 88, 90, 92 to 110, 112 to 114 and 119, irrigated by Pallakaskkali, is assessed in class VI wet and Nos. 1 to 13, 21, 23 to 44, 111, 115 to 118, 120 and 121, in class VI dry. Almost surrounded by A, block B, a plot of good black loam, comprising Nos. 63 to 66, irrigated by Mittakaskkali, is assessed in class V wet and Nos. 46 to 48, 51 to 62, 74, 76, 79 to 84 and 96 to 98, irrigated by Pallakaskkali, is assessed in class IV wet and Nos. 45, 49 and 50, in class V dry.

The above classification does not apply to the Poramboke lands included in these blocks.

The lands in parts of blocks A and B, placed in classes VI and IV, have been registered as permanent double crop and charged with one half in addition to the 1st crop assessment.

Fields uncultivated in them in seasons when the supply of water fails, will be entitled to remission of 2nd crop assessment (Vide G. O. No. 389, dated 14 July 1874).

If second crop is raised on the single crop lands of the block A, under the irrigation of Pallakaskkali it will be charged with one half in addition to the 1st crop assessment.

The lands in other parts of the blocks A and B, placed in classes VIII and V under the irrigation of Mittakaskkali have been compounded for as permanent double crop at 1/2.

The single crop lands of the above blocks under the same irrigation may also be compounded for at 1/2 in future.

All Inams have been registered as single or double crop with reference to the entries in the Title-deeds, issued by the Inam Commissioner and in the case of Inams as have not been dealt with by him according to the present Revenue accounts.

Double crop Inams whether in single or double crop blocks or ayaents, will be entitled to water free of charge for second crop and single crop Inams in double crop blocks or ayaents can only claim water free of charge for one crop. If a second crop is raised water rate must be paid. Single crop Inams can be compounded for at the same rate as Government lands in the blocks in which they are situated if the Inamry wish.

The following table exhibits the revised assessment of the occupied area in the village.
