

**DESCRIPTIVE MEMOIR OF MANIYAMPATTU OF THE
TINDIVANAM TALUK.**

1. **SITUATION.** This village is situated about 11 miles south-west of Tindivanam.

2. **AREA.** The boundary of this village remains unchanged by Settlement. The area prior to Settlement was, omitting fractions, 317 acres; by Settlement it is 288 acres; decrease 29 acres.

3. It must be distinctly borne in mind that a deduction of 20 per cent. has been made from the gross produce on account of unfavorable seasons and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any Government Poramboke in any survey field does not confer on the cultivator of that field, the right of entering on such Poramboke, or of in any way interfering with it, and any unauthorized encroachment on such Poramboke will be severely dealt with. This applies to both Government and Iham lands; survey excess to the extent of 10 per cent. being allowed free, in respect to Ihams, under Board's Circular No. 127.

4. **DEMARCATIION.** This village, as now formed by Settlement, contains 2 Khandams or sub-divisions and 82 Survey fields.

No new fields have been laid out since Survey.

The demarcation marks erected and standing are :—

Boundary Stations.	Division Stations.	Field Stones.
19	4	300

The village officers have given receipts for them and are now responsible for their upkeep.

5. **STATISTICS.** The Statistics of the village, as ascertained by the Census 1881, are as under :—

 7. The unirrigated lands are placed in the 1st Group.

8. BALING. None.

No deduction for lift is made in the case of lands partly supplied by wells in the wet ayacut.

Lands irrigated solely by Doruvu, Itifac and Dasabandham wells, are not liable to any charge for second crop.

9. WITHIN WELLS LIABLE TO TIRVAJASTI. Besides lands under Doruvu, Itifac and Dasabandham wells, all irrigation from wells in the irrigated area when supplied to lands registered as unirrigated are liable to water-rate.

10. CROPS. The acreage of the crops cultivated in Fasli 1297, as per Karnam's account, is as under:—

Names of Crops.	Wet or Dry.	Area in Acres.

11. **SETTLEMENT.** Commencing from the frontier of Vallam village, block A, an extent of inferior red sand in which the village-site, is situated, comprising No. 75 and irrigated by Hissa Tank, is assessed in class VIII wet, and Nos. 1 to 28, 31 to 39, 44, 58 and 59, in class VII dry. South of A, block B, a tract of ordinary red sand, comprising Nos. 29, 30, 42, 43, 45 and 47, is assessed in class VI dry. South and west of B, block C, a similar tract of inferior red loam, comprising Nos. 46, 48 to 51, 66 to 74 and 76 to 82 and irrigated by Hissa Tank, is assessed in class VII wet. East of C, block D, an extent of the best red sand, comprising Nos. 40, 41, 52 to 57 and 60 to 65, is assessed in class IV dry.

The above classification does not apply to the Poramboke lands included in these blocks.

No lands have been registered as permanent double crop in this village.

The second crop on lands of blocks A and C, may be compounded for as permanent double crop at $\frac{1}{4}$ of the 1st crop assessment in future.

All Inams have been registered as single or double crop with reference to the entries in the Title-Deeds issued by the Inam Commissioner, and in the case of such as have not been dealt with by him according to the present revenue accounts.

Double crop Inams whether in single or double crop blocks or ayacuts will be entitled to water free of charge for second crop, and single crop Inams in double crop blocks or ayacuts can only claim water free of charge for one crop. If a second is raised, water-rate must be paid. Single crop Inams can be compounded for at the same rates as the Government lands in the blocks in which they are situated, if the Inamdars wish.
