

**DESCRIPTIVE MEMOIR OF SINGANIKUPPAM OF THE
TINDIVANAM TALUK.**

1. SITUATION. This village is situated about 10 miles north of Tindivanam.

2. AREA. The boundary of this village remains unchanged by Settlement. The area prior to Settlement was omitting fractions, 152 acres ; by Settlement it is 226 acres ; increase 74 acres.

3. It must be distinctly borne in mind that a deduction of 20 per cent. has been made from the gross produce on account of unfavourable seasons and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any Government Poramboke in any survey field does not confer on the cultivator of that field the right of entering on such Poramboke, or of in any way interfering with it, and any unauthorized encroachment on such Poramboke will be severely dealt with. This applies to both Government and Inam lands ; Survey excess to the extent of 10 per cent. being allowed free, in respect to Inams, under Board's Circular No. 127.

4. DEMARCATION. This village, as now formed by Settlement, contains 1 Khandam or sub-division and 50 Survey fields.

No new fields have been laid out since Survey.

The demarcation marks erected and standing are :—

Boundary Stations.	Division Stations.	Field Stones.
17	...	307

The village officers have given receipts for them and are now responsible for their upkeep.

5. STATISTICS. The Statistics of the village, as ascertained by the Census of 1881, are as under :—

Bazaars.	Houses.	Population.	Land Pattahs as per Settlement.	Cattle.	Sheep.	Wells.

7. The unirrigated lands are placed in the 1st Group.

8. **BALING.** None.

No deduction for lift is made in the case of lands partly supplied by wells in the wet ayacut.

Lands irrigated solely by Doruvu, Itifac and Dasabandham wells, are not liable to any charge for second crop.

9. **WITHIN WELLS LIABLE TO TIRVAJASTI.** Besides lands under Doruvu, Itifac and Dasabandham wells, all irrigation from wells in the irrigated area when supplied to lands registered as unirrigated are liable to water-rate.

10. **CROPS.** The acreage of the crops cultivated in Fasli 1297, as per Karnam's account, is as under:—

11. **SETTLEMENT.** Commencing from the frontier of Dadapuram village, block A, an extent of the worst red sand comprising Nos. 34 to 41, 43, 44 and 46 to 50, is assessed in class VIII dry. South-east of A, block B, a plot of inferior red sand comprising Nos. 33B and C, and irrigated by Yeri, is assessed in class IX wet, and Nos. 1, 2 and 33A and D to K, in class VII dry. West of B, block C, a tract of ordinary red loam comprising Nos. 12, 13, 14A to D and G and 28 to 32 and irrigated by the same source, is assessed in class VII wet, and Nos. 14E and F, 27, 42 and 45, in class V dry. South-east of D, block E, a tract of inferior red loam comprising Nos. 3B and 4 to 11 and irrigated by Yeri, is assessed in class VIII wet, and No. 3A, in class VI dry.

The above classification does not apply to the Poramboke lands included in these blocks.

No lands have been registered as permanent double crop land in this village.

The second crop on lands of blocks B, C and E, may be compounded for as permanent double crop at $\frac{1}{6}$ of the 1st crop assessment in future.

All Inams have been registered as single or double crop with reference to the entries in the Tittle-Deeds issued by the Inams Commissioner, and in the case of such as have not been dealt with by him according to the present Revenue accounts.

Double crop Inams whether in single or double crop blocks or ayacuts will be entitled to water free of charge for the second crop and single crop Inams in double crop blocks or ayacuts can only claim water free of charge for one crop. If a second is raised, water-rate must be paid. Single crop Inams can be compounded for at the same rates as the Government lands in the blocks in which they are situated, if the Inamdars wish.
