

**DESCRIPTIVE MEMOIR OF KAMPATTU OF THE
TIRUKOILUR TALUK.**

1. SITUATION. This village is situated about 18 miles south of Tirukoilur.

2. AREA. The boundary of this village remains unchanged by Settlement.

The area prior to Settlement was, omitting fractions, 392 acres; by Settlement it is, 382 acres; decrease, 10 acres.

3. It must be distinctly borne in mind that a deduction of 50 per cent. has been made from the gross produce on account of unfavourable seasons and on account of any roads, channels, banks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any Government Poramboke in any survey field, does not confer on the cultivator of that field the right of entering on such Poramboke, or of in any way interfering with it, and any unauthorized encroachment on such Poramboke will be severely dealt with. This applies to both Government and Inam lands; Survey excess to the extent of 10 per cent. being allowed free, in respect to Inams, under Board's Circular No. 127.

4. DEMARCATION. This village, as now formed by Settlement, contains 2 Khandams or sub-divisions and 160 Survey fields.

No new fields have been laid out since Survey.

The demarcation marks erected and standing are:—

Boundary Stations.	Division Stations.	Field Stones.
16	3	138

The village officers have given receipts for them and are now responsible for their upkeep.

5. STATISTICS. The Statistics of the village, as ascertained by the Census of 1881, are as under:—

Deasar.	Houses.	Population.	Land Patahs as per Settlements.	Cattle.	Sheep.	Wells.
...	21	183	57	127	45	22

6. IRRIGATION The revised area and assessment under each source of irrigation and the class assigned to each with reference to its supply, capacity and the quality of the irrigation, are as under:—

The unirrigated lands are placed in the 1st Group.

8. BALING.

None.

No deduction for lift is made in the case of lands partly supplied by wells in the wet ayacut.

Lands irrigated solely by Doruvu, Itifac and Dasabandham wells are not liable to any charge for 2nd crop.

9. WITHIN WELLS LIABLE TO TIRUVASTI. Besides lands under Doruvu, Itifac and Dasabandham wells, all irrigation from wells in the irrigated area when supplied to lands registered as unirrigated are liable to under-rate.

10. CROPS. The acreage of the crops cultivated in Fash 1, 1909, as per Karmam's account, is as under:—

11. SETTLEMENT. Commencing from the frontier of Pachapalaiyam village, block A, an extent of inferior red loam, comprising Nos. 85 to 98 and 100, is assessed in class VI dry. Adjoining the boundary of Nennali village, block B, a patch of ordinary red loam, comprising Nos. 1 to 5, is assessed in class V dry. South of B, block C, a plot of worst red loam, comprising Nos. 6, 7, 31 to 34, 44 & 45, is assessed in class VII dry. West of C, block D, an extent of good red sand, in which Village-sites are situated, comprising Nos. 41 to 43, 46 to 49 and 57 to 64, is assessed in class V dry. West of D, block E, a patch of good red loam, comprising Nos. 54, 55, 72 and 75 to 77, irrigated by Yeri, is assessed in class V wet. East of E, block F, a tract of best red loam, comprising Nos. 16 to 20, 30, 55, 65, 67B and 68 to 71, irrigated by the same source, is assessed in class IV wet, and Nos. 67A, in class III dry. South of F, block G, a stretch of ordinary red loam, comprising Nos. 15, 21, 23, 24, 27 to 30, 35 to 38 and 78, irrigated by the above source, is assessed in class VI wet, and Nos. 14, 22, 40, 73 and 74, in class V dry. South of G, block H, a spread of ordinary red sand, comprising No. 9D, irrigated by the aforesaid source, is assessed in class VII wet, and Nos. 8, 9A to C, 10 to 13, 25, 26, 50 to 53, 56, 79 to 84 and 89, in class VI dry.

The above classification does not apply to the Poramboke lands included in these blocks.

No lands have been registered as permanent double crop in this village.

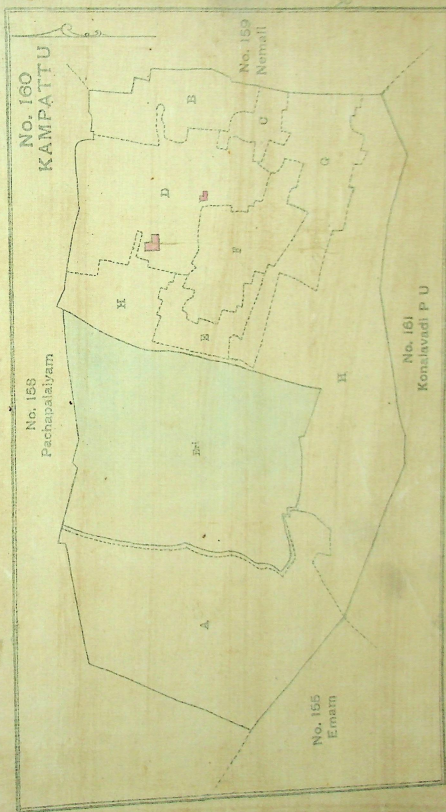

The second crop on lands of blocks E to H, may be compounded for as permanent double crop specially at the 1st crop assessment in future, a rate lower than the ordinary one having been allowed in consideration of the existence of numerous wells in wet ayacut.

All Inams have been registered as single or double crop with reference to the entries in the Title-Deeds issued by the Inam Commissioner, and in the case of such as have not been dealt with by him, according to the present revenue accounts.

Double crop Inams whether in single or double crop blocks or ayacuts will be entitled to water free of charge for second crop, and single crop Inams in double crop blocks or ayacuts can only claim water free of charge for one crop. If a second is raised, water-rate must be paid. Single crop Inams can be compounded for at the same rates as the Government lands in the blocks in which they are situated, if the Inamdars wish.
