3. It must be constantly borne in mind that a deduction of 15 per cent. in the case of wet lands irrigated by rivers and river fed tanks and channels and 20 per cent. in the case of all other wet and dry lands, has been made from the gross estimate on account of uncertain assessment and on account of any roads, channels, tanks, etc., that may have been measured as with the cultivated area. The fact of the inclusion, therefore, of any Government Pannabake in any Survey field does not confer on the cultivator of that field the right of encroaching on and Pannabake, or of in any way interfering with in, or any unauthorized encroachment on such Pannabake will be severely dealt with. This applies to both Government and Imm lands; Survey excess to the extent of 10 per cent. being allowed free in respect to Imm, under Board's Circular No. 127.
