

DESCRIPTIVE MEMOIR OF AMANJAKKI OF THE
PATTUKKOTTAI TALEK.

1. SITUATION. This village is situated about 25 miles South of Pattukkottai.

2. AREA. The boundary of this village remains unchanged by Settlement. The area prior to Settlement was, omitting fractions, 2,508 acres; by Settlement it is 2,508 acres.

3. It must be distinctly borne in mind that a deduction of 15 per cent, in the case of wet lands irrigated by rivers and river fed tanks and channels and 20 per cent, in the case of all other wet and dry lands, has been made from the gross produce on account of unfavorable seasons and on account of any roads, channels, tanks, paths, &c., that may have been measured in with the cultivated area. The fact of the inclosure, therefore, of any Government Poramboke in any Survey field does not confer on the cultivator of that field the right of entering on such Poramboke, or of, in any way interfering with it, and any unauthorized encroachment on such Poramboke will be severely dealt with. This applies to both Government and Inam lands; Survey excess to the extent of 10 per cent, being allowed free in respect to Inams, under Board's Circular No. 127.

4. DEMARCATION. This village, as now formed by Settlement, contains ... Khandams or Sub-divisions and 20 Survey fields.

No new fields have been laid out since Survey.

The demarcation marks erected and standing are:—

Boundary Stations.	Division Stations.	Field Stones.
12	17	64

The village officers have given receipts for them and are now responsible for their upkeep.

5. STATISTICS. The Statistics of the village, as ascertained by the Census of 1891, are as under:—

10. SETTLEMENT. 10 to 12, in class X dry. Survey Nos. 13 to 20, being Shrotriham lands, are entered under the head of Poramboke.

The above classification does not apply to the Poramboke lands included in these blocks.

No lands have been registered as permanent double crop in this village.

The second crop on lands of block A may, in future, be compounded for as permanent double crop at one-fifth of the first crop assessment.

All Inams have been registered as single or double crop with reference to the entries in the Title-Deeds issued by the Inam Commissioner and in the case of such as have not been dealt with by him according to the present Revenue accounts.

Double crop Inams whether in single or double crop blocks or ayacuts will be entitled to water free of charge for 2nd crop and single crop Inams in double crop blocks or ayacuts can only claim water free of charge for one crop. If second crop is raised, water-rate must be paid. Single crop Inams can be compounded for at the same rates as the Government lands in the blocks in which they are situated, if the Inamdats so wish.
