DESCRIPTIVE MEMOIR OF ADANUR OF THE
TIRUTTURAIPPUNDI TALUK.

1. **SITUATION.** This village is situated about 5 miles North-West of Tirutturappundi.

2. **AREA.** The boundary of this village remains unchanged by Settlement. The area prior to Settlement was, omitting fractions, 880 acres; by Settlement it is 407 acres; increase 17 acres.

3. It must be distinctly borne in mind that a deduction of 15 per cent, in the case of wet lands irrigated by rivers and river-fed tanks and channels and 20 per cent, in the case of all other wet and dry lands, has been made from the gross produce on account of unfavorable seasons and on account of any roads, channels, tanks, ponds, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any Government Poramboke in any Survey field does not confer on the cultivator of that field the right of encroachment on such Poramboke, or of, in any way interfering with it, and any unauthorized encroachment on such Poramboke will be severely dealt with. This applies to both Government and Inam lands; Survey excess to the extent of 10 per cent, being allowed free in respect to Inams, under Board's Circular No. 127.

4. **DEMARICATION.** This village, as now formed by Settlement, contains ... Khandams or Sub-divisions and 22 Survey fields.

No new fields have been laid out since Survey.

The demarcation marks erected and standing are:—

Boundary Stations.	Division Stations.	Field Stones.
14	8	195

The village officers have given receipts for them and are now responsible for their upkeep.

5. **STATISTICS.** The Statistics of the village, as ascertained by the Census of 1891, are as under:—

Bazaars.	Houses.	Population.	Land Puttas as per Settlement.	Cattle.	Sheep.	Wells.

No deduction for lift is made in the case of lands partly supplied by wells in the wet aysat.

Lands irrigated solely by Dorav, Itifac and Darsabandham wells are not liable to any charge for 2nd crop.
