

DESCRIPTIVE MEMOIR OF NAINARKULAM OF THE AMBASAMUDRAM TALUQ.

SITUATION. This village, the twenty-fifth under the irrigation of the Kannadiyan Channel, is situated 14 miles north-east of Ambasamudram.

AREA. The areas given below have been merged in this village by Settlement.

No.	Name of Village.	Portion merged.	Area.		Remarks.
			Acres.	Cents.	
1	Nainarkulam	All	183	64	A fragment of a village interspersed in the fields of Nainarkulam.
2	Sattimelli Anantakumarayan Selti	Part.	3	38	
			193	6	

The area prior to Settlement was, existing fractions, 193 acres; by Settlement it is 224 acres; net increase by Settlement 31 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment, on all fields, wet or dry, on account of any roads, channels, paths, tanks, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any survey field does not confer on the cultivator of that field the right of entering on such poramboke or of in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

DEMARICATION. This village, as now formed by Settlement, contains 1 Khandam or sub-division and 75 survey fields. The demarcation marks erected and standing are:—

Boundary Stones.	Obels.	Stones at Corners of Fields.
19	42	1177

These have all been inspected and the field stones have been sunk to the level of the ground. The village officers have given receipts for them, and are now responsible for their up-keep.

CENSUS STATISTICS

The statistics of the village, as ascertained by the Census of 1871, are as under:—

Houses.	Pazars.	Population.	Local Patahs as per Settlement.		Wells.		Cattle.	Sheep.
			Single.	Joint.	Old.	New.		
83	...	239	2	3	...	...	56	25

IRRIGATION. This village is irrigated by two tanks supplied by the Keandiyann Channel from the third aicut on the Tambaparni River, and by the Palayan Channel from the fifth aicut on the same river. The situation and irrigation are both good. This village has accordingly been placed in the second group.

The revised area and assessment under each source of irrigation are as follows:—

Name.	Area.		Assessment.	
	Acres.	Cents.	Rs.	A.

RUDI MARAMAT. The ryots have undertaken to keep the sluices clear of silts, to erect ring bunds in front of branches, to clear the distributing channels and the drainage channels, when needed, at their own cost, as per separate statement.

CROPS. The average of the crops cultivated in Fasli 1284, as per Curram's accounts, is as under:—

Name of Crop.	Irrigated or Dry.	Area in Acres.

Deducting fixed remissions the net average of the land assessment for the five past years is Rs. 1,248. By Settlement it is Rs. 1,292. Total increase Rs. 45. The former wet land assessment was calculated on the village average (mattaraman) which was Rs. 9-13-2 an acre for a single crop (Kar), and Rs. 3-1-6 an acre for a second crop (Peshahna). The former commutation rate was Rs. 231-6 per grain cotaah of five bushah for both Peshahna and Kar paddy.

The dry lands were held at 3 annas and 7 pies an acre.

PALMYRAS. 210 trees paid an assessment of Rs. 7 in Fasli 1284. These were classed as under:—

Class.	Number.	Rate.		Amount in Rupees.
		Aspans.	Pies.	
Curram	59	1	3	2
Kotri and Kai	90	0	5	2
Chavetta	159	0	3	2
Total	219			7

Besides these, there are 40 growing seedlings that have hitherto paid no assessment. The charge for palmyras growing on patah lands and owned by the land-holders, has now been fixed at R. 1-4-0 per annum. The remaining trees on

pattah lands owned by others than the landholders, as well as all trees on Government waste, &c. are now chargeable at one anna each for Paravani, six pice each for Kattur and Kai, and three pice each for Oliavettin. The seedlings on such lands will be charged for as they come to maturity. Such fields as are now free from tree-tax will be free from all charge for trees grown during the term of the present Settlement.

Pālayas are not to be planted on, or within, the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks, or on any other description of Government waste land, no claim for compensation on the part of the persons at present using such trees on payment of an annual tree-tax will be attended to, but the assessment of all trees so cut will be deducted from the tree pāttahs.

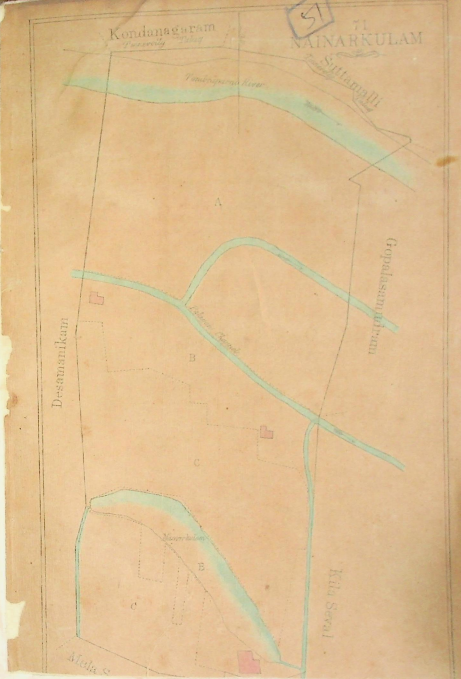

FISHERY. The fishery of Naigarkulam is fixed at Rs. 10 in the name of Tirumalikulandu Vinayagar.

PASTURAGE No lands have been specially set aside for this purpose; the cattle are fed on the pattah lands and Government waste.

BUILDING SITE. Is sufficient for present requirements. No pattah will be granted for cultivation within the limits of the building site, and no new enclosure is to be made or new building erected without permission in future.
