

DESCRIPTIVE MEMOIR OF AVARANTALAI OF THE NANGUNERI TALUQ.

SITUATION. This village, the fifth under the irrigation of the Nambiyar river, is situated six miles south-west of Nanguneri.

AREA. The areas given below have been merged in this village by Settlement.

Name of Village.	Portion merged.	Area.		Remarks.
		Arees.	Cents.	
Sengalankurichi	Part	249	10	A fragment of a village forming the new village of Avarantalai.

The ~~area~~ prior to Settlement was, omitting fractions, 249 acres; by Settlement it is, 283 acres; not increase by Settlement 34 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment, on all fields, wet or dry, on account of any roads, channels, paths, banks, &c. that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any survey field does not confer on the cultivator of that field, the right of entering on such poramboke, or in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

DEMARCATION. This village, as now formed by Settlement, contains one Kandam or sub-division, and 180 survey fields. The demarcation marks erected are:—

Boundary stones.	Off-sets.	Stones at corners of fields.
10	182	433

The village officers are now responsible for their up-keep.

IRRIGATION. This village is irrigated by a tank supplied by the Tirukanankudikal channel from the first or main anicut on the Nambiyar river, and by a tank supplied by the Sengalakurichikal channel from the same river. The situation and irrigation are both good. This village has accordingly been placed in the second group.

The revised area and assessment under each source of irrigation are as follows:—

Name.	Area.		Assessment.	
	Acres.	Cents.	Rs.	As.

The former wet land assessment was calculated on the village average (Mottasarsari) which was Rupees 12-2-7 an acre for a single crop (Peshanam) and Rupees 7-2-5 an acre for second crop (Kar). The former commutation rate was Rupees 2-14-7 per grain weight of five bushels for both Peshanam and Kar paddy. The dry lands were held at six annas eleven pice an acre subject to a remission of one anna nine pice an acre as Chaturbagan and of three pice an acre as Shalamaval.

Such fields as are now free from tree-tax, will be free from all charge for trees grown during the term of the present Settlement.

Palmyras are not to be planted on, or within, the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks, or on any other description of Government waste land, no claim for compensation on the part of the persons at present using such trees on payment of an annual assessment will be attended to, but the assessment of all trees so cut will be deducted from the tree pattahs.
