

**DESCRIPTIVE MEMOIR OF AYANERI OF THE  
NANGUNERI TALUQ.**

**Situation.** This village, the sixteenth under the irrigation of the Nambirattikal channel, is situated seven miles north of Nanguneri on road No. V Palamottah to Travancore.

**Area.** A portion of the old village of Ayaneri now forms this new village.

The area prior to Settlement was, omitting fractions, 692 acres; by Settlement it is 657 acres; net increase by Settlement 55 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any Survey field, does not confer on the cultivator of that field the right of entering on such poramboke, or in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

**Demarcation.** This village, as now formed by Settlement, contains three Kandams or sub-divisions and 122 Survey fields. The demarcation marks erected and standing are :—

| Boundary stones. | Offsets. | Stones at corners of fields. |
|------------------|----------|------------------------------|
| 20               | 104      | 256                          |

These have all been inspected and the field stones have been sunk to the level of the ground. The village officers have given receipts for them, and are now responsible for their up-keep.

**Census Statistics.** The Statistics of the village, as ascertained by the Census of 1871, are as under :—

| Houses. | Bazaars. | Population. | Land Pattaks as per Settlement. |        | Wells. |      | Cattle. | Sheep. |

Irrigation. This village is irrigated by a tank supplied by the Nandimattilai channel from the 7th anicut on the Pachiyar river and also by a rain-fed tank. The situation and irrigation are both indifferent. This village has accordingly been placed in the third group.

The revised area and assessment under each source of irrigation are as follows:—

| No. | Name.                                     | Area.  |        | Assessment. |     |

Kud Maramat. The Ryots have undertaken to keep the sluices clear of silt, to erect ring lands in front of branches, and to clear the distributing channels, when needed, at their own cost, as per separate statement.

Crops. The acreage of the crops cultivated in Faddi 1235, as per Curman's accounts, is as under:—

Settlement. The entire irrigated area of this village is assessed in class V, and the dry lands in class IX.

The following table exhibits the revised assessment of the village. No lands have been compensated as permanent double crop.

Deducting fixed remissions only, the net average of the land assessment for the past five years is Rupees 562; by Settlement it is Rupees 419; total reduction Rupees 143. The former wet land assessment was calculated on the village average (Mottasarasari), which was Rupees 3-14-5 an acre for a single crop (Peshannam), and Rupees 7-12-3 an acre for a second crop (Kar). The former computation rate was Rs. 2-14-8 per grain cottah of five bushels for both Peshannam and Kar paddy.

The dry lands were held at rates varying four annas five pies to six annas three pies an acre subject to a remission of eight pies an acre as Stankaval.

Palmyras. 2,362 trees paid an assessment of Rs. 47 in Faddi 1285.

These were classed as under:—

| Class.          | Number. | Rate.  |       | Amount in Rupees. |
|-----------------|---------|--------|-------|-------------------|
|                 |         | Annas. | Pies. |                   |

| Olavetta ... .. | 1,302   | ...    | 1     | 9                 |
| Total ... ..    | 2,352   | ...    | ...   | 47                |

Besides these, there are 2,379 growing seedlings that have hitherto paid no assessment. The charge for palmyras growing on pattah lands and owned by the land-holders has now been fixed at Rupees 21-5-0 per annum. The remaining trees on pattah lands owned by others than the land-holders, as well as all trees on Government waste, &c., are now chargeable at one anna each for Paravam, six pice each for Kattu and Kai, and three pice each for Oleivettu. The seedlings on such lands will be charged for as they come to maturity. Such fields as are now free from tree-tax, will be free from all charge for trees grown during the term of the present Settlement.

Palmyras are not to be planted on, or within, the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks, or on any other description of Government waste land, no claim for compensation on the part of the persons at present using such trees on payment of an annual tree-tax will be attended to, but the assessment of all trees so cut will be deducted from the tree pattahs.

**Samudayam sub-division.** 247 acres of land and 1,932 palmyras held in common have been divided but another block of 27 acres of land and 634 palmyras are still held in common the parties concerned being unable to agree to division.

**Pasturage.** No lands have been specially set aside for this purpose: the cattle are fed on the pattah lands and Government waste.

**Building Site.** Is sufficient for present requirements.

No pattah will be granted for cultivation within the limits of the building site, and no new enclosure is to be made or new building erected without permission in future.

**Taxes.** The Stalamkaval deduction amounting to Rupees 13-15-6 has been resumed.
