No. 67.

DESCRIPTIVE MEMOIR OF BATTARPURAM OF THE NANGUNERI TALUK.

Situation. This village, the twenty-sixth under the irrigation of the Nanguneriyan channel, is situated three miles south-east of Nanguneri.

Area. A portion of the old village of Battarpuram now forms this new village.

The area prior to Settlement was, omitting fractions 1,203 acres; by settlement it is 1,506 acres; net increase by settlement 298 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been measured in with the cultivated area. The fact of inclosure, therefore, of any such Government poramboke in any Survey field does not confer on the cultivator of that field the right of entering on such poramboke or in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

Demarcation. This village, as now formed by Settlement, contains 300 Kaudams or sub-divisions, and 138 Survey fields. The Demarcation marks erected and standing are :—

Boundary stones.	Objects.	Stones at corners of fields.
31	31	235

These have all been inspected and the field stones have been sunk to the level of the ground. The village officers have given receipts for them, and are now responsible for their up-keep.

Census. The Statistics of the village, as ascertained by the Census of 1871, statistics are as under :—

Houses.	Censuses.	Population.	Land Portals as per Settlement.		Wells.		Cattle.	Sheep.
			Single.	Joint.	Old.	New.		
155	2	640	1	...	15	...	430	2,000

Irrigation. This village is irrigated by two tanks supplied by the Vellata odoi channel a branch of the Nanguneriyan channel and by another supplied partly

by the surplus of the Battarakulam tank and partly by a channel from Rajakal, mangalam. The situation and irrigation are both indifferent. This village has accordingly been placed in the third group.

The revised area and assessment under each source of irrigation are as follows:—

No.	Name.	Area.		Assessment.	
		Acrea.	Centa.	Rs.	As.
1	Battarakulam channel-fed tank	55	44	332	11
2	Senkalam do	50	30	301	5
3	Veppankulam do	13	70	112	7
4	Falling from the Nambiyar river	2	30	5	15
Total		120	67	750	6

Kud Narasat. The Ryots have undertaken to keep the sluices clear of silt, to erect ring bunds in front of breaches, and to clear the distributing channels, when needed, at their own cost, as per separate statement.

Crops. The average of the crops cultivated in Padi 1255, as per Curran's accounts, is as under:—

Name of crop.	Irrigated or dry.	Area in acres.
Rice, 1st crop	Irrigated.	102
2nd do.		12
Paddy	Dry.	5
Onion		25
Palms		20
Bamboo		1
Other		1
Total		111
Grand Total		216

Remarks. The entire irrigated areas under Battarakulam, Senkulam and Veppankulam constituting Blocks A, B, and C comprising Nos. 36 to 186, Nos. 50 to 85 and Nos. 1 to 49, 133 to 138 respectively are assessed in Class V. The lands supplied by falling from the Nambiyar River are assessed at half the rate assigned to irrigation. The lands supplied by Government wells are assessed in Class III, dry. The dry lands are all assessed in Class IX.

The following table exhibits the revised assessment of the village. The lands have been compensated for as permanent double crop.

Description of land.	Class.	Irrigated.						Dry.					
		Area.		Assess.		Rate per acre.		Area.		Assess.		Rate per acre.	
		A.	C.	Rs.	As.	Rs.	As.	A.	C.	Rs.	As.	Rs.	As.
Ordinary rice-land	A. V	55	44	332	11	5	0	...	...	...	...	...	...
Do. do.	B V	50	30	301	5	6	0	...	...	...	...	...	...
Do. do.	C V	13	70	112	7	6	0	...	...	...	...	...	...
Bamboo	...	3	30	9	15	0	0	...	...	...	...	...	...
Garden	...	...	...	...	...	...	...	III	2	15	710	2	0
Waste red sand	...	...	...	...	...	...	...	IX	2	33	200	...	...
Total	...	120	67	750	6	...	...	...	...	...	...	...	...

Deducting flood remission only, the net average of the last assessment for the past five years is Rupees 7.531; by Settlement the flood remission is Rupees 1.00. The former wet land assessment was calculated on the village average (Mottammarai), which was Rupees 5.14-10 as per 1 acre of double crop (Pacham), and Rupees 3.25 as per 1 acre for a second crop (Kutti). The former commutation rate was Rupees 5.15-3 per acre of double crop for both Pacham and Kutti paddy.

The dry lands were held at five annas and eight pices per acre, subject to remission of one anna two pices and three faras (Chattakulam) and of one anna and one pice at Kuttakulam.

Pacham ... 5,400 trees paid an assessment of Rupees 113 in Padi 1255.

These were classed as under:—

Class.	Number.	Area.	Price.	Assess. in Rupees.
Paravani	...	...	...	...
Kutti	...	...	...	...
Chattakulam	...	...	...	...
Total	...	...	...	...

Remarks. There are 5,109 growing seedlings that have not been paid an assessment. The charge for paddy growing on patch lands owned by the landholders has now been fixed at Rupees 56-10 per annum. For the remaining trees on patch lands owned by others, the landholders are to pay as all trees on Government land 5 annas, are now chargeable at two annas each for the Paravani, one pice each for Kutti and Kutt, and three pices each for Chattakulam. The

seedlings on such lands will be charged for as they come to maturity. Such fields as are now free from tree-tax, will be free from all charge for trees grown during the term of the present Settlement.

Palmyras are not to be planted on, or within the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks, or on any other description of Government waste land, no claim for compensation on the part of the persons at present using such trees on payment of an annual tree-tax will be attended to, but the assessment of all trees so cut will be deducted from the tree patta.

Postaraz. Nos. 52 to 57, 97, 101 to 105 have been set aside for this purpose. Balikes site is sufficient for present requirements.

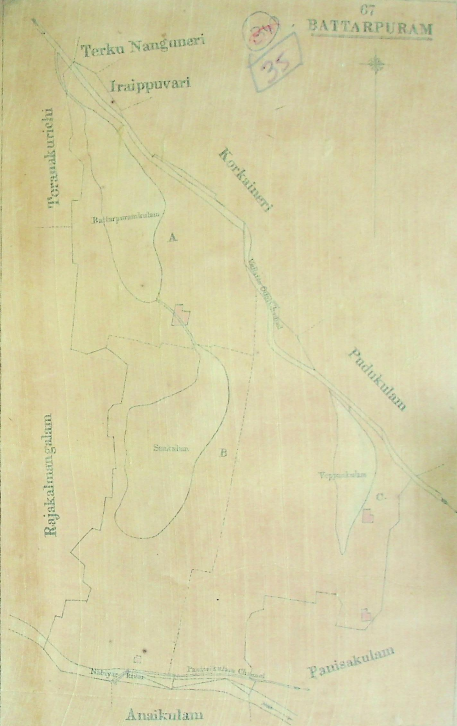

No patta will be granted for cultivation within the limits of the building site, and no new enclosure is to be made or new building erected without permission in future.

Issue. The Chaturagalam and Salankaval deductions amounting to Rupees 93-13-9 and Rupees 1-4-14-1 have respectively been resumed.

The following lands held tax free:-

No.	Names of landowners.	Water Div.	Single or double crop.	Acre.		Amount of patta.	Second crop Assessment compounded for as Settlement.		Total.	Remarks.
				Acre.	Croft.		Acre.	Rupies.		
1	Muttarandi Vannal	W.	1	4	30	...	...	...	...	These areas are then to be situated in the Governmental land. The cultivation of a second crop is not allowed from 1st April 1907 until the end of the year, assessment is to be paid in the September Register.
2	Sridoganthar dattal	W.	1	...	32	...	...	...	...	
3	Muttarandi Vannal	W.	1	...	46	...	...	...	...	Consolidated Government land, the land is to be used for the purpose of the Government.
