

No. 4.

DESCRIPTIVE MEMOIR OF ERUKALAIPATTI OF THE
NANGUNERI TALUQ

Situation. This village, the second under the irrigation of the Padmaneri channel, is situated nine miles north-west of Nanguneri.

Area. The areas given below have been merged in this village by Settlement.

No.	Name of village.	Portion merged.	Area.		Remarks.
			Acres.	Cents.	
1	Erakalaipatti ...	Ab.	439	23	Fragments of villages incorporated in the taluk of Erakalaipatti.
2	Marudadi Utta ...	Part.	75	5	
3	Devanallur ...	Part.	133	92	
4	Padmaneri ...	Part.	...	22	
Total ...		...	639	47	

The area prior to Settlement was, omitting fractions, 639 acres; by Settlement, it is 791 acres; net increase by Settlement 152 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment, on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any Survey Edo, does not confer on the cultivator of that field the right of entering on such poramboke, or in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

Demarcation. This village, as now formed by Settlement, contains two Kandas or sub-divisions and 99 Survey fields. The demarcation marks erected and standing are:—

Boundary stones.	Offsets.	Stones at corners of fields.
47	136	353

These have all been inspected and the field stones have been sunk to the level of the ground. The village officers have given receipts for them, and are now responsible for their up-keep.

Census. The Statistics of the village, as ascertained by the Census of 1871, are as under:—

Houses.	Barrows.	Population.	Land Pattaas as per Settlement.		Wells.		Cattle.	Sheep.
			Single.	Joint.	Old.	New.		
80	2	335	3	1	1	...	420	500

Irrigation. This village is irrigated by three tanks supplied by the Perikalaipatti branch of the Padmaneri channel from the third ancient on the Pachiyar river. The situation and irrigation are both good. This village has accordingly been placed in the second group.

The revised area and assessment under each source of irrigation are as follows:—

Name.	Area.		Assessment.	
	Acre.	Cents.	Rs.	As.
Periyakulam channel-fed tank ...	63	52	381	2
Ramankulam do. ...	13	47	110	15
Mudavankulam do. ...	7	63	46	12
Total..	83	62	537	11

Bad Harass. The ryots have undertaken to keep the sluices clear of silt, to erect ring bunds in front of branches, and to clear the distributing channels when needed, at their own cost, as per separate statement.

Crops. The acreage of the crops cultivated in Fash 1235, as per Curram's accounts, is as under:—

Name of crop.	Irrigated or dry.	Area in acres.
Rice, 1st crop ...	Irrigated	78
Pulses ...	...	1
Total..		77
Cotton ...	Dry	5
Pulses ...	...	43

Settlement. Block A, under Mudavankulam comprising Nos. 77 to 80, is assessed in Class V; block B, under Periyakulam comprising Nos. 30 to 33, is assessed in Class V; block C, under Ramankulam comprising Nos. 10 to 13, is also assessed in Class V. The lands supplied by Government wells are assessed in Class III dry. The dry lands are all assessed in Class IX.

The following table exhibits the revised assessment of the village:—

Deducting fixed remissions only, the net average of the land assessment for the past five years is Rupees 630; by Settlement it is Rupees 646; total increase Rupees 16. The former wet land assessment was calculated on the village average (Mottasarasari) which was Rupees 5-10-6 an acre for a single crop (Peshanam), and Rupees 2-13-3 an acre for a second crop (Kar.) The former commutation rate was Rupees 2-11-9 per grain cottah of five bushels for both Peshanam and Kar paddy.

The dry lands were held at four annas, six pice, and three annas, eight pice an acre, subject to a remission of one anna, one pie an acre as Chaturbagum on the lands in Marudadi Vittu village, and of four pice an acre as Stalakaval.

Palmyras. 3,722 trees paid an assessment of Rupees 93 in Fash 1285.

These were classed as under :—

Class.	Number.	RATE.		Amount in Rupees.
		Annas.	Pice.	
Paruvam	499	{ 1	3 }	27
Katta and Kai	953	{ ...	5 }	37
Oleivettu	2354	{ ...	1 }	29
Total...	3722	...	...	93

Besides these, there are 1,813 growing seedlings that have hitherto paid no assessment. The charge for palmyras growing on pattah lands and owned by the land-holders has now been fixed at Rupees 76-7-0 per annua. The remaining trees on pattah lands owned by others than the land-holders, as well as all trees on Government waste, &c., are now chargeable at one anna each for Paruvam, six pice each for Katta and Kai, and three pice each for Oleivettu. The seedlings on such lands will be charged for as they come to maturity. Such fields as are now free from tree-tax, will be free from all charge for trees grown during the term of the present Settlement.

Palmyras are not to be planted on, or within the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks, or on any other description of Government waste land, no claim for compensation on the part of the persons at present using such trees on payment of an annual tree-tax will be attended to, but the assessment of all trees so cut will be deducted from the tree pattahs.

Kamudayala sub-division. 323 acres of land and 262 palmyras are still held in common, the parties concerned being unable to agree to division.

Pasturage. Nos. 21, 22, 61, and 62 have been set aside for this purpose.
Building Site. Is sufficient for present requirements.

No pattah will be granted for cultivation within the limits of the building site, and no new enclosure is to be made or new building erected without permission in future.

Taxes. The Stalakaval and Chaturbagum deductions amounting to Rupees 5-4-11 and Rupees 4-3-2 have respectively been resumed.

Special Assistant to Collector.
