The former wet land assessment was calculated on the village average (Mothsarasari) which was Rupees 10-5-2 an acre for a single crop (Peshanam) and Rupees 5-2-7, an acre for a second crop (Kar). The former commutation rate was Rupees 2-14-8 per grain cottah of five bushels for both Peshanam and Kar paddy.

The dry lands were held at four annas six pice an acre subject to a remission of four pice an acre as Stalukaval.

Palmryas. 2,863 trees paid an assessment of Rupees 53 in Fashi 1285.

There were classed as under:—

The seedlings on such lands will be charged for as they come to maturity. Such fields as are now free from tree-tax, will be free from all charge for trees grown during the term of the present Settlement.

Palmyras are not to be planted on, or within, the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks, or on any other description of Government waste land, no claim for compensation on the part of the persons at present using such trees on payment of an annual tree-tax will be attended to, but the assessment of all trees so cut will be deducted from the free pattahs.

Pasturage. No lands have been specially set aside for this purpose; the cattle are fed on the pattah lands and Government waste.
