	Total				

The area prior to Settlement was, omitting fractions, 792 acres; by Settlement it is 1,192 acres; net increase by Settlement 400 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment, on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any Survey field, does not confer on the cultivator of that field the right of entering on such poramboke, or of in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

DEMARCATIO. This village, as now formed by Settlement, contains 4 Kandams or sub-divisions, and 92 Survey fields.

The demarcation marks erected are :—

Palmyras are not to be planted on, or within, the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks, or on any other description of Government waste land, so claim for compensation on the part of the persons at present using such trees on payment of an annual tree-tax will be attend to, but the assessment of all trees so cut will be deducted from the tree patahs.
