DESCRIPTIVE MEMOIR OF PANJAL OF THE NANGUNERI TALUQ.

LOCATION. This village is situated twenty-two miles south-east of Nanguneri.

AREA. The areas given below have been merged in this village by Settlement.

No.	Name of Village.	Portion merged.	Area		Remarks.
			Acre.	Cents.	
1	Peramunal	Part.	772	60	An isolated fragment of a village forming the new village of Panjal.

The area prior to Settlement was, omitting fractions, 772 acres; by Settlement it is 616 acres; net decrease by Settlement 157 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any Survey field, does not confer on the cultivator of that field the right of entering on such poramboke, or of in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

DEMARCATION. This village, as now formed by Settlement, contains 3 Kandams or sub-divisions, and 38 Survey fields.

The demarcation marks erected are :—

Boundary stones.	Off-sets.	Stones at corners of fields.
27	22	95

The village officers are now responsible for their up-keep.

Deducting fixed remissions only, the net average of the land assessment for the past five years is Rupees 67; by Settlement it is Rupees 42; total reduction Rupees 15.

The former dry lands were held at five annas, seven pice an acre, subject to a remission of three pice an acre as *Salamkaval*,

Total	110	...	...	1

Besides these, there are 726 growing seedlings that have hitherto paid no assessment. The charge for *paimyras* growing on patch lands and owned by the land-holders, has now been fixed at Rupees 3-13-0 per annum. The remaining trees on patch lands owned by others than the land-holders, as well as all trees on Government waste, &c., are now chargeable at one anna each for Paravani, six pice each for Katta and Kai, and three pice each for Olavetta. The seedlings on such lands will be charged for as they come to maturity. Such fields as are now free from tree-tax, will be free from all charge for trees grown during the term of the present Settlement.

Paimyras are not to be planted on, or within, the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks; or on any other description of Government waste land, no claim for compensation on the part of the persons at present using such trees on payment of an annual tree-tax will be attended to, but the assessment of all trees so cut will be deducted from the tree patch.

PASTURE. No lands have been specially set aside for this purpose; the cattle are fed on the patch lands and Government waste.

IRRIGATION SITE. Is sufficient for present requirements.

No patch will be granted for cultivation within the limits of the Building site, and no new enclosure is to be made or new building erected without permission in future.
