DESCRIPTIVE MEMOIR OF PATTAI OF THE  
NANGUNERI TALUQ

**Situation.** Thus, the only village under the irrigation of the Palanpattu channel is situated eight miles west of Nanguneri.

**Area.** The areas given below have been merged in this village by Settlement.

| No. | Name of Village.      | Portion merged. | Area.  |        | Remarks.                                                      |

The area prior to Settlement was, omitting fractions 706 acres; by Settlement it is 854 acres; net increase by Settlement 148 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government paramboke in any Survey field, does not confer on the cultivator of that field the right of entering on such paramboke, or in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

**Demarcation.** This village, as now formed by Settlement, contains three Kandams or sub-divisions and 725 Survey fields. The demarcation marks erected and standing are:—

| Boundary stones. | Offsets. | Stones at centre of fields. |
|------------------|----------|-----------------------------|
| 34               | 110      | 1,385                       |

These have all been inspected and the field stones have been sunk to the level of the ground. The village officers have given receipts for them, and are now responsible for their upkeep.

Census. The Statistics of the village, as ascertained by the Census of 1871, are as under:—

| House. | Bazars. | Population. | Land Pattahas per Settlement. |        | Wells. |      | Cattle. | Sheep. |
|--------|---------|-------------|-------------------------------|--------|--------|------|---------|--------|

Irrigation. This village is irrigated by the Palanpattu channel, from the second anicut on the Pachiyar river, and by a tank supplied by the same, and also by two tanks supplied by the Pattai channel from the third anicut, on the Karumandiymankal. The situation and irrigation are both fair. This village has accordingly been placed in the second group.

The revised area and assessment under each source of irrigation are as follows:—

| No.     | Name.                          | Area.  |        | Assessment. |     |

The lands supplied by baling from the river are assessed at half the rate assessed in the block in which they are situated. The lands supplied by Government wells are assessed in Class III dry. The dry lands are all assessed in Class IX.

The following table exhibits the revised assessment of the village. Block C has been compounded for a permanent double crop at 1 additional to the single crop assessment in class III.

Deducting fixed remissions only, the net average of the land assessment for the past five years is Rupees 5,470; by Settlement it is Rupees 4,339; total reduction Rupees 1,131. The former wet land assessment was calculated on the individual average (Pulhisarasari) which varied from Rupees 7-0-0 and Rupees 13-3-0 an acre for a single crop (Peshanam), and from Rupees 9-0-0 to Rupees 13-13-0 an acre for a second crop (Kar). The former commutation rate was Rupees 2-14-7 per grain cotton of five bushels for both Peshanam and Kar paddy.

The dry lands were held at five annas an acre, subject to a remission of one anna, three pice an acre as Chaturbagam, and of one pie an acre as Stalamkaval.

**Palmyras.** 847 trees paid an assessment of Rupees 15 in Fash 1285.

These were classed as under:—

| Class.           | Number. | RATE.  |       | Amount in Rupees. |
|------------------|---------|--------|-------|-------------------|
|                  |         | Annas. | Pice. |                   |
| Paruvam ... ..   | 133     | ...    | 10    | 7                 |
| Katta ... ..     | 152     | ...    | 5     | 4                 |
| Olivettia ... .. | 562     | ...    | 1     | 4                 |
| Total...         | 847     | ...    | ...   | 15                |

Besides these, there are 3,814 growing seedlings that have hitherto paid no assessment. The charge for palmyras growing on pattah lands and owned by the land-holders has now been fixed at Rupees 30-11-0 per annum. The remaining trees on pattah lands, owned by others than the land-holders, as well as all trees on Government waste, &c., are now chargeable at one anna each for Paruvam, six pice each for Katta and Kai, and three pice each for Olivettia. The seedlings on such lands will be charged for as they come to maturity. Such fields as are now free from tree-tax, will be free from all charge for trees grown during the term of the present Settlement.

Palmyras are not to be planted on, or within, the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks, or on any other description of Government waste land, no claim for compensation on the part of the persons at present using such trees on payment of an annual tree-tax will be attended to, but the assessment of all trees to cut will be deducted from the tree pattahs.

**Somadasa tank division.** 23 acres of land are still held in common; the parties concerned being unable to agree to division.

**Padarap.** No lands have been specially set aside for this purpose; the cattle are fed on the pattah lands and Government waste.

Buildings. Is sufficient for present requirements.

No pattah will be granted for cultivation within the limits of the Building site, and no new enclosure is to be made or new building erected without permission in future.

**Reams.** The Dupati Maniyam, Chaturbagam and Stalamkaval deductions amounting to Rupees 12-8-7, Rupees 7-12-3 and Rupees 0-12-3 respectively have been resumed.

The following lands are held tax-free:—
