

**DESCRIPTIVE MEMOIR OF PILLAIKULAM OF THE
NANGUNERI TALUQ**

situation. This village, the twenty-second under the irrigation of the Nanguneriyan channel is situated four miles north of Nanguneri.

Area. The areas given below have been merged in this village by Settlement.

No.	Name of Village.	Portion merged.	Area.		Remarks.
			Acres.	Cents.	
1	Pillaiikulam	Part.	638	32	

The area prior to Settlement was, omitting fractions, 638 acres; by Settlement it is, 639 acres; net increase by Settlement 51 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment, on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any survey field does not confer on the cultivator of that field the right of entering on such poramboke or in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

Demarcation. This village, as now formed by Settlement, contains three Kandams or sub-divisions and 186 survey fields. The demarcation marks erected and standing are:

Boundary stones.	Offsets.	Stones at corners of fields.
18	76	403

These have all been inspected and the field stones have been sunk to the level of the ground. The village officers have given receipts for them, and are now responsible for their up-keep.

General Statistics. The Statistics of the village, as ascertained by the Census of 1871, are as under :

Houses.	Barns.	Population.	Land Patches as per Settlement.		Wells.		Cattle.		Sheep.
			Single.	Joint.	Old.	New.			
26	...	95	8	3	2	...	48	...	...

Irrigation. This village is irrigated by the surplus of the Nanguneriikulam tank passing from tank to tank in the intermediate villages. The situation and irrigation are both indifferent. This village has accordingly been placed in the third group.

The revised area and assessment under each source of irrigation are as follows:

Names.	Area.		Assessment.	
	Acrea.	Cents.	Rs.	As.
Pillalukam channel bed tank	37	60	22	1

Land Revenue. The Ryots have undertaken to keep the sluices clear of silt, to erect ring bunds in front of breaches, and to clear the distributing channels, when needed, at their own cost, as per separate statement.

Crops. The average of the crops cultivated in Fashi 1285, as per Curman's accounts, is as under:

Name of crop.	Irrigated or dry.	Area in acres.
Rice, 1st crop	Irrigated.	41
Cotton	Dry.	3
Pulses	...	19
Sam...	...	15
Varagu	...	7
Total.....		44
Grand Total...		85

Settlement. The entire irrigated area of this village is assessed in Class V and the dry lands are all assessed in Class IX.

The following table exhibits the revised assessment of the village. No lands have been compounded for a permanent double crop.

Description of land.	Block.	Class.	IRRIGATED.				Dry.			
			Area.		Amount.		Area.		Amount.	
			Acrea.	Cents.	Rs.	As.	Acrea.	Cents.	Rs.	As.
Good red loam	...	V.	37	60	22	1	6	0	...	...
Worst red sand	...	...	...	...	...	...	IX	329	10	82
Total	...	...	37	60	22	1	...	329	10	82

Deducting fixed remissions only, the net average of the land assessment for the past five years is Rupees 312; by Settlement it is Rupees 367; total reduction Rupees 5. The former wet land assessment was calculated on the village average (Mottuvarasari) which was Rupees 6-0-9 an acre for a single crop (Peshnam) and Rupees 2-3-9 an acre for a second crop (Kar). The former commutation rate was Rupees 2-14-8 per grain cottah of five bushels for both Peshnam and Kar paddy.

The dry lands were held at annas four and pice four an acre, subject to a remission of seven pice an acre as Salankaval.

Palayras. 760 trees paid an assessment of Rupees 25 in Fashi 1285.

These were classed as under:—

Class.	Number.	Rate.		Amount in Rupees.
		Annas.	Pice.	
Paruvam	282	0	10	15
Kattu	347	0	5	9
Okeivettu	150	0	1	1
Total...	780	...	...	25

Besides these, there are 3,992 growing seedlings that have hitherto paid no assessment. The charge for palayras growing on pottah lands and owned by the land-holders has now been fixed at Rupees 20-1-0 per annum. The remaining trees on pottah lands owned by others than the land-holders, as well as all trees on Government waste, &c., are now chargeable at one anna each for

Paravara, six pice each for Kattu and Kai, and three pice each for Oloivettu. The seedlings on such lands will be charged for as they come to maturity. Such fields as are now free from tree-tax, will be free from all charge for trees grown during the term of the present Settlement.

Palmyras are not to be planted on, or within, the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks, or on any other description of Government waste land, no claim for compensation on the part of the persons at present using such trees on payment of an annual tree-tax will be attended to, but the assessment of all trees so cut will be deducted from the tree pattahs.

Pastures. No lands have been specially set aside for this purpose; the catt e are fed on the pattah lands and Government waste.

Building Site. No. 142 B has been added to the building site.

No pattah will be granted for cultivation within the limits of the building site, and no new enclosure is to be made or new building erected without permission in future.

Taxes. The Stalankaval deduction amounting to Rupees 11-12-5 has been resumed.

T. VENKATACHARIAR,
Special Assistant to Collector.
