No. 94

DESCRIPTIVE MEMOIR OF PONNAKURICHI OF THE NANGUNERI TALUQ.

Situation. This village, the eleventh under the irrigation of the Nambiyar river, is situated five miles and a half west of Nanguneri.

Area. The areas given below have been merged in this village by Settlement.

No.	Name of villages.	Portion merged.	Area.		Remarks.
			Acres.	Cents.	
1	Ponnakurichi	All	301	62	
2	Lakshminarasasingapuram	Part	14	2	A fragment of a village incorporated in the fields of Ponnakurichi.
Total			315	64	

The area prior to Settlement was, omitting fractions, 316 acres; by Settlement it is 323 acres; net increase by Settlement 7 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any Survey field, does not confer on the cultivator of that field the right of entering on such poramboke, or of in any way interfering with it, and any unauthorized encroachment on such poramboke will be severely punished.

Demarcation. This village, as now formed by Settlement, contains 1 Kandam or sub-division, and 105 Survey fields.

The demarcation marks erected are:—

Boundary stones.	Off-sets.	Stones at corners of fields.
15	62	265

The village officers are now responsible for their upkeep.

The Statistics of the village, as ascertained by the Census of 1871, are as under:—

Houses.	Barns.	Population.	Land Patikas as per Settlement.		Wells.		Cattle.	Sheep.
			Single.	Joint.	Old.	New.		
18	...	51	17	2	...	...	11	...

Irrigation. This village is irrigated by a tank supplied by the surplus of Kesavapurikulam tank in Nambitalavarepattayam village and also by the Yamalaiyankal channel from the second ancient on the Nambiyar river. The situation and irrigation are both good. This village has accordingly been placed in the second group.

The revised area and assessment under each source of irrigation are as follows:—

Name.	Area.		Amount.	
	Acres.	Cents.	Rs.	As.
Vannaladyankal channel	19	1	113	7
Peshazhichikann channel-fed tank	59	58	367	11
Total	78	59	471	2

Soil & Cult. The ryots have undertaken to keep the sluices clear of silt, to erect ring bunds in front of breaches, and to clear the distributing channels when needed, at their own cost, as per separate statement.

The acreage of the crops cultivated in Fasli 1285, as per Carnam's accounts, is as under:—

Names of crop.	Irrigated or dry.	Area in acres.
Rice, 1st crop	Irrigated.	49
Idi	Dry.	1
Gingely oil seed	...	3
Palmer	...	64
Sand	...	16
Total	...	73
Grand Total	...	123

Settlement.

Commencing from the Bravadi frontier, block A, under the tank, comprising Nos. 1 to 11, and 34 to 106, is assessed in Class V; east of A, block B, under the channel, comprising Nos. 12 to 33 is also assessed in Class V. The lands supplied by baling from the channel or tank are assessed at half the rate assigned to the block in which they are situated. The dry lands are all assessed in Class IX.

The following table exhibits the revised assessment of the village:—

Description of land.	Block.	Class.	Assessment.			Rate.				
			Area.	Amount.	Rate per acre.	Class.	Area.	Amount.	Rate per acre.	Class.
Ordinary red loam	A	V	49	58	327	11	6	9	...	...
Do.	B	V	13	75	112	19	6	...	...	...
Baling	...	...	...	120	...	13	...	...	...	...
Worst red sand	...	...	...	...	...	IX	179	87	44	13
Total	...	...	73	59	471	2	...	379	87	44

Deducting fixed remissions only, the net average of the land assessment for the past five years is Rupees 374; by Settlement it is Rupees 516; total reduction Rupees 58. The former wet land assessment was calculated on the village average (Mottanasari) which was Rupees 6-8-11 an acre for a single crop (Peshannu) and Rupees 3-5-7 an acre for a second crop (Kar). The former commutation rate was Rupees 2-14-11 per grain cotah of five bushels for both Peshannu and Kar paddy.

The dry lands were held at five annas an acre, subject to a remission of five pices an acre as Stalankaral.

Pashuram 1,244 trees paid an assessment of Rupees 41 in Fasli 1285.

These were classed as under:—

Chas.	Number.	Rate.		Amount in Rupees.
		Annas.	Pies.	
Paravam	400	...	10	26
Kattu	523	...	5	14
Olaivettu	125	...	1	1
Total...	1,148	...	...	41

Besides these, there are 1,074 growing seedlings that have hitherto paid no assessment. The charge for palmyras growing on pattah lands and owned by the land-holders, has now been fixed at Rupees 38.12 0 per annum. The remaining trees on pattah lands owned by others than the land-holders, as well as all trees on Government waste, &c., are now chargeable at one anna each for Paravam, six pice each for Kattu and Kai, and three pice each for Olaivettu. The seedlings on such lands will be charged for as they come to maturity. Such fields as are now free from tree-tax, will be free from all charge for trees grown during the term of the present Settlement.

Palmyras are not to be planted on, or within the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks, or on any other description of Government waste land, no claim for compensation on the part of the persons at present using such trees on payment of an annual tree-tax will be attended to, but the assessment of all trees so cut will be deducted from the tree pattahs.

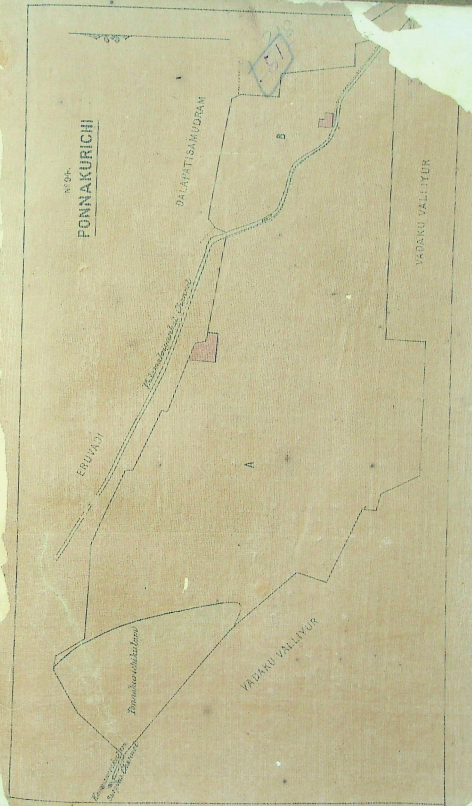

Enclosures. No lands have been specially set aside for this purpose; the cattle are fed on the pattah lands and Government waste. No holding site is sufficient for present requirements.

No pattah will be granted for cultivation within the limits of the Building site, and no new enclosure is to be made or new building erected without permission in future.

Income. The Malankaval deduction amounting to Rupees 2-6-8 has been resumed.

T. VENKATACHARIYAR,
Special Assistant to Collector.
