

DESCRIPTIVE MEMOIR OF SIDAMBARAPURAM OF THE
NANGUNERI TALUQ.

Situation. This village, the fourteenth under the irrigation of the Nanguneriyan channel, is situated six miles west of Nanguneri.

Area. The areas given below have been merged in this village by Settlement.

No.	Name of village.	Portion merged.	Area.		Remarks.
			Acres.	Cents.	
1	Kila Sidambarapuram ...	All.	270	85	A small village forming part of the new village of Sidambarapuram. Fragments of villages forming part of the new village of Sidambarapuram.
2	Oppilankulam ...	Part.	20	80	
3	Devarkiniyankulam ...	Part.	73	13	
Total.			363	88	

The area prior to Settlement was, omitting fractions 363 acres; by Settlement it is 614 acres; net increase by Settlement 249 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government peramboko in any Survey field, does not confer on the cultivator of that field the right of entering on such peramboko, or in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

Demarcation. This village, as now formed by Settlement, contains two Kandams or sub-divisions and 94 Survey fields. The demarcation marks erected and standing are:—

Boundary stones.	Offsets.	Stones at corners of fields.
63	60	397

These have all been inspected and the field stones have been sunk to the level of the ground. The village officers have given receipts for them, and are now responsible for their upkeep.

Census Statistics. The Statistics of the village, as ascertained by the Census of 1871, are as under:—

Houses.	Bazaar.	Population.	Land Patches as per Settlement.		Wells.		Cattle, Sheep.	
			Single.	Joint.	Old.	New.		
40	1	145	23	5	...	...	59	...

Irrigation. This village is irrigated by two tanks supplied by minor channels from the Kalladaikulam sluice in the Nanguneriyan channel. The situation and irrigation are both good. This village has accordingly been placed in the second group.

The revised area and assessment under each source of irrigation are as follows:—

No.	Name.	AREA.		ASSESSMENT.	
		Acrea.	Centa.	Rs.	As.
1	Kilakulam channel-fed tank...	65	...	487	8
2	Kalladikulam do ...	17	15	123	12
Total...		82	15	610	4

Kallaramatt. The ryots have undertaken to keep the sluices clear of silt, to erect ring bunds in front of breaches, and to clear the distributing channels when needed, at their own cost, as per separate statement.

Crops. The average of the crops estimated in Fash 1285, as per Curnam's accounts, is as under:—

Name of crop.	Irrigated or dry	Area in acs.
Rice, 1st crop ...	Irrigated.	64
Cucumbers ...	...	1
Total...	...	65
Cotton ...	Dry.	8

Settlement. Commencing from the Kila Karanilankulam frontier block A, under Kalladaikulam, comprising Nos. 74 to 85 is assessed in Class IV; east of A, block B, under Kilakulam, comprising Nos. 22 to 26, 32 to 33, 44 to 53, 64 to 73, is also assessed in Class IV. The dry lands are all assessed in Class IX.

The following table exhibits this revised assessment of the village. No lands have been compounded for as permanent double crop.

Description of land.	Block.	IRRIGATED.					Dry.				
		Class.	Area.		Amount.		Class.	Area.		Amount.

Total.	...	...	82	15	610	4	...	292	60	75	3

Deducting fixed remissions only, the net average of the land assessment for the past five years is Rupees 834; by Settlement it is Rupees 631; total reduction Rupees 193. The minor wet land assessment was calculated on the village average (Mottasattar) which was Rupees 12-0-0 an acre for a single crop (Pannam), and Rupees 11-11-5 an acre for a second crop (Kar). The former commutation rate was Rupees 2-1-0 per grain cental of five baskets for both Pannam and Kar paddy. The dry lands were sold at five annas eight pice and five annas two pice an acre subject to a remission of two pice an acre as Station-kaval.

Pannam. 7,272 acres paid an assessment of Rupees 178 in Fash 1285.

These were classed as under:—

Class.	Nanaset.	Rate.		Amount in Rupees.
		Acrea.	Pice.	
Pannam ...	1,320	0	16	193
Katte ...	2,061	0	5	50
Other ...	3,221	0	1	27
Total	7,212	...	...	178

Besides these, there are 6,270 growing seedlings that have hitherto paid no assessment. The charge for palmyras growing on pattah lands and owned by the land-holders has now been fixed at Rupees 70-6-0 per annum. The remaining trees on pattah lands owned by others than the land-holders, as well as all trees on Government waste, &c., are now chargeable at one anna each for Paruvam, six pice each for Katta and Kai, and three pice each for Oleivettu. The seedlings on such lands will be charged for as they come to maturity. Such fields as are now free from tree-tax, will be free from all charge for trees grown during the term of the present Settlement.

Palmyras are not to be planted on, or within, the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks, or on any other description of Government waste land, no claim for compensation on the part of the persons at present using such trees on payment of an annual tree-tax will be attended to, but the assessment of all trees so cut will be deducted from the tree pattahs.

Samadaya cultivation. 98 acres of land and 7,550 palmyras held in common have been divided.

Pasturage. No lands have been specially set aside for this purpose; the cattle are fed on the pattah lands and Government waste.

Building sites. Is sufficient for present requirements.

No pattah will be granted for cultivation within the limits of the building site, and no new enclosure is to be made or new building erected without permission in future.

Taxes. The Dupati Maniyam and Sudamkaval deductions, amounting to Rupees 1-12-10, and Rupees 1-4-6 respectively have been resumed.

T. VENKATACHARIAR,
Special Assistant to Collector.
