

DESCRIPTIVE MEMOIR OF SRIPARANKUSAPERI OF THE
NANGUNERI TALUQ.

Situation. This village, the twenty-third under the irrigation of the Nanguneriyan channel is situated three miles north-east of Nanguneri.

Area. A portion of the old village of Sriparankusaperi now forms this new village.

The area prior to Settlement was, omitting fractions, 521 acres; by Settlement it is 527 acres; not increase by Settlement 6 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any survey field does not confer on the cultivator of that field the right of entering on such poramboke or in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

Demarcation. This village, as now formed by Settlement, contains two Kandams or sub-divisions and 66 survey fields. The demarcation marks erected and standing are :—

Boundary stones.	Offsets.	Stones at corners of fields.
18	62	140

These have all been inspected and the field stones have been sunk to the level of the ground. The village officers have given receipts for them, and are now responsible for their up-keep.

Census. The Statistics of the village as ascertained by the Census of 1871, are as under :—

Houses.	Bazaars.	Population.	Land Pattains as per Settlement		Wells.		Cattle.	Sheep.
			Single.	Joint.	Old.	New.		
32	...	161	1	...	1	1	50	300

Irrigation. This village is irrigated by two tanks supplied by the surplus channel passing from tank to tank above it from Nanguneri. The situation and irrigation are both indifferent. This village has accordingly been placed in the third group.

The revised area and assessment under each source of irrigation are as follows:—

Name.	Area.		Assessment.	
	Acres.	Cents.	Rs.	As.
Seiparankasaperikulam channel-fed tank	55	8	247	11
Martandaperikulam do.	3	91	40	...
Total...	63	99	293	11

Kudil Maramat. The ryots have undertaken to keep the sluices clear of silt, to erect ring bunds in front of breaches, and to clear the distributing channels when needed at their own cost, as per separate statement.

Crops. The acreage of the crops cultivated in Fasl 1285, as per Curram's accounts is as under:—

Name of crop.	Irrigated or dry.	Area in acres.
Rice, 1st crop	Irrigated.	52
		2
		1
2nd do	...	...
Gingely oil seed	...	53
Cotton	Dry.	17
		13
		35
		7
		1
Pulses	...	...
Sami	...	...
Yaraga	...	...
Raggy	...	...
Total...	...	74
Grand Total...	...	127

Settlement. The entire irrigated area of this village is assessed in Class VI and the dry lands all in Class IX.

The following table exhibits the revised assessment of the village. No lands have been compounded for as permanent double crop.

Description of land.	Block.	IRRIGATED.						DRY.					
		Class.	Area.		Amount.		Rate per acre.	Class.	Area.		Amount.		Rate per acre.
			Acres.	Cents.	Rs.	As.			Acres.	Cents.	Rs.	As.	
Ordinary red loam. ...	VI.	63	99	297	11	4	8	...	...	...	...	...	...
Worst red sand ...	...	...	...	...	...	...	...	IX.	307	27	76	12	4
Total...	...	...	63	99	297	11	...	...	307	27	76	12	...

Deducting fixed remissions only, the net average of the land assessment for the past five years is Rupees 365; by Settlement it is Rupees 364; total reduction Rupees 4. The former wet land assessment was calculated on the village average (Mottasarasari) which was Rupees 4-11-9 an acre for a single crop (Ponnam), and Rupees 2-11-9 an acre for a second crop (Kar). The former commutation rate was Rupees 2-14-8 per grain cottah of five bushels for both Peshnam and Kar paddy.

The dry lands were held at four annas and seven pice an acre, subject to a remission of nine pice an acre as Salankaval.

Palmyras. 2,511 trees paid an assessment of Rupees 53 in Fasl 1285.

These were classed as under:—

Class.	Number.	Rate.		Amount in Rupees.
		Annas.	Pice.	
Paravam	462	0	10	26
Kattu	697	0	5	17
Oleivettu	1,442	0	1	10
Total...	2,511	...	...	53

Besides these, there are 133 growing seedlings that have hitherto paid no assessment. The charge for palmyras growing on pattah lands and owned by the land-holders has now been fixed at Rupees 27-6-0 per annum. The remaining trees on pattah lands owned by others than the land-holders, as well as all

trees on Government waste, &c., are now chargeable at one anna each for Paruvam, six pice each for Kattu and Kai, and three pice each for Olsivettu. The seedlings on such lands will be charged for as they come to maturity. Such fields as are now free from tree-tax, will be free from all charge for trees grown during the term of the present Settlement.

Palmynes are not to be planted on, or within, the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks, or on any other description of Government waste land, no claim for compensation on the part of the persons at present using such trees on payment of an annual tree-tax will be attended to, but the assessment of all trees so cut will be deducted from the tree pattals.

Pasturage. No lands have been specially set aside for this purpose; the cattle are fed on the pattah lands and Government waste.

Building Site. Is sufficient for present requirements.

No pattah will be granted for cultivation within the limits of the building site, and no new enclosure is to be made or new building erected without permission in future.

Taxes. The Stalamkaval deduction amounting to Rupees 11.13.5 has been returned.

T. VENKATACHARIAR,
Special Assistant to Collector.
