## No. 73.

### DESCRIPTIVE MEMOIR OF TIRUVILAKUPURAM OF THE NANGUNERI TALUQ.

**Situation.** This village, the first under the irrigation of the Sivalaperiyan channel is situated ten miles west of Nanguneri.

**Area.** The areas given below have been merged in this village by Settlement.

| No. | Name of Village.     | Portion merged. | Area.  |        | Remarks.                                                                 |

|     | Total...             | ...             | 611    | 73     |                                                                          |

The area prior to Settlement was, omitting fractions 612 acres; by Settlement it is 609 acres; net increase by Settlement 57 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any survey field does not confer on the cultivator of that field the right of entering on such poramboke or in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

**Demarcation.** This village, as now formed by Settlement, contains two Kandams or sub-divisions and 93 survey fields. The demarcation marks erected and standing are:—

| Boundary stones. | Offsets. | Stones at corners of fields. |
|------------------|----------|------------------------------|
| 15               | 48       | 80                           |

These have all been inspected and the field stones have been sunk to the level of the ground. The village officers have given receipts for them, and are now responsible for their up-keep.

Census. The Statistics of the village, as ascertained by the Census of 1871, are as under :—

| Houses. | Bazaars. | Population. | Land Patials as per Settlement. |        | Wells. |      | Cattle. | Sheep. |

Irrigation. This village is irrigated by Surukaralaiyan odai, a jungle stream and by baling from the Sivalaperiyan channel. The situation and irrigation are both fair. This village has accordingly been placed in the second group.

The revised area and assessment under each source of irrigation are as follows :—

| Name.                                    | AREA.  |        | ASSESSMENT. |     |

settlement. The entire irrigated area of this village is assessed in Class V, and the lands supplied by baling at half the nuzjah rate of the village. The dry lands are all assessed in Class IX.

The following table exhibits the revised assessment of the village. No lands have been compounded for as permanent double crop.

Deducting fixed remissions only, the net average of the land assessment for the past five years is Rupees 83; by Settlement it is Rupees 106; total increase Rupees 23.

The former dry lands were held at five annas two pie an acre, subject to a remission of two pie an acre as Chaturbagum, and of one pie an acre as Salankaval.

Palmyras. 7,957 trees paid an assessment of Rupees 88 in Fasli 1285.

These were classed as under :—

| Class.           | Number. | RATE.  |       | Amount in Rupees. |
|------------------|---------|--------|-------|-------------------|

| Total...         | 7,957   | ...    | ...   | 88                |

Besides these, there are 2,077 growing seedlings that have hitherto paid no assessment. The charge for palmyras growing on pattah lands and owned by the land-holders has now been fixed at Rupees 92-13-0 per annum. The remaining trees on pattah lands owned by others than the land-holders, as well as all trees on Government waste, &c., are now chargeable at one anna each for Paravam, six pie each for Kattu and Kai, and three pie each for Oliverina. The seed-

ings on such lands will be charged for as they come to maturity. Such fields as are now free from tree-tax, will be free from all charge for trees grown during the term of the present Settlement.

Palmyras are not to be planted on, or within, the bank of any irrigation work belonging to Government without the Collector's permission, and should the Collector think fit to cut the trees now growing on tank or channel banks, or on any other description of Government waste land, no claim for compensation on the part of the persons at present using such trees on payment of an annual tree-tax will be attended to, but the assessment of all trees so cut will be deducted from the tree pattahs.

There is no building site in this village. The cultivating ryots dwell in the neighbouring village of Kalakada.

The Stalankaval and Chaturlingum deductions amounting to Rupees 6-15-3 and Rupees 3-2-1 have respectively been resumed.

The following lands are held on favourable terms:—
