The area prior to Settlement was, omitting fractions 1,234 acres; by Settlement it is 1,363 acres; increase by Settlement 29 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government paramboke, in any Survey field does not confer on the cultivator of that field the right of entering on such paramboke, or of, in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

**DEMARICATION** This village, as now formed by Settlement, contains 5 Kandams or sub-divisions and 309 Survey fields.

The demarcation marks erected and standing are:—

| Boundary stakes. | Off-sets. | Source of extension of fields. |
|------------------|-----------|--------------------------------|
| 61               | 211       | 208                            |

These have all been inspected and the field stones have been sunk to the level of the ground. The village officers have given receipts for them, and are now responsible for their up-keep.
