5. The area prior to Settlement was, omitting fractions, 4,716 acres; by Settlement it is 1,721 acres; increase by Settlement 5 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment, on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been measured in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke, in any Survey field does not confer on the cultivator of that field, the right of entering on such poramboke, or of in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

**DEMARICATION.** This village as now formed by Settlement, contains 8 Kanakas sub-divisions and 503 Survey fields.

The demarcation marks erected and standing, are:—

| Boundary stones. | Offsets. | Stones at corners of field. |
|------------------|----------|-----------------------------|
| 60               | 184      | 1,156                       |

These have all been inspected and the field stones have been sunk to the level of the ground. The village officers have given receipts for them, and are now responsible for their up-keep.
