

DESCRIPTIVE MEMOIR OF KODUNGANI OF THE TENKARAI TALUK

SITUATION. This village, the fourteenth under the irrigation of the north main channel of the Srivaiguntam anicut is situated eleven miles east of Srivaiguntam.

AREA. A portion of the old village of Perumkulam now forms this new village.

The area prior to settlement was, omitting fractions, 111 acres; by settlement it is 123 acres; net increase by settlement, 12 acres.

It must be distinctly borne in mind that a deduction of 10 per cent. has been made in calculating the rates of assessment, on all fields, wet or dry, on account of any roads, channels, paths, banks, &c., that may have been included in with the cultivated area. The fact of the inclusion, therefore, of any such Government poramboke in any survey field does not confer on the cultivator of that field the right of entering on such poramboke or in any way interfering with it, and any unauthorized encroachment on it will be severely punished.

DEMARICATION. This village, as now formed by settlement, contains one Khaddam and 84 survey fields. The demarcation marks erected and standing are:—

Boundary stones.	Other.	Stones at corners of fields.
12	43	219

These have all been inspected, and the field stones have been laid to the level of the ground. The village officers have given receipts for them, and are now responsible for their up-keep.

CENSUS STATISTICS. The Statistics of the village, as ascertained by the Census of 1871, are as under:—

Houses.	Bazars.	Population.	Land Patahs as per Settlement.		Wells.		Cattle.	Sheep.
			Single.	Joint.	Old.	New.		
9	..	25	54	5	...	...	8	...

IRRIGATION. This village is irrigated by the Korkaikulam tank, supplied by the north main channel of the Srivaiguntam and the eighth on the Tanbrampari river, supplemented by the drainage water from the upper irrigation by the Marudur Kilakal channel and the north main channel through a Typhen sluice under the latter. The situation is indifferent; but the irrigation good. The village has accordingly been placed in the second group.

The revised area and assessment under each source of irrigation are as follows:—

Name.	Area.		Assessment.	
	Acre.	Cents.	Rs.	As.
Korkaikulam channel-dol tank...	101	88	1,304	14

KUDI MAHAJAT. The ryots have undertaken to keep the sluices clear of silt, to erect ring bunds in front of breaches, and to clear the distributing channels and the drainage channels, when needed, at their own cost, as per separate statement.

CROPS. The average of the crops cultivated in Fashi 1283, as per Curman's accounts, is as under:—

Name of crop.	Irrigated or dry.	Area in Acres.
Rice, 1st Crop	Irrigated.	83
2nd do.		83
Plantains		1
Total...		83

SETTLEMENT. The whole of the irrigated area in the village is assessed in class III. The dry lands are assessed in class IV.

The following table exhibits the revised assessment of the village. The whole of the irrigated area has been compounded for a permanent double crop at 4 additional to the single crop assessment in class III.

Description of Land.	IRRIGATION.						Dry.					
	Area.		Assessment.		Rate per Acre.		Area.		Assessment.		Rate per Acre.	
	Class.	Acres.	Rs.	A.	Rs.	A.	Class.	Acres.	Rs.	A.	Rs.	A.
Good black lands	III	83	1,304	14	15	1	IV	17	63	24	1	1
Baling	...	23	42	20	...	...	...	...	...	...	...	...
Total...	...	106	1,346	34	...	...	...	17	63	24	...	...

Deducting fixed remissions, the net average of the land assessment for the past five years is Rs. 1,509. By Settlement it is Rs. 1,341. Total increase Rs. 322. The former wet land assessment was calculated on the village average (Mutha-nagari) which was Rs. 10-1 an acre for a single crop (Peshnam) and Rs. 5-6-4 an acre for a second crop (Kar). The former commutation rate was Rs. 2-1-7 per acre cotton of five bunsels for both Peshnam and Kar paddy.

The dry lands were held at seven annas and nine pice an acre.

PALMYRAS 1,150 trees, paid an assessment of Rs. 34 in Fashi 1283. These were classed as under:—

Class.	No. of trees.	Rate.		Amount in Rupees.
		Annas.	Pice.	
Paravani	164	2	1	14
Kattu and Kai	304	1	2	19
Olavetta	682	...	2	1
Total	1,150	...	...	34

Besides these, there are 295 growing seedlings that have hitherto paid no assessment. The charge for palmyras growing on pattah lands and owned by the land-holders, has now been fixed at Rs. 4-13-0 per annum. The remaining trees on pattah lands owned by others than the land-holders, as well as all trees on Government waste, &c., are now chargeable at one anna each for Paravani, six pice each for Kattu and Kai, and three pice each for Olavetta. The seedlings on such lands will be charged for as they come to maturity. Such lands as are now free from tree-tax, will be free from all charge for trees grown during the term of the present Settlement.

PASTURAGE. No lands have been specially set aside for this purpose; the cattle are fed on the pattah lands.

BUILDING SITE. There is but a small area in this village occupied by the building site. The pattahdars do not like to have it entered as poramboke.
