From the Agent to the Govr. of Fort St. George
Forwarding the annual Report of the Settlement of the Land Revenue for Fusly 1254 together with the Statements Nos. 1. 2. 3. 4. 5. 6. 7 and two others.

Sir.

1. I have the honor to forward the annual Report on the Settlement of the Land Revenue for Fusly 1254, together with the following Statements.

No. 1. Statement shewing the state of the District of Kurnool for Fusly 1254.

2. Do. the Extent of the several descriptions of land and the amount of assessment for Fusly 1254.

3. Do. Comparative in detail between Fusly 1253 and 1254 of the settlement of the Land Revenue for Fusly 1254.

4. Do. Statement Comparative of the land Revenue settlement of Fuslies 1253 and 1254.

5. Do. of the Kistbundy of the land Revenue for Fusly 1254.

6. Do. Comparative between Fuslies 1253 and 1254 of all sources of Revenue.

7. One Statement of Receipts for Fusly 1254.

Do. of charges for Do.

2. The season commenced favorably and afforded reasonable expectation of an abundant harvest but the want

of rain in the middle and latter end, was much and generally felt; and I am inclined to think, that on the whole the actual outturn was rather below than above an average one; very late in the season some rain fell which did considerable damage to the ripe Jawary in the Southern parts of the District; but in the Centre and Northern parts it was of great use to the Cotton which was very backward this year. The mortality which I mentioned as so general among the Cattle in July 1253 had considerably diminished, though it by no means ceased altogether, as the numerous Skeletons in the vicinity of the Villages abundantly testified. The Lists were collected with more regularity than they have been since the Assumption of the Country, which I attribute, in the first place, to the operation of the Survey, and secondly to a greater degree of care and attention on the part of the Amildars in making the Villivari according to individual capability, instead of leaving it, as was too much the case formerly, to the discretion of the Reddies and Curnums, who not unfrequently displayed their Zeal by overloading a willing tenant till he broke down, and sunk back to the condition of a day Labourer.

Defended

Defended by this Pattah, which, now that the Survey is completed, shows him in detail every acre of land in his possession, each Ryot knows exactly what he has to pay, and endeavours to prepare for it accordingly, whereas before he was constantly liable to be called on to contribute to the deficiencies of others, who were moreover generally the most influential men in the Village. Something also of the more punctual realization of the Revenue may be attributed to the rules laid down for the Cultivation of those Enam lands which are held without Sunnuds. I pointed out in my Report last year the great loss to which the Government was exposed by the excessive cultivation of these lands, the best of which were either held by the Enamdars themselves or were monopolized by those who had sufficient influence to get them, to the detriment of the poorer classes on whom the bulk of the burthen consequently fell, and to whom a more equal distribution of the Enams proved a great assistance.

I also remarked that the Government demand on the Circar lands, as it stands at present, could not be paid without the aid of these Enam lands, and as the Village system which prevailed under the

Defended

Defended by this Pullah which, now that the Survey is completed, shows him in detail every acre of land in his possession, each Ryot knows exactly what he has to pay, and endeavours to prepare for it accordingly, whereas before he was constantly liable to be called on to contribute to the deficiencies of others, who were moreover generally the most influential men in the Village. I also remarked that the Government demand on the Circar lands, as it stands at present, could not be paid without the aid of these Enam lands, and as the Village system which prevailed under the

Mogul

Fort St. George 30th October 1815.

Magulye Government now no longer exists, it became absolutely necessary for the protection of the Government interests, to insist either that the persons in whose names the Enams were held, should, if they chose to cultivate their lands themselves, likewise agree for a portion of the Circar land in the Village, or else that they should leave them in the hands of the Ryots as before, and make with them the best terms they could until the question is finally settled. From this rule I excepted all lands for which Summads were produced, and generally all those which were held as service Enams.

3. The settlement for the year is 6,26,852 Rupees or 51,672 Rupees in excess of the previous year. This increase is owing chiefly to the cultivation of land left waste last year from want of means and an unfavorable Season. The next important item of Increase is on Enam land brought to account as Circar. The survey brought to light a number of so called, Enams, which I apprehend the Government would hardly be disposed to renew; even though the claims to them were ten times better supported than they are. In several Villages are to be

Fort St. George 30th October 1815.

found Enams granted to two famous Pylwans or Athletes of whom nobody knows any thing but the name. In other Villages are Enams for troops of Ropedancers and Tumblers who are ever on the move from one District to another, visit Hurnod occasionally, and get a small present from the Reddies and Curnums whenever they exhibit there performances in any of the Villages containing Enam land in their name. Under this head is also a considerable item on account of lands fraudulently entered in the Pymash accounts as "Enam", but which have turned out on investigation to be Circar and have been carried to account accordingly. I have not thought it necessary to write a separate Report on all such items, for to have done so would have taken up my own time and that of the Board, to very little purpose, because until the tarum assessment is introduced, and the general question of Enams is finally disposed of, all these must be regarded as temporary measures incident to any Country experiencing a change of Rulers; but my object in proceeding at once to resume such lands

Fort St. George 30th October 1845.

as are unsupported by summuds and appear to posses no claim whatever to be considered as Enam, is to prevent their acquiring any thing in shape of a title, from a prolonged and tacit permission to be held as such under our Government. Every year of possession increases the difficulty of protecting and proving hereafter the rights of the Government, and many a measure which at the commencement of a Rule would be regarded even by the losers themselves, only as a just assertion of territorial rights, would after a lengthened and undisturbed enjoyment be looked upon as a harsh exercise of Power. The total amount brought to account in this year under the head of "Resumed Enams" is, as will be seen from Statement No. 4. 4008 Rupees and it occurs in 374. Villages. Part of this has been resumed by myself, and part by my Predecessor, but kept in Amaunt under the impression that the Karnum Assessment and the investigation into Enams held without summuds would speedily be commenced: but as there does not appear to be any immediate prospect

Fort St. George 30th October 1845.

prospect of this, I have thought it better for the simplification of the accounts to carry those items to the Jyen-Jemmaa.-

Decrease 4. Under this head there is an item of 68-8 on account of a boundary dispute. This question had for many years been a subject of contention between the Jaghiredar of Bunganpilly and the late Nuwab of Kurnool; the former had made repeated complaints but could never get the matter investigated, and as he frequently petitioned me to decide upon his claim I deputed my Assistant Captain Newbold to proceed to the spot and ascertain the facts of the case. He accordingly encamped in the neighbourhood and after hearing what the Villagers on both sides had to say, and examining the old accounts, he made an accurate Survey of the locality and marked out on the spot what he conceived to be the correct boundary and in which I entirely coincide with him. By the new line the Jaghiredar has not got all that he claims but he acknowledges that after the accurate investigation made by Captain Newbold he ought to remain satisfied. The

land lies in a hilly tract, is poor and of little value to either party. but it was advisable to have the matter set at rest to put a stop to the frequent disputes among the Villagers. The decision of course remains subject to the approval of the Board, and in the mean time the line marked out by Captain Newbold remains the boundary.

5. There is a decrease of 3748 Rupees under the head of Gootta cummee, it occurs in 98 Villages, and is spread over a great number of individual holdings. These reductions were for the most part based on observations made, and information obtained during the Summabundy of the preceding fusly, and were made with reference to the general condition of the applicant, the average demand on the whole of his land, and the amount of assistance derived from the cultivation of Enam land.

Remissions 6 The total amount of remissions is 1284 Rupees, of this 554 Rupees is manual Remission. The difference in the amount remitted to the Jaghiredars of the 14 Villages between this year and the last, is owing to the

the decrease of one of the Jaghiredars by which the half of two Villages reverts to the Government, the other half remaining in the possession of his Brother as originally confirmed and partly to the Taharir and Roosoums (which amount to 571 Rupees) not being included in the remissions this year. The Taharir and Roosoums are the pay of the Circar Servants and allowances to the Nawab's mahalat (the ladies &c. of his family) to which those Villages, though held as Jaghires, were subjected. This sum of 571 Rupees is the right of the Government it has hitherto been usual to remit the whole heriz of these Villages and then to deduct this sum and carry it to the Credit of Government, a complication of accounts which appears very unnecessary. I have therefore retained this sum in the Demand for this year, including in the remissions only the actual Amount due to the Jaghiredars In 18 Villages I allowed to 30 Individuals, a remission of 296 Rupees on lands which appeared to be too highly assessed, and in one Village I allowed to the Reddies 79 Rupees on account of Service Enq

Fort St. George 30th October 1845.

They claimed it as ancient Enam and I had promised them the year before that I would make them some allowance if they conducted the business of the Village to my satisfaction; the per centage on the Sukhtah Beriz of the Village is 1 15/16.

From all I can learn, I am disposed to think that the late Government looked more to the Reddies than the Curnums for the realization of the Revenue, and the general management of the Village. Their Enams were however in general much smaller than those of the Curnums, but they possessed certain privileges and enjoyed, besides sundry Roofs-rooms, a degree of consideration that rendered the Office a very desirable one. The Roofs-rooms, or fees, are now all abolished, and from the equalizing tendency of our system they have lost much of that superiority which they formerly had, and it is very difficult to get them to act, or take any interest beyond their own concerns. This is much to be regretted because in proportion as the Reddies lose

Fort St. George 30th October 1845.

authority, the Curnums or much less scrupulous class, gain. The latter are the only people who can as yet make any thing of our detailed accounts which to a certain extent makes the whole Village dependent on them, and I have almost always found that wherever their influence decidedly predominates, there are the most numerous complaints, the heaviest balances and the greatest quantity of land left uncultivated. It is my constant endeavour to counteract this disposition to throw the controul of the Village affairs into the hands of the Curnums, and I trust the Board will approve of my having rewarded the activity of the Reddies in the Village, as I shall have occasion from time to time to allow temporary Enams to Reddies in Villages where there is none. They were informed that this Enam was only a temporary measure liable to revision whenever the general service Enams of the whole District are determined.

Nearly the whole of the remission (1637 Rupees) granted on account of failure of the second Crop, was given after a personal inspection of the Crops, and what I did not see myself was inspected either by the Amildar

Governor in Council
Fort St. George

The humble Petition of Fatheemah Beebee alias Jameah Beeby, the wife of the late Mahomed Taheer Shahe Hada the son of Major Soobadar Mahomed Gos Khan Shahe Hada.

That your Petitioner's husband, the said Mahomed Taheer Shahe Hada upon the death of his father Soobadar Major Mahomed Gose Shahe Hada, the Government was graciously pleased to allow him a Pension, and given him Jaghire for the support of himself and family.

Your Petitioner's husband departed this life about two and half months ago at Pondicherry, left your Petitioner and a daughter of the age 3 years or thereabouts him surviving without any property.

Your Petitioner humbly and earnestly requests that the Governor in Council will be graciously pleased to take her deplorable case into your humane consideration, and will be pleased to

continue

Fort St. George, 30th October 1845.

continues the Pension and also gives her and her daughter the Sayerships agreeably to the general order.

And your Petitioner as in duty bound shall ever pray.

From the Asstt Coll.r of Chinglepat.

Sir,

In reference to the Extract of Minute of Consultation dated the 27th August and the order of the Board thereon, I have the honor to state that the records of this Office do not shew that any corres.ce ever took place in 1815 regarding the Enam Village of Paramaswara Vinnagaram. It appears however that in conformity with orders from the Board dated the 30th June 1814 a Register of all alienated Villages in the District was furnished by Mr Sullivan then Collr on the 28th June 1815 and that the Village in question is entered in that Register in the name of Parumoh khan, the father of the present inamdar. I beg to transmit herewith the original summuds with their translations as called for by Government.

Chinglepat District Collector's Cutchery, Pulicaraney, 23d October 1845.

Under

Fort St. George 30th October 1845.

2. Under the general head of Salt there is a net decrease of Rupees 40,000 - 0 - a result dependant on the decreased sales of Salt for exportation to Calcutta which were Rupees 57,082 - less than in the preceding fusly. The extent of sales for home consumption during the two seasons now compared, were nearly on a par, being Garces 3320 and 3258 respectively. but the Board are aware that the very high monopoly price of 180 Rupees per Garce in the early part of the latter year has in some measure affected the demand -

3. The decrease of Rupees 1,90,449 - 7 - 9 under the head of Sayer is entirely attributable to the abolition of land customs in the latter part of fusly 1853.

4. The Abkarry exhibits no increase or decrease, the amount of Rent being the same as in the preceding year -

5. Under the head of Sundry Small Farms and Licenses, a decrease of Rupees 1,810 - 15 - 11 has occurred, owing to the limited demand for the fine wood cut in the jungle of Sheerharicottah.

6. The net decrease under the head of Motorpha amounting to Rupees 171 - 2 - 1. this result has been caused by the abolition of the licensed Tobacco stores within the area of 20 miles beyond the limits of the Madras Collectorate, and by a reduction in the number of temporary Shops opened during the festivals at Conjeveram and other places.

7. There is a decrease of Rupees 11,658 - 13 - 6 in

Fort St. George 30th October 1845.

in Stamps also in consequence of no new Sayer rowanahs having been sold in fusly 1254 -

8. The demand collection and balance under each head is shewn in the subjoined Statement -

From the Collr of Salem
Respecting lands cultivated by Ryots own wells in the Raizepoor Talook in the Salem District

Sir,

1. I have the honor to bring to the notice of the Board the circumstance of a Case in which I conceive "Erraloo" Nunjah Teerwah should be fixed on certain lands, at present paying Fusly Nunjah Assessment in the of Mootookully-putty in the Raizepoor Talook.

2. The lands in question were originally Poonjah but Assessed as Nunjah, and included in the Nunjah Ayacut of the Mootookully-putty Village in Fusly 1211 in consequence of having been cultivated with rice crop by means of the surplus water from the Mailana Gary Tank in the Podoopoliem Village, the bank of which was very low at the time of the Assumption of the Country, but subsequently raised by Mr. Macleod so as to contain a greater quantity of water for the supply of the adjacent Villages. After the Mootadary system was introduced the Mootadars of Podoo-poliem forbade the practice of taking the surplus water of the said Tank to the Mootookully-putty Village and granted the above lands to the Ryots on

14492. Fort St. George 30th October 1845.

on Poonjah Teerivah

3. When the Mootah reverted to Government in Fusly 1230 Mr. M. D. Cockburn the Collector pursued the practice observed by the Mootadars by granting most part of the Nunjah lands then waste, to the Ryots on the highest rate Poonjah Teerivah, when some of the Ryots dug wells at their own expence by which means they carried on Nunjah cultivation, paying Poonjah Teerwah up to the end of Fusly 1250. In Fusly 1251 this was brought to the notice of my Predecessor who collected Fysle Nunjah Teerwah from those who cultivated their lands with Nunjah grain by the means of private wells and issued puttahs to that effect in the said Fusly.

4. In the Samabundy accounts of Fusly 1252 the same Nunjah Teerwah was entered when the Ryots objected to pay it, under the plea of their lands having been converted into Nunjah by the water from their own private wells. To convince them of their being subject to Fysle Nunjah Teerwah a Circular order sent to the Talooks by Mr. Orr on the 10th September 1833 was read to them. This order specifies that in the event of any Nunjah or Totacal land granted on fixt rate Poonjah Teerwah, owing to deficiency of water & reverting to its original state of cultivation by the assistance of the water from the Ryots own private

private wells it is subjected to the Fysle Nunjah or Jolacal Jeerwah. When the Ryots still persisted in refusing payment of assessment their puttahs were ordered to be deposited in the Taloor Cutchery. and arrears of Revenue collected In Fusly 1253 it was necessary to have recourse to the measure of distraining the property of some of the Ryots for the purpose of realizing the Government demands. In Fusly 1254 they shewed the same obstinacy in receiving their puttahs which were then also ordered to be deposited in the Taloor Cutchery.

5. The whole ayacut belonging to the Tank above alluded to is.

Fort St. George 30th October 1845.

6. It will be observed that more than one third has been left waste on account of the deficiency of water. The assessment of land cultivated from the circar well and surplus water of the above tank is Rupees 11-5-1 per acre, and that of the land cultivated from the water of the private well is Rupees 9-1-7- the latter rate being exorbitant I issued an order to the Tahsildar directing him to report upon the rates of assessment fixed on the lands irrigated by well water called "Errapoo Nunjah" in the adjacent Villages. The Statement sent by the Tahsildar shews that the "Errapoo Nunjah" lands in the Vadavencorvachey Village situated near the land in question are assessed from 7- Rupees per Acre, agreably to which the Tahsildar proposes that 7 Rupees per acre may be fixed on some spots and Rupees 6-10-2- on others, with reference to the instructions contained in Para 22 of the sanctioned Hookoomnamah. I therefore herewith submit 2- Statements. No. 1- and 2 which will exhibit at one view the ayacut above shewn the extent of land cultivated with Nunjah grain from the water of the private well, and the difference between its present and proposed Jeerwah.

The decrease of the proposed Jeerwah amount to Rupees 41-14-11- for this reduction and for my future guidance in similar cases I solicit the Boards instructions.

For this land the Ryots pay Poonjah teerwah, as shewn in Column 5.

This land was taken as Poonjah cultivation and for some years Poonjah assessment was paid, but it was converted into Nunjah by making wells at their own expense and Poonjah teerwah paid up to Fusly 1250 at the time of settlement in Fusly 51 it was discovered and Nunjah teerwah was levied and which has been continued up to Fusly 54. The Ryots refused to pay nunjah teerwah tho' it was collected from them, and they request that they may be assessed at the Mittal teerwah or the assessment levied on lands similarly situated according to the provision of para 22 of the general Hookumnamah as shewn in Column 5.

This land is cultivated by the circar resources of irrigation.

Quit Rent Rs. 186-11-3

I beg to bring to the notice of the Board that the Village of Comaur in the Talook of Arealore which is entered in the Survey Accounts as liable to an Assessment of Rupees 637 - as. 8 - is held by one Venkatachellum Pillay as a Shrotrium for the support of certain Charities and Ceremonies to be performed in the Permanent Pagoda in the District of Tanjore on Quit Rent and that I consider the grounds upon which it is thus held to be invalid -

2. The accompanying Extract from Mr. Fraser's Register of Enams will shew that that Gentleman considered the title to be invalid and I would propose that the Village be resumed and a ready money allowance of Rupees 261 - 2 - as. 0 - which I have ascertained from the Collector of Tanjore to be the sum actually expended in maintaining the Charities and ceremonies above alluded to granted to the institution

There are no documents for these Endowments it is stated however that they were granted by three of the former Poligars of arrealoor Viz:t Roodoo rungappah Malavaroyer who reigned about 100 years, Rungapah Malavaroyer the Poligar of the District about 70 Years before and Rungapah Malavaroyer the reigning authority about 200 hundred years before-
	53	15.37	2d. The revenues of these Villages after paying the Curkar the Amount of the Shrotrium are intended to meet the expences of the different Pagodas, no doubt however but that great part of the sums collected from the Inhabitants are misapplied, it may therefore be deserving of consideration whether as there are no title deeds or documents to support these grants it would not be better to resume these Villages and a fixed allowance to be determined by the different people about the Pagodas and some other respectable Natives paid Monthly by the Government for the support and maintenance of these religious places; at present the Pattadars, Curkar and Church servants generally divide the spirit and several ceremonies of the Pagodas are greatly neglected for want of funds-

No. 219 of 1845.

Sir,

With reference to your letter of the 4th Ultimo, calling for a report on the petition noted in the margin which is herewith returned I have the honor to state that I thought the best way to dispose of the case would be to put the accused regularly on their trial under the provisions of Regulation IX of 1822, and I beg to send for the consideration and orders of the Board a copy of my decision-

Village Accounts Pottahs &c.

It is alleged in the petition of complaint that in fusly A.D. 1843/44 / 1253 the petitioners and others cultivated certain lands to the extent of about 110 Cawnies over and above the extent which was entered in their Pottahs or any circar accounts and the petitioners assert that they paid the assess=ment on the same to the Defendants and received no credits for it and that they have thus been injured and the Circar cheated. The lands al=luded to are contiguous to and intermingled with other lands which were entered in the accounts and on a complaint being preferred by the petitioners towards the close of Fusly 1253

Fort St. George 30th October 1845

Viz: in June 1844. persons were deputed to examine the c= locality and one of those a Talook Ghomastah the 1st witness gives it as his decided opinion that the lands said to have been concealed were actually cultivated and if this is the case it is quite clear that the assessment was not brought to the Cir=car accounts. But as the examination was not made till long after the crops were taken off the ground and the land had been in a great mea=sure ploughed and prepared for other crops it seems to the Collector that a sufficiently decisive opinion to warrant a judicial sentence against the Defendants cannot be arrived at particularly as some of the witnesses do not support the tes=timony however credible that may be in itself of the 1st witnesses. He, the 1st witness too seems to have taken it for granted that because he found stubble which to his view appeared to be that of Crops of the preceding season of cultiva=tion on some of the land it had all been in the same state. but the Collector cannot make up his mind to believe that his examination was sufficiently minute to establish the fact that the whole of the land was actually cultivated.

The persons who are said to have cultivated the lands amongst whom are the 4th 5th 6th & 7th witnesses admit the fact, but as the complaint evidently

Fort St. George 30th October 1845

evidently originated in a quarrel and there is reason to suspect that the complainants and other cultivators of the land in question/supposing them to have been= cultivated/ in the first instance went hand in hand with the Defendants to defraud the Circar- and as= there is evidently some exaggeration in ~~their~~ state= =ments, one of them for instance saying that he paid 40 Rupees more than the amount entered in his Pottah and that he cultivated 5 Cawnies more, the assessment being about a rupee per Cawney their evidence can only be received with great qualification.

On the other hand the Curnams pro= =ceedings have beyond doubt been very irregular he omitted to give the cultivators receipts and from the whole tenor of his proceedings there can be lit= =the doubt that he has been acting a fraudulent part- still I do not think the evidence sufficient to warrant his conviction in any of the penalties prescribed by the regulations- there is nothing but the measurement and examination of the first witness to shew what esetent of land was omitted in the accounts- and that does not ap= =pear to the Collector sufficient- and to prove the actual receipt by him of the assessment is quite out of the question.

Under these circumstances the

Fort St. George 30th October 1845

the Collector resolves to acquit the Curnam of guilt under the provisions of the regulation and he will dismiss under his general authority as having laid= himself open to strong suspicion.

The other Defendant will in like manner be removed from his Office.

Forwarding Copies and Translates of an address from the late Minor heiress of Rannad of 24th September a deed of adoption (invalid) of the 23d Idem; and of address from the husband and mother of the deceased of the 27th Idem, and recommending abandonment of the estate of Rannad to her and apprising them of having directed the Minor's allowance to be disbursed to her Mother till further orders.

Sir,

In reference to my letter of the 26th Ultimo, I have the honor to forward, for information of the Court of Wards, Copy and translate of an address from Dora Raja Aachyar late Minor heiress of Rannad, of the 24th Ultimo, apprising me that she had, on the preceding day, adopted Sivasawmy alias Anasawmy, the Son of her husbands elder brother, Cudumbavana Tavar, and of her Aunt Sivabogya Aachyar, to be her son; as also copy and translate of the deed of adoption, of the same 23d September, forwarded to me, without comment by the Manager in an address of the 27th Ultimo; also, copy and translate of an address of the 27th Idem from Pavatha Vardhance Aachyar the Mother of the late Minor heiress, and of one from the deceased's husband, of the same date, to which she alludes in claiming reversion of the estate to herself; and compliance with which I beg to recommend; for I do not think the estate has been so well taken care of since it fell under

my

my partial supervision as when it was uncontrolled by the Company's Officers—

2— Under dates the 26th and 30th Ultimo, Moottoo Veerayee Aachyar, widow of a former Zemindar, and for a long time guardian of the two deceased Minor Heiresses, impugns the deed of adoption, and begs the personal property &c. may be carefully guarded for her, but I do not trouble the Court with them as Section XXV Regulation V of 1804 fully invalidates any such document—

3— I take the liberty to press upon the Court's attention that I have directed the allowance hitherto given Monthly to the Minor to be henceforth disbursed to her Mother till the Court think proper to make other arrangement—

Having been informed today at 5 P.M. that 7 or 8 Sepoys were standing in your Cutchery with bayonets in their hands to your great disrespect with order of the Officer Commanding Rannad to take you to him, and that a crowd of 1000 people had assembled, I came to you forthwith and saw 7 Sepoys stand by you with bayonets in their hands disrespectfully insisting on your accompanying them to your master - who had ordered them to bring you by the ears; you immediately postponed the examination of a Police case and disbursement of money from the Treasury, in which you were then engaged, and after sealing the Treasury room went to that Officer surrounded by the 7 Sepoys with bayonets in their hands - I too followed and being asked to send for the Key of the Jail at Rannad, you as well as one Moottoosamy a Pillay, Vakeel of the Rance Parvovatha Thirthamy Nachyar pleaded your inability to do so in consequence of the said Nachyar having purchased it, and permitted Mr. Ross to lodge in it who was then absent. He then ordered you to depart, intimated it was your neglect to attend to his call

for

Fort St. George 30th October 1845.

for more than 1 or 2 Indian hours that had subjected you to such indignity, and that if you had finally refused obedience a guard of Sepoys would have been put over you even for 8 days successively - I witnessed the foregoing, and as the Gentleman's thus subjecting you to great disrespect by sending a guard of Sepoys, had collected 5 or 600 people before the Cutchery, and a riot was likely to ensue, I ordered them to disperse - This is all I know - Besides when I came from the Cutwals' Choultry to your Cutchery I took one Bajra Ambalagarem with me who also witnessed the above - Thus I gave this disposition with truth -

On the 27th the Manager sent the same Duffadar to get from him a written English document to that effect under his signature, who returned with answer that it should be given the following day. On the 28th whilst the Manager was engaged investigating a Police Complaint the above Duffadar brought an English note which he said had been given him by the Officer, but as it promised to pay only 12 Rupees for the whole Bungalow he sent word that it could not be accepted at

contrary to his former proposal, and requested a fresh one stipulating to confine his occupancy to half of the Bungalow if he was to pay 12 Rupees only. Upon this an Orderly made his appearance and informed the Manager he had orders from the Officer to bring him to him. The Manager sent word that he would come after finishing investigation of the Police Complaint he was engaged in and after closing the Treasury. Afterwards 3 Sepoys appeared and informed him they had orders to pull him before their Master by the ears. Meantime the Officer himself made his appearance on horseback with 4 other Sepoys before the Seemai Cutchery and went away after directing them in a loud voice to bring the Manager to him with drawn bayonets. The 7 Sepoys accordingly stood in the Pandal front of the Cutchery till at 3/4 past five, the Manager after completing his examination of the Police Complaint and Sealing the Treasury set out to go to the Officer when the Sepoys with drawn bayonets followed him.

Ensign Bamford recently arrived and in Command of the Detachment stationed here

here having on the 25th Instant, intimated thro' a Sepoy, name not known, his intention to occupy Colonel Martin's Bungalow belonging to the Zemindary, you answered that if he was to occupy it, he must pay a Monthly rent of 17½ Rupees, allowing the tents Chairs &c. of the Zemindary to remain in it, and that should he agree he must pass a writing for the same- afterwards the Gentleman sent word to you on the 27th Instant thro' the Duffadar Muhummud Khasim that he would occupy half of the Bungalow on a Monthly rent of 12 Rupees, and not the whole, his pay too small, and that the other half may be given for rent or appropriated for keeping materials &c. In answer you directed me to write him a Tamil letter in your name requesting him to forward a document in English with his signature, stipulating to occupy half the Bungalow and pay a Monthly rent of 12 Rupees- Accordingly I wrote one, and after obtaining your signature to it and entering it in the Copy Book dispatched it to him on the evening of the 27th thro' the Duffadar Muhummud Khasim- At 3 P.M. of the 28th the Duffadar brought you an English note from the Gentleman which being found to contain provisions for occupying the whole Bungalow an a rent of 12 Rupees a Month from the 25th Instant, was returned to him thro' the same man

man as at variance with his previous word of
Mouth with a request to forward a fresh one stipu-
-lating to occupy only half the Bungalow and pay
a rent of 12 Rupees as shewn in your former letter
to him- Afterwards at the 25th Sudeain hour of
the day an orderly appeared in the Cutcherry and
said the Commanding Officer wanted you to come
to him- As you were then engaged in distributing
pay of the Talook Servants of Paupangolum and
other extra Sibbundies and in taking depositions
in a Police case (not known to me) you sent word
by him that you would wait upon him as soon
as you should have completed examination of
the Police case and sealed the Treasury- Imme-
-diately after, the Orderly who had come an
Indian hour before, returned with two other Sepoys
with orders, as they said, from their master to drag
you before him by the ears with bayonets in their
hands to your great disrespect- some time after
this the Officer himself appeared on horseback at the
door of the Seemai Cutcherry and commanded the
three Sepoys in a loud voice in Hindustanee
language to bring you immediately to his Bungalow
with bayonets in their hands to your great indig-
-nity- These Sepoys together with 4 others sent
afterwards, total 7, stood by you with bayonets
in their hands and spoke in a disrespectful
manner- Upon this you after completing
the Government affairs went to the Officer

-rence of the Principal Collector purchased it,
together with the Commercial Office, and Courts
Bungalow, the property of Mr. Lennon, from
Messrs. Binny and Co. at Madras, and permitted
Mr. James Ross now absent, to occupy the
Jail Building- He then permitted you to
return to the Cutcherry, and added in Hindoo-
-stanee that the delay on your part to attending
to his call had subjected you to such indignity, and
that if you had continued to make further delay
a guard of Sepoys would have been put over
you even for 8 days without allowing you to go
any where, to your great disrespect- After this you
returned to your Office- Involuntarily give this Depo-

been present with you in the Cutcherry, and ac-
-companied you to Colonel Martinzs Bungalow.

Dr. Dr. by Mahummed Khassim Duffadar dated 28th July 1845.—

The Commanding Officer now here went into the Colonels Bungalow on the day before yesterday, the Manager sent me to him to say that if he occupied the building he had orders from the Principal Collector to charge 5 Pagodas a Month as rent, the Commanding Officer said he would only occupy half the Bungalow and pay 12 Rupees a Month - this I reported to the Manager, directed me to take a letter to him requesting a written document in English to effect that he would pay 12 Rupees a Month for occupying half the Bungalow, which on my delivering to him he said he would consider and give an answer the next day - this I stated to the Manager the next evening at 4 O'Clock when attending to his Police duties; - I brought him an English note from the Gentleman, but as he stated in it he would pay only 12 Rupees for the whole Bungalow which was at variance with the orders from the Principal Collector I was directed to return it and request another to effect that he would occupy only half the Bungalow for 12 Rupees, which I did, and the Officer directed Sheik Dawood an orderly to

go and call the Manager - On the Sepoys doing so the Manager sent him back to say that as he was engaged in Police duties and the Treasury being open - he would come as soon as it was finished and the Treasury closed - The Commanding Officer then sent the orderly Sheik Dawood, Sepoy Sheik Khader, and Budderdeen to bring the Manager by the ears with drawn bayonets, and while the Sepoys were telling this to the Manager, the Gentleman mounted on horse back came to the Cutchery door and in a very loud tone ordered the said three Sepoys with 4 others (names not knowing) to drag the Manager before him with drawn bayonets - the Manager went to the Gentlemans Bungalow in the evening under guard, and I followed. On arrival there the Commanding Officer looking at the Manager asked "where is the key of the Jail" he answered "I have it not but as Parovatha Vurthany "Nachyar had purchased the Jail from Mesrs. "Binny & Co. She may have it" - The Commanding Officer then said "you did not come on my call, and if "you had persisted in not coming, you would not "have been released even for 8 days, and you "have for the present been punished in being "brought by Sepoys, and in future if "you do not come a sufficient guard will be

At 4 O'Clock yesterday the 28th
Instant, whilst the Manager was engaged in in-
-vestigating a police Complaint and disbursing
money from the Treasury of the Seeman Cutcherry,
a Sepoy named Sheikh Dawood, sent by the
Officer Commanding detachment at this station, came
to the Office and wanted him to go to the Officer.
the Manager answered he was then busy and
could not do so, but would wait upon him after
finishing his business - Again 3 Sepoys came as
Viz. Sheikh Khader Buddeendeen and the above-
-mentioned Sheikh Dawood, with instructions, as
they said, to bring the Manager by the ears and they
therefore required him to get up - Mean time the
Officer himself came to the Manager's Cutcherry on
horse back accompanied by 4 other Sepoys and
left them with the three former strictly ordering
them in a loud voice to wait and bring the Manager
under guard with drawn bayonets - and the hour was then
3/4 past five. The Manager then set out to go to the
Officer and I followed him. On coming to the

Officer

Fort St. George 30th October 1845.

Officer he asked the Manager where the keys of the
Sait were, and the Manager answered that the
Sait belonged to Rance Parvatha Vurthanee
Nachyar she having purchased it from
Messrs. Binny & Co. at Madras, and that he
believed the keys were with her. the Officer then
told the Manager that he sent the Sepoys
because of his neglect to attend to his call
immediately, and that he has been well punished
for it, and if he had persisted in that course
he would have arrested him and kept him
under guard even for 8 days after which the
Manager returned to his Cutcherry.

Proceedings thereon—

72

The Principal Collector has submitted the copy of a correspondence with Major Minchin on the subject of quit rent payable on account of land held on the Neilgherry Hills by that Gentleman and has requested instructions whether the quantity actually under cultivation should be charged with Quit rent or whether the full extent enclosed should be subjected to the demand. He asks further whether the quit rent &c upon the land is to be regulated according to the rates notified in the Fort St. George Gazette, dated 1st February 1837 (Page 60) or with reference to the Survey rates.—

The Board observe that no lease has been granted for the land in question, and that the Government have deferred passing orders relative to the disposal of this and other lands on the Neilgherry Hills until the present survey is completed. at the same time they consider it is &c incumbent on Major Minchin to pay the rent demandable for the land which he has enclosed to the exclusion of other occupants,

occupants, and pending the receipt of the orders of Government on the subject the Board are of opinion that the demand should be made according to the Survey assessment, and to the general rules under which it is applicable in the District, with the condition however that Major Minchin shall become liable to such demand as may be hereafter determined by the Government for all lands in his occupation whether held for agricultural purposes or not— The Principal Collector will accordingly adjust the demand upon this principle and adopt measures to ascertain the actual extent of land enclosed by Major Minchin.—

Ordered that copy of the foregoing Proceedings be transmitted to the Principal Collector of Coimbatore.—

Sir,

Through some inadvertency on my part, a most vexatious mistake has occurred in the terms of the leave of absence granted to me in the Official Gazette under date the 21st Instant in consequence of the words "15th Proximo" having been used in my letter of application to the Board when it was intended that, that date, should have reference to the Current month— as the delay to which this unfortunate mistake gives rise will occasion me very serious inconvenience and tend perhaps materially to defeat the object I have in view Viz. the re-establishment of my health, which has severely suffered by my late attacks of illness, and

for

for which change and Sea air Leave been recommended, I beg you will kindly submit to the Board my request to be permitted to consider the term of leave now granted as commencing from the 1st instead of the 15th Proximo. I should in the meantime take it upon myself to anticipate the favorable answer of Government to my present application, and propose (if not objectionable to you) starting on the evening of the 1st of the ensuing month. I am in hopes that the nature of my case, and the delay that must necessarily take place before I could receive an answer to this communication may plead my excuse in thus presuming to anticipate the orders of Government.-

I have the honor to submit my report on the settlement of the Land revenue of this District for the past Fusly 1254, together with the usual accounts and Statements ——

2. The several Talooks were settled in the following manner, viz- Bekul, Odipi, Barcoor, Cundapoor, Sondah and Bilghi by the Sub Collector Mr Parker, Mangalore, Buntwal and Honore by the additional Sub Collector Mr Ward, and Ankola and Soopah by the Head Assistant Mr Forbes. As some change in the charge of the different Talooks, necessarily took place at the time Mr Parker was acting Principal Collector, two of the Talooks, viz. Sondah and Bilghi, which were settled by him, are included in Mr Ward's report, and Mangalore, and Buntwal which were settled by that Gentleman, are reported upon by Mr Parker. ——

partially from a deficiency of rain in the early part of the season, and the heavy rains in June interfered in some cases with the regular cultivation of the Byle land. Both the Rice crops and Garden products are considered to have been above the out-turn of the preceding year. ——

4 The season proved very injurious to the Salt Manufacturers, the late rains in November having delayed the preparation of the Pans, and the early showers in May having put a stop to the manufacture altogether. The quantity of Salt manufactured fell short of the preceding year, to the extent of 1017 Garce, and of the estimate by 1076 Garce. This failure occasioned very heavy loss to the Salt manufacturing Ryots. ——

5 The season was less healthy than usual, the Cholera and small pox having raged in several parts of the District. By the former disease 1419 persons appear to have been carried off, and by the latter 1386 a severe epidemic also prevailed among the Cattle, by which upwards of 18000 head are stated to have

10. It has been usual to shew the quantity of Garden products exported by Sea and Land, as a criterion by which the produce of each article might be estimated; but in consequence of the frontier chokeies having been abolished in February last, no account could be obtained of the quantity exported by land since that time. Owing to the want of this information, the statement only of the Export by Sea would give but an imperfect estimate of the Produce, the Statement has therefore been omitted altogether. In future years the necessary data for framing an Estimate of the cultivation, will be obtained through the Land Establishment.

the continued low prices of grain diminished the means of the Ryots, and rendered it unadvisable rigidly to enforce the instalments in all cases.

Rupees 298-A 1 — P 1. which from an inquiry made during the settlement of the past Fusly, appeared necessary, will be included in the remissions to be recommended by me in a separate report.

29. In para 4 of their Proceedings dated 5th December 1844, the Board have inferred, that the increase of Beriz from new Cultivation in the Fusly under their review, amounting to Rupees 561 — A 13 — P 11, was owing to encroachments on the Sirkat Guerie

14569 Fort St. George 30th October 1845.

Guerie wurgs and Coolnust.

30. I beg to state, that this is not the case, nor can I perceive any sufficient ground for the Board having arrived at such a conclusion. As explained in Mr. Thomas's report on Fusly 1253, the increase in question arose exclusively from an accession of new Cultivation, and the transfer of Guerie wurgs to the head of Moolie.

I beg to explain that the number deducted from the Government wurgs and the number added to them having been the same the difference only in the amount

32. In para 6 of their proceedings under reply, the Board observe, that of Rupees 127 - 5 - 10 deducted from the permanent remissions of Beriz on Salt Pans Rupees 50 - 11 - 4 being brought to account, it does not appear how the remainder is accounted for.

33. The following is the explanation of this Item.

Some Vurgdars who had obtained a permanent remission of the Beriz on their worked Salt Pans laid a claim for a further remission on certain unworked Pans forming part of their Estates. On an inquiry being made it appeared, that the remissions allowed, exceeded the proportion to be borne by

Fort St. George 30th October 1845.

by the worked Pans in reference to the actual produce of the entire Estates. The excess of 127 - 5 - 10 was deducted from permanent remission, and Rupees 42 - 14 - 8 out of that sum, transferred to the Head of Beriz suspended on Pans unworked, leaving a balance of Rupees 84 - 7 - 2, of which Rupees 50 - 11 - 4 were carried to account in 1252, and for Rupees 33 - 11 - 10, instalments were fixed, as to collect the whole at once would have distressed the Vurgdars, so as to interfere with the regular discharge of their respective Rents. At the time this arrangement was made, some other portion of Beriz on the same Estates which had been suspended pending some inquiries, was settled to be brought up by instalments. The instalments under both these Heads, amounted to Rupees 74 - 9 - 2, and were fixed as shown in the Statement in the Margin.

35. The Board are aware, that the accounts of the Hoofsagamy Beriz have been regularly kept only since fusly 1243, and it is owing to the want of the necessary details of the Hoofsagamy Beriz anterior to that year, that the discrepancies in question have occasioned. The particulars in the Margin will show that Rupees 185-6-4 on account of old Hoofsagamy forms part of Rupees 2671-4-0 which was suspended on lands newly cultivated, and for which instalments were fixed.

The present forms of Hoofsagamy accounts are defective, and required some alteration; but as

22nd Sept. 1841 Para 19. the Board have desired that the forms of Jummabundy accounts are not to be changed without their sanction, I shall not make any alteration until their instructions on the subject are received.

36- In para 7 of their Proceedings

under

17th Oct. 1843 Paras 23, 24.

under reply, in reference to the observations in my Report on Fusly 1252, on the operation of the existing Revenue system, the Board state, that they have shown that the increase in the Revenue of the District which I had exhibited in favor of the present system, is "only apparent from the oversight of including "in it the collections of the peregunnahs recently "acquired from Coorg." To this I beg leave to observe, that the accession of the Coorg Pergunnahs was not overlooked by me, though it was certainly an omission not showing the addition to the Jummah of the District in Fusly 1244, from the re annexation of these Pergunnahs. That circumstance, however, does not at all affect the correctness of my statement, as exclusive of the additions from the Coorg Pergunnahs, there has been a progressive improvement in the Revenue of the whole District since fusly 1243, and the positive increase now amounts to Rupees 10,3952-10-1 as shown in the Margin.

37. With respect to the remarks of the Board in the same para, that the improvement of

of the Revenue is attributable" to the favora-
"ble character of the Seasons for the last
"five or six years, the effects of which have
"been exemplified in the increased Revenue
"of almost every District under this
"Presidency." I would beg to observe, that the
seasons in other parts of this Presidency
whether as to Produce, or Prices, are no
criterion for judging of the seasons on
this Coast, which is affected by different
monsoons, and totally different markets,
so that what may prove very favorable
seasons for the Ryots on the other side
of the Peninsula, may be the reverse here. Owing, happily, to the general
regularity of the S.W. Monsoon, the cultiva-
tors of this Coast have seldom to complain
of any great losses in their crops, and the last
few years have been equal to the average, but
the Board are under a misapprehension if
they suppose that the five or six last
years have been altogether favorable to the
Ryots of this District. In the all
important point of prices, they have been
far from favorable, and during the last
four years especially, the low prices of the
staple produce of the District, has

prefixed

prefixed heavily upon the agricultural classes.

38. In the same para the Board
proceed to draw a comparison between the
17 years from $\frac{1209}{1799/1800}$ to $\frac{1225}{1815/16}$ Fasly, in which the
Farrow was fixed, and the last 17 years from
$\frac{1236}{1836/37}$ to $\frac{1252}{1842/43}$ and also between the first ten
years of British Rule from $\frac{1209}{1799/1800}$ to $\frac{1218}{1809/10}$ and of
the last ten years from $\frac{1243}{1833/34}$ to $\frac{1252}{1842/43}$ the result
of which they would appear to infer is improve-
able to the present system, though it is not
expressly said so.

39. I must take the liberty to
observe on this, that the comparisons drawn
by the Board, do not exhibit any fair re-
presentation of the result of the present
system, nor can I perceive, in fact, how
they apply to the point urged by me viz
the continued improvement of the Revenue,
which is observable in every Taluk of the
District,

District, from the commencement of the system. Slightly to exemplify its effects, it should be shown, that for a series of years immediately preceding its introduction (exclusive of seasons of extraordinary distress) the Revenue had been stationary, or rather declining, as is admitted by the Board in their proceedings on the first report of the settlement under Mr Vaveash's system;

It may be urged perhaps, that the increase in the population and stock of Cattle, is sufficient to account for the increase of Revenue during the period in question— But on this point I would beg to refer the Board to their proceedings dated 11th January 1836, where it is shown, that there had been an equal increase in the population and Cattle, in the period of five years preceding the introduction of the present system, with a Stationary or rather declining revenue, which the Board agree with the Collector in

It may be urged perhaps, that the increase in the population and stock of Cattle, is sufficient to account for the increase of Revenue during the period in question. But on this point I would beg to refer the Board to their proceedings dated 11th January 1836, where it is shown, that there had been an equal increase in the population and Cattle, in the period of five years preceding the introduction of the present system, with a Stationary or rather declining revenue, which the Board agree with the Collector in

in thinking "warrant the conclusion that the "Sirkar has not secured all which a correct "system would have entitled them to. It is therefore, I think, not an unreasonable inference, that the steadily progressive increase in the Revenue since that period, is to be ascribed to the operation of a more correct system.

42. Of the soundness of the principle of the present system indeed, no one who has had sufficient experience of the working of it, can entertain any doubt. I would confidently appeal to the opinions of the several very able Officers who have been associated with me in administering the Revenue affairs of the District for the last six or seven years, and especially to that of Mr. E. Maltby who has perhaps had greater experience in all parts of the District than any other officer, but if the opinion of all those who have had the best opportunities of testing the efficiency of the system in question, is to be held cheap, and theory and conjecture, are to be preferred before experiment and fact, I much fear that the present unquestionable prosperity of this fine Province is in jeopardy.

From

43. From the remark made by the Board in the conclusion of Para 7 of their proceedings, Viz: that in the Talooks to which the Sarrow did not extend, and in which an increase in the Revenue is observed, Mr. Vincash's revision has not taken place, I am almost induced to suppose, that notwithstanding all the figured Statements that have been submitted on this subject, the Board do not yet fully apprehend the working of the present system in all its parts. The fact is, that the operation of Mr. Vincash's system has applied in a greater degree to those Talooks, than in the Districts, the modification of the Peiz having been more extensive in them than in any others, as will appear from the accompanying Statement. The Sarrow had previously greatly relieved the higher assessed Estates in those Talooks to which it extended, and they did not therefore, stand in need of so much revision as the other Talooks in which the Kadeem Peiz remained unaltered. It is chiefly owing to the relief given to those Talooks, by the operation of the present system, that numbers of Estates previously valu less,

owing

5th Dec. 1844

I

owing to the heavy burden of the assessment, have been brought into a profitable state, & followed by an increase in the Government Revenue. Had the increase in these & Talooks, been owing to the Survey and & registry, as the Board would appear to infer, there was nothing to prevent the improvement taking place before the intro= =duction of the new system, which, however, was not the case, the Revenue having been previously nearly Stationary.

44. The existing system not having originated with me, I cannot be supposed to entertain any undue affection towards it. My advocacy of it from the first, has proceeded from a thorough conviction of its being a wise and beneficial measure both for the Government and the People. The former is proved, I think, by its having caused a steadily increasing Revenue for a series of years, not observable in any former period since our acquisition of the Province, and which has been collected with unexampled ease, and regularity. The latter is shown by the improved condition, which the revision of the assessment has given to a large number of Estates, for which it was formerly difficult to find occupants

occupants, and also by the general rise in the value of landed property of late years, to which I have no doubt, the belief in the stability of the present revision of the assessment, has greatly contributed. The particulars of the several classes of Estates, as they are affected by the existing system, have been so fully explained in my letter to the Board dated 30th July 1842, that & it is unnecessary to swell this Report by entering into any details. But as this is, perhaps, the last time I may have an opportu= =nity of addressing the Board on the subject, I have felt it my duty to place on record my deliberate opinion of the beneficial character of the system, after seven years experience of the working of it, and of the evil that would result from any material altera= =tion in its provisions.

45. In order to secure every advantage to the Government, I am of opinion that it would be desirable to have all the lapsed, or Sirkar Gueni Waste, surveyed, with the view of accurately defining their boundaries, and also any remaining circar waste for the same purpose. Whenever also there may be good reason to believe that lands have been clandestinely appropriated, and added to Estates,

these

these should be examined, and brought to account; as is in fact now done. But any thing like a general Survey, and remodelling of the assessment of the District upon some principle different from that on which the original assessment of Canara was made (which I understand the Board have recommended would be, in my opinion) a measure of great injustice towards the present Proprietors, and I am persuaded, impolitic as regards the Government.

46. With respect to the justice of the measure, independent of other considerations, it may be asked, who are the present Proprietors? Descendants perhaps in the ninth or tenth generation from the original acquirers - purchasers of all descriptions relying on the good faith of Government, who by the outlay of Capital, and an amount of labour, seldom witnessed in other parts of the Country, have brought waste and useless lands, included in their Estates, into profitable cultivation, under the conviction that these improvements would never be taxed by the Sirkar.

47 That encroachments have been made on former times, on the Government waste,

waste, there can be no doubt, but these it would be difficult, if not impossible now to discover. On this point Mr Vincash observes "many Estates do not yield to the Government more than 10 per cent of the "available rent, but how it is to be ascertained "whether this proceeded from improvement or fraud? "I do not think it politic or just to call upon men to prove their titles to land after they have "been in undisturbed possession throughout the "period of the Company's Government."

Statement of Fraud 1243 30th Nov 1814 Para 23.

48. It is admitted that the original assessments of the lands of Canara was made on a loose and indiscriminate manner. Were I had we now to begin the work, it would be advisable to do it on more correct principles. But we must remember, that there is a great difference between doing a thing correctly at first, and altering it after it has become long established. There are many parts of our system in this Country, that might be shown to be erroneous in principle, and which looking at them in the abstract, we might feel desirous of altering; yet which having been long established, and become, as it were, part of the law of the land, it would probably

probably be found unwise in practice readily to destroy.-

49. It should further be borne in mind, that the ancient mode of assessment of Canara, namely the Beejwarry, has been found sufficient for all transactions between Land-lords and Tenants; and we may, therefore, conclude, that it is sufficiently accurate for all practical purposes.

50. On the above grounds I am of opinion, that any alteration in the principle of the original assessment of this Province, would be highly inexpedient - Amongst a people so excitable, and so tenacious of their rights in the soil as the Canarese, any such alteration must inevitably create the utmost discontent, and dissatisfaction, if not positive opposition - The effect of it would be to check at once the improvement now going on, to lower the value of land throughout the Province, and with that, a reduction in the Government Revenue would inevitably follow - a lasting suspicion would at the same time be introduced of the justice, and of the stability of the acts of the Government; and after all, I firmly believe that little or no practical advantage to the Govern-

ment would be incurred

waste,

would be gained for the sacrifices made, and the large sums that must be expended in the survey of a County physically so difficult as this is.

51. On the first introduction of Mr. Vivash's system the Board approved of the principle of it as appears from their Proceedings under date the 11th January 1836. Their subsequent

P.C. Jan.y 14 1824. opposition to the measure, appears chiefly to have arisen from the various alterations that have occurred, in the transfer of Estates from one class to another, which they were not prepared to expect when the scheme was originally proposed; and which they seem to think involves the whole system in confusion and uncertainty. The causes which have rendered these transfers unavoidable, have been so frequently stated to the Board in former Reports, that I will not now dwell upon them. Looking merely to figured Statements, these alterations may probably appear serious defects, though they are in reality of no practical importance, and furnish no valid objection against the measure — a steady approximation has been making towards the end originally proposed by Mr. Vivash, namely the bringing up all Estates to the maximum Beriz as will appear from the statement in the margin, and if it can be shewn moreover

moreover that notwithstanding the alterations that have been found necessary, the actual results of 11 years operation of the system in question has equalled, if not exceeded, the anticipations originally formed of it, it may be reasonably inferred, that the interests of Government, at least, have not suffered by the modifications allowed.

52. In their Proceedings under date 11th January 1836, the Board observe, "it is calculated that at the expiration of 12 years from and after Fusly 1243, should nothing occur to interrupt the progress of the arrangements the annual revenue to Government of the whole District will amount to Rupees 17,31,405-11-a which exceeds the average of 34 years by the sum of Rupees 52,880 and is Rupees 6013 above the amount realized in any one year.

This excess is of course to be attributed to the Results of the arrangements made with respect to the Estates under investigation, which it was anticipated

anticipated would still further increase the Revenue, though the amount expected under that head was not stated. when these results are weighed, it may be well, I think to ask whether we should be justified in setting aside a system which has preceded them as a failure; and whether, instead of altering it for the sake of some fancied advantage, it would not be wiser, to use a homely phrase "to let well alone."

54. What advantage the Board can contemplate by a return to the former system of uncertainty, and periodical examination of produce on those Estates on which a modification of the Berij has been recommended, which their late instructions would involve, I am at a loss to conceive. By such a procedure a door would be opened to fraud, and continued interference on the part of the petty Revenue Officers which it has been one object of the present system to put a stop to.

Proceedings dated 29th May 1845 Para 15.

55. In conclusion, and briefly to recapitulate the principal points of the question under discussion, I would observe, that the system established by Mr. Vieash is no innovation, it is no new plan which now calls for the consideration of the Board. It is merely the extension of the settlement of Mr.

14586 Fort St. George 30th October 1845.—

Mr. Harris to those cases in which it was unavoidably imperfect. The settlement of Mr. Harris has now been established for 26 years, and guaranteed to the people by every pledge that Government can give. Its very name was a guarantee given by the Government for its fixity. On the faith of this guarantee property has descended in families, and been subject to every species of transfer for years, and under this system the district has generally flourished, and the value of landed property has greatly increased.—

56. I cannot but put out of the question altogether, the idea of the alteration in Mr. Harris' Settlement with the view of equalising the assessment on Estates proportionately to their present value, and I can only consider that the question now under consideration is, whether it is desirable that Mr. Vivash's extension of the system should receive the sanction of Government. The object of that extension (and its effect) is to relieve the heavily assessed Estates from a burden which depreciated their value, depressed the Cultivator, and paralized improvement. It abandons no claim but one which for 45 years the Government never

14589. Fort St. George 30th October 1845.—

never has realized, and which in the opinion of those who examined the Estates, the Government never could realize.— The inquiry has been made with care, and the extent of the land upon which the assessment is thus fixed, is ascertained. It leaves the question of encroachments made by other Proprietors untouched, It creates, or strengthens the most valuable of all institutions, a right of private property, firmly fixed in the habits and feelings of the people. Its effects are already visible in an increasing Revenue, and a marked rise in the value of landed property, and I must repeat, it is no new system, it is only completing a system commenced 26 years ago, and already applied to two thirds of the District.

57. To cancel Mr. Vivash's extension, is to throw back the district 10 years, to destroy the confidence of the people in a settlement which ten years experience led them to believe to be permanent to repress habits of industry which the system has most undoubtedly engendered, and for what? that Government may hold over the most unfavorable Estates of the District, a claim which they never have realized, and which in the opinion of every Officer who knows the District ought to

Fort St. George 30th October 1845.

to be abandoned.

58. With respect to the observations of the Board in para 9 of their Proceedings under reply, in which they suppose the new cultivation there alluded to, to be concealments brought to light in the year in which the assessment on them was brought to account, I beg to observe, that it has been already explained both by Mr. Thompson and myself, that the term "Hossagany" does not necessarily imply concealed Cultivation. Hossagany now brought to account, is chiefly land newly brought under cultivation, which is not allowed to be taken up without the previous permission of the Collector. The strictest attention has been paid to this point for several years past; and though in Country like Canara intersected with hills, and Rivers in every direction, and in many parts covered with forests, some concealed Cultivation is unavoidable, I am persuaded that instances are now rare in which they are not discovered and brought to account. The doubts and fears, therefore, expressed by the Board on the subject in the Para under remark, are I think, without foundation.

62. In Para 7 of their Proceedings on the

Fort St. George 30th October 1845.

Proceedings of the Board, on the settlement, of 1253 dated 29th May 1845.

the Board remarks on the deficient information afforded relative to the transfer of Estates from one class to another – On this point I beg to state, that the causes which render these transfers necessary, have been so often dwelt upon in former reports, and were shown so fully in detail in my letter to the Board of the 30th June 1842, that it seems almost a waste of time to recapitulate them – It is generally in the maganies bordering on the Ghauts, that the Dhurty wurgs occasionally become partially waste, and require some indulgence – But in the numerous small Estates in this District, the loss of several head of Cattle, the running away of the Dhers, or Slaves, the sickness or death of some member of the Ryots family, or other unavoidable calamity renders necessary a temporary suspension of the Government demand, which is always reassessed in the following year, unless some peculiar cause should render it desirable to extend the period of reassessment – Such temporary or, suspensions of the demand are unavoidable under any settlement, but as I have before stated, they form no practical objections to the present System.

63. In their Proceedings on the settlement of 1251 and 1253, the Board remark that sufficient information has not been afforded of the circumstances under which entirely waste Gardens are brought

× 16th Nov. 1843 para 12
× 29th May 1845 para 18

brought under Cultivation, and how they are elapsed. I beg to explain, that on an application being made for bringing a waste Garden into cultivation, an inquiry is ordered into its condition and the period for bringing up the full assessment thereon is fixed in reference to the state in which it is found to be at the time. The waste Gardens are chiefly in the Balaghaut Talooks, and they are found in various stages of dilapidation. The longest period allowed for bringing them up to the full assessment is 12 years, and seldom less than nine. When assessed in this manner, they are transferred to the Head of Ryots Estates.

64. The rule laid down by the Board in para 11 of their Proceedings with respect to the disposal of arrears will be carefully attended to. I propose on submitting a separate report on the state of arrears from Fasly 1245, to 1252, as called for by the Board and Government.

65. With respect to the observations of the Board in para 12 of their proceedings I beg to enclose a statement abstracted from that marked A which will at one view show the effect of the inquiry made by the Collector during the annual settlement. The amount under inquiry in 1246, was Rupees 1,76,280-15-1, which is reduced to Rupees 1,43,700-8-9 during the year under report. The amount disposed of under this head, in the course of nine years, being Rupees 32,580-6-4 as clearly shown in the abstract (marginal) statement in Mr. Thompson's Report on Fasly 1253, I am at a loss to understand how the Board should have come to the conclusion, that little or no progress has been made in the investigation of this class of Estates. It has been repeatedly explained in former reports, and more particularly in my letter to the Board of the 30th June 1842, that each of these Estates, included under

under the head of Enquiry, have been minutely investigated, and the Chief attention of the Collector during the settlement of each year, is still directed to them. The only thing now wanting to reclaim these dilapidated Estates, are applicants for their occupation, which are gradually being made, as the means of the people allow of the labor, and expense necessary for bringing them into a profitable condition.-

66. The instructions of the Board in Para 17 of their Proceedings[x] under reply, with regard to the discontinuance of the new or fifth head of Estates of a certain description, which had been opened at the former recommendation of the Board, should be attended to at the same time I must express my opinion, that the retention of this head is desirable, as it clearly shows the number of estates which from unavoidable causes, have been temporarily transferred from the head of Poorty which under the former arrangement, which must now be reverted to, was not so clearly distinguishable.-

Fort St. George 30th October 1845.

To
H. M. Blair Esqre
Principal Collector of
Canara

Sir,

I have the honor to report for the information of the Board of Revenue, the settlements of the Talooks of Coondapoory, Barcoor, Mangalore, Boutkul and Buntwal Districts, and Sunkul Pergunnah Coondapoor, for Fusly 1254.

2. The Buntwal Talook was settled by the Huddikeri Cutcherry and Buntwal Talook by the Mangalore Cutcherry, the Talooks of Coondapoor and Sunkul Pergunnah by myself, and those of Barcoor, Boutkul and Moodbidry by the Assistant in charge of that Division.

3. The Rents now established for the Talooks of Mangalore, Buntwal, Barcoor and Boutkul are considerably higher than those of last year, but the Talooks of Coondapoor and Sunkul Pergunnah have been reduced, the Rents of the latter Talooks having been fixed at a very low rate, in consequence of the failure of the Crops in Fusly 1253, and the Rents of Moodbidry Talook are the same as last year.

4. The Rents now established for the Talooks of Mangalore, Buntwal, Barcoor and Boutkul, are considered by the Settlement Officers, as fully equal to the Rents which the Ryots have been accustomed to pay, and the Rents of Coondapoor and Sunkul Pergunnah, are considered by the Settlement Officer, as much as the Ryots can afford to pay, in consequence of the failure of the Crops in Fusly 1253, and the Rents of Moodbidry Talook are considered by the Settlement Officer, as the Ryots can afford to pay, in consequence of the Crops having been very much injured by the Rain, which fell in that Talook, during the Months of October and November 1844, and the Crops in Fusly 1254, having been very much injured by the Rain, which fell in that Talook during the Months of June and July 1845.

5. The Rents now established for the Talooks of Coondapoor, Barcoor, Mangalore, Boutkul and Buntwal, are considered by the Settlement Officers, as fully equal to the Rents which the Ryots have been accustomed to pay, and the Rents of Coondapoor and Sunkul Pergunnah, are considered by the Settlement Officer, as much as the Ryots can afford to pay, in consequence of the failure of the Crops in Fusly 1253, and the Rents of Moodbidry Talook are considered by the Settlement Officer, as the Ryots can afford to pay, in consequence of the Crops having been very much injured by the Rain, which fell in that Talook during the Months of October and November 1844, and the Crops in Fusly 1254, having been very much injured by the Rain, which fell in that Talook during the Months of June and July 1845.

Fort St. George 30th October 1845.

the ravages of this disease were not remarkable. Some deaths from Cholera were returned from all the Talooks, and since the commencement of the present Fusly this disease has you are aware, been still more prevalent; but it may be questioned whether all the Cases reported are really Cholera, as other attacks of a bilious nature are frequently mistaken for Cases of Cholera by the natives. In South Canara the season upon the whole was not unhealthy.

5. The returns shew a great mortality in Cattle in the Betul and Buntwal Talooks. In the other Talooks of South Canara the loss was moderate.

Betul — 3247
Buntwal — 6459

6. I annex an abstract Statement of the Prices obtained by the Ryots for Rice, Betelnut and Cocoanuts, the Chief Products of lower Canara, in Fusly 1254 compared with those of 1253 and the average for 5 years, from which they would seem to have been slightly in advance of the previous year, but in about the same degree lower than the average.

The quantity of Canara Rice

Exported from South Canara in the Fusly under review is entered in the Sea Custom Returns at 1344 — 1/4 above the Export of Fusly 1253 and 1997 — 21 — above that of the 5 years average.

There was also an increase in the Export of Betelnut and Pepper as compared with Fusly 1253 and the 5 years average. As however the proportion which the Garden land in South Canara bears to the Rice land does not exceed 1 to 4, if indeed it is so high, the Outturn of the produce of the former is not of so much consequence.

8. If the returns, therefore, can be depended on, the Fusly under report was a favorable year

year to the Ryots in every respect, and all the circumstances that came to my notice during the settlement led me to the same conclusion.

9. The subjoined abstract shews the result of the settlement of 1254 as compared with Fusly 1253 / Coorery or Temporary Cultivation in the Jungles being excluded / to have been an increase in the Six Taloks under review of

13. The Remissions for Lands taken up for Public roads in Bekul and Buntwal relate to the Mercara road, a final adjustment of the claims on this account not having taken place till the past Fusly. The amount granted in Cundapore was for a spot taken for the new Peishcar's Cutcherry at Byndoor. That allowed in the Mangalore Taluk for the site of the Peishcar's Cutcherry in the Town of Mangalore, the claim for which had long remained unsettled.

14. The other Items of additions and Deductions do not appear to require remark.

To
A. M. Blair Esqre
Principal Collector of
Canara.

Sir

Para 1. I have the honor to submit the usual Report of the three Talooks under my charge Sonda, Bilghy and Honore for Fusly 1254. The settlement of Sonda and Bilghy was conducted by the Sub Collector Mr Parker, that of Honore by me.—

2. The annexed Abstract gives the result of the settlement exclusive of Coomery and Moturpha as compared with that of Fusly 1253.

	Summalundy of Fusly 1253.	Ditto of 1254	Increase	Decrease
	Rs As	Rs As	Rs As	Rs As
Honore	180603 15 2	182333 2 3	1729 31	. . .
Sonda	127567 15 .	128415 9 5	847 10 5	. . .
Bilghy	57418 12 10	57928 12 .	509 152	. . .
Total	365590 11 .	368677 7 8	3086 12 8	. . .

From it you will observe that there is an increase in the Land Revenue of each Talook and that the aggregate amount of the Summalundy exceeds that of the preceding Fusly by Rs 3086-12-8.—

Fort St George 31st October 1845

3. The season may on the whole be pronounced to have been favorable to cultivation and the crops with the single exception of the Cardamoms which suffered from the irregularity of the early Rain in April and May and the heavy fall at the commencement of the regular Monsoon, abundant both as regards field and garden produce.——

4. The prices averaged for all kinds of produce though generally below the rate assumed by Government must be considered on the whole to have been satisfactory and will bear a favorable comparison with those obtained in 1253. Coorg in particular was in great request for Export to Hydrabad and other Countries to the Eastward and Commanded unusually high prices especially the better sorts and that prepared in Belghy Talook. The supply was good and the quantity disposed of very considerable so that the traffic cannot but have proved highly profitable both to Merchants and growers.——

Black Pepper on the other hand fell even below the low rate at which it sold last year. The demand for it was very dull and on the demand as has been explained in former Reports and not the years supply depends the state of the Market. This spice appears to have been gradually declining in price for several years the cause of this depreciation

Fort St George 30th October 1845

in its value must I presume be looked for in the increased cultivation of the Vine in Malabar and the superior facilities for its embarkation there enjoyed.——

Rice and Paddy require little notice the prices they fetched were slightly in advance of those of last years and the same may be said of the various kinds of dry grain cultivated in the uplands.——

The price of Cardamoms varied much at different periods during the season nevertheless the average was above that of 1253 though very far below the rate assumed by the Sirkar. The Crop for reasons above recorded was rather scanty.——

5. The prohibition on the importation of Jaggry the produce of Mysore had the effect of increasing the quantity manufactured in Annere and Belghy. In Soora on the contrary it fell below that of the former year the cultivation in 1253 having been much neglected owing to a misunderstanding regarding the meaning of the Act prohibiting the exportation of Jaggry without Certificate. It is to be hoped that the Ryots will see the advantage of turning their attention more to the Sugar Cane than has hitherto been the case. The soil of the Balaghaut especially that of the frontier Taluques is eminently favorable to this species of cultivation.

the

the return it yields even under the present slovenly system of management and with the very indifferent species of Cane in use is greater than that of any other kind of field cultivation while the outlay is by no means large in proportion. and might by judicious management be very much curtailed. The great drawback is the injury to be apprehended from the ravages of the white ants which swarm to an alarming extent on the higher lands and against which it is next to impossible to provide an effecent remedy.

6. On the whole the Ryots have good reason to be satisfied with the result of Fusly under review with as regards the disposal of their produce and the abundance and cheapness of the means of subsistence. The presence also of so large a body of Troops as were quartered on the Balaghaut during a considerable portion of the Fusly could not but have proved in some degree beneficial to them in a pecuniary point of view though doubtless owing to the peculiarities in the resources of the Country far less so than one unacquainted with its nature could. Well supposed possible.

7. The following table will give a general idea of the average of prices obtained during the year under review relatively with those of the preceding Fusly and the rates assumed by Government as Peishcush

Fort St George 30th October 1845.

The increase has arisen in part from increased cultivation of Wurgs under "Tankey" but principally from additions on those Estates. the proprietors of which have entered into engagement to make good the full amount of Beriz at which they stand assessed by regular instalments and within a fixed period

10. The Revenue derivable from this cultivation in the different Saloks must also from its nature be liable to fluctuation. In the year under review the Forests in the Honore Salok appear to have afforded the greatest advantages and accordingly the accounts shew an increase in that Salok of 249—11—2. Sonda and Bilghy require no particular notice.

The

Fort St George 30th October 1845.

The decrease in this head in the

11. Sonda Salok arises from its having been found necessary to reduce the rate proposed in 1253 on account of the difficulty experienced in its collection and the remonstrances of those subjected to the

Jaw. That in Honore and Bilghy is much smaller and is to be accounted for by the deser-tion and death of the rate payers.

Bilghy	508 6 0	461 4 0	. . .	47 2 0
Total	4509 7 6	3990 5 9	. . .	579 1 9

There is also a decrease in the pro-

12. ceeds of the Honey farm. In Bilghy on account of

Sundry Farms and Licences. the failure in the Combs no one could be found to come forward for the Contract. while in Sonda its value was materially lessened by the equitable and very judicious order passed last year declaring all Trees on private Estates free. The Duties for the Arrack and Toddy Contract and also those for the Ferry farms are in excess.

excess of last year.—

13. The accompanying Table marked No. 1. contains a detailed account of 4 Estates which appear unequal to the payment of the standard assessment and on which I have been enabled to propose a Modified Berij.—

14. The total settlement of Land Revenue including Coomery for fusly 1254 is Rupees 370661—8-5. of this 360250—6—6. were collected within the year and 9699—9—11 between that period and the 15th October leaving a Balance of 711—8—6 due as stated in the Margin—

it is expected that by far the greater part of this will be made good before the end of December but should any balance after that period remain uncollected it will be duly investigated at the ensuing Summabundy.—

15. I have also the honor to annex a Statement of small sums in two of the Talooks which it has been found impracticable to realize and which it appears advisable should be written off.—

4. Supporgie Ferjee is wrong in asserting that Captain Schuler obtained a piece of ground at Cochin on very favorable terms in consequence of supposed public services. Captain Schuler obtained the spot he occupied in 1819 on the usual application for Government waste ground and pays the usual Quit Rent Rupees 5¼ per Cawny. Captain Schuler's ground is merely used as a compound for a house. The ground Supporgie Ferjee speaks of is valuable as a Ship building Dock.

5. Without depreciating the importance of Cotton Screws any where, I am forced to observe that it appears to me doubtful whether the best selection has been made in fixing on Cochin for the site of operations. Ponany at the extremity of the great road leading from the Cotton growing Country of Coimbatore would appear much more eligible. It would at all events be more

more desirable so far as the peculiar interests of Malabar are concerned. Cochin is in a mere corner surrounded by foreign territory.

Sir,

I have the honor to request that you will have the goodness to lay this letter before the Most Noble the Governor in Council.

1st. I most respectfully beg permission to state for the information of the Most Noble the Governor in Council that it is my wish to establish at this place in connection with the respectable House of Messrs. Richmond & Co. of Bombay, Machinery, on an extensive scale for the purpose of pressing and packing Cotton Wool and forming it into proper and convenient Bales, fit for Shipment direct to China or Europe, as is done at Bombay, Calcutta Madras, and very recently at

Juticorine

2nd Qy. To enable me to carry into execution my wishes with respect to the Establishment I have referred to I shall be under the necessity of erecting large strong, and expensive Buildings. Buildings of a description far superior to any that have hitherto been seen at or near Cochin, for these buildings I shall require a spot of Ground on the borders of the river at this place.

3rd Qy. I now occupy a spot of ground belonging to the Honorable Company, noted I believe on the Collectors Book No 1 which I have occupied partly on my own account and partly on account of the late Firm of Messrs Wilson, Archer & Co of Colombo for 6 years paying for the same the enormous rent of 240 Rs pr. annum. The Firm above alludes to has now given up all claim to the ground and thrown it entirely upon my hands, but to me it is of no use except as a site for the Buildings which I wish to erect to enable me to carry into effect my intended Cotton Preps Establishment, which will be long before I can possibly derive any benefit from it, costs me an outlay of Cash amounting at least to one and a half Lacks of Rupees. such a place as Cochin must be productive of much good amongst the poorer classes of the Honorable Companys subjects

14679 Fort St. George 30th October 1845.

4. My intended Establishment when brought into full operation, may, or may not be beneficial to me, but that it will prove beneficial to some thousands of the poorer classes of the Honorable Company's subjects, is a fact, that cannot be questioned taking into consideration the labour that will be required for the cultivation of the Cotton plant, the picking, cleaning, and carrying of the Cotton Wool, and the converting of it into proper packages - as it is my intention to have Preses sufficient to make ready for Shipment, at least one hundred Bales, fifty Candies of Cotton per day.

5th. If I get my intended Cotton Preps Establishment into full and proper operation it may reasonably be expected that large quantities of Cotton Wool will be brought here by myself and others from Coimbatore, and from districts that will soon be brought into cultivation nearer here than Coimbatore, and as the greater part of this Cotton Wool will in all probability be exported to China a great increase in the revenue of Cochin may be reasonably looked for. The duties on about 3000 Candies of Cotton sent to China would, if I mistake not about double the present nett Revenue of this place, and I shall be much mistaken and much disappointed if

if no more than three times the above quantity be sent to China within two years from this date.

6thly The Spot of ground that I occupy No 1 is of little value, and if the Collector were to put it up for public sale by auction it would not realize to the Honorable Company 100 Rupees per annum; ground adjoining to it, and equally good in every respect, is rented from the Honorable Company at one rupee per 100 Square Cubits. My ground contains about 800 Square Cubits.

7thly I have been establish[ed] Cochin as a Merchant for upwards of 20 [years] during the last half of that time my [payments] to the Honorable Company in the Steve[dore] =age alone, have amounted to more [than] double the value of the ground, as Vouchers to prove, so that the aggregate amount that I have paid to the Hon[ble] Company during my residence he[re] =luding Export and Seaport duties [&c] be considerable.

9thly The late Mr Schuler of Cochin for merely undertaking to build two or three Frigates for the British Government got a lease for 99 years at the trifling rent of 17 Rupees per annum of a Spot of Ground at the entrance of this River about four times the size and of ten times the Value of the Ground that I occupy as before al=luded to.

10th In consideration of all that I have herein stated, and of my being the first to originate at this place so import=ant an undertaking as that herein re=ferred to, I most respectfully beg permission to

there must be a vast difference both in

Questions.

Was you the person who fixed the Tariff rate of the building grounds at Cochin?

Yes In 1821

How you fixed the Tariff rate?

I fixed the Tariff rate with reference to the depth of water of each ground.

By whose order was it done?

By the order of Mr Flemington the then Assistant Collector at Cochin

What was the Tariff rate of the building ground fixed by you?

240 Rupees per annum because there was sufficient room for building two sized Vessels.

Will it fetch now?

Nearly 90 feet of ground having been washed away now sized Vessels cannot build there but of the ground, washed away be reclaimed two — Vessels one of 600 and the other of 300 Tons can build there then I doubt not the former Rent of Rs 240 will then get

Sir,

Para 1. I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 7th Instant forwarding an application from one Suppoyee Verjee of Cochin for a piece of ground at that place on favorable terms for the erection of cotton screws.

Calling for further information in the subject of the ground at Cochin applied for by Suppoyee Verjee on favorable terms for the erection of Cotton Screws.

In Corr. 30th Octr 1845

2 The Board observe that the ground referred to is said in its present state not to be worth the rent 240 Rupees now paid for it they would wish to be made acquainted with the result of your reference to Captain Cotton on the feasibility of improving the ground. They also request that you will inform them whether the Petitioner can give any satisfactory assurance that he will, as he affects to expend a large sum in the erection of Cotton Screws, and in the event of his satisfying you in this point that you will state on what terms the ground might properly be granted him.

Reporting on the Extra Sources of Revenue for Fasly 1254 / 1844/45

Sir,

In transmitting the usual Comparative Statement of the Extra Sources of Revenue of this District for the late Fasly 1254 / 1844/45 I do myself the honor to offer some explanatory remarks of the cause of increase and decrease apparent in the several Items when contrasted with the result of the antecedent year 1253 / 1843/44.

2 This article has been under the operation of Act No. VII of 1844 throughout the year, but the high rate prescribed in Section 13 only prevailed during the first five weeks thereof the reduction in the selling Price - Viz. from one Rupee and eight annas to one Rupee per Indian Maund having

having under the orders conveyed in the Board's Proceedings dated the 13th August 1844 commenced on the 19th of that Month. Notwithstanding this consideration, the consumption of this necessary of life would still seem to have been seriously affected, for the total quantity of Salt sold during the year now under review did not amount to more than 381,700 Indian Maunds, which is below the average of the five years anterior to 1753, when the old system prevailed, by 88,173 Maunds.

3. The total sale of Fasly 1254 may be divided as follows. For exportation to other Districts 13801 I. Maunds, and for Home Consumption 24,6856 I. Maunds, the former exhibiting a decrease of 6,367, and the latter an increase of 3364 I. Maunds, when compared with the result of 1253, as shewn in the accompanying Statement.

No. 11

4. It will be observed that the greatest portion of the decrease in the sale for inland consumption falls on the quantity taken to Coimbatore. That District appears to have received a much larger supply from Madura and Tanjore in 1254 than in the preceding year. A fact which naturally rendered a less supply to be necessary from Malabar.

5. The enhancement in the selling price

price of Salt, however, raised the Gross Collection to Rupees 39,0710-3-11, a sum never before attained, and which, when compared with 1252 and 1253 evinces the respective increase of Rupees 50,690-9-3 and Rupees 82992-13-4 in favor of 1254.

6. The increase of Rupees 13309-3-4 in the "charges of Purchase" is entirely attributable to a larger quantity of Salt having been purchased in 1254 than in 1253, a measure that was rendered necessary by the inadequate supply of the last mentioned year as noticed in Para 4 of my Report dated 15th February 1845 — although, at one time, it was found indispensible to pay as high as Rupees 31-8-11 per Garce of 120 Maunds, the average purchase price of 1251 is less than that of 1253 by Rupees as per 9-9 per Garce

7 In the "charges of Superintendence and Sale" there is an excess of Rupees 1,68-6-7, a moiety of which arises from the expence incurred in landing and storing 17153 I. Maunds of Salt procured from Canara under the emergency brought to the notice of the Board in my letters dated as per Margen — the residue falls on the disbursements made for the repair of Salt Gollahs.

The excess in the two Items of charges just explained, giving a total of Rupees 13777-9-7 the Increase in the Gross Collection was reduced from 82992-13-4 to Rupees 69215-3-9 the latter sum being the surplus in the Net Revenue derived from this source in 1254.

20 To account for the deficit it is only necessary to observe that it arises principally from the Sayer Rowanahs, consequent upon the abolition of the Transit Duty. The increase of Rupees 257-12-8 in the charges Collection proceeds from a larger sum having been refunded by order of the Civil Courts in 1254 than in 1253. the repayments in the two years having been Rupees 514-11-10 and Rupees 225, respectively.

21 Although this difference in favor of Fusly 1254, is small it is satisfactory, in as much as it is in addition to the increase of Rupees 3157-7-" brought to account in the Settlement of 1253. The gross increase was Rupees 1675-11-" See Para 19 of the Report for 1252

The settlement thus made must be held to have facilitated the realization of the Current revenue, for at the close of the year the Balance outstanding was merely the trifling sum

Independent of the Current Collection amounting to Rupees 116093-10-9, a sum of Rupees 407-11-10 was realized in the course of the year on account of arrears of the antecedent Fuslies. In the Gross Collection there is accordingly a surplus of Rupees 797-11-1, in favor of 1254.

Revenue Board Office Fort St. George, 30th October 1845 } (Signed) T. Pycroft Secretary

To

Fort St. George 30th October 1845

To,

The Collector of

Sir,

104

To the Coll.r of Tanjore

In the return from your District of Persons charged with offences under Regulation IX of 1822 for the Month of September last, forwarded to this Office under date the 13th Instant, the Board observe that a Village Officer has been convicted of misappropriating a certain quantity of oil seeds belonging to a Pagoda, and sentenced to make good the amount. The property of a Pagoda can scarcely the Board think, be held public property within the application of Regulation IX 1822 and Act XXXVI 1837. They would therefore suggest the propriety of your reconsidering the judgment you have passed in the case.
