Sir,

In answer to the 8th para. of the Board's Proceedings of the 5th Instant I have the honor to inform you, the Ramnad Zemindary was fully made over to Ranee Purvatha Vurdanee Nachyar Saiteepaty, as reported on the 21st July, with exception of the Company's Bonds, in name of the Collector for the time being, and regarding disposal of which I requested the Board's instructions in that letter. The money which I paid to Mr. Fischer had been left in my hands as surplus from various

various sources, at the period of restoration of the Estate. I considered it as made over to the Ranee, and she considered it in the same light, and sums are, and have been before my time frequently so left in deposit in the Collectorate Treasury under similar circumstances. Being her's, I could not without dishonesty, and exposing myself to the anger of Government have retained it against her will. It is presumed if she had ordered it to be paid to any other person than one so obnoxious in their eyes as Mr. Fischer no objection would have been taken to it by the Board. If I was bound to honor the Ranee's Draft in favor of an indifferent person, I conceive I was equally bound to do so if given in his name. If the Government think I have done wrong, or misjudged the question I am sorry for it.

Resolving to recommend to the Government of India the refund of the unauthorized collections made in the Canara District on account of Inland duties since Act VII of 1844 came into operation

Read the following Extract from the Minutes of Consultation under date the 3d November 1846.

Read the following letter from the Secretary to the Board of Revenue

(Here enter 28th Sept. 1846 No. 1099)

Para 1.- The Governor in Council observes with reference to the Extract from the Minutes of Consultation dated 21st February 1846 No. 225. that the principle having been admitted, that a refund should take place of the sum collected without authority in the Canara District on account of Inland Duties since the 1st of April 1844 when Act No. VII of that year came into operation, the only question now at issue, is the mode in which that principle should be carried out.-

2. It would appear from para 3 of the letter from the Board of Revenue recorded above, that the total amount for adjustment is Rupees 1,75,608-15-4 and it is proposed.-

1st Stly That no payment should be made except on the production of the Rowanah issued at the time the duties were collected, and.-

2nd Ly That in all cases in which the levy of the inland Inland has secured for

for the Articles on which it was collected from export from the Bombay Territories either by Sea or by the land Frontier, the amount of Sea Custom or Frontier duty so avoided, should be first deducted.-

3. The Governor in Council approves of these propositions and resolves to recommend to the Government of India the refund of the unauthorized collections under the above stipulations, leaving the suggestion contained in the concluding paragraph of the Board's letter to be adopted hereafter on the receipt of the reply of that Government.-

From the Collector of Ganjam.

Sir,

Application having been made to me for a Certificate of the origin of certain Molasses manufactured from Sugarcane produced in this District which is about to be shipped from hence to the Port of London, I have the honor to request that the Board of Revenue will furnish me with instructions for my guidance in the matter. I do not find that the article of Molasses is mentioned in the acts of the Government of India relating to Sugar and Rum, nor is it provided for in the schedules annexed to act No. VI of 1844, and I am in doubt therefore how it should be dealt with on exportation.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 12th Ultimo, requesting instructions respecting the shipment of certain Molasses, Manufactured from Sugar Cane, the produce of your District.

2. In reply I am instructed to inform you, that in their opinion, both Molasses and Jaggery may be considered as falling under the general term Sugar, in Acts XV 1839. and VI 1844. They therefore authorize you to grant Certificates of origin under the former of those Enactments for the Molasses referred to in your letter, and to admit it to export on the same terms as Sugar under Schedule B, annexed to act VI 1844.

7. I have called the collection nominal because from these there should have properly been deducted the drawback charged under the head of Sayer, which was 9 1000 Rupees in these nine years. The statement shews that the actual revenue was less than one half of its nominal amount.

8. Now the land transit establishment no longer exists to intercept the duties leviable on articles passing by Sea, but the whole is collected and credited at the Sea port to the proper department. The increase observable of 11000 Rupees a year is caused by the greater number of articles subjected to duty under the new system, and by the transit duty on grain under the schedule B of Act VI of 1844. being nearly double the former duty of 3 per cent advalorem on paddy and rice.

Abkarry. 9. The Abkarry was rented out as usual by Mr. Arbuthnot for Rs. 49981- being

being Rupees 4405- less than the rent of the preceding year. I regret also to say that owing partly to the adverse season, and partly to the bad management of the Arrack Department by the renter, the collections have not been punctually realized. and that the balance at the close of the year was Rupees 7773-6-7. of which Rupees 6715-1- was due by the arrack renter alone.

10. The collections current and arrears in the year under report were Rupees 45492-11-10- being Rupees 8087-5-2- less than the Revenue of the previous year.

11. Since the close of the year the balance against the renters has been reduced by subsequent payments to Rupees 5315-1-", and it is believed that with rigorous measures the greater portion of this amount may be recovered within the Fusly.

12. Observations have been made on

on the necessity of greater precaution being used in ascertaining the competency of parties renting and undoubtedly the highest offer is not always the best, even although the highest bidder is apparently respectable. I am of opinion, however that it would be preferable to let by tender than by auction, and that the rent should not be for less than three years. Annual rents encourage gambling, and really wealthy men cannot be tempted into a business which requires attention and capital, when they know either that they will in all likelihood, lose the rent at the end of a twelve month, or that at all events, the rents will be run up next year to an unremunerating price at auction, by speculative adventurers with little real capital, but who must either be out bid or bought off. If the system of renting by tenders was followed a minimum should be fixed by the Collector and the offer of the most substantial renter above that minimum should be taken, not the highest offer received unless the security was unexceptionable.

Stamps. 13. There was a great falling off in the sale of Stamps in Fusly 1255, the net decrease of Revenue from this source being Rupees 12700-1-10.

Net Revenue	21246 9 3	8546 7 5	"	12700 1 10

14. This originates from two causes. From the disuse of Stamps on Sea Custom Rowanahs and from the order recently brought into operation by the Sudr Adalut Court, which compels all suits under Rupees one thousand to be filed in the Moonsiffs Courts and on unstampt paper.

15. There is no real loss in this however, and only an apparent falling off of revenue. The fees charged in the Moonsiffs' Courts upon Suitors, of one anna in the rupee on the whole sum sued for, give a small advantage to the suitor, in the Moonsiffs Court when the amount falls under 500 Rupees, but are greatly to his prejudice when the demand exceeds that amount. The revenues raised from fees in the Judicial Department are not credited, however to the Stamp revenue, and hence the great and I fear permanent deterioration in this impost

impost unless the practice of the Courts be altered.

Moturpha. 16. The Moturpha Revenue of the District declined under the influence of the disastrous year under notice, in like manner with the Sources of taxation. But a large portion of the decrease in the demand was caused by the abolition of certain Hill Market taxes in Golgondah & Zemindary, properly belonging to the Sayer but heretofore rated as Moturpha. Upon the abolition of the Sayer, or inland transit duties in 1844.

Mr. Arbuthnot ordered that these marked taxes should cease to be collected, and this caused a decrease in the demand for Moturpha of about Rupees 792-" -" per annum.

17. The current demand fell below the settlement of the previous year by Rupees 1030-7-2 being Rupees 6403-1-5. in the former and Rupees 7433-8-7- in the latter. The collections current and arrears within the Fusly were Rupees 6127-1-7- and deducting charges the net receipts were Rupees 5983-1-7- being Rupees 1111-10-11- below the receipts of Fusly 1254-

18. Subjoined is a Statement of arrears outstanding in this Department from Fusly 1250 to Fusly 1254. that is during the years from 1840/41 to 1844/45 inclusive

The whole is due by deceased and insolvent traders, and is considered a desperate balance, I beg therefore, permission may be given for writing off the demand to profit and loss.

4. In explanation of the manner on which the application is founded I beg to observe that the Joint Magistrate is obliged to keep a full record of the more important cases which he either commits for trial to the Sessions Court or settles under the enlarged powers now given to the Magistracy. In all the minor police cases it is also necessary to record the defence together with the material points of the charge and evidence. The Joint Magistrate has also to prepare periodical Criminal returns to be forwarded to the Session's Court and Foujdary Adalut and his present Office Establishment which has hitherto had only to register the police punishments inflicted in the Cutcherry is quite unequal to the new duties which devolve on him now that he exercises Magisterial authority over the numerous population which is found within an area of fifty Square Miles and round St. Thomas's Mount.

enjoys both a money grant, as well as Enam land, to the extent of Rupees 573 – 7 – 10 of which Rupees 88 – 7 – 2 appear from the Statement No 5 and from the Purwannahs of the late Nabob Anawarthy Cawn to be of a religious nature, and the other items of ready money grant as well as the Enam land appear to have been given partly for the support of the Durgah and partly for the Subsistence of the family, but I am unable to ascertain what portion of the Enam was allotted for the support of the Durgah —

3. The present claimant has rendered an account particular purporting to be the annual expences incurred by him on account of the Durgah which amounts to Rupees 659 – 8 – 0 as I have no means of ascertaining the exact amount expended on that account some of the Items appear at first sight to be overcharged as explained in the columns of the remarks of the above Document.

4. The Yeomiah and Enam grant intended for the support of the Durgah not being resumable a certain

portion only should be continued, the other portion originally given for the support of the family not appearing to be of an hereditary nature should be resumed. I beg therefore to recommend for the sanction of Government, that the amount of Yeomiah Rupees 308 – 7 – 10 be reduced to Rupees 198 – 7 – 10, and that the Enam land be continued on payment of one half of its Teerwah annually from the date of the demise of the last incumbent —

Para 1. With reference to your letter of the 11th Instant, received on the 19th I have the honor to forward a Statement of the taxes collected on behalf of Pagodas alluded to in my letter of the 12th September last.—

Forwards a Statement of the taxes collected on behalf of the Pagodas alluded to in the Coll[r]s letter of the 12th September last.

2. The nature of the taxes is sufficiently explained in the Statement. It will be perceived that they amount altogether to Rupees 1420–4–2 and with the exception of the taxes on Bazars and the Fish tax—I doubt the propriety of continuing the right.—

3. The two taxes in question—yielded in Fasly 1251, according to the Village accounts a revenue of Rupees 822.1.1 and as the bazars are held on land belonging to the Pagodas and the Fish are obtained from tanks also being Pagoda property, the continuance of the taxes seems unobjectionable.—

4. There is no authority for the collection of any of these taxes except long custom and the fact of their being entered in the Village accounts and having been collected by the Circar on behalf of the Pagodas when those institutions were under the Management of Officers appointed by Government. None of them are now collected by the servants of Government.—

To

The Collector of Trichinopoly

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter dated 29th June 1846 with Statement of certain Taxes collected on behalf of Pagodas.—

2. The taxes indicated in Para 3 appear to be properly collected on behalf of Pagodas, it being understood that the land and Tanks in question are the property of those institutions. The other taxes enumerated in the Statement are exclusively reserved to Government by Section IV Regulation XXX of 1802 and cannot therefore be collected by private Individuals, but if you are of opinion that the resumption of the privilege should be accompanied by compensation to the Pagodas interested, you will be pleased to submit the specific grounds on which such opinion rests, the amount to be granted in each case being specific.—

3. The taxes enumerated on the Margin appear to be confined to certain localities only: adverting also to their oppressive character the Board desire that the collection of the same may be discontinued pending further orders.—

Sir,

Para 1. I have the honor to acknowledge the receipt of the Proceedings of the Board under date the 28th September 1846, directing me to supply certain information connected with the small grants in the possession of the Torriore Mattum and to report the extent of the support derived by that Institution from certain lands in the Torriore Zemindary and upon Petitions Nos. 926-944 and 1078 of 1846 (herewith returned) relative to the succession to the Shrotriem.

2. The enclosed Statement No. 1 is an Extract from the Annual Jamabundy Accounts which exhibit the particulars entered in the Pymash Accounts relative to the inm lands held by the Priest. No. 2 is a translation of an Extract obtained from the Torriore Zemindary Jamabundy accounts for fusly 1255 relative to the lands of the Zemindary held by the Priest. The grant of these lands is also entered in the original Pymash and they do not form a portion of the assets on which the origina

4- Ramasawmy Naick in Petition No 9 Claims the right of succession to the administration the Muttum on the strength of a Will made in his favor by the late Tumberan- A Will of itself is no of course sufficient to constitute a title and Rama-sawmy appears to have omitted to perform the rites and Ceremonies necessary to constitute him an heir. The other claimant calling himself Loobey Sooa-pera casa Sawmy by whom the Petitions 944 and 1078 were presented seems to have been appointed to the Office by the late Tumberan in 1818 and that on being summoned from Virdachellum during the ill-ness of that person and failing to appear, the Office was conferred on Vythelinga Tumberan who performed the funeral Ceremonies of the deceased Tumberan and being thus qualified for performing duties assumed the Office of Tumberan and the Man-agement of the Muttum-

5- This information was obtained from Witnesses and Vythelingum seems to be considered by the Zemindar of Torriore and other interested parties to have obtained his charge in a regular and formal manner-

To

The Chief Secretary to Government

Sir,

I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council the accompanying Letter from the Collector of Madura dated 17th October with its enclosures on the following subject

The Collector's Endorsement with the Statement Cover forwarded with the Petition of Ryots of Vellayoda Pallam dated 28th May 1846 on the same subject read in Consn 10th August 1846 No 2

Requesting sanction for writing off in the Accounts of this District for Fasly 1255 the amount of 0 Rupees 201-6-6 being the amount of Tax upon certain uncultivated Land in the holding of Vellayoda Pallaven a Ryot in the Dindigul Talook

The Petition of the Ryots of Vellayoda Pallam a Village of the Dindigul Talook.

2

The circumstances of the case are briefly these. One Vadivelu Naick one of the Ryots of Vellayoda Pallam Dindigul Talook for the purpose of cultivating them with Nunjah Produce by means of a dam which he had constructed at his own expence. He afterwards alleged that the supply of water from the dam was insufficient for the irrigation of more than 130 Koolies and he was therefore allowed to give up the remaining 120 on the 7th year from the date of the Pottah by Vellayoda Pallaven to cultivate these 120 Coolies as

14200 Fort St George 9th November 1846.

as Nunjah on condition of his being allowed to avail himself of the dam constructed by Vurdapah Naick which it was asserted was capable of supplying water for a greater extent of cultivation than that individual had represented. The offer was accepted by the Revenue authorities but the event has proved that the statement of Vurdapah Naick in respect to the quantity of wet cultivation which could be irrigated from the dam was correct. Of the 120 Goolies taken up by Valayda Pollavan a portion only has been tilled as Poonjah and the remainder has lain waste, and the Principal Collector now requests that the demand against that individual may be confined to that portion of the 120 Goolies which was actually cultivated and at the Poonjah rates, and that the remainder of the charge being Rupees 201.6.6 may be remitted. As Valayda Pollavan's engagement appears to have been conditional and to have been dependent on his receiving a supply of water from the dam from which it now seems that none could be allowed him, the Board beg to support the Principal Collector's suggestions and to recommend that he may be authorized to write off the sum in question Rupees 201.6.6 in the accounts of his District for the past Fasly.-

Ordered that the following letter be sent in reply.

To The Collector of Canara.

To the Collector of Canara — Sanctioning the sale of certain lands entered in the advertisement which accompanied his letter of 25th March last with the exception of Item No 5. and desiring him to submit a fresh advertisement for its sale also requesting him pending the final disposal of the question on the general state of the assessment of his District to apply the orders of Govt of 31st May 1819 on all occasions in which the Govt may have to enforce claims against sub divided Estates.-

Sir, I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 9th June last on the subject of the sale of the lands entered in the Advertisement which was forwarded with your letter of 25th March last and in reply to inform you that under the explanation given in your present letter and its enclosure the Board sanction the sale of the lands in question with the exception of No 5. as some time has elapsed since the Advertisement was forwarded to this Office you will be pleased to transmit a fresh advertisement adding the arrears which have since accrued and fixing such a date for the sale as will admit of the notification being published in the Board's Office for the full period of one Month as prescribed in Section XI Regulation XXVI 1806.—

the notice of the Board in their Proceedings on the general state of the assessment of Canara dated 16th November 1843, and will call for further consideration on the final disposal of that important question. Mean time I am desired to call your attention to the orders of Government dated 23d May 1819 and communicated to your Office on the 14th June following in which among other measures for the better regulation of the land Revenue of the Zillahs on the Western Coast it was laid down that "unauthorized subdivisions of the Revenue payable "from an Estate to correspond with subdivisions of "the Estate itself, are not binding on Government "but that the whole Estate continues answerable for "the whole Revenue with which it is assessed" This principle so far in itself and so obviously necessary for the preservation of the public interests must be kept prominently in view, and you will have the goodness to apply it on all occasions in which the Government may have to enforce claims against subdivided Estates.

To

J. Pycroft Esqre

Secretary to the

Board of Revenue

Fort St. George

(43)

From the Collr. of Madras soliciting that the application for an increase of pay to Mr. D'Vaz Head Clerk and Record Keeper bearing date the 7th September last with the correspondence which has passed on the subject may be submitted for such decision as Government may deem it expedient to come to.

Sir

I have the honor to acknowledge the receipt of your letter under date the 12th Ultimo informing me that the Board of Revenue feel themselves precluded from submitting to Government my application for an Increase of pay to Mr. D. Vaz Head Clerk and Record Keeper, and to observe, with reference to Para 2 that whilst in 1837 the Board expressed an opinion that if his pay were raised to Rupees 210 he would be amply repaid for his services, they adverting to his application in 1839 for promotion remarked that "nothing has since occurred in regard "either to the general question of the appointment of "Uncovenanted Assistants or the duties of this Office "which would render the arrangement more appropriate "on the present occasion."

2. With reference to Para 3 of the letter now under acknowledgement, they leave for me to observe that the merits and assertions of Mr. D'Vaz has been borne testimony to, not only by myself but by all former Collectors, as will be seen by the enclosure in my letter of date the 7th September last

(Board's 10th October)

1420[illegible]

Fort St. George 9th November 1840.

3. In the last mentioned letter I brought to the notice of the Board the important services rendered by Mr. D'Vaz, and the ground on which I considered him entitled to preferment. I was led to entertain a sanguine hope that the circumstances stated in Para 4, 10 and 11, in particular, were sufficient to ensure at once the favorable consideration of the Board on his behalf, and can, therefore, now only express regret at the result.

4. As however, so long ago as the 8th April 1837 it was stated that "the Right Honorable "the Governor in Council has observed with great "satisfaction the highly favorable mention made "by the Collector of the talents assiduity and useful- "ness of Mr. J. D'Vaz" and as again on the 25 July 1840 the Most Noble the Governor in Council was pleased to add that "the high testimonials which Mr. D'Vaz "has produced and his lengthened service would induce "His Lordship in Council to give Mr. D'Vaz's claims "further consideration if the Board are of opinion "that they are not duly provided for at present." I take the liberty most respectfully, to solicit that the Board will do me the favor to submit my letter of date the 7th September last with the correspondence which has passed on the subject for such decision as Government may deem it expedient to come to; the increase which on mature deliberation, I thought it was due to a faithful

faithful and meritorious public servant of 30 years standing I should recommend being only a fair remuneration for his most valuable services.

Madras, 2d November 1846. } (Signed) L. A. Hudleston
Collector.

Ordered that the foregoing letter and the previous communication on the subject be submitted with the following address.—

To. The Chief Secretary to Government.

(43 - 44)

To the Chief Sec.y to Government } Sir

Submitting for orders a correspondence with the Coll.r of Madras relative to the proposed increase to Mr. D'Vaz's salary.

In the Extract Minutes Consultation of 25th July 1846 the Government in sanctioning the arrangements proposed by the Board in their letter of the 11th June 1846 respecting the Heriteditary ship of the Madras Collectorate, observed that "the high testimonials which Mr. D'Vaz has "produced and his lengthened services would "induce his Lordship in Council to give Mr. D'Vaz's "claims further consideration if the Board are "of opinion that they are not duly provided for "at present." In furnishing the Collector of Madras with copy of this Extract the Board informed him that they would be prepared to give due consideration to any suggestion which he might wish to offer on the subject of Mr. D'Vaz's claims. In reply Mr. Hudleston on the 7th September last laid

Fort St. George 9th November 1846.

laid before the Board copies of testimonials and Extracts from the correspondence of his Office, showing the nature and extent of the services of Mr. D'Vaz and the opinion entertained of him by the several Officers under whom he had served and recommended an addition to his salary of 140 Rupees which would raise it to Rupees 350 per mensem. In their answer of 12th October 1846 the Board took a review of the correspondence which had passed on previous occasions on the subject of Mr. D'Vaz's allowances, and they informed the Collector that they felt themselves precluded from submitting his application to Government, inasmuch as they could not consider that the state of his Office had so materially altered, nor the duties properly appertaining to Mr. D'Vaz's department as Head Clerk and Record Keeper so much increased since the time at which the salary of that individual was fixed at its present amount, as would justify them in recommending any addition to it. and inasmuch also as they could not think that Mr. D'Vaz's claims were not duly provided for by his present rate of remuneration. Mr. Hudleston has now 2d November 1846 requested that the correspondence which has passed between himself and this Office

on

14220. Fort St. George 9th November 1846.

on the subject may be laid before Government for such decision as they may deem it expedient to come to and I am therefore directed by the Board of Revenue to submit this correspondence for such orders as the Most Noble the Governor in Council may be pleased to pass upon it.

2.

In reply I am directed
by the President in Council to state
that it is to be supposed that Colonel
Munro, an Officer enjoying the confidence
of the Government, had authority to make
grants of this nature, otherwise the grant
must be held to be altogether invalid.-

3.

Though His Honor in
Council is not disposed to withhold assent
to the above recommendations of
the Madras Government, he thinks it would
be enquire the nature and extent of
authority given to Colonel Munro in
these matters, and you will be good
enough to furnish this information to
enable the Government of India to decide
finally on the present proposition of the
Most Noble the Governor in Council.

To E. P. Thompson Esqre.
Secretary to Government
Fort St. George.

Sir,

I am directed to acknowledge the receipt of your letter No. 702 dated the 3d July last with enclosures conveying the recommendation of the Most Noble the Governor in Council that the Hodiitotum & Shotrium in the Bellary District be continued in the name of Cauder ameen Shaw during his natural life for the maintenance of a Durgah which he has kept at his own private cost since the sequestration of the Village in 1836.

2. In reply I am desired to state for the information of His Lordship in Council that although the grant in its terms appears originally to have been personal and therefore liable to resumption on the death of the grantee, yet that as a portion of the income has for a long series of years, commencing from before our acquisition of the Country, been assigned for the support of a religious Institution,

Sir,

Para 1. With reference to your letter of the 12th April 1820. I beg leave to forward translate of an address and a list of the family presented to me by Murdoo Sharvagar son of Dhorasawmy of Shevaga-
2nd ga who died shortly after his arrival here.

On an enquiry it appears that the persons were maintained by an allowance of 200 S. Chs or Rupees 253-9-11 at 8 monthly granted by the Zemindar of Shevagunga which ceased in 1805- thro' what Cause I cannot ascertain- They were afterwards maintained by an allowance allotted to them by the Ranee Mungalaiswary Natchyar the late Zemindar of Ramnad and since her death by their own exertions- They are at present in extreme poverty and distress- I therefore deem it my duty to state these circumstances for the information of the Honorable the Governor in Council should the parties be considered entitled to an allowance, a Pagoda per day I should think sufficient to

Translation of a Petition most submissively addressed to R. Peter Esqre Collector and Magistrate of the Zillah of Madura and Dindigul by Murdoo Sharvagaren, son of the late Dhorasawmy aliad Mootovadagoo Sharvagaren of the Shevagunga District.-

Stating that the Honorable Company transported his father to Pulo Penang in the year 1801 and was now pleaded to send for him to Madras and on his arrival Mr. Mckerrel the superintendent of Police desired him to state whatever he may require and accordingly he presented a Petition to Government praying for a continued protection and orders to reside in the Madura District- That he was then desired to wait on the Collector and to represent his circumstance who would make provisions for the support of himself and family, accordingly he left Madras and arrived at Vundyoor near Madura where, as he was taken sick he returned to

Shevagunga

House alluded to in the 4th and 5th paras of Mr. Morris letter which formed the enclosure to the above reference.-

2. Lieutenant Colonel Tullock C.B. has favored us with a schedule privately obtained of the Property proposed by Mr. Morris to be procured some of the Proprietors are stated to be willing to sell, others are not. The arrangement proposed is we consider the most desirable that could be effected for the reasons adduced by Mr. Morris Coupled with the advantages attending the location of the Town Police Office and Petty Court in the Bonded Warehouse and we would therefore urge the necessity of bringing it about if practicable. The principal difficulty will be with the parties who are indisposed to sell, but it has been suggested that possibly they may be induced to part with their property at a valuation of the buildings and the assignment of land near their place of birth or the Country of their Families. Should your Lordship in Council concur in this view or desire the adoption of other measures to obtain possession of the

the Property in question we would beg to suggest a reference to the Board of Revenue thro' whose instrumentality it might be effected. In the mean while however we would beg to press the propriety of carrying out without further delay the projected Changes in the Bonded Warehouse, the Contract for the work having been signed and sealed and the contractor being urgent for the security of his Interests to commence upon it. The rent of the buildings also now occupied by the Petty Court and Town Police forming a considerable item of monthly expenditure.-

From the Agent to the Governor Vizagapatam. Gives explanation of the remissions allowed in fusly 1254 to the amount of Rupees 148959-14-11.

Sir,

Para 1. I have had the honor to receive the Extract from the Proceedings of the Board of Revenue dated the 10th September having reference to the Settlement of the Vizeanagrum Zemindary for fusly 1254.

In Para 5th it is observed that "the

2. "Agent has given no explanation of the Remissions he had allowed, amounting to the large sum "of Rupees 148959-14-11. on a demand of Rupees "366391-9-4. being forty per Cent on the amount." It is desired that this omission be supplied, at as early a date as practicable, in a separate Communication.

In accordance with this requisition

3. I beg respectfully to state that these remissions were not given by me as the expression in the Boards Proceedings is calculated to imply. The remissions in question were allowed by my predecessor Mr. Arbuthnot upon the estimates of Crops framed in each Talook under his own orders agreeably to with the peculiar System which that Gentleman

Fort St. George 12th November 1846.

Gentleman was accustomed to follow which he has on many occasions explained at great length, and concerning which he frequently espressed his decided conviction that it could not at present be dispensed with. Speaking generally I hold no sentiments in common with Mr. Arbuthnot on the Revenue Management of a District, but without doubt that Gentleman was fully satisfied in his own mind of the necessity of the remissions, or he would not have allowed them. Now, however, after a lapse of nearly two years, I can offer no opinion upon the subject worth consideration, having no personal knowledge of the season or of the condition of the District in this season.

4. The Board have compared the centage of remissions in 1843/44 with that of the year 1844/45, which in the former was 15 per Cent, in the latter 40 per Cent, and have called for explanation of the difference. The only reason that can be assigned for the increase noted is that already given, Viz.t that the season of 1843/44 was one of tolerable fertility, while the year that followed was one of great adversity.

The

Fort St. George 12th November 1846.

5. The conflicting and fluctuating results of several Talooks are exhibited, in a figured Statement framed by the Board as requiring explanation. On this I would observe that in a Zemindary as extensive as Vizeanagram, larger than the Jaghеer of Chingleput, and in a season so capricious as that under notice, some portions of the Estate naturally suffer more than others. Talooks irrigated by streams from the Hill Zemindaries, where rains are always more abundant than in the plains, are the most productive, while those Talooks that depend more upon rains falling at seasonable intervals are most affected by drought. The Talook of Vapadah is one whose tanks depend chiefly on the Heavens for their supplies. In it therefore, the deficiency of produce this season was the greatest, and the remissions granted were consequently highest.

6. The Board have noticed at much length, and in various views the rented Balances, as evidence of the disadvantages of that system. I still adhere to my own convictions that the results of the Rents under inefficient Management were

were the only cheering symptoms in this year of Zemendary depression.-

7. The demand on the cultivable land of all the rented Villages in Vizeanagram was Rupees 551291. the Collections were Rupees 336636- being Sixty one per Cent of the highest possible demand. The demand on all land capable of Cultivation in the Aumanie Villages was Rupees 433912- and the Collections 225732 being 51 per Cent only of the demand.-

8. A remark of Mr. Arbuthnot is cited with approbation, taken from a former report, namely that "in this year "he had found the utmost difficulty in "extracting any thing from the Renters". The Public accounts shew that out of a demand of Rupees 414239-9-10- Rupees 336636-6-9- was collected within the fusly and Rupees 7476-5-2- immediately after the close of the fusly being 83 per Cent of the whole demand. I find that this was done without the distraint of any property, or the incarceration of a single Renter, in what Mr. Arbuthnot himself stated was the worst season in his fifteen years experience of the District. However "approved therefore

therefore the remark to clinch the Boards argument, I cannot with this fact before me, admit the truth of the late Agents observation.-

9. Appended to Para 12 of the Boards Proceedings is a figured Statement shewing the demand and collection of the two Villages of Gopalputnum and Penagondy for many previous years. A consideration of this had satisfied the Board that the present Rents are respectively disadvantageous when compared with the Ryotwar results previous to 1242-43.-

10. The records of my office do not give the same results in all instances with those noted by the Board. For instance in the nine years from fusly 1235 to fusly 1242- inclusive, Penagandy Village yielded according to my accounts, Rupees 1650- per annum, and not Rupees 1850 as per the Boards statement. But waiving the consideration of these discrepancies, I beg to observe that the high results shewn to have been generally attained in these by-gone days were "from Rents" whereas under the system of Aumanie Ryotwar followed here, these two Villages had

fallen

Fort St. George 12th November 1846.

fallen to about one half their former Value during the five years immediately preceding 1842/43. I submit, then that the existing rents are advantageous and not disadvantageous when compared with recent "Ryotwar results."

11. The requisition made for a report on the outstanding Balances will be complied with as soon as possible. But the Board will bear in mind that I have only been permanently appointed five months ago to the Office and that many matters of great moment are at present pressing upon my attention.

Vizagapatam Governor's Agent's Office 1st October 1846. | Signed | O. B. Smollett. Agent to the Governor.

Proceedings thereon.

In their Proceedings on the Settlement of the Vizianagrum Zemindary for Fusly 1254/1844-45 the Board remarked that the agent had not given any explanation of the remission he had allowed amounting to the large sum of Rupees 148959-14-11. being 40 per cent on the Dittum, the remission in some Talooks

Talooks exceeding the Dittum by one half and he was called upon to supply the omission in a separate communication. Mr. Smollett in the letter recorded above is unable from personal Knowledge to give any information of the condition of the District during the year under consideration, the settlement having been made by his Predecessor, but explains that the season was partial that the Talooks irrigated by Hill Streams are more productive than those dependant on rain falling at seasonable intervals, and that the Talook of Vapandah, particularly noticed by the Board in which the remission was 76 per Cent on the Dittum, possesses no advantages of irrigation. The deficiency of

Produce

Produce was accordingly greatest in
this Talook and the amount re-
remitted proportionably large.

2. It is sufficient with reference

individual settlement which was introduced
by Mr. Russell may be reverted to on the
present leases falling in. The Board
observe that the information called

may be supplied at an early

Inland Consumption-

2. The falling off under the head of Salt, occurred wholly in the sales for Inland Consumption in which the decrease of Rs 18,497-4-3 is ascribed by the Collector to the prevalence of disease among the Cattle of the Lumbadys the bad season of 1845, and the disturbed state of the Nizam's Country by which the Thundahs were deterred from coming for their usual supplies- The improvements visible in the Home Consumption is attributed to the price of Grain having been such as to cause greater briskness in the barter trade which obtains in the Guntoor District in these two articles- There was an advance of Maunds 13,848-4 in the actual quantity sold for the Home Market but in consequence of the high price which was current during the early part of Fusly 1254 the proceeds show an increase of only Rupees 8,300-4-1-

Home Consumption

Sayer-

3. The deficiency of Rs 5,028-4 in the Sayer Duty is chiefly on the items of Export- It is traced to the circumstance of the Nizam's Country having been

been more than usually unsettled, to the closing of some of the western Frontier Passes, and to a slack demand for cloths and tobacco at Hyderabad- There is also a trifling decrease in the import duty, nearly Counterbalanced by the higher rate lately imposed by orders of the Board on Cloths.—

Sea Customs-

4. The increase of Rupees 346-15-9 in the Sea Customs was occasioned by local changes and fluctuations in the trade by Sea.—

Abkarry-

5. Under the Head of Abkarry there is a rise of Rupees 2,611-13 -"- principally resulting from the great competition which took place among several parties for the Abkarry Farms.—

Small Farms-

6. The improved condition of some of the small Farms, and the arrival at maturity of the plantations on others caused an increase of Rupees 375-14-3 in the demand for them.—

7. It is observed that the arrears of Fusly 1254 under this head are still outstanding and that the Collector has admitted as the Renter for Fusly 1256. the same person who has already twice proved a defaulter thro' his

his own negligence. The prudence of this arrangement is questionable, but it will be satisfactory if it leads, as the Collector seems to anticipate, to the realization of even a portion of the arrears of Fusly 1254-8.

Stamps

The decrease of Rupees 2,059-6- in the proceeds of the sale of Stamps has been occasioned partly by the recent alterations in the Jurisdiction of District Moonsiffs, by which certain suits can now be conducted without the use of Stamped Papers, and partly by the substitution of unstamped for stamped Rowannahs to accompany Goods passing the Frontier or the Custom House.

Moturpha-

9. There is an increase on each item under the Head of Moturpha amounting in the aggregate to Rs 2243-5-11 that resulting from Shops and Looms is attributed in a great measure to the restoration of the taxes on them to the rates in force before the famine, and to the Establishment of new Shops and Looms. The favorable season, and the good pasturage in the District caused the increase in the taxes on Sheep and Cattle.

10. The Collector brings prominently

Pariah Looms

to notice the want of uniformity in the rate at which Parah Looms are taxed, and suggests that one Rupee should be the sum imposed on each Loom as was the case formerly. This arrangement would involve a present remission of Rupees 820-11 but as it would confer much benefit on a poor class of persons and would stimulate them to industry and probably induce them to establish new Looms, the Board recommend the proposition for the favorable consideration of the Most Noble the Governor in Council.

Current Collections

11. Out of the Gross Demand from all Sources of extra Revenue for the Fusly under review amounting to 4,31,670-3-8 the sum of 4,24,168-7 was collected within it, leaving a balance of 7502-3-1 of which 6805-13-3 had been realized before the 15th of August.

12. The annexed Statement shows the comparative increase and decrease in the charges incurred in Fusles 1254 and 1255 on account of the Collection of the Extra Revenues by which it will be seen that the expenditure of the latter was less than that of the former period by Rupees 24,177-12-6.

Charges Salt

13. The Decrease of Rupees 25240 - 8 - in the charges of the Salt Department seems to have been owing to the circumstance of there having been so large a store remaining from the preceious Fusly that there was no necessity to manufacture the usual quantity for the one under report.

Sayer

14. The increased expenditure on account of the Sayer was occasioned by the entertainment of the additional establishment consequent upon Act VI of 1844 coming into operation in the District.

15. The charges on the other items do not seem to call for any particular notice or remark.

Result

16. The result of the review shows that the gross receipts including those from arrears and Extra Collections derived from all sources of Extra Revenue in the District during Fusly 1255 amounts to Rupees 43,603 - 3 - 9 and that the charges incurred come to Rupees 33598 - 1 - 6 from which a Net revenue of Rupees 4,03005 - 2 - 3 being Rupees 18787 - 11 - 8 more than that of the preceding Fusly was realized -

Ordered that the separate Report on the Roads and Communications of the District received with that now before the Board be transmitted to the Department of Public works with reference to the concluding Para of Proceedings dated 26th October 1846 -

Ordered also that copy of these Proceedings be submitted to Government and a copy be furnished to the Collector of Guntoor for his information and guidance -

(36) From the Collr. of North Arcot. Returning the Petition No. 1207 of 1846 presented by Davulgie Row and stating that there is no particular reason why a Moderate charge might not be allowed for having occupied his Muttum for the Tahsildar's cutcherry. (No. 1207 of 1846.)

Sir,

Parat. With reference to your letter of the 31st August last calling upon me to report on the accompanying Petition from one Davulgie Row Complaining of his house having been occupied without remuneration to him by the Thasildar of the Tirtany Division of the Cavetnuggur Zemindary, I have the honor to state that the building is not a private dwelling house but a Muttum for the reception of travellers, in charge of a

cutcherry by Tirtany and be debited to the Cavetty-nugger Ze-mindars Account under the circum-stances set forth.

a Pundarum named Vasdydeum who received altogether Rupees 16. 15. 8 while the Thasildars Cutcherry was accommodated in part of it during the attachment of the Zemindary as a customary present for taking care of the building.

From July 1843 to March 1845 at 1/2 a Rupee per month	10-8-"
From April to June 1845 at 1 Rupee per month	3-"-"
From 11th May to 23d Augt 1846 at Do	3-7-8.
Rs	16-15-8.

2. The Muttum was originally constructed for charitable purposes about 50 Years ago by a Widow named Godavery Boye whose Grand Son being unable to repair it made it over to the Petitioner who appears to have re-built it about 10 years ago. It has always been used as a public building. I see no particular reason why a moderate charge might not be allowed for the use of it by the Zuft Establishment and be debited to the Zemindars Account on an understanding that the amount is to be laid out for the benefit of the institution. If the Board would approve of this arrangement I would propose to communicate with Davuluru Row as Trustee of the building on the subject of the

which should be paid for the accommodation and particular purpose to which it should be appropriated.

Cutcherry, Palmanair,

/Signed/ E. C. Lovell
Acting Collector.

Resolution thereon.

(36-37)

In para 2 of the above letter it is stated that the "Muttum" has always been used as a public building" If by this it is to be understood that it was employed in part for a Cutcherry prior to the attachment of the Cavetty nuggur estate and no rent paid for it it does not appear to the Board why such charge should now be admitted for the time that the Estate was under Circar management. If the Muttum was first used as a Cutcherry during the sequestration of the Zemindary, there would seem no reason why a moderate rent should not be allowed for the time that it has been so occupied to be applied to the benefit of the institution and this might have been at once arranged had Petitioner made his application at an earlier period but as the Estate has been surrendered to the Zemindar the Board apprehend that it could not now be done without his concurrence. In the event of the case being as last supposed, the Collector will be pleased to communicate with

with the Zemindar, and if possible endeavour him to make some allowance to the Petitioner for the use of his Inattum.-

Ordered that the following Endorsement be passed on Petition No. 1207. of 1846.

"Petitioner is referred to the Acting Collector of North Arcot, to whom the Board have communicated orders on the subject of his Petition."

(38) From the Actg. Sub Collr. in charge of North Arcot. - Read letter requesting that the extra tent allowance drawn by him while at Palmanair in Fusly 1255. may be sanctioned.-

Ordered that the following letter be sent in consequence.-

(38-39) To the Actg. Collr. of North Arcot.

To The Actg. Collr. of North Arcot.-

Sir

I am directed by the Board of Revenue to forward to you the accompanying letter received from your Acting Sub Collector R. R. Cotton and to request that you will return it to that Officer and will at the same time point out to him the irregularity of his proceeding in addressing the Board direct, and not through the authorized channel, any representation which Mr. Cotton may wish to make on the subject of his extra Tent allowance should in the first instance be made to you and it will be for you to submit it to this Office if you should see good grounds for so doing.-

(40) From the Collector of Trichinopoly - Forwarding a Statement shewing the Privileges enjoyed by the Nauttaurs in the Talook of Volcondapoorum in the Trichenopoly District.-

Sir

Para 1. With reference to the Extract from the Board's proceedings under date the 16th April 1846 on the subject of the privileges enjoyed by the Nauttaurs in the Talook of Volcondapoorum I have the honor to forward a Statement in the form which accompanied it.-

2- It will be seen that the total extent of land originally occupied by the Nauttars on favorable terms (excluding the land in the Coogoor Inahanum) was Cawnies 2,099-20-5. the favorable assessment on which amounts to Rupees 8,043-7-.. that under the arrangements made by Mr. Garrow they were put in possession of an additional extent of Cawnies 1,573-9-6. at the favorable assessment of Rupees 5,805-2-7½ and that they were allowed at that same time to hold free of all demand Topes of Fruit trees the assessment of which at the rates then prevailing in the District amounted to Rupees 1128-14-3. This last (on the Topes) was collected during a few years in fusly 1217 A.D. 1807/8 and again from fusly 1227 A.D. 1817/18 to fusly 1245 A.D. 1835/36. The extent of land at present held by the Nauttaurs it will be seen is Cawnies 3,833-16-6½ assessed (favorably) at

Fort St. George 12th November 1846.

at Rupees 15677-4½. The present value of the topes which are assessed according to the produce not the extent of ground occupied has not been correctly ascertained- but the same topes which were made over by Mr. Garrow are now held rent free, and have not been increased- There will be no difficulty in ascertaining the value when the Boards final orders shall be issued-

3.

Of the land now occupied it is impossible to discover with certainty what portion is the original holding and what the addition allowed by Mr. Garrow- but this it is presumed is an immaterial point. The present holders are either those who originally received the indulgence or their immediate descendants except perhaps in some cases in which adoption has given the right of inheritance- and which it would now be difficult to ascertain-

4.

As regards the terms of tenure I believe that none were made by Mr. Garrow either in reference to other privileges resumed or service to be performed- the only condition seems to have been that the additional quantity of land should certainly be paid for- as well as the original to give a claim to the indulgence of remission on the whole- and the motive by

by which Mr. Garrow was actuated seem to have been accurately surmised in the extract from the Boards' proceedings dated the 20th December 1827- paras 17 to 19- a description of the Nauttaurs will be found in Mr. Wallace's report for fusly 1211- & D.F. 1801-2-

5.

I am not aware that I can throw any further light on the subject- but it is proper to add that the continued administration of a regular system of Government and the diminution of the Nauttaurs wealth have greatly destroyed their influence and that they are no longer remarkable for the turbulent disposition which formerly distinguished them-

(Signed) A. P. Anslow
Collector

Read.

Fort St. George 12th November 1846.

In Con. 16th Sept. 1846.

Proceedings thereon.

40-41 Directing the Collector of Trichinopoly to impose and collect the full Teerwah upon certain Topes and extra lands enjoyed by the Puttawars in the Talook of Valendapooram as lapses may occur in the present occupancy of them.-

Read again letter from the Collector of Trichinopoly dated 14th January 1846.

1. The Board concur in the view which the Collector has taken of the indulgence which Mr. Garrow appears to have conceded to these Puttawars in the year 1809. by allowing them to enjoy certain Topes of Fruit Trees free of all tax, and cultivate certain waste lands on reduced assessment in excess of those which they already held on similarly favorable terms by their original Dittums of Fusly 1216/A.D. 1805/6. and 1226./A.D. 1815/16.

2. No trace can be found either in the Records of this or the Collectors' Office of any authority having been vested in Mr. Garrow to concede this indulgence, but in consideration of its having been enjoyed for so many years the Board are unwilling to revoke it summarily. They therefore direct the Collector to impose and collect the full Teerwah assessed on the principles laid down in Para 4 of his letter on the subject dated 14th January 1846. upon the Topes and Extra lands in question as lapses may occur in the present occupancy of them reporting such cases as he may consider to require the special orders of the Board.-

The

Fort St. George 12th November 1846.

3. The Collector should also adopt immediate measures to discover the exact number of the Topes which are in possession of the Puttawars exempt from all tax, and to ascertain as far as practicable the precise extent and position of the lands which each man occupies on reduced Teerwah above those entered in the Dittums of either Fusly 1218 or 1226. with which it is not intended to interfere.-

Ordered that copy of the foregoing Extract be forwarded to the Collector of Trichinopoly for his information and guidance.-

From the Pt. Collr. of Madura.....

Sir

In explanation of Petition No. 1022 of 1846. herewith returned, I have the honor to submit that in consequence of default on part of the ryots of Ramagherry, Coomaravady, Veeramalay, and Thoganalay of Maroongapoory to cultivate their lands themselves or to make them over to others, reserving them for pasturage under hedged enclosures, defrauding Government of their tax the matter was laid before the Board,

on

on the 20th June 1842, and in obedience to the Proceedings of the 21st March 1843 the Tasildar was instructed on the 25th May to levy full tax on the cultivated lands and ½ tax on lands reserved for grass, warning those who were unwilling to pay grass tax to give a formal relinquishment to remove the hedges, and permit their allotment to others willing to cultivate or pay grass tax and leave the land which no one would become responsible for, open for common pasturage; but on disobedience of petitioner and some others and of their still continued reserve of the land for their own Cattle only I ordered levy of ¼ tax and its entry in the settlement Accounts of the past fusly 1255.-

Resolution thereon.-

(42-43)

Resolved that the following endorsement be passed on Petition No. 1220 of 1846 from the Collector of Tinnevelly.

"From the explanation received from the Principal Collector on the subject of this Petition it appears that the Petitioners have been charged with ¼ teervah as pasturage tax on the lands referred to in their complaint because they refused either to cultivate the lands or to relinquish them but kept them as grazing ground for their Cattle. This charge under these circumstances was quite proper."-

Sir

1. In replying to para 2 of the Minutes of Consultation dated the 4th August last which accompanied the Board's Proceedings of the 3d Ultimo, I have the honor in the first place to premise that the original Grantee was Emame Shaw as appears by Mr. Cotton's list and the Curwannah and not Mahomed Khan as was by mistake entered in my letter.-

2. Enoyet Khan one of the 5 Disciples whose double share of the Yeomeah is the subject of the question of Government appears by the accompanying Mooktiarnamah × to be returned to

Fort St. George 12th November 1846.

to be the son of Mahomed Khan and the of the Disciples, but to have been given in adoption to Puttoo sahib also a disciple who dying previously to the preparation of Mr. Cottons' register, Enoyet Khan's name appears therein in his stead. Thus he obtained one share, and on the death of his natural Father Mahomed Khan on the 28th of August 1829. he succeeded to his share also, in default of any other Heir. The order for payment is dated 7th January 1830 and is signed by Mr. Hall the Head Assistant Collector in charge. The Inamum is entered in Mr. Cotton's Register as Hereditary.-

From the Pl. Collr. of Coimbatore.

Towards the Statements connected with the Land Revenue Settlement of Shamatoor &. Cotumputty Polliems now under the management of the Court of Wards for Fasly 12.5th shews the increase and decrease under the various items and also the Demand Collection and Balance. And affords explanation on the several points noticed by the Court of Wards & Government.

Sir

Para 1. Adverting to para III of Extract from the Proceedings of the Court of Wards dated 27th May 1846, I have the honor to forward the Statement of Shamatoor and Cotamputty Polliems in the Palachy Talook in this District now under the management of the Court of Wards for Fasly $\frac{12.5th}{1844/45}$.

2 The Poonjah Cultivation in the several Villages comprising these Polliems was greatly affected by the unseasonable failure of both the South West and North east monsoons, and the revenue would have suffered very greatly but for the cultivation of Nunjah lands which having been thrown waste in the preceding year, were renewed in consequence of the Shamatoor Tank having received a full supply of water from

from rain on the Annamallie Hills.

On the whole, the settlement of the Current Fusly exceeds that of the past by Rupees 237-5-11 being also in excess of the demand of 1250/1840/41 by 278-9-8 as shewn in the subjoined Statement.

Nel Increase — 237 5 11

In

Fort St George 12th November 1846

In para 4 of Extract from the Proceedings dated the 9th October 1845 the Court observe, with reference to Cowle lands in this Estate, that "it is not clear "from the Principal Collectors remarks "whether these Cowle rates are to be understood "as permanent; or whether the respective amounts "are progressive" and also desire to be further "informed" on this point, as well as of the circumstances under which these modified rates were originally granted." In reply I beg to state that these Cowles are of a permanent character and not progressive They were granted by late Poligar with reference to the difficulties of Cultivation such as the density of Jungle generish locally and similar causes; but it does not appear that any written agreements were entered into, to that effect either by the Poligar or the Ryots, who, the Manager of the Settlement communicates, are not willing to pay any enhanced amount on the present demand He further states that in the event of it being raised to the Survey standard they will no doubt give up their lands which

Fort St George 12th November 1846

which will materially affect the revenue and requests that the preexisting arrangement should be permitted to remain undisturbed, at least until offers can be received for the Cultivation of the lands in question on the payment of Full Jeerwa this request appears to merit the consideration of the Court. In the settlement of the year under review, the same system was observed at the express request of the Manager There is however a fluctuation in the aggregate amount of these lands which has been occasioned from the levy of full assessment on some of the Cowle lands, offers having been received

the preceding Fuslies 1250 and 1251 viz. you I annex an Account Particular shewing the annual Cultivation, settlement, and collections of Revenue from Fusly 1250/1840/41 to 1253/1843/44 inclusive this Village is situated on the borders of the Cochin State, and is considered a feverish locality and infested by wild animals to reclaim this wild portion of the Poliput the late Proprietor resorted to the expedient of permitting the Ryots to cultivate the ground on the payment of a discretionary demand of one Rupee, twelve annas per Bullah. In Fusly 1251/1841/42 a small quantity was

was charged with full Teerwa - In the ensuing year the Ryots were induced to hold the Cowle lands as also that charged with full rent in 1257/1847 as there was every probability of its being thrown out of cultivation for one half of the Survey Assessment permanently and this arrangement was held good in 1253/1843 and 1254/1844 also the Manager now begs that this practice should be continued alleging that, if otherwise, the lands will be given up, and accordingly solicit that they may be favored with the Courts instructions for ratification of the same.

6. The practice of levying 3 Rupees per Bullah of Punjah land prevailed in the Village of Attoor Palachy dependant on the Rotumpully Pollams, and no necessity for any abatement of Assessment existing in this Village it was interdicted in Fasly 1251/1841-42 ever since the lands pay full rent.

7. As directed in the 7th Para of the Courts Proceeding Statements Nos 2 3 and 4 are transmitted. the 1st exhibits the total Amanee Demand, Collection and balance excluding the amount of

Village Sibbendy/ the 2d the receipts and disbursements, and the 3d the Demand Collection and Balance of Peishcush.

8. It would appear from Statement No 2 that a sum of Rupees 629-6-7 still remains unadjusted. this is not due by Ryots; but by the Minor Poligar on lands, the Puttah for which is held in his name.

9. The subjoined Statement shews the arrears due from 1250 the year in which the Poligut was taken under the Management of the Court of Wards to 1254 inclusive -

and the Circar but which were subsequently decided by a Punchayet as belonging to Government - and consequently the sum is a wrong entry in the Polipal Accounts and must be expunged - the amount having been paid by the Ryots and carried to the credit of Government

observe that the sum alluded to is due on lands in the occupancy of Minor Poligar or as it is termed on the "Khas Punnium lands" these are not included in the extent appropriated as a provision for the several Members of the Family under the sanction of the Court of Wards dated the 27th May 1841 but are held separately on a Puttah in the name of the Minor Poligar - The allowance of 50 Rupees sanctioned by the Court being quite inadequate for the respectable maintenance of himself and for defraying several charges of a contingent and miscellaneous character the proceeds of these lands are applied for the said purpose. For this reason the Minor has not the means of adjusting the demand and under these circumstances, the Manager of the Estate requests, at the instance of Agutoor Ammahl, the Guardian, and mother of the Minor to allow the lands in question to be held rent free, which I beg leave to recommend for the favorable consideration of the Court. The accompanying Statement No 5 will afford the information called for by the Court in the latter part of Para 9 of their Proceedings -

12. Adverting to para 10 I would add that

Fort St. George 12th November 1846

that the Establishment of 6 Peons was entertained for the security of the Property of the Estate to which this charge is debited no sanction has been obtained for the same—an application however will be sent in due course in the prescribed form.—

13. With reference to the instructions of Government conveyed in Para 3 of Extract Minutes of Consultation dated 18th November 1845 directing the investment of the surplus Collection of the Estate in the Government loan I think it right to inform the Court that the Mother of the Minor objects to this arrangement altogether, and if it is considered that the concurrence of Agutloor annuall to this mode of disposal of the Property is unnecessary, I shall be prepared to give effect to the Orders of Government.—

14. On the subject of the education of the Minor alluded to in para 5 of the above Extract, I would observe that he is now learning Tamil. It is the intention of his Mother and others that when he has attained a sufficient degree of proficiency in that language he should be taught the Marattah and Hindoostanee. The person employed to instruct him is quite competent to

Fort St. George 12th November 1846

to the task and the progress made by the Minor is satisfactory, considering his age, and the period he has been under tuition the Minor is able to read and write Tamil and is now learning arithmetic.—

It would appear from Statement 15.

No 2 that a sum of Rupees 120-9-— was appropriated for the clearing and repair of a channel of supply to the Yolanacaray Tank which irrigates the lands of Shamatoor and Cotumpitty—the amounting to Rupees 472-—-— this disbursement will, I trust, be viewed with approval by the Court of Wards the surplus Collections in favor of the Estate, amount at the close of the Fusly to Rupees 14,686-

To J. Lycroft Esqre.
Secretary to the
Board of Revenue
Fort St. George.

From the Collr. of Canara forwarding for publication an advertisement for the sale of Lands for arrears of Revenue.

Sir,

1. I have the honor to transmit a notice for publication in the Boards' Office, advertising the sale of three Lands in satisfaction of arrears due by the defaulters to whom they respectively belong.

2. The first case is that of Surety for a Tobacco Monegar, against whom a decree was passed by the late Acting Collector Mr. Parker adjudging him to make good the sum of Rupees 127- 6- 10 as being the value of 4 Cs. 11 Ms. 14 Rs. 15- 30 3/4 Rs. of Tobacco which was deficient in the Store under his charge and which he failed to account for satisfactorily. The Monegar having no property, the Surety was called upon to discharge the amount but as no personal property was found belonging to him equal to the demand, it is recommended that the land now entered in the notice should be sold. The land in question stands mortgaged to one Monguesha for

for Rupees 554 and the sale will probably fetch more than enough to satisfy the decree, in addition to the Mortgage amount.

3. The arrears in the 2d. case is due on two Vargs belonging to the Defaulter. The cause of the arrears is the neglect of the defaulter to improve the property on which the settlement was increased according to his stipulated instalments as will be seen on a reference to the report made on his Petition No. 862 of 1845, under date the 6th. May 1846. It is therefore proposed that one of his two Vargs should be put up to sale.

4. The defaulter in the last case is in possession of several shares in the five Vargs entered in the last Column of the Notice, The defaulter's father having died on 1252, the property has been much neglected and as it consists chiefly of Garden, the produce has greatly fallen off. and arrears have accumulated for the last two years. The defaulter is unable to cultivate the garden to its full powers so as to ensure its paying the full demand as has long been the case, the land entered in the notice is therefore recommended to be sold.

From the Collr. of Canara — 1.
Report on the Land Revenue settlement of the Canara Collectorate for Fusly 1255. 1845/46.

English. Numbered & Marked from A to I and Nos. 1 2 3 5 6 8 12 13.

Hindivie from A to N and Nos. 1 2 3 5 6 8 12 13.

Sir,

I have the honor to submit a report on the settlement of the Land revenue of this District for the past Fusly 1255. 1845/46 together with the usual accounts and Statements as noted in the Margin. I did not assume the charge of the District until about the middle of February before which time the Jummabundy of some of the Taloobs had been already completed. The great press of current business in this District and my entire want of previous experience in this part of the Country have not yet afforded me leisure to visit more than a small portion of the District or to enter into the details

Fort S.t George 12th November 1846

details of a system of revenue so strange to me and the Board will not therefore I presume expect that I should do more on the present occasion than state the general results of the settlement with such explanations as are usually afforded.

2. The several Taloobs were settled in the following manner Viz.t — Buntwal was settled by the Sub Collector Mr. Parker, Honore Sondah and Bilghi by the acting Sub Collector Mr. Ward, Mangalore by the Acting additional Sub Collector Mr. Reade, Ankola and Supah by the acting Head Assistant Collector Mr. Forbes, Bekul by the 2nd Assistant Mr. Robinson and Codipy, Barcor and Cundapur by myself.

3. The rains set in, in the early part of May, but were not considered on the whole to have proved favorable. A break in the Monsoon soon after its commencement was injurious to the rice cultivation and garden produce. The crops of Bett or 3rd Crops land suffered greatly while the losses in the 1st and

and 2nd Crops were less. The late rains in October contributed to increase the supply of water in consequence of which the Soonghi or 2nd Crop turned out favorably.

4th Notwithstanding the irregularity of the Monsoon however the year may be considered to have been favorable to the Ryots for the scarcity in many other parts of the Country had contributed to raise the prices of grain to a height which it had not attained for some years past, and this to a greater extent in the Balaghaut than elsewhere as will be seen in the following Statement of prices.

6 The season was very unhealthy during the year under report, almost every part of the District was visited with small pox and Cholera. The former occasioned 5,423 deaths and the latter 4376 throughout the District. The Cholera indeed appears to have been more virulent and extensive

extensive than on any previous occasion, and was so destructive amongst the labourers employed on the new Munjarabad Ghaut as well as in the Balaghaut, as to render it necessary to put a stop to the operations somewhat earlier than would otherwise have been done. The loss of Cattle from Murrain which raged with unusual severity was reported to amount to 25,631 in number.

Deaths of Cattle in 1254	18,039
Ditto in 1255	25,631
Increase in 1255	7,592

7- The triennial census having been taken in the previous fusly (1254) has not been renewed in the year under report and there are no alterations therefore to show in the amount of population.

Exports of Rice-

8. The exports of Rice by Sea during the year under report exceeded both those of the preceding year, and the average of the five former years, the latter by Corges 6,420, and the former by Corges 3380.-

	Corges	Measures
1254	31,320	16½

9- The subjoined Statement distinguishes the produce of Canara and Mysore-

Per Centage	18	26	37	7	22	29

10 The subjoined Statement shows the produce of Gardens as well in the upper as in the lower Talooks of Canara from which it will be seen that the crops of Betelnut were about equal to those of the preceding year while Pepper and Cardamums appear to have fallen off. It cannot be considered as quite accurate but is as near an approximation to the real state of the produce as can be arrived at from the enquiries made by the Tahsildars during their progress through the Talooks.

14. It is necessary to explain that the remissions under the 3d and 4th items were mainly caused by the want of the usual rain at the necessary periods.

15. The amount of vydahs or instalments as previously settled, to be brought up in the year under report was Rupees 4188-5-8 of which Rs. 3473-7-11 was collected leaving a balance of Rupees 714-13-9 which it was considered inexpedient to enforce in reference to the particular case of each estate on which it was due. These were principally the loss of Cattle, disease among the people and want of rains by which the ability of the ryots to pay up the full instalments was affected.

Para 1. With reference to para 23d of my letter noted in the Margin, I have the honor to forward copies of the reports from Sub Collectors Messrs Ward and Read on the settlement of the Jaloks under their respective charge during the past fusly.

Forwards Copies of Sumr: inabundy Reports of the Sub Collectors for fusly 1255 1845/46 and recommends the Arrears to the Amount of Rs 2432-8- & for rejections

a Settlement for fusly 1255 ab Col. to Coll. 18th Nov. 1845 B

I beg at the same time to transmit two Statements of the arrears of land revenue previous to fusly 1255 1845/46 the one showing the manner in which I would recommend the arrears to be disposed of which are alluded to in my Predecessor Mr Blairs letter of the 13th November 1845 Amounting to Rupees 3329-6-7 a/p up to fusly 1252. The other refers to the Arrears outstanding on account of fusties 1253 and 1254.

3. Of the total Amount exhibited in the first Statement Rupees 1013-2-3 have been realized upto the end of last Month and Rupees 735-3-2 are now recommended for remission for the reasons stated hereafter, leaving a balance of Rupees 1581-1-2 a p for future disposal.—

4. The Board will observe from the Statement in the Margin that the first two items of which this last balance is composed, have already been submitted for its orders. The preparation of Notices in the third is the difficultly in making proper divisions of the lands to be sold. The fourth and fifth items require some further time for adjustment and the Amount in the last item will, it is expected, be soon collected.

5. Of the Amount Rupees 735-3-2 a p recommended for remission Rupees 56-2-5 a p are on account of Fusly 1250 Rupees 295-13-9 a p on account of 1251 and Rupees 383-3-4 a p of Fusly 1252 Rupees 595-6-8 is due on lands which have been put up for sale but which are

are considered to be so highly assessed and generally in such a deteriorated condition, that no none will bid for them and as there is no other means left of realizing the balance, it appears useless to keep it on the Accounts, and it is recommended therefore to be written off. The reasons for which the remaining sums are recommended for remission are shown in the Margin and do not seem to require any further explanation.

On lands unsaleable	595	6	8
On Sircar Enami lands	110	14	6
Against Ryots in distressed Circumstances	28	14	4

6. The Statement No. 2 shows the arrears outstanding on account of Fusles 1253 & 1254 Amounting to Rupees 1312-15-4 a p of which Rupees 2045-4-11 require to be disposed of hereafter, for the causes specified in the Statement, and Rupees 570-9-3 will be collected, leaving a balance of Rupees 1697-5-2 which is recommended for remission as irrecoverable for the reasons specified below.—

7. The various causes which render the Amount of Arrears irrecoverable, are enumerated in the Margin.

	Rs	a	p
Amount of Arrears on lands unsaleable.	107	2	5
Ditto uncollected after the sale of advertised lands	196	15	8
Ditto on Enamy Wurgs	92	2	9
Ditto on account of Losses by fire.	268	12	0
Ditto on account of disbursements of defaulters	732	4	4
	1697	5	2

The Arrears on account of the two first causes are irrecoverable because the lands on which they are due are either

either altogether unsaleable or did not on being sold fetch sufficient to pay the demand, and it is advisable therefore that the Amount should be written off.-

8. As the sale of Sircar Guony wungs has been prohibited by the orders of the Board in their proceedings of the 21st April 1845, there is no alternative left but to write off the Amount of Rupees 92-2-9 which is due on such wungs.-

9. Of Rupees 268-12-0 to be remitted on account of Losses by fire, Rupees 200 have reference to the case reported on the 9th December 1843 and the remission sanctioned by the Board's under date 13th January 1845. The other sum of Rupees 68-12-0 has been carefully examined and the loss of produce of the defaulters appeared to call for the remission of the Amount.

Petition. No. 930 of 1843

10. The last item of the proposed remission Amounts to Rupees 732-4-4 the collection of which cannot be enforced without distressing the defaulters or depriving them of their Agricultural means.

11. Under the circumstances above

above detailed the arrears amounting on the whole to Rupees 2,432-8-4 are recommended for remission on account of the following Fusleys.-

Sir,

Para 1. I have the honor to submit a Report of the Settlement for the Fusly year 1255 of the three Talooks under my charge Sonda, Honore and Bilgky.-

2. The annexed Abstract gives the result exclusive of Coomery and Moturpha as compared with that of Fusly 1254.-

Talooks.

from it you will observe that there is an increase in the Land Revenue of each Talook and that the aggregate amount of Summabandy exceeds that of last year by Rs 1954- a 15- p ..-

3- The Season under review as regards its influence on the Cultivation is of a mixed character but on the whole may be pronounced to have been unfavorable. The Monsoon was late in setting in and there was a general failure of the showers which usually precede it. This, though a matter of little moment to the Payenghaut or to the cultivators of Garden produce above was felt as a serious hinderance by those whose lands lay in the Mullad and whose chief dependence was on their crops of grain as it prevented them from ploughing up and otherwise preparing their fields before the heavy rains began.

on 10th. June below and on the 23d. above the Ghauts the monsoon may be said to have commenced and from that time till the end of August the fall throughout the Country though light in Comparison with that of most ordinary seasons was steady and amply sufficient for all present purposes. The consequence was that throughout the Garden Moganies the Crops of Soopary for which light rains so they be regular suffice during these three Months and dry Weather is required for the plucking season fully equalled those gathered last year, while that of Cardammums which suffer from heavy rain early in the year, was unusually good. In September the rains were so scanty as almost to Amount to a total failure and though a few showers fell in October they came too late and were too light and partial to make up for the drought of the former Months. The consequence was that the Pepper in the Balaghaut and the 1st. Crop of Rice throughout the three Talooks suffered considerably while in the Soogby lands in the Northern part of Honore which in moderately favorable seasons yield a remunerating return and to which indeed many of the Cultivators mainly look for the

payment

payment of their Government dues the crops were either Completely dried up or never even sown.

The season has also been marked by a more than usual number of casualties both from accident and disease and by much illness and suffering. Towards the fall of the year the cholera made its appearance in the Honore Taloork and prevailed there more or less for the space of two Months it then for a time disappeared but in January 1846 again broke out and raged though with less violence than before till the end of February above the Ghauts it cannot be said actually to have reached our district till late in November all the cases which occurred before that time having been those of Travellers who came from the Mysore and other places beyond the frontier bearing the seeds of the disease with them but from that time till the end of January it prevailed almost without intermission over the whole of Sondak and more partially during the Month of December in Bilghy. The disease as was the case last year was of an exceedingly mild type the

deaths bearing no proportion to the numbers attacked and readily yielded to various remedies still such was the fear and the dread of it which prevailed over the whole of the upper Country, kept alive no doubt by the terrible reports exaggerated beyond even the frightful reality which continually reached them from the neighbouring Districts and the Mysore, that the Ryots seem occasionally to have become completely panic stricken, and that to such an extent that at one time it was even doubtful whether I should be able to assemble those of Sonda who dwelt in the frontier Maganies at my Summabundy while more than once on the occasion of a more than usually horrible report reaching them the men engaged on the public works fled in a body leaving their pay behind them. Small pox also prevailed to an unusual extent and with great virulence in the Taloorks of Honore and Sonda during the whole of the months of January, February, March, April and May. The numbers computed to have been carried off by both diseases are as follows.-

Men.

	Men.		
	Small Pocc.	Cholera	Total
Honore	159	218	677
Sonda	223	59	282
Bilghy	16	6	22
Total	698	283	981

Among the cattle disease was most prevalent during the Months of April and May but I likewise saw many dead and dying when on my tour in January and February - The Mortality however was not at any time so great as to call for any especial remark - The numbers which perished are as follows.-

	Cattle.		
	Cows	Buffaloes	Total
Honore	654	321	975
Sonda	846	617	1463
Bilghy	208	68	276
Total	1708	1006	2714

5. But though the seasons were thus unpropitious the value which on every kind of produce bore in the market and more especially Rice the very article

article regarding which the greatest apprehensions were entertained / for as regards Pepper last years supply for reasons given in my report for 1254 was still for the most part in store / was such as amply to compensate to the Growers for any deficiency in Amount - This will be sufficiently demonstrated by the subjoined table in which an average of prices Current in the year under review is compared with that which obtained in 1254 and the rate assumed by Government - I shall merely premise that the great demand for rice arose out of the dearth which prevailed in Goozerat, and the adjacent Countries; and the falling off in the price of Sonda grown Soopary to the same circumstance in the Hyderabad territories the Scarcity of the means of subsistence having put it out of the power of the usual consumers to indulge in the luxury - That of Bilghy owes its slight increase chiefly to the circumstance of large investments having been made by some Merchants of Padatoor in Cuddapa but in part no doubt to the intrinsic Superiority of the Article.-

The

Fort St. George 12th November 1846.

The decrease under the head of Coomery may be attributed to the order lately issued prohibiting this species of Cultivation in places where Teak trees may be found growing. That under the head of Motursha partly to ordinary causes such as death, desertion, &c. but in a great measure to the operation of the rules abolishing the Inland Customs which have as was to be expected had a very material effect upon the fortunes of the numerous Soucars and Brokers settled in the District especially at Sircy.

The only additions which seem to call for any comment are those mentioned in the Table under the head of increased produce. These have all been imposed after a very careful inquiry as to the actual produce of each Wurg and its capability in other respects of paying something nearer to its full assessment than heretofore - and I think judging from the amount which has already been collected, and that without any extraordinary difficulty, that such capabilities have not in this instance been overrated. Still the data in which the Revenue Officers have to go in making their annual Settlement and more especially that of the Honore Saloork are so loose and imperfect that the Sunky can never be very satisfactory and in too many instances I fear may be said to amount to little more than guess work - A disquisition of the causes which have led to such a state of affairs would be out of place in the present Report but I hope before long to have an opportunity of pointing out to you such as have occurred to me. I shall only here just observe

observe that the principal objection seems to me to lie in the irresponsible or rather unchekable power entrusted to the Maganypharbogues and their inadequate remuneration - As regards the remissions - those mentioned in the foregoing Table under the head of property destroyed by fire were granted only in cases of extreme hardship and where it would otherwise have been difficult to have realized the assessment while those under the head of injured crops and deficient produce were rendered absolutely necessary by the circumstances of the seasons. Connected with the latter however is a circumstance which calls for explanation and that is the transfer of 99 Wurgs from Bhurty to Kumbhurty - those all (at least all that require notice) lie in the Honore Saloork and with the exception of a very few in Hay Kenny Baylor and Soosgudy Maganies where the same causes were in operation in the Coomptah Mogany and are among those mentioned in Para 3 as having suffered most of all from the failure of the latter Rains - It was with the greatest reluctance that after repeated representations on the part of the Sahukar and at the urgent intreaties of the

chief

chief men of the Talook of all clapses and even then not until I had by despatching the Sheris-tadar to Anikola and thus by post poning the Summabundy till near the middle of April gained an opportunity of personally inspecting the lands and verifying beyand all doubt the extent of injury sustained that I consented to this transfer - All over the District from Bhutcul where I commenced the Summabundy up to Honore I had been assailed by similar requests both on the part of the Ryots and Revenue Officers but had steadily refused them on the plea that I should consider the touching a Bhurty Wurg under any pretext whatever short of absolute necessity a practical infringement of one of the 1st principles of the present system, and that Government might with as great a show of justice in a year of extraordinary plenty raise their demands beyond the fixed Assessment as they demand remission on the occurrence of any casual misfortune such as the alleged partial failure of a Crop and it was only on the consideration that most of the proprietors of these Wurgs, had not like their more fortunate first Crop Neighbours had it in their power to

to retrieve the losses caused by the seasons by taking advantage of the high prices which then obtained; and the representations of the Talookdars, that in the event of my refusing them, much difficulty would be experienced in collecting the Revenue without having recourse to the ultima ratio of selling the lands. That I agreed to make a small reduction on each Estate on the explicit understanding that it should peremptorily and without excuse be made good during the ensuing July and that the present favor was in no case or under pretext whatever to be urged as a reason why the Wurg should be brought permanently under Junky. But for this circumstance the number of Wurgs transferred to the head of Bhurty during the July under report would have been more satisfactory as may be seen from the appended table of classification of Estates.—

The total settlement of land Revenue including Coomery for fasly 1255 is Rupees 372368-6-3- of this 367593- 15- " Rs a p were collected within the year and 4518- ... 5. Rs a p between

Arrangements have already been made for the payment of a great portion of this and nearly all the rest (it is expected) will be made good before the end of December. Should however any balance remain uncollected after that period it will be duly investigated at the ensuing Summabundy.

10- Exclusively of the 105-1-4 which the Board directed to be remitted on the Estate of Goondil Anappah, I have the honor to annex a Statement of small sums in two of the Talooks which it has been found impracticable to realize and which it appears advisable should be written off.

Sir,

I have the honor to forward the usual Report for Fusly 1255 of the Talooks forming the charge of the Additional Sub Collector-

Mangalore
Bekul
Buntwal

2. The Summabundy of Buntwal and Bekul was completed before I joined the District in April last consequently the settlement of Mangalore alone devolved on me.

3 The Rumm Bhundy Estates or those not paying the full amount of Assessment in these 3 Talooks and classed under the heads of Tunky Board Defaulter and Wanda bear so small a proportion to the aggregate number that so far as the fluctuations on the actual yearly settlement of the Reaumm is concerned there is little to call for remark.-

4. The decrease now proposed is altogether a fanciful one, and cannot be allowed in the Settlement now in force. Indigo cannot be sold to the Raiyats and the Land thereby rendered so to the Sircar, as the Raiyats, whether they sow indigo or not, are bound to pay the Sircar rent for such Land. The Raiyats are bound to plough, sow & weed a certain quantity of waste Land for the Sircar, and if they do not do so, they are fined. The Land cannot be cultivated by the Raiyats without the Sircar's consent & such Land is therefore always entered in the Sircar Accounts as Land cultivated by the Raiyats. The Sircar Accounts are therefore the best evidence of the Land cultivated by the Raiyats, and the Sircar Accounts show that the Land cultivated by the Raiyats has increased every year.

5. The Sircar Accounts are kept in Canarese, and I have not had time to have them translated into English. I have therefore not been able to compare the Sircar Accounts with the Settlement of the Talooks.

There is a slight decrease on the whole in the Talooks of Bekul and Mangalore but the increase in Buntwal is considerable. The particulars of the additions and reductions which brought about this result will be found annexed and it is important to observe that the small deficiency is not owing to any individual cases of distress, or to circumstances affecting the general condition of the people, but strictly to those causes which it may be said leave no option to the Officers making the settlement and which are comprised under the 3 Heads of Loss of Crops Fire, and Lands uncultivated by the former

former is only granted on due enquiry and a conviction that the loss did not arise — from any actual or intentional neglect on the part of the individual ryot — losses by fire are seldom entertained as grounds for remission unless the Condition of the loser is such as to render him an object of consideration — there are many causes which annually lead to more or less land being left waste, the dispute of claimants, deaths of Proprietors at a late period of the season, involving to their successors the arrangements for the cultivation for that year which they are unable to make, tenants or servants absconding, and a variety of social causes too numerous to detail and here I would remark that the abolition of what is termed slavery has its share in these causes, and it will doubtless ever be deemed a great hardship by proprietors particularly those who are so by purchase and

and who unceasingly bring it forward as a great grievance that no remuneration has been afforded them, while increased expence and trouble to ensure the Cultivation of their lands have been entailed by the Act alluded to, and it is undoubted that then Estates which previous to its passing had been accustomed to pay the full Peiz have subsequently met with no remission whatever they have, it is true been loudly called for, but steadfastly resisted, as it would of course be impolitic and improper for the local Officers to interfere in individual cases in matter affecting a general question, and one which it is to be presumed must have received every consideration of the Legislature when enacting a law affecting the interests of a large and respectable body of land holders.-

7- The Records abound with Petitions and Complaints on this subject and though by the repeated rejection of them, the people are not now so clamorous, yet

yet it is only 5 days since that I had a case of the kind before me I have not thought it necessary to submit the account of each individual Estate to which the above remission were made for the past year the sum being small the above abstract will I presume embrace all that is contemplated by the Minutes of Consultation of the 5th August 1845.-

8- The usual causes of distress and which necessarily have a tendency to affect the realization of the Land Revenue, in addition to those of the season were not wanting in the past year indeed it is painful to observe by the Statement in the Margin that they far exceeded those of the year preceding which were at the time considered to be very great, I think these returns

demand reflection and I have no doubt they have received your separate attention when we consider the total absence of all assistance on disease breaking out in the District, it is impossible to avoid the conviction that some=thing might and ought to be done towards meeting the recurrence of such fearful ravages. There is only one Vaccinator permanently appointed to each Taluk the average pay of this class of servants is Rupees 10-8- and their knowledge is strictly confined to the qualifications requisite for the office they hold - Their jurisdiction is as follows -

	Square miles	Revenue Rs	a	p

9. Apart from the question of duty the Interests (financial) of the Government would seem inseparably connected with the health of a people

people from whom so great a Revenue is annually derived.-

10 The Establishment of a Dispensary in the Town of Mangalore has I understand received the favorable consideration of the Government, and if adopted it will doubtless be a great boon, no very great additional expense would partially extend it to the rest of the Commun=ity the appointment of extra dressers at the Bazar Station to be ready at any moment to proceed wherever an Epidemic breaks=out if they cannot be permanently located in those Taluks where disease is most prevalent would go far to rectify the evil at present there is no one available when sickness makes its appearance at a distance and the utmost that can be done is to send medicines which usually reach when the disease has subsided and for the due administering of which there is no guarantee.-

11. I hope I have not exceeded my province in these observations I can hardly consider

consider them out of place for while forwarding a Statement which is one of the many that is annually transmitted with the Revenue Report, and the subject being one intimately connected with the prosperity of that portion of the District under my own immediate charge it appeared to me my particular duty. Individual efforts could do little to effect what is required though I imagine it only wants the example of authority to ensure the support and aid of every Officer in the District at present it is our painful part to hear the Reports without the ability to afford the slightest relief.-

12- The mortality in Cattle the past year also greatly exceeded that of the preceding; this is always a source of great distress to the Ryot and is frequently urged though seldom of itself allowed as a ground of remission.-

13- As an offset against the foregoing causes of distress as affecting the Revenue there is to be considered the very great increase in the price of grain in the past

year the preceding year whether for export or for home consumption and which is shewn in the Margin by a comparative Statement of the Market prices during the last 5 years particularizing the excess of the past over the previous year this no doubt was most opportune both for the Government as well as for the Ryot it being universally admitted that this fortuitous circumstances alone relieved the latter from all embarrassment in making his payments while the Government

Sir

I have the honor to acknowledge the receipt of your letter of the 10th instant, with the enclosures noted in the margin, and in reply to transmit herewith a Statement of the Collection of the Revenue from Betelnut, Pepper, Cardamums and Cocanut for the month of October last, compared with the corresponding month of last year.

I have also the honor to enclose a Statement of the Revenue collected on the Article of Betelnut, during the month of October last, compared with the corresponding month of last year, and to request that you will be pleased to move the Board of Revenue to authorize the Collector of Tinnevelly to refund the sum of Rupees 1,000 which has been paid into the Treasury of that District, on account of Betelnut exported from Tuticorin to Ceylon, during the months of August and September last, in consequence of the Duty having been levied at the rate of 5 per Candy instead of 2½ per Candy, which is the rate of Duty established by the Regulation for the Ceylon Trade.

I have &c.

verifies what I have previously stated that the Collections were realized with comparative ease, the balance at the close of the previous July in these 3 Talooks amounted to Rupees 6,465- 13- " sum exceeding by Rupees 3753- 13- 3 the arrears at the close of the past, while the balance on the 15th of September last was the very small sum of Rupees 642- 13- 8: these are facts which I think in combination with others of a kindred nature afford grounds for the most pleasing inferences as to the Conditions of the agricultural classes in South Canara, and though much is doubtless due to those on whom the Collection of the Revenue immediately devolves, yet as there has been a gradual and very marked decrease in the balance sheet at the close of the July, for a series of years it may I think not unfairly be assumed as an earnest, if not of any actual progressive improvement, certainly that there has been no retrograde movement in the condition of the people.—

I subjoin a Comparative Statement of the Exports by Sea of Rice and Bettlenut from the Ports in the Talooks of Bekul and Mangalore the effects of this increase of trade which was felt throughout the District combined with the increase of price, as shown in Para 13 require no remark - but the export trade of Canara rice, whether as to quantity or Price, will ever be liable to very great fluctuations and the increase in the past year, was I believe exclusively owing to a peculiarly bad season and consequent scarcity in those Ports to which our rice is usually transported so that the past cannot afford any correct data, on which to form calculations for future years indeed as the reverse causes, must have corresponding effects there would seem every prospect that in

The Bhurly Wurgs as stated in my first Para bearing so great a proportion to the rest the statement does not perhaps call for any particular comment. It shews however an increase of 81 to the class of Bhurly Estates and a diminution of 32 from the Vyda class and beg to subjoin an explanatory statement of the foregoing which gives the precise particulars of the above result, shewing the different classes of what are termed Hum Bhurly Estates from which the increase to the Bhurly has been formed. The reduction of 32 Vyda Wurgs is the result of transfers from and additions to this class during the settlement, as circumstances necessitated the largest number deducted have however been added to the Bhurly according to the agreed instalments obtained in approximation to the Jarrow the rest from other causes have been transferred to the class of Junky, the difference of the net increase of Bhurly Wurgs is made up by transfers from other heads as particularized in the said Statement.

From the Coll[r] of Malabar— Stating that the trial of a year to see if the Government Golah at Mambat could not be dispensed with has proved unsatisfactory and requesting that the former establishment which was kept at abeyance may be re-entertained.

Sir,

On the 23d July 1845 the Government acceded to my recommendation that a year's trial should be made to see if the Government Golah at Mumbat could not be dispensed with, the supply of Salt for the Brinjaries and other Customers being left to private enterprise.

I regret to have to state that the trial has proved unsatisfactory and that I am compelled to request that the former establishment which was kept in abeyance till the result of the trial was ascertained may be re-entertained.

The Merchants on whom I had relied, though sufficiently lavish in protestation, have proved very remiss in performance— I have had great difficulty in collecting the price of Salt issued from my stores whenever it has amounted to a considerable sum— Delay in fixing it would have tended to the great injury of the Brinjaries who come all the way

14428 Fort St George 12th November 1846

way from Mysore on the faith of finding a supply at Mambut and I have thus been placed in an unpleasant dilemma.

My hope of success in this experiment was grounded on what I had seen done by private enterprise at the foot of the Ghats daily that by the Tellicherry Merchants— But the Merchants of Tellicherry have more spirit for trade of almost every sort than those of Calicut—

To the Chief Secry to Government— Submitting a letter from the Coll[r] of Malabar requesting that the Government Salt Golah at Mambat which was discontinued under the orders of Government dated 23d July 1845 may be re-established and that the former establishment at a monthly cost of 18 Rs may be kept entertained pending the recommendation that the application be complied with— from Malabar 15th May rect[d] 19th June 1845. to ditto 19th June to 23d July from ditto 23d July to 11th Augt—

Sir,

I am directed by the Board of Revenue to submit for the consideration and orders of the Hon[ble] the Governor in Council the accompanying letter from the Collector of Malabar, dated 14th Ultimo, requesting that the Government Salt Golah at Mambut, which was discontinued under the orders of Government dated 23d July 1845. may be re-established.

From the correspondence noted in the Margin it will be seen that in May 1845. Mr Conolly represented to the Board, that some

Fort St. George 12th November 1846

some individuals had offered to open stores for the sale of Salt at certain eligible spots near Manbut in lieu of the Government Golahs them established at that place and that he was inclined to think that the supply of this article to that part of the country might be left to private enterprise— He recommended however that the experiment should be tried for one year, with a view to ascertain whether the Manbut Golah could be dispensed with— The Government in Extract Minutes Consultation 23d July 1845 were pleased to accede to this suggestion—

3— Mr. Conolly now states that the trial has proved unsatisfactory, the parties on whom he relied having altogether disappointed his expectations, and he therefore requests that the Government Golah may be again opened, and that the former Establishment which was kept in abeyance until the issue of the Experiment could be known may be re-entertained—

Submitting the printed Statement of the Gross Collections Charges and Net Revenue of the Exctra Sources of Revenue in the Collectorate of Madras together with its accompaniments A-B-C & D for July 1255— 1845-46—

Sir,

I have the Honor to transmit herewith in triplicate, for submission to the Board of Revenue, the printed Statement of the Gross Collections, Charges and Net Revenue of the Exctra Sources of Revenue in the Collectorate of Madras, together with its accompaniments A-B-C- and D for July 1256— 1845/46—

2. The Gross Revenue from the sales of Salt for Home Consumption in July 1255 was Rupees 103928- 6— which falls short of the Revenue of the previous year by Rs. 18162- 3— In quantity the decrease is 1l. 7. 316- 5. owing chiefly to the number of Salt Country Carts, which usually purchase Salt when they return from Madras after the delivery of Articles of Merchandize which

which they are employed in importing. Having been considerably less from the want of water on the road for the use of their Cattle in the year under review than in the previous one, and partly to G. 67-47-7¼ having been sold in 1254 at the rate provided for by act No. III of 1844. Viz. Rupees 180 per Garce, whereas in 1253 the whole was disposed of at the uniform rate of Rupees 120 per Garce. The sales for exportations to Calcutta amounted to Rupees 13431-2-4 only G746-70— having been shipped at the reduced rate of Rupees 15 per 100 Maunds, whereas in 1254 the quantity shipped was G 1482-23—3/2 at Rupees 35 per 100 Maunds, which yielded Rupees 62246-7-2. The whole of the Ordinary Salt Revenue of 1255 is thus Rupees 117359-8-4.

3. The recoveries of advances to the Salt Manufacturers and the sale proceeds of certain Palmeira leaves &c. being added to the Gross Revenue, the Grand Total is raised to Rupees 117539-12-8, falling short of the revenue of 1254 (1844/45) by Rupees 68946-2-6.

4. The Ordinary receipt Rupees 117359-8-4 and the recoveries of Salt advances Rupees 147-7-— are separately entered in the statement of Demand, Collection and Balance to the 11th July last.

situation on the 18th January 1845, to the pay of the Sheristadar having been drawn up to the 19th January 1846 at Rupees 245 and afterwards at only Rupees 210 per Mensem, and to the discontinuance on the 8th August 1845, of the temporary Establishment of Peyguds for the prevention of smuggling.

7. The Increase in No. 2 has arisen from Cudeweirem having been paid in 1254/1844-45 on G 2647-39-8 only, whereas in 1255/1845-46 payment was made on G 3043-26-8 which includes the G 155—35-4-3 of Cumpsel Salt referred to in the correspondence entered in the Margin.

8. The decrease in No. 3 is equal to certain Arrears of Compensation for the suppression of Salt Manufacture paid in 1254/1844-45 in addition to the usual charges under this Head.

9. Advances for the manufacture of Salt were not made in 1255/1845-46 which accounts for there being no entry in No. 4.

10. The Increase in No. 5 needs no

no remark.

11. The Decrease in No. 6 is owing to G 1482-23-3½ having been shipped for exportation to Calcutta in 1254/1844-45 whereas in the succeeding year the quantity was G 746-7-0 only, and the charges for Boat Hire &c. on the latter were in consequence less.

12. The Decrease in No. 7 does not require any remark.

13. It is proper, at this place to bring to the notice of the Board, that, although some of the Servants of this Office are in daily attendance at the Bonded Warehouse to conduct the sale of the English Salt referred to in Para 7. above, the quantity disposed of between the 10th March and 11th July 1846, both days inclusive, has been only G 2-163-3, the average being Mds. 238-2¾ per Mensem.

14. After deducting the charges the Net Salt revenue of Fusly 1255/1845-46 is Rupees 62417-2-4, falling short of the like revenue of Fusly 1254 by Rs. 67694-13-7.

17. The particulars of the Outturn of the two Fuslies, which are exhibited in the Margin, will shew that the decrease in the revenue on Putta Arrack has been Rs. fees 9 606-3-5, on Batavia Arrack Rupees 7461-" 2 — and on Toddy Rupees 14043-6-7, and that in the Collections of 1254 / 1844-45. are included Rupees 723-" 8, being the amount of certain arrears due for the previous year.

18. In my letter of 25th Febry last No. 17. I reported that the Esctraordinary establishment of an unusually large number of Shops for the sale of Beer by retail at from 40 to 60 Cash per quart bottle, and on which no restriction could be imposed by the Police from there being no laws empowering the Magistrates to

to enterfere with them. Had occasioned a loss on Toddy to the 23d. of that Month, of Rupees 7534-2-2, which it was estimated would by amount, at the close of the Fusly to Rupees 15788-12-10. The actual loss on Arrack, to the 23rd February was Rupees 10,908—10—2, part of which I ascribed to the increased Consumption of Beer, and part to the distress from the increased prices of Grain and other necessaries of life for some Months previously. I observed that I was led to hope there would be no further loss of any great consequence under the head of Arrack, the state of the Grain Market having just then undergone a favorable change, but that change I beg leave now to state, was only of a temporary nature, for the Exports to Europe very soon afterwards enhanced the value of the staple article particularly alluded to so much that I was disappointed in my expectation of the progress of the evil, which affected the Abkarry revenue to a certain extent, being arrested by comparatively cheap prices ——

The

Fort St. George 12th November 1846.

19. The revenue on Arrack continued accordingly to diminish, so as to raise the proportion of decrease thereon from Rupees 10,908-10—2, the amount exhibited in Para 11 of my letter of 25th February 1846 to Rupees 17067-3-7. That this decrease is to be traced in some measure also to the unrestricted retail sale of Beer in the Black Town and its immediate neighbourhood is I think sufficiently proved by the fact of the sale of Putta Arrack within the limits of the Supreme Court having sustained a diminution of Rupees 1044—9—— whereas the amount realized by the sale without those limits exhibits an Increase of Rupees 438-5-7. the loss on Batavia Arrack, which spirit can be sold only within the said limits is Rupees 7461-——2. It is partly attributable to the causes stated above, and partly to the objectionable quality of the liquor supplied by the Commissariat in lieu of Colombo or Batavia Arrack

23 The explanation in Para 6 applies equally to the decrease in No 1.

24. The Increase in No 2 and Decrease in No 4 do not call for any particular explanation-

25. The Increase in No 3 is owing to the price paid for Jaggery for the distillation of Putta Arrack having been higher in 1255 (1845-46) than in the previous year, and to the Cost price of Batavia arrack supplied by the Commissariat having been raised in the year under review from As 8-10 to As 9—6 and As 9-8 per Gallon.—
